Juvenile Delinquency Reported In Chelsea

R. R. Dwyer of Jackson, captain of police in that city for the Michigan Central Railroad, was in Chelsea on Tuesday, investigating destruction of railroad property within the village which had been reported by local employees of the railroad.

According to Mr. Dwyer the damage consists mostly of broken windows and of breaking and entering railroad property. He interviewed a number of boys ranging in age from 10 to 14 years and obtained confessions from several of them that they had taken a part in the property damage. In addition to this Mr. Dwyer reported that some of the boys had confessed to him their participation in petty thievery from certain stores in the village.

It was pointed out by Mr. Dwyer that it is not his desire to prosecute the boys who have taken a part in unlawful practices here, but rather to work toward the curtailment of juvenile delinquency by showing the boys the folly of their practices and of pointing out to them what such actions may lead them to in later life when there are so many temptations leading to a life of crime.

The police official stated that he has been assured of the cooperation of local employees of the railroad as well as the assurance of Supt. A. C. Johnson of the public schools that an effort will be made to discourage juveniles in the practice of illegal trespass or property destruction. Mr. Dwyer would also appreciate the cooperation of parents in the matter as they are the most vitally interested and would benefit most if the situation can be corrected.

As was announced a few weeks ago, the Chelsea high school will sponsor the Annual Band Festival which will be held here in May. This year's festival promises to be the greatest in Huron Band League history. All the bands which will take part have been working hard preparing the program. The schools represented are: Dundee, Milan, Clinton, University High, Chelsea, and possibly Belleville.

The massed band of some two hundred fifty pieces will be a spectacular novelty for most music-lovers of Chelsea.

May second is the date set for this great event. The interest shown in the musical organizations of Chelsea High is keenly appreciated and it is hoped this interest will be maintained.

Bills To Regulate Business Plentiful In Legislative Halls

Lansing—Whether the State of Michigan should fix milk prices—just like it fixes prices for electricity, telephone, gas, and other utility services—is one of the numerous controversial issues before the legislature this month.

As you consider the matter at this moment in reading this column, your attitude will probably be influenced largely by whether you are a producer or a consumer.

The producer has genuine grievances. The price at wholesale is too low; it should cover (at least) cost of production; milk is an utility commodity because it is a public necessity; and so on.

The consumer is concerned, however, in price, quality, and service. "Quality" in this case includes safety to his health through sanitary safeguards. If the adult consumer considers the price to be high, or if he lacks the ability to pay, he curtails consumption or eliminates it altogether. Thus, milk must compete to a certain extent with bread, fruit, and other food commodities. In the case of babies and invalids, milk is an outright necessity.

Welsh Milk Bill

A case at hand is the Welsh milk bill, sponsored by the Michigan Milk Producers' association and backed generally by the Farm Bureau and the Grange.

This measure was debated pro and con for two hours at Lansing' last week with Rep. Stanton Welsh of St. Clair county and Rep. Maurice Post of Kent county leading its defense and Rep. Joseph Warner of Washtenaw county and Rep. Floyd E. Town of Jackson county leading the attack. Wayne county legislators, typified by Rep. John Hamilton and Rep. Chester

Ordinance Adopted To Control Noisemaking

An ordinance "prohibiting unnecessary and unusual noises" in the Village of Chelsea has been adopted by the council and will be in effect after twenty days from this date.

According to the conditions of the ordinance, which is published in its entirety on another page of this issue, it shall be unlawful for any person, firm or corporation to create, assist in creating, permit, etc., any unreasonable, loud, disturbing, or unnecessary noise within the Village of Chelsea, so as to disturb the health, peace or enjoyment of any residents.

It will be unlawful for the operator of any vehicle to sound any horn or other warning device except when reasonably necessary. The use of any gong, siren or bell upon other than emergency vehicles is also prohibited.

A provision in the ordinance which will no doubt meet with the approval of the majority of local residents is the prohibiting of the use of any mechanical loud speakers or amplifiers on trucks or other moving vehicles, for any purpose. This practice has become a real nuisance at times and the ordinance, if enforced, will correct the situation.

Severe penalties are provided in the ordinance, a maximum fine of \$100.00 or ten days imprisonment in the county jail being possible upon conviction.

Bills To Regulate Business Plentiful In Legislative Halls

(Continued from page one)
Fitzgerald, both Democrats, were critical of milk price fixing on the grounds that it violated consumer interests.

By a vote of 43 to 35, the bill was sidetracked to the house ways and means committee despite a warning by Rep. John Espie of Clinton county, chairman, that it might be re-reported out.

Warner and Town, both dairy farmers, took the position that price fixing of milk was not the duty of state government and that as long as three-fifths of all Michigan produced milk today does not go into bottles, being classified as surplus, the basic problem would still remain unsolved.

The milk problem has two sides, as most problems have. Legislators are perplexed—the 43-35 vote clearly indicating the division of thought.

Cleaning Price-Fixing
Before the senate state affairs committee is Senate Bill 314 which would put the state into the price-fixing business for dry cleaners.

Persons who are in the dry cleaning business complain of "ruinous competition." The wolf in sheep's clothing is the so-called "chiseler" who cuts prices and otherwise engages in what his competitor terms "unfair" trade practices.

Recall your "Blue Eagle" NRA days. The argument is strangely familiar.

Senate Bill 314 would create a state dry cleaning and dyeing commission of five members, one of whom as chairman would receive \$5,000 a year and the other four would get \$4,000 a year. This commission would have broad power to say what is "unfair" trade practices, to limit underselling claims, fix regional minimum prices at both wholesale and retail, and even determine minimum wages and maximum hours.

Expenses of the commission could not exceed \$60,000 a year, and business license fees would range from \$25 to \$100 a year in addition to a flat 25 cents monthly fee for each employee.

Licensing Cooks
The last minute rush of new bills further substantiates our earlier observation of a trend toward further state centralization, whereby everyone and his brother would be regulated in some way by Lansing.

Many of these bills are reasonable in their objective.

It is not our intent to belittle their motives, but rather to present the facts for what they are. It should be pointed out also that some of these measures will probably die in committee, having been introduced as a legislative courtesy to a constituent or some special group.

Here are some examples of state centralization:

Senate bill 332 creating a state commission to examine and license registered and student cooks.

Senate bill 271 creating a state warm air heating and air conditioning board for examinations, licensing, fees, etc.

Senate bill 285 creating a state board of boiler rules; chief inspector

to get \$3,500; deputy inspectors to get not less than \$2,400 each.

What Price Regulation?
Possibilities of state regulation are almost unlimited.

Among other bills introduced to date are the following:

Licensing of automobile salesmen, gasoline dealers, real estate title abstractors, billboard builders, decorators, painters, paperhangers, tourist cabins, trailer camps, auto wreckers, watch makers, collection agencies, practitioners of naturopathy, makers of butter substitutes, fight promoters, and business agents for labor unions.

Further trade or professional regulations are proposed on these groups:

Barbers, cosmetologists, chiropractors, dentists, electricians, embalmers, funeral directors, plumbers, retailers.

Several bills seek to regulate the making of bread—slices, standards, etc.

Another bill would require grading of gasoline and oil.

Nearly every one of these regulatory measures would require payment of an annual fee to help maintain the cost of a state commission and its additional policing duties. Indirectly the annual fees constitute special taxes which must be paid either out of private incomes or ultimately out of the consumer's pocketbook.

Indirectly, too, each measure is distinctly monopolistic in its objective, justified by sponsors as being for the protection of the public—the consumer.

GRASS LAKE—At the annual town meeting held Monday noon with N. M. Davis, supervisor, in charge, it was voted to publish the names of beneficiaries on the expenditures list of the township poor fund. It was also voted for the board to decide on the amount designated for various funds in the functioning of township's business.—News.

PLYMOUTH—Cigarette smokers in Plymouth underwent a smoker's famine for a brief time last Friday afternoon and Saturday when the big truck carrying the weekly supply of smokes to this city was robbed somewhere between Ann Arbor and Plymouth. When the driver arrived in Plymouth he discovered that all the cigarette

cases on his truck had disappeared. Investigation showed that some one had climbed in the back end of his truck in Ann Arbor and when the truck was part way between the two cities, he threw off the cases. An automobile following with three young men in the car apparently picked up the packages as they were hurled from the truck, according to information gained by officers.—Mail.

MORENOI—The Moreno fire department answered two calls during the past week. The two fires were caused from similar circumstances. In both cases a stone was believed to have caught in the corn shredder and fire started from the sparks. The barns and a silo burned.—Observer.

UNIFIED FOR Economy

One of the many advantages of our membership in the Bell System is the substantial saving to every customer of this Company... a saving that grows directly out of the centralization made possible by the Bell System.

For example, we get our equipment from the Western Electric Company, manufacturing unit for all Bell Telephone Companies. This assures us of the finest standardized equipment at a lower cost than we could buy it elsewhere.

Instead of conducting our own research department, we pay a fraction of the cost of maintaining the centralized Bell Telephone Laboratories, "Home of Telephone Progress." In this way we have the use of the improvements developed by a complete research program which no one associated Bell Telephone Company could afford to maintain.

This efficiency... avoiding wasteful duplication... is one reason why your telephone service is better and costs less than any other telephone service in the world.

Pedestrian, walk with the lights. Do not ignore this warning. The lights are put up for your protection and should be used accordingly. There are just as many pedestrians trying to "beat" the lights as there are auto drivers. Why take a chance? Why invite trouble?
Contrary to all instructions issued in newspapers, magazines, and other publications, pedestrians still walk along the right-hand side of the highway.

Everyone is too prone to blame the auto driver when we as pedestrians could exercise more care at crossings and on our highways.
Life will be longer, sweeter, and safer if we use just ordinary common sense in walking and driving.

First Chicks See New Federal Lab at M. S. C.

Pre-Easter hatching of 1,000 eggs has placed in operation the facilities of the new federal poultry disease research laboratory on the campus of Michigan State College.

Half of the chicks are to be used in pathology or disease inoculation studies; it is explained by Dr. J. Holmes Martin, director. The other half of each hatch is to go into genetic studies to locate individuals which can be used to establish susceptible and resistant strains.

Dr. Martin announces three appointments to the laboratory staff. Senior poultry pathologist is Dr. C. A. Brandy, who received degrees from Kansas State College, taught there, and who served three years as associate chief in animal pathology at the University of Illinois.

State Increases Volume of Cheese Production

Importance of cheese in menus during the recent weeks of the Lenten season has led to a summary and survey of production in Michigan which shows the state is gaining in national rankings.

Limburger, for instance, almost speaks for itself, says A. C. Baltzer, extension dairyman at Michigan State College. From production reports he figures the state is fifth in the nation in making limburger.

Fourth high state is the rating on Michigan's cottage cheese. More than 130 plants are making annually 10 million pounds. The state is seventh in cheddar or American type cheese, 60 plants producing 12 1/2 million pounds.

One reason for increased production and consumption, Baltzer believes, is that the American public now understands better that cheese is easily digestible. Other virtues are that this dairy product has "eye appeal" as well as pleasing taste, that it is economical with little waste and prices prevailing are reasonable.

MOUNTAIN MAN
HAROLD CHANNING WIRE

As men passed with steaks in their hands, or gnawing a roasted rib, she stared in amazement. "I never saw anything like it!"

Friendships started easily. In time the Senator had launched an argument with a storekeeper from Lone Tree, and Mrs. Sutherland and Irene had found another party of tourists. Immediately Breck took advantage of that to go on a quest of his own. But in crossing the grounds he came upon J. G. Jackson and some of the cowboys he had not seen since the fight on Black Mountain. And then by the time he could get away, the riding had started.

A gun-shot drew men swarming to the corral fence. Inside, horses were being roped and saddled. He saw Louise come from her cabin and vanish through the gate.

He stood watching from a distance, his eyes running over lines of men upon the fence, and others lounging back in the trees, and it came to him that there was not a Tillson among them. Nor had Sierra appeared yet. Abruptly he turned and walked back to the barbecue pit where he had last seen Cook.

The ranger was still there, having a sociable bite with Temple. Breck motioned to him. Cook approached. "What is it, young fellow?"

"What about Slim?"

"Ought to be here any minute. He's late, but might have been held in town for some reason."

Breck nodded. "And the Tillsons?"

Cook scowled. "That's different. I was asking Tom if he'd seen 'em."

They haven't been around, and I can't figure it out.

"You don't think it looks bad for Sierra?"

"No, not that. They're up to some other kind of a deal."

"Yes, and it's going to be from the bottom of the stack!" Breck asserted. "Anything you want me to do?"

"Just go on with the show, young fellow."

But Breck lost interest in the show as the afternoon passed and Sierra did not appear. Cook was right; Slim could take care of himself, and they could do no better than wait; yet inaction became unbearable. Breck watched the rodeo with sightless eyes, knowing vaguely that wild horses were being ridden and men thrown, but his thoughts could not be centered there.

At dusk he sought Cook again, having worked himself into a fine turbulence.

The ranger checked him with a look. "Unstring yourself," he said. "No need to worry about Sierra, and you're missing a lot of fun around here. God knows you may need it. Have you seen Lou?"

He had not.

Cook grinned. "There's going to be a dance, you know."

Relieved by the old ranger's unperturbed manner, Breck went at once in search of Louise. Temple said she was in her cabin, fixing up. Breck knocked on the door.

"Just a minute," she called out, then womanlike took half an hour. When she appeared, she had changed into a dress of something pink, and as once before, he felt

he was gazing at a new girl, almost a stranger.
"Do you see a ghost?" she teased.
"No; an angel."
"Now, now!"
Breck smiled and took her hand. "You're real enough. I've come to all my dance card. Every other number, Louise."
"What?"
"I mean it; I'm that selfish. Will you save them?"
She hesitated. "You don't want every other dance with me. That wouldn't be fair—to your guest."
"I think my guest understands."
"Louise shook her head. "No; I can't promise you."
"Then the first and third," he demanded. "We can see about the rest later."

ask me to sit still?"
They walked in silence back to a shadowed path.
Suddenly he began. "You saw that, of course. I'm sorry. It didn't mean a thing."
"Oh, didn't it?" She stopped, her arm remaining impassively in his grasp.
"No!"

CHURCH CIRCLES

ST. PAUL'S EVANGELICAL P. H. Grabowski, Pastor Sunday, April 13th— 10:00 o'clock—English service. 11:15 o'clock—Sunday school. Tuesday, April 14th— 7:30 o'clock—Young People's meeting at the home of Charles and Mary Jane Bahmiller.

CONGREGATIONAL CHURCH

Rev. Ray W. Barber, Pastor Certainly Easter was a day of triumph. The church as usual was crowded to the doors. The sanctuary was filled with flowers, some donated as memorials to loved ones who have passed to their rewards, others given by the Sunday school, and all divided among the sick and shut-ins after the service. The choir added the beauty of its music to the acts of worship. Besides singing two Easter anthems, and the responses, it added to the service for the first time an introt read and sung by the minister and the choir. The service opened by a great prelude for organ and piano played by the Organist, Nina Belle Wurster, and the Director, Mrs. Fred R. Hall, and closed with a sermon on the triumph of immortality. Nine new members were received into the church at this service.

Next Sunday at 10:00 we shall celebrate our quarterly communion. There will be no sermon, but the minister will give a communion meditation on "After Easter, What?" Sunday school

Everybody holding a ticket is to be admitted to the evening's entertainment which will consist of games and dancing.

The committees in charge of this affair are Elsie Mester, Elvin Rhinehart, Mike Fowler and Paul Bristol on the reception committee; Betty Hackett, Kenneth Larkins and Elmer Bristol on the drawing committee, and Bob Gilbert and Orson Deeman on the caller committee.

Refreshments will be sold which will consist of cake, ice cream, orange pop and chocolate drink. The committee for the ice cream are Beatrice Hawkins, Kathryn Bretschneider and Rose Mary Bollinger.

The last meeting of the Junior Farm Bureau was held at the home of Mr. and Mrs. Homer Stoffer. We wish to thank Mr. and Mrs. Stoffer because of their generosity in allowing us to use their home for the meeting.

Muffs Are Traced Back To Drawing Dated 1588

The muff has been in use for a long time. There is a drawing, dated 1588, in which an English lady is portrayed with a small neat muff hanging from the waist. Some muffs were made of very expensive material, richly embroidered. In Queen Elizabeth's time the muff was called a "snoskin" or "snuffkin." On New Year's day, 1800, a lady presented to the queen "one snoskin of crimson satin, laid upon with perfumed leather cut embroidered with Venice gold, silver and silk." At a lottery in 1801, one of the lots was a "snuffkin" bearing the couplet: "This summer yet, a snuffkin is your lot, But 'twill be winter some day, doubt you not."

About the year 1833, and for a long time after that date, muffs were worn by men as well as by women. In a ballad describing the fair held on the Thames during the great frost of 1683-4, tells a writer in the Montreal Herald, we find the line: "A spark of the bar with his cane and his muff." In George the Third's reign, feathered muffs came into fashion. The muffettee was a small muff worn over the wrist; a muffer was a sort of bandage covering the lower part of the face. There were, at least nine varieties of this curious article of dress.

Children In Court

By Judge Malcolm Hatfield Page the Insurance Man A father's unfounded jealousy and selfishness was responsible for the breaking up of his family and the adoption of his children by strangers.

Shortly before this man died in an automobile accident, he was asked to secure an insurance policy. His reply was: "No, sir, you don't catch me taking out any insurance. If I would do that, my wife would turn right around and marry some young fellow, who would take her for the money I left. Believe me, no other man is going to profit by my death and stick his feet under my table when I'm gone."

Such reasoning actually forces a mother left without funds through the death of her husband, to marry another man who will support both herself and her children. On the other hand, statistics prove that widows with an adequate income seldom remarry. Women who had to tolerate uncoincidental husbands for twenty or thirty years often detest men and cannot again be persuaded to give up their freedom.

Swastika Once Worn as Charm The swastika was once worn as a charm to ward off evil influences or spirits.

SUCH WEATHER! Winter weather has been prevailing in Chelsea and vicinity this week. A hard rain storm on Monday afternoon turned to snow in the early evening and on Tuesday morning the ground was covered with about two inches of wet, heavy snow. By late afternoon the snow had nearly disappeared. Wednesday morning the ground was again covered with snow and the mercury was in the low twenties. With the exception of two or three warm days in March there, has been no spring weather here.
