Knights of Pythias Hold District Meeting Here

A district meeting of the Knights of Pythias was held in Chelsea on Monday evening, with representatives attending from Ann Arbor, Ypsilanti, and Chelsea. Covers were laid for 87 at the supper, served at 6:30 by the Pythian Sisters in the Congregational church dining room.

The company then went to the Pythian hall, where the work of the first degree was conferred on Olin Hart.

The program of the evening was in charge of District Deputy Charles Andrews of Ypsilanti, and talks were given by George W. Digby, Grand Prelate of Bay City, and Ray Burrell, Grand Master at Arms of Ann Arbor. Selections by the Burrell Quartet and the Ypsilanti Guitars club contributed to the entertainment.

The next district meeting will be held on Thursday, November 10, at Manchester.

Judging Team Writes of Kansas City Trip

The Chelsea high school dairy cattle judging team, representing Michigan Agricultural high schools, composed of Martin Merkel, Veryl Haffey, Max Hepburn and Duane Rowe, left for Kansas City, Mo., under the leadership of Roy Wallis, vocational agriculture instructor, on Saturday, October 15 to enter the National Dairy Cattle Judging contest, and placed 12th, with 32 teams entered. Idaho State won the contest.

Approximately 2200 miles were traveled during the five days' trip. One hundred five members from Michigan gathered at Jackson, Kalamazoo, Battle Creek and Niles and journeyed in a special train for the Mid West. The occasion was the National Future Farmer convention, contests, and the American Royal Livestock Exposition.

Among the many interesting experiences of travel and associations were opportunities to observe the Shedd Aquarium, Field Museum of Natural History, Planetarium, Chicago Board of Trade, and world's largest hotel, the Stevens, Chicago, the Mississippi and Missouri rivers, Swift and Co. meat packing plant, skyscraper building of Power and Electric, the National Future Farmer conventional meetings and banquet, and American Royal Livestock Exposition, Kansas City, Mo.

We wish to express our appreciation for having had the opportunity to enjoy this trip and may our experiences prove useful to others. We hope that other students will work hard and have the privilege of attending other conventions in the future.

(Signed)

Veryl Haffey, Duane Rowe, Martin Merkel, Max Hepburn, and Coach R. W. Wallis.

Nazi Spy Scare Is C. I. O. Strike Echo, Says News Writer

By Gene Alleman

Lansing—The current Nazi spy scare is almost an echo of the C. I. O. sit-down strikes last year in Michigan.

From the lips of Jacob Spolansky, Wayne county criminal investigator, comes a dramatic tale how Communists "completely dominated the C. I. O. strike situation in Detroit" and how agitator spies engineered the sit-down strikes in leading automobile plants.

Spolansky, a witness before the Dies congressional committee investigating un-American activities, is a former G-man who participated in the deportation of 150 Communists. Dies submitted testimony showing that the sit-down technique had been introduced into Italy and France by Communists. Substantiating Spolansky's statement was testimony by William P. Gernsey of Detroit, a former Communist leader, that in 1935 Communists were instructed to join mass organizations, trade unions and church groups, for carrying on of Communist activities.

Legionnaires

Nearly every city and town in Michigan has a post of the American Legion. World war veterans who are united in unyielding opposition to subversive aims.

At the state capitol hundreds of Legionnaires were employed at Oldsmobile, Reo and Briggs plants when the sit-down epidemic hit the town. Hence it is not surprising to relate that every move of Communist agitators who had bored into the C. I. O. ranks, was known within 24 hours to Legion leaders.

The Law and Order League was formed to mobilize public opinion in support of law enforcement.

The row in the ranks of the U. A. W. was precipitated, according to

Gundry Says Work On Tax Sale In Full Swing

Lansing—Auditor General George T. Gundry said this week that his department is making progress in its work on the coming tax sale. It has been necessary to hire extra clerks for this stupendous task, and the Civil Service Department has requisitioned a number of persons, including many otherwise unemployed, who had worked as temporary clerks on this year's sale.

Thus a "by-product" of the May tax sale and the consequent employment of extra help, will be a testing of the practicability of the Civil Service law, inasmuch as all the additional employees passed their examinations and were hired therefore, upon the recommendation of the Civil Service Department. In order to make room for the extra clerks, the formation of an extensive night shift is being planned.

The next sale will start May 2, 1939, at ten o'clock a. m., Eastern Standard time, and will continue until all descriptions have been separately offered. It will be held at the County Treasurers' offices throughout the State. All 1938 taxes on property will be up for sale unless paid for in full.

Newspapers throughout the State are used as the medium for informing the people as to what properties are up for sale. They publish five weekly announcements prior to the opening of Circuit Court.

It is not expected that all the descriptions listed in the newspapers will actually be offered for sale, inasmuch as the property owner has the privilege of paying his taxes at any time prior to the opening date of the sale.

HOLD OCTOBER MEETING

The October meeting of the Women's Union of St. Paul's church was held on Thursday afternoon at the home of Mrs. Alfred Lindauer, with Miss Hilda Gross as assisting hostess. The topic of the month, "The Rural Church in the New Deal," was presented by Mrs. Beach. A dialogue, "The Country Church" was rendered by Mrs. E. E. Adam and Mrs. Julius Eisels. Mrs. Dale Claire gave a report on the convention at Wyandotte and Rev. P. H. Grabowski reported on the regional conference at Freedom.

Mrs. H. L. Paul and Mrs. Lindauer were appointed as a nominating committee for the annual meeting to be held next month. A pot-luck supper was served to 47 members and guests.

NAVY DAY

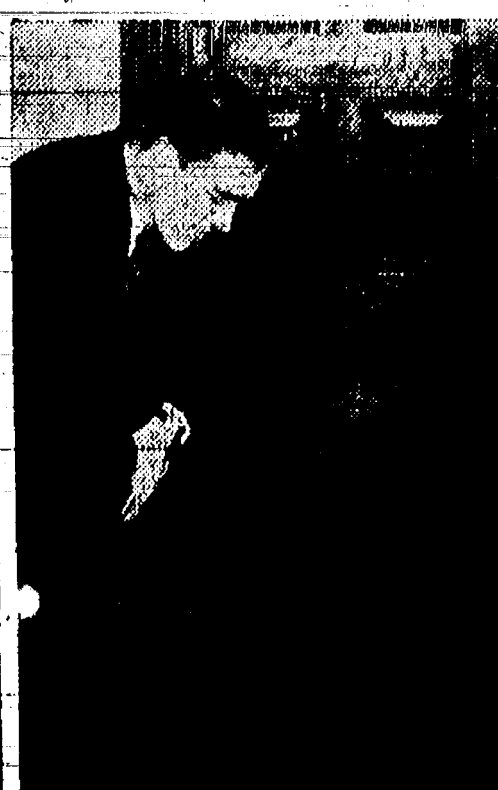

Battleships float and sailors climb ropes—but here are a few things you never knew about your United States Navy!

Each ship has its sick bay. Above is the dispensary on the U. S. S. Salt Lake City. Running this part of the navy is the medical corps, which also takes a leading hand in health measures in Uncle Sam's outfitting possessions.

The farmer feeds the navy. Here are stores being taken aboard the U. S. S. Houston in Chefoo, China. Thanks to advances in storage and preservation of food, sailors no longer must exist on smoked and pickled meats, dried vegetables and hard tack.

Thanks to the navy, America's clocks are kept on time. At the naval observatory in Washington is the "X" which marks the spot of zero longitude and zero latitude for all official measurement in the United States. Twenty times daily, time signals are broadcast from the observatory.

Homer Martin, its national president, by Martin's determination to purge the union of communist influences. And so the jig-saw puzzle of history begins to fit together.

Milk Price-Fixing

Price fixing of milk is the legislative objective of a committee of 35 persons, just appointed by Governor Murphy. The committee comprises representatives of milk producers, distributors and consumers, together with spokesmen of the A. F. of L. and C. I. O. and state officials.

This action was taken on the heels of an announcement by the United States department of justice that no grounds existed in Detroit for action in federal court on charges of anti-trust law violations. Investigators found that the Detroit milk situation is highly competitive to the extent that milk prices were lower than in most large cities. In a press statement the governor deplored the fact that many persons in Detroit cannot afford to buy milk, while at the same time he asserted that milk producers must receive higher prices at the farm.

Juggling the interests of the two—the dairyman on the farm and the consumer in the city—would be accomplished through a price-fixing state commission, created by the legislature. This acrobatic act in economics would be worth watching.

Tax Increase

From the office of Budget Director Harold Smith has come the long-awaited analysis of Michigan state finances for the fiscal year ending June 30, 1938.

Despite a \$2,000,000 decrease in the sales tax, the state collected \$4,500,000 more taxes than in the year before. The deficit was \$8,741,487.

The state paid out an over-all total of 223 millions of which local governments got 98 millions. Here is where the money went:

For highways—\$54,998,487.

For education—\$54,238,952.

For welfare—\$38,509,854.

For general expenses of the state government—\$5,554,309.

For health and hospital services—\$14,418,365.

For prisons, probation and parole—\$3,179,898.

For conservation and agriculture—\$3,304,301.

For business and professional regulation—\$3,749,822.

For public safety and defense—\$1,807,009.

For general aid to local governments—\$4,811,256.

For interest on debt—\$6,239,039.

Unemployment Checks

Approximately 275,000 persons in Michigan have been receiving jobless compensation checks from the state unemployment compensation commission out of quarterly taxes paid by 16,000 employers.

The scope of this phase of the social security setup is fairly breath-taking. Up to Oct. 14, a total of 1,645,000 checks had been made out and mailed to beneficiaries for an average weekly amount of \$14.54.

Employers' taxes for the quarter ending Oct. 1 will bring nearly \$10,000,000 into the state fund which is expected to be restored to the \$50,000,000 mark.

CHILDREN IN COURT

Judge Malcolm Hatfield

Developing Cruelty in Children

One of the surest methods of developing cruelty in children is to have a mother tell a four or five year old child to pick up a stone and chase some stray animal out of the yard. Other parents accomplish the same end by urging children to set the family dog on stray cats.

At this early age, children are not old enough to realize that they might cause severe injury to animals. Fathers who purchase air rifles for boys, encouraging them to kill sparrows in

the vicinity, are developing the "killer" instinct in their sons. Families that move away from a house and leave the family cat or dog behind are also seeding examples of ruthlessness in their children. Thoughtful parents teach their children to be kind to animals, and to feed birds rather than take pleasure in injuring them. Such parents animate an interest in the study of animals and birds, thus discouraging cruelty, robbing of nests, and killing the young.

Chelsea Downs Saline

Chelsea High's football team defeated the chargers of Saline High by a score of 25 to 0, last week Wednesday on the local field.

Bud Rabley scored the first touchdown from the 7 yard line, after Chelsea's forward wall blocked a punt. Schneider added the extra point.

In the second quarter Novess, substitute quarterback, passed to the six points. The attempt from placement failed. The score at the half was: Chelsea 18, Saline 0. In the third period Bahnmiller intercepted a pass and ran it back about 30 yards. This led the way to another score by Rab-

ley, who went over from the four-yard line. Schneider made Chelsea's final score later in the same quarter as he ran for 10 yards through his own left tackle. The longest run of the day was by Schneider who ran a punt back 50 yards to Saline's two-yard line.

The final score was: Chelsea 25, Saline 0.

This week Chelsea journeys to Roosevelt, and the next three games are at home. Come out and help the boys win the championship!

Music

Hurrah! New music for Girls' Glee club. Such lovely morsels to chew on. The girls were all anxious-

ly awaiting the arrival of the new music so they could really start to work. Monday it arrived and by Tuesday the girls were taking it apart.

Say, how about some of you boys warbling in a few notes to form a Boys' Glee club? I'm positive Miss Sprague would like it. Come on! Get started!

"Swing Band"

My word! What a jumble of sounds struck my ears Monday night, October 17. On investigation I found out the "swing band" was tuning up.

In a few minutes Mr. Dunstan showed up and music assailed my ears. Pretty good music too, I betcha. Here's to the kids in the band and to Mr. Dunstan for taking charge of them.

Rehearsals are in secret and "positively no admittance" to anyone but members of this "up and coming" organization.

Here and There

This week we inaugurate this column with this bit of humor:

Pap: Where did you get those big, brown eyes?
Charlie: Oh, they came with the face.

We'll dedicate this to Jim Daniels (apologies to E. A. P.). Once upon a midnight dreary, While I pondered, weak and weary, O'er the motor of my car which had never stalled before; While I pondered, nearly freezing, Suddenly I started sneezing, Sneezing o'er the motor that had never stalled before; "I've an awful cold," I muttered, "Then I stammered and I stuttered, "Only this and nothing more."

Ah, distinctly I remember, it was in the bleak December, And the street light shone so dimly, As it never had before. I thought I'd never fix it— The gas, I'll never again mix it! "That's why my motor stalled as it never did of yore."

And with that I started walking, Started walking, started walking, And the wind, how it did roar!

How I longed for home and mother, At a time like this I'd want no other, As I walked against the wind that was roaring such a roar; A car is such a nuisance and I wouldn't give a two-pence.

Again I never saw that car which hadn't stalled before, But at times it comes in handy, And at times it is just dandy, Just to have it—nothing more!

I believe we've taken our share of space so we'll close with this thought: It pays to remember—Success comes in cans; failure in cans.

"GREEN GROW THE FRESHMEN"

Some of my classmates disagree with this statement to which they reply: "Yes, but not half as green as the Sophomores." This is purely in fun but even though I am a "Freshie" I do believe that cooperation in the class is nil to say the least. A Freshman class meeting is an example of a complete failure.

But we did manage to organize committees for a party for the dear Sophomores. It's to be on Friday the

28th of this month. (Too bad we can't initiate the Sophs).

Another important Frosh venture will be the attempt (?) to have a pep meeting Thursday. Who can tell, we may "put one over" on the upperclassmen by making this pep meeting the "best ever".

Elementary News

Kindergarten

This past week we have learned about some ways to travel. We have read several stories about trains and automobiles. We have learned a new game about trains and a safety song called "Traffic Lights." Each boy and girl tries to be careful crossing streets.

On rainy and cold days we play in the gymnasium. We are learning how to march and to skip.

Several weeks ago we started a museum in our room. We have some very interesting things—gourds, horse chestnuts, caterpillars, etc. We also have three new plants which we water. We like to watch them grow.

Eighth Grade

Night school was a great success. We delivered our current events on Friday night and every one had his (what a surprise).

We had our two classes which were History and English. Mr. Johnson announced that there would be no study hall period this night.

Stanley Policht's position as reporter has been filled by Margaret Knapp.

Instruments Never in Tune

No matter how much players may tune their instruments, they are never fully in tune, says a famous conductor, notes a writer in Pearson's London Weekly. Changes in temperature quickly affect instruments. A slight rise in temperature will lower the pitch of a piano, but will raise the pitch of wind instruments. It is almost impossible to keep the temperature of any room constant, especially when filled with crowds of people. People with keen ears can often detect off-tune instruments, but most of us do not notice the difference.

OUR NEIGHBORS

MILAN—Mrs. Etta H. Johnson, owner of the Milan Leader, died on Wednesday noon. Mrs. Johnson was terribly burned on Monday when oil she poured on green twigs she had cut from her rose bushes exploded. Leader.

GRASS LAKE—Fire, which probably started from spontaneous combustion in a hay mow in the barn, destroyed the barn, house and milk shed on the Harriet Simmons farm, just east of Grass Lake about 11 o'clock Thursday morning. The fire was discovered by Mrs. Ione Wright, tenant on the farm. The blaze was whipped by a brisk breeze from the west which quickly ignited the house. The Grass Lake fire department was handicapped by a shortage of water which had to be carried to the scene in milk cans on trucks.—News.

BROOKLYN—Leo Bovee, on one of the steam shovels on the Ford project excavated a little brown jug that he is saving as a souvenir. The jug was uncovered at the base of an old stump that has been at the bottom of the pond since it was first flooded a little more than 100 years ago. The little old jug was marked "Derby, England" and whether it contained ale or ginger other important import of the good old days is undecided by the boys about town—because the jug was empty.—Exponent.

NORTHVILLE—Chief of Police Loyie M. German has clues in his possession which he says will lead him to the breaking up of a young gang of boys who broke into the high school cafeteria Monday night, leaving the building without loot, but not before the gas jets had been turned on, filling the basement and the first floor with gas. The same group left additional clues in the Presbyterian church house which was entered the same night. As was the case at the school, nothing was stolen from the church, but the church house furnishings were stacked in a disorderly manner.—Record.

MORENCI—Following the loss of

the hangar at the Adrian Municipal Airport last Sunday, local aviators of Morenci immediately drafted plans for constructing a hangar on the newly acquired municipal airport here. Mr. Meyer said construction will be started at once. It will be a sheet-metal structure, 40x50 feet, which is only 10 feet shorter than the hangar which burned at Adrian. The training ship will be kept at the airport here and certain days for flying instructions will be divided between the Morenci and Adrian airports. There are about 40 aviators in Lenawee county, of which 11 are residents of Morenci.—Observer.

Why is it so difficult that the driver, the very person who should be reached first and in whom an appeal for safe driving should find a ready ear, is the hardest person to reach?

Why is it that everybody believes in safety and everybody is for it, but everyone feels that the program is for the other fellow?

We all feel that we are perfect drivers. We can always find fault with the other person. It is easy for us to detect the awful mistakes that

some other people make in driving. The next time we feel that way, let's stop and think and take inventory of our own driving. Safety is everybody's business.

Your Pots and Pans Will Reflect Your Smiling Face!

To have beautiful hands is a woman's delight, and electric cookery banishes the principal household task that causes rough, reddened hands—the constant scouring of pots and pans. Electric heat is just as clean and pure as sunshine and leaves no sooty, grimy deposit on utensils.

Old-fashioned flame cooking requires much air for fuel combustion and fuel ovens must have large quantities of air which pass off, carrying the fume-laden, grease-freighted air that is deposited on your walls and draperies, with an ultimate heavy cost for re-decorating. On an Electric Range, the heating element takes no air and is completely enclosed in the oven, so that nothing is carried off. Not only is your home kept clean; the range itself has no stopped up, greasy burners. It is as easy to keep spotless as a china dish!

WHEN you've got something mighty good and know it, it's not easy to pass it up even for something better!

There's a whole of a temptation to play it safe, to coast along a while, when you're riding such a vote of confidence as we've had this year.

We had ample evidence from the start that our past season's good Buick was the life of the 1938 party.

Right through the darkest months it paced the industry in sales, setting a bright example that shone like a sudden sun smiling through the rain.

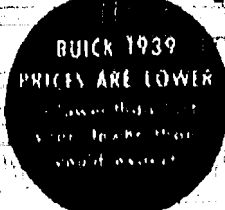

But itching in our heads and on our drawing boards were ideas.

Epworth League Booth Festival

The Epworth Leagues of the Ann Arbor District held their annual Booth Festival at the Home on Saturday. Over two hundred Leaguers were here, with the pastors of nearly all the represented churches, besides many adult friends of the League and the Home. One of our family had the curiosity to count the automobiles and reported that at one time ninety cars were parked on the grounds. The Leaguers from the seven Sub-Districts came in the morning and built their booths and artistically arranged the contents, then drove to the Chelsea M. E. church where they enjoyed a pot-luck dinner; then returned to the Home where they had a ball game at one o'clock. At two o'clock they gathered for the extremely interesting program which was in charge of Rev. Verle J. Carson of Deerfield.

Oakland county won first place for the ingenuity and attractiveness shown in the arrangement of its booth and contents; Lenawee county was second place, and Washtenaw county, third.

The Home family are relieved of any immediate cause for anxiety on the food question, for the cars and trailers brought many bushels of apples, onions and potatoes; oodles of squash, pumpkins and all kinds of fresh vegetables and fruits; 2735 quarts of home-canned fruits and vegetables, 644 glasses of jams and jellies, and 309 tin cans of fruits and vegetables; the total value of the supplies brought in was \$1149.00. We wondered if some of our guests did not regret that they were too young to live at the Home.

The weather was perfect and every one seemed rapturously happy.

Wycliffe's Bible Had No

Division of the Verses

In the first Bibles there was no division into verses. Wycliffe's Bible was of course all done by hand, as there were still no printing presses in his time, observes a writer in the Montreal Herald. Matthew, the third chapter, and verses one to six will serve as an illustration of his work. It is in the Old English script.

"In thikke dayes came Joon Baptist prechynge in the desert of Jude, sayng, Ye ye penence: for the kyngdom of heuens shall neigh. Forsothe this is he of whom it is said by Isaye the prophete, A voice of cryinge in the desert, Make ye ready the wayes of the Lord, make ye rightfull the pathes of hym. Forsothe that like Joon hadde cloth of the heiris of camelis and a girdil of skyn about his leendis: sothly his mete weren locustis and hony of the wode. Thanne Jerusalem wente out to hym, and al Jude, and al the cuntre aboute Jordan, and thei weren crystened of hym in Jordan, knowlechynge there synnes."

There were many copies made of Wycliffe's Bible. One is believed to have belonged to the historic figure, John of Gaunt.

In spite of the fact that a bill was brought into parliament forbidding the circulation of the Scriptures in England this same John of Gaunt fought for the right of the people, saying that the Word of God was their birthright. The Wycliffe Bible existed only in manuscript until 1850.
