## C. H. S. Football Squad Honored At Banquet

More than 175 people from Chelsea and vicinity attended the annual football banquet on Monday evening at the public school auditorium, honoring the squad which brought the Huron League championship to Chelsea this fall. The event was sponsored by the Kiwanis club.

The banquet was served at 7:00 o'clock by the Senior class, during which P. E. Niehaus led group singing, with Mrs. Niehaus at the piano.

Supt. A. C. Johnson introduced Jim Daniels, who presided as toastmaster at the program following the banquet. The Girls' Trio, consisting of Eunice Hart, Janis Dancer and Joan Walworth, with Margaret Harper at the piano, rendered two selections. The toastmaster then gave a very comprehensive resume of the season's games played by the local squad, giving scores of all games played, and interspersed his remarks with keen bits of humor.

Dave Strieter, captain of the 1938 squad, gave a short talk, voicing his appreciation for the splendid spirit of the team throughout the season. He introduced Paul "Kelly" Schneider, captain-elect of the 1939 team, who also spoke briefly.

Varsity and Reserve letters were then presented by Coach Charles Cameron, who gave an interesting talk on experiences of the past season, complimenting the group on their splendid teamwork.

Varsity letters were presented to P. Atkinson, G. Bahnmiller, J. Fletcher, H. Haselschwerdt, G. Knickerbocker, A. Policht, B. Rabley, D. Rowe, O. Schiller, P. Schneider, C. Slocum, D. Strieter, R. White, Wm. Birch, F. Novess. Reserve letters were presented to D. Kinney, D. Walz, D. Clark, S. Roy, C. Lane, R. Schultz, R. Walz.

Supt. Johnson presented the Huron League trophy to Mr. Cameron, who in turn presented it to Dave Strieter, team captain. This was followed by a vocal solo by Miss Evelyn Sprague, accompanied by Miss Harper.

Clarence Munn, head line coach at the University of Michigan, gave the principal address of the evening, and showed moving pictures of the Michigan-Minnesota game.

## Cause of Defeat Is Argued by Leaders

By Gene Alleman  
Lansing—Who killed Cock Robin? Resentment of farmers and business men against the recession, says Gov. Frank Murphy.

Resentment of citizens in general against "too much leniency" by Governor Murphy toward the sit-down strikers, says Edward J. Fry, chairman of the Democratic state central committee.

And there, in a nutshell, you have the current controversy among two democratic factions in Michigan as to the cause of the administration's reversals at the polls last Nov. 8.

Lines are being drawn somewhat along those existing nationally—liberals vs. stalwarts (or conservatives).

## 139,864 Fewer Votes

Analysis of the November ballots shows that Fitzgerald received 4,331 more votes this year than he did in 1936, while Murphy received 139,864 fewer votes.

Percentages of the total vote reveal that Murphy got 47.1 per cent and Fitzgerald 52.9 per cent. Two years ago it was 51.4 to 48.6.

Five voters out of every 100 changed their views between 1936 and 1938. This switch meant the defeat of the Michigan "New Deal" and the return of the Republicans to power at Lansing.

In the judgment of State Chairman Fry, a practical politician who looks at elections in the light of getting (Continued on page three)

## Agricultural Evening School Is Possibility

If there is sufficient interest among rural people to organize, select a subject for instruction in agriculture, and attend regularly over a period of fifteen meetings, it will be possible, with the cooperation of the Chelsea public school board and agricultural teacher to furnish such instruction.

Those who wish to participate in such an evening school are urged to attend an organization meeting at the Chelsea high school, agricultural room, on Thursday, December 15, at 7:30 p. m.

All agricultural organizations, such as the Granges, Farm Union, and Junior Farm Bureau are requested to make mention of this opportunity.

By Stuart Dingle  
Last week the Chelsea high school basketball squad started training for their first game, which will be held at the high school gym on Tuesday evening, December 13, when Chelsea will be opposed by Grass Lake in a pre-league game. Milan will be hosts to the local boys for the first league encounter on December 16.

Although many men turned out the first few nights of practice, some are beginning to drop out. Among those who came out are Bahnmiller, Daniels, Fletcher, Haselschwerdt, Policht, Schneider, Kossbach, Dingle, B. Knisley, D. White, R. White, and many others. The fellows have been working hard in the little time they have had, and are hoping for a good team. They expect to give stiff competition to every team coming their way.

The game on Tuesday will start at 7:15, with a second team game preceding the main game. For those who want to see a great game between two good teams, the student body of Chelsea high school urges the public to come and judge for themselves the team's possibilities for the season.

## Christmas Trees Again Decorate Local Streets

Streets of Chelsea are again decorated in the usual yuletide attire with Christmas trees in front of many business places, gayly decorated with beautiful colored lights. Sixty trees were purchased by village authorities and they were placed on Monday and Tuesday, being lighted for the first time on Tuesday evening.

Chelsea has the reputation of being one of the most beautifully decorated towns in this part of the state at Christmas-time and this reputation is being lived up to again this year. Especially after a snowfall the lighting effects are very attractive.

According to local merchants buying is now reaching volume proportions. Stores are stocked heavily with merchandise for Christmas shoppers and it is expected that business will steadily increase from now until Christmas.

## Senior Dance

The gymnasium last Friday evening was the scene of the first Senior dance in recent years. The gym was appropriately decorated with lighted Christmas trees and juniper. Hugh Wolcott and his Maestros furnished excellent music for approximately eighty couples.

The Senior class wishes to take this opportunity to thank those who made the dance a success.

## Hi-Y Club

Bring yer Ma, bring yer Pa, all you Hi-Y members. At the Hi-Y meeting on Friday, December 2, the final plans for the banquet to be given on Tuesday, Dec. 6 for the parents of the members were discussed. The banquet will start with a supper at 6:30 p. m. After supper there will be group singing led by Paul Niehaus. Then there will be games and other entertainment.

## Music

Last Thursday the G. G. C. gave an assembly program. They sang their little songs with great ease and knowledge. First on the program was the girls' trio, Joan Walworth, Janis Dancer, and Eunice Hart. Their song was "The Rose of Allendale." Then the G. G. C. sang their four numbers and were well applauded. The assembly was well prepared and everybody attended it who could. Those who could not get to the girls' assembly surely missed something. Miss Sprague is now having the girls start their Christmas program. It's going to be swell because I heard some of the songs and they are too, too divine! If you get what I mean and I think you do.

## F. F. A. News

The Chelsea Future Farmers' club held an initiation of Green Hands, and a game supper of venison and rabbit, Tuesday, November 29. Twenty-four were present. The six new members and their projects are: Donald Cook, calf; Leroy Loveland, calf; N. H. Miles, sheep; Roland Heim, corn; and Burney Higgins, swine.

The requirements for membership are to be enrolled in vocational agri-

culture, carry a project and turn in a report on the plans for the coming year on their project, make and wear an emblem of the project, and wear the F. F. A. convention cap the day of the initiation, and make a paddle and get the signatures of the rest of the club members telling them why they wish to join the club.

Guests at the initiation were Raymond Ives, Veryl Haffey, Paul Bristle and Allen Broesamle.

After the initiation and business meeting the members and guests played basketball.

The mounting of a large horned owl completes one hundred per cent required equipment for Future Farmer degrees.

## Here and There

Another six weeks has passed since the last marking period. Has the honor roll increased?

L. Palmer, to complete the triangle, again had a hard time deciding who to dance with, Paul S. or Jim D.

On the bulletin board in study hall appears an average of each class. We are sure glad it consists of the entire grade instead of each individual.

We wonder why Stewart D. always courts the Alumnae? Is it that we're too good for him or vice versa?

The Chelsea High's girls' trio made their first public appearance at the football banquet. I'm sure everyone enjoyed their songs.

It seems to be quite the thing to see Peg A. accompanying Pat R. to every dance.

The best test papers and classwork from various classes have been posted on the bulletin board. Does your paper appear among them?

I wonder why Dave S. fell asleep at work Saturday. The dance couldn't have been too much for him or was it what he did afterwards?

The Junior class rings are to be here next week. Let's have everyone bring their money so we can get them as soon as they arrive.

## Elementary News

## Kindergarten

We have two new pupils in our class. Their names are Jo Ann and John Rudd, and they came from Gregory.

This week we learned a new game, "Farmer in the Dell." It is one of

our favorite games. Friday we played it in the gym.

On Tuesday, Gerald brought us a little man called "Merry Murphy", which he had made out of milk bottle tops and string. We liked him and decided to make some of our own. Each boy and girl brought milk bottle tops to school and Friday we made "Merry Murphy's" of our own. Some of the best ones are up on the bulletin board.

## Second Grade

Charles Wheeler of Dexter has joined our number. We hope he likes the way we do things.

Mary K. Palmer comes to school each morning. We have missed her so much and are so glad to have her back.

Mary Jane Jarvis, Marlene Heydlauff and Jack Broesamle have had to stay out of school with bad colds.

We are getting ready for Christmas now. Our vacation begins the Thursday before Christmas. There will be many happy days before then.

Report cards are out this week Wednesday. We are all hoping we have raised our marks.

## Fourth Grade

Last Friday we had our first radio program. Our station is called EGA, meaning Fourth Grade Amateurs. Loren M. was the announcer. Murray M. tap danced and Helen Y., Paul S. and Bob D. each played the piano.

At our last club meeting we elected new officers. Loren M. was elected president; Clara M., vice-president, and Paul S., secretary.

We now have twenty-nine pupils. Alice and Raymond Wheeler came from Dexter. Doris A. moved to Manchester.

In geography we are now studying about the Eskimos.

We have been making linoleum blocks for printing Christmas cards. We also are making some things to send to the crippled children at the hospital.

## Sixth Grade

Norman Aberle took the cocoons we had in our room home for the Christmas vacation so they would not emerge so early.

The advanced class in geography will soon finish British Lands in Africa.

We are getting acquainted with fractions again.

Ruth Ann Schenk brought a terrarium. In it there are five kinds of Moss, Woods, Hepaticae, Lichen, and several small woods plants. We want to thank her very much for it.

We received some new reading workbooks. They are called Exploring Today.

## Eighth Grade

A lot of things have happened in the past week.

We have had a lot of tests. On

Wednesday, Nov. 30 we had a History test and on Thursday, Dec. 1 we had a Science test. On Dec. 2 there was an Arithmetic test. We just received our papers this morning, Dec. 5.

We have changed our room to Miss Canfield. We moved to her room and she moved to ours on Monday, the 5th.

Our report cards are out now. We hope you saw some good marks. They came out Wednesday the 7th.

## "SNAPPY"

And now "Snappy!"

Riding in on a wave of enthusiasm for dwarfs, little brown men and such, Snappy is usually found on the hood of a snowbound car snapping his fingers and telling the owner there is no need to worry about getting started in a hurry, because "Standard Red Crown starts just like that!"

Snappy is the name of the little gnome-like character who is the spirit

of fast-starting Red Crown gasoline in Standard Oil Company of Indiana's winter advertising campaign in The Standard, which starts today. The campaign features extremely short copy, and bids for reader attention with unusually large photographs of winter scenes. Snappy, himself, is thrown into prominence in every advertisement.

Snappy pop-guns are also being given away to children by Chelsea Standard Oil dealers to introduce Snappy.

## Testing Silk

To test a piece of silk to see if it is weighted, burn a small sample. If it is heavily weighted, the material will blacken and char but will not blaze, and the edge will be ragged and smooth, with none of the small balls characteristic of unweighted silk.

was "available" for highway needs but there was only \$14,815,844 in the treasury. Obviously, nearly \$8,000,000 of the money due the Wisconsin highway department was not available at all. It had been spent for other purposes.

Quoting the Milwaukee Journal as of Nov. 23: "The plain truth is that Gov. LaFollette has used highway 'balances' to foot the bills for extravaganzas elsewhere—extravaganzas which he did not have the courage to finance through other taxation. He could do this because the so-called highway fund can be used surreptitiously as a budget balancing device."

Civil Service Injustice

Many veteran state employees, because they failed to pass qualifying examinations, lost their jobs this year. The plight of these workers was heightened by the lack of a pension system. State employees are not benefited by social security taxes in any way. A pension study commission is considering an optional retirement age of 65 and a compulsory retirement age of 70 on pension.

## Five Hunting Deaths

The year 1938 promises to be recorded as one of safety achievement for Michigan.

The deer-hunting season closed with only five fatalities from misdirected gun-fire, as compared with 14 deaths last year. Casualties were 17 wounded as compared with 12 in 1937.

P. J. Hoffmaster, director of the state conservation department, enthused also over the reduced toll in slaughter of does.

Michigan in 1895 legalized 14,409 deer-hunters; by 1938 the red-clad army had grown to 100,000. Yet the conserved supply of deer today furnishes a perennial problem of providing enough grazing land to tide many of them over the winter months. Upward to 40,000 deer die each winter because there are too many for their food supply.

## Traffic Toll Cut

Michigan leads also in reduction of traffic deaths.

With a decrease of 36 per cent in highway fatalities, the state stands next to Pennsylvania in having the best automobile safety record for 1938 to date.

The National Safety council, mindful of increasing drinking during holidays, is asking police departments to step up traffic enforcement and to post trusted officers at night clubs and other gay life spots to dissuade drinking drivers from taking the wheel.

As a part of its safety program,

## No Diversion of Funds

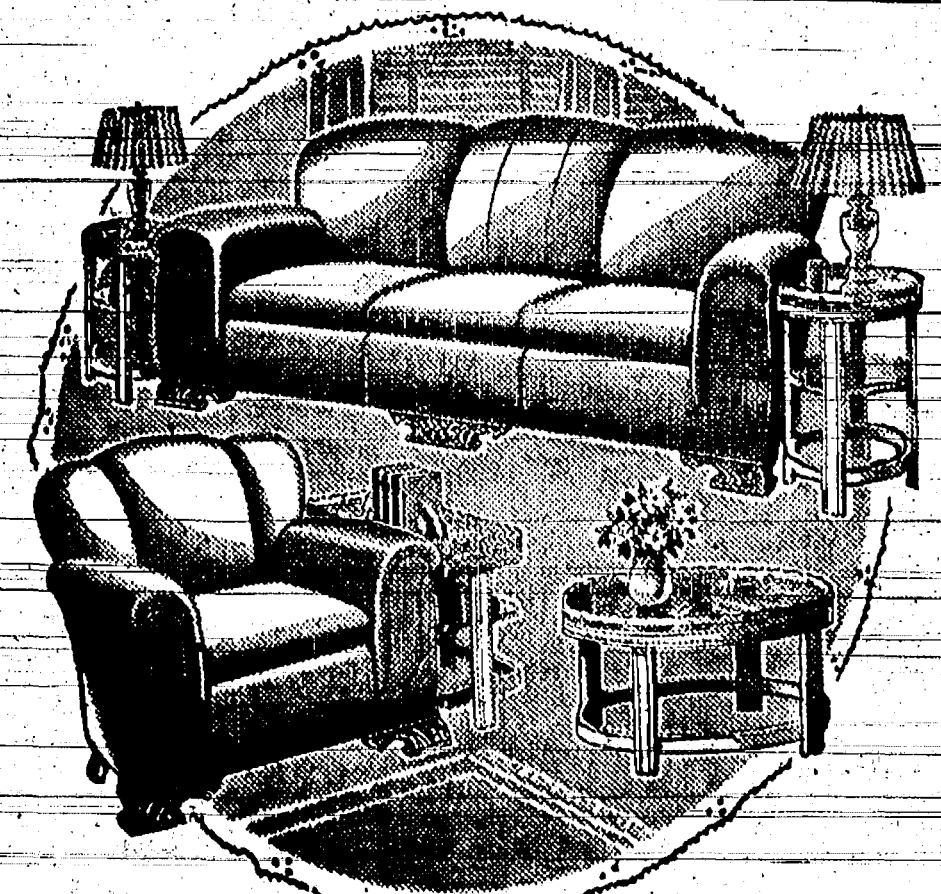

At a meeting of the American Road Builders Association, of which he is president, Commissioner Murray D. Van Wagoner of the State Highway department urged citizens of other states to press for adoption of amendments prohibiting diversion of highway funds.

Significance of the Michigan amendment is seen in the experience of Wisconsin: Last July 1, according to the Wisconsin Taxpayer, \$28,114,568

Easy on the eye—easy to buy—on General Motors terms.

ONE of these days you're going to get tired of watching these agile Buicks flash past you!

One of these days you're going to get fed up on hearing friends rave about Buick comfort, and Buick smoothness, and the glorious view through Buick's bigger and broader windshield and windows.

One of these days you're going to wish you too had a car styled like a bit of tomorrow here today.

And one day you'll ask yourself why you didn't see what

a buy Buick is at its new, deep-cut, 1939 prices. Sure as shootin' all that's going to happen—unless you do certain things now.

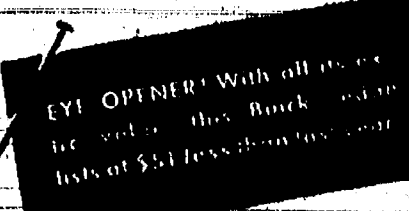

First—come try out the brilliant surging power of this Buick's Dynaflex great eight engine. Next—find a rough stretch—and discover for yourself how steady this smooth traveler is in its going, how directable in its easy handling.

Finally—take paper and pencil, and when noting Buick's surprising low delivered price,

note also the extras it includes, the big reductions over last year, and the actual savings you can make by putting your dollars in Buick!

For the value's up mightily as you can see. And yet this great straight-eight actually costs less than last year—less than you'd expect—less even than some sixes.

How much less? We're waiting to watch your eyes pop when we tell you!

## Question And Answer Dept.

**Problem.**—A man desired to change his name. Therefore he adopted the prefix "Mac", thus making his name "Machines". Can you pronounce his name correctly? (Answer elsewhere in this department).

**Ques.**—If there isn't a man in the moon why is it that there is a human face seen in it? And furthermore, all almanacs picture the moon with a human face.

**Ans.**—There is no man in the moon. It is simply a coincidence that the moon's mountains and valleys reflect the image of the human face. This is carried in the almanacs so that the reader will clearly understand that the drawing means "a moon"—just as though you drew a picture of a house and then wrote beneath it "This is a house."

**Ques.**—I wrote a story and wish to get it copyrighted. How should I go about it?

**Ans.**—Full information as well as application blanks will be supplied to all by the Copyright Office, Library of Congress, Washington, D. C.

**Ques.**—Were there any survivors of the Custer Massacre in Montana? If so, who were they, and where do they live?

**Ans.**—At the Custer Massacre there was just one lone survivor—Shu-shee-ah-sh. He was an Indian scout (nicknamed "Curly"). He was serving as a scout in the U. S. Army. He died April 22, 1923, at the Crow Indian Agency in Montana.

**Answer to problem "Machines."**

**Ques.**—Ex-President Coolidge has always been known as "Calvin Coolidge". Will you please answer what his middle name was?

**Ans.**—"Calvin" was his middle name. He was christened "John Calvin Coolidge"—the same as his father. During his youth he wrote his name "J. Calvin Coolidge" but when he entered college to study for the practice of law he dropped the "J".

**Ques.**—What country was first to use coffee as a beverage?

**Ans.**—The origin of coffee as a beverage is obscure. It was used in Abyssinia (Ethiopia) and Arabia more than a thousand years ago.

**Ques.**—Why is salted beef called "corned" beef?

**Ans.**—The verb "to corn" means to season, cure or sprinkle with salt. The salt generally used was coarse-grained. The verb comes from an old noun "corn", which meant any hard particle, such as grain, seed or coarse salt. Hence it was called "corned beef."

**Ques.**—In some new buildings under construction they have big white crosses marked on the windows. What is that for?

**Ans.**—It simply means they are calling attention to the fact that glass has been put into the window sash. These panes have to be put in before the plasterers start their work in order to stop rain, snow, etc., from spoiling the plaster.

**Ques.**—What is meant by the "elastic clause" in the United States Constitution?

**Ans.**—The "elastic clause" is paragraph 18, section 8, Article 1, of the U. S. Constitution. It gives Congress a choice or means of carrying out powers already granted. Thus it was nicknamed the "elastic clause."

## OUR NEIGHBORS

**QUINCY.**—The old fashioned lamp sign "The Beacon Inn" which stood at the side of the road before the house and service station owned by G. W. Goe, was completely demolished in the big windstorm two weeks ago. It originally belonged to an age before even coal oil was used as a means of light, for it was fitted first with the fixtures for candles and stood for no one knows how long near two churches south of Chelsea. Mr. Goe, present proprietor of the "Inn", bought the lamp at auction 20 years ago, when goods stored in one of the parsonages there were sold under the hammer. Mr. Goe brought the light to Quincy in 1929. He states that the history of the light undoubtedly indicates that it was brought from Germany with the very early settlers of that section and that as the general use of kerosene became the vogue the lamp was fitted to accommodate it, and still later the modern electric bulb was utilized. Herakle Mr. Goe is a former well known resident of Chelsea and Lima township.

**DEXTER.**—While fishing through the ice on the mill pond last Monday morning Henry Stolbach caught a pike that measured 84 inches long—Leader.

**MILAN.**—Announcement was made this week by representatives of the Michigan State Department of Health that a survey would be conducted in Milan during the coming few days. An unprecedented number of cases of gastro-intestinal upsets have been prevalent in the community during the late summer and early fall, and the department wants more information regarding the situation.—Leader.

**PINCKNEY.**—While workmen were remodeling the old home of the late Dr. H. F. Sigler they found in the at-

tic the contract signed by Dr. Sigler in 1897 with Dan Sackett, the Dexter contractor who built the house. In it Sackett agrees to build the house and furnish the lumber for a sum of about \$800. This did not include the masonry work, painting, or hardware.—Dispatch.

## CHILDREN IN COURT

Judge Malcolm Hatfield  
Children Reflect Parents' Viewpoints  
Children are always affected by viewpoints held by their parents. Youngsters who are forced to worry over economic conditions do not have the sense of security which children

from normal homes possess.  
One of the primary essentials necessary to the welfare of every child is that the parents earn a decent income so that they can provide wholesome surroundings for their children. When any family encounters the evils of irregular work, unemployment, or prolonged illness, it is the duty of the community to apply the kind of relief which will preserve family ties and give adequate parental instruction to the children. If society neglects to assist families which meet temporary reverses, it should not be astonished to see children embracing the doctrines of communism.

**BUY CHRISTMAS SEALS!**

"Hundreds of Michigan residents have already given. The success of the campaign depends now upon the hundreds of people in the state who have not yet made returns for the tuberculosis Christmas seals mailed to them on Thanksgiving Day."

That was the announcement made this week by Theodore Werle, executive secretary of the Michigan Tuber-

cause of death between the ages of fifteen and forty-five, the most fruitful years of life.

"If the rate is to be started downward again, the fight must be vigorous and relentless. And there must be funds to make the fight possible.

"So we appeal to all who have not made returns: Your gift—large or small—is needed. We are confident that with the success of the seal sale resting now upon you, you will not fail those who are dependent upon your gift."

Paul F. Niehaus is chairman of the local Christmas Seal sale, which is sponsored by the Kiwanis club.

### Oldest Turkish Baths

Budapest, Hungary's capital, has been famous for its mineral springs since Roman days, and there are in use decorated bath halls, built there by the Turks in the Sixteenth century.

### The Thames River

The Thames river in England is pronounced as if it were spelled "temz." This pronunciation is a survival of a time when the name was spelled "Temze" and "Temesa." The name was written "Tamesis" or "Tamesa" by the Romans. The "t" does not appear in the word until 1377 and was not regularly used until after the year 1500. The original significance of "Thames" is lost in obscurity. According to one theory the Latin name of the river was "Tamesis," which meant "broad isle," "isls" being a variant of "esk," "ouse," "usig," etc., meaning water.
