Local Youths Selected To Attend Boys' State

Maynard Oesterle and Stuart Dingle are the boys selected to represent this community in the second annual Wolverine Boys' State in East Lansing, June 15 to 28. The boys are being jointly sponsored by the American Legion, Post No. 31, and Auxiliary, and the applications for membership have been filed in the headquarters of Boys' State in Detroit.

The program is being sponsored by the State Department of the American Legion under the general chairmanship and supervision of Everett DeRyke. All of the service organizations and patriotic groups in the state are co-operating in the movement.

Boys' State, while it is in its second year in Michigan, is four years old in Illinois and was conducted last year in nineteen states of the Union. Twenty-six assemblies will be held this year.

Eight hundred and eighty outstanding boys from every county in the state will be assembled at East Lansing on the campus of Michigan State College. The group will be divided into cities and counties, and the entire group will comprise the Wolverine Boys' State. For ten days the boys will conduct the "affairs of the mythical 49th state," elect their own governor, state and county officers, city councils, establish their courts, their own law enforcement agencies and legislative bodies under the general supervision of a specially chosen counselor staff.

Besides being a training in good citizenship and actual governmental problems, a very interesting inspirational program is being arranged, including eight-seeing tours, trips thru the college farms, industrial plants and the state capitol. The Boys' State does not in any way take the place of any part of the school curriculum, but is a chance for the boys to put into practice some of the things they learn in the class room.

The political parties to be set up in Boys' State are purely mythical and will have no resemblance to the present political parties in the state.

Church Ball League Organized Monday

A meeting was held Monday evening at Kolb's hall to organize a Church Soft Ball League, sponsored by the Recreation Committee. Paul Schneider was chosen president and Bill Rademacher, secretary of the League.

The season for these four teams will open on Wednesday, June 21, at 6:30 o'clock, with St. Paul's opposing St. Mary on the west diamond, and Methodist vs. Congregational on the east diamond.

Each church will name two umpires for the games. The age limit has been set at 19 years. Players must be residents of Chelsea or vicinity. A player's name must be on a church roster by July 21 or he will not be eligible after that date. Only regulation soft ball and soft ball bats can be used.

A 10-game schedule was adopted, with a play-off series to take place the last two weeks of the season. All interested in taking part in these games should be at the ball park on Wednesday evening at 6 o'clock.

The public is invited and urged to attend these games and support the boys in this pleasant pastime. Some real good games were played by these teams last year and it is expected the teams will be in better shape for keen competition this year.

TRAVELING CLUB MEETS
Rev. and Mrs. Ray Barber attended the Traveling Club for ministers and wives at the home of Rev. Brubaker in Dexter on Monday evening. The feature of the supper was a strawberry shortcake twelve by twenty-four inches. The next meeting will be held with Rev. and Mrs. Skentlebury at Clinton.

Economy May Win In Spite of Special Pressure Groups

(By Gene Alleman)

Lansing—Despite the threat of educators to mobilize their efficient school pressure group if legislators comply with Gov. Dickinson's budget-balancing demands, there are increasing signs in evidence that old-fashioned economy, like virtue, may triumph after all.

Back home from a wearisome five-month session, law-makers have been appraising their legislative record. They also have been listening to comments of voters.

The official deficit for the next fiscal year, starting July 1, is estimated by Grover C. Dillman, budget director, to be \$9,000,000 to \$7,000,000. But taking a realistic view of welfare needs, for which the legislature set aside \$9,000,000 and which school workers forecast will require \$15,000,000 in state aid, the 1939-40 deficit may reach \$12,000,000 or more, according to Emerson Boyles, legal adviser to the governor.

Then, sharpen your pencil and add the accumulated deficit of the previous administration—\$25,000,000 to \$27,000,000 (estimate for June 30)—and you get an unvarnished picture of what's what.

Either the schools must take a cut along with others or the legislature will have to seek new sources of revenue in order to balance the budget.

New taxes would be just as repugnant to the present administration as failure to duplicate the fiscal success of former Governor Fitzgerald's first administration, especially with a national campaign looming next year with emphasis upon taxes and spending.

Fitzgerald's Promise
What is called an "ironclad promise" by the late Gov. Fitzgerald to grant public schools \$44,000,000 state aid a year is now being revived by the Michigan Education association in an effort to avert an appropriation cut.

Along with a pledge to slash state payrolls \$8,500,000 in six months, the late governor made a signed statement favoring an increase in school aid to \$44,000,000 in 1939-40 and more in 1940-41.

The payroll-reduction pledge never materialized, Fitzgerald conceding that he had stretched things a bit in taking in so much. In fact, the number of persons on the payroll early in June was only a few hundred less than (Continued on next page)

Bids To Be Received for US-12 Construction

According to an advertisement in this issue of The Standard, Murray D. Van Wagoner, State Highway Commissioner, will receive bids on Wednesday, June 21, for surfacing of 5.115 miles of road in Sylvan and Lima townships to complete the so-called Chelsea cut-off on the new US-12 highway.

Bids were to have been received and opened on May 24 but all proposals were ignored because of labor union objections to the wage scale which was established by the highway department. Consequently the wage scale was raised, giving skilled labor \$1.25 per hour, a raise of 12 1/2c; intermediate labor is the same at 75c; and unskilled labor is given an increase from 50c to 60c per hour.

The bids will be received until 10 a. m. next Wednesday, after which they will be publicly opened and read.

HONOR PAST OFFICERS

The O. E. S. held a Past Matrons' and Past Patrons' night on Wednesday of last week, with about 40 present. A tribute to Past Matrons and Past Patrons, also a memorial to those who have passed on was given by all of the officers of the lodge. Readings were given by Mrs. Edith Lowery of Manchester.

A special service celebrating the 46th anniversary of the founding of the local chapter of the O. E. S. was given by Mesdames A. L. Brock, Evelyn Smith and N. H. Schmidt.

A cooperative supper was served in the dining room, which was decorated with roses and pink tapers.

WOLFE-HIEBER WEDDING

The marriage of Miss Virginia Wolfe, daughter of Mr. and Mrs. J. Wolfe of Lodi township, and Walter Hieber, son of Mr. and Mrs. Edwin Hieber of Freedom township, took place Saturday afternoon at 4 o'clock at the home of the bride's parents, with Rev. W. Baumann officiating. The attendants were Miss Esther Wolfe, sister of the bride, and Leon Schaeble. A wedding supper followed the ceremony. On their return from a motor trip to New York City, Mr. and Mrs. Hieber will make their home with the groom's parents.

LAWN SOCIAL

St. John's Ladies' Aid of Franciscan will hold a lawn social on Friday, June 16, on the school house lawn at Franciscan. Home made ice cream, cake, hot dogs and coffee. Adv.

Windstorm Causes Damage In This Area

Chelsea and vicinity was visited by a severe windstorm shortly after nine o'clock on Saturday evening. Many trees were damaged, some were broken off, a few were uprooted and many large limbs were blown off. Extensive damage was done on West and East Middle streets, North street, McKinley, Elm and East streets, where the storm seemed to have centered.

Dr. A. A. Palmer's residence was considerably damaged. A large tree at the southeast corner of the house was broken off and in falling wrecked the porte-cochere, debris landing on his car which was parked in the drive. The wide cornice at the southeast corner of the house was damaged.

The roof on the Holmes residence was damaged slightly by a large limb that fell across the roof. The porch on the residence occupied by Dr. Quillen was damaged, and the residence of Claude Spiegelberg on Elm street was slightly damaged. Slight damage was done to many other houses by falling trees and limbs. Shingles and roofing were blown off from many homes and garages.

A large plate glass window was broken at the Chelsea Electric and Water Dept. A window in the second story of the store occupied by Hinderer Bros. was blown in, and a window at the Ashfall residence on Elm street was broken. Chimneys were damaged, and telephone and electric wires were blown down.

A large limb was blown down onto the Michigan Central tracks and a train was flagged down until the track was clear. Electric current was off for some time and in some parts of town until Sunday morning.

The top of a large touring car belonging to Floyd Boyce was wrecked when a branch fell on it, while parked in front of his house. A heavy downpour of rain accompanied the storm.

The village authorities had men at work Saturday night, clearing the streets so that traffic could be resumed. Undoubtedly the ice storm early in March weakened some of the trees which were damaged in Saturday night's storm.

Maintenance men will be busy for many days clearing away the debris from the storm and in some cases it will be necessary to cut down trees where the tops have been broken off.

Annual Banquet Held By Alumni Association

Covers were laid for 191 at the annual banquet of the Chelsea High School Alumni Association, held on Friday evening at the school gymnasium.

The hall was decorated to represent a Persian garden and the tables were centered with spring flowers, with favors of gum drop baskets wrapped in yellow cellophane. The banquet was served by the Ladies' Aid Society of the Methodist church.

Mrs. A. A. Palmer, president, presided at the business session, and the following officers were elected for 1940:

President—Chandler A. Rogers
Vice-President—Gerald Luick
Secretary—Mrs. Edw. Keusch
Treasurer—Paul E. Niehaus

Mrs. Palmer then introduced Andros Gulde, Jr., as toastmaster of the evening and the program follows:

Songs—"Sweet Mystery of Life"
"Sweetheart of Sigma Chi"
"Will You Remember?"—By the Girls' Trio
Janice Dancer, Eunice Hart, Joan Walworth.

Toast to Freshmen—Howard S. Holmes.
Response—Henrietta Beach.
Address—"Path to Glory"—Rev. Harvey Pearce.

Ritz orchestra of Ann Arbor furnished music for dancing.

SENIORS GO TO MACKINAC

The Seniors of Chelsea public school enjoyed their annual outing this week, leaving Sunday morning at 9:30 on a special bus for Mackinac Island. After a day of sight-seeing, they returned to Chelsea on Tuesday. Fifty-six members of the class made the trip, on which they were chaperoned by Misses Florence Nelson and Dorothy Hannigan, and Roy Wallis.

ODD FELLOWS DEFEATED

The Federal Screw Works soft ball team defeated the Odd Fellows in a game played last Thursday evening at the public school athletic field. The final score was 7 to 5. Armin Zinke was on the mound for the Screw Works team, with Gale Gilson catching. Jimmie Allen pitched for the Odd Fellows, with L. Conk catching. These teams plan to play a game each week.

Economy May Win In Spite of Special Pressure Groups

(Continued from page one)

the total at that time during the Murphy regime.

However, economy plans are brewing; watch for developments after July 1.

Whereas the schools received approximately \$41,000,000 last year under the Murphy administration, the proposed reduction in the face of Fitzgerald's pledge would cut the allocation to \$38,250,000.

Dr. Eugene B. Elliott, superintendent of public instruction, declared that \$50,000,000 annually was needed and suggested more taxes instead of less.

Speaker Howard Nugent's view was practical; "If we are going to give the schools more money, we must levy new taxes."

Influential Group

Most efficient and influential of all "pressure groups" which maintain lobbyists at Lansing is the Michigan Education association, of which A. J. Phillips is the executive secretary.

This is more of a compliment than a criticism, for the M. E. A., as it is generally known, is well organized in every county and has a record of getting things done that puts other state groups to shame.

A glimpse of its power was given a few days ago by H. Franklin Donner of Wayne county, president of the School Board Members and Superintendents of the M. E. A. Donner deplored the governor's statement that "the schools must take a cut too," declared that Dickinson was "incompetent and wholly unfit for the high position of governor," and warned legislators that the M. E. A. "will inform every school board member every teacher, every P. T. A. club and every maintenance employee in each district of the position taken by the individual members of the legislature."

In other words, legislators who uphold Gov. Dickinson's budget-balancing demand and vote to reduce school aid to \$38,250,000 will face a ballot reprisal in 1940 from the above mentioned persons. Donner's statement could leave no other interpretation. (School teachers are not going to accept a salary cut next year sitting down; they will stand up and fight.)

College, University

Confronted with an anticipated 11 per cent enrollment increase next fall, Michigan State college has just announced a 10 per cent reduction in its 1939-40 operating and maintenance budget.

President Robert S. Shaw said the

economy move was necessary due to the legislature's trimming of the college appropriation from \$2,646,000 received in 1937-38 to \$2,500,000 for 1938-39.

The University of Michigan's annual appropriation was lowered from \$4,673,263 to \$4,475,000. The House had wielded a heavy axe, but the Senate Finance committee was more generous, and the final result was a cut of \$198,000 as compared with the amount received by the university in 1937-38.

Plugging Tax Loopholes

An improvement of 25 per cent in collection of the sales tax on purchased automobiles has been effected, according to Orville E. Atwood, sales tax director, under a new law which requires automobile dealers to pay the tax at the time they transfer a title or buy license plates.

Under the statute the secretary of state is prohibited from issuing a certificate of title unless he has proof that the tax has been paid.

By plugging loopholes in the law, such as above, and by creating a department of finance for the collection of all state levies and taxes, the Michigan Tax Study commission estimated in recommendations released in January, 1939, that \$15,000,000 more annually could be added to the state treasury without imposition of a single new tax.

Collection responsibilities are now divided among 11 major departments and commissions and 15 examining and licensing boards.

Guarding Conservation

Among the legislative committees which did a commendable job in 1939 was Senator Miles Callaghan's conservation committee. Callaghan "went the limit" in defending the interests of sportsmen.

Among the threats which did not succeed were the following: Land bill to deprive the state conservation department of all control over tax-reverted land in northern cut-over counties.

Bill to increase bag limits and shooting seasons for numbers of private sportsmen clubs.

Bill to deprive the conservation department of authority to prosecute game and fish violators without approval of prosecuting attorneys.

Ben East, outdoors writer, enthused over Callaghan: "One of the best friends the sportsmen of Michigan ever had."

How to Make Friends

Illustrative of the way Murray "Pat" D. Van Wagoner, state highway commissioner, has of making friends is this true story:

Governor Luren D. Dickinson travels daily in a state police car between his country home in Eaton county,

near Charlotte, to the statehouse at Lansing. It so happens that M-50, a gravel trunkline road, is not in top good condition. A stray remark by the governor was relayed unofficially to Van Wagoner who investigated personally. Result: The state department will "black-top" the highway this summer.

Add it all together and you have another example of why Van Wagoner wooed and received Republican votes in the recent legislative session to defeat certain bills. "Pat" knows how to make friends.

Question And Answer Dept.

Problem—If you add 10 to 50, of course, you get 60. But if you take away 10 from 40 you will get 50. How come? (Answer elsewhere in this department.)

Ques.—In law what do the words "et al." mean? For instance John Jones vs. John Smith et al.—D. F.

Ans.—That is a Latin term for the words "and others."

Ques.—Was John Milton an American? When was he born, and when did he die?—R. W.

Ans.—John Milton, the poet, was an Englishman, born in London, England, Dec. 9, 1608, and died Nov. 8, 1674.

Ques.—When were Negroes first brought to North America as slaves? And what part of Africa were they brought from?—O. H.

Ans.—Negroes were first brought as slaves to North America in 1620. Queen Elizabeth, the reigning queen of England, legalized slavery and the slave traffic in both England and the colonies. After the Revolutionary War the United States prohibited any further slave traffic. Nearly all of the North American Negro slaves were taken from the African interior.

Ques.—Why was the New York state prison called "Sing Sing"?—B. J.

Ans.—This penal institution was called Sing Sing, after the name of the city in which it was located. The city, feeling this was not very complimentary, the name of the city was changed to "Ossining," which is the city's present name.

Ans. to problem: XL is forty. Take away the "X" and you get "L"—Fifty.

Ques.—How long is the Panama canal? How wide is it, and where does it begin and end?—D. T.

Ans.—The Panama canal is 47 miles long. The canal proper begins in the Bay of Limon, one mile northwest of the city of Colon, on the Atlantic side, and ends at Panama, on the Pacific coast. The channel of the canal has a mean width of 500 feet.

Ques.—I wish to ask you why a certain species of birds are called "Nutcrackers"?—T. S.

Ans.—The Nutcracker is a native bird of Asia, although now widely distributed throughout Europe. There are few, if any, in the Western Hemisphere. They were named "Nutcracker" because they feed principally on nuts, which they carry to some convenient crevice in a tree and hammer them with their beaks until the kernel is exposed.

Ques.—Can you answer what is the correct pronunciation of New Orleans?—V. C.

Ans.—New Orleans is correctly pronounced as though you spelled it "New Or-le-anz"—the last word having three syllables, and accented on the first.

Ques.—If the whale is not a fish, how do they keep warm in the Arctic sea?—S. A.

Ans.—There is a thick blanket of fat which completely surrounds the whale. This fat (called blubber) keeps out cold and heat, thus maintaining one temperature constantly.

Ques.—Could radio waves be sent through space to such a distance as Mars?—L. G.

Ans.—Scientists are agreed that this can be done, but we have no way of knowing whether the Martians have the equipment for picking up the messages.

Nature's Ventriloquist

Some observers have thought that the snake rattles to attract prey, for it is able to give it in either loud or subdued tones. When very low it resembles the noises made by some insects, such as grasshoppers, and might have the effect of attracting birds; other observers have stated that it has the effect of paralyzing its prey. It is evident that all wild creatures that hear the noise are frightened, but as the snake has remarkable ventriloquial powers it is sometimes very difficult for the attacked to tell from which direction the snake is approaching. The rattlesnake really lives on the reputation of its companions. In the tropical districts there are many other snakes far more poisonous, states a writer in London Tit-Bits Magazine.

Light From Sun Reaching Earth It is estimated that it requires 499 seconds for light from the sun to reach the earth.

WILLIAMSTON—With a total vote of only 111 the proposition to authorize the purchase of the "Crossman property" which adjoins the school property on two sides, was lost by a majority of eleven votes, at the special school election held at the high school last Friday evening. The board had sufficient funds on hand to make the purchase and an option on the property, but the voters turned down the authorization for the purchase.—Enterprise.

MASON—Production of Amphojel will be started next week in the new John Wyeth & Bro., Inc. plant in Mason. The John Wyeth plant occupies the west wing of the S. M. A. factory in Mason. The American Home Products company is the parent company for S. M. A., John Wyeth & Bro. Co., Kolynos toothpaste, Petrolagar and several other manufacturers of nationally and internationally known products. American Home Products purchased the S. M. A. factory and business a year ago. With remodeling of the S. M. A. factory for production of vitamin products and S. M. A., the west wing of the plant was made available for John Wyeth & Bro., Inc., which established a branch here.—County News.

GRASS LAKE—Although the 4th is nearly a month away bootleg fireworks are making themselves heard in Grass Lake and as a result officials assert that the practice of firing the noise-makers must be stopped or arrests will follow. The "crackers" are being purchased in Ohio and brought to the village.—News.

HOWELL—An incident of historical importance took place on the battlefield of Gettysburg last Tuesday, Memorial Day. The Gettysburg Memorial Association for the first time since its organization, chose a southern Senator to make the Memorial address, to which it was an interested listener. Senator Harry F. Byrd of Virginia delivered over a nation-wide radio hook-up, a very able and patriotic address, which was received by the many thousands present with patriotic interest and enthusiasm.—County Press.

A full-cut round diamond has 58 facets, inclusive of the culet, the top and bottom of the stones. Single-cut diamonds have only 18 facets.

Causes of Will-o'-the-Wisp Ignis fatuus is the name applied to the pale flame, also called will-o'-the-wisp and jack-o'-lantern, sometimes seen flickering over marshy ground and, it is said, over churchyards. No entirely satisfactory explanation of the phenomenon has been advanced, but it is generally believed that the effect is due to the spontaneous ignition of gases (especially methane or marsh gas, CH₄) produced by the disintegration of dead plant and, possibly, animal matter.

Tall Tales

As told to FRANK E. HAGAN and ELMO SCOTT WATSON

"Relatively Speaking"—GORDON C. LYNCH of Wilmette, Ill., is a gentleman farmer forced by economic conditions into the path of self-preservation.

"When I started production of superior eggs west of Waukegan, Ill., says Lynch, 'my setup consisted of 237 laying hens; but within eight days the establishment increased by exactly nineteen of my own and my wife's relatives."

These volunteer devotees of drumsticks and white meat made serious inroads on my supply of hens. Something must be done."

"At great trouble and expense I obtained two flamingos and three swans which I permitted to intermingle with some chickens in a special pen. Soon we began to hatch a peculiar species of fowl, featuring a neck which stretched from one room's end to another. One neck, indifferently cooked and laid out on a special table, provided food for all my visiting relatives. Two of them pretty near satisfied the kinfolk of Mrs. Lynch."

"Our food problem was solved but other hazards arose. Relatives continued in such numbers I was afraid the laying hens would become excited. The relatives were jolly, carefree, distinctly informal. So I added a penguin to the special pen and his correct, black-and-white attire soon contributed a quite formal flavor to the necks which discouraged guests. Relatively speaking, we are now free of all problems."

Safetygrams
Obey traffic laws. Co-operate with traffic officers. Traffic regulations often seem burdensome, but remember, their main purpose is to save lives and prevent injuries.

It is so easy to criticize the traffic officer and try to make fun of him. It is so easy to criticize the law enforcement agencies as well as the civic bodies which created the ordinances that regulate our driving. All these restrictions were put into law because we, as automobile drivers, could not regulate ourselves. We violated all principles of decency and courtesy; therefore, it became necessary for the states, the counties, the cities and the villages to pass laws and force us to observe certain regulations.

Now that we have these requirements let us obey them and thereby prevent accidents. Safe driving to day demands obedience and co-operation.

It's Smart to Drive Carefully.

M. S. C. Graduates Win Scores of Jobs

Jobs hard to find? Perhaps the 837 men and women graduating at Michigan State College this spring are unusually enterprising, yet it is a satisfaction to college authorities that one survey by division deans and another by students indicates at least half of the seniors are leaving the campus with jobs and positions.

Veterinary science as in 1938 reports its 35 veterinary graduates and 12 medical biology graduates all are leaving with assured employment.

In agriculture, reports Dean E. L. Anthony all but one-third have obtained positions or are returning to home farms, while forestry graduates have found about 50 per cent employment. Those who have studied in vocational agriculture have found nearly 100 per cent placement in teaching positions and women majoring in home economics education were equally successful.

One less than half of the 96 graduates in the chemical, civil, electrical and mechanical engineering departments have obtained employment or have excellent prospects, reports Dean H. B. Dicks.

In the comparatively small department of entomology, four of the six majors are placed, one is physically disabled and the other is returning to his home farm. In animal husbandry, of 36 graduates, 28 were placed before graduation.

When students earlier in the term interviewed 250 typical graduating seniors, it was found that 42 per cent of the men were certain of employment, four-fifths of them in fields in which they specialized, and 34 per cent of the women had obtained employment, practically 100 per cent within the field of their major studies.

Six Rules Given To Insure Healthy Chicks

When chicks come out of the brooder house they enter the most critical period when their treatment determines whether they will be profitable to the flock operator in the fall and winter laying seasons.

Farm work may be pressing, admits J. M. Moore, poultry specialist at Michigan State College, yet he believes attention to six major points will pay dividends this summer.

One involves feeding. Chicks should be given credit for high intelligence. With free access to a suitable growing mash and scratch grain the growing birds will balance their own diets. As they grow older they will eat more grain and less mash, allowing them to develop before the protein in the feed excites egg production.

Clean fresh water is pointer two suggested by Moore. A green succulent range matched with mash, grain and water take care of feeding.

Four health pointers suggested by Moore include vaccination if any fowl pox has been present in the flock or in neighboring flocks. Another suggestion for health is to move water fountains and feed hoppers frequently. Some poultrymen put these supplies on wire stands to help prevent infection.

Pullets ought to be reared away from the present laying flock and their range should not have had poultry in the past two or three years.

Sixth pointer is to avoid crowding. July and August are critical months in housing, for the pullets are growing and need more room at night. An outdoor summer shelter for roosting, Moore says, can be constructed with materials costing about \$20 and sizeable for 100 to 125 pullets. Lice and mite treatment on perches may be necessary if these pests show up.

Farmers Asked To Keep Tractors Off Black Top

Lansing—State Highway Commissioner Murray D. Van Wagoner appealed to Michigan farmers this week for assistance in preventing damage to black top roads.

The commissioner pointed out that field engineers had reported extensive damage to black top roads by farm tractors with lugs on their wheels. He said that the damage was becoming a serious problem because of large additional mileage of black top roads on the state highway system as a result of improvement programs on farm-to-market and secondary roads.

"The law prohibits the operation of tractors with lugs on highways of the state," the commissioner said. "Black top roads are most affected by this practice and farmers can do much to preserve these roads by cooperating in the observance of this law."

The law provides for a penalty of \$100 fine or a jail sentence or both for violations. The commissioner suggested that farmers should either remove lugs or place planks on the road surface when it is necessary for them to move their tractors over the highways.

Color Discovery Accidental

Many components of paint were discovered entirely by accident. The walls of a soda furnace first revealed a deposit from which ultramarine was perfected. A German chemist, named Diesbach, stumbled onto the art of making prussian blue by accidentally mixing some alkali—that had been previously used to clarify ox blood—with a chemical solution. American zinc came of accidentally employing Franklinton instead of sand in a smelting furnace—French process zinc was discovered in the dross or skimmings from galvanizing baths.

Habits of Minks

The male mink is a polygamist, often having as many as a dozen wives. He may weigh as much as two and three-fourths pounds, while females may tip the scales at about one and one-fourth to two pounds. They vary in length from 18 to 26 inches from tip of nose to tip of tail. The young are about the size of a cigarette when born—hairless and blind. At four and one-half weeks they open their eyes, and at eight weeks are almost as big as mother.

Procrastination

"Procrastination is the thief of time," said Uncle Eben. "But then de time of people dat procrastinate ain't very valuable nohow."

'Man in the Iron Mask'

The island of Ste. Marguerite, near Cannes on the French Riviera, attracts many visitors. Here it was that during the reign of Louis XIV, in a rockbound monastery, rising out of the sea, one of the strangest mysteries of French history was lived out for 40 years by the "Man in the Iron Mask," whose tragic identity is unknown. Treated with royal honor, insofar as his physical care was concerned, his face hidden behind a fitted iron mask that was never lifted, this unknown man kept his lonely vigil of the sea until at last death set him free. Historians have never found the answer. Some have surmised that he was twin brother to the king . . . that he was Fouquet . . . that he was a royal betrayer . . . that it was a self-imposed penance . . . But, no one knows. And mystery lovers go to Ste. Marguerite to wander through the apartments of the strange figure and ponder on his fate.

Racing Bird From Belgium

The racing homer pigeons originated in Belgium between 1800 and 1850. As in making other breeds and varieties of stock and poultry, says a writer in the Rural New Yorker, crossing was done, but there has been no crossing since 1850. English-carrier blood was used somewhat, but so was tumbler, la crevet francs, flat nose le carthus and others. The earlier crosses were not as good nor did they breed as true as the best strains of the racing homer, but they had to play their part in building a great breed. Crossing now would only pull them down to a former level or undo it all.

Secret Sorrows

Believe me, every man has his secret sorrows, which the world knows not; and oftentimes we call a man cold when he is only sad.—Longfellow.

Largest North American Bird

The California condor, which is found almost exclusively in that state, is the largest bird in North America. It varies in length from 44 to 55 inches and has a wing spread of 8 1/2 to 11 feet. The familiar humming bird is the smallest North American bird.

Children In Court
By Judge Malcolm Hatfield

A Boy and His Dog

The child who steals a dog is to be more pitied than condemned. One small boy was brought into court for constantly stealing valuable dogs and hiding them in the garage at home. The child was attracted to all kinds of pets and simply could not resist appropriating any he found in the street. More serious consequences were averted when the judge advised the mother that it was necessary to give the boy a pet.

Few parents realize the cravings the average child has for something alive to love and to call his own. Caring for a pet under parental guidance instills kindness, unselfishness and a sense of responsibility in practically any girl or boy. No boy is completely happy without a faithful dog as a friend and companion. The two are inseparable.

Few People Can Identify Old Musical Instruments

While many of us are familiar with the small, delicate and aristocratic musical instruments in glass cases in museums, few of us can properly classify or name them, writes Alice R. Rollins in the Los Angeles Times. But we are not alone in this, as one writer points out, for the same thing was pretty much done in the days when these instruments were in familiar use. An early writer describes a clavichord when he means a spinet and Pepys mentions "a pair of virginals" but his description is that of a harpsichord.

The harpsichord is a glorified spinet. It may be easily recognized, being like a harp couchant. The spinet is smaller and wing-shaped, with no stops or pedals and only one keyboard. In England instruments of this kind were generally known as virginals "because maids and virgins do most commonly play upon them." After the time of Queen Anne they were known as spinets.

The harpsichord has two banks of keys. The tone is produced by the plucking of the strings by quills or leather points. These produce a reed-like quality of tone which it is said blends better with the voice, violin and cello than the piano tone.

The harpsichord remained the instrument of the great composers until about 1790, when it was replaced by the pianoforte. By 1800 the manufacture of harpsichords had practically ceased. The latest-dated instrument is given as 1802.

Japan's Sacred Mirror

The most sacred spot in Japan is at Ise, in Mie prefecture. For there lies, enshrined in a simple building of wood, the Sacred Mirror, and with it is enshrined the soul of the Japanese. This is the legend. When Amaterasu Omikami, the sun goddess and divine progenitor of the imperial family that has reigned "unbroken for ages eternal," dispatched her heavenly grandson from the plain of High Heaven to subdue and rule over Japan, she handed him three symbols, and one of these was the Sacred Mirror. She charged him that when he looked into it he would be looking into her very soul. This mirror and the other two symbols—a sword and a necklace of carved jewels—are the imperial regalia. To the Japanese they are tangible proof of the divine descent of the reigning house.

COOKING DEMONSTRATION AT KROGER'S THIS WEEK

The free waterless cooking demonstration being conducted at Kroger's is attracting much attention from housekeepers, all of whom are sensing an unusual opportunity to acquire expert, practical information on cookery and the ways to cut fuel costs, and, at the same time, retain the food value and the flavor of the various foods prepared.

Irwin Nothnagel, manager of Kroger's, is extending a cordial invitation to the housekeepers to visit the store and take advantage of the opportunity offered them in learning to cook the waterless way.

Miss C. Kolack, food expert, is conducting these interesting and instructive demonstrations and one of the pleasing features of the school is its informality, for the daily demonstrations are given, not in accordance to any set form, but in a manner more like a neighborly gathering. The demonstration will continue through Saturday.

Three from this school district were among the Grass Lake graduates. They joined their class in a boat trip to Mackinac Island, Sunday, returning Tuesday.

The high wind Saturday evening tipped one of Albert Walz' poultry houses upside down, killing 25 broilers. The roof was blown completely off the other poultry houses. Sunday afternoon about 25 men managed to right the first poultry house, which was not badly damaged. Several trees in this vicinity were uprooted and electric current was interrupted several hours.

Electricity Eases Spasm

Use of high-frequency waves, passed in a probe down the throat to the opening of the stomach to relieve spasm of that point, was recently described.

Mr. and Mrs. Kenneth Proctor attended the commencement exercises at Manchester last Thursday evening. Mr. and Mrs. Lawrence Porath of Grass Lake are the parents of a son, Harold Duane, born Monday, June 12 at South Side hospital.

Mr. and Mrs. Floyd Rietzhammer and son and Mr. and Mrs. Lyle Walls and family of Waterloo were guests at the home of Mr. and Mrs. Ed. Scripser on Sunday.

Mrs. Myrtle Hartford and Mrs. O. Williams of Plymouth and Mr. and Mrs. Fred Thuer and daughter Phyllis of Wayne were guests of Mrs. Mary Huston on Saturday.

Mr. and Mrs. Norman Grimwade and family were in Manchester on Sunday to attend a board meeting of Red & White dealers at the home of Mr. and Mrs. Walter Luckhardt.

John Chandler Thierman, son of Mr. and Mrs. Henry Thierman of Columbus, O. was a member of the Class of 1939 of Ohio State University, and their daughter, Barbara Louise Thierman, graduated from Columbus high school. They are grandchildren of Edward Chandler of Chelsea.

CLOSE YEAR'S ACTIVITIES

The Tachez club closed their year's activities with a theater and dinner party. Fourteen members motored to Ann Arbor on Monday to attend the movie "Wuthering Heights" and later had dinner.

TELLS ABOUT SUGAR INDUSTRY

Glenn R. Larke of Saginaw, editor of the Sugar Beet Journal, representing the Farmers' and Manufacturers' Beet Sugar Association, addressed the Kiwanis club on Monday evening. Mr. Larke gave an interesting account of the origin of the sugar industry and presented facts and figures concerning the Michigan sugar industry at the present time. He stated that 17,000 farmers in the state raised 140,000 acres of sugar beets last year for which they received more than \$9,000,000, which represents a very good cash crop, compared to many other products of the farm. Mr. Larke urged that everyone make it a point to always buy Michigan beet sugar, thereby providing additional jobs in the refining of sugar as well as in the growing of beets.

Road Commission Tests Dust-Laying Materials

The Washtenaw County Road Commission on June 9 established some test sections for dust-laying materials on the 6 1/2 miles of county gravel road between Dexter and Chelsea.

The purpose of the test sections is to observe the relative effectiveness and lasting qualities of calcium-magnesium chloride in liquid form and the same chemical in flake form, as well as straight calcium chloride in flake form.

Use of liquid chloride as a dust-layer and in stabilizing gravel roads has previously been confined to the regions close to its production, which are largely in the central part of the Lower Peninsula. Recently, however, it has received favorable acceptance by state, county and city officials over a larger area of the state.

The use of chloride in liquid form affords a substantial saving, as compared with flake, and offers the further advantage of being effective immediately upon application to the road. The Washtenaw County Road Commission will make a thorough investigation of this new material with a view to determining its merit and economy for future work on the county road system.

NOTICE TO WHEAT GROWERS

The Washtenaw County Agricultural Conservation Committee in cooperation with the community committees from the various townships, have nearly completed the new listing sheets for 1940 wheat allotments, according to Harry H. Cole, secretary of the county association.

Individual wheat allotments will be mailed to Washtenaw county farmers in the near future.

Any person desiring an allotment for a farm on which there was no wheat for harvest in 1937, 1938 or 1939 should immediately submit a written request to the county committee for a 1940 wheat allotment.

HOST TO MINISTERS

Ministers of the Ann Arbor District of Evangelical churches, and their wives were entertained on Tuesday as guests of Rev. P. H. Grabowski. Dinner was served at one o'clock at Kolb's hall, after which the company went to St. Paul's parsonage for a business meeting and social time. Those attending were Rev. and Mrs. S. Von Rague of Manchester, Rev. and Mrs. J. Fontana and daughter Hildegard of Rogers Corners, Rev. and Mrs. Walter Baumann and children of Freedom, Rev. and Mrs. S. Breitenbach of Saline, Rev. and Mrs. Theo. Schmale and Mrs. F. Mayer of Ann Arbor, Rev. and Mrs. A. A. Schoen of Dexter and Miss E. Kuelner of Pomeroy, Ohio.

SCHNEIDER REUNION

The annual Schneider reunion was held on Sunday, June 11 at the home of Frank Grieb, Lima township. Potluck dinner was served at noon. One hundred and thirty-five were present. Games and contests furnished the entertainment. The oldest man present was Christian Ehms of Ann Arbor, and the oldest woman present was Mrs. Barbara Schneider of Solo township, the youngest present was the son of Mr. and Mrs. Alvin Foney. The following officers were elected: Herman Koehler of Saline township, as president, and Benjamin Schneider of Lodi township, as secretary and treasurer. Miss Elizabeth Feuerbacher of Saline and Mrs. Ernest Ward and Pauline Guenther were chosen for the entertainment committee.

The next reunion will be held the second Sunday in June, 1940, at the home of Herman Koehler.

ATTEND CONFERENCE

Rev. Ray Barber of Chelsea and Rev. Herbert Brubaker of Dexter and North Lake were delegates from the Washtenaw County Council of Churches and Christian Education to the State Council conference at Camp Copconic on Friday and Saturday of last week. This camp belongs to the Flint Y. M. C. A. and is located ten miles south of that city.

ENTERTAIN FOR DAUGHTERS

Following the commencement exercises on Thursday evening, Mrs. Darwin Downer and Mrs. Gottlieb Bollinger were co-hostesses at a family party given at the home of the former in honor of their daughters, Marian Downer and Rose Mary Bollinger, who are members of the class of 1939. About fifty relatives were present and refreshments were served.

CAR OVERTURNS

Carl Craft, Breeze Carpenter, Pierce Carpenter and Willard Marshall escaped serious injury Sunday night when the car in which they were going north on South Main St. struck the large stone in front of the Adam Alber residence and the machine was overturned. Craft was driving. The men left the scene after the accident occurred and the car was taken to Hart's garage.

FARM UNION HOLDS PICNIC

The Farm Union picnic of Local 254, Sylvan and Lima, held at the American Legion hall Sunday, June 11, was a very great success and those who turned out in spite of the weather were well repaid. Rev. Lenz of Francisco and the State President gave two very enlightening speeches. Music was furnished by Eric Notten, Phil Fauser and Gib Main. The group sang "America."

GIVES FAREWELL PARTY

Mrs. James J. Munro was hostess Thursday evening at a farewell party honoring Mrs. Jack Morea, previous to her departure for her new home in Leslie. Out of town guests were Messrs. John Brown, George Beyers, Aubrey Whitfield and C. Chamberlain of Ann Arbor and Mrs. Howard Buhl of Jackson. Bridge furnished entertainment, Mrs. Paul Elsie holding high score and Mrs. Brown, second. A gift was presented Mrs. Morea. A two-course lunch was served.

MRS. MARY A. LEHMAN

Mrs. Mary A. Lehman, 79 years old, widow of the late Michael J. Lehman, prominent attorney, died Saturday night, after a brief illness, at the home of her son, Christian H. Lehman, in Detroit, where she was spending a few weeks. Her home was at 119 Grand View Ave., Ann Arbor. She had resided in that city since moving from Chelsea in 1899.

Mrs. Lehman was born in Waterloo township March 26, 1860, and was the daughter of John G. and Dorothea Schumacher. She was married to Mr. Lehman in 1881, and he died in 1912. Besides the son, Christian, Mrs. Lehman is survived by ten grandchildren and three sisters, Misses Minnie and Anna Schumacher and Mrs. Louis H. Morehouse, all of Detroit.

Mr. and Mrs. John Oesterle and Mrs. Conrad Lehman of Chelsea attended the funeral services which were held Tuesday afternoon at Muehligh funeral chapel, Ann Arbor, with Rev. Theodore R. Schmale officiating. Burial was in Bethlehem cemetery.

COMMENCING NEXT WEEK

Methodist Home

On Tuesday of last week Mrs. Geo. M. Hadley, Mrs. J. F. Spring, Mrs. Sard Burlingham and Miss Maude Burlingham, all from Pontiac spent the day with Miss Harris and shared with her one of the celebrated Pontiac dinners. Mrs. Spring and Mrs. Burlingham also called on Mrs. Pool. Miss Harris' Sunday callers were her sister-in-law and nephew, Mrs. C. A. Harris and son Jack, both from Pontiac.

On Wednesday, Mr. Palmateer's dinner guests were his sister and her husband, Mr. and Mrs. Thomas Colwell of Cass City, and his niece, Mrs. John Baslock of Ann Arbor.

Mrs. Macauley returned on Thursday from spending about three weeks with friends and relatives in Highland Park, Roseville, Detroit and Royal Oak.

Mrs. Bliss returned on Tuesday from an absence of two months. Her itinerary included Port Huron, Washington, Davis, Flint, Bay City, and all manner of good times.

On Thursday Miss Johanna Baur of Cincinnati, with two relatives and Mrs. Wuerfel from Ann Arbor, called on Mrs. Nienoth.

Mrs. Randall's Sunday callers were her daughter, Miss Marian Randall of Ann Arbor, and her nephew and his wife, Mr. and Mrs. F. Arnet of Milan.

Last Thursday was the annual Home Visitation Day, when the Board of Trustees and Managers and their wives and friends come to see how happy we are here and what can be done to make us happier. Between fifty and sixty guests were in attendance at the meeting and greatly enjoyed the delectable lunch and very interesting program. As an added touch of interest for this meeting the members of the Home family arranged a display of antiques, curios and needle work which was an immense success. Much of the needle work was pronounced marvelous by the visiting ladies and called worthy to be exhibited anywhere in the land. Many of the curios were relics varying in age from 100 to 135 years, and one silver spoon was on display which dated from the year 1775. For the past five years Rev. Marshall Reed has been the faithful and exceedingly efficient president of the Home Board, but now the increased pressure of work in his own church has made it necessary for him to resign from the position and Rev. Benjamin F. Holme, pastor of the West Lawn church in Detroit was elected as the new president.

On Thursday Mrs. Hempstead was visited by Mrs. J. I. Bisbing, Mrs. Ross-Poertt and Mrs. A. C. Smith, all of Flint, and Miss Catherine McCoy of Shanghai, China. Mrs. Hemp-

stead's Sunday callers were Mr. and Mrs. J. A. Scurrah and little daughter Ardis from Ferndale.

Mrs. Sopp's Sunday callers were Mr. and Mrs. Floyd Rickett, with their mother, Mrs. Mary E. Rickett, and sister, Miss Marian Rickett, all from Howell. Mr. Rickett also called on Mr. Henry and Mr. Drake.

On Monday afternoon of this week Mr. and Mrs. Branch, who are staying at present at Moon Lake, called on their grandaunt, Mrs. Turnbull.

On Sunday afternoon, Mr. and Mrs. Lucian Owen and son Thomas from Milford called on their aunt, Miss Gage. Mr. and Mrs. Owen also called on Mrs. Rappleye.

Miss Switzer returned on Saturday from spending about two weeks with friends in Ypsilanti.

Saturday evening we were visited by a wind and electrical storm which did great damage to our Home. One

of our large chimneys was thrown down and broke through the tile roof, knocking off plaster in several rooms and letting the rain pour through unchecked. Large limbs were torn from many trees, much shrubbery was ruined, and several fruit trees in the orchard were ruined. But we are thankful there was no endangering of persons or loss of life. One bee-hive was turned upside down, but so far as we know the bees accepted the situation gracefully.

Miss Ostrander was happily surprised on Monday of this week by a call from her brother, C. E. Ostrander of Marshall.

Mrs. S. McNeal of Oakland, Calif. has been a guest at the home of Mr. and Mrs. Martin Merkel.

ONLY SLOW-MOVING THING ABOUT OLDS!

RECORDS SHOW THAT OLDSMOBILE IS ONE OF THE EASIEST CARS ON GAS!

How's your gas mileage? Does the needle on your gauge seem to hurry from "Full" to "Empty"? If it does, you're out to own an Olds. For here's one car that steps right out—gives you pick-up, pep and brilliant action, without penalizing your pocketbook. Olds is an economical car to drive, in every way. You pay a low price to begin with—you get good value when you trade it in. It saves you money every mile on gas and oil—saves on tires and maintenance, too. You can check these facts by talking with Oldsmobile owners. Or you can look at the record—Olds took first place in its class in 1939 in the famous Gilmore-Yosemite Economy Run, averaging 21.4 miles per gallon. Olds is a big car, a luxury car—built to quality standards through and through. Come in and see us today. Drive an Olds. You'll be amazed at the value a low price buys in Olds!

YOU'LL GET A BETTER DEAL FROM OLDSMOBILE!

The car you are driving will never be worth a dollar more than it is today. Why not trade it in while you can get top value, and enjoy all the advantages of a brand new Oldsmobile during the summer season? Come in and we will gladly make an appraisal without obligation on your part.

The SNAPSHOT GUILD

SOFTER SHADOWS

Baby's blanket on the lawn is a fine reflector. Note the soft, pleasing light effect it produces here. Use such a reflector when you can, especially when taking informal portraits.

If we compare a picture of a snow scene with almost any summer picture, we observe a marked difference in the shadows. In the summer picture, shadows tend to be strong and black. In the winter picture, shadows possess beautiful clearness and transparency, and the effect tends to be quite pleasing.

The reason for this difference is that snow on the ground is a fine reflector, which casts light into all shadow areas, and brightens them. In summer, green grass does not have this same reflecting power, and therefore, shadows are darker.

However, even in summer we can brighten the shadows of a subject if we use some sort of improvised reflector. A book or newspaper held in a person's lap will often serve as such a reflector, helping illuminate the face and soften shadows there. If a subject is placed near a wall of a white house, and stands so that the wall reflects light to the shadow side of his face, a more pleasing picture may be obtained. The baby's blanket

What Is Abroad in the World Today?

"Open the door, let in the air. The winds are sweet, and the flowers are fair. Joy is abroad in the world today, if your door is wide open it will come your way. Open the door."

THIS stanza was memorized by the writer when a child. At that time it made an appeal largely because of its pretty picture and happy rhyme. Many years later it came back to thought with a deeper significance, which led to the contemplation of spiritual joy.

The door to our mental home is our receptiveness to whatever comes knocking for admission. To what are we opening our door? Are we definitely closing it against the intrusion of fear, distrust, despair, ill-health, poverty? Do we welcome in the good we wish to see objectified in our experience?

If we are alert, and listening to Truth, we shall become aware of the spiritual joy, trust, healthy thoughts, assurance of peace and happiness which are awaiting only our receptiveness to come in and abide with us.

In the Christian Science textbook, "Science and Health with Key to the Scriptures," Mary Baker Eddy gives us this counsel, which, when obeyed, is far reaching in its effects and influence (p. 392): "Stand porter at the door of thought. Admitting only such conclusions as you wish realized in bodily results, you will control yourself harmoniously."

Today mankind, finding itself in a condition of great economic complications, is asking, "Is there a way out?" Fear of lack of individual and national security is knocking loudly for entrance into human consciousness. Are we to stand by helplessly feeling that there is no answer available, or that the answer is dependent upon those in authority who may or may not be guided wisely? Definitely, no!

There is an answer, a solution, to the individual and world problems of today. We read (ibid., p. 299), "It is our ignorance of God, the divine Principle, which produces apparent discord, and the right understanding of Him restores harmony." How simple, yet how profound, is the answer—"the right understanding of Him!" In His great love, God has endowed each one of His children with the ability to understand His Father-Mother-God.

This understanding of God, and of man in His likeness, displaces all that is imperfect, unlovely, sinful, sick, or sorrowing.

Divine ever-operative Principle, when understood and applied in our human experience, establishes the true concept of brotherly love, and a corresponding desire to reflect Love. Thus, as understanding is gained, wars will cease, and so in due course whatever is wrong will be annihilated, and nothing discordant will remain.

The only real, true government of man is by God's law of harmony. And the understanding of God's law precedes obedience to that law. When we shall have fully awakened to the glorious privilege of submission to the guidance of unerring, infinite divine Mind, then shall we experience the reign of everlasting Life, Truth, and Love. We need not wait one hour to begin the joyous task of helping to bring about the kingdom of heaven on earth. What we harbor in thought decides whether or not the pathway we are treading is leading us upward and onward into God's kingdom. The radiance of thought which is in accord with divine Love not only illumines our own journey but helps to brighten the pathway for others. As the light of a tiny candle displaces some darkness, so does the least reflection of the light of Truth in our consciousness dispel some error; and gradually but surely shall all humanity come to the recognition of universal good, glorious and triumphant.

May we then open wide the door of our thought to let in light, peace,

freedom, dominion, power, and the spiritual joy that are more and more appearing in the world today. Then shall be brought to pass the promise given by the prophet Jeremiah (Jeremiah 31:34), "And they shall teach no more every man his neighbor, and every man his brother, saying, Know the Lord: for they shall all know me, from the least of them unto the greatest of them, saith the Lord."—The Christian Science Monitor.

First Steamboat on Mississippi
Nicholas J. Roosevelt built the steamer New Orleans at Pittsburgh in 1811, under an arrangement with Robert Fulton and according to Fulton's plans. This was undoubtedly the first steamboat to navigate the Mississippi. The New Orleans was of about 200 tons burden and was propelled by a stern wheel, assisted, when the wind was favorable, by sails carried on two masts. The boat was 138 feet long, 30 feet beam and its cost, including the engine, was about \$40,000. The builder, with his family, an engineer, a pilot and six hands, left Pittsburgh in October, 1811, and reached Louisville in 70 hours and New Orleans in 14 days. The New Orleans could steam along at ten miles an hour, and created a sensation at every landing it passed.

Farmers Dialike Weasel, Common Chicken Killers

The weasel may well be called the "Dr. Jekyll and Mr. Hyde" among the furbearers, declares a writer in the Chicago Tribune. It has earned the enmity of farmers because of its habit of raiding chicken houses and doing great damage. But Mr. Weasel is a good friend of the farmer so long as he stays in the fields and depends upon field mice for most of his food. By disposing of mice he is helping to eliminate a farm nuisance which destroys thousands of dollars worth of small grains and other farm products each year.

The weasel is the smallest carnivorous animal in most sections of the country, but when it goes through a farmer's chicken house its size is forgotten. This blood-thirsty little animal will kill chickens and other poultry just for the love of killing.

Despite the fact that weasels may kill poultry occasionally they do not make such raids as often as do mink and skunks. The weasel seems to prefer a free life in the woods to the dangerous feasts on domestic fowls. When roaming through woods and fields it destroys great numbers of meadow mice, sometimes ranked as the No. 1 animal pest on the average farm.

Where Do Flags Come From? Uncle Sam Stitches His Own

THE stars and stripes that fly from Army outposts and buildings everywhere on Flag Day, June 14, are all manufactured by the United States Army Quartermaster Corps in Philadelphia, Pa. All bunting, regimental colors and standards are manufactured there. Right: Two seamstresses cut out the stars for official bunting flags to be sent to Army posts.

Next step in the manufacturing is the joining together of the stripes. After the 13 stripes have been gathered, it is sent to a second department, where the stars are sewed on. This completes the manufacturing process. Finished flags are then sent to be inspected and packed.

Each flag undergoes rigid examination by an experienced inspector. Some of the colors are valued up to \$500, and should there be any fault the flag is returned to the sewing room. Inspection passed, it is sent to its final destination, the United States Army.

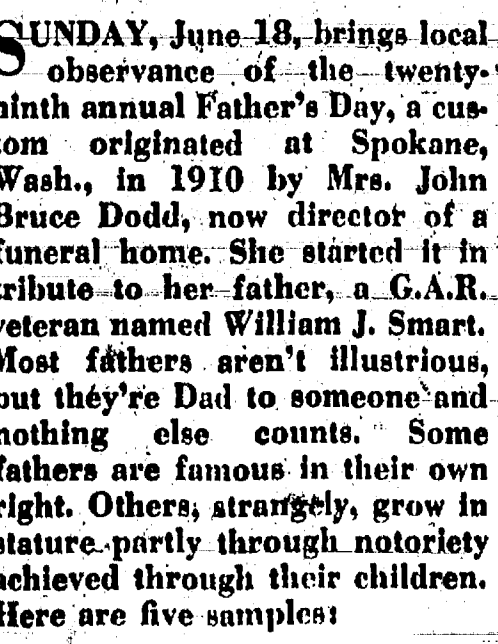

FATHER'S DAY Speaking of Dads, Here's a Choice Group: Their Children Helped Make Them Famous

"I don't care much for Bankhead but I'd like to meet Tallulah." So ran the song from "I'd Rather Be Right." William Bankhead is speaker of the House. Daughter Tallulah is a famous stage actress.

Umpire Emmett "Red" Ormsby of the American league knows his strikes and fouls but must sometimes think twice to remember his children's names. Good reason—they're 12 strong, ranging from 2 to 16 years.

Eighty-five-year-old Henry Morgenthau was famous years ago as ambassador to Turkey and an international peace worker. Son Henry, now secretary of the treasury, keeps Henry Sr.'s name in the limelight.

Magnetic Compass
Deviation of a magnetic compass on shipboard is caused by the magnetism which is built into a ship by hammering during construction, the character of the ship's cargo, the effect of the earth's magnetic field on the soft iron of the ship, change in temperature of the ship's magnetic material, change in the trim of the ship, the course, or even a lapse of time.

Seychelle Islands Far Off Mail Steamers' Path

In the Indian ocean, 900 miles east of the coast of Africa, lie the Seychelle islands, so far out of the beaten track that the mail steamer seldom calls. There are 60 islands in this remote group, relates a correspondent in the Cleveland Plain Dealer, and although they were not discovered until the sixteenth century they seem to enjoy many of the amenities of modern civilization. They are believed to be the remains of an ancient continent that once stretched from India across to Africa.

Vanilla grows wild. On all sides may be found breadfruit, mangoes, cashew nuts and trees producing pepper beans, cloves, nutmegs and cinnamon.

The planters are light Creoles, descendants of French colonials from Mauritius, far to the south of the Seychelles. The islands are British, but the language is French. The Negroes are descendants of slaves rescued by British cruisers putting down the slave trade on the African coast.

The Negro women wear immaculate white garments, with petticoats starched as stiff as boards. As they walk along with a swinging gait they make a noise like the rustle of silk. These women carry all burdens on their heads.

A harmless species of spider weaves a tough, silky web, strong enough to hold small birds. The thread of this web is sent to Madagascar, where it is woven into a strong, thick, silky cloth.

The elephant tortoise is found in the Seychelles. Its only other known habitat is in the Galapagos islands, off the west coast of South America. Everywhere the villas are embowered in bougainvillea, begonia, and hibiscus blossoms. It is a veritable paradise for the botanist and entomologist.

Backward Natives
Although the white colonization of Australia began in 1788, the majority of its aborigines still do not know how to cultivate land, make clothes or build a shelter other than a windbreak. These people have always been looked upon as little more than animals. In fact, up to 40 years ago, a settler merely required a permit to "shoot, poison or otherwise kill" them at will.—Collier's.

STATE OF MICHIGAN

In the Circuit Court for the County of Washtenaw.

Federal Deposit Insurance Corporation, a corporation existing under and by virtue of an act of Congress, Plaintiff.

vs.

Earl W. Martin and Julia C. Martin, Defendants.

Notice of Execution Sale

Notice is hereby given, that by virtue of an Alias Writ of Fieri Facias issued out of the Circuit Court for the County of Washtenaw in favor of Federal Deposit Insurance Corporation against the goods, chattels, lands and tenements of the defendants, Earl W. Martin and Julia C. Martin, in said County, to me directed and delivered, I did, on the 6th day of March, 1939, levy upon and take all of the right, title and interest which the said defendants, Earl W. Martin and Julia C. Martin, had in and to the following described lands and premises:

The east half of the northwest quarter of section 19, town 2 south, range 6 east, except a parcel described as: Beginning at the north quarter post of said section 19, thence southerly on the north and south quarter line, 1219.50 feet; thence deflecting 90 degrees 29 minutes 00 seconds to the right, 66 feet; thence deflecting 89 degrees 31 minutes 00 seconds to the right, 45.18 feet; thence deflecting 90 degrees 29 minutes 00 seconds to the left, 1310.68 feet to the east line of Garden Homes Subdivision; thence deflecting 89 degrees 28 minutes 40 seconds to the right 1175 feet to the north line of said section 19; thence deflecting 90 degrees 31 minutes 20 seconds to the right on the north line of said section 19, 1378.11 feet to the place of beginning; together with a satisfactory right of way for ingress and egress to Miller Avenue Road across the property immediately south of the above described land for the transportation of such equipment and materials as the transferee of the excepted parcel may need for the use of the property, also;

All that part of the west half of the east half of the southwest quarter of section number 19, town 2 south, range 6 east, lying north of the North Dexter Road, excepting therefrom a piece or parcel of land sold off by Jennie L. Bird, Earl W. Martin and Julia C. Martin, the latter husband and wife, by warranty deed to Alfred Graf and Anna Graf, husband and wife, and recorded in Liber 237 on Page 302; also;

All that part of the east half of the southwest quarter of section 19, town 2 south, range 6 east, Township of Ann Arbor, lying north of the Miller Avenue Road (sometimes called North Dexter Road) excepting therefrom lands formerly owned by William B. Copeland, now deceased; all of which I shall expose for sale at public vendue, to the highest bidder at the south front door of the Court House in the City of Ann Arbor, in said County, that being the place of holding the Circuit Court within said County, on Tuesday, the 25th day of July, A. D. 1939, at ten o'clock in the forenoon of said day.

Dated: May 31, 1939.

Daintiness in Women Wins Men's Favor

By PATRICIA LINDSAY

MEN loathe the careless grooming. In fact I think that men are inclined to be more fastidious about us than we are about ourselves! That statement will probably bring an avalanche of mail contradicting me. Well anyway, men do like us sweet-smelling, tidy in our dress and noticeably well-groomed. It isn't too easy to keep fresh as a flower, or crisp looking as a lettuce leaf. It takes special little rituals. We must bathe more frequently and more thoroughly. We must think to apply a deodorant powder or liquid under our arms, on our feet and across our backs (if there is where you perspire). Light floral scented colognes help to keep us cool and the alcohol which they contain plays a part in personal daintiness.

Fresh as the French countryside from which she comes is pretty Annabella, whose exquisite daintiness is one of her greatest assets on the screen.

But more than that we have to be ever so careful about wearing fresh underthings and hose each day. If you haven't an abundant supply you must form the habit of rinsing yours out each night.

Farmers Urged to Check Bins for Wheat Storage

Wheat loans on the 1939 crop will be offered wheat growers in Michigan who keep within their wheat acreage allotments under the 1939 Triple A Farm Program, Harry M. Cole, secretary of the Washtenaw County Agricultural Conservation Committee, announced this week.

In order to qualify for a loan, Michigan wheat must be in storage at least thirty days and grade No. 4 or better. The moisture content of the stored grain must not exceed 14 per cent.
In announcing these loans, Mr. Cole urged farmers to inspect carefully their granaries and bins so that their storage will meet the requirements of the Commodity Credit Corporation which makes the loans on the stored wheat.

Granaries should have sound foundations which are deep enough in the ground to insure stability, guard against structural failure and prevent undermining by water and animals.

Floors should be tight and at least 8 inches above the ground. Careful inspection should be made for decayed and damaged flooring and joists.

Walls should be strong enough to prevent bulging, and tight enough so that both bins and wheat can be fumigated.

Roofs, doors and windows should be water-tight and weather-proof.

Where bins are located in barns, care should be taken to insulate the bins from animal odor and moisture.

In a number of cases last year, stored wheat was damaged due to storage near animal quarters.

Particular attention should be given to protection of granaries and bins from rodents. Bins which are completely lined with metal are very effective protection against rats.

Complete instructions relative to proper farm storage of wheat are available at the Washtenaw County Triple A office.

Wheat loan rates will vary among the counties this year, Mr. Cole said, "and the Washtenaw county rate will be announced within the next week or ten days."

TRUTH about ADVERTISING

By CHARLES B. ROTH

'HERE COMES THE QUEEN'

I WAS talking in his office with a man who is head of a large store. I was complimenting him upon the extraordinary courtesy and service a woman told me she always received in that store.

"My friend says that your salespeople treat her as though she were the queen," I explained. "Come with me," the executive said, and left his chair, and started downstairs. "I want to show you something."

I followed. He took me behind the counters. He pointed out neatly printed white cards pasted up at close intervals throughout the store, where the clerks couldn't help seeing.

I read what they said. "HERE COMES THE QUEEN!" "It's our slogan," the executive explained. "Yes, it's more than a slogan. It's our watchword, our business policy, to treat every woman who enters the store as though she were the queen."

Charles Roth

I happen to know that this policy has paid handsome dividends to the store. As I think it over, however, only in form and expression is that policy different from that of every other organization which advertises for your trade. All have to treat you as though you were the queen—or the king.

Anyone who has been buying much in the stores will tell you that the treatment received from clerks is vastly different from what it was years ago. They are more considerate. They are better informed.

The reason for this change is that they have the ideal which advertising has created in their minds, and to this ideal they must conform.

All over the country, in every newspaper, advertisers are vying with one another in telling the story of their products and in improving their products to make them more acceptable.

Their desire is to produce something fit for the queen—or the king—and their advertising sets up a standard to which they must strive.

In the process you get the best products and service it is possible to provide.

DOUBLE MURDER

... all because Kirk Reynolds, ne'er-do-well gambler, returns to Beverly, a Southern resort city. The grim-faced, taciturn gambler forces young, beautiful Kay Forrest to marry him. Barney Hamilton, in love with Kay, must wait patiently while she obeys Reynolds' every command, not knowing that she alone holds the key to the mystery of Cathedral Gardens.

How the god of chance untangles the lives of these young people, restoring their happiness, makes one of the most fascinating stories ever written by that master story teller, Octavus Roy Cohen.
