**Hi-Y Activities**  
The election of officers for the coming year in Hi-Y was held on the evening of May 10th at the school. Maynard Cesterle and Richard Remenschneider were reelected president and vice-president respectively. The other officers of the club are: Robert Wala, Secretary; Earl Osborne, Treasurer; Paul Schneider and Merle Barr, Cooks; Donald Cook, Sergeant.  
After the election of officers, Earl Osborne and Merle Barr sent the boys in pairs on a very interesting scavenger hunt. Inscriptions from remote tomb stones seemed the most popular hunt. Maynard Cesterle and Robert Roy won first prize. Congratulations went to \_\_\_\_\_ and \_\_\_\_\_.  
The scavenger hunt was followed by a "weiner roast" on the school grounds.  
On Friday of last week the Hi-Y was favored with a visit by the State Secretary, Mr. Bruce Tallman. Mr.

Tallman spoke to the boys on the topic of "Maturity." The points stressed centered on maturing physically, mentally and emotionally.  
In brief, Mr. Tallman suggested that the boys who work during the summer months should not work beyond their strength or think that they can do a man's work with a boy's strength.  
Maturing is a process of coming to the place where a boy can handle a life situation satisfactorily. When a boy has had enough of this world's experience to know what to do in most any situation, he is well on the road to maturity emotionally. Each boy should try to meet a situation and not depend on any one else to see it through.  
Mr. Tallman concluded by pointing to a solution "Face the facts, and then do a little reflecting on what is going to happen." "It is no disgrace to be immature, but to remain immature."

happily entertained by members of a Bible Class from the Sunday school of St. Paul's M. E. Church in Highland Park; for sixteen years these friends have been unfailing in their visits to us, coming each year just before Mother's Day and just before Christmas. They always bring gifts for each member of the family; this year they also brought beautiful red roses and other fine flowers; the program was largely musical, both vocal and instrumental, and was in great part given by children who showed great talent and ability. About thirty-five were in the party, among them being Mrs. Hughes, the teacher of the class and the wife of their pastor.  
On Monday afternoon Mrs. Mont Oliver of Detroit and Mrs. Wm. Molton of Ferndale called on Mrs. Macaulay; Mrs. Molton also called on Mrs. Turnbull.

**Living Conditions And N.Y.A. Activities**  
By George Woodward  
In writing this article I presume that most of you residents of Chelsea know that there is a boys camp at Cassidy Lake, but on the other hand I'm taking it for granted that you do not know what really goes on at our camp and the actual activities pursued there. That is the reason for this article, to acquaint you with the camp in itself and to introduce you to the way the boys live and the way they are taught there.  
To begin with there are now approximately 180 boys enrolled in the camp, besides the counselors and various special workers, which brings the total attendance of persons at the whole project to about 200 persons.  
The camp is governmentally sponsored under the N. Y. A. and is locally directed by D. L. Miller and a staff of counselors who live at the camp and have charge of the various working and learning divisions.  
Living conditions are highly suitable at the camp. The boys are housed in cabins containing sleeping and comfortable living quarters for 18 people. This includes twelve boys and a counselor to each cabin. There are 16 cabins in use at the present time and as many more under construction. A mess hall, a craft shop and a recreation hall are the chief centers of activity at the camp. The craft shop is the most important building of learning. In the craft shop there is the woodshop, complete with the very latest types of wood lathes, saws and many other types of machinery, all available for use to the boys. Many fine pieces of work have come out of this shop. On the main floor of the craft shop there is a drafting room where mechanical drawing is taught. Any courses available from the University of Michigan through correspondence are taught to the boys. These courses consist of farm school subjects to college courses which are taught by picked and learned counselors. A machine shop and auto mechanics division top off the activities in the craft shop. These also are under the supervision of master mechanics and machinists. Many fine machines and tools are also available for the boys to use in these divisions and many fine jobs on camp trucks and camp machinery have been completed by members of these shops.  
As for the boys actual living routine, here it is: First there are cabin duties such as sweeping the floor, making beds and attending to all of ones personal duties before breakfast at 7:00 a.m. After breakfast and until 8:00 a.m. the fatigue groups go to work, these groups consist of a certain number of boys in each group to do the clean-up jobs of the camp, such as washing the dishes, mopping the mess hall cleaning the latrines, and the general clean-up of the buildings and grounds. At 8:00 the boys either go to work or to the study hall depending upon what project group they're on. This is another procedure in which the boys of the whole camp are divided up into two groups, one a study group and the other a work group. While one group is working the other group is studying, and in this way each boy works one week on project, from which he earns his pay and the next week he is on study, during which time he studies whatever course or courses which he is taking up. The project work consists of helping to build the new cabins and other buildings which are under construction at the present, and special clean-up groups. Of course there are many other assorted camp jobs. Each boy receives thirty dollars a month salary, out of which is taken his board and other bills of the camp in general.  
As some of you know the camp site is well situated within beautiful woods, lakes and hills surrounding the camp. All this to be enjoyed by the boys during their stay at the camp.  
One point I forgot to mention is the recreation facilities for the boys. After all this too is very important. The recreation building, which is now under construction will be the main location of the boys in their leisure time. This building will have an auditorium, ping pong room, and facilities for basketball, baseball and all other sports played are coached by competent instructors. The boys are allowed to come to town three nights a week. The movies and the feminine side are the chief interests of the boys in town. School plays and dances are also attended by Cassidy boys.  
That just about describes Cassidy. To outsiders I sincerely hope they look upon us with admiration and envy because of the fine training, instruction and habits we learn here. Boys representing every big city in Michigan are present at the camp and in my opinion this is a wonderful

thing, as it helps the boys to learn how to make friends and how to live socially together. I hope the description I have attempted to convey can be understood, without too much difficulty and in closing this article I say that in my belief Cassidy is a swell place to be at anytime.

Pronunciation of 'Cobb' Cobb, the port of Corp. Ireland, and an increasingly popular debarcation point for visitors to the British Isles, probably is the most mispronounced word in shipping circles. It is called Cobb, Kobs, but rarely Cove, which is correct. It is the same city as Queenstown, as it formerly was known.

**Question And Answer Dept.**

**PROBLEM**  
The man that gets rid of it; the man that bought it has no need for it; the man that finally got it doesn't know he has it. What the sam hill is it? (Answer elsewhere in this department).

Ques.—What is the meaning of "pasteurized" milk?  
Ans.—Pasteurized milk was so called after Louis Pasteur, an eminent biologist and chemist. He discovered the means of destroying the bacteria in milk by heating it to a certain temperature which would not affect its taste and keep it wholesome and healthy.

Ques.—Who is the tallest man in the world today? And is he as tall as the famed "Irish Giant" was a couple hundred years ago?  
Ans.—The tallest and best well-proportioned man today is Robert Ludlow, 21 years old, of Alton, Ill. At the present time he is 8 feet 8 1/2 inches tall, weighs 491 pounds and still growing. His height is 3 8-4 inches taller than the famed "Irish Giant" who lived in the 17th century.

Answer to problem: Don't you know? How about a coffin?

Ques.—Can you answer why the Communists are called "Reds"?  
Ans.—Because the Communists adopted an all-red flag as a symbol of the red blood of the masses and workers.

Ques.—Where are Disopolis and Caesarea located?  
Ans.—These were once two important cities in Palestine, but became extinct after the Israelites were carried in captivity by the Babylonians. After 40 years' sojourn in the desert the Israelites returned and restored these cities under different names.

Ques.—Is the earth formed of rock all the way through?  
Ans.—No. Nor is it molten. The heaviest known rocks weigh less than 200 pounds to the cubic foot. As the earth as a whole weighs 345 pounds to the cubic foot it therefore proves that a very heavy central core of some kind must exist. Geologists are generally agreed that the core of the earth is iron, and that it is extremely hot.

Ques.—What is the "will-o'-the-wisp"?  
Ans.—This is a phenomena usually produced in marshes and swampy places by wood and other vegetable matter which happens to get buried in the mud decays and forms certain easily inflammable gases. Bubbles of these gases sometimes come to the surface and catch fire when it reaches the air. Because of the flickering lights this was called the "will-o'-the-wisp."

Ques.—Why does a giraffe have such a long neck?  
Ans.—Scientists say that this is because the giraffe is in the habit of feeding on the leaves of trees; that in the course of millions of years he and his ancestors have developed a longer and longer neck so that they could reach the higher trees.

Ques.—Is the moon inhabited?  
Ans.—No, because it has no air nor water, and is too cold.

**Why Laundries Are Named 'Troy'**  
The city of Troy, N. Y., the birth-place of the collar, cuff and shirt industry, was practically the home and for many years was the center of the steam laundry interests of the country; an interest which has extended to every city or place of any importance in the land. So general is the recognition of this fact, that the name, Troy laundry, is retained by hundreds of laundries in various parts of the United States, and is even seen abroad. It was natural that the earliest organized movement to produce the machines demanded for laundering purposes, should have been made in Troy.

**PINCKNEY**—Notices were posted in the Pinckney Die Set factory last week to the effect that the plant had been sold to the Sutton Tool Co. of Detroit who would institute a new wage and hour schedule at once. This factory was built here last fall by Clair Reason and associates of Detroit and their Detroit factory moved here on account of labor troubles. —DISPATCH

**MORENCI**—Oil men have been working for several weeks among the farmers in this vicinity, especially south and west of the village. Many land owners have signed leases and the oil men have announced that a derrick will be moved in this week and drilling operations will start as soon as the machinery can be erected. Just where the first well will be drilled is not known, but it will probably be south of town somewhere near the location of the gas well. —OBSERVER

**TECUMSEH**—Funeral services were held in Clinton Tuesday afternoon for Amos Hall, 55, whose body was found in the River Raisin, about two and a half miles north of here, Sunday morning. Mr. Hall had been missing from his home, since February 7. Mr. Hall left his home in February telling his family that he was going fishing. He is reported to have come to Clinton and to have followed the river north from the village. When he did not return the state police investigated and followed his tracks along the river bank until they were lost on a highway. It is believed that he attempted to cross the river and went through a hole in the ice. —HERALD

**DEXTER**—During the past week a new industry has been started in Dexter in the old creamery building on West 'B' street. The factory will finish, assemble and sell glass products. Production is already under way and six people are now employed. It is expected that several more will be employed within the next two weeks.

The items now in the process of manufacture are glass lamps, switch plates and perfume bottles. Mr. Raymond E. Epstein is the general manager of the plant. Mr. Epstein's interest and knowledge of glass and its manufacture started in Germany and Checho-Slovakia in the Sudeten area which is the center of the glass industry in the world. Mr. Epstein now resides in Detroit and it is his intention to move to Dexter soon. —LEADER

**Both Knew Business**  
A professional beggar once somehow got to the millionaire seated in his office. "But this won't do," said the wealthy one, "you can't disturb me this way. See my secretary, fill out a blank, it will be investigated and in due course of time you will hear from me." "Mr. —," replied the beggar, "all this is very well, and you may know your own business—but credit me with this—I also know my own business. I am here—what will you do for me?"

**Fibers Available for Fabrics**  
The fibers available for the weaving of fabrics fall into the two groups of natural and artificial, says Industrial and Engineering Chemistry. In the former are cotton, wool, silk, flax, and the like; in the latter, rayon, artificial wool, glass wool, and others. Of the natural fibers, cotton is easily king, its annual production being three times that of all others combined, and the United States grows approximately half of the world's total.

**The Scotch-Irish**  
The Scotch-Irish are chiefly of Scotch descent, though they came to this country from Ireland. In 1611 King James I began colonizing Ulster, a barren and neglected part of Ireland, with people from Scotland and the northern part of England. They began migrating to America about the year 1730, and at the outbreak of the Revolutionary war about one-sixth of the population of the colonies was Scotch-Irish.

**Garlic-Parsley an Aid In HIGH BLOOD PRESSURE**

Medical reports say that Garlic-Parsley concentrate has a double action in reducing high blood pressure. First, it tends to relax tightened arteries. Second, it checks or inhibits decomposition of waste matter in the bowels, a contributory cause of high blood pressure. To get concentrated garlic and parsley in convenient form, ask for ALLMIN. These tablets, used as regular therapy, aid in reducing blood pressure and relieving headache and dizziness caused by excessive high readings. To learn what makes your blood pressure and for medical treatment consult your doctor. ALLMIN is for sale by all druggists. Large box, 50c. Special economy size, \$1.00.

**WHAT** we're concerned about is simply this: Lest you admire the size and swiftness and smartness of this trim Buick—and mistakenly decide it's a car you can't afford.

Lest you figure, since it's an eight and an eight of a hundred-and-these horsepower, it might cost more to run than you'd like to pay.

Lest you listen to all you hear about its wondrous comfort, and the smoothness of its BuicCoil ride—and class it as luxury beyond your reach.

All of which, of course, is wrong!

This is an eight—a valve-in-head straight-eight—but it's also a Dynaflash eight, and it gets more good out of every drop of gasoline.

Mileage figures that owners report to us even beat some of the sixes!

And it's certainly a luxurious carriage to ride in—not only in size and comfort but in the completeness of its equipment. Every model has two horns, two sun-visors, two windshield wipers, plenty of ash receivers, an automatic electric lighter—not to mention automatic choke, Handishift transmission and the Flash-Way direction signal.

Even so—the list prices still run less than a year ago—less than some sixes—and probably considerably less than you think!

We'd hate to have you miss out on a whale of a lot of fun simply because you didn't have the whole story. So—since your Buick dealer doesn't know how to reach you—why don't you call on him?

Don't worry about his pressing you to buy! When you see how little this honey costs—and how much it does for that little—you'll be pressing him to hurry delivery!

NAGEL-HAWLEY WEDDING

The marriage of Miss Eleanor Nagel, daughter of Mr. and Mrs. Herman Nagel of Jackson, and Eldine F. Hawley, son of Mr. and Mrs. Joseph D. Wright of Chelsea, was solemnized at 4 o'clock Sunday afternoon at St. John's Evangelical church, Jackson, with Rev. O. W. Wagner officiating. Attending the bride as maid of honor was Miss Lucille Hawley sister of the groom, while Junior Seitz, cousin of the bride performed the duties of best man. The ushers were Robert Scheffel and Robert Reynolds of Jackson.

Preceding the ceremony, Mrs. E. Brier sang "I Love You Truly" and "Why I Love You." She was accompanied by Mrs. A. C. Grossman.

The bride wore a gown of green alpaca with white hat and accessories and she carried a white marriage book tied with ribbon and white roses buds. Miss Hawley's dress was of sunset rose lace and her accessories were white. Both wore corsages of sweet peas, the former pink and the latter, lavender. A reception for 80 guests followed the ceremony.

Misses Evelyn Goodrich of Lansing, Helen Otney of Jackson, Betty Seitz of Chelsea and Leona Moeckel of Waterloo, friends of the bride, served refreshments. A white wedding cake centered the table which was lighted with white tapers. Mr. and Mrs. Hawley left on a motor trip to Niagara Falls and Washington, D. C. The bride is a graduate of Jackson high school and of Mrs. Bailes' School of Cosmetology, Jackson. The groom, a member of the Class of '35, Chelsea high school, graduated in November, 1938, from Jackson Business University. He is employed at the Jackson Credit Exchange. They will make their home at 109 Leroy St., Jackson.

Friendship A friend rejoices at seeing his friend and expands with joy. He is knit to him with a union of soul that affords unspeakable pleasure. And if he only calls him to remembrance, he is roused in mind and transported.—St. Chrysostom.

Printers' 'Stick' The name "stick" as used by printers, is derived from the days of hand typesetting, a stick being the small metal tray in which the printer placed the type as he set it. The amount of type that could be set in this tray was about two inches, hence the use of the term as a space measurement.

**LIBRARY NEWS**

Adults and Junior readers alike will enjoy the "Life of David Crockett." The famous backwoodsman who served under Jackson against the Creeks and who joined the Texas forces in their fight for independence, tells his own amazing story with all the humor and shrewdness for which he was beloved. He modestly relates his experiences both outstanding and remote with no semblance of bravado or pomp.

His military connections as well as his unsought position in government routine were tasks and pleasures alike for a man who was both criticized and admired by men of the times.

The book shows how much may be accomplished by a right aim, a strong will, and an indomitable spirit of perseverance.

David Crockett himself says: "Just read for yourself, and my ears for a heel tap, if before you get through you don't say, with many a good-natured smile and hearty laugh, 'This is truly the very thing itself—the exact image of its Author.'"

Katherine Burton has stirred her readers by weaving a tale about Brook Farm near Boston. Her book "Paradise Planters" takes you back to the 1840's and tries, through building up from that medium, a cure for social injustice. She writes sympathetically of the life in the colony and through her delightful and filtering characterizations, develops the theme of her splendid book.

These two books may be found in your Public Library along with a group of magazines containing material of interest and value to the reader.

**Chastnut, Greek Tree**  
The word chastnut comes from the first home of the tree—a Greek city called Kastana, situated in that part of Greece known as the Peloponnese. The strange, beautiful tree of Kastana was planted in other countries, and gradually its name changed. The Kastana—or castana tree—became in France the chataigne, and in other countries the chestnut.

# The SNAPSHOT GUILD

## SPRING BLOSSOMS

Blossoms add a charming seasonal quality to your springtime snapshots. Make a collection of such snapshots—they're welcome in any album.

Another winter has passed into history and spring is coming in. Soon many trees will be masses of blossoms, early flowers will appear and we will face picture opportunities that occur at no other season.

Any camera can be used for taking pictures of springtime blossoms. Usually, the best blossom pictures are close-ups, and we should always avoid the temptation to include too much. A single graceful branch generally makes a better picture than a whole orchard.

For these close-ups, a portrait attachment will be needed if you use a box or fixed-focus folding camera. Such an attachment is also helpful with focusing cameras. Another useful device is a short tape measure, since in a close-up the distance from camera to subject must be correct. A pocket range finder is even more convenient for measuring distances.

Lighting is important. Straight overhead sunlight should be avoided.

Rather, light should come from the side, or somewhat from behind the blossoms, so that their form and translucency are emphasized. For this reason, the best time for taking blossom pictures are rather early morning or late afternoon. A slightly hazy day, with soft diffused sunlight, is ideal for making these blossom studies.

Any good "chrome" or "pan" film is suitable. For pictures that are to be enlarged, a fine-grained film is best. With "chrome" or "pan" film, satisfactory pictures can often be made without color filters, although a yellow filter such as the K-1 or K-2 may be used for even more truthful tone values and for darkening the sky behind white blossoms.

### PERCH RUN ATTRACTS THOUSANDS

More than 2,500 fishermen paid to fish for one landowner's property one weekend during the annual perch run in the Pine River near Standish, Michigan. Excellent catches were reported by nearly all fishermen.

### Romance, History Hooked

#### Up With Tale About Tea

The story of tea, itself, is an interesting study. Romance and history have been a part of it since it was first introduced to the Western world. With its introduction late in the Seventeenth century, a great change was brought about in our social customs which has continued to this day.

At first tea was considered as a simple, exotic drug, but even after it was accepted as a beverage, the price prohibited other than the wealthy families from indulging in its use.

With the more common use of the teapot in the early Eighteenth century we find the accompanying silver tea caddy and sugar holder. The earliest known silver tea caddies date from about 1710, being pear-shaped and similar to the teapots of the time.

Kiln drying is the more modern method and a more costly one. It is often used by larger mills. Lumber is carefully piled in the kiln with separating strips between each piece.

Dealers say that lumber should be reasonably dry before it is used in home construction particularly. If it is not properly dried the natural warps and shrinkings with the natural drying caused by the heating of the kiln. This may result in cracked plaster, squeaking floors, and other annoyances.

### Mark Twain's Weather Comment

The following lines are from a speech which Mark Twain made on the subject of weather, at a dinner given by the New England society: "There is a sumptuous variety about the New England weather that compels the stranger's admiration—and regret. The weather is always doing something there; always attending strictly to business; always getting up new designs and trying them on people to see how they will go.

Meaning of Name Sheldon Sheldon is one of the names on which authorities differ widely. One says it is Teutonic and means "a shield bearer," another that it is an Anglo-Saxon residence name meaning "from the hill on the ledge." Since other Shel combinations are unanimously accorded a "ledge" meaning, it would seem that the second meaning is probably the more nearly accurate.

Kept World's First Libraries Temple priests probably kept the world's first libraries.

### Poise in All Things, at All Times, is Important

Lord Northcliffe, the famous British newspaper publisher, began to earn his living before he was 20, and by the time he was 30 he was a millionaire and the foremost newspaper publisher in England. Yet he regretted all his life that he had not gone to college, relates a writer in The Neighbor Magazine.

One day he explained this complex to Tom Clarke, author of My Northcliffe Diary. "I have all the money and all the social position I want," said Northcliffe. "Social position is nothing to me, and never was. Titles don't appeal to me. You are a young man; don't worry about those things. The important thing is poise. How a man handles a situation is a much more important thing than the situation itself. Poise in all things and at all times—so few men have it."

"I have suffered from my disability throughout my career. You can't know how much. I suffer from the fact that I was not at Oxford. I can never outlive it."

### NOTICE OF MORTGAGE SALE

Defaults having been made in the conditions of a certain mortgage made by William P. Purfield and Gertrude Purfield, husband and wife, of the City of Ann Arbor, Washtenaw County, Michigan, to HOME OWNERS' LOAN CORPORATION, a Corporation organized under the laws of the United States of America, dated July 11, 1935, and recorded in the office of the Register of Deeds for Washtenaw County, Michigan, on July 15, 1935, in Liber 208 of Mortgages, on Page 232, and said mortgage having elected under the terms of said mortgage to declare the entire principal and accrued interest thereon due, which election it does hereby exercise, pursuant to which there is claimed to be due and unpaid on said mortgage at the date of this notice for principal and interest and taxes paid prior to date hereof the sum of Seven Thousand Four Hundred Fifty-Six and 09/100 Dollars (\$7456.09) and no suit or proceeding at law or in equity having been instituted to recover the debt secured by said mortgage or any part thereof.

NOW, THEREFORE, by virtue of the power of sale contained in said mortgage and pursuant to the Statutes of the State of Michigan, in such case made and provided, NOTICE IS HEREBY GIVEN that on Monday August 14, 1939 at ten o'clock in the forenoon, Eastern Standard Time at the south outer door to the Court House in the City of Ann Arbor, County of Washtenaw, Michigan (that being the place of holding Circuit Court in said County) said mortgage will be foreclosed by a sale at public auction to the highest bidder of the premises described in said mortgage, or so much thereof as may be necessary to pay the amount due as aforesaid, and any sum or sums which may be paid by the undersigned at or before said sale for taxes and/or insurance on said premises, and all other sums paid by the undersigned, with interest thereon, pursuant to law and to the terms of said mortgage, and all legal costs, charges and expenses, including an attorney's fee, which premises are described as follows:

That certain piece or parcel of land situated in the City of Ann Arbor, County of Washtenaw, Michigan, more particularly described as: Lot number Sixty in Olivia B. Hall's Second Subdivision according to the plat thereof recorded in the Office of the Register of Deeds in Liber 1 of Plats, page 48, subject to restrictions set forth in a deed from Olivia B. ### Order for Publication

At a session of said Court, held at the Court House in the City of Ann Arbor, in said County, on the 28th day of April, A. D. 1939.

Present: Honorable Geo. W. Sample, Circuit Judge.

On reading and filing the bill of complaint in said cause and the affidavit of Albert E. Blashfield attached thereto, from which it satisfactorily appears to the Court that the defendants above named, or their unknown heirs, devisees, legatees and assigns, are proper and necessary parties defendant in the above entitled cause, and;

It further appearing that after diligent search and inquiry it cannot be ascertained, and it is not known whether or not said defendants are living or dead, or where any of them may reside if living, and if dead, whether they have personal representatives; or heirs living or where they or some of them may reside, and further that the present whereabouts of the defendants are unknown, and that the names of the persons who are included therein without being named, but who are embraced therein under the title of unknown heirs, devisees, legatees and assigns, cannot be ascertained after diligent search and inquiry;

On motion of Albert E. Blashfield, one of the attorneys for plaintiffs, it is Ordered, that the said defendants, and their unknown heirs, devisees, legatees and assigns, cause their appearance to be entered in this cause within three months from the date of this order, and in default thereof that said bill of complaint be taken as confessed by the said defendants, their unknown heirs, devisees, legatees and assigns.

It is Further Ordered, that within forty days plaintiffs cause a copy of this order to be published in the Chelsea Standard, a newspaper printed, published and circulated in said County, such publication to be continued therein once in each week for six weeks in succession.

Geo. W. Sample, Circuit Judge. Counterigned: Irene A. Seitz, Deputy Clerk of the Court.

Take Notice, that this suit, in which the foregoing order was duly made, involves and is brought to quiet title to the following described pieces of parcels of land situated and being in the City of Ann Arbor, County of Washtenaw and State of Michigan, described as follows, to-wit:

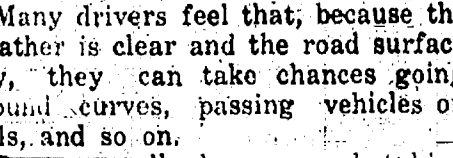

Commencing at a point 48.87 feet east of the southwest corner of lot number thirteen in block five south range three west, in the City of Ann Arbor, running thence north 90.82 feet; thence east 41.715 feet; thence south 90.82 feet; thence west along the south line of lot number thirteen to the place of beginning, all being a part of lots numbered twelve and thirteen in block five south of range three west according to the recorded plat of William S. ### Safetygrams

Many drivers feel that, because the weather is clear and the road surface dry, they can take chances going around curves, passing vehicles on hills, and so on.

Do you really know on what kind of road surface most accidents on our highways happen? Wet surface? Dry surface? Icy surface? You will be surprised to know the fact that because you are driving on a dry surface does not mean you can become careless. Only a comparatively small percentage of accidents happen on a wet or icy surface.

Even though the surface of the road is dry—the weather clear—and all other conditions favorable—"It's Still Smart to Drive Carefully."

Each season an eider duck will produce about half a pound of eider down, but it must be tricked into doing so, says Samuel J. Beckett in "A Wayfarer in Norway." Artificial nests are placed in the rocks in the haunts of the bird, and there the ducks lay their eggs. As the eggs are systematically taken away, the bird continues to sit for long periods, all the time plucking the valuable down from her breast for the nest. Lotta is one of the centers for the eider-down industry.

### Slats' Diary

Sunday: I and Jake and Blister's school will soon be out got to talking about what will we do then. And we decided that we will go to Yurup and fit are enemies if Misters Hitler and Mooselena start any thing. We sed to our selfe We have got a chanct to get to be Generels if they are any wars and etc.

Monday: Us 3 held a nother countashen after school this p.m. and Jake sed his Pa and both his Mom also sed to him it isent a good idear to get tangled up in no war. They is danger of a getting hurt Jake sed they sed. So Jake seams some what infoesened aginst whiping nobody. But L and Blister is still in the no-shen of being Genls and big ossifers and etc.

Tuesday: The paper says that the U. S. gov't spent only 24 billyen \$ \$ from the days of G. Warshington up until 19 hundred and 13. And which sed sum would run the gov't only about 3 yrs. of latly. Meby I and Blister had otte out getting into war and got hooked up with releef some how. Looks like oppertoonity is nocking. At are doors.

Wednesday: Mistress Gillem arrived over to visit Ma and they got to talking with isent xactly news. I think so any ways. Mistress Gillem sed she told her littel son to stop reaching at the tabel and hasent he got no tung. He replide back so she sed that he have got a tung okay doke but it isent as long as his arm.

Thursday: I went to buy some groceries for super at the groceterie store this p.m. and the owner ast me would I like to have a cracker. I sed no I guest not as Jake sed he lets the mice run over them. He sed that isent so as the cat steeps in the cracker box. So I took 1 and it tasted all right. Didnt even smell like mice smells.

Friday: Pa sed the banker come in at the noosepaper offis today and got to talking with the editor. About modern girls and etc. The editor sed the modern girl needs a lot of dislippinment and the banker sed yes he had to send his dotor to bed without no brekfast this a.m. Then they both laft sed Pa but I didnt see not thing funny to laff at.

Saturday: A girl witch works in the noosepaper offis was out to her unkels farm last summer so the editor told Pa and was looking around and her unkels showed her a masheen and sed it are the eider prgs. So then the offis girl sed When do you run off the next edition. Pa and the editor both that it were a good joak on the offis girl so Pa told us. But I dont see nothing to laff at. And Jake and Blister dont neether.

**Alfred D. Mayer, Plaintiff,** vs. **James M. Congdon, David Congdon, Adam Kalmbach, John Adam Kalmbach, J. Adam Kalmbach, Jacob Haselawart, Jacob Haselawart, Elisha Congdon, Frederick Kantlehuier, Christian F. Kantlehuier, Matthew Jensen, Matthew Jensen, Herman C. Jensen, or their unknown heirs, devisees, legatees, and assigns, Defendants.**

At a session of said Court held at the Court house in the City of Ann Arbor in said County on the 5th day of April, A. D. 1939.  
Present: Hon. George Sample, Circuit Judge.

On reading and filing the bill of complaint in said cause and the affidavit of Alfred D. Mayer attached thereto, from which it satisfactorily appears to the Court that the defendants above named, or their unknown heirs, devisees, legatees, and assigns, are proper and necessary parties defendants in the above entitled cause, and:

It further appearing that after diligent search and inquiry it cannot be ascertained, and it is not known whether or not said defendants are living or dead, or where any of them reside if living, and if dead, whether they have personal representatives, or heirs living or where they are some of them may reside, and further that the present whereabouts of said defendants are unknown, and that the names of the persons who are included therein without being named, but who are embraced therein under the title of unknown heirs, devisees, legatees and assigns, can not be ascertained after-diligent search and inquiry:

On motion of Siegfried B. Pollack, attorney for plaintiff, it is ordered that said defendants and their unknown heirs, devisees, legatees and assigns, cause their appearance to be entered in this cause within three months from the date of this order, and in default thereof that said bill of complaint be taken as confessed by the said defendants, their unknown heirs, devisees, legatees and assigns.

It is further ordered that within twenty days plaintiff cause a copy of this order to be published in the Chelsea Standard, a newspaper printed, published and circulated in said County, such publication to be continued therein once in each week for six weeks in succession.

George W. Sample, Circuit Judge. Countersigned: Luella M. Smith, Deputy Clerk of Circuit Court.

Take notice, that this suit, in which the foregoing order was duly made, involves and is brought to quiet title to the following described piece or parcel of land situated and being in the village of Chelsea, County of Washtenaw, State of Michigan, described as follows, to-wit:

**Shapely Neck Important to Good Looks**

By PATRICIA LINDSAY  
AS THE mode changes we re-fashion our bodies! No wonder men marvel at us. One year we are without chests. The next, we develop nicely rounded bosoms! If the walking vogue is a slouch—we slouch and allow our shoulders to grow rounded! Just bring on the style and we grow into it!

Honestly, we are queer, we of the female sex. But at last only good posture and regal carriage is fashionable. Thank heaven for this era's style for now we must learn to walk erect with easy grace. Our shoulders must be firm and lovely to set off the new strapless gowns and swim suits. Our necks, usually neglected, must be beautiful, as appropriate pedestals for smartly coiffured heads.

Exercise will help to fill out chest and straighten shoulders.  
Hair sweeping up into a cluster of curls with tantalizing ringlets in back of our ears. Yes, it is practically the Gibson Girl period returned, and we might conceivably look forward to wasp waists!

Women's Clothes Button

To Be of Most Service
The Haberdasher states: "The story connected with the placing of buttons on men's and women's coats is an interesting one. Tradition hands us the following, and it is reasonable enough to be believed:
"In former times when men wore swords on all occasions, it was frequently necessary to be quick on the draw. The weapon, of course, was invariably fastened at the left and in order to draw it from its scabbard with quick dispatch, such emergencies made it necessary to place the coat buttons at the right. Obviously, fumbling would have been fatal. As the left hand reached to the right in order to unbutton the coat, the right hand went to the left and drew the sword.
"Now for the ladies who also enter into this pleasant legend in a most agreeable way: As has been the custom since time immemorial, it is the practice of women to hold a baby in the hollow of her left arm which engages both the arm and the hand. It becomes clear that if the woman's jacket is to be unbuttoned easily it must be done with the right hand without disturbing the position of the child; hence the necessity of buttoning the jacket toward the left which permits usage of the free right arm in either buttoning or unbuttoning her garments."

Traces Sun Worship to

The New Stone Age Era
Worship of the sun as a distinct object apparently did not start until the new Stone age when man had developed a crude agriculture, observes a prominent authority in the Wisconsin Star. In the old Stone age all nature was looked upon as a great human ghost, the spirits of the dead were supposed to enter into natural objects and the trees, animals, rocks and clouds were endowed with human qualities.
With the advent of crops regularly sown and harvested, the one natural object upon which these crops depended was singled out for special reverence. A great wealth of sun symbols is first noted in this period of pre-history. The paintings and carvings of old Stone age men show designs that can be connected directly with the sun.
Worship of the sun has gone around the earth. It was a prominent part of the religion of ancient Egypt, where at one time it was refined into a monotheistic system which ranks as one of the world's great religions. It was almost universal among American Indian tribes, reaching its greatest refinement among the Incas of Peru, where the rulers were supposed to be directly descended from the sun. The Japanese ruler family trace their mythological descent from the same source.

The Standard-Bred Trotter
The history of the American standard-bred trotter goes back to a horse named Messenger, a thoroughbred, foaled in England in 1790. Messenger was imported in 1788 and lived to be 28 years old. It was discovered that Messenger's offspring were particularly adept at trotting rather than running—hence the birth of the roadster, as the standard-bred horse is commonly called. Perhaps the most widely known of standard-bred strains is the Hambletonian—derived from the great grandson of Messenger and a remarkable producer of fast trotters, writes Capt. Maxwell M. Corpening in the Chicago Tribune. The standard-bred strain is not as pure as some others because of infusions made for improvements. These, however, according to trotting horse enthusiasts, have all been absorbed and they say the registered standard-bred is just as clean and blue-blooded as any other.
The trotter is used mostly for show purposes in the roadster classes and in racing.

Potash Utilized Unknowingly
Potash was unknowingly used as a fertilizer in America for several hundreds of years. The practice of burning the timber of clearings added potash to the corn and pumpkin patches of the aborigine and colonist alike. Wood ashes, supplying potash, have been used in gardens for centuries. In fact, together with kelp and its ash they furnished the only potash available until well after the middle of last century, when production started from the German mines—industrial and engineering Chemistry.

Awarding the Purple Heart
Under the regulations governing the award of the Purple Heart for acts or services performed prior to February 22, 1932, the Purple Heart medal is confined to those persons who, as members of the army, were awarded the meritorious service citation certificate by the commander-in-chief, American Expeditionary Forces, or who were wounded in action under conditions which entitled them to wear a wound chevron.

Club Called Forty-Two's
In the first half of last century there was a club in Cincinnati called the Forty-Two's. So named because, when it was organized, it so happened that each of the men was past 42 and not yet 43 years of age. Although it was more or less social, it did help develop a literary taste in the town. The club met in the law office of Salmon P. Chase.

"Silent Night"
The author of the verses "Silent Night," was Joseph Mohr, an assistant priest at Lauten, on the Salza, near Salzburg, Austria, and the music was composed by Franz Gruber, his friend, who was the schoolmaster of Arnsdorf, near Lauten.

The song was written for Christmas at the little church of Lauten in 1818. After its use there it gradually made friends until it came to be known in all Germany and in translation in many other countries.—Cleveland Plain Dealer.

BRIDE-ELECT HONORED
The members of the Chat 'n' Seaun gave a miscellaneous shower for Miss Ruth Lindemann, a bride of the near future, at their regular meeting at the home of Mrs. L. D. Fox on Tuesday evening. Thirty-one members were present. The gifts were hidden about the house and were found by the guest of honor when alarm clocks rang at intervals. Miss Lindemann received many lovely gifts. Refreshments were served. The assisting hostesses were Mrs. George Goodell, Mrs. Fred Gentner and Mrs. Lyle Christwell.
