Seal Coat Surfacing
of Streets is Started

Sprinkling of oil on Chelsea streets was started this week and if weather conditions are favorable all streets in the village will be dustless within the next two weeks, according to those in charge of the work. Two carloads of oil (about 16,000 gallons) has been received and another carload will arrive within a day or two.

The oil is being sprinkled on one side of streets and a layer of sand placed over the oil as soon as possible. This allows ordinary traffic to proceed without driving in the freshly applied oil and eliminates the necessity of closing the streets when the work is being done. However, it is requested that operators of motor vehicles keep off streets as much as possible where work is being done.

It was originally planned to surface some of the streets with a three-inch oil aggregate mixture this year, but due to the fact that the base on many of the streets was not in shape for this mixture, and because of unfavorable weather during most of the summer it was decided to confine the work to giving all streets the seal coat treatment, which will make them dustless and will provide a good base for the oil mix at a later date.

The oil is being applied by the S. G. Hayes Co. of Detroit, and W. J. Emmons of Ann Arbor is supervising the work.

The resignation of Ed. Miller as village treasurer was accepted at the regular meeting of the common council on Monday evening. The resignation was made necessary because of Mr. Miller's appointment as chairman and mail messenger at the new post office. Mrs. Ed. Miller was appointed to the position as village treasurer by President Roy Harris and the appointment was confirmed by the council.

Action was also taken at the Monday evening meeting to extend the date for completion of the sewage disposal plant to December 1, 1937. The original completion date as called for in the contract was September 1, but because of inclement weather and shortage of labor the plant will be only about 70 per cent completed on that date. The village clerk has requisitioned the federal government for the intermediate grant of about \$6000.00. The first grant was about \$14,000.00 and when the plant is completed there will be a final grant of approximately \$6000.00.

Picnickers Hear About
Progress of the AAA

Progress of the federal soil conservation program which in the past 12 months paid \$7,300,000 in grants to more than 100,000 Michigan farmers was explained recently in a picnic program for farmers on the campus of Michigan State College at East Lansing.

Under the auspices of the Michigan agricultural conservation association, the featured speaker was H. R. Tolley, administrator of the AAA in Washington, D. C. He complimented Michigan agricultural leaders and farmers for their participation in the soil conservation program. This year he estimates 117,000 farmers in this state likely will participate in the soil conservation projects aimed to tie down the soil, make farming more permanent and interest land operators to use more profitable practices. Maurice Doan, Lansing, chairman of the state committee, complimented the 4,000 local committeemen in every community in the state. They helped survey all of the 200,000 farms located in Michigan and checked performance by individual owners, tenants and landlords.

Picnickers made use of the college campus at noon for basket lunches. They were attracted especially by an exhibit of aerial photography set up near the bleachers and platform erected outdoors. The aerial survey work under progress in 16 southeastern Michigan counties will cover 10,300 square miles. Use of the maps likely will continue for several years, as the mapping by airplane is for area only and not for participation or compliance with the federal programs.

HONORED ON 87TH BIRTHDAY

Mrs. W. K. Guerin entertained at dinner on Sunday in honor of Mr. Guerin to celebrate his 87th birthday. The guests were Mr. and Mrs. Ashley Holden and Mr. and Mrs. Charles Guerin and son Charles of Detroit, Miss Edith Guerin of Monterey, Cal., and Miss Stella Guerin of Ann Arbor. Mr. Guerin was presented with three beautifully decorated birthday cakes. Beautiful bouquets of garden flowers were presented by Mrs. Chauncey Freeman and daughters, Ruth and Enid, and Mrs. David Mohrlock.

A number of friends called on Sunday afternoon to extend their best wishes and congratulations to Mr. Guerin.

D. H. Bacon of Detroit was an over night guest at the home of Mr. and Mrs. H. C. Schneider on Tuesday.

Lansing—Michigan is one of three states in which the federal government has found eggs to meet requirements for fancy grade. Other states are Washington and Oregon.

These facts, almost unusual enough to merit Ripley's "Believe It or Not," were revealed here the other day by John B. Strange, agricultural commissioner, in announcing the adoption of federal grades for egg production in Michigan. The agreement puts the egg industry under federal pure food laws which prohibit the sale of eggs unfit for human consumption, and it takes the place of the previous "egg-by-the-pound" regulation.

Henceforth, Michigan eggs can be sold to the Mid-West market by four grades: Fancy, and A, B, and C. Have your choice!

Bigger and Better

Michigan's farm crops continue to grow bigger and better, according to the August estimate of the federal crop reporting service. Prospects are improved for corn, beans, apples, cherries and potatoes.

The winter wheat crop dropped about four million bushels to 19,670,000 during the month. Small declines were reported in oats, pears, peaches and barley. Despite heavy rains, the sugar beet estimate remained unchanged at 646,000 tons.

Other August estimates were: Beans, 3,570,000 bags and 3,170,000 tons; cherries, 39,100 tons and 37,120 tons; apples, 13,120,000 bushels and 12,792,000 bushels; potatoes, 31,130,000 bushels and 29,715,000 bushels.

Legislative Graft?

An inquiry into charges of Paul H. Todd, chairman of the state public utilities commission, that the state legislature failed to enact rural electrification legislation because "some members were employed by private utility interests" may be authorized by the state senate at the next special session.

Todd declared: "There is nothing to prevent legislators from being employed by special private interests on a retainer basis. We need a change in the statute so that publicity can be given on all such retainers by special interests."

The senate state affairs committee, of which Senator William Palmer, democrat, Flint, is chairman, refused to report out in special session a house bill giving vast powers to rural electrification associations. Palmer's (Continued on next page)

Grange Rally-Farmers
Picnic Next Thursday

The second annual Farmers' Picnic and Grange Rally, sponsored by Lafayette Grange, will be held at their hall, Lima Center, on Thursday, August 26. Basket dinner will be served at noon.

Stanley Powell, a representative of the State Grange, will be the principal speaker at the afternoon program. There will be plenty of entertainment, with all Granges of the county participating.

An invitation is extended to everyone to attend this big picnic.

GOV'T PROPERTY REMOVED

Frank R. Coburn, United States Deputy Marshal, reports that three roadside torches were removed last Friday night from the Mill Lake Road where the Waterloo Project is carrying on some grading work. Mr. Coburn's position requires that he make every effort to recover this property and that unless these torches are returned to their original location immediately, their complete description be turned over to State Police and other law enforcement officers for recovery.

Reference is made to Section 82 of the United States Code, Title 18, which applies to the theft of any property belonging to the Government and provides a maximum fine of \$10,000, imprisonment for ten years, or both.

ENTERTAINS ALTAR SOCIETY

St. Mary's Altar Society and their friends were entertained Thursday at the summer home of Mrs. F. W. Merkel, Cavanaugh Lake. An enjoyable afternoon was spent playing cards. Mrs. Paul Elsie received high score in bridge, Mrs. Joseph C. Dreyer in 500, and Mrs. John Young in Pedro. A pot luck supper was served, with covers for 35.

ENTERTAINS FOR BRIDE-TO-BE

Mrs. Paul F. Niehaus entertained the members of St. Paul's choir on Friday evening, honoring Miss Olea Seitz, whose marriage to Carl J. Mayer of Chelsea will be an event of the near future. Summer flowers centered the table, where lunch was served, with covers for ten. A gift was presented the honor guest.

Mr. and Mrs. P. M. Broesamle are spending several days of this week at Walloon Lake with their son, Dr. Kenneth Broesamle and family.

Case Warns "Crash"
Drivers of Added Cost

With the tide of highway accidents in Michigan on the upgrade, with its accompanying rising toll of life, limb and property damage, Leon D. Case, Secretary of State, has pointed out an act of the 1937 legislature which will make accident more expensive than ever for the person deemed responsible for them.

In 1938, the financial responsibility law was passed, barring from the roads any operator unable to satisfy a judgment of \$300 or more in property damage, or for any amount in personal injury, as the result of an automobile accident. Drivers are barred until they pay their judgments and even after that. In order to regain the privilege of driving, a driver must prove his future financial responsibility, as the law directs. "Proof" must be in the form of the posting with the Secretary of State, of \$11,000 in cash or negotiable securities, or the filing of a special form of liability insurance.

The 1937 legislature reduced the unsatisfied judgment provision from \$300 to \$150, which means, Case points out, that more drivers than ever will probably become involved in the law.

The most interesting feature of the law's operation, however, is that the overwhelming number of persons brought under the law are those convicted of drunk driving, rather than those unable to meet damage adjustments. Operators are barred from driving for three year periods following conviction of a number of moving offenses specified in the financial responsibility law.

It is believed, however, that with the lowering of the amount which will involve drivers in the law's provisions, that lack of financial responsibility, rather than lack of sobriety, will eventually be a major cause for disbarment from highways.

Farm Price Picture Is
Painted by Economist

Admitting that it is hazardous to speculate about the future by trying to be a prophet, an economist at Michigan State College ventures to paint a picture of what may happen to crop and livestock prices within the next few months.

Wheat prices are holding up well, says R. V. Gunn, economist, yet bean prices likely will be lower than they were in 1936 with an 18 to 20 per cent larger crop forecast. Potato prices likely will be very much lower than last year because the nation's crop is estimated at 400 million bushels against 330 last year.

Livestock, except for lambs, are expected to bring continued high prices for the rest of the year. Prices in 1938, however, probably will be lower, for experts anticipate a larger pig crop for next year's meat and also an increased number of cattle on feed this coming winter.

Although wool prices are considered good, lamb prices are decreasing somewhat. Until September, at least, slaughter supplies of lambs are expected to continue larger than a year ago.

A more favorable situation is anticipated by Gunn for dairy products. Production has increased, prices are higher and prospects of more normal harvests are expected to cut the price of feeds. Producers of eggs and poultry also can find encouragement, for the seasonal low price period is passed. Laying flocks probably will be smaller in size.

For almost a year, Michigan farmers have been receiving prices which have been comparable to the cost of commodities they buy. This occurs, Gunn's survey shows, after a period of over six years when prices received have been lower than prices paid by farmers.

SCHMID-IRWIN WEDDING

The marriage of Miss Hedwig Marie Schmid, daughter of Mr. and Mrs. Otto Schmid of Jackson, and Donald M. Irwin, son of Mr. and Mrs. Edith Irwin, took place Saturday evening in St. John's Evangelical and Reformed church, Jackson, with Rev. O. Walter Wagner officiating. An organ recital by Mrs. E. P. Grossman preceded the ceremony and the Bridal Chorus from Lohengrin was played as the wedding party approached the altar. "O Promise Me" and "I Love You Truly" were sung by Irwin and Schmid. Miss Maxine Irwin, sister of the groom, was maid of honor and Frederic Schmid, brother of the bride, was best man. The ushers were Donald Davidson and Ronald Rahmiller. A reception for 75 guests was held after the ceremony, and Mr. and Mrs. Irwin left on a trip to northern Michigan. They will make their home on the Irwin farm, Sharon.

24 YEARS AGO

Thursday, August 21, 1913

Miss Ethel Wright is now employed as a clerk in the Chelsea postoffice, taking the place of Carl Chandler, who resigned to accept a position with his brother at Charlotte.

Mrs. O. D. Luick and son Gerald arrived home on Sunday from a visit in Hart. They left Hart on Saturday and were detained all night at Muskegon by a railroad wreck.

Mr. and Mrs. P. Riemenschneider and Mr. and Mrs. C. Riemenschneider spent several days of the past week with relatives in Ohio.

The Vermont Cemetery Association is erecting a tool house in the northeast corner of the cemetery.

Alfred Wallace of Lyndon has begun marketing his crop of watermelons. He took his first load to Chelsea on Wednesday.

On Monday of this week Wheeler Brothers, while cutting hay on the marsh land of the homestead farm, killed five rattlesnakes, one of which had 12 rattles.

The Chelsea public school will open Tuesday, September 2, with but one change in its staff of teachers. Miss Katie Riemenschneider has been engaged to teach the sixth grade, made vacant by the resignation of Miss Hummel.

34 YEARS AGO

Thursday, August 20, 1903

The 16th annual meeting of the Improved Black Top - Delaine Merino Sheepbreeders' Association of Michigan was held on Wednesday at the farm of Charles Whitaker, with Mr.

and Mrs. Whitaker and Mr. and Mrs. D. Wacker the hosts and hostesses. Rev. F. A. Stiles, pastor of the Baptist church for nearly five years, has resigned to accept a call to Hudson.

The large barn on the Wilkinson place, just south of town, burned, with all its contents, shortly after midnight.

The C. E. Letts dwelling on South Main street has been sold to John Wellhoff. Miss Graham has sold seven acres of land to John Keelan.

Mrs. Jacob Steinbach of Lima township died Friday, August 14, 1903.

CHILDREN IN COURT

Judge Malcolm Hatfield

The Delinquency Prevention Council of Michigan has undertaken a splendid piece of work which should be supported by every social, civic, fraternal, educational and religious group throughout the nation.

This organization is serving as the nucleus of a committee to stimulate parental education and leadership in the fight against juvenile delinquency. To date, in conjunction with the Michigan Society for Mental Hygiene, it has sponsored a series of twelve radio programs over WWJ Detroit and is serving as a clearing house for information on delinquency prevention.

The Delinquency Prevention Council operates by interesting and coordinating the activities of clubs and organizations already in existence in each community. By uniting the local courts, press, police, schools, churches and civic clubs into one compact group, a unified front is presented in eliminating the various community and family factors that contribute to juvenile crime. The group is not only proving of invaluable assistance to the police and juvenile courts, but is now working on necessary legislation which should be enacted at the next session of the legislature.

Organizations such as the churches, newspapers, schools, Kiwanis, Rotary, Lions, V. F. W., Legion, Y. M. C. A., Federated Women's Clubs, Parent-Teacher Clubs, juvenile courts, etc., should contact Professor L. J. Carr at the University of Michigan, Ann Arbor, Michigan, if they care to participate in such a worthwhile movement in their own locality.

Markings of Human Hand

The shape and markings of the human hand are caused, not by the normal actions of opening and closing, but by a combination of factors far more important. It has been proved that both shape and markings are due to complicated interactions of mind, emotion and health factors. That's why hands reveal one's true self.

OUR NEIGHBORS

GRASS LAKE—The homecoming celebration will be held on August 19, 20 and 21.—News.

TECUMSEH—The business men of Tipton have placed 50 two-and-a-half gallon fire extinguishers in the homes here. This method will enable the residents to take care of small fires and also to keep a larger fire under control until the arrival of a rural fire truck.—Herald.

SOUTH LYON—A tip from a Boy Scout troop leader given to Deputy Sheriff E. J. McKinley, Sunday, resulted in the discovery of what federal agents say was the largest patch of marijuana ever found in Michigan.

Boy Scouts camped on the banks of the Huron River on the place known as the Martindale farm, and now owned by John Tireman, Detroit, noticed the weed, and Sunday, showed Deputy McKinley a specimen, saying that they believed it was the marijuana plant. McKinley notified Sheriff Howarth at Pontiac, who in turn gave the information to the Narcotic bureau of the treasury department.

Two government agents, R. C. Flannery and Arthur Caswell came out to look at the suspicious weed Wednesday, and immediately identified it as marijuana. Deputy McKinley and the government men then set to work to destroy the dangerous plant. It was spread over an area of several acres, and better than a ton of it was harvested. It was then burned. It was worth more than \$16,000.—Herald.

NORTHVILLE—Northville Wayne County Fair will be held on August 25, 26, 27 and 28.—Record.

SALINE—Thieves keep Albert Graf busy buying canvas for his threshing outfit. Monday night they took one worth between forty and fifty dollars from his machine at the Adam Schroefer farm on the Willis road and a year ago they took one from his farm, west of town.—Observer.

Polliteness

"Politeness can't be put on all at a sudden," said Uncle Eben. "Some men tryin' to be polite makes you think of a swallowtail coat hurried on over a suit of overalls."

The Foot of the Fly

According to the United States Bureau of Entomology the foot of the fly contains two curved lateral claws, between which is a pair of membranous pads. These pads are covered below with innumerable closely set hairs which secrete a small amount of viscid liquid. This liquid enables the fly to walk upside down on a smooth surface.

BRIDE-TO-BE HONORED

On Tuesday evening of last week Miss Margaret Navarro, fiancée of Leo Lingane, was honored with a grocery shower at the home of Mrs. W. Southard in Jackson. The honor guests not only received lots of good "eats" but a number of lovely gifts for her kitchen, including money, silver and glassware. Guessing games and bingo furnished diversion for the evening. Mrs. E. Lingane of Chelsea receiving high scores in the guessing contest and Mrs. Oscar Visel and Mrs. Geo. Brettschneider, also of Chelsea, in bingo. As a courtesy to the bride-to-be they gave her their prizes. The color scheme of the table decorations was yellow and silver, a miniature bride and groom on a large silver dish centered the long table with yellow tapers at each end. The cutting of the bride's cake proved to be the source of much merriment. Out of town guests were from Buffalo, N. Y. and Chelsea. Miss Navarro has been honored with several showers previous to this one. On Wednesday evening of this week her classmates of St. Mary's, Jackson, gave her a linen shower.

Question And Answer Dept.

Ques.—To settle an argument will you please state which is the larger of the two places—Milesburg or Millheim in Pennsylvania, or Middleville or Millett in Michigan?

Ans.—According to the 1930 census (U. S.) Milesburg, Pa., had 944 population; Millheim had 659; Middleville, Mich., had 804; and Millett had 102.

Ques.—What must one be governed by if they wish to use the words "up" or "down" in referring to directions?

Ans.—Usually the compass signs determine the proper use of these words when referring to directions; north being considered "up." However, if located on a river or running stream, the direction the water flows is usually considered "down."

Ques.—Why do some bars of soap float while others do not?

Ans.—Bars that float usually have a very fine froth of air beaten into them just as you beat air into cream to make whipped cream. The soap thus contains a lot of small air bubbles, far too small, of course, to be visible to the naked eye.

Ques.—I wish to ask you if insects have brains like ours?

Ans.—No. The brains of an insect is much smaller than that of a human as compared to the size of man and insect. Not only that, but it is put together in a very different way. Many of the things which insects do are not controlled by the brain, but by little knots of nervous tissue scattered around through the body.

Ques.—Why is it that a parrot can talk while other birds cannot?

Ans.—A parrot happens to have a set of vocal cords and a formation of the throat capable of imitating any sound, including the human voice, whether they are voices of men or women. This, of course, is simply imitation, because a parrot never understands what it is saying.

Ques.—How do we happen to have so many different kinds of dogs?

Ans.—The dog has been a domesticated animal for thousands of years. During that time men have selected and bred different kinds of dogs to suit his own ideas of what a dog ought to be like.

Ques.—Can you tell me why all gold coins are made of impure gold?

Ans.—This is because pure gold is too soft. It's molecules do not stick together very tightly and they would wear away when the coins are carried about and in circulation.

Ques.—Is it possible to make water boil without heating it with fire?

Ans.—Yes. It can be made to boil by placing it in a vacuum.

Ques.—How did people tell time before clocks were invented?

Ans.—By the stars at night and by the sun in the daytime. This system was but very little better than a guess. Then came the sundial, which was reasonably accurate.

Ques.—I wonder if you would answer me how you can tell the day of the week of a date hundreds of years in the past, or what it will be hundreds of years in the future? Thank you. I am rather curious.

Ans.—By the use of a perpetual calendar which goes back infinitely in the past and which goes into the infinite future as well. There are many so-called "perpetual" calendars on the market, but they are perpetual in name only.

Ques.—In a book I am reading, it tells about a heavy rainstorm that occurred in Connecticut about 400-million years ago. How do we know that is true?

Ans.—Among the treasures in the Yale University museum is a sandstone slab which once was a part of a sea beach in what is now the Connecticut Valley about 400 million years ago. The raindrop dentures on this slab are as fresh-looking as though they had been made yesterday.

action led to a physical attack upon him by Senator James Burns, democrat of Detroit.

Other senators mentioned as opposing the REA bill were J. Neal Lamoreaux, democrat, Comstock Park; Earl W. Munshaw, republican, Grand Rapids; and Earl L. Burhans, Paw Paw.

Declared Lansing's pro-labor senator, Harry F. Hittler: "The thing to do is to introduce a resolution at the next session asking Todd to appear before us and to name the members; he's talking about."

Unless the sensational charges by Todd can be substantiated, it is not unlikely that they will serve as a boomerang against possible passage of the bill. The senate takes its dignity seriously, thanks mostly to Lieutenant Governor Nowicki.

Politics Warning Up

From a national point-of-view, Michigan continues to have more than average prominence.

The September issue of "True Story" contains a popularized article of Governor Murphy's "own life story." A recent issue of "Graphic," the social workers' publication, carried a signed article by the governor extolling the "model" labor relations act, since vetoed by the author.

Postmaster General Farley established a reputation as a political seer by forecasting Roosevelt's victory in 46 out of 48 states. With an eye already on 1940, he recently declared that "it looks like Vandenberg—the republicans haven't anyone else."

Farley's reference to Arthur H. Vandenberg, Michigan's senior senator, prompted William C. Sterling, a democratic candidate for Congress, to sound a call at a Jackson rally of Young Democrats to "stop Vandenberg."

It looks like we're going to have an interesting winter!

"Deserving" Newspapers

Announcement by George Gundry, state auditor general, that contracts to advertise state delinquent tax land sales in 1938 would be awarded to "deserving" newspapers, has served to emphasize the trend of Michigan weekly newspapers from party organs to non-partisan independent journals. Even Secretary of State Leon Case's newspaper, the Waterliet Record, is listed officially as an independent newspaper.

More and more you will find your home-town newspaper reporting both sides of a political controversy in a spirit of tolerance and fair play. Philip T. Rich, editor of the Midland Daily News, declared recently in an editorial: "A great proportion of the

newspapers of the state, large and small, made a sincere attempt in last fall's campaign to present the news fairly and fearlessly. This was done regardless of how the editor felt personally."

"Hundreds of weekly newspapers which crossed our desk carried both republican and democratic claims side by side. We ran these together with dozens of cartoons from both parties in addition to local, state and national claims. It was a fair picture; a well-rounded story. Any person reading these newspapers could make up his mind from the many facts present. If he was interested in the editor's personal view, he could find it in his personal or editorial column."

The Midland newspaper, until May 1, was called the "Midland Republican." Now it is independent in name as well as in politics.

Commercializing Scenery

"Something should be done!" This protest came from Murray D.

Van Wagoner, state highway commissioner, following a trip recently to the Upper Peninsula where he inspected the scenic shoreline road US-2, west from St. Ignace. The cause was the leasing of choice locations along the shoreline drive by billboard operators for commercial advertisements.

Garden clubs of Michigan attempted to obtain passage of a billboard licensing act last spring at Lansing. It was sponsored by Senator Lamoreaux, a democrat, but failed to muster enough votes.

Saturdays and Sundays take the lead in the number of accidents by automobiles. The week-end congestion of traffic, especially on highways and on crowded city streets, is responsible for this record. People are anxious to get out of the city on Saturday and in their hurry frequently forget the safe practices and common sense rules. In hurrying home on Sunday night, carelessness again overtakes them and as a result more accidents are reported.

It is a fine thing to have week-end picnics and camping parties. Let us not mar these outings by being careless in our driving habits, but let us pay special attention to the rules of the road and continue to enjoy these pleasures.

Remember, you are not a good driver unless you are a safe driver!

NRS REPORTS SHORTAGE OF

MEN AND WOMEN FOR JOBS

The branch office of the National Reemployment Service, located in the basement of the post office building in Ann Arbor, is experiencing an acute shortage of men and women applicants to fill the jobs which are open in Ann Arbor. These jobs are not only of the domestic and farm type. The greater part are in the local factories. They have many registrations on file but few are qualified for this shortage.

No doubt there are many in Chelsea and vicinity who are unemployed and are qualified to fill these positions. In this case, they should go at once to the National Reemployment Service in the basement of the post office building in Ann Arbor, and place their registration there.

There is still another service rendered by the NRS office in Ann Arbor. It consists of a system of clearance orders, whereby the Ann Arbor office is notified of jobs which cannot be filled by the order holding office. These orders are not only from the National Reemployment Service offices in Michigan, but from employment offices all over the United States.

Just last week this office received notification of a position open in Kalainazoo for a Time Study Clerk, at a salary of approximately \$2000.00 per year. An Ann Arbor resident was referred to the job. Today, confirmation of the placement was received.

At present, there is on file an opening in Ohio for a general superintendent in charge of operations in a manufacturing company. He must be a college graduate and familiar with all types of automatic machinery. This position carries a yearly salary of \$5000.00.

These are only a few of the real good jobs which come into this office daily, but only those who are registered in this office are referred. Applicants are referred on the basis of their qualifications only.

Residents of this locality who are actively seeking work are requested to place their registration in the Ann Arbor office immediately.

FEAR NOT

Fear not O weary child of years, I understand your grief and fears, Be fruitful for a few more years, And I will bring you home.

You may not now conceive my plans, Working out my Father's plan, For your Eternal Joy.

The way is rough I understand, Believe me, trust me, for I am Working out my Father's plan,

For your Eternal Joy— Trust me to hold and clasp Your hand until the journey's thru, I am Jesus. (Rev. 22:16)

"1000 Miles" of Rabbits are Killed Each Year

Lansing—If all the rabbits shot legally in Michigan each year were laid end to end they would reach one thousand miles, or from Lansing to the Gulf of Mexico.

Such is the estimate of game men of the department of conservation after checking a sample portion of the 1936 license stubs on which 390,000 hunters reported their kill for the previous season of 1935.

The total estimated count of rabbits went to 3,500,000 bagged by licensed hunters and killed during the open hunting season. It was also estimated from the compilation that 40 per cent of the rabbit hunters bagged 11 or more rabbits during the 1935 season and that the average kill for all hunters was about 11 rabbits per man.

The same sample of license stubs was checked for the ringnecked pheasant kill. The estimate in this case was about three-quarters of a million pheasants legally shot by an estimated 270,000 pheasant hunters. This compilation sustains previous estimates of game authorities, based on bird hunters' tally cards. The authorities have believed that the numbers of pheasants killed legally during an

average hunting season would be about 750,000.

Under a law enacted by the 1937 legislature, it will no longer be necessary to wait until license stubs are returned to the department of conservation by license agents to compile statistics on game kills. The new law makes a report by each individual hunter compulsory. The report must state the total number of each kind of game bagged under each license during the open season and must be sent to Lansing by February 15 immediately following the close of the respective open seasons.

Pearls of Great Price

Loved Through the Ages

Since earliest times and among many nations the pearl has always been a favorite jewel.

Love for pearls among the Greeks can be traced back to the time of Homer who wrote "Earrings bright with triple drops that cast a twinkling light."

Fragile, exquisite, delicate, feminine, enhancing the coloring and skin texture of the wearer. Modest, unpretentious, above all flattering, charming. This is why through all the ages men and women have loved pearls. Years are required to match a perfect strand.

In the Roman period pearl-shaped pearls were most highly valued; in the middle of the Eighteenth century, round pearls were more esteemed. In the Nineteenth century, both were valued on the same basis. It is sometimes stated that the pearl-shaped and old Pergrina was skinned down to make the spherical Pergrina. The history of jewels is fascinating, colorful and intensely interesting and pearls have always been loved and prized by rulers and merchant princes, from the Romans, the Byzantines, the Goths, to the French, the British and the Americans. The tales of Arabian Nights are filled with adventure for the love of pearls.

MRS. FRED LOEFFLER

Mrs. Fred Loeffler died Monday evening, August 16, at her home on Orchard street, after several weeks' illness.

Formerly Elizabeth Stierle, she was born August 31, 1870 near Belleville, the daughter of Abraham and Mary Stierle. She was married to Mr. Loeffler on April 6, 1893 and they resided in Freedom township before coming to Chelsea 18 years ago.

Surviving are her husband; two daughters, Mrs. Wilbert Koengster of Rogers Corners and Mrs. Bert R. Foster of Ann Arbor; a son, Herbert of Chelsea, and two grandchildren.

Funeral services will be held this (Thursday) afternoon at two o'clock at the residence and at 2:30 at St. Paul's church. Rev. P. H. Grabowski will officiate and burial will be in Oak Grove cemetery.

FRANCISCO

The Brotherhood of the M. E. churches of Washtenaw county met Sunday at Salem M. E. church.

Relatives here of Wm. Kruse of Mason were notified of his sudden death Friday morning, when he was found dead in bed. He was born and reared on the Kruse homestead north of town. At one time he was employed in the lumber yard at Grass Lake. Funeral services were held in Mason on Monday.

Sheldon H. Frey and family of Detroit were here to attend the first annual reunion of the descendants of James and Isabella Runciman, who came to America in 1831, leaving and remaining in New York City until 1834 when they bought from the government a homestead which is located near Cavanaugh and Crooked lakes. This homestead remained in the family nearly 90 years when it was bought and became Sylvan Estates Country Club. This home site has been bought back by the government and is now used for offices of the Waterloo Park Project. For about 15 years these descendants had met with those of Mr. Runciman's brother, Wm. Runciman and wife. As there are no picnic facilities in the park yet, the group of 40 met at Clear Lake County Park for dinner, then drove to the old homestead where the caretaker was most cordial and showed the visitors every courtesy. The reunion will be held the third Sunday in August, 1938.

A damaging fire destroyed the large barn and a number of smaller buildings shortly after midnight Monday at the Irving Kalmbach farm in Francisco. It was discovered by Mrs. Kalmbach, who awoke and the bright light caused her to jump from bed and give the alarm. The fire started in a wood-house back from and between the large brick house and the bungalow. This building, full of wood, was not wired, and it is thought a tramp must have started the blaze. Before the Grass Lake and Chelsea fire trucks arrived all the small buildings to the north of the burning building had caught fire, as had the north end of the large barn. The county pumper came from Jackson and with chemicals saved both houses. The windmill house and the back part of the brick house had started to burn when the pumpers arrived and checked the flames and saved them from destruction. The horses were removed from the barn and none of the stock perished, but the large barn, full of hay, had burned so fast it could not be saved. Fortunately the little wind there was, was in the west or greater havoc would have ensued. The loss is partially covered by insurance.

NOTTEN ROAD

Jim Morley, visited relatives in Mt. Clemens, Saturday and Sunday.

Mrs. M. Rank and grandson, Donald Rank, motored to Iowa on Wednesday for a week's visit with relatives.

Harold Koch attended the Kappler reunion at Dexter Huron Park on Sunday.

Name Harmonica a Misnomer

The name harmonica is really a misnomer. The harmonica was once an instrument composed of various-sized glass cups giving different tones when struck by a damp finger. Benjamin Franklin was the inventor. The mouth organ's age is unknown. However, Abraham Lincoln played one.

MRS. PETER LIEBECK

Mrs. Peter Liebeck, 54, died Wednesday morning, August 18, at St. Joseph's Mercy hospital, Ann Arbor, following an operation.

Mrs. Liebeck, formerly Hannah Birch, was born at Bunker Hill on March 1, 1883, the daughter of James and Cecelia Birch. She was married to Mr. Liebeck on April 20, 1904, and they have resided in Lyndon and Sylvan townships since their marriage.

Surviving are the husband; a son, James, of Detroit; three daughters, Mrs. Theodore Smith of Jackson, Margaret and Helen Liebeck at home; two brothers, Graham Birch of Dexter and William Birch of Chelsea; two sisters, Mrs. Henry Wolf of Jackson and Mrs. Jay Hadley of Ann Arbor; and one grandchild.

Funeral services will be held at 10 o'clock Saturday morning at St. Mary church. Rev. Lawrence Dorr will officiate and interment will take place in Mt. Olivet cemetery.

The Loquat Tree

The loquat is a small tree of the rose family, native to Japan and China, now introduced into many subtropical countries. Growing about 12 feet high, it has thick clustered, evergreen leaves and fragrant, woolly white flowers. The pear-shaped fruit is used for desserts and for making jellies. The large seeds are used in cookery for flavoring tarts and cakes.

BOHNET REUNION

Several from this vicinity attended the Bohnet reunion which was held Sunday at Hadley's grove, Bruin Lake. Manchester, Jackson, Norvell, Ann Arbor, Chelsea and Stockbridge were represented, with 30 members present. To arrange for the 1938 reunion which will be held August 14 at Clear Lake, Eugene Widmayer of Jackson was elected president; Harold Widmayer of Chelsea, vice-president and Mrs. Harold Widmayer, secretary-treasurer.

LAFAYETTE GRANGE MEETS

A regular meeting of Lafayette Grange was held Thursday evening at their Lima Center hall and opened with the business session. Mr. and Mrs. Walter Wolfgang and Mr. and Mrs. W. J. Beutler were chosen delegates to the county convention to be held Thursday, September 2, at Pittsfield Grange hall, with Mr. and Mrs. Elmer Pierce as alternates. A pot luck supper was served at the close of the meeting.

PAUL REUNION

About 80 members of the Paul family gathered Sunday at Dexter Huron park for their 19th annual reunion, coming from Battle Creek, Jackson, Detroit, Lansing, Ann Arbor, Manchester and Chelsea and vicinity. An afternoon of sports was enjoyed after the dinner.

Jacob Paul of Battle Creek, 75, was the oldest member in attendance, while the youngest was Rose Ann Hanker, 10 weeks old.

Pleasant Lake was chosen for the 1938 reunion and officers elected are:

President—William Paul, Detroit.

Secretary-Treasurer—Carl Braun, Manchester.

Sports Com.—Mrs. Arthur Braun, Manchester.

SALINE WINS, 7-3

Figure seven was unlucky for Chelsea's ball team Sunday. Leading 3 to 2, going into the seventh inning Chelsea saw this lead vanish as Saline staged a four run rally to practically assure victory as the local nine were unable to tally once after the second inning. Bunching 9 of their 13 hits into three innings Saline nevertheless had difficulty solving Holbrook's delivery until the seventh. Hoelt, Saline pitcher, struck out 9 Chelsea batters.

Next Sunday there will be double-header at Wilkinson field, Chelsea, between Pinckney and Chelsea, first game starting at 1 p. m. sharp. This twin bill will decide fifth place and cellar occupants and should provide some real entertainment.

MERKEL REUNION

The first annual reunion of the Merkel family was held on Sunday afternoon at the home of Mr. and Mrs. Joseph Merkel. Sixty-six members were present at the supper which was served at five o'clock.

Guests were present from Los Angeles, Calif., Detroit, Lansing, Ypsilanti and Dexter. At the business meeting the following officers were elected for next year:

President—Leo Merkel.

Secretary—Bertha Merkel.

Table committee—Mrs. F. W. Merkel, Monica Merkel, Wm. W. Fredericks.

Sports committee—Joseph Merkel, Norbert Merkel, A. J. Merkel.

The oldest member of the family in attendance was Martin Merkel, and the youngest, Conrad Martin Hafner, son of Mr. and Mrs. Joseph Hafner. The next reunion will be held on August 14, 1938.

MRS. ROY HARRIS

Mrs. Roy Harris, 55, died Friday morning, August 13, at her home on McKinley street, after several months illness.

She was formerly Jane Van Natter, daughter of William and Jane Van Natter, and was born in Dexter, November 10, 1881. Following her marriage to Mr. Harris on May 18, 1902, they resided in Grass Lake for some time before coming to Chelsea.

Mrs. Harris was a member of the Order of Eastern Star, of which she was a past matron.

She is survived by her husband; a daughter, Audrey, at home; and a brother, Charles Van Natter of California.

Funeral services were held at 2:00 o'clock Sunday afternoon from the residence, with Rev. Chas. F. Wolf of Ypsilanti officiating. Burial was in Oak Grove cemetery.

WILLIAM D. KRUSE

William D. Kruse, 67, a former resident of Sylvan township, was found dead in bed last Friday morning at his home in Mason. His death was the result of a heart attack.

Mr. Kruse was the son of Rudolph and Wilhelmina (Nicolai) Kruse, and was born in Sylvan on March 4, 1870. He was married November 22, 1899 to Blanche Dean of Waterloo.

They lived in Grass Lake and on a farm near Bunker Hill, moving to Mason 24 years ago. For 21 years he was in the employ of the Mickelson-Baker Lumber Co.

Surviving are the widow; four sons, Dean of Whitmore Lake, Blaine and Ruchl of Mason, and Lawrence of Jackson; a daughter, Mrs. Naomi Waters of Jackson; two sisters, Mrs. P. H. Riemenschneider of Sylvan township and Mrs. Lena McKenzie of Stockbridge; four brothers, Fred and Arthur Kruse of Bunker Hill, Clarence and Adolph of Sylvan; and five grandchildren.

Funeral services were held Monday afternoon at 2 o'clock at the Ball funeral home, Mason, with burial in the Mason cemetery.

METHODIST HOME

On Tuesday morning of last week Miss Emma Leeman enjoyed a call from her nephew, John C. Leeman, Jr., who is spending the summer at this home in Sharon. Her sister, Miss Martha Leeman of Sharon, called on her on Saturday morning.

Miss Smith visited in Ypsilanti from Thursday morning until Saturday afternoon of last week.

On Friday, Mrs. Baldwin was visited by Mrs. Elmore Watkins and Mrs. Edith Dailey of Osseo, Mrs. E. J. Watkins of Hillsdale, and Mrs. Dell Baldwin of Blissfield.

Miss Colby spent Friday and Saturday with friends in Dexter.

Mrs. Gilbert was visited on Wednesday by her son and his wife, Mr. and Mrs. A. R. Gilbert of Holly; and on Saturday by her grandchildren, Mr. and Mrs. Joseph Savis of Clarkston and her two year old great granddaughter, Rose Marie Savis.

On Saturday, Mr. and Mrs. John Perrin and daughter Helen from Ann Arbor called on Mrs. Robtoy.

On Friday, Mrs. Leeson, Mrs. Bennett, Mrs. Macauley and Miss Allen attended the Third Annual World Fellowship Council held at Walden Wood near Highland. The Council lasted one week and one hundred young women had spent the time studying foreign missions, especially in preparation for next year's study of Moslem Lands. Five missionaries from the foreign field were in attendance and took part in the program.

Friday was the culminating day and the young women invited auxiliary members to meet with them.

On Sunday, Mrs. Harriet Shanklin and Mrs. Nellie Shanklin from Ann Arbor called on Mrs. Robtoy and Miss Switzer.

On Sunday, L. B. Sackett of Brooklyn, with his daughter, Miss Elizabeth, and son, Loy Jr., were dinner guests of Nurse Sackett.

In the absence of the regular pastor last Sunday morning, Dr. Leeson filled his former pulpit at Ypsilanti. Mrs. Leeson and Miss Allen accompanied him and all improved the opportunity to renew old friendships.

On Sunday afternoon, Mrs. Brewer enjoyed a visit from Mr. and Mrs. Snyder and Mrs. Bassett, old friends from Wayne.

WATERLOO

Mrs. Uhrig is getting along nicely at this time. Her mother, Mrs. Bruce of Ohio, stayed with the family for a few days.

Visitors at the Vicary home on Friday were Miss Henderson, the Boles sisters and Mrs. May Kumer of Detroit, and Mrs. John Harr of Munith, and friend.

The Ladies' Aid will meet on Wednesday evening, August 25 at the church. Election of officers will be held. All members are requested to be present, at 8 o'clock.

Miss Isabelle Hitchcock, Mr. and Mrs. Harris Thompson and Mr. Moffatt of Detroit spent the week-end here. Mrs. Moffatt and children returned home with them after spending several weeks at the home of Mr. and Mrs. E. Hitchcock.

ing several weeks at the home of Mr. and Mrs. E. Hitchcock.

E. G. Hatheway of Detroit spent the week-end with his family, at the W. Vicary home. Dr. and Mrs. H. E. Fogt of Detroit were guests on Sunday.

Mr. and Mrs. Ed. Schulz and children spent Sunday with Mr. and Mrs. Frank Stoffer of Plainfield.

A. L. Hitchcock and daughter, Mrs. Louis Ramp of Oak Park, Ill. spent the week-end at the Hitchcock home.

Mr. and Mrs. Arthur Walz visited their daughter and family, Mr. and Mrs. Kenneth Stanfield of Stockbridge, on Sunday.

Mr. and Mrs. Geo. Beeman and Earl Beeman were in Mason on Monday to attend the funeral of William Kruse.

SHARON

Mrs. H. B. Ordway of Ann Arbor spent last Wednesday with Mrs. F. Ellis.

Mr. and Mrs. James Saunders and Miss Jennie Rhoades of Ann Arbor, and Mr. and Mrs. Putnam Dorr and little daughter Sally were Friday night supper guests of Mr. and Mrs. John Leeman and family.

Mrs. Elmer Leeman and daughters, Margaret and Helen, spent several days of last week in Chassel, Mich. at the home of Mrs. Leeman's sister, Mrs. Howard Farley and husband.

Donald Irwin was united in marriage with Miss Hedwig Schmid of Jackson last Saturday evening at the St. John's and Reformed church in Jackson. A large reception followed at the home of the bride's parents, Mr. and Mrs. Otto Schmid. After a short trip in northern Michigan they will make their home on the Irwin farm.

Kindergarten in Early Days

In its early days the kindergarten was a holy cause, espoused by some of the leading thinkers of the time. Many names famous in literature and government, as well as in education, were associated with the movement. The first kindergarten in America was established in behalf of her own small daughter, in Watertown, Wis., in 1856, by Mrs. Carl Schurz, wife of the German refugee who later became minister to Spain.

BLACK NAMED FOR COURT

Nominee Draws Rebuke

WITH his customary exercise of the dramatic, President Roosevelt nominated Senator Hugo L. Black (Dem., Ala.) to fill the vacancy on the Supreme court bench caused by the retirement of Justice Willis Van Devanter. Senator Black had not even been mentioned for consideration previously, and the appointment was a complete surprise to his colleagues.

For 20 years it has been a custom, when a senator is appointed to high office, for his nomination to be considered in open executive session. But when Senator Ashurst (Dem., Ariz.) proposed this in Senator Black's nomination, objections came forth immediately from Senator Burke (Dem., Neb.) and Senator Johnson (Rep., Calif.). They asked that the nomination be referred to the senate judiciary committee for "careful consideration." This was viewed in the light of a distinct rebuke for the nominee.

Senator Black has been a militant leader in the fight for the President's wages and hours legislation. As a justice he would have the opportunity to pass upon measures regulating public utility holding companies, authorizing federal loans, and grants for publicly-owned power plants, and fixing prices in the soft-coal industry. He was, as the chairman of the Black committee to investigate lobbying, the center of a storm of public opinion during the early months of 1936.

Black practiced law in Birmingham after being graduated from the University of Alabama in 1906. At fifty-one, he is one of the younger members of the senate.

Shells Pepper Great Wall

ALTHOUGH war was still without benefit of official declaration, the army of the Chinese central government clashed with the Japanese invaders for the first time. The Eighty-ninth division, from the provinces of Suiyuan and Shansi began the attack at the Nankow pass of the Great Wall, 30 miles north-west of Peiping, the Japanese said.

Through this pass the Japanese have been able to move reinforcements from Manchukuo, its protectorate, and the Chinese wanted to gain control of it. They wiped out a whole battalion of Japanese soldiers in the opening battle.

The Japanese opened up immediately after with heavy artillery fire which the Chinese failed to return. Indeed the latter were silently retreating into positions they thought more secure. As shells fell in the city of Nankow, fires were seen to arise from heavily populated areas. The Chinese, however, were said to be well equipped with trench mortars with which to defend the pass once they considered their position satisfactory.

Japanese warned that all of their forces in North China, some 40,000 fighting men, would be loosed upon the Chinese if they made any attempt to return to the old capital in Peiping, now held by the invaders.

South Demands Crop Loans

CONGRESS regarded adjournment as possibly farther off than ever as the wage-hour bill got all tangled up with surplus agricultural control and cotton loans in what looked like a hopeless mess.

With the Department of Agriculture estimating a 15,500,000-bale cotton crop, about 3,000,000 bales more than can be consumed, Southern representatives and senators were demanding surplus crop loans. The Commodity Credit corporation has authority to make such loans.

In a press conference, President Roosevelt indicated that he had no intention of permitting a 10-cent cotton loan until congress passed the agricultural control program and ever-normal granary bill which Secretary of Agriculture Wallace says is necessary before the new season in January. Trouble in the house

committee doesn't know how to write such a bill and make it stick, in view of the Supreme court's decision on the AAA.

Now the Southern bloc has made it clear that it will not push through the President's much-desired wages and hours bill, as dictated by William Green, president of the American Federation of Labor, unless southern farmers get their cotton loans. Furthermore, the Southerners under the capitol dome are now asking for loans as high as 15 cents a pound, and in some cases even 18 cents. The South is not any too well in accord with maximum hours and minimum wages anyway.

The result of the whole affair is a complete stalemate. Somebody will have to give in; somebody probably will, and there will be old-fashioned "hoss-trading" on a wholesale scale. For congress wants to adjourn before the snow flies.

Southerners in the senate were also worried when Senator Robert F. Wagner of New York succeeded in winning recognition to debate an anti-lynching bill, the type of which the South has been successful in blocking since the Civil war. Some were of the opinion that the bill, already passed by the house, might be defeated by filibuster (Senator Bilbo of Mississippi threatened to filibuster until Christmas) but more believed that the Southern members would consent to its passage to put President Roosevelt "on the spot." They explained that if he did not sign it he would lose the negro vote so essential to the third term that is being whispered about, and that if he did sign it the Democratic South would drop him like a hot potato.

Senate O.K.'s Court Reform

ALL that was left of the administration's sweeping court reform proposals passed the senate in an hour without a record vote. This was the procedural reform bill for the lower federal courts. It was in the nature of a substitute for the Summers bill in the house of representatives, and went back to the house for what was expected to be a peaceable conference.

The bill, as summarized by Sen. Warren R. Austin (Rep., Vt.), who wrote most of it, included:

Provision making it the duty of the District court, in any constitutional suit between private citizens, to notify the Department of Justice that upon a showing by the attorney general that the United States had a probable interest the government would be made a party to the suit. Permission for the senior circuit judge to reassign district judges within that circuit for the purpose of clearing congested dockets. (If necessary, a judge may be transferred from one circuit to another.) Permission for direct appeal to the Supreme court, if 30-day notice is given, from any decision of a District court against the constitutionality of an act.

Requirement that all suits for injunction against the operation of federal statutes to be heard by a three-judge court, including at least one circuit court of appeals judge.

Shanghai Smells Smoke

A JAPANESE officer and a seaman tried to enter the Shanghai airport, now under Chinese military control, in a high speed automobile. Chinese guards, after trying to halt them, shot and killed them. The Japanese claimed the road on which the men were traveling was part of the international settlement, and threatened the severest reprisals unless the Chinese made satisfactory explanation.

The incident did fair to touch off a terrible conflict on the scene of the war of 1932. When Japanese warships threatened the Shanghai wharves, Chinese national troops began pouring into the city from every direction. Simultaneously came reports that two battalions of Japanese soldiers were headed to augment the garrison in Shanghai, and that the sudden ingress of Chinese troops had virtually blocked off the entire city, isolating thousands of foreigners from the outside world.

Cutting Madrid from Sea

SLOWLY but determinedly Gen. Francisco Franco's rebels are pressing their campaign to cut Madrid off from Valencia and the sea. Latest advances of well-mobilized and mechanized troops, following up co-ordinated attacks, brought the insurgents near to the capture of Salvacanea, which is only 30 miles from Cuenca. Cuenca is the provincial capital, and from it emanate most of the roads upon which the loyalist government is depending to keep open the traffic between the two cities.

Reports revealed that the rebels were also opening a new drive on Santander, last government stronghold on the northern coast, and had already made important advances. The drive followed an attack made upon them by Asturian miners fighting under the loyalist colors. The miners acted quickly in a surprise move, advancing far enough to throw hand grenades into the insurgent trenches. Then the rebels opened up with machine gun fire and half the attacking band was killed, Franco's officers claimed.

That all might not be going as well as General Franco insisted was indicated when he was forced into the paradoxical act of shelling one of his own cities, Segovia. This was done, it was reported, to quell a rebellion among the insurgent forces. It was also said that the insurrection had been spreading among several provinces.

Meanwhile, other nations were on the point of being involved again. There was a riot among rebel troops at Toledo, and Italian soldiers were alleged to have aided in quelling the uprising. Four merchant ships—one British, one Italian, one French and one Greek—were attacked in the Mediterranean by three "mystery" planes. Great Britain blamed the rebels and demanded an answer to its protest. Italy blamed the red loyalists. The loyalists blamed the rebels, the rebels blamed the loyalists, there were lots of talk and back talk, and nobody got anywhere.

Peiping Gets "Protection"

"ALTHOUGH Nanking is preparing to wage a destructive war, do not be afraid."

"The Japanese army will protect you."

Leaflets containing these words fluttered from the skies to come to rest in the hands of residents of the ancient Chinese capital, Peiping. As the airplanes which spread the news hummed overhead, a brigade of 3,000 Japanese soldiers, in command of Maj. Gen. Torashime Kawabe, marched through the city, taking possession of it in the name of Tokyo.

What would be the result of the new Japanese domination apparently begun by Maj. Gen. Kawabe was matter for speculation. Chinese residents, long since convinced that the inevitable would happen, took it calmly enough. Some of them voiced their belief that the former boy emperor of China, Tsun Tung (Henry Pu-Yi), since 1934 Emperor Kang Teh of Manchukuo, would return to his throne in Peiping. He would then rule over North China as well as Manchukuo, as a puppet for whom Japan would pull the strings.

SENATOR ROBERT F. WAGNER'S (Dem., N. Y.) \$728,000,000 housing bill was passed by the senate, 64 to 16, but the senator scarcely recognized it when his fellows were done with it. Senator Wagner and other administration leaders struggled frantically to defeat an amendment by Harry F. Byrd (Dem., Va.) limiting the cost of housing projects to \$1,000 a room or \$4,000 a family unit. Result of the struggle: The upper house, which originally passed the amendment 40 to 39, defeated a motion to reconsider by 44 to 39.

The bill originally called for expenditures up to \$1,500 a room or \$7,000 a family unit. Opponents conceded that the Byrd amendment would prohibit the building of the type of houses Senator Wagner had in mind in New York City.

Purge Toll to Date: 320

SEVENTY-TWO Russians in East Siberia were lined up and shot by the government, bringing the total number of eastern executions in Russia's purge of "Trotskyists" to 320. The 72, described as rightist terrorists, were charged with operating along the Siberian railroad for the Japanese secret service.

It was alleged the accused had wrecked a train, killing 14 persons and injuring 40.

Arrests of officials in charge of various branches of the Soviet economy who had failed to make their production quotas continued.

Memorial for Will Rogers

THE memory of Will Rogers, America's lately beloved gum-chewing philosopher, will be enshrined in fitting manner near his Claremore, Okla., home after the President signs a bill which has now been passed by both houses of congress. It appropriates \$500,000 for a memorial to Will; the state of Oklahoma also will be required to furnish \$500,000.

In Basutoland, South Africa, is a small mountain river with a terrifying name. It is the Tsejebatho and means—"It eats people." And so it does.

Patrimony and Matrimony

Patrimony and matrimony are derived from the same source from the Latin pater and mater (father and mother) with the Latin suffix monium. They reached the English language through the old French patrimonie and matrimoine.

NOTICE OF MORTGAGE SALE

Defaults having been made (and such defaults having continued for more than ninety days) in the conditions of a certain mortgage made by Nettie J. Eveleveth of the City of Ann Arbor, Washtenaw County, Michigan, to HOME OWNERS' LOAN CORPORATION, a Corporation organized under the laws of the United States of America, dated December 14th, 1933, and recorded in the office of the Register of Deeds for Washtenaw County, Michigan, on January 9th, 1934, in Liber 201 of Mortgages, on Page 2, and said mortgagee having elected under the terms of said mortgage to declare the entire principal and accrued interest thereon due, which election it does hereby exercise, pursuant to which there is claimed to be due and unpaid on said mortgage at the date of this notice for principal and interest the sum of Five Thousand and Three Hundred and Seventy-three and 40/100 Dollars (\$5373.40) and no suit or proceeding at law or in equity having been instituted to recover the debt secured by said mortgage or any part thereof;

NOW, THEREFORE, by virtue of the power of sale contained in said mortgage and pursuant to the Statutes of the State of Michigan in such case made and provided, NOTICE IS HEREBY GIVEN that on Monday, November 1st, 1937, at ten o'clock in the forenoon, Eastern Standard Time at the south outer door of the Court-house in the City of Ann Arbor, County of Washtenaw, Michigan (that being the place of holding Circuit Court in said County) said mortgage will be foreclosed by a sale at public auction to the highest bidder of the premises described in said mortgage, or so much thereof as may be necessary to pay the amount due as aforesaid, and any sum or sums which may be paid by the undersigned at or before said sale for taxes and/or insurance on said premises, and all other sums paid by the undersigned, with interest thereon, pursuant to law and to the terms of said mortgage, and all legal costs, charges and expenses, including an attorney's fee, which premises are described as follows:

That certain piece or parcel of land situated in the City of Ann Arbor, County of Washtenaw, Michigan, more particularly described as:

The north eleven feet of the west one hundred and thirty-two feet of lot number two in block five and the south forty-four feet of fractional lots seven and eight in block five according to the recorded plat of R. S. Smith's Second Addition to the City of Ann Arbor, Washtenaw County, Michigan.

Dated: August 5th, 1937. Home Owners' Loan Corporation, Mortgagee.

HAROLD D. GOLDS, Attorney for Mortgagee. Business Address: 615-16 Ann Arbor Trust Bldg., Ann Arbor, Michigan. HOLC 558 (1937-Oct-23)

STATE OF MICHIGAN

In the Circuit Court for the County of Washtenaw, In Chancery. Lillian L. Bohnet, Plaintiff, vs.

Guy H. Gorham, Asahel Higby, Cyrus Beckwith, Amarilla Beckwith, Persis P. Ford, John E. Gorham, Eliza Page, Mary E. Colclazer, Edward A. Gott, Stephanie K. Gott, Catherine A. Wells, Friederike Zieflo, and their unknown heirs, devisees, legatees and assigns, Defendants.

Order for Publication. At a session of said Court, held at the Court House, in the City of Ann Arbor, in said County, on the 5th day of August, A. D. 1937.

Present: Honorable George W. Sample, Circuit Judge.

In this cause it appearing by a Bill of Complaint duly verified, presented and filed and to the satisfaction of the Court, that the above named Defendants and their unknown successors, heirs, devisees, legatees and assigns are necessary and proper parties to the above entitled cause, and are interested in the subject matter thereof, and whose names appear in the office of the Register of Deeds for the County of Washtenaw, as having, at some time, claimed a right,

title, interest or estate in the subject matter of said cause or some portion of it, or as having a lien or charge thereon without having conveyed or released the same, and who might at any time under the provisions or legal effect of certain instruments of record claim or attempt to claim, or be entitled to claim benefits thereunder; and it further appearing to the satisfaction of the court that the above named parties are dead or their whereabouts unknown to the said Plaintiff, and that after diligent search and inquiry, she has been unable to ascertain the same, or where any of them or any of the successors, heirs, devisees, legatees, or assigns, reside, or whether any interest as they may or might have therein has been disposed of by will or otherwise, and that such Defendants cannot be personally served with process, therefore, on Motion of John B. Mellott, one of the Attorneys for the Plaintiff,

It is Ordered, that the appearance of the said Defendants and each and all of them be entered in this cause within three months from the date of this order; that in case of their appearance that they cause their answer to the Bill of Complaint to be filed and a copy thereof served upon the Attorneys for the Plaintiff within fifteen days after service upon them, or their Attorney, of a copy of said Bill, and that in default thereof, said Bill be taken as confessed by each of said Defendants, and it is further Ordered that the said Plaintiff cause a copy of this order to be published in The Chelsea Standard, a newspaper printed, published, and circulated in said County of Washtenaw, and that such publication be continued therein once in each week for six consecutive weeks, or that the Plaintiff cause a copy of this order to be personally served upon the said Defendants, and upon each of them at least twenty days before the time prescribed for

their appearance or that the Plaintiff cause this Order to be otherwise served as provided by law, authorizing the service of orders by Registered Mail.

Geo. W. Sample, Circuit Judge. Countersigned: Aug 12-37 Emmett M. Gibb, Clerk.

French Indo-China. French Indo-China, in southeastern Asia with China on the north, Siam on the west and the Gulf of Tonkin and the South China sea on the east and south, is as large as Texas.

Despised English Language. Francis Bacon, the famous philosopher, politician, scientist, and writer, who lived under Queen Elizabeth and James I, despised his own clear, strong prose is perhaps the finest to which Elizabethan English ever reached. He wrote his most important books in Latin because he wanted them to be read by future generations, and he believed that the English language would die out and be forgotten. He even had some of his English writings translated into Latin for that reason.

Where Columbus Once Lived. One of the famous ancient monuments of Savona, Italy, is the Palazzo tower, which overlooks the harbor and was built to guard it at night. In 1684 the tower was ornamented by a clock and a statue of the Madonna, the latter facing the sea. Close by one encounters a small square; the Piazza Colombo. On the right-hand side of this square, as one faces the harbor, stands a tall, narrow dwelling, with a tablet on its wall stating that Columbus lived here for many years.

Electricity Bills Will Be Due On Friday, August 20

You must pay your bill on or before that date in order to get your discount. The discount of 15 per cent is a premium for prompt payment. Pay and save!

If you are in arrears you must pay 10 per cent of back bill and all of current bill to get the discount.

Special Notice to Taxpayers!

This is the time to pay Delinquent Taxes, either in full, or on the Moratorium Plan.

AUGUST 31 is the last date on which 1933, 1934, and 1935 taxes may be placed on the moratorium, or paid, without penalties. The requirements are as follows: The first three installments must be paid on the 1932 and prior taxes, if any, and all of the 1936 taxes paid in full.

The reduction in interest is well worth while. Instead of three-quarter percent per month of these taxes covering a period of 42, 30, and 18 months for the 1933, 1934, and 1935 taxes respectively, and four percent collection fee, there is only a two percent collection fee, and six percent annual interest on any special assessment. Beginning SEPTEMBER 1 the old rate of interest will be resumed.

ONLY THREE WEEKS remain in which 1935 and prior taxes may be placed on the ten year plan. A TAX SALE will be held next May, at which time 1935 and prior taxes, on which proper payments have not been made, will be offered for sale.

The total delinquent tax for Sylvan Township is \$22,227.49.

Supervisor, Sylvan Township

Marks of Past Illness

Shown by Hair and Nails

Signs of past illness often remain long after the illness has ended. These are to be found where the circulation is poorest, viz., in the hair and the nails, says a writer in Pearson's London Weekly.

After a severe illness, you will often find that a ridge appears running across the nail and growing with it, advancing towards the free end as the nail gets longer. This is due to the fact that the illness has absorbed a good deal of the patient's strength and the circulation, in consequence, has not been sufficient to nourish the nails properly.

When anyone gets run down in general health, the nails frequently suffer in other ways, especially if the condition is a chronic one. They may become brittle and crack easily, while sometimes they are pitted with small holes as though they had been worm-eaten.

To restore the appearance of the nails you must, of course, first restore the general health. The principal cause of the debility must be treated, and when this has been done improvement in the circulation follows. As soon as the nails begin again to get proper nourishment they quickly regain their healthy look.

A Skytop Republic

Bolivia is known as the skytop republic of South America. With no outlet to the sea, it is reached from Mollendo, Peru, and Arica and Antofagasta, Chile. Chief among the country's attractions are Lake Titicaca, highest navigable lake in the world; La Paz, the capital, and two towns called Sucre and Potosi. The latter was a fabulously wealthy city long before the Mayflower landed its settlers in North America. Lake Titicaca's interest to visitors lies largely in the peculiar beauty of its mirrorlike, rush-fringed waters, in the Indian villages surrounding it, and in nearby ruins of cities belonging to the Tiahuanaco civilization, which antedated even that of the Inca empire. La Paz, the world's highest capital, is notable for its spectacular setting 12,000 feet above sea level, in an amphitheater of crinkled, rust-colored rocks and mountains; for its attractive old Spanish churches, with their almost constantly ringing campanile bells.

Sign of the "Go-Getter"

The square type of hand is one, in which the back of the hand (excluding the fingers) is almost square in shape. This is the hand of the practical materialist. The man or woman who pushes things through to a decisive conclusion, according to a writer in Pearson's London Weekly. Possessed of a hand such as this you are determined and forceful, possess little imagination or creative ability, but can be relied upon to make a success of any occupation where sheer grit is required. Methodical and painstaking, once you get your teeth into a thing, like the bull-dog, you won't let go. You must see it through.

Woman for President

It is often said that Belva Lockwood, who headed the Equal Rights party ticket in 1884 and again in 1888, was the first woman nominated for the Presidency, but Mrs. Victoria Claflin Woodhull (later Marin), was nominated in 1872 for the Presidency at Vineland, N. J., by a convention styling itself the Equal Rights party. Frederick Douglass was the nominee for Vice President. Mrs. Woodhull, like Mrs. Lockwood, received no electoral votes and only a few scattered popular votes.

German Race Uses More Than Twenty Dialects

In describing Germany, Julius Caesar called that part of the country inhabited by the lowland tribes Germany Inferior, or Lower Germany, and the more elevated regions to the south and southeastward, Germany Superior. In time the linguistic designations of Low German and High German were applied to the dialects used by the inhabitants of these two regions.

There are more than twenty distinguishable dialects in the speech of the common people of the Teutonic or German race. These dialects shade into one another, observes a writer in the Cleveland Plain Dealer, the difference increasing according to separation, traveling on a line from the highlands of southern and southeastern Germany toward and through the lowlands bordering the North Sea and the Lower Elbe.

The Low German language comprehends several dialects of the north of Germany as well as the Frisian, Dutch and Flemish dialects, while the High German dialects are usually classified in two divisions as South German and Middle German. But since the time of Luther, whose translation of the Bible into what is known in literature as new High German, in distinction from the cruder literary language of the antecedent old High German, all these dialectic differences have been rapidly dying out, and are perpetuated only in the spoken language of the lower peasantry.

Of the Low German dialects, the old Frisian is practically extinct. Dutch is the national language of Holland; more correctly the Netherlands, and has a literature of its own, while Flemish has given way to the language of northern Belgium and by more than 200,000 people in the Nord department of France.

Goldfish Are Produced

by Selective Breeding

Goldfish as we know them do not exist anywhere in the wild state. They are a product of long years of selective breeding. The wild fish from which goldfish were developed belong to the carp family and are numerous in the streams of China. They do not naturally have the golden hue, but are dark in color, much like ordinary carp, although the species tends toward albinism.

Centuries ago the Chinese fish culturists interbred light-colored specimens and produced many beautiful varieties. Fanciers further induced and strengthened the golden and silvery colors by regulating the quantity of mineral in the water.

When goldfish are restored to a natural environment, says a writer in the Indianapolis News, they often revert to the original dark color after a few generations. It is supposed that goldfish were introduced into England in 1691. Some of the first specimens sent to France were presented to Mme. de Pompadour, mistress of Louis XV. Goldfish are produced in large commercial aquariums.

Most Valuable Wood

Teak is the most valuable of all known timbers. For use in tropical countries it has no equal, and for certain purposes it is preferable to other wood in temperate climates, according to Tit-Bits Magazine. Teak has great strength, elasticity, and remarkable durability. It is not very hard, is easily worked, and takes a beautiful polish. The average weight of a perfectly-seasoned piece of teak wood is between 38 and 46 pounds per cubic foot. Once seasoned, it does not crack, shrink, split or alter its shape. Teak grows in India, Burma, Siam, the Philippine islands, and the Malay archipelago. The trees are about 100 feet to 150 feet high, and 2 feet thick when full-grown. They often produce leaves 2 feet long by 1 foot wide, which the natives use for thatching and wrapping bundles. The leaves contain a red dye once used in treating silk and cotton.

States and Shore Line

The United States coast and geodetic survey lists only seacoast and not the coast of the Great Lakes. Florida has 399 miles of coastline on the Atlantic and 798 miles on the Gulf of Mexico, a total of 1,197 miles of seacoast. California is listed second with 913 miles of seacoast. In tidal shore line (including islands) Florida has 2,276 miles of shore. Though according to the methods of the coast and geodetic survey Maine has only 228 miles of coast line (without islands). If all the indentations are measured that state would have about 3,000 miles. Michigan has a total of 1,715 miles of coastline on the Great Lakes, including 905 miles in the Upper peninsula and 810 miles in the Lower peninsula.

Father of Experiment Stations

Norman Jay Colman (1827-1911) is sometimes called the father of the experiment stations because he was the author of the Hatch bill which authorized their creation in the states and territories. As commissioner of agriculture under President Cleveland he succeeded in raising the bureau of agriculture to an executive department represented in the cabinet. He was the first secretary of agriculture and was editor of Colman's Rural World, a Missouri farm paper.
