First Twilight Game Played Monday Night

Chelsea's Twilight Ball League sea-
son got under way on Monday eve-
ning when Merkel Bros. and Mack's
Super Service teams played at the
public school athletic field on Wash-
ington street.

Village President Roy Harris tossed
the ball that heralded the opening of
the season, and although the pitch
was high, wide and handsome, Elwin
Hulce, president of the league, was
able to make the stretch that was
necessary to catch the ball.

Rossbach and Winans were the bat-
tery for Mack's, with Lixey and
Smith for Merkel Bros. Very few
hits were allowed by either pitcher
and the game was interesting in ev-
ery respect for the crowd of specta-
tors who attended. The final score
was 6 to 5 in favor of Mack's.

On Tuesday evening Spaulding
Chevrolet and Daniels Buick teams
played, the final score being 5 to 0
in favor of the Buicks.

In addition to balls and bats fur-
nished by sponsors of the six teams
entered in the league, announcement
is made by Hart's Garage that they
will donate six balls and some bats to
the league. Managers may call at the
Standard office and get a ball. This
gift is greatly appreciated by the
players and sponsors.

The final game of the week will be
played tonight, when the Chelsea
Standard team will be opposed by
Cassidy Lake.

Next week's schedule will be as
follows:

Monday, May 9—Spaulding Chevro-
let vs. Chelsea Standard.

Tuesday, May 10—Merkel Bros. vs.
Daniels Buick.

Thursday, May 12—Mack's Super
Service vs. Cassidy Lake.

Case Cautions Buyers On Used Car Titles

Officials of the department of state
caution purchasers of used cars, the
titles of which bear liens on their
faces, to secure discharges of liens
from dealers, for their protection.

It is pointed out that while original
purchase liens on new cars are noted
on the faces of titles, proof of dis-
charge of liens is limited to original
owners' statements to dealers when
they assign titles. A dealer may in
good faith, sign the title when selling
the car, indicating that no liens are
against it. A first mortgage, how-
ever, may recover the car if the origi-
nal lien has never been discharged.

While it is true that the subsequent
purchaser may have recourse to the
dealer for his representation as to
the absence of liens, there is no rem-
edy if the dealer has in the meantime
gone out of business, instances of
which have occurred.

Frank W. Carney, director of the
motor vehicle division of the depart-
ment of state, has issued special in-
structions to all branch managers
concerning handling of titles sub-
mitted for transfer, when liens appear
on their faces. Discharges of liens of
finance companies, or statements that
a finance company's equity has been
transferred to the subsequent pur-
chaser, are required.

Precautions to guard used car pur-
chasers have been adopted in view of
the recent activity in the used car
market, through sales through both
dealers and individual owners.

Michigan Mirror

By Gene Alleman
Michigan Press Association

Lansing—Liberal doses of 1938 eco-
nomics are being fed to Michigan
citizens this spring. It's a giddy
whirl!

First, Senator Vandenberg goes on
the air in rousing denunciation of
Roosevelt's new pump priming cam-
paign.

Second, Governor Murphy speaks
on a coast-to-coast network endorsing
liberal public spending as a cure for
depression sickness with a reservation
or two to the effect that congress
should also remove unreasonable
handicaps to business.

The liberal spending policy by gov-
ernment looms as one of the issues of
the 1938 campaign in Michigan. Mur-
phy defends his increasing state def-
icit as being caused only by the pres-
ent depression. Yet while more state
millions are being authorized for pub-
lic relief, Budget Director Harold
Smith is studying methods to effect
drastic economies for the new fiscal
year beginning July 1. This would
mean less spending, not more, at
Lansing.

Additional Taxes

The governor has always insisted
that public spending must be done
with a balanced budget. At the legis-
lative council session here last week,
he declared that additional taxes
would be necessary until the relief
burden was reduced in the near fu-
ture.

Thus we have a prospect of more
state and local taxes for 1939. Greater
expenditures inevitably necessitate a
greater tax load. Someone has to
pay the piper, and it's usually the
man back home.

Will the state set an example by
reducing payrolls and otherwise cut-
ting its spending? The 1938 situa-
tion in Michigan has interesting con-
tradictory possibilities.

C. H. S. Band Plays In Annual Festival

Fifty-five members of the Chelsea
High School Band made the trip to
Dundee on Tuesday evening in order
to participate in the third annual
Huron League Band Festival.

This affair, sponsored by the Huron
League Band Association, of which
Robert Hargreaves is secretary and
treasurer, involves the bands of five
schools in the league and a total of
about 250 musicians.

Guest conductor for the occasion
was Graham T. Overgard, director of
bands at Wayne University, and for-
merly assistant to Dr. A. A. Harding
at the University of Illinois. Under
his excellent direction the massed
bands played the following program:

Two Chorales—Bach-Bortolomsky.
The Narrator (Overture)—Buchtel.
The Old Refrain—Kreiser.
Loyalty (March)—Skornicka.
Prelude (L'Arlésienne Suite)—Bi-
zet.

Blue Bells (March)—Buchtel.
Pilgrim's Chorus (Tannhauser)—
Wagner.

His Honor (March)—Fillmore.
Southern Cross (Overture)—Yoder.
R. M. B. (March)—Garrett.
Merry Men (Selection)—Thomas.
Military Escort (Novelty)—Fill-
more.

America the Beautiful.
Several of the numbers are those
required this year for the national
band contest, and the high quality of
the music played, coupled with the
splendid leadership of Mr. Overgard,
made the experience a valuable one
for the Chelsea musicians.

Moratorium Faced In State Road Building

Lansing—Michigan today faces the
prospect of a road-building morato-
rium unless the state highway depart-
ment secures the \$4,000,000 balance
of its legislative appropriation.

This warning was voiced by State
Highway Commissioner Murray D.
Van Wagoner at the first annual ban-
quet of the Michigan Good Roads
Federation last Thursday night at
Grand Rapids. Approximately 2,000
attended the banquet, including mu-
nicipal, county, industrial, agricul-
tural, and tourist leaders along with
county road commissioners and other
highway authorities.

Pointing out that his department
has received only \$1,000,000 of a \$5,
000,000 appropriation and that was
placed in the sinking fund, Commis-
sioner Van Wagoner said there "won't
be a mile of road, a single grade sepa-
ration, or a single bridge" built this
year without the rest of the approp-
riation. He said that a construction
program had been planned providing
for 706 miles of improvement includ-

ing 145 miles of concrete pavement,
39 bridges, and 13 grade separations
but added that Federal Aid funds
cannot be matched without additional
state money. The commissioner ex-
pressed confidence that Governor
Murphy would "find a solution to the
problem."

The governor replied that "if there
is money available for unemployment
relief work I don't know how it could
be used more effectively than for the
department's highway program."

Resolutions were adopted at the
banquet urging highway construction
as a "practical" work relief program
to eliminate the dole, urging the in-
stitution of a constitutional amend-
ment to prevent diversion of highway
revenues, and memorializing Congress
to enact normal Federal Aid approp-
riations to the states in addition to
ear-marking a portion of emergency
relief grants for highway construc-
tion.

Chester M. Howell, president of the
Michigan Press Association, empha-
sized the value of highway construc-
tion to the Michigan tourist industry
in addressing the meeting.

Rep. Wilburn Cartwright, of Okla-
homa, chairman of the House Roads
Committee, spoke on Federal high-
way legislation. Other speakers were
Cong. Jesse P. Wolcott, of Port Hur-
on; Charles M. Upham, engineer-di-
rector of the American Road Build-
ers' Association; and Carl T. Bowen,
president of the Federation. Com-
missioner Van Wagoner was inducted
into office as president of the Ameri-
can Road Builders' Association.

tions have been filed to date in Michigan. Under recent amendments effective Feb. 4, 90 per cent of the loan on a home costing up to \$8,000 can be insured by the federal government.

Foley forecasts a marked increase in home building.

Unless the legislature is called into special session this year, federal slum clearance funds will be limited to Detroit according to terms of the state housing act. This restriction has irked housing leaders in Flint, Jackson, Grand Rapids and other industrial centers. Pressure has been applied by these cities, but so far in vain. Because of the political risk involved in a special session before the 1938 primaries, chances are 3 to 1 that Murphy will not accede to requests.

False perception are responsible for many accidents. Statistics show that a large proportion of railway crossing accidents are caused by drivers actually running into trains. Some of these accidents may be due to optical illusions.

Many persons do not have accurate distance perception. An object which seems to them to be several hundred yards away may be only a few blocks away. A person driving 50 or 60 miles an hour does not have sufficient time to correct an initial misjudgment.

Anyone who is directly implicated in any accident involving distance judgment should have his eyes examined. Until examinations are made it often is difficult to determine whether or not eyesight is bad.

Some of the large trucking concerns are now requiring that their drivers have their eyes checked. This provision will not only protect the truck drivers and their cargoes; it will protect other motorists as well.

It is important for the driver of a car to be in first class physical condition as it is for the motor of the car to be in good mechanical repair.

sal appears to be an economic mirage to Michigan automobile workers.

It's all right for the Hornell meat packing company in Minnesota, because regardless of prosperity or depression we still have to eat. But the experience of the last depression taught us that people don't have to buy new automobiles. When times are hard, they delay the purchase of new furniture, new automobiles, and so on.

At the White House the other day, Henry Ford blasted rumors that he was planning to inaugurate an annual wage for workers in his River Rouge industrial empire. He informed Roosevelt, so Detroit reporters were informed, that the law of supply and demand still prevails. For that reason he said it was "silly" to talk about fixed production, fixed wages, and other arbitrary floors and ceilings in the automobile industry.

But don't be surprised if you hear of a "monthly wage."

It is being studied as a feasible step, if only a modest one, towards the desired goal of "increasing the worker's security."

Profit Sharing

Of interest to Michigan citizens, because industrial payrolls here have slumped 41 per cent within 12 months—the greatest decline in any state in the nation—is the effort of Senator Vandenberg at Washington to get a modest \$80,000 appropriation for a federal survey of profit sharing systems for factory workers.

Gar Wood, famous sportsman, is introducing the idea to his Michigan plants. Twenty per cent of declared dividends will be set aside for profit sharing among his employees. Wages are not being cut.

Furthermore, Wood is cutting his own salary 50 per cent.

Gar Wood is making his co-workers "dividend conscious". And that means just this—they are going to read corporation statements with new interest. Payroll taxes, profit taxes, and other charges against the business mean less profits for the worker. The idea is revolutionary.

\$100-Month WPA Pay

Left-wing leaders in the Michigan C. I. O. ranks are making plenty of trouble for John Lewis.

Here are some recent developments: Lack of responsibility as evidenced by Flint dues picketing in violation to signed agreements.

Strike vote by Chevrolet and Buick employees at Flint at a time when one of every three persons in Flint is already on relief.

Demand by the state C. I. O. council for a \$100 a month minimum "wage" for WPA workers, and for more generous relief allowances.

According to reports from Detroit, Lewis himself is not in sympathy with the extreme demands of the United Automobile Workers. Like grabbing a bull by the tail, he doesn't know when to leave loose. The Michigan C. I. O. is the bull in Lewis' china-closet—and no fooling!

MASON—An even century of post-office service for Mason is to be fittingly observed next Thursday night, May 5. On that night the new post-office will be open for public inspection between the hours of 7:00 and 8:30. Following the open house at the postoffice a dedication program will be held at the Legion Memorial building. On May 5, 1838, the post-office at Mason Center was officially established. A few years later the name of the pioneer settlement and the postoffice was changed to Mason. In that 100 years the community has been transformed from a clearing in the big woods to a thriving agricultural and residential area. The new postoffice reflects the change. County News.

CHILDREN IN COURT

Judge Malcolm Hatfield
A Pampered Son
A young mother who continuously shielded and pampered her son was unwittingly laying a foundation for his delinquent career.

This mother first started her son on a lawless career when she wrote an excuse to his teacher after Junior had played truant. Soon the budding youth began to reason that his mother could always be counted on to protect him. As a result, his pernicious activities expanded until he reached an age where the law was forced to step in and take over the training and discipline which this parent had been unable to supply.

The Engineer Cried
Yes indeed, "We have queer things happen to us." If you think it queer for a rough man like me to cry for ten minutes, and nobody hurt, either, wouldn't you? Well, I did, and I almost cry every time I think of it.

"I was running along one afternoon pretty lively. When I approached a little village where the track cut through the street I slackened a little, but was still running good speed, when suddenly about 20 rods ahead of me, a little girl, not more than three years old, toddled onto the track. You can't imagine my feelings. There was no way to save her. It was impossible to stop, or even to slack much at that distance, as the train was heavy and the grade descending. In ten seconds it would have been all over.

"After reversing and applying the brakes, I shut my eyes. I did not want to see any more. As we slowed down my fireman stuck his head out of the window to see what I had stopped for, when he laughed and shouted to me: 'Jim, look here!' I looked, and there was a big black Newfoundland dog, holding the little girl in his mouth, leisurely walking away toward the house where she belonged. She was kicking and crying, so that I know she wasn't hurt, and the dog had saved her life.

"My fireman thought it funny and

kept laughing, but I cried like a woman. I just couldn't help it. I had a little girl at home of my own."

Gardens Offer Child Excellent Training

Bare feet and toy shovels seem to attract youngsters in the spring.

So why not turn the urge to dig in the earth to the practical and educational trend offered in a little gardening, suggests Catherine G. Miller, director of the nursery school at Michigan State College.

All it takes is a little supervision and some help. Results ought to be that the child can have a spot in the family garden for his own. He or she can plant, tend and enjoy a few simple growing plants.

A set of small garden tools helps get interest started. Too much supervision will ruin the idea, Miss Miller finds, for the small boy or girl ought to be able to go ahead after the ground has been spaded. With help the young gardener can plant some easily grown flowers such as nasturtiums, and perhaps some lettuce and carrots.

"To be able to go out and pick some lettuce from one's own garden certainly is a good way to have a child learn to like vegetables.

"Then there are many simple things about nature that a child can learn from his own garden—how seeds germinate and grow into carrots or leaves of lettuce and how the plants need and use plant food, sunlight and water."

Any child's garden ought to belong to that child. To develop responsibility and initiative there should not be too much supervision, yet when the thing is started it ought to be carried through to be considered a part of good training.

"I couldn't keep house without a telephone"

WHAT a convenience sometimes to be able to shop by phone! No need to "drop everything" and go out on particularly busy days—or in bad weather.

How nice—and how important—to be in touch with the world even when you're home alone! The pleasant chat with the friend you don't have time to visit... the last-minute arrangements for spontaneous get-togethers, bridge games, movie parties and general good times with people you like—all these are made possible by your telephone.

No wonder so many women say: "I couldn't keep house without a telephone!" In so many practical ways this modern servant pays its own small salary—and for good measure adds much to the joy of living.

MICHIGAN BELL TELEPHONE COMPANY

Mr. "Watts-His-Name" says

"A butcher's boy sold an Electric Range to a friend of yours."

Mrs. X was curious—so she said to the butcher's boy: "I see you going into Smith's every day and the package of meat you carry is always smaller than the one you bring here even tho' their family is the same size."

"Oh, they cook by electricity," replied the boy, "they say down at the shop that when a home buys an electric range they don't need as much meat in the oven to get the same amount of meat on the plates."

Electric cooking shrivels the meat bill—but not the meat.

Edited By The PUPILS OF THE CHELSEA PUBLIC SCHOOL

Editorial

That teacher!!! I don't think I deserved that mark I got on my report card.

This is the pet remark as far as I can hear around this school, ever since the marks came out.

Of course, I realize that maybe you did get a tough break, but it probably wasn't.

You may think that you got away with cheating on your tests, or talking in class, but as we all know, teachers are pretty sharp persons and they catch us all. All your smart cracks and slow studying all comes out in our marks.

As long as this is the last six weeks of school, let's really show the teachers how good we really are. Let's all get our marks up to a point where we won't have to grumble about them.

Skip Day

It was proclaimed that on April 27, 1938 the Seniors have their day of freedom.

Business picked up considerably in Detroit on that day because most of the Seniors went there to spend the day.

The main attraction was Wayne King at the Fox Theater.

Some also went to Windsor, and others went to Jackson.

We are going to make out guide sheets of Hudson's for some of the Senior boys. They didn't know one department from the other.

Miss Nelson received letters and cards from her Seniors.

There was one Senior who couldn't leave school even for a day—can you guess why?

What Would Happen If

Ralph O. really gave a speech in speech class?

The Junior-Senior "Prom" could have been better than last year's?

Nicholas and Titch had been champion in Detroit on "skip day"?

Adolph D. took the world with a grain of salt?

We H. didn't go skating?

"Papa" V. Pap. and Birch-reading were their own clothes for any length of time?

Ann Arbor was too far away for Johnny F. to venture as often as he does?

Did you Notice

Jean M. and Bunny L. sitting about higher and higher at the dance Friday night?

That Jim escorted the youngest of the Palmer sisters?

What a swell dance it was Friday night? Too bad we can't have them more often.

Ruby buzzing around the floor with Pete?

Ruth B. and Betty V. burning up the town (per usual).

Assembly

On Wednesday the high school students had the privilege of listening to Dr. Harvey Pearce, former minister in one of the large churches in Detroit, who gave a speech entitled "Playing the Game of Life."

We all enjoyed Dr. Pearce very much and hope he will be with us again soon.

On Monday, April 25, Mrs. Streedick spoke to the assembly about the Youth Hostel movement, which she represented.

Mrs. Streedick told about her trip in Northern Germany. The group traveled on bicycles and visited Porta, Hamlet, the Black Forest, and many other cities and points of interest.

Their dress-and-clothing differ from ours. Hostels in Europe are very strict, lights are out at ten and one gets up at six. People of all ages travel in groups. Each Hostel has a house mother and house father. Travelers do much of their own work, cleaning up, cooking and making beds. Many Hostels are situated in old castles which are very interesting.

People in foreign countries are interested in you and like to hear from people of America. Everybody in Europe rides bicycles as there are few automobiles. Hostel members apply when in Rome, do as the Romans do, regarding dress. Members use guide books which contain addresses of Hostels and maps showing gasoline stations.

The Youth Hostel movement is organized for the young and old who wish to travel inexpensively.

Baseball

Cheelsea continued along the hard road to the Huron Valley League championship by rousing the Roughriders of Roseville by a count of 5-1.

Kennedy continued his dazzling record in pitching Cheelsea to its last victory by not letting Roosevelt put one run across the plate while he was pitching and by keeping Roosevelt's hits well scattered throughout the six innings that he pitched.

Marsh, Bruckner and Barth were again the heavy sluggers for Cheelsea, each banging out two hits.

A Cecropia moth emerged from Elmore C's cocoon and a Promethea moth emerged from Virginia B's cocoon during the week-end.

We have a Polyphemus moth that is laying eggs. Mary C. has a spreading board. Her father made it. It is a good sized board. Mr. Covert gave a Polyphemus moth to Mary C.

In reading last week we had a test about some of the stories which were in Part 3 under "Stories That Never Grow Old." Monday, May 2 we read a story about "The Spanish Boot."

Our picture this month is "The Storage Room" by Peter De Hooch.

In Geography we had some special reports by Philip V., Esther R. and Betty H. Esther brought a picture from Germany. Betty brought some candy fruit in a basket from Germany. Also in Geography we finished Switzerland, Austria, Hungary and are going to study Southern Europe and Anatolia.

Each received her letter from Melbourne, Australia.

Begin the morning by saying to thyself, I shall meet with the busy-body, the ungrateful, arrogant, deceitful, envious, unsocial. All these things happen to them by reason of their ignorance of what is good and evil. But I, who have seen the nature of the good that is beautiful, and of the bad that is ugly, and the nature of him who does wrong, that it is akin to me, not only of the same blood or seed, but that it participates in the same intelligence and the same portion of the divinity, I can neither be injured by any of them, nor can I be angry with my kinsman, nor hate him.—Marcus Aurelius.

THE STORY OF THE POPPY
Every year on the Saturday before Memorial Day millions of Americans wear little red poppies on their coats. Women of the American Legion Auxiliary and other women's organizations are on the streets all day with baskets of poppies, pinning the little flowers on all passersby. Of course you know that the poppies are worn in memory of the men who lost their lives in the World War, but I wonder if you all know how the poppy came to be the nation's memorial flower.

Take your geographies and on the map of Europe draw a wavy line from the Swiss border, through France and Belgium, to the North Sea. Imagine this line to be a double line of trenches, and picture vast armies on both sides of it locked in a four-year battle. That is the way Europe looked from 1914 to the fall of 1918. The line waved first one way and then the other as the contending armies pushed forward or were driven back. For miles on both sides of it the ground was trampled by the heavy shoes of millions of fighting men. It was churned and re churned by the shells of thousands of cannon, blown full of ugly craters by the explosion of mines and bleached by clouds of poison gas.

Into this area of death and destruction hundreds of thousands of American boys advanced in 1917 and 1918, determined to put an end to the horrible war. You all know now they did end the war, restoring peace to the war-torn world and bringing liberty to subjected peoples. But many months amid the desolation of the battle-front, many weeks of continuous fighting and many thousands of fine young lives were required to complete the task.

As the American soldiers struggled forward through the shattered villages, across the shell-torn fields and over the blasted hillsides, they saw only one touch of life and beauty in all that region where death and destruction reigned. This was the little wild poppies. Along the very edges of the trenches, about the ragged shell holes and in the fields raked by machine gun fire, the brave little poppies grew and bloomed. When comrades were left beneath the bare dirt of hastily dug battle graves, the poppies sprang up and clothed the graves with flowers. It seemed as if the gallant spirit of the dead had passed into the blood-red blossoms and that through the little flowers they were sending a message of courage and hope to those who still lived.

The poppy has become the symbol of the dead—their memorial flower. It has become the sign that the high ideals for which these brave young men gave their lives still live and are honored. That is why we pin on the poppy when we pay tribute to our World War dead. The poppy covers the soil in France beneath which they lie, and on Poppy Day we place the flower over our hearts, where the memory of the great sacrifice they made for our country is forever enshrined.
