RECEIVE BASKET OF APPLES

The Standard acknowledges with thanks the receipt of a basket of apples grown in southwestern Michigan's fruit belt and sent by the board governing operations of the municipal Benton Harbor fruit market.

The market is run by the city, as a service to growers, truckers and buyers of fruits. This year there were 5,891,711 packages sold there. Citrus fruits trucked up from the deep south, watermelons from the central south, cantaloupes from Indiana, and potatoes from Missouri saw sale there along with the products of southwestern Michigan. Truckers and buyers from 26 states operated on the market this season.

Contents of the basket sent to The Standard were apples grown but a short distance from the market. The 16-acre, 300,000 market is a sight to see, and tourists are invited to inspect this huge enterprise at any time.

Imitation Pearl

Pearl essence or orient essence, is a substance made from the scales of certain fishes. It was formerly made from a fish found chiefly in Russian waters but is also made from the shad and herring of United States waters. In a very careful process which yields the fine grayish dust of the pearl essence. If the beads are hollow, the essence is mixed with gelatin and used to coat the inner surface, then the beads are weighted with wax. For solid head the essence is applied on the outside with airbrush or by dipping.

OUR NEIGHBORS

TECUMSEH—J. N. Satterthwaite, Tecumseh's oldest merchant, who is still active on the main street, will observe his 81st birthday on Sunday, November 22.—Herald.

DEXTER—Postmaster Gunningham is to be congratulated upon the fine appearance of the post office, which has recently been redecorated. A new hardwood floor was laid, new furnace installed, as well as all new metal boxes.—Leader.

PINCKNEY—Tuesday the various slot machines which have been clinking away merrily for the past year or so, or ever since Harry Toy's slot machine war collapsed, completely disappeared. Not one could be found anywhere. Rumor says politics figure in the matter and that the machines will probably be scarce for some time.—Dispatch.

JACKSON—Thanks to the Lions club again, Jackson will soon wear the ornaments of Christmas. Fir trees for the lamp posts and colorful streamers of evergreen rope stretching between buildings of the downtown area are to be put in place as soon as the Thanksgiving holiday is out of the way. The Lions club applied for permission to decorate the business district, a permission that was readily given by the city commission this week. This annual contribution to the yuletide spirit in Jackson by the Lions club is of real value, and enthusiastic cooperation on the part of store proprietors is confidently expected.—Evening Star.

CHARLOTTE—The smallest school in Eaton county this year is the Watkins in Brookfield township, according to Mrs. Irma Aronstein, clerk and child accountant in the county school commissioner's office. The Watkins school, taught by John Shaffer, has only two pupils, boys of 14. The West Windsor school, one room, has 47 pupils with Mrs. Grace Hampton as teacher. The Millett three-room school has about 100 pupils. There are two-room schools at Bretton Woods and Mulliken. Six of the county's rural schools have been closed, leaving 120 in operation this year.—Republican-Tribune.

MASON—Search on a nation-wide scale is being made for William Couch, prominent Mason business man who left the city November 6 for Philadelphia. Mr. Couch is manager of the C. W. Couch & Son implement store. He also has the local agency for Buick and Pontiac motor cars, several radio and washing machine agencies and was prominent in oil lease buying. For the past three years he has bought heavily of wool and pelts. From information obtained in Detroit by police officials, sheriff's officers, employees of the Couch firm, it is believed Mr. Couch drove his car to Detroit, then boarded a plane for Philadelphia, where he negotiated for but did not conclude the sale of about 60,000 pounds of wool. It is known that he left Philadelphia November 8, returning to Detroit where the day following he took his car from the garage or parking lot. The next day on Tuesday, November 10, the car was returned to storage. Since that time Mr. Couch has not been seen.—County News.

BROOKLYN—Muri DeFoe, editor of the Charlotte Republican, who worked as political scout for Governor Fitzgerald, is taking a vacation. He traveled all over the state for the Governor and not being a fisherman many of the politicians now on vacation he is taking his recreation in more travel. Seen in Jackson on Friday he was taking the train for New Orleans which he said is about the only place in the United States he has never visited. He said that Mr. Fitzgerald was taking his defeat with good grace and would continue as the strong man of the party in Michigan where as Mr. Comstock who walked out on the democrats still had no place to go.—Exponent.

MASON—Mason's banking setup was changed Wednesday when the Dart National bank took possession of the First State Savings bank. On Thursday morning the Dart National bank opened for business in the location which the First State Savings bank had occupied since 1918. The Dart National bank has purchased the buildings and assets of the First State Savings bank. Negotiations for the sale and purchase have been conducted over a period of several months. National and state banking departments, the Federal Reserve bank and the Federal Deposit Insurance Corporation have given their approval of the sale and purchase. There is no merger of the two banks. The sale and purchase is outright. With the sale of the First State Savings bank to the Dart National bank, Mason will have two banks, the Dart National and the Farmers. Last June the Farmers bank observed its fiftieth anniversary.—County News.

Question And Answer Dept.

Ques.—Does an elephant eat as much as a mouse in proportion to their sizes?

Ans.—No. If an elephant could eat as much as a mouse in proportion to their sizes, the big animal would consume about ten tons of food daily.

Ques.—What is the meaning of "Eskimo" as applied to our Arctic inhabitants?

Ans.—"Eskimo" is an Indian name of the Algonquin tribe and literally means "eater of raw food". The Eskimos, however, call themselves "Yuk-Kuk", which means "the people."

Ques.—I want to ask you what causes the intermittent light that comes from the lightning bug?

Ans.—The firefly, commonly known as "lightning bug", produces light by bringing certain chemicals into contact with each other and thereby causing the oxidation of one.

Ques.—A headline in a daily paper said "Socialites Decently Married". I couldn't see any connection between that and the body of the news item. Can you offer a possible explanation?

Ans.—Yes. It was a typographical error in the item of a Chicago daily paper which was corrected the next day. The headline should have read "Socialites Recently Married."

Ques.—Did Joe Louis knock out Primo Carnera, or did the big Italian just give up?

Ans.—Joe Louis knocked out Carnera in the sixth round of a scheduled 15-round bout at Madison Square Garden in New York City.

Ques.—Does life exist on any of the other planets besides the earth?

Ans.—This is a mooted question. It has not been proven that it does. However, most all scientists are agreed that all life-generating agencies, such as air, light, climate, water, etc., exists on some of the planets in the solar system, from which they deduce the possibility of human life.

Ques.—Can you tell me what day of the week was Dec. 7, 1817? That was the date my great-grandmother was born.

Ans.—Dec. 7, 1817, was on Sunday.

Ques.—When were playing cards invented?

Ans.—It is not known definitely. There is a popular belief that they were invented during the reign of Charles VI, the insane king of France, for his personal amusement. The Chinese dictionary declares that playing cards were invented by a Chinaman during the reign of Seun-Ho about the year 1120 A. D.

Ques.—Is there such an organization known as the "Fidac"?

Ans.—Yes. "FIDAC" the initials of "Federation Interalliee Des Anciens Combattants". This is a federation of all the World War veterans in all the countries which have veterans' organizations. It was founded in Paris in 1920. The federation includes the American Legion.

Ques.—I have several 25-cent pieces (silver) but on each of them the date is missing. Were they coined without dates?

Ans.—The quarter-dollars you refer to were a former design and had the date on a raised surface. As a result it was found that the figures wore off very rapidly. The design was discarded and a new design made with the date in a more protected field.

Ques.—Why is a certain railroad called the "Nickel Plate"?

Ans.—This railroad was built in 1881, and at that time nickel-plating was becoming very popular and the process was given wide publicity. In commenting on the invention of nickel-plating and the building of the railroad the editor of a New York paper made a pun by saying that the new railroad which was to extend from New York to Chicago and St. Louis is N. Y. C. L.-plated. These are the initials of the railroad with "St." omitted from St. Louis.

Ques.—When they say that water boils at 212 degrees above zero at sea level, and why are the words "sea level" used?

Ans.—It depends upon the atmospheric pressure as well as temperature to determine the boiling point. With each 538 degrees above or below sea level the temperature will increase or decrease one degree.

NORTHVILLE—R. T. Baldwin, Northville Record editor, was the victim shortly after 9 p. m. Wednesday of a bullet from a .22 caliber rifle which was shot from the Boy Scout shooting gallery in the Elliott building on Main street. He was rushed to the Atchinson Private hospital where an examination revealed that the bullet had lodged in the second rib in his right side, fracturing it and causing a loss of blood, but preventing the lung from being penetrated. An X-ray shows that the bullet, after entering Mr. Baldwin's back, traveled a course of eight inches to be imbedded in a front rib. A large sheet of boiler plate, used as a backdrop, fell to the floor, permitting the barrage of shots to go through the wall to penetrate the doors at the rear of The Record shop.—Record.

2 COR. 13-4

Blessed be God, even the Father of our Lord Jesus Christ, the Father of mercies, and the God of all comfort; who comforteth us in all our tribulation, that we may be able to comfort them which are in any trouble by the comfort wherewith we ourselves are comforted of God.

Oh, not alone for our own sakes
For our refreshing and rest,
Does God lay His hand on the throbbing nerves
And quiet the soul oppressed.
And not alone for our pleasure,
For the sake of our selfish ease,
Does He lift the weight of our burdens
Or in the storm speak peace.We are not store rooms, but channels,
We are not cisterns but springs,
Passing our benefits onward,
Fitting our blessings with wings,
Letting the water flow outward
To spread o'er the desert forlorn,
Sharing our bread with our brothers,
Our comfort with those who mourn.Learning our lessons to teach them
To others as needy as we;
Least those who come after should stumble,
Smoothing a path while we see.Goodness shall follow our footsteps,
And angels unnumbered surround
With Glory and honor He crowns us
His mercies uncounted abound.We are weak but His Power upholds us,
And grants us the courage to live,
We are poor, but He gives us His riches
That we may have something to give.

why the SILENCE of Electrolux is
YOUR ASSURANCE
OF LONG SERVICE AT LOW COST

THE SILENCE of Electrolux is a definite advantage in itself. But it is also far more than that! It is constant proof of the basically different method of Electrolux operation. Electrolux has no machinery. A tiny gas burner takes the place of all moving parts... circulates the refrigerant, which is cooled by ordinary air.

It is this utter simplicity which makes possible lasting Electrolux efficiency. It permits an unusually low operating cost. (A cost which will never be increased through the inefficiency of moving, wearing parts!) It insures perfect food protection every minute of every day. And it reduces repairs to a minimum. Already, more than half a million American homes are enjoying the comfort and economy

of modern Electrolux refrigeration. Yearly more and more families are choosing this modern gas refrigeration which offers definite assurance of long service at low cost.

See the beautiful 1936 Electrolux models on display at our showroom. Inspect their many

worthwhile conveniences that save time and work.

Ask us about our liberal purchase plan. You'll find—as owners the country over have found—that Electrolux actually saves enough on refrigerating cost and on food bills to pay for itself. Come in today!

ONLY WITH ELECTROLUX CAN YOU GET

all these big advantages:

- No moving parts to wear
- Permanent silence
- Lasting efficiency
- Continued low operating cost
- Perfect food protection
- Savings that pay for it

EDITED BY THE PUPILS OF THE CHELSEA PUBLIC SCHOOLS

Band News

These are some direct quotations from our director of instrumental music, Mr. Hargreaves. He states: "Our aim for Chelsea high school is to make the best band in the lower part of our state and this can be done by cooperation from the students. Many of the details relative to organization are already fairly smoothed out. We expect to have a fifty piece band, if not more before the year is through. I would appreciate it if any person having instruments and who want to dispose of them or rent them would please see me. Many pupils have signed up for the band but are unable to find an instrument."

To any pupil wishing to join the band, Mr. Hargreaves says: "Come and see me, as it is never too late to join. The essence of any music department is in its beginners."

Members of the former band who still have the band books used by that organization or who know of their whereabouts, and are willing to let the school use them, are requested to contact Mr. Hargreaves.

The school has purchased some music, but in order to lighten expenses please lend the band books to us. The school has also purchased a saxophone, two French horns and one baritone horn.

After the membership of the band is more definitely settled, officers of the organization will be elected.

Debate News

The Chelsea high school debate team will partake in the first debate of the season with Dexter, on November 30, which will begin at 7:30, at the Dexter high school.

The first team to debate will be the negative, which firmly does not believe in government ownership of electric utilities. The team consists of John Fletcher, the first speaker, Ellen Adam, the second speaker, and Harrie Blecker, the third. Harold R. Allen, University of Michigan, will be the critic judge.

Chelsea high school is a member of Michigan High School Forensic Association, an organization developed to collaborate different schools to debate on one certain question throughout the year, this year giving the public many different angles of the case. This debate is the first in the preliminary series. By preliminary we mean that every school has four debates scheduled by this association. If the school wins three out of these four debates, they are entered into the elimination series, which, if you lose one debate you are out of the running. All these debates are scheduled by the association.

We believe everyone interested in the question, whether electric utilities should be governmentally owned and operated, or not, should attend these debates to see different points of view on the subject.

SPORTS

How does the combination of sports and education work together? This is a question a great many people have asked. Our task is to try and endeavor to make this topic clear to our readers.

In the first place, when participating in games and sports there are rules that must be obeyed. In this way children learn to obey rules, so that when regulations or laws are made they will know enough to obey them. If you don't obey the rules of a sport you are sometimes temporarily removed from the game. So they will learn to obey rules or take the punishment for violating them.

Our second point is the abundance of healthful exercise given by sports in school. The exercise you receive in school is very small because you sit most of the day, but combined with the exercise you received when actively playing in school sports it is enough to keep your body internally and externally fit.

The third advantage of sports is that it teaches cooperation and to work hard for good enough marks to stay on the team. All the members on a team do a particular part to make it a winning team. You need cooperation and teamwork among the players.

And last of all is loyalty. You have to have loyalty to the coach and team mates and you will fight side by side with them for victory.

In concluding I want to say this: Although education builds you mentally and sports, physically, they must be combined to make every boy and girl citizen of the United States an upright and strong defender of his rights and country.

Dancing Class

A lot of humorous rumors have been going around about the dancing class, but it is really a very nice thing. The young people of Chelsea are being taught the fundamentals of dancing by the professional, Roy Hoyer, of Ann Arbor. He is giving a series of six lessons of which three have already been given. One of the citizens of Chelsea was instrumental in persuading Mr. Hoyer to come here, and I think we owe that person a sincere thanks. So no matter how many rumors there are, I wish to assure you that it is of great benefit to the community.

Basketball

Coach Al Johnson's team had only two nights of practice this week, with scrimmage the main event each practice. Scrimmage began the latter part of last week and several short contests were held. The second team beat the first squad in a 15-minute scrimmage by a score of 4-3. However, the second scrimmage proved to be a rout by the first squad. This was primarily due to the numerous substitutions in the second string line-up.

Football

Although the '36 season is ended, the lettermen met on Monday at 11:30 to decide upon the color combinations, price, style of the football sweaters.

The Beehive

Oh, mother, Public Enemy No. 38 is here again!

Did one of those adolescent Sophomore boys say "Sing Me a Lullaby" to a tall blonde Senior girl Thursday night? The gentleman in the case sported a shiner on Monday morning of this week for the same reason. Seems he won't learn.

Three Senior girls who are sometimes referred to as the Three Musketeers or Black Sheep, seem to be doing nicely (?) by themselves. We find a happy home was broken up.

A blonde Senior boy (we think he's rather pretty don't you?) certainly believes in the old proverb "He who runs away will live to fight another day," or something like that. Anyhow, he really put it into practice last Saturday night. They say he raised quite a dust cloud in his escape.

That dark-haired Senior girl from Waterloo has abated her campaigning in Chelsea, and is now concentrating her efforts on Stockbridge.

That budding romance between Joan and Hank is now a blooming flower.

That super-man called "Onie" was courtin' a "gem" Friday night.

A new romance is started in the Senior class. Can there be a reason for Porky's new outfit?

Betty's been seen talking to a certain ex-football hero. Can it be that Goodell's slipping?

Have you seen the Derby and Hargreaves?

Has "Peter" gone the way of all good Fords?

Girls' Basketball

Up, down—back, touch, yes, you've guessed it. Miss Faver is again getting the girls' basketball team in shape. About thirty girls suffered the effects (?) of the exercise but were out for the next practice, rip-roaring and ready to go. The girls already have scheduled six games. Strenuous practice has been underway ever since Monday and their first game is scheduled for Tuesday, December 8.

Second Grade

Look at this list! We have not been absent or tardy these last six weeks: Robert Daniels, Thelma Hill, Douglas Hoppe, Patricia Hopper, Murray Merrill, Loren Munro, Paul G. Schable, Robert Schneider, Robert Sidwell, Helen Vail, Jack Winans.

This is book week and this is our motto: We're careful not to tear our books. To soil or to destroy them; We only mean to keep them clean. So others may enjoy them.

We've brought a nice selection of books to school to share with our friends. We like the pictures and some of the stories, we can read by ourselves.

On Friday afternoon we were entertained by the Third grade. They gave a little playlet which told about books and how they should be treated. Some of the children gave poems about books. It was all very nice.

Mrs. Hopper visited us one afternoon and listened to our reading class. We were glad to show her how we had worked. Mrs. Krantz also came in to see us.

We are learning to add three figures together and is it fun! Bragdon Barlow's birthday comes on the 27th day of Nov., the day after Thanksgiving, so we are going to help him celebrate on Wednesday the 25th. He will be seven years old.

On Wednesday the 25th our report cards will be given us for the second time. We hope they show how hard we have worked.

Hurrah for the turkey! We are getting ready for Thanksgiving and some of our turkey pictures are quite life-like!

Third Grade

These children have been neither absent nor tardy since school started: Eldore, Jack, Leroy, Edwin, Shirley P. and Audrey. For the past six weeks Robert B. Marion, Jean, Robert F. George, and June have had perfect attendance.

We are happy to have such a fine worker as June Vail in our group. She is our only A pupil. Perhaps next time we can add another to our list.

With the money left from our Hal-

loween fund, Miss Leetz bought two books for our room. One is about birds, the other is a collection of stories.

Friday we gave a Book Week program and invited the second grade. They were a very courteous audience. We shall invite them to our room again. We had another visitor, Mrs. Eaton. She liked our program too.

We are glad she did because we know she is interested in books. Mrs. Eaton had bought three new books. The third grade decided they would be first to read those books. We liked the Indian book because we are studying about Indians, and the book is easy enough for everyone to read.

Fourth Grade

The following pupils were not absent during the last six weeks: Norman A. Frank A., Willard C., Donald E., Willard E., Nancy E., Jimmy G., James G., Eva G., Phyllis H., Mary K., Willetta L., Flo-Ann L., Melva M., Robert N., June N., Ruth P., Mary Lou P., Robert R., Ruth Ann S., Bobby S., Earl Van R., and Reynolds W. We like those books that Mr. Blecker sent over to our room.

For Book Week we learned how to make a bound booklet. We are using it for our Eskimo stories.

These pupils still have 100 per cent on the Conduct Chart: Roselle B., Willard E., Eva G., Marjorie G., Flo-Ann L., Naida O., and Robert R.

We're trying our best to keep our health rules so we may wear a badge.

Fifth Grade

Everyone has been here every day this week except two pupils who were ill one day.

Our "Arithmetic Football" game scheduled for last Friday and which was postponed on account of tests last week was played this Friday with a tie score. Next week our game will be on multiplication of fractions. Fractions are really easy—so say they all.

The Girls' and Boys' Council, with the president in charge, conducted a Citizenship class on Wednesday. Some of the things which contribute to good citizenship were discussed. A vote was then taken as to who in the grade qualified as good citizens. Some of us fell far short of the requirements so our motto is "Improvement" from now on. At the next meeting other good citizenship requirements will be discussed and voted upon. By the end of the year we all hope to understand just what good citizen requirements are and better still to be able to fully qualify as such.

Those who have been neither absent nor tardy for the second period are Eugene Aldrich, Carlton Christwell, Jane Christwell, Jean Christwell, Mary Christwell, Constance Coburn, Doris Collins, Ruth Cooper, Robert Eaton, Richard Foor, Joseph Hale, Eva Harris, Betty Holderman, Dorothy Knickerbocker, William Langowski, Virginia Miller, Ruth Osterle, Sumner Osterle, Raymond Parsons, Louis Policht, Estelle Riemenschneider, Bessie Rudd, Ruth Slane, Elaine Schmidt, Eugene Townsend, and Barbara White.

Sixth Grade

Luther K. brought some postcards with pictures of London on them. The pictures were about the Ring of London, and other important things about London.

The Sixth Grade had a spelldown Thursday afternoon. Only the ones that had one more right than last Wednesday could be in the spelldown. Dorothy B. and Donald K. were the captains. Donald Knoll's side won. Dick S. stayed up the longest and Billie O. second.

In our Weekly Readers we found an interesting piece of news about a science scrap book. The winners will receive a microscope or a chemical set. They are going to give away three of each prize. We are going to try to get a prize.

We are glad that Margaret Knapp is back with us again. She said that she was happy to get back and that she wished to thank us for the box of fruit and the rhymos we sent her.

Dorothy B. went to the hospital last Monday to have her tonsils taken out. Also, Donald K. had to go to the hospital for a check-up on his arm.

The people who have been neither absent or tardy during the last four weeks are as follows: James B., Caroline B., Charles D., Helen G., Luther K., Janet M., Edit M., Doris P., Stanley P., Dickie S., Rowena F., Douglas M., Russell S., Irvin S., Wilma S., Bobby S., Richard U., Betty R. and Bertha F.

We have a mounted Loon from the basement of the grade building. Rowena F. brought a mounted Canary too.

We are nearly finished with the British Isles in Geography. Next we are to study British possessions in Africa.

In Language we are making floor talks about "Todd's Asylum" which is in our Elson Reader. Doris P. and Evelyn L. have had the best ones so far.

We hope we can visit the Chelsea Standard office some time after Thanksgiving vacation, which is on Thursday, Friday, Saturday, Sunday.

Seventh Grade

We made some rainfall maps in Geography.

We have some pictures of different kinds of weather posted. This week we are giving reports about something in connection with the weather.

Miss Hannigan has put up some pictures about Thanksgiving.

The cartoons Lawrence and Leonard drew for History are on the bulletin board. We would be very glad to have anyone come in and see them.

Jeanne Meservy brought a book for Miss Hannigan to read. The name of it is "Really so Stories."

Last week was book week. Most of

us went to the library on Wednesday to get books for our book reports.

The following people have been neither absent or tardy the past six weeks: Lawrence D., Charles L., Jack M., Junior M., Richard S., Bessie S., Leonard S. and Donald W.

We have started our fourth chapter in History.

Cruelty to Animals

Lawmakers all go to bat to suppress cruelty in any form to man or beast. All the states seem to retain the criminal offense of docking a horse's tail, although evil consequences may be avoided in Michigan by obtaining from a veterinary surgeon a certificate stating that it was necessary for the "health and safety of such horse." Many of these statutes are longer and more detailed than the murder statutes in the same books. Often, of course, a companion law is found making it a similar offense to crop a dog's ears "except where performed by a registered veterinary surgeon while the dog is under an anesthetic."

SAVAGE SCHOOL NEWS

The box social held at Savage school November sixth was a great success. The proceeds of the evening amounted to \$443.59. Games were played during the evening and the prizes consisted of donations by the neighbors. Cider, doughnuts, hot sandwiches and coffee were sold.

Our beginners, Frederick Weber and Alta Young know over one hundred and twenty flash cards. They are also learning to write sentences and words.

Lake of the Sky

Lake Tahoe in California is 6,225 feet above sea level. This exceptional body of water, 23 miles long and 13 miles wide, is called the Lake of the Sky for two reasons. One is its lofty altitude and the other has to do with the remarkable manner in which the waters reflect the blue of the sky as well as the surrounding heights of scenic beauty.

STEVENS-FAHRNER WEDDING

Miss Edna Mae Stevens, daughter of Mr. and Mrs. A. L. Stevens, Lincoln Ave. N. W., Grand Rapids, chose Saturday, Nov. 21 as the day for her marriage to Robert H. Fahrner, son of Mr. and Mrs. Herman Fahrner of Chelsea. The ceremony took place at 4 o'clock in Valley Avenue Methodist Episcopal church. Rev. William H. Irwin performed the ceremony.

The church was prettily decorated with baskets of bronze and white chrysanthemums on either side of the altar which was banked with palms and lighted by two seven-branch candelabra.

The bride, who was given in marriage by her father, chose a gown of royal blue transparent velvet with matching accessories, and carried an arm bouquet of white chrysanthemums. Miss Lillian Demsey attended as maid of honor and wore a gown of Burgundy transparent velvet with matching accessories and carried an arm bouquet of yellow chrysanthemums and rust colored bebe mums.

Dale Stevens, brother of the bride, assisted the groom as best man, while Bud Klaiber and Al Wolpert ushered. Mr. and Mrs. Gordon Weeks of Detroit completed the wedding party as master and mistress of ceremonies.

For going away Mrs. Fahrner chose a dress of green crepe with a matching felt hat. Her coat was gray wool with gray fox collar.

PALMER SCHOOL NEWS

The third month of school closed on November 20 with an attendance of 94 per cent.

Children who were neither tardy nor absent are: Junior Hibbs, Elsie Peterson, Howard Smith, Lawrence, Robert and Wesley Unstead.

Clarence, Arthur, Felix and Martha Soller left our school on November 12. They now attend the Mt. Hope school.

We are very proud of our new flag pole which was erected by members of the school board. It is the first flag pole ever to be placed on the school grounds. It is at the southwest corner of the school house.

A member of the American Legion, Post No. 29, called at our school on November 13 and presented us with a beautiful new flag. A short program was also given in which the school children took part.

Our first grade has finished reading the Pre-Primer and they are now reading in the Primer.

Clare Wahl and Virginia Unstead are the members of the third grade. They have finished one reading book and are reading in another.

Many attractive safety posters have been made by the pupils of all the grades.

Elsie Peterson had her sixth birthday on Nov. 18. Her mother made some delicious cup cakes which Elsie brought to school and presented to the children.

Our bell has been broken for a long time. It is fixed again and it seems good to hear it ring.

The members of the second grade have been having an Arithmetic contest. Every time they have a perfect lesson they add a section to a Thanksgiving picture which they are building. Virginia Wahl has her picture almost completed.

Romans Used Legal Seals

The seal played a great part in legal documents in ancient Rome and our own use of seals in legal documents is derived from the Roman practice. Caesar Augustus authenticated his edicts with one or another of his signs, a sphinx, a head of Alexander or a signet bearing the likeness of his own head. Maecenas, the famous patron of literature, used as his seal a frog, a device then much dreaded, as it was associated with fresh taxes.

Tobacco Smoker

Jean Nicot died in 1800 after having won immortality as the man who made tobacco-smoking popular in Europe—under the impression that the leaves had curative qualities. He made his "discovery" while French Ambassador to Portugal. There, when Oviedo brought over the first tobacco plants from the New World, it was regarded as merely a kind of potted blossom of no practical value.

Some Drugs Lose Strength

Many drugs, irrespective of how and where they are kept, lose their strength and efficacy within a few months. Others, states Robert J. Wehrle, Norwood, Ohio, in Collier's Weekly, such as Epsom salts, soda and niter, keep indefinitely in their original condition; while some, such as laudanum, actually become stronger with age.

Every day the papers write of hunting accidents. "Hunter Accidentally Shot." "Rifle or Shot Gun Explodes When Hunter Drops Gun." And so on.

A loaded gun should not be taken into a house, hunting shack, or car. Many times some other person tries out the "sight," pulls the trigger, and a fatality is the result. Pulling a loaded gun through a fence by taking hold of the barrel is a dangerous stunt.

Do not clean a gun until you have made positive inspection of chamber and barrel. Never point a gun at anybody. It's a foolish and senseless action.

The supposedly unloaded gun is the gun that has killed many people. If you cannot handle a gun, stay away from it.

Cancer Education Campaign Organized

Believing that many forms of cancer are curable when adequately treated in their early stages, the Joint Committee on Public Health Education with the leadership of the state medical society has launched a state-wide educational campaign which will bring to every interested organization in the state the facts regarding the cause, prevention and cure of cancer.

Ranked second only to heart disease as a major cause of death, cancer took 5,191 lives in this state last year. Armed with pamphlets, illustrated lectures and the cooperation of local medical societies, more than a score of member organizations of the Joint Committee will take a leading part in attempting to halt Michigan's rising cancer death rate.

Speaking before the public health conference at Lansing last week, Dr. Carl V. Weller, director of the University pathological laboratories, sounded the keynote of the campaign when he declared that in the light of present knowledge the cancer death rate may be decreased 25 per cent or more. Early diagnosis of the disease is imperative, said Dr. Weller, for it is in this early stage that successful treatment is possible.

Acquainting the public with the knowledge of what cancer is, its early signs and methods of prevention will, it is believed, encourage this early discovery and cure. Cancer, a disorderly growth of body cells which may spread throughout the body, may be indicated by the presence of any lump or mass in the breast or any other part of the body; any sore which does not readily heal, particularly on the face or in the mouth; or any unusual discharge or bleeding from any part of the body. Pain is not an early symptom.

The Joint Committee with offices at 107 Haven Hall, Ann Arbor, will act as a clearing house for information regarding cancer. An illustrated lecture given by physicians may be arranged for interested groups, and educational leaflets and detailed pamphlets are also available free upon request.

Costs But Half To Delouse Now

It's about this time of year, when cattle are brought in from fall pasture, that they begin rubbing poles and sides on fencing, posts and buildings to ease the itch caused by cattle lice. If they are deloused now the cost can be half that of doing the job in colder weather, says C. B. Dibble, extension specialist in insect control at Michigan State College.

Older animals that have been sprayed for flies during the summer may be free from lice, but young stock likely is infested and can spread the lice to stablemates. Sprays applied now are far cheaper than dusting powders necessary when cold weather prevents spraying.

Stock dip or a solution of any of the advertised brands of pyrethrum plant sprays are recommended. Usually the strength of the latter is at the rate of one ounce to six and one half gallons of water, or one to 800 strength.

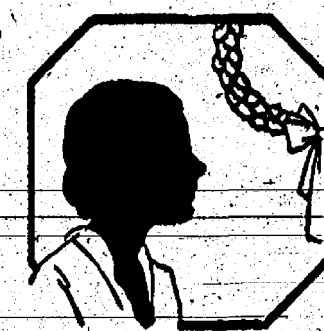

A gallon and one half of spray applied as a fine mist with a knapsack sprayer usually is necessary to soak the animal thoroughly. Spraying, says Dibble, must be repeated in 14 days for a clean job as the nits or eggs are not killed.

"Spraying or dipping can be done for three to five cents per animal," Dibble reports. "If the job is neglected until cold weather when the animals literally begin to rub the barn down, powder must be used for safety. Four ounces of powder for each animal, applied twice in a 14 day interval cost 10 to 12 cents per animal. Treat animals in warmer weather and prevent losses at a low cost for a treatment."

Lakes Filled With Dust
American lakes have been known to develop mists of vegetable matter so deep and strong and so covered with wind-blown dust that they appeared to be solid ground. In one case, notes a writer in Collier's Weekly, a railroad line was constructed over such a surface and the mistake was not discovered until the first train ran over the track—and sank out of sight.

Genghis Khan
Temuchin, son of Yesukai Bahadur, was born in 1182 near the northern bend of the Hoang-ho river, in Mongolia. He was only 13 when he ascended his father's throne and announced with youthful confidence his intention of conquering the entire world. He did in 20 years become master of all Asia and Eastern Europe, destroying—it is estimated—in his wars and expeditions at least 5,000,000 lives. History knows him by the name he gave himself, Genghis Khan ("greatest of kings"). He was great as administrator as well as warrior. He was tolerant in religion, encouraged popular education and established laws against crime so rigid that it was said that one might travel from one end of his vast domains to the other without molestation.

M. C. STARTS FREIGHT PICKUP
Free pickup and delivery of less than carload shipments on the Michigan Central was instituted on Monday morning. Under the new arrangement trucking companies will deliver such shipments from the freight house to the consignee free of charge if the freight rate under which shipment was made amounts to 45c per 100 pounds, or more. Freight rates were not increased. The pickup and delivery here will be handled by E. H. Chandler, under a contract similar to those in effect at other points. Shippers who provide their own pickup and delivery will be allowed five cents per 100 pounds reduction in freight rates, if their shipments have a minimum rate of 45c per 100 pounds.

Fever Bush

Fever Bush is a shrub, common in the northern United States, growing from 4 to 15 feet high. The bark is aromatic and a decoction is used as a stimulant in fevers. The berries are bright scarlet in autumn and occasionally have been used as a substitute for allspice. The shrub is sometimes called spicebush and wild allspice.

IN MEMORIAM

In Memory of Mike Cerwinka, November 25—

Only a thought,
Only a tear,
Only wishing my brother were here.

Two years have passed,
You are still dearer at last,
Your vacant chair,
Your empty home.

No more around us you may roam,
We often look upon your face
Where in your earthly bed you lie,
Sorrow and sadness came to our home.

Since loved one you were slain,
Your dearest friends some day
Will think of you,
When on their earthly bed they lay.

The cruel death on Sabbath day,
Where upon the field your painful
body lay,
Soon at the judgment they will find
The debts to pay.

For innocent blood whom thou had
shed,
To satisfy the sinful ones;
No more they see you face to face,
Nor at the judgment gate.

With tears and sorrow the years roll
by,
Until we meet beyond,
Where we may part no more.

Health Exhibit Will Open In Ann Arbor

The largest traveling health exhibit in the United States will open Monday, November 30, in Ann Arbor, Theodore J. Werle, executive secretary of the Michigan Tuberculosis Association, announced this week. The big display will be housed at First National Bank Building, corner Main and Washington streets, and will be entirely free to the public. It will be open daily from 9 a. m. to 9 p. m. and will remain in Ann Arbor through Tuesday, December 1.

Brought into Washtenaw county by tuberculosis Christmas Seal funds, the showing will be sponsored locally by the Washtenaw county branch of the Michigan Tuberculosis Association. In conjunction with the exhibit, "Contacts" and "Behind the Shadows", both talking pictures, will be shown each evening at 8 o'clock.

The health exhibit was recently voted highest honors by the American Public Health Association. Particular praise was bestowed on the exhibit for treatment of a highly technical subject—tuberculosis—in a manner that is clear and understandable and yet scientific accuracy is retained.

"There are more than thirty panels of photographs, drawings, paintings and charts all dealing with the nature, cause, prevention and treatment of tuberculosis," Mr. Werle explained in discussing the exhibit. "There are actual X-ray pictures, showing active tuberculosis. A large spot map of Michigan shows, by means of tiny human figures, how many persons died from tuberculosis in each county in 1935."

More than sixty Michigan communities will have seen the health exhibit when the tour is completed. It is one of many Association activities which are financed through tuberculosis Christmas seals.

Does Not Envy Neighbor

"I do not envy my neighbor, Ho Hum," said Hi Ho, the sage of Chinatown. "He is so prosperous that he feels it necessary to yawn in perpetual boredom in order to call attention to himself as a tired business man."

Expression "Dark Horse"

The expression "dark horse" originated in Tennessee many years ago. Sam Flynn, a horse trader, had a black horse entered in a race. His name was Dusky Pete. He wasn't figured to have a chance, but he won. Later, when some one asked which horse had triumphed in the race, the man who didn't know its name, said: "Oh, it was Flynn's dark horse."

Mail for Tristans Not More Than Once a Year

To the inhabitants of Tristan da Cunha, the world's most isolated bit of land, Christmas comes when the mail comes, observes a writer in the Washington Post.

The tiny island is set in the South Atlantic, midway between the Cape of Good Hope and Cape Horn. Thunderous seas break almost continuously over its bleak and forbidding shores. Winds of hurricane force roar day and night.

But because it is a part of the far-flung British empire, Tristan receives at least one steamer visit a year, but few more. There is no anchorage so the vessel stays off shore and, awaiting a rare calm spell, sends landing parties in small boats.

The arrival of the vessel is the high spot of the year to the 150 or so Tristan—descendants of a small group placed on the island 100 years back when England took possession. The people are hardy and frugal. Their diet consists entirely of fruit, potatoes, fish and mutton. Though monotonous, the diet agrees with them.

and among its earliest uses was its
application to scorpion bites, which
it was believed to make innocu-
ous. A later generation made a
cough syrup of mustard by boiling
it with dried figs in strong ale. The
custom of grinding the mustard
seeds and sifting them to a fine
powder, the form in which we use
it so frequently, dates back to 1720,
when an English woman known to
history simply as "Mrs. Clements
of Durham" made the experiment
and found it tasty.

Animals Require Sunshine
Sunshine is valuable for animals. If
they do not get enough they may suf-
fer from rickets, just as children. In
zoo, sunshine is a "breeze" partly
because which affects animals and partly
because of the warm, soothing sun-
shine. When sunshine is an
available zone, the animal's health is
improved. The medical equipment of most
zoos includes ultraviolet ray lamps
and the winter routine includes sun-
light treatments. Like model babies,
zoos and gardens, hippopotami and
monkeys get their share of irradiated
tools and cool liver oil is part of their
diet.

Noon and Midnight
According to the United States naval
observatory, 12:00 m. is almost uni-
versally used to designate noon. M. in
its connection is an abbreviation of
meridian, which is the accusative of
the Latin meridiem meaning midday.
Midnight is properly designated 12:00
n. m. Frequently one sees 12:00 m.
(noon) and 12:00 n. (midnight), but
these abbreviations are confusing. Be-
cause of the difference in usage some
writers dispense with the abbreviations
in designating noon and midnight and
write 12:00 noon and 12:00 midnight.
