Baseball Picture To Be Presented Tonight

Through the courtesy of the Fisher Body Corporation, the baseball talking picture "Batter Up" will be presented at the Chelsea public school auditorium tonight (Thursday), starting at 8 o'clock. The event is being sponsored locally by the Cassidy Lake Camp and the Kiwanis club.

Highlights of the picture are many scenes of the World Series games between the Yankees and Giants, as well as the secrets of Connie Mack's score card signals from the dug-out. There also are talks by many of baseball's celebrities, including several Detroit Tigers, and close-ups of Mickey Cochrane's catching abilities.

The picture was made under the direction of Lou Fonseca, and the narration is given by Ted Husing, famous sports announcer. The time necessary for presenting the picture is about one hour, which will be followed by another special feature picture, Chelsea High baseball lettermen will act as ushers.

There will be no admission charge, and the public is invited to attend. The picture is in great demand and the people of Chelsea and vicinity are fortunate in having the opportunity to see this unusual presentation of the inside "dope" pertaining to the most popular sport in the country.

Independent Party Names Full Ticket

An independent party caucus was held Monday evening at 8:30 in Sylvan town hall, when a complete ticket was nominated for the annual village election to be held on March 14. This was the only caucus called.

The meeting was called to order by Roy Harris. John Keusch presided as chairman of the meeting, with Charles Meservy as clerk. The tellers were A. E. Winans and Fred Broesamle.

The following ticket was placed in nomination:
President—Roy Harris.
Clerk—James J. Munro.
Treasurer—Milton J. Baxter.
Trustees—Wilbur Hinderer, Jay S. Tuttle, Albert E. Winans.
Assessor—Edward L. Keusch.
Party Committee—J. J. Munro, W. H. Kusterer, Chas. Williams.
Voters of the village will also vote at the annual election on the proposition of whether or not a free public library shall be established and an annual tax be levied in support thereof, not to exceed one-half mill.

Basketball Tournament Will Be Held in Chelsea

The result of the draw Tuesday afternoon for the district basketball tournament to be held at the Chelsea public school gym Thursday, Friday and Saturday, March 3, 4 and 5 was as follows:

1. Bye—East Jackson.
2. Bye—Dexter.
3. Grass Lake.
4. Vandercook Lake.
5. Michigan Center.
6. Chelsea.

Grass Lake plays Vandercook Lake on Thursday night at 7:30 in the first game of the tournament and Chelsea plays Michigan Center at 8:30. The winner of the first game plays East Jackson Friday night and the winner of the Chelsea-Center game plays Dexter at 8:30 Friday night.

The two winners of the Friday night game play for the championship Saturday night and the two losers Friday play a consolation game for the opener Saturday. Two games every night, first game at 7:30.

Elton Rynearson of Ypsilanti and Gordon Seder of Ann Arbor are the tournament referees.

FARMERS' CLUB MEETS

The February meeting of the Northwestern Washtenaw Farmers' club was held on Thursday evening at the home of Mr. and Mrs. H. L. Blecker. A pot luck supper was served at 7:00 o'clock. The speaker of the evening was Dr. R. Clyde Ford, senior professor of the faculty of Ypsilanti State Normal, who gave a very informative address on "Tales and Trails in Early Michigan History." Dr. Ford has been quite an authority on early Michigan territorial development and has translated many of the records of early Jesuit priests, who came into this country when it was a wilderness.

NORTH SYLVAN GRANGE

The North Sylvan Grange will meet at the home of Mr. and Mrs. Henry Heim on Tuesday, March 1. Program: Song—Michigan, My Michigan. Discussion—Do you benefit from the Agriculture College or Agriculture Agent? Questions—On Safety. Topic—The most dangerous occupation—George McClure. Poem—"Ma and the Auto". Miscellaneous—Henry Heim. Closing Ode.

Lansing—The paradoxical situation whereby vast surplus stocks of Michigan apples and potatoes remain in Michigan warehouses while outstate apples and potatoes arrive daily for sale here has prompted state officials to burn midnight oil in quest of a solution.

Two conclusions are being advanced by experts in the state department of agriculture:

1. Apples, potatoes and similar foodstuffs should be graded. The state department, cooperating with the federal government, undertook a grading program last fall. But only the surface is being scratched.
2. Merchandising foodstuffs in attractive packages would stimulate consumer buying. Instead of placing pages of yesterday's newspaper around the bottom of a bushel basket, the grower would use attractive green or red paper. Paper cartons would be utilized for retail presentation of pears, peaches, etc.

Callahan's Potatoes
Grading and merchandising of surplus foodstuffs would put Michigan produce on a parity with outstate produce.

The third and final plank—utilize newspaper advertising to create mass consumption—is yet to be added.

A large part of the Michigan surplus stocks could be sold in Michigan through a cooperative advertising campaign whereby the growers would offer allowances to retailers for partial payment of newspaper advertising space.

And if business conditions improve so that the state might afford to make a modest annual appropriation to match the funds of growers, each \$1 of public funds could be pyramided easily into \$4 worth of advertising benefits. Growers would have better prices. And, instead of feeding foodstuffs to animals, growers would (Continued on next page)

Destroy Old Plates, Case Tells Drivers

Leon D. Case, Secretary of State, cautions all motorists to destroy their 1937 motor vehicle license plates as soon as they install 1938 plates to their cars.

Instances in which criminals have picked up cast-off plates for temporary use on their own cars in the commission of a crime, are not unknown to police, it is pointed out.

The dangers of this possibility grows during the last few days preceding a license plate deadline, with hundreds of thousands of plates being carelessly thrown away, thus available to anyone who might want to use them perhaps for only a few hours.

Until March 1, the only way a motorist can be assured that no one else might use his old plates, is to see to it personally that the plates are mutilated, Case stresses.

SPEAKS ON WASHINGTON

Charles Cameron, of the Chelsea high school faculty, gave an interesting talk on the life of George Washington at the Kiwanis meeting on Monday evening. Mr. Cameron told many of the happenings in the life of Washington which are not included in the history of the father of our country as told in school textbooks.

It was voted at the Monday evening meeting to entertain the Dexter Kiwanis club at a ladies' night affair to be held at the local Methodist church on Monday evening, April 18.

RETURNS FROM EUROPE

Emil Regner of Sylvan township returned last week Tuesday after spending two months with his parents, Mr. and Mrs. Joseph Regner in Poland. Mr. and Mrs. Roy Kalmbach and Mrs. Regner met Mr. Regner in Detroit when he returned. Mr. Regner visited Germany, Austria, Denmark and other countries. He reports that conditions are much worse in foreign countries than in the United States, and that the chief concern over there is the war cloud which threatens at all times.

TAX SALE SUPPLEMENT IN THIS ISSUE

This issue of The Standard contains a supplement of 80 pages which lists parcels of property in Washtenaw county which will be sold at the State Tax Sale to be held the first Tuesday in May, 1938. Although there are some descriptions listed upon which taxes have been paid since compilation of the list was started several months ago, the Auditor General's Department at Lansing has made an effort to have the list as much up to date as possible. Parcels upon which taxes have been paid will of course be withheld from the sale.

Library Proposal Is Explained By Club

The petition to the Village Council asking for a tax levy for the purpose of maintaining a free public library requires the council to put this measure to the vote of the people of the village at the next regular election which is scheduled for March 14.

The tax levy of one-half mill which is being asked, if passed, will enable the library to pay something toward the rent, heat and light, so far donated, a small salary to the librarian, and to maintain the high standards which have been in force up until now.

If this measure passes, the Village Council will appoint a library board of six members, two for one year, two for two years and two for three years, which in turn will hire a librarian and transact all other business pertaining to the library. After the first year, two members of the library board will be elected each year by the people instead of being appointed.

It is desirable that members of the library board be residents of the village, who have the best interests of the library in mind. Although it has been an association library in the past, the aim has been to make it as nearly as possible a public library and it is hoped, if this measure passes, that as a public library it will continue to serve the public in the same way that it has in the past.

The whole-hearted support of the public for this project is earnestly asked for and any questions on the subject will be answered gladly. You are especially invited to hand in questions to The Chelsea Standard office. These questions will be answered in the next issue of The Standard.

Churches Will Unite for Lenten Services

The Protestant churches of Chelsea will conduct united Lenten services each Wednesday evening at 7:30 from Ash Wednesday, March 2, until Holy Week, when the service will be held on Good Friday at 1:30.

The custom established in previous years of holding joint meetings in the Methodist, St. Paul's Evangelical and Congregational churches will be followed again this year in this order. The music for each service will be furnished by the choir of the church in which the service is held, and each pastor will preside at the service held in his own church, or arrange for other leadership at his own discretion.

Date of services; preacher, and church in which the services will be held are as follows:

- Ash Wednesday, March 2: Preacher, Rev. Ray W. Barber; Methodist.
- Wednesday, March 9: Preacher, Rev. Fred D. Mumby; St. Paul's.
- Wednesday, March 16: Preacher, Rev. P. H. Grabowski; Congregational.
- Wednesday, March 23: Preacher, Rev. H. A. Leeson; Methodist.
- Wednesday, March 30: Preacher, Rev. Ray W. Barber; St. Paul's.
- Wednesday, April 6: Preacher, Rev. Henry W. Lenz; Congregational.

The advisability of securing a guest preacher for the Good Friday service is being considered and the decision will be announced later. The service on Good Friday will be held in the Methodist Episcopal church. These services are conducted by the churches of Chelsea through the Lenten period, each church taking care of the incidental expense of all services held in that church. No offerings are taken at any of these mid-week meetings. Christians are urged to cultivate the spirit of sacrifice and self-denial and present their offerings to Jesus Christ through their own church treasury at Easter.

The pastors of the co-operating churches request that all the Christian people of this community truly unite all their efforts and powers in prayer and service for the success of these meetings. Plan to attend every service as faithfully as your pastor and be sure to invite your neighbors and friends to do likewise.

DEXTER—The bridge over the Huron River at the north village limits, that has been closed for the past month for repairs, was reopened to automobile traffic last Monday. A crew from the county road commission has been busy setting up new guard rails and broadening shoulders at the approaches to the bridge. The strengthened bridge will take two way traffic and any legal load.—Leader.

DETROIT—The First Baptist church at Williamston, which does not pass the collection box nor solicit for funds, recently completed its tenth year under the direction of the Rev. Harold Reese. The church has used no means of raising money except for placing a collection box at the rear of the church for the past four years but there has been no decrease in funds for general expenses. Donations for missionary work has increased 10 per cent and the membership of the church has increased.—Free Press.

BROOKLYN—The barber shop zone of Brooklyn was rocked Friday morning by more than a political blast. The

stove in Joe Tilden's place blew up, crashing two windows on the south side. Joe had been burning old cylinder oil for fuel and when the supply got low it included too much gasoline for the apparatus to assimilate. Present shop practise is now straight coal for heat.—Exponent.

HOWELL—The severe rain storm of Saturday night, when rain fell in sheets and set a new 30 year record for precipitation for a 24 hour period, damaged roads and bridges throughout the county, but seemed to be heavier in the northeast part. At Parshallville the dam went out at 2 o'clock p. m. Sunday, tearing a gap in the structure nearly 80 feet wide, damaging the mill somewhat, flooding the flats below in from 6 to 8 feet of water, and damaging in varied degrees seven bridges north of the dam. No estimate of the damage to gravel, dirt, and blacktop roads has been compiled, but according to the county road commission damage far exceeds anything recorded in the past twenty years. Every available man and extra were called out Sunday morning to repair damages, and help in holding the water at Parshallville, while tests were made, and men rushed to check up on other dams and bridges throughout the county.—County Press.

CHILDREN IN COURT

Judge Malcolm Hatfield

When we pause to consider that fifty per cent of all school children receive no religious training whatever, educators have just cause to wonder what type of business leadership will be developed in the future. Students cannot be expected to develop character if they are permitted to shut their eyes to those immensely personal moral problems which cannot be escaped in the business world.

The question is how many shrewd young men will adopt certain unscrupulous business leaders of today as models, and attempt to emulate them. While such boys would not think of robbing a filling station or disobeying any of the local ordinances, they may not hesitate, if given the opportunity, to work behind the scenes and filch the public treasury. In other words, will our leaders of the future, lacking religious training, be loathe to add thousands of dollars to the costs of estimates so that the government official who awarded a contract to an unscrupulous concern can receive a handsome gratuity?

realize a fair profit through sale of surplus stocks to consumers. Michigan's A-1 advocate of the "Advertise Michigan foodstuffs in Michigan" is State Senator Miles Callahan of Reed City. Callahan knows his potatoes!

Lumbermen Happy

Michigan is still an important lumber state, and lumbermen are jubilant over 1938 prospects.

Passage by congress of the new home building act—whereby \$800 down will finance a \$6,000 home with monthly payments of less than \$33—has provided the silver lining.

The Michigan Building and Loan League estimates that a total of fourteen millions of dollars are available immediately to Michigan citizens for home construction in 1938.

This amount represents the combined cash of the 75 associations plus their credit from the federal home loan bank system with which most associations are affiliated.

According to Grant H. Longnecker, executive secretary, "These funds are available to responsible persons who are interested in buying, building, repairing or remodeling residential property."

No wonder the lumbermen are optimistic.

With clearing of the present industrial clouds, Michigan will witness a marked improvement in the building trades and supply business field.

No Special Session?

Like the famed "off again, on again, Finnigan" report of a railroad wreck is the last-minute word in Lansing that the much-touted special session of the legislature is not going to be held after all.

Two weeks ago it was a sure bet that legislators would be summoned to appropriate additional funds for unemployment relief.

Resourceful budget workers convinced the governor that upwards of \$3,000,000 could be obtained by requiring liquor firms to store goods in state warehouses for sale to the state "if and when needed." This system is used in Ohio. It would automatically solve the problem of putting millions of dollars of state funds into liquor stocks in anticipation that the public may buy them.

United States Senator Prentiss M. Brown counseled the governor publicly not to take chances of a legislative battle this year.

If the unemployed can be fed and housed, there is little likelihood of a special session in Lansing. As Homer Martin of the UAW put it recently at Flint, "We want relief and we don't care where we get it."

Used Car Problem

Convinced that automobile factories cannot turn with activity again until the used car jam is broken, manufacturers and dealers are planning a "super bargain sale" this spring.

Prices will be cut to the well-known rock bottom, while dealers center attentions on improved reconditioning methods.

The used car business is a two billion dollar industry.

The Petroleum Institute estimated recently that of the 29,000,000 automobile owners in this country, 10,000,000 of them had never owned a new car.

For every new car a dealer sells, he receives a used car.

It is an economic cycle that functions just as long as there is a market for used automobiles. When the market jams, then the backlog starts that ends in shutdown of automobile factories.

The used car industry is more important to Michigan than to any state in the country. Remember, one of every six persons owe their livelihood in America to the automotive industry and its many ramifications. Verily, Michigan is on the national map in heavy black letters.

Wirt G. Ives of Chelsea and Miss Mae Laverock were married at the home of the bride's parents in Unadilla on Wednesday, February 24, 1904.

Frank Lusty has bought the farm in Lyndon owned by the Margaret Lusty estate.

Among the singular things that may be noted among the season's peculiarities is the fact that the first ice which froze over the lakes and streams last fall is still there, they not having been open since.

Every school in the nation should have a safety program. It makes no difference whether the school is located in the country or in the city, it should have a school police and school patrol operated and governed by the students themselves. Public officials should take an active part in such a program by sponsoring it and organizing it for the children.

Schools in many communities now have safety patrols and are finding them very effective in solving the traffic problems in the school zone. Children are taking great interest in them. Such training is very necessary, since we all know that it is always the driver of the car who is to blame for an accident. Children must be taught safe practices and safe conduct.

Another phase of what some persons term "the good old days" is disappearing in Michigan to the despair of farmers in the state who want to repair old buildings or construct new ones.

For there are practically no old time carpenters who know how to lay out timbers and put together rafters and spikes.

That is one of the problems leading the agricultural engineering department at Michigan State College to announce three one week short courses starting Monday, March 5, on the campus at East Lansing. One is in farm buildings, another in irrigation and drainage and a third in rural electrification.

Construction and use of laminated round-roof barns is to be a modern portion of the farm builders' and carpenters' course directed by C. H. Jefferson of the staff. Men attending will lay out, build and erect some of the new type rafters. Home construction will be a part of the study.

Fundamentals of irrigation and drainage will be offered in another course by O. E. Robey, member of the staff who returned recently after touring England and Europe for additional information. Actual field work in laying out grades and tile lines are to be included.

High line service offers problems in rural electrification that are to be pondered in another short course conducted by D. G. Ebinger, specialist in the department. Proper wiring and proper equipment will be discussed. Laboratory work will include work in wiring, handling and studying motors, grinders and other equipment. Sufficient additional time will permit those enrolling to study out some of their own farm electrification problems.

Ice Fishing Threatens Supply of Bluegills

Lansing—Complaints that intensive ice fishing is threatening to deplete the bluegill supply are under consideration by the fish division of the department of conservation with a continuous creel census now underway on one southern Michigan lake.

The complaints have come from persons who have observed the large catches which ice fishermen have been taking out of a number of the state's lakes and who have noted that not only are the strings longer but the individual fish caught average larger than those generally hooked during the summer. The fear is expressed by many that depletion of the supply may result unless some restriction is applied.

Objection also has been made to fishermen from adjoining states coming across the state line for a few hours of profitable fishing, and it is charged that some ice anglers make a practice of going from one lake to another, often taking their limit on each.

Opinion as to the depletion caused by night ice fishing is also being checked. It is claimed by some fishermen that use of lights has increased the amount of night fishing and the size of the catch.

The continuous creel census underway is being conducted on Bear Lake in Hillsdale county with the purpose of obtaining more data on the effect of ice fishing on the supply, since there are also many anglers who doubt that winter fishing is harmful and who believe that it should not be restricted.

PLYMOUTH—San Francisco can have its whales; but Walled Lake has its carp. Friday afternoon, Louis Schröder of 585 Starkweather, re- turned from a fishing trip at Walled Lake that netted him a 29 and one- quarter pound carp, measuring 32 inches long and 22 inches around— probably one of the biggest ever caught here. Mr. Schröder said the fish put up a stiff battle and it was some little time before he finally landed it. Two pike, weighing four and seven pounds, completed the day's catch.—Mail.

RESPONSIBLE TO THE PUBLIC

TELEPHONE SERVICE, so interwoven with every phase of modern life, is a public necessity. It is needed day and night. It vitally concerns the general welfare.

Michigan's telephone workers realize they carry a responsibility not imposed on the average industry. How fully they accept that responsibility is shown by the

"spirit of service" that has long been a tradition among them... a tradition that grew out of the faithful discharge of routine duty, and a ready sacrifice of personal convenience and comfort when emergencies have endangered the service.

SYLVAN CENTER SCHOOL NEWS

The following people have been neither absent or tardy for month of February ending Feb. 18: Jean, Duane, Layern, Albert Haffey, Helen and Bernadine West, Robert Teachout, Leonard and Robert Quigley.

Lavern Haffey has been neither absent nor tardy for the year. Jean, Helen and Bernadine absent one-half day for year.

The boys in the 4-H club are almost through making their articles and are putting them together, which sometimes brings difficulties.

The girls are almost through with their sewing project. They have liked sewing so well. Some are making quilts and one girl says she is going to make all her clothes for high school next year. She is a nice, neat seamstress, so will have no difficulty.

The Safety Patrol club have a new captain, Donald West, who has appointed his patrol as follows: Beverly Hale, Glen and Lavern Haffey, Charles Quigley, Robert Teachout. Reports are given each morning and kept on the board for a week.

Charles Quigley is interested in 4-H club summer work and is going to have a vegetable garden.

We are all reviewing hard for this week for March 2 County test. Most of us hope to get better than last time.

We had our Valentine party Monday afternoon, Feb. 14. We served dinner at noon—Chop suey, sandwiches, cake and ice cream. The older ones made the ice cream, which was delicious. The teacher gave each one a candy heart with our name written on for our Valentine. All received many Valentines.

The first grade have read two books and are starting on the third for this year. We have "Surprise Stories" now.

We have had our monthly test and expect to receive our report cards on Wednesday.

The weight and height have been taken for this month by Jean Haffey. The eighth grade are always finding more interesting things to put into their Science scrapbooks on flowers, trees and other things.

The sixth grade have completed their book on Norway and Sweden, but of course are still watching for material to put in.

Duane Haffey, Robert Teachout, Reporters.

Five Kinds of Tonnage

Used by Large Vessels

Vessel tonnage should not be confused with cargo tonnage. A cargo weight ton is 2,240 pounds, while a cargo measurement ton is 40 cubic feet. A vessel measurement ton is 100 cubic feet. The carrying capacity of ships is limited by the amount of measurement space available within their holds and by the amount of weight they can safely carry. This is called register or deadweight tonnage, respectively. The five kinds of vessel tonnage, advises a writer in the Chicago Tribune, are:

Gross register—The total enclosed space of a vessel, expressed in measurement tons of 100 cubic feet, including engine room, bunker (fuel) spaces, crew quarters, storeroom spaces, cargo spaces, etc. Net register—The total enclosed spaces of a vessel available for cargo and passengers, in measurement tons of 100 cubic feet. Total deadweight—The number of weight tons of 2,240 pounds, consisting of cargo, fuel, stores, supplies, fresh water for the boilers, etc., required to put a ship down to her marks, her maximum loadline. Deadweight cargo capacity—The number of weight tons of 2,240 pounds which a ship can carry as cargo after deducting the weight of fuel, stores, supplies, and fresh water required for the boilers, etc. Displacement—The equivalent of the weight of the water displaced by a vessel fully loaded and ready for sea; this is the largest tonnage dimension of a ship, but it is not commercially important.

What Every Driver Must Know

TRUCKS AND BUSES

Chauffeurs applying for their new licenses may be asked about regulations covering trucks and buses before being granted the permits. This is in line with the new Michigan license law. This article summarizes the special speed restrictions so chauffeurs will be prepared if the examiners ask about them.

These special speed limits apply to trucks and buses and may be changed by the Public Utilities Commission: 25 m.p.h. for any vehicle weighing more than 18,000 pounds loaded or unloaded; 35 m.p.h. for any vehicle loaded or unloaded weighing more than 5,000 pounds but less than 18,000; 50 m.p.h. for any vehicle or combination exceeding 85 feet long over all.

Truck and bus drivers not operating under special Public Utilities Commission regulations who drive vehicles coming within these limits, must abide by them.

A GRAND OLD MAN

(Contributed to the Detroit Free Press some time ago by Mrs. Jenny Spicer; resurrected by Arthur Carlton, with comments.)

Riding on Grand River in a street car one fine day,
Chanced to see a traveler,
Old and bent and grey;
His clothes were old and rusty,
His face was wrinkled and tan;
But his splendid manners, and kindly face
Bespoke the gentleman;
He saw was a benediction to all on
the car that day;
Each in passing threw him a smile,
And he carried them all away,
He was used to carrying smiles,
They filled the windows of his soul;
I'm sure in heaven he'd find a place,
While the years of eternity roll;
The way he said "I thank you" as the
conductor pointed the way,
The way he looked at his flowers, of
the scant and purple bouquet
He had gathered by the roadside,
For his sweetheart at home I ween,
No doubt—she will think it the finest
that ever eyes hath seen.

Comment by Mr. Carlton:
There are those who have eyes, yet they see not.
Having ears, yet they cannot hear.
How blest in the spiritual vision
To those who have a spiritual ear;
The old man who carried the sunshine,
And the heart of a diamond glow,
Was a true reflection of Jesus,
And was not carried for show.

SYLVAN CENTER SCHOOL NEWS

The following people have been neither absent or tardy for month of February ending Feb. 18: Jean, Duane, Layern, Albert Haffey, Helen and Bernadine West, Robert Teachout, Leonard and Robert Quigley.

Lavern Haffey has been neither absent nor tardy for the year. Jean, Helen and Bernadine absent one-half day for year.

The boys in the 4-H club are almost through making their articles and are putting them together, which sometimes brings difficulties.

The girls are almost through with their sewing project. They have liked sewing so well. Some are making quilts and one girl says she is going to make all her clothes for high school next year. She is a nice, neat seamstress, so will have no difficulty.

The Safety Patrol club have a new captain, Donald West, who has appointed his patrol as follows: Beverly Hale, Glen and Lavern Haffey, Charles Quigley, Robert Teachout. Reports are given each morning and kept on the board for a week.

Charles Quigley is interested in 4-H club summer work and is going to have a vegetable garden.

We are all reviewing hard for this week for March 2 County test. Most of us hope to get better than last time.

We had our Valentine party Monday afternoon, Feb. 14. We served dinner at noon—Chop suey, sandwiches, cake and ice cream. The older ones made the ice cream, which was delicious. The teacher gave each one a candy heart with our name written on for our Valentine. All received many Valentines.

The first grade have read two books and are starting on the third for this year. We have "Surprise Stories" now.

We have had our monthly test and expect to receive our report cards on Wednesday.

The weight and height have been taken for this month by Jean Haffey. The eighth grade are always finding more interesting things to put into their Science scrapbooks on flowers, trees and other things.

The sixth grade have completed their book on Norway and Sweden, but of course are still watching for material to put in.

Duane Haffey, Robert Teachout, Reporters.

The society voted to have a pot luck supper at every third meeting and to again have birthday plates changing the amount to be filled to \$1.00. "The Moslem World", the topic for the meeting was given by Rev. P. H. Grabowski and a reading, "Behind the Lattice Work of the Moslem World", by Mrs. Beach. Lunch was served to 34 members and guests.

Flying Fish Build Nests

Flying fish emulate birds not only in taking to the air; they also build nests. To be sure, their nests are no more like birds' nests than their "flight" is like the flight of birds. Nevertheless they are nests, with the eggs of flying fish in them. Dr. E. W. Gudger of the American Museum of Natural History, in a report prepared for the American Naturalist, summarized all the information available about these fish-nests. They are made in clumps of floating gulfweed or sargassum, and the stringy masses of eggs are not only sheltered in the nests, but serve to tie the structure together. For a long time it had been thought that these gulfweed nests were the work of the little sargassumfish, a fantastic little "finger-finned" creature that lurks in the masses of floating seaweed.

Incunabula Defined

Incunabula are books of the cradle days of printing, books printed in the fifteenth century. The known incunabula represent about 35,000 editions and include products of such famous early printers as Gutenberg, Jenson, Caxton, and Aldus Manutius. Notable collections in the United States are in the library of congress, Pierpont Morgan library, New York; John Carter Brown library and Annmary Brown memorial, Providence, and the Huntington library at San Marino, Calif.

Old Silver Service

Old St. Mary's church at Burlington, N. J., has a silver communion service which was presented to the congregation by Queen Anne when the church was built in 1703. Ephraim Bourdnot, president of the Continental Congress in 1783, is buried in the church graveyard.

SUNSHINE CHAPTER MEETS

Sunshine chapter held their February meeting at the home of Mrs. H. W. Schmidt on Thursday afternoon. Thirty-two members and guests were present. The program opened with devotionals in charge of Mrs. D. H. Wurster. Mrs. E. W. Eaton gave an interesting talk on "Our Foreign Policy." Miss Barbara Schenk concluded the program with a piano solo, "Buona Notte," by Ethelbert Nevin. Refreshments were served. Other members of the committee were Miss Florence Ward, Mrs. J. G. Webster and Miss Lettie Kaercher.

GERM SPREADING DENIED

Reports have been started to the effect that the current outbreak of scarlet fever in Chelsea might be caused by the spread of germs through the handling of books coming from the public library. According to officials of the library every possible precaution has been taken to prevent spreading of the disease in this way. All books which have been in quarantined homes are taken out of circulation by being burned, regardless of how new the book is or how valuable it might be. Therefore it is quite certain that the outbreak has not been caused by handling of books coming from the library.

J. J. LAMB

J. J. Lamb, 54 years old, died at his home in Detroit, 1230 Atkinson Ave., on Sunday, February 20, from a throat infection he had suffered with the past week. He was the senior partner in the firm of Lamb & Krentler, manufacturer's agents. For 25 years he represented the Hartz Auto Fabric Co. of Watertown, Mass. Mr. Lamb's firm are the brokers for the Sterling Michigan Corporation of this place.

Mr. Lamb is survived by his wife, Mrs. Luella Buchanan Lamb, who is well known in Chelsea; one son, John Jacob Lamb, and a sister, Mrs. M. G. McKnight of Pontiac.

Funeral services were held at the residence on Wednesday afternoon at two o'clock and burial was in Woodlawn cemetery. Mr. and Mrs. J. E. Weber, Mrs. F. J. Coyne and Mr. and Mrs. D. W. Otis attended the services.

HOLD VALENTINE PARTY

The regular meeting of the Pilgrim Fellowship was held at the Congregational church Wednesday evening, with an attendance of twenty-eight members. Following the business meeting was a social time which took the form of a Valentine party in the dining room which was decorated with many red Valentine hearts of different sizes. Games, stunts and contests provided entertainment and prizes were won by Betty Hackett, Wilbur Bollinger, Royal McBride, Roland Spaulding and Mary Jane Riker. Lunch was served at tables decorated with Valentine hearts and lighted with red candles. The places were marked with red and white nut cups filled with tiny red heart candies. Ruth Lindemann had entire charge of the decorating and was chairman of the menu committee, assisted by Mary Jane Riker and Ruby May. Janet Haselswerdt and Ray Barber Jr. had charge of the entertainment.

ARTICLE TELLS OF LOCAL CLUB

An article appearing in the February issue of "Michigan Conservation" magazine tells of the activities of the Chelsea Rod & Gun Club. Accompanying the article is a picture of a truck load of Christmas trees, and of F. W. Merkel and his son Jack, E. A. Wilson and H. B. Murphy. The article follows:

Members of the Chelsea Rod & Gun Club are using a unique system in their efforts to take care of the birds and game in their vicinity this winter. At the club's last meeting, slips of paper bearing section numbers were placed in a hat. Then each member drew from the hat and is responsible for whatever section numbered on the slip he drew.

More than 100 Christmas trees and more than one thousand pounds of grain have been distributed by the club in the area surrounding Chelsea. The trees, 104 of them, were secured from the village which had used them to decorate its streets for the Yuletide. They were scattered in various swamps where birds and game were yarding and grain was spread liberally under them, the combination providing both shelter and feed.

Old-Age Insurance
Claims Increasing

Claims for lump-sum payments under the old-age insurance plan of the Social Security Act were certified during January at the rate of 942 per working day, the Social Security Board announced this week. Six months ago, in August, the daily rate was 165 from which level it climbed steadily through September, October, November, and December, the successive average daily rates for each month being 228, 363, 381 and 590.

During January a total of \$745,691 was certified for payment to 28,538 claimants—workers who reached the age of 65 and the estates of workers who died. The average amount of each payment was \$26.18, or almost double the average of \$17,000 for all claims paid up to the end of August. Pennsylvania with 4,929 headed the list with the largest number of claims certified, but the greatest amount of money went to New York where \$97,175 was distributed among 2,768 claimants.

The largest claim that has been certified went to an employee who reached the age of 65. He received a lump-sum payment in January of \$525. The largest death claim certified was for \$420.

Since the Government's old-age insurance plan went into effect on January 1, 1937, \$2,023,207 has been certified for payment to 76,775 claimants. Each of the claims paid amounts to 0.4 per cent of the total wages paid to these wage earners.

Richard H. Hendrick, manager of the Jackson office of the Social Security Board, announced that in Michigan 1,094 claims were certified during January for a total of \$35,914.44, or an average of \$32.85 per claimant. To date, the total number of claims certified in Michigan is 3,322 and the total amount of payments \$90,649.83.

REGISTRATION NOTICE

For Village Election

MONDAY, MARCH 14, 1938

To the Qualified Electors of the Village of Chelsea, County of Washtenaw, State of Michigan:

Notice is hereby given that in conformity with the "Michigan Election Law," I, the undersigned Village Clerk, will upon any day, except Sunday and a legal holiday, the day of any regular or special election or primary election, receive for registration the name of any legal voter in said Village not already registered who may Apply To Me Personally for such registration. Provided, however, that I can receive no names for registration during the time intervening between the Second Saturday before any regular, special, or official primary election and the day of such election.

The last day for General Registration does not apply to persons who vote under the Absent Voters' Law. (See Registration by Affidavit). Notice is hereby given that I will be at Sylvan Town Hall, MONDAY, FEB. 21, 1938, first day before the twentieth day preceding said election (which happens to be a legal holiday) from 8 o'clock a. m. until 8 o'clock p. m. on each said day for the purpose of Reviewing the Registration and Registering such of the qualified electors in said Village as shall properly apply therefor.

In any village in which the clerk does not maintain regular daily office hours, the village council of such village may require that the clerk of such village shall be at his office or other designated place for the purpose of receiving applications for registration, on such other days as it shall designate prior to the last day for registration, not exceeding five days in all.

Notice is hereby further given that I will be at my home, 554 Chandler St., Friday, February 25, 1938, from 9 o'clock a. m. to 4 o'clock p. m., Monday, February 28, 1938, from 9 o'clock a. m. to 4 o'clock p. m., Wednesday, March 2, 1938, from 9 o'clock a. m. to 4 o'clock p. m., and from 9 o'clock a. m. until 4 o'clock p. m. on Saturday, March 5, 1938, last day for General Registration by Personal Application for said election.

The name of no person but an actual resident of the precinct at the time of said registration, and entitled under the Constitution, if remaining such resident, to vote at the next election, shall be entered in the registration book.

Registration by Affidavit

Sec. 10. Registering of Electors.—Any absent voter, as defined in this act, whose name is not registered and who shall claim the right to vote by absent voter's ballot at any election or primary election, may at the time of making application for absent voter's ballot, present to the village clerk an affidavit for registration which shall be in substantially the following form:

Affidavit for Registration

I, _____, of the County of _____ and State of Michigan, being duly sworn, depose and say that I am a citizen and duly qualified elector of the _____ precinct of the village of _____ in the County of _____ and State of Michigan; that my postoffice address is No. _____ Street _____ or R. F. D. No. _____ P. O. _____; that I am not now registered as an elector therein and that I am voting by absent voter's ballot at the election (or primary election) to be held upon the _____ day of _____, 19____, the application for which ballot accompanies this application; that I make this affidavit for the purpose of procuring my registration as an elector in accordance with the statute; that I make the following statements in compliance with the Michigan Election Law: Age _____ Race _____ Birthplace _____ Date of naturalization _____; I further swear or affirm that the answers given to the questions concerning my qualifications as an elector are true and correct to the best of my knowledge and belief.

Signed _____

Taken, subscribed and sworn to before me this _____ day of _____, 19____.

Notary Public in and for said County, State of Michigan. My Commission expires _____, 19____.

Upon receipt of such affidavit in the time specified herein, the clerk shall write in the registration book the name of the applicant together with the other information required by this chapter and such applicant shall thereupon be deemed to be duly and properly registered.

Note—If this acknowledgment is taken outside of the State, the Certificate of the Court that the person taking the acknowledgment is a notary must be attached.

election or primary election, then the name of such person shall be registered, and he or she shall then be permitted to vote at such election or primary election. If such applicant shall in said matter, willfully make any false statement, he or she shall be deemed guilty of perjury. Any inspector of election shall have authority to make such registration and to swear such person to the registration affidavit.

All the provisions relative to registration in Townships and cities shall apply and be in force as to registration in Villages.

JAMES MUNRO, Village Clerk.

Tall Tales

As told to: ELMO HAGAN and SCOTT WATSON

When You See a Wampus

A WIMPUS, according to Austria, a butcher, editor of the Altoona (Iowa) Tribune, is a true animal which grows about as big as a hog, but it has a long tail like a colt and wings like a bearcat. It lives in the top of high trees, whence it flies down to attack defenseless travelers. However, no harm is to be feared from a wampus if you know what to do when you see one coming.

It is only to shoot at one, for a wampus catches bullets in its teeth and eats them. The only way to do when one comes at you is to take a piece of cheese, either Cheddar or Swiss, and tuck it securely in a wafer. The wampus makes a swoop at the cheese and gets mixed up with the wafer and gets its feet wet.

It makes a wampus mad as all get-out when he gets his feet wet. So he hunts around for a nice piece of grass to dry them on. The minute the wampus lights of the grass, the hunter rushes at him and ties his tail in a double bow knot. When a wampus has his tail tied in a double bow knot he is gone, because when he tries he always ducks his head under his body to see who is following him. In doing this he gets his head caught in the double knot and chokes himself to death.

Question And Answer Dept.

Problem—John and Bob entered a shoe store to buy a \$5 pair of shoes. John had selected. When he was about ready to pay for the shoes he discovered he had lost a \$5 bill—the only money he had. Bob came to his rescue by saying "Here's \$5 which I owe you." He took it and paid the storekeeper. As the two were about to walk out the storekeeper said "This is counterfeit," and passed it back to John. John in turn handed it to Bob, who replaced it with a genuine \$5 bill. The storekeeper got his money, John got his shoes and Bob got back his counterfeit bill. Who lost? That's the question. Look for answer elsewhere in this column.

Ques.—Why does glassware crack sometimes when placed in boiling water?

Ans.—Most solids swell a little when they are heated. Glassware is one of them. Sometimes when a glass is put into hot water the slight swelling will cause it to crack at its weakest point.

Ques.—What is the meaning of "Abigail"?

Ans.—"Abigail" is a word frequently applied to female servants in our modern times. Originally Abigail was the wife of Gabel, a rich man of Carmel, and subsequently the wife of King David. By this marriage, after the death of Nabel, she was the mother of Chileab.

Ques.—What are barnacles which collect on the bottoms of ships and other ocean vessels?

Ans.—Barnacles are marine animals of the lower order. They are enveloped by a mantle and shell, possesses a long, flexible stock, provided with muscles, by which it fastens itself to floating objects, and lives on marine animal life. Some species are eaten by a few people of the Orient.

Answer to Problem.—Of course, John was the loser, when he lost a \$5 bill.

Ques.—Is it true that the Great Austrian bell is the largest in the world?

Ans.—No. The Kremlin bell in Moscow, Russia, is the largest in the world. The Kremlin bell weighs 216 tons and can be heard for 25 miles. The Austrian bell weighs 18 tons.

Ques.—Can you please tell me what is the Black Hole of Calcutta?

Ans.—This is a prison dungeon in the old fort of Calcutta, India, about 20 feet square, in which 146 men were confined by Surajah Daulah on June 20, 1756, of whom all except 23 suffocated. Later a huge monument was erected in commemoration of their memory.

Ques.—Who was Anne Boleyn?

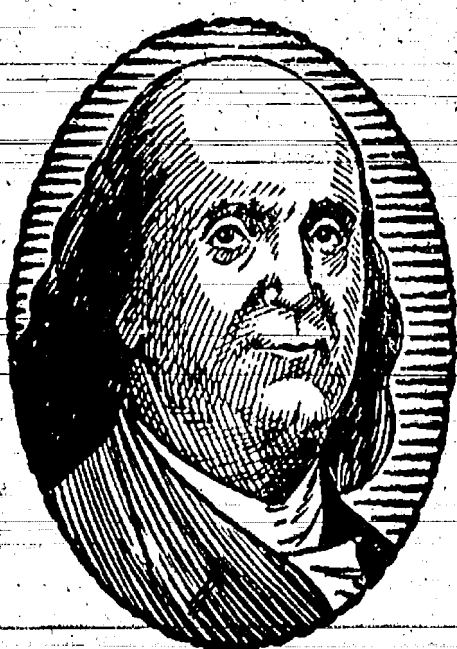

Ans.—Anne Boleyn was queen of England and one of the wives of Henry VIII, born in 1507. She was beheaded on orders from her husband, King Henry VIII, on charges of infidelity, May 19, 1536.

Ques.—Will you kindly answer who was Chief Justice of the United States Supreme Court in 1907? And are any of the members of the court at that time members of the present Supreme Court?

Ans.—Melvin W. Fuller was Chief Justice of the United States Supreme Court in 1907. None of the other members of the Court at that time are serving on the present Supreme Court bench.

Ques.—To settle an argument will you please answer what is the name of the highest mountain in the United States?

Ans.—Mt. Whitney in California, 14,502 feet high. Mt. McKinley in Alaska is 20,464 feet high.

A Wise Man

Ben Franklin wrote "Poor Richard's Almanac" when he was twenty-six. He preached thrift, economy, quality.

He made Poor Richard very human; he made him say the things we all know to be correct; he made him give advice worth following.

Pretty wise for a young man? If he were living in our town today you would find him shopping for his home and family from the ads in this newspaper.

Spies During War

Paradoxically, the employment of spies during a war is held to be legitimate by all nations, but the spy himself is regarded as an outlaw, says Collier's Weekly.

Today, Yesterday, Tomorrow "Today," said Uncle Eben, "is liable to be only an apology for yesterday and another promise for tomorrow."

New York.—Some of you may have had this air conditioned, or so-called ice cream, pie that is going around. You bake the lower crust of a pie, let it cool, fill with ice cream, put meringue on top and toast the meringue in the oven until brown. Your guests are properly bewildered and appreciative to find the ice cream inside still hard when they eat it.

Their amazement comes from a lack of understanding of heat insulation, air conditioning requirements and similar profound topics which you, as the pie fabricator, can check off on your fingers.

Meringue Acts Like Cork.
The meringue, you point out, of course, consists of just about nothing except bubbles of air with walls of egg white, and the same properties which give cork its grand insulation qualities in preventing the passage of heat enable the meringue to keep the ice cream from melting during its brief visit to the hot oven.

No one has perhaps figured out the size of a bubble of air in mercurio. But the cork cells are about one one-thousandth of an inch in diameter and some 200,000,000 of them would be needed to make up a cubic inch. Each cell of cork contains air and heat has great difficulty in passing through even a small thickness of them.

Not All Cork From Spain.
Thus while your guests are relaxing their air conditioned ice cream and the topic of conversation naturally turned to cork you may add that despite the war in Spain the supply of cork is decreased only a little. Some of them may not know that the bark of a certain species of live oak tree, that we call cork, is produced in much greater quantities in Portugal than it is in Spain. And that as much or more than is produced in Spain comes from Italy, France and North Africa.

Last year's Spanish harvest of cork (technically it is known as the "strip") was naturally decreased by the civil war, but world markets have not yet been affected.

Hormone Induced a Rat to Mother Young Squab

New York.—The spectacle of a healthy, grown-up female rat cherishing and mothering a tender young squab, just because a few drops of a hormone from the pituitary gland had been injected into the rat's body, was described by Prof. Charles R. Stockard of Cornell university medical college at a meeting of the New York Academy of Medicine.

Professor Stockard used this phenomenon, discovered by Dr. Oscar Riddle of the Carnegie Institution of Washington's laboratories at Cold Spring Harbor, to illustrate the powerful influence that hormones of the gland secretions may exert on the body of man and other animals. The rat he talked about was a perfectly normal rat that ordinarily would have made a prompt meal of the tender meat of the squirrel. The only difference in this particular rat was the few drops of hormone.

Hormones have other effects on the body. Together with the nervous system and brain, they are responsible for all the different parts and mechanisms of the body working together as a whole. Hormones and nerves moreover depend on

Crop Failures Reason for Deserted Pueblos

St. Paul, Minn.—Deserted Indian villages, pueblos in silent ruin might have warned many an American farmer not to try his luck in the treacherous dust bowl areas of our western plains.

This is the vital lesson from America's past, which science is beginning to uncover, and which may help avert future farm tragedies.

Reporting to the journal Science, an investigation of many Pueblo Indian ruins in southwestern Great Plains. Max C. Merkle, biochemist of this city, declares that crop failures not marauding enemies, ap
