Dr. Henderson is a very outstanding speaker and his addresses have received wide acclaim. He is not a stranger in Chelsea as he delivered the high school commencement address in 1930.

Other features of the program will be musical numbers by members of the High School Band, and a milk testing demonstration given by three boys from Ypsilanti.

Premiums awarded will be blue, red and white ribbons, and cash awards. Articles on exhibit will include grain, potatoes, apples, vegetables, nuts, wool, eggs, handicraft, needlework, canning, poultry, livestock, etc.

The committee has been very active in securing donations and exhibits from local merchants. A few outside companies are also sponsoring some very fine exhibits. There will be approximately \$100 for cash prizes.

The entire exhibit and program will be very interesting and it is hoped a large number of people from Chelsea and vicinity will attend, which will encourage especially the girls and boys from rural areas who will bring their projects here for exhibition.

Lansing—Petticoat politics helped to defeat the C. I. O. in Detroit.

That is one of the interesting conclusions advanced in the wake of America's most important municipal election—the bold attempt by the Committee of Industrial Organization to seize control of Detroit non-partisan government.

Women flocked to the polls in large numbers, bearing out the statement made by Miss Catherine Curtis, national director of the Women Investors in America, Inc., of New York, that the fair sex is vitally concerned by labor strikes and mounting prices and taxes.

Surveys by the Women Investors of America show that 65 per cent of wives of men employed in industrial plants report that strikes increased drunkenness, while 80 per cent said that strikes endangered the family life and health. With such a big stake in their husband's jobs, women marched to the Detroit ballot boxes and exercised their privilege.

And after all, who has a better right? Women are beneficiaries of 60 per cent of the 65,000,000 insurance policies held in the United States. More than 50 per cent of the bank saving accounts are held by women. Eighty-five per cent of all consumer money is spent by the ladies.

Even in crime, police have a phrase for it: "C'herchez la femme."

C. I. O. Eyes Farmer

One reason for sympathetic interest by the C. I. O. in Michigan agriculture came to light the other day in Sandusky where Stanley Worcester, Detroit organizer, disclosed that the C. I. O. planned to organize the sugar beet industry and later the milk haulers and dairy cattle breeders.

"Detroit workmen soon will buy union milk only," he declared, warning that farmers soon would be unable to sell milk in Detroit unless they were dues-paying members of a union.

**Armistice Day Parade
Starts at 3:30 Today**

Armistice Day will be appropriately observed today by The American Legion and Auxiliary. Plans have been completed for a big parade which will take place about 3:30, including the Chelsea High School Band, and many special features. All entries in the parade are requested to assemble on Harrison street, north of the public school building, and the line of march will be Park, South, Congdon, Summit, Main and East Middle.

The Legion and Auxiliary are making arrangements to serve four hundred at a dinner which will be served in the public school auditorium from 5:30 to 8:00 o'clock. Following the dinner there will be dancing, with music by Jerry Beissel and his orchestra.

**Chelsea Library Will

This consists of a sheet of the author's manuscript, two pages of proof, a completed signature, and the jacket of the book: "A-going to the Westward" by Lenski. This display is through F. A. Stokes Co. publishers.

Another display will be the development of writing, a chart of the changes from early times to now. The Library is indebted to the Spencerian Pen Co. for this chart.

There will be various other articles and posters of interest, including a list of films which have been made from books.

There will be about 40 new books on display during Book Week which will be loaned to patrons—Saturday night, Nov. 20.

Health Council To Give Free Tuberculosis Test

The County Health Council, under the direction of Miss Pearl Halst, is sponsoring a free tuberculosis test on Tuesday morning, Nov. 30 at 9 o'clock at the high school gymnasium.

This is the beginning of a series of clinics which will be held during the year.

All children from the 5th to the 12th grade inclusive will be given the test with the consent of the parent. Younger children will be included at the request of the parent and also any child of high school age not in school. Approximately 600 are expected to take the test.

The evidence that tuberculosis can lurk in a strong young body is now complete. It is all too common to find young football and basketball players with hidden tuberculosis. The disease may hide in the lung for months without a tell-tale symptom. Quietly it digs in like a treacherous enemy. Suddenly it may show itself by a hemorrhage from the lung. Or it may only hint at its presence by a cough that hangs on, loss of weight, indigestion or unexplained fatigue. By that time serious damage has already been done.

But it need not happen to you! You can take advantage of ways of discovering tuberculosis while it is yet in the "silent" or relatively harmless stage. Should the evidence show that danger is ahead, prompt action will in most cases head off the disaster of serious tuberculosis.

There is a way to find out if silent tuberculosis lurks in the body. It is to have a tuberculin test made. This test, simple, painless and harmless, shows whether or not the germs of tuberculosis have invaded the body. The cases of serious tuberculosis discovered by these tests are fortunately few. But for these few, the gain is great.

The following committee will canvass the town, and it is sincerely hoped the parents will cooperate with the committee: Mrs. J. Vincent Burg, Mrs. Henry Werner, Mrs. Edward Hill, Mrs. Harry Blacker, Mrs. Theodore Bahnmiller, Mrs. William Birch, Mrs. Paul Maroney, Mrs. Norman Schmidt, Mrs. Lydia Christwell, Mrs. Wilbur Hinderer.

**Young People's League
Will Present Play**

The Young People's League of St. Paul's church, Chelsea, are to give a home talent play on Friday evening, November 19 at the Chelsea high school gymnasium at 8:00 o'clock. The name of the play is "Getting Ira Married", a farce comedy in three acts by Howard Reed. The action takes place in the hall of the fire department in the town of Barnesville. The play is under the direction of Paul F. Niehaus, and following is the cast:

Hiram Withers—Chief of the fire department—David Strieter.

Harvey Harris—A Lieutenant—Arthur Lindauer.

Elmira Withers—Hiram's maiden sister—Margaret Lehman.

Rose West—The unofficial town crier—Lucille Hawley.

Mrs. Goodrich—The drug store's book—Estelle Seitz.

John Chadwick—The local magnate—Ralph Dingle.

Millie Myers—Hiram's niece—Thelma Vail.

Loretta Crawford—Carey's fiancée—Elsa Bareis.

Ira Evans—Of the hose cart—Wm. Henry Seitz.

Carey Chadwick—John Chadwick's son—Maynard Oesterle.

Michigan Mirror

(Continued from page one)

East Lansing, may have something to say about this proposed farm-labor affiliation.

Spuds That Satisfy

When you buy Michigan potatoes at the corner grocery store, they will be retailed to you in branded or stenciled sacks, showing the grade and name of the grower or packer.

Growers may sell direct to consumers without all this fuss.

Michigan's "new deal" for potato growers and potato consumers is the result of a federal marketing agreement which the growers adopted in September.

A large staff of federal-state inspectors, stationed throughout the potato belt, are checking to make sure that only graded potatoes are shipped to market.

The inspection fee is 1 cent a bag.

Thus the Michigan spud, now glorified by Washington and Lansing, takes its place along side Maine and Idaho potatoes of advertised fame.

Michigan's potato crop this fall is 33 per cent about the five-year production average, as compared with the national increase of 7 per cent.

The state ranks second in production only to Maine this year.

The plentiful yield, however, has depressed prices. The spuds are down 44 cents a bushel—a break for the consumer, but not so good for the grower.

"Watch Out for Deer"

One of the unexpected benefits derived from installation of deer warn-

ing signs at certain points along state highways in northern Michigan has been profuse wild game advertising by tourists.

Four persons were killed in the state last year as automobiles struck deer on state roads.

The warning signs were suggested by the conservation department as a means of precaution against serious accidents. The state highway department made and installed them.

Tourists, however, took notice. Here is the general conclusion: "Deer is so plentiful in Michigan's northwood country that signs have even been installed, warning motorists of highway hazard."

Auto Sales Climb

Counter to the forecast of the bureau of agricultural economics that the present brief business recession "will run well into 1938" is the general confidence shown by Michigan automobile manufacturers in making plans for 1938.

September automobile sales were 11.03 per cent higher than September a year ago.

A total of 3,370,743 new cars were sold during the first nine months of 1937.

Henry Ford is spending 40 millions for expansions at his River Rouge plant.

Another favorable factor for Michigan's first industry was the outcome of the C. I. O. contest in Detroit.

The automobile industry, which led us out of the depression, knows how to take it on the chin and come up smiling.

30 Millions Credit

The state of Michigan, in the name of 16,000 employers, has a credit of \$30,000,000 with the United States treasury.

That amount includes payments of \$20,000,000 made for unemployment insurance for the first nine months of this year.

These insurance reserves, collected by the state, have been turned over to the federal government into a huge social security pool.

What happens to Michigan's millions?

According to the United Press, "Uncle Sam already has borrowed almost a billion dollars from the nation's wage-earners under provisions of the Social Security act, Treasury leaders show."

The Social security fund gets its return some pieces of paper called "Special Treasury obligations."

General Motors corporation wrote a check for \$3,581,383 into its unemployment insurance reserve at Washington, D. C.

Under Michigan's law, firms that have little unemployment among workers can build a reserve fund and thereafter pay only 1 per cent payroll tax annually.

ANSWERS "WARNING" ITEM

To the Editor:
Your warning in last week's paper concerning rural children going to and from school alone should be heeded by everyone but is it entirely up to the parents? Our school is situated on a lonely road in a very secluded spot. I have in mind one family in this district with three children in school. The youngest, in kindergarten is dismissed at noon; the second child, who is in the second grade, is sent home at 2:30, while the third, a fourth grader, is kept until 4:00 o'clock. Just how is this mother, already over-burdened, going to accompany these children to and from school? When this was mentioned to the teacher she said these rules are made by the county officers and must be obeyed.

MY CHRISTMAS CARDS

I had almost one hundred cards at Christmas-time last year. And every one was filled with hope and wishes of Good Cheer.

On front pages of my diary I've listed them all down. Their city, street and number, yes, Their crossroad, state and town.

Why do you this, a friend asked me. This friend, her name was there. Why, I replied, it seems so sweet To mention them in prayer.

O don't you know all on that list. Have sorrow and have care, And when I talk with Jesus, I just mention them in prayer.

I cannot take each one by name. At least, not always so. But lay my hand upon the list, And lift them up you know.

My Saviour knows them all by name, Their sorrows and their grief, This is my prayer list, Lord I say, Please send each one relief.

He knows, my Saviour them all, They sometimes pray for me, And through their sympathizing prayer I have a victory.

—Arthur Carlisle

PINCKNEY—The Gregory Bank, which went under in 1932 with many other such institutions, has just wound up its affairs. It has already paid 60 cents on the dollar and on Nov. 6 will pay another 15 per cent which will make the total payments 75 per cent. A depositors committee was appointed by the depositors themselves to handle the affairs of the bank. The committee appointed by the depositors was Charles Runciman, Henry Howlett and Wm. Robble. Mr. Howlett died in the Kerns hotel fire and Frank Oviatt was appointed to take his place. These men only drew \$1050 for their five years of work. They paid only \$145 attorney fees. The total cost of settling the affairs of the bank was \$2,487.40. They collected \$62,584.97 and paid back to the depositors \$80,106.57.—Dispatch.

GRASS LAKE—One of the few remaining wooden windmills in this vicinity was blown down Tuesday by the high wind. This landmark was on the farm of Ernest Troeger, and erected by Dr. Herbert Taylor nearly 50 years ago. The latter now resides in Ludington.—News.

MORENO—Pedro Salvador, 27 years old, was held Monday at the Lenawee county jail at Adrian after Federal officers from the Bureau of Narcotics at Detroit said that they found 15 to 20 bushels of marijuana, drying in a farm house where he was living seven miles northeast of Adrian. The farm was covered with patches of the weed, they said. Milan Smith, who has been on Federal Grand Jury duty at Detroit, states that he was a member of the jury that acted on the first case tried under the new Federal law for dealing in marijuana, the Mexican drug. The law went into effect at midnight, October 1, and the first arrest was made at 1:30 a. m. by Federal officers. Mr. Smith said the dealer was indicted by the jury and he was later sentenced to four years in a Federal prison.—Observer.

MILAN—A considerable excitement was created Monday morning when the word was passed around that at 10:30 the gates of the new Ford dam would be closed and the water would be backed into the newly formed lake. At least two classes from the Milan school marched to the bridge and watched the ceremonies. Village officials and a large group of on-lookers swelled the crowd to several hundred.—Leader.

TELEPHONE RATES REDUCED FOR THANKSGIVING DAY

Reduced rates for long distance telephone calls will be made effective for Thanksgiving day this year, according to an announcement by C. F. Schaefer, manager in this area for the Michigan Bell Telephone Company.

The reduction will be made effective by the application throughout the day, as well as Thanksgiving eve and night, of the long distance rates regularly in effect after seven o'clock every night and all day every Sunday. This will be the first time especially reduced rates have been offered for Thanksgiving day, the telephone company official states. They will apply between points within the United States, and in general, will reduce the cost of calls where the regular day station-to-station rate is 40 cents or more.

The announcement was made following the filing of the reduced rates by the Michigan Bell Company and their approval by the Michigan Public Utilities Commission at Lansing. A schedule of similar reduced long distance rates also was filed and approved for the coming Christmas and New Years days.

"The accident was caused by the glaring lights of a passing automobile." So reads an accident report. Every motorist in the country knows what that statement means. It is dark and a motorist driving carefully is suddenly blinded by the glare of an approaching car. From that instant, it is as if he were without eyes. He cannot see the road ahead, judge the speed, or decide definitely the position of the approaching car. He may slow down or come to a stop, but in that time in his blindness he may drive off the road into a ditch or into a railing. Courtesy is the answer to the elimination of these accidents. If all drivers would dim their lights, this glaring condition would be eliminated. It can be done if we all cooperate, and it is certainly our duty as citizens to protect the other fellow and be protected.

Dim your lights!

Red Cross Replaces Farm Family Losses

The Red Cross gave agricultural rehabilitation to 10,116 farm families following the severe eastern floods of last winter. Types of aid included feed, seed, livestock, farm tools and machinery and other items essential to agricultural productivity. More than \$599,000 was expended by the organization to meet these requirements.

In addition to occupational assistance, rural families hard hit by the flood waters were rescued, clothed, fed and sheltered by the Red Cross. Where it was necessary the Red Cross repaired and rebuilt outbuildings, barns and other structures. Medical and nursing care were provided and homes refurnished.

Red Cross agricultural rehabilitation benefited nearly three times as many families as received all other types of Red Cross occupational rehabilitation combined.

Labor's advocacy of the Red Cross program is attested by recent statements from William Green, president of the American Federation of Labor, and John L. Lewis, president of the United Mine Workers of America.

"Red Cross aims and purposes are highly commendable and deserving of the support of all classes of people," said Mr. Green.

"The activities and service of the American Red Cross satisfy a great need of the people, and I strongly urge that it receive the unqualified support of all during its annual Roll Call for members," Mr. Lewis said.

CHILDREN IN COURT

Judge Malcolm Hatfield

Before a runaway girl could be returned home, it was necessary for the court to insist that the parents alter their treatment of her.

As a child, this girl had been disciplined by threats of being chained in a basement infested with rats. At fourteen years of age, the girl was told by her mother that she would run away if the child refused to mind her. This left the girl in a constant state of insecurity and she finally concluded that if her mother could desert her she really didn't love her as much as she pretended. Rather than be a continued burden on her family she decided to leave home and took the first opportunity that presented itself to carry out her resolve.

Meaning—the Most Modern Automobile in the World is the new 1938 Buick—with DYNAFASH ENGINE and TORQUE-FREE SPRING

And wherever there's a Buick dealer there's a chance to try this great car out—now, today!

If YOU'VE put a sparkling 1938 Buick through its thrilling paces—And tried to say in words what this stand-out car's got—And found to your surprise you couldn't begin to do it justice—Listen, don't think you're the only one!

"It's gotta lotta ummph!" say trier-outers vainly trying to express all the marvelous things they've felt.

"Ummph!" meaning zip—flash—power. "Ummph!" meaning all you ever expected to find in a car—and a great deal else in addition!

Fact is—demonstration, not conversation, is the thing to describe this new Buick.

To say it's quick—nimble—agile is to do only fractional justice to its DYNAFASH engine—and what it does every time you touch off its thrifty power.

To call its TORQUE-FREE SPRING ride velvety is only to participate its ride. Use the words—lax, level, floating, serene—and you come a little closer.

But still you neglect the direct-ability this car gets from its new rear springing, the reduced risk of skidding, the simpler maintenance, and longer rear tire wear that go with it.

No, you can't cram a new Buick into words—only its action can tell its story.

MATCH THESE VALUES!

Complete with DYNAFASH engine and TORQUE-FREE SPRING—these models deliver at Flint, Mich. at these prices: Buick SPECIAL business coupe, \$245; Buick SPECIAL 4-door touring sedan, \$301; CENTURY 4-door touring sedan, \$347; ROADMASTER 4-door touring sedan, \$394; LIMITED 8-passenger sedan, \$325. SYLVAN CENTER SCHOOL NOTES

We had a Halloween party and all had a very good time. Sweet cider was furnished by Patricia Mohrlock. We also had popcorn, apples and candy. Halloween games were played.

The Beginners, 1st, 2nd, 3rd and 4th grade boys are making a store. They will learn how to make change and also where some of their groceries would come from.

Helen and Bernadine West and Jean Hafley drew appropriate pictures and decorated the school room for Halloween.

Mrs. Robinson and Arlene Hafley were visitors for this month. We welcome others. Mrs. Robinson brought some stuffed birds to show, quite common but are becoming more scarce because people think they are harmful.

Joe Joseph, Jr. is almost recovered from any signs of his unfortunate accident. He ran into a swing board while someone else was swinging and put his teeth through the side of his lip.

Thomas Quigley cut his hand with an axe last week, but it is much better now.

Our little folks are very careful and obey their traffic patrol, but some of the big folks still walk on the pavement thinking they are too alert to get hit. Well, we sincerely hope so!

We have a "Good Citizen Airway" chart for Citizenship club. We are riding along safely in the airplane unless we disobey some of the points in the Code, then we must bail out and down to the air beacon of unreliable, impolite, dirty housekeepers, wasteful. We can be replaced after three days of grounding.

We have learned four songs and are beginning the fifth for music.

Reporter, Jean Hafley.

Our 4-H Handicraft and Sewing club have been organized for some time. We had our second business meeting Nov. 1. Our officers are: President, Helen West; vice president, Robert Teachout; sec., Jean Hafley; treas., Donald West. We call it the "Sewing Woodchucks," Mrs. M. Breitwischer, leader. Glen Hafley gave a demonstration on the parts of a plane and its use. Next meeting Jean Hafley gives a demonstration of the sewing machine. We work in pairs, two boys one night then two others the next, etc.

The Hi-Light

Edited By The PUPILS OF THE CHELSEA PUBLIC SCHOOL

Editorial

Don't let it startle you but the time has arrived when the faculty and students council have awakened to the fact that it is necessary to improve the morale of Chelsea Hi.

The student body is really taking it hard. They all consider themselves fellow inmates of a jail and chain-institution but they don't realize it is all for the best. We all know each member is looking forward to his first week of "vacation" but maybe when the time comes he will realize he is lost without the discipline of the school.

Cheer up, everybody, and take it on the chin like a good sport and perhaps later you may even decide you like a stricter discipline than you have been used to.

Off To The News

Last Thursday afternoon at precisely 1:00, the Vocations class willingly prepared to take a trip to Ann Arbor and study the printing industry.

After waiting until all members had arrived at the place we began our expedition through the Ann Arbor News under the direction of a very capable guide.

First we were given an opportunity to see the various newspaper editors busily engaged in writing up their part of the paper.

We saw where the records were kept and many volumes of newspapers which are used for reference material. In the room adjoining was the " morgue " where clippings of prominent men are kept to use when writing up a story at a minute's notice.

We also saw how they receive news through the Associated Press and the United Press. They were receiving news at the time, which was coming directly from Detroit and Cleveland.

This was upstairs and after stepping out of the room we saw a very good "bird's-eye view" of the big press.

Then we followed our guide into the composing room. Here were the proof readers who check the errors before the paper is printed. There was also a whole line of linotype machines. We watched these being operated and saw the molds of letters released which were then taken and set up in a tray to represent each newspaper page.

Last in this room we saw the casters made and sent down to the pressman. All in all we now had some idea how the newspaper was made and as we went downstairs and saw it printed. It was interesting to see the machine operate, two large rolls of paper being taken care of at a high rate of speed and six hundred newspapers a minute coming out all folded ready to go on sale.

At the last minute we saw them doing up newspapers ready for the bus to be sent to our small town readers.

Everyone considered the trip worth the time it took.

News of the Week

Who put the very appropriate signs on the Palmer and Walworth homes on Halloween night?

Since when has that curly headed sophomore boy who was once upon a time an ardent East Middle street fan, been making himself comfortable in the home of a slightly sophisticated golden haired Freshie?

We wonder how Peg likes that Oldsmobile that comes from Lima Center.

We are beginning to wonder if a certain member of the faculty who so leisurely lays wets upon our strong backs is trying to start a new version of the organization that wears hoots and use leather straps with copper rivets for discipline.

It seems that our little nightingale fell for the Manchester boy who took the spotlight in the WLS show the first two evenings. Maybe some of you Chelsea boys better learn to play the Saw, Sax, Banjo, etc., or was it the red shirt and suspenders?

That brunette Sophomore who either keeps a very large date book or has a tremendous memory seems to be a jack of all trades these days. Once upon a time she was known as a gold digger, a few days ago she was a Geometry teacher and now she's "Josie, the county girl." What a gal!

Why were all those girls without escorts Thursday night after the WLS show?

Say, what kind of a guy is this Kennedy? Thursday, Pletcher; Friday, Pich; Saturday, Riker; and Sunday, Birch. Whew, what next?

And last, but by no means least, could that have been the Tisch-tash with Barb Friday night?

Why is a certain timid, blonde Senior girl interested in an alumnus of G. Lake?

Who is the friend from Lansing of whom the girlie from Francisco talks?

Why is B. J. K. so jealous of a tall Senior girl? Can it be the boy with the Model A coupe?

Football News

Chelsea recently journeyed to Milan to be beaten by the undefeated red and black. Both teams obtained four first downs, and they also made a touchdown apiece, but when it came to converting the point, our team lost out.

The first half consisted of marching up and down the field for both sides. However, as the second half got into full swing, Milan decided this was a good time to score, and promptly went about throwing a long pass from Sveska, the right half, to Myers, the right end. They also converted their point. Our team then made a touchdown to even things up but failed to convert our extra point, losing the game and keeping us from getting second place. The score was 7-6.

Last Friday Chelsea ventured to Manchester for the annual tussle between these two rival teams of many years. As usual, Chelsea came out on top, but it was a fight to the end.

Although at times Manchester showed Chelsea how it was done, they were, therefore, unable to score. Our touchdowns were made in the second quarter by Spaulding over right tackle, standing up. The conversion was blocked. The second touchdown was made in the third quarter by Fletcher over left tackle. The extra point was a smash over right guard by Strieter. The final score was 13-0 in favor of Chelsea.

This was our last football game and the students and faculty would like to extend their appreciation for the town's hearty support and hope they will support likewise during basketball season.

Clubs

P. F. A.—The farm boys will be in charge of the displays at the Community Fair on Saturday.

The F. F. A. boys are sponsoring an agricultural fair. There will be many exhibits, but the most important thing about the fair is that the Sophomores will have a booth at which they will sell home-made fudge, candy bars, gum, popcorn and green spot. So, if you aren't interested in the exhibits, come anyway and visit the candy booth. I am sure the Sophomores will appreciate your kind patronage.

Band and Orchestra—We now have a regular schedule for Band and Orchestra. Several new members have been admitted and more are coming in soon.

The Knight

There was a knight named William. He had to cross his moat. He couldn't cross by swimming. So he thought he'd cross by float.

He doffed his hat and armor. And lay down upon his back. He floated right across the moat. And floated right straight back.

This didn't get him anywhere. As you can plainly see. So he thought he'd try to think a way. And sat down under a tree.

He thought, he did, he thought again. And finally found a way. He thought of opening the draw-bridge.

And trotting in that way. So if you are in trouble. Just use your head like Willy. You may not have as much good fun, but you won't appear so silly.

A Prairie Night

It was night upon the prairie. And the wolves were howling loud. It was so awful scary. With the moon behind a cloud.

As I looked up from my campfire. Two horses did I see. And on them were their riders. Quite unaware of me.

The scene was quite unusual. And it made me wonder where. The boy and girl had come from. And if they really cared.

The only way I came to know. As on their way they tarried. I learned from their long argument. That they had long been married.

—Joan Walworth.

First Grade

We are building a large house with our Lock-A-Blox set of lumber. Anyone coming into our room between 8:30 and 9:00 in the morning would see many busy carpenters. We are building furniture for our new house. We also have a dog and bird house. We have a toy Scottie in the dog house.

The people who were out last week were surprised when they came on Monday and saw what we are building. We are happy to have them back in school as we need their help.

We are having much fun learning to read and write. We are also getting ready for Thanksgiving. We hope to have a Thanksgiving party if all our boys and girls keep well. Our easels have paintings of large turkeys, Indians and Pilgrims. We are

learning to sing some Thanksgiving songs. Our Michigan Holly looks pretty on our Library table.

Second Grade

We have some pollywogs. Junior brought them to us. They came from northern Michigan.

Only four of our grade are out of school. We have a pretty good record! Mrs. Niehaus spent the morning with us and watched us work. We hope she comes again.

Only 12 school days before Thanksgiving. We are busy getting ready for it.

In music we are studying of a composer by the name of Sir Arthur Sullivan.

"Much Obligated" Is Grandpa's Grace for Thanksgiving

GRANDPA VANDERHOF collects snakes and keeps them in the living room, attends commencement exercises, and refuses to pay income tax because he doesn't believe in it. Members of his family write magnificently unsuccessful plays; study aesthetic dancing, make fireworks, play the xylophone and are content to forget about work and live off Grandpa.

But the contentment enjoyed by Grandpa and his flock have already warmed the hearts of millions of Americans, who have learned to love them. They're not real people, of course, only characters in "You Can't Take It With You," the Pulitzer prize play by Moss Hart and

Aldrich Bowker, who says the famous Grace of Grandpa Vanderhof in the Chicago cast of "You Can't Take It With You."

George S. Kaufman, which for many months has been breaking theater attendance in the large cities in which it has played.

No more appropriate and charming Thanksgiving prayer could be imagined than the Grace which Grandpa Vanderhof asks as his daffy brood sits down to dinner—which may well consist of tomatoes, corn flakes and beer, if nobody thought to order anything else from the grocer. It has already become one of the most famous speeches in the American theater.

"Well, Sir," he begins, napkin in hand, "we've been getting along pretty good for quite a while now, and we've certainly been much obliged."

"Remember, all we ask is just to go along and be happy in our own sort of way. Of course, we want to keep our health, but as far as anything else is concerned we'll leave it to You."

"Thank you."

TAMMANY HALL ROUTED

La Guardia and Dewey Winners in New York . . .

Detroit Rejects Candidates Backed by the C.I.O.

Edward W. Pickard SUMMARIZES THE WORLD'S WEEK

La Guardia's Victory

TAMMANY HALL went down to an inglorious defeat in the New York municipal election. Its mayoralty candidate, Jeremiah T. Mahoney, who was supported by Jim Farley and Senator Wagner, was thoroughly whipped by Fiorello H. La Guardia, the first "reform" mayor ever re-elected in New York, piled up a majority of 454,425.

The Republicans had the result as a great victory for their party, and it was. But it also put the La Guardia party in the position of holding the balance of power in future elections in the metropolis.

Second in interest only to the mayoralty vote was the fact that Thomas E. Dewey, the young man who smashed organized crime and the rackets in New York, was elected district attorney, defeating Harold W. Hastings, the Tammany nominee. Dewey, who is only thirty-five years old, promises reform in the methods of the office, and his record gives assurance these will be carried out.

The Republicans regained control of the New York state assembly and of many upstate cities.

C.I.O. Loses in Detroit THE first important venture of the C. I. O. in politics turned out disastrously for the Lewis organization. Patrick H. O'Brien, its mayoralty candidate, declared on the stump that "labor must seize the reins of government in Detroit and every other American city." Whereupon the Detroit electorate arose in their wrath and swept O'Brien and the C. I. O. out of the picture. Richard W. Reading, conservative candidate backed by the A. F. of L., won the office by a majority of 108,907 votes.

In addition, all the five C. I. O. backed candidates for the common council were decisively whipped.

In New Jersey Senator A. Harry Moore, Democrat, was elected governor over Lester H. Cleo, Republican, but only by virtue of a big majority in Hudson county. Moore has held the office twice before. It was the first time in the state's history that a governor has won a third term. The state constitution prohibits a consecutive re-election but Moore was elected in 1925 and again in 1931, each time for a three-year term.

James M. Curley, who has been three times mayor of Boston and once governor of Massachusetts, tried again for the mayoralty, but was defeated by Maurice J. Tobin, like Curley a Democrat.

Philadelphia went Democratic, as did Pittsburgh, which re-elected Mayor Cornelius Scully.

Borah Talks Plainly WHILE Republican national committeemen were gathering in Chicago for an important meeting, Senator Borah of Idaho jumped into print with a vigorous denunciation of the plan, favored by Hoover and Chairman Hamilton, to hold a mid-term Republican convention next spring, for the formulation of party policies.

"We have heard a great deal about usurpation and dictatorship in recent years," said Borah. "There could be no greater exhibition of usurpation or dictatorship in politics than for a few accredited men undertaking to fix the principles and policies for 17 million voters without ever having consulted the voters or received their endorsement in any way."

"The Republican party is in its present plight largely because leaders of the party too long neglected to take counsel of the voters. Leaders acted upon the theory that voters would be led or cudgeled along the road pointed out by the leaders."

Brussels Conference FORMAL opening of the far east peace conference in Brussels brought out speeches by the chief delegates of America, Britain, France, Italy and Russia. Davis for the United States denounced resort to armed force as a means of settling international disputes, and urged Japan and China to seek a settlement of their conflict "by peaceful processes."

He continued: "We believe that co-operation between Japan and China is essential to the best interests of those two countries and to peace throughout the world. We believe that such co-operation must be de-

veloped by friendship, fair play, and reciprocal confidence. If Japan and China are to co-operate it must be as friends and not as enemies. The problems underlying Chinese-Japanese relations must be solved on a basis that is fair to each and acceptable to both."

Eden for England and Delbos for France seconded these sentiments. The Italian representatives made it clear Italy would not stand for any coercive measures against Japan.

China was represented by Dr. Wellington Koo who said: "We desire peace, but we know that we cannot obtain it in the presence of Japanese aggression. So long as aggression persists we are determined to continue our resistance. It is not peace at any price that will render justice to China or to the credit of civilization."

A committee was named to send an appeal to Japan to open peace negotiations with China, and Germany was asked to reconsider her refusal to take part in the conference.

Labor Hits Duke's Tour RESOLUTIONS denouncing the American tour of the duke and duchess of Windsor as a "slumming trip professing to study labor" were adopted by the Baltimore Federation of Labor, and approved by President Green of the A. F. of L. They attacked Charles Bedeaux, the duke's friend, as a sponsor of the "stretch-out system."

Officials of the Committee for Industrial Organization, while refusing to be quoted, said the attitude of their organization on the Bedeaux system was "well known."

Official and social Washington, which had been in doubt as to what to do about the distinguished visitors, was relieved when Sir Ronald Lindsay, British ambassador, announced he would give a state dinner for the royal couple, as he termed them, the day after their arrival. Immediately thereafter it was made known that President Roosevelt would entertain the duke and duchess at luncheon in the White House.

The duke's talk on arrival was to be broadcast over all major networks, but the British Broadcasting company announced it would not pick up Windsor's remarks for re-broadcasting in England.

Bedeaux said the duke while in the United States would observe these sixteen heavy industries: Heavy machinery, light machinery, heavy chemical work, oil refining, textiles, tobacco, steel, rubber, either coal or metallic ore mining, automobile manufacturing, prepared foods, meat packing, logging, timber and paper production and vegetable and fruit packing.

Almost Recognition GREAT BRITAIN decided to let Franco, Spanish insurgent chief, send consuls to England, and to send official agents to the part of Spain he controls. This, it was said in official circles, did not imply recognition of Franco, but British authorities thought it did, and consequently assailed the government. Anyhow, it was apparent Britain believed Franco was right when he said in Burgos "the war is won."

veloped by friendship, fair play, and reciprocal confidence. If Japan and China are to co-operate it must be as friends and not as enemies. The problems underlying Chinese-Japanese relations must be solved on a basis that is fair to each and acceptable to both."

Eden for England and Delbos for France seconded these sentiments. The Italian representatives made it clear Italy would not stand for any coercive measures against Japan.

China was represented by Dr. Wellington Koo who said: "We desire peace, but we know that we cannot obtain it in the presence of Japanese aggression. So long as aggression persists we are determined to continue our resistance. It is not peace at any price that will render justice to China or to the credit of civilization."

A committee was named to send an appeal to Japan to open peace negotiations with China, and Germany was asked to reconsider her refusal to take part in the conference.

Budget Conference

WHILE members of congress were beginning to move toward Washington for the extraordinary session, President Roosevelt in his Hyde Park home was busy planning means of carrying on the government program. Especially was he interested in the budget, and related financial matters, and to advise on this he called in Mariner S. Eccles, head of the federal reserve system. Treasury Secretary Morgenthau and Budget Director Bell were also there and all listened closely to Mr. Eccles' talk concerning current business conditions and the stock market situation.

It was decided by the President that the Commodity Credit Corporation should provide \$65,000,000 for the corn loan, obtaining the money from the RFC and repaying the latter agency when congress makes the necessary appropriations.

Officials of the Agriculture department gave corn growers assurance that the government will loan 50 cents a bushel on the large 1937 crop. The loans will be made, according to current plans, on field corn testing 14.5 per cent moisture content or less. The 50 cent rate will be reduced on corn containing more moisture.
