Ben East To Lecture Here Next Tuesday

Ben East, outdoors writer for The Ann Arbor News and associated Booth newspapers, will give a free showing of his latest colored motion picture, "Waters That Run to the Sea," at 8 o'clock Tuesday night, Feb. 13 in the Chelsea high school auditorium.

Mr. East, who has lectured and shown his unusual motion pictures of Michigan's outdoor wonders in all sections of the state, will be brought to Chelsea by The News and the Chelsea Rod and Gun Club.

"Waters That Run to the Sea" is a pictorial story of Michigan's scenic water treasures, filmed to catch the thrills and beauty of the wildlife that abounds in the state's waters. Mr. East spent a summer ranging the waterways of the state, and 8,000 of the 7,000 feet of 16-millimeter film he shot are incorporated in his pictures.

Nesting grounds of the gulls, activities of a bald eagle family and views of the locks at the Soo through which Great Lakes ships pass are features of the film.

Hill auditorium in Ann Arbor has been filled every time Mr. East has shown his pictures there, and he will give his 1940 illustrated lecture there the night of Feb. 12, but this year he will pay a visit to Chelsea as well, and residents of this village and the neighboring area will be given an opportunity to see little-photographed Michigan wonders.

Officers of the Chelsea Rod and Gun Club are carrying on an educational program this winter to interest residents of this area in wildlife and conservation projects. Highlight of this program will be the club's sponsorship of Ben East's appearance here on February 13.

St. Paul's Ladies' Aid Meets At Mayer Home

The Ladies' Aid Society of St. Paul's church held their February meeting on Friday at the home of Mrs. Carl Mayer, with 27 members and three guests attending. A song and unison poem by the assembly opened the meeting, after which the topic of the month, "Women and the Way", was introduced by the president.

Scripture passages pertaining to famous women of the Bible were read by Mesdames George Mayer, Martha Weimann, Emanuel-Eisemann, William Bahnmiller, Philip Seitz, Lewis Eppler, William Schatz, Elfe-Pierce, August Hilsinger and Emanuel Bahnmiller. This was followed by prayer by Rev. P. H. Grabowski and a piano solo by Mrs. Dora Kayser.

A dramatization, entitled "The Procession of Women Along Life's Highway" was given, with the following characters:

Mary—Mrs. Carl Mayer.
Florence Nightingale—Mrs. Alvin Vail.
Fannie Crosby—Mrs. Fred Seitz.
Jane Addams—Mrs. John Oestle.
Mrs. Kayser represented the "Wives of Missionaries", and Mrs. W. Koch as the "Mothers of the Evangelical Synod".

Watcher, who sits by the roadside of life—Mrs. J. Strieter.
Interpreter, who reads from the book of achievement—Mrs. Valdo Kusterer.

The program closed with singing of the hymn, "Blessed Assurance", by Fannie Crosby.

A business session followed, with reports of the secretary and treasurer, and an interesting report of the Mission Institute held in Ann Arbor on Jan. 10 was given by Mrs. Kusterer.

The "Get-Together" was discussed and an additional committee was appointed, consisting of Mrs. W. Bahnmiller, Mrs. Adolph Duerr, Mrs. E. Eisemann, Mrs. J. J. Bareis and Mrs. H. C. Breitenwischer.

It was decided to hold a bake sale on Saturday, Feb. 17, and Mrs. C. Mayer, Mrs. G. Mayer, Mrs. Hilsinger and Mrs. Pierce were appointed as committee to arrange for same.

Mrs. Walter Mohrlock extended an invitation for the next meeting to be held at her new home.

At the close of the meeting, lunch was served, with Mrs. E. Bahnmiller and Mrs. J. Bareis as assisting hostesses.

LENTEN MESSAGE

Editor's Note: This is the first of a series of sermonettes to be written by pastors of Chelsea and vicinity to be published in The Standard each week during the Lenten season.

By Rev. F. D. Mumby
Pastor Methodist Church

"Art thou he that should come, or look we for another?"—Matthew 11:3.

The Messiah of prophecy, the expected deliverer of the Hebrew people from their enemies. Does the young teacher who so recently insisted on being baptized by my hand fulfill the ancient scripture prophecies, or must we look for another?

John, the popular and spectacular wilderness preacher, imprisoned in the rock-fortress of Machaerus for daring to rebuke the king Herod for marrying his brother Philip's wife, sends two of his disciples to ask Jesus this question: "Is Jesus Christ the expected Messiah is still a matter of vital interest both to Jews and Christians. After the baptism of Jesus he retired to the wilderness for the great temptation, and after that, he returned to Galilee to select disciples and begin his public ministry. The arrest of John seems to have been made during the temptation period of forty days and this may have been one reason for the return of Jesus to the familiar shores of Galilee.

The quiet of the gloomy prison seems to have cast a shadow of doubt across the mind of the great outdoor preacher of repentance, but John was still a man of action and sent two of his disciples to ask the question of our text. Jesus went about the business of teaching and healing the people as usual and toward evening said, "Go and shew John again those things which ye do hear and see: The blind receive their sight, the lame walk, the lepers are cleansed, the deaf hear, the dead are raised up, and the poor have the gospel preached unto them."

Can it be that a country preacher is the answer to the world's need? Is that the work of a deliverer? John wondered, and we wonder too. Or again can it be possible that the ministries of a country doctor is the answer to the need of His time and ours? One thing seems clear, Jesus assures John that he is not a revolutionist with designs on the government. His message is "Repent ye for the kingdom of heaven is at hand."

In the wilderness temptation of those forty days following his baptism Jesus resisted the devil and forever refused the instrument of force in the act of deliverance which shall eventually transform the world. In the divine plan for redemption and deliverance of the people of the earth God has no use for any sword, except the sword of the Spirit.

Men still cling to the already exploded notion that force and selfishness will bring them food, wealth and power. We have the sad spectacle of a world gone mad using the dread instrument of 'total war' to obtain food and raiment, security and protection, world conquest and domination. Hear the ringing words of Jesus: "They that take the sword shall perish with the sword." Matt. 26:52. Yet the tragic truth is that Christian nations, so called, have developed the most destructive weapons, and methods of warfare, the world has ever known.

The crying need of this hour in the history of humanity for all the nations of the world including our own, is the message of the Forerunner, and the Redeemer, "Repent ye for the kingdom of heaven is at hand."

Let us repent of our national and individual sins. Let us cease arming the nations of the world for material gain. Let each Christian get down on his knees and confess before God his greed, selfishness, and guilt, and then turn like his Master to deeds of mercy, helpfulness, and healing by acts of self-denial well pleasing in the sight of God throughout this Lenten season. If we can meet, and defeat, the tempter of our souls as Jesus did in his own heart searching forty days in the wilderness, the present season of fasting and prayer will change all our future as truly as did the temptation of our Lord and Saviour.

The annual meeting of the Chelsea Community Fair association was held Monday night at Kolb's hall. Russell McLaughlin was elected president; Mrs. Paul Schaible, vice-president; Thomas Bust, secretary, and Carl Mayer, treasurer. Dale Claire was elected to fill the vacancy of E. J. Fred Notten Honored At Dairymen's Banquet

Fred W. Notten of Sylvan township, one of four outstanding Michigan dairymen, and one of the pioneers in tuberculosis testing of cattle in southern Michigan, was honored at the annual dairymen's banquet held last week in connection with Farmers' Week at Michigan State College. He was presented with a plaque.

Mr. Notten has been on his 160-acre farm on Notten Road since 1901 and now has a herd of 50 head of Jerseys. One of the first sires in the district was built on his farm in 1910 and he was one of the first farmers in the community to grow alfalfa, which he planted in 1909. For many years, in order to dispose of his milk, he made butter, which he sold to private customers.

Mr. Notten has been in dairy herd improvement work for 15 years and he has been a member of the American Jersey Cattle Club since 1916. He is an active member of the Washtenaw County Jersey Cattle Club and has shown animals at the county fair, state fair, and Jersey parish shows.

He is affiliated with Cavanaugh Lake Grange, the Farm Bureau and the Western Washtenaw Farmers' club.

Lansing—Just "where" is Michigan's \$31,000,000 state deficit?

"Who" holds the bills?

How long can the state government continue to meet its obligations with cash?

Auditor General Vernon J. Brown, in response to the above questions, presents to readers of the "Michigan Mirror" a brief picture of how Michigan functions financially and how the present plight has developed.

"In the mind of the general public," states Mr. Brown, "the condition of the general fund of the state attracts most attention. However, the general fund is but one of 57 accounts into which the financial transactions of the state government are divided.

"These 57 accounts are actually required for the purpose of proper accounting. The number has not been taken from the advertising of a popular brand of pickles and relishes, but the figure represents actually the number of accounts required to be maintained.

General Fund

"The general fund holds popular attention because into it go the revenues from a large number of sources and out of it are paid the expenses of most of the large number of governmental agencies and functions.

"The Michigan Mirror has asked me to define for its readers just what constitutes the general fund. Briefly, the general fund carries the expenses of all the various state departments, including contributions to education, public health, welfare and social aids, public safety and defense, conservation and recreation, the department of agriculture, grants to local units of government for various purposes, as well as payments to be made to the sinking funds for the retirement of bonds and the payment of interest thereon.

"In point of total receipts to and expenditures from, the general fund of course overshadows all the special funds. Total receipts to the general fund during the last fiscal year amounted to \$93,768,056.02; the total expenditures from the general fund during the same period, including those expenses actually paid and those incurred but not paid at June 30, 1939, amounted to \$117,483,273.57.

Point of Exhaustion

"Many people ask how the State can operate on a \$31,000,000.00 deficiency. "That, of course, can only be accomplished because funds other than the general fund carry substantial balances offsetting the overdrawn or deficiency balance in the general fund. Obviously, when the total of the deficiencies in the general fund and other funds having deficiencies equals the total of the balances contained in the funds having balances, then the cash resources of the state become exhausted.

"This vanishing point becomes dangerously close when total deficiencies reach the \$32,000,000.00 level."

This concludes the auditor general's remarks.

Deficit to Grow?

Unless a combination of additional sales tax revenues and reduced liquor inventories come to the rescue, Michigan's \$31,000,000 deficit is likely to grow during the next five months. (The state's fiscal year begins on July 1.)

Faced with the alternative of calling a special session of the legislature to appropriate more welfare money, Governor Dickinson has decided to risk a paper deficit during the 1939-40 fiscal year and thus to permit welfare spending in excess of 1939 appropriations.

Only \$2,000,000 will remain on March 1 from the \$9,750,000 welfare appropriation. This is about \$2,000,000 short of estimated needs from March 1 to June 30. If that sum is offset by a million dollars from a reduced liquor inventory and another million rising from sales tax revenues, then the state's deficit will stay at the \$31,000,000 mark. "Otherwise, it will keep climbing."

It was Muri DeFoe, liquor commissioner, who contended recently that present inventories were higher than they should be (and that buying orders were favoring a few distillers). The governor's decision is considered to be a tacit admission that DeFoe's judgment of the situation was right. (Frank Murphy, when governor, did the same thing; liquor stocks were cut to squeeze out cash for relief.)

Where Taxes Go

The decade of 1930-40 just closed was one of business hard times.

State expenditures, however, will be \$46,000,000 more than they were in 1930. Of this amount \$40,500,000 constitute grants of aid to local units and only \$5,500,000 is for administrative and operating costs. Out of the \$40,500,000, a round \$27,000,000 a year goes for new benefits, not provided 10 years ago, such as old age assistance, dependent children aid, help for blind, welfare relief and so on.

To handle the combination of local and state functions, the state's payroll during 1939 was \$329,719 more than it was during the previous year. Com-

pared with 1935, the state army of employees has increased 5,100. Those are cold facts. They afford a better understanding

of the financial dilemma facing state officials today. Standard Liners Bring Quick Results!

HAVE YOU MONEY TO BURN?

You are burning up money needlessly as long as you have a hot water coil in your furnace.

Tests prove that to heat the water in the coil requires up to one-fifth of the fuel you burn.

Moreover, the coil is an undependable source of hot water. If the fire is low the water is cold. If the fire is high the water is too hot, often dangerous scalding steam.

Seldom does the coil supply water at the right temperature, and enough of it.

Why not reduce your heating bill by having the coil removed.

A gas automatic water heater will provide you with a dependable supply of controlled temperature hot water for a few cents a day.

Junior News

Here I've been running around looking for Junior news, and it turns out to be a sleigh riding party! It was held at the "Greenhouse Hills" Monday evening at 7:00 o'clock.

Chelsea Ties Lincoln

The first tie game in the Huron League was the result of the Chelsea-Lincoln game as the affair ended in a 16 to 16 draw. At the end of the first half Lincoln was leading, 8-5. However, Chelsea came back in the second half to tie the score and then go out in front only to have Lincoln score a foul shot in the closing minutes and knot the score up at 16-16. In the second-team game, Chelsea scored a smashing victory, the game ending 24 to 6.

Sophomore News

At our meeting last Wednesday, Mr. Johnson introduced a new plan for buying our class rings. The class accepted and the company representative came in and told us about it. The plan is to order our rings now instead of next fall, thereby saving 20 percent. We will be given dime banks to save our money this summer. When the first dime is inserted the banks automatically lock and do not open until five dollars have been saved. We feel this plan will be gladly accepted by our parents as it will enable us to buy our own rings. The salesman

will be back to our next meeting at which time we will select our rings. A deposit of a dollar and a half must be made six weeks after the selection. The Sophomores are very anxious to see the rings.

F. F. A.-Home Ec. Meet

The F. F. A. boys and the Home Ec. girls held a joint meeting during activity period Monday, Feb. 5. The boys and girls are planning to work together in the future.

The girls started the meeting off by singing their songs. The boys were a little bashful and required a little coaxing to sing.

Barbara Schenk then told what the girls have been doing and what they plan to do. Doris Allshouse showed our scrapbook and explained it. An interesting talk was given by Donald Cook about his project which he started in his Sophomore year and has just completed. LeRoy Loveland told us what the boys had been doing this year and Roy Brosamle told us about their trip to Lansing last Thursday. The boys told us about a proposed banquet for the Home Ec. club and F. F. A. boys. This met with a great deal of enthusiasm on the part of the girls. Committees were then appointed.

We then adjourned to the kitchen where Mary May conducted a tour. We found our time had fled and the bell had rung, bringing the enjoyable meeting to a close.

Assembly

The assembly room in the high school has been the scene of some interesting and educational programs.

One cold, wintry morning Mr. Johnson announced that 1st, 2nd and 3rd hour classes would be forfeited, and we would go to the Study Hall for assembly.

Three very interesting sound-movie were shown. The first showed the advancement of science in the last 25 years. This was shown through the courtesy of General Motors. The second was on "The Influence of Alcohol", and the third was a baseball

movie. They were all very interesting and everyone enjoyed them.

The basketball games here have not been well attended, so Activity Period, the day of the Milan game, the Study Hall was the scene of a victory—a moral victory, anyway—for the student body. They showed they had plenty of "oomph"! Bill Rademacher was the very able master of ceremonies.

The Speech class gave a very entertaining play—condensation of "The Taming of the Shrew", last Thursday. Much credit should be given to Robert Welsh and Valerie Leoman for showing us some very fine acting. Truly worth a bell!

The student body is looking forward to many more assemblies such as these throughout the year.

Elementary News

Sixth Grade
Editors—George Slane and Laverne Holbrook.

We have a new girl in our room. Her name is Donna Perkins. She came from Dearborn.

The sixth grade has discovered that we have been calling the two people that write the news Reporters. This name is not correct. The right word is editor. So readers, please remember that reporter is wrong and editor is right.

A lot of the people wonder how we conduct our news period, so we will tell you how we do it. First, we choose secretaries. There are two of them. And then we choose two people to be editors. We have someone in the room to read last week's news so we won't repeat anything. And then we ask if there are any corrections to make. Then we ask if there are any new news or additional news. After there isn't any more the two editors write up all. The head editor hands his in. If his paper isn't good enough then the paper of the assistant editor is used. That's how the news gets in the Chelsea Standard paper.

Feb. 2, 1940 we had our weekly news periods, and it was groundhog day.

Robert Faber found a cocoon Feb. 1. He brought it to school and we think it is a caterpillar cocoon.

Myra Townsend's new address is Leslie. Myra wants all of us to write to her when she moves.

Robert Faber sent to the Upper Peninsula Development Bureau of Michigan for a booklet of the Upper Peninsula. He got it for a science report on the Conservation Exhibit the school had in the gymnasium and he got the address from the Conservation Exhibit.

Miss Eve Currie is going to talk at the Hill Auditorium in Ann Arbor on Feb. 15, 1940. She will talk about her mother, Madame Currie and how she discovered radium. This goes in with our science. Miss Currie is also noted as one of Paris' best dressed women.

Our motto for this week is: "Be firm! One constant element in luck is genuine solid, old Teutonic pluck." Joanne Shutes brought a model of

the Santa Maria. It is one of Columbus' ships. She got it because we are studying about transportation in our reading.

There is a Reader's Digest in our room. The sixth grade students are free to go up and read the story about "The Living Conditions of the People in India." The story helps us in our Geography, in the study of India.

Seventh Grade

In spelling contests recently Eva Geddes spelled down the girls and James Gaunt spelled down the boys. Naida Olson has returned after a two weeks' illness.

Jimmy Gaken and Norman Krantz washed our windows for us. Thank you, boys.

Several times I have written about the responsibility of the pedestrian. During a recent year over 16,000 pedestrians were killed and approximately 276,000 were injured.

Crossing between street intersections ranked first as a cause of death and injury. The next cause was attributed to walking on rural highways. Crossing where signal was not available was another cause. Children playing in the street was one of the factors in this large death toll. The pedestrian has a definite respon-

sibility to obey traffic signals, to cross streets at proper intersections and at proper times, to walk on the proper side of the highway, and to use a little extra care at night in crossing the streets.

You who are pedestrians do not condemn the automobile driver for these pedestrian deaths. A large part of the responsibility and the cause rests with the "man on the street". "It's Smart To Be Careful!"

Beardless Monks

Monks at St. Bernard's monastery, Charnwood Forest, Leicestershire, England, were proud of their beards. That was before the crisis. Now they are clean-shaven. They found that beards and gas masks didn't go well together.

YOUR VOICE...YOUR BEST VALENTINE

Many people are likely to disagree with the old saying that "absence makes the heart grow fonder." They have found it quite the other way! Affections, like friendships, must be kept in repair. And the telephone is ready to help you. If you can't be with some special somebody on Valentine's Day, call her (or him) on the telephone. It will take your voice, a personal gift, across the miles. And there isn't a case on record where a telephoned Valentine has failed to make two hearts glow with added friendliness. Long Distance rates are lowest nights after 7 and on Sundays.

Black and White Not Colors

For all practical purposes black and white are colors, but technically speaking, they are not. Colors are produced by the difference in length of light waves. The longer waves are seen as red, those a little shorter as orange, and so on. The shortest light waves visible appear as violet. A black object is one that absorbs all, or nearly all the light waves, and a white object is one that reflects all, or nearly all the light waves.

Among the national courtesies which travelers find in Denmark is that of men's raising their hats to the shop girl on entering a store. They furthermore remain with head uncovered until going out on the street again.

It's the Early Bird that gets the Fun

The model illustrated is the Buick Super model 51 four-door touring sedan \$1109 delivered at Flint, Mich. White sidewall tires additional.*

ONE of these days the itch is going to hit you to get out and get in on the fun a Buick can be in the spring time.

You're going to feel an irrepressible yen to touch off that husky, sweet-singing Dynaflex power plant and swing out in gentle coil-spring comfort to take in the fresh spring landscape.

Maybe, like others we know of, you've even got the model picked out, and are just "waiting a few weeks" to do something definite about it.

But may we emphasize, in purely friendly interest, that a lot of other people probably have the same idea.

And that when they start buying in droves—as they do every year about the 1st of March—even Buick's big factory has trouble keeping up with them.

Help Promote Safety—Dim Your Lights When Passing

Of course, we're doing all we can to be ready for everyone.

But you can get only so many cars in a warehouse.

And a full warehouse can empty awfully fast.

And what with everybody wanting Buicks this season, we can't say how long we can promise the delivery we can give now.

So why not play the early bird this year? Why not get the jump on your neighbor and be driving your Buick while he's still talking about getting his?

You've nothing to lose, a lot of fun to gain—and you'll find the address of your Buick dealer in the phone book.

State Land Auction Sale Opens Feb. 13

Auditor General Vernon J. Brown expresses gratification at the interest being shown in the coming auction sale of state-owned properties which one-time owners lost because of tax delinquencies.

"Judging by reports," said Mr. Brown, "former owners are crowding the offices of their county treasurers to learn the procedure of the sale so that they may plan to repurchase their properties." It is gratifying that these people are accepting the generous provisions of the State Land Office Board Act which offers them this final opportunity to regain their properties.

"It is not the desire of the Board or the State of Michigan to dispossess any owner. For that reason, we have adopted very liberal terms which should meet every reasonable request."

"Owners may bid at the auction sale and if other bidders appear, they need not enter into competitive bidding, but may within 30 days meet the bid of any other bidder. Purchasers, who had no previous interest in the property, must pay cash, but the Board is extending a liberal contract to former owners so that they may pay the amount of their bid over a period of time in monthly installments."

"One word of warning should be issued, however; the owner should be certain that at least the minimum bid

of 25 per cent is made at the sale. While it is true that the owner has the right to meet any bid during the 30 days following such bid, it is entirely possible that some properties may be offered upon which no bids will be made. In such cases the owner would not have the privilege of meeting a bid because no bid had been offered. The owner should, therefore, protect himself by seeing that at least the minimum bid of 25 per cent of the 1938 assessed valuation is submitted.

"No written bids or prior bids can be accepted."

Lists of properties to be offered for sale, and detailed information are available at the offices of the county treasurers of the counties under the jurisdiction of the State Land Office Board. Mr. Brown suggested that all those who are not entirely familiar with the procedure concerning the sale should immediately contact their county treasurer for details.

Italy's 'Wooden' Nickels

Not exactly a wooden nickel, but something just as good, may be the thought behind the recent decree in Italy to replace nickel coins by "aluminum." A new stainless steel alloy developed by that country. Reports indicate that this is one of Italy's methods of conserving one of her strategic materials and she stands to save between five and six thousand tons of nickel, according to Engineering and Mining Journal.

PLYMOUTH—Probably never before in any American city has every available ticket to a Lincoln day banquet been sold a week before the event took place. But such is the remarkable fact in connection with the buffalo stew Lincoln day banquet that will take place at the Mayflower hotel in Plymouth Monday evening. So insistent has been the demand for tickets that the committee in addition to selling the 500 that can be accommodated in the big downstairs banquet room, printed an additional 250 for services in the Crystal dining room of the hotel. Over 5000 tickets could have been sold if there was a place of sufficient size to accommodate the crowd.—Mail.

PINKNEY—The practice of poisoning sparrows is dangerous and unlawful for any person which will kill sparrows will also kill poultry, stock, cats, dogs and humans, according to

J. W. Stock of the Zoology Dept. of the Michigan State College. Several crews of men are said to be working in our county to eradicate sparrows by poison. These men have no authority to do this and are connected with no college. They probably reside in a county where bounty is paid on sparrows and where they will sell the dead birds at 2 cents each. Hunting is always easier in a county where no bounty is paid, or in other words where there is no closed season.—Dispatch.

HOWELL—Theodore Briggs, 29-year-old Howell man and member of the fire department, who was arrested last week for setting brush fires in Howell, was rearrested Friday on a new warrant charging arson, and it is said he has admitted setting three more fires here in 1938 and 1939 which caused an estimated loss of nearly \$7,000. According to the officer, Briggs told Dillon that he needed money for the support of his seven children and set the fires so he could collect \$3.50 per run as a member of the fire department.—County Press.

MILAN—Twenty-two years ago a woman got on the train in Milan for Adrian. Being late she failed to purchase a ticket and evidently an argument resulted between the passenger and conductor on the train. The conductor, unwilling to cash a check, threatened to evict the passenger at the next stop. The kindly conductor, however, relented and the passenger rode on to Adrian, the conductor paying her fare, with the understanding that the woman would pay the conductor later. Last week Don R. Wain, agent for the Wabash in Milan, received the fifty cents from the passenger, who lives in Lansing.—Leader.

Question And Answer Dept.

Problem—How can you multiply the half of eleven by which the result will be twelve? (Answer elsewhere in this department).

Ques.—What do the letters mean which were placed on the cross over the head of Jesus?

Ans.—The letters "I. N. R. I." placed on the cross is the Latin abbreviation for Jesus Nazarenus Rex Judaeorum, which, when translated into English, is "Jesus of Nazareth King of the Jews." (In English the "I" is "J").

Answer to problem—Erase the lower half of XI and you will have VI, which, when multiplied by two, will make twelve.

Ques.—Why is Marshal Grouchy blamed for the loss of the Battle of Waterloo when he wasn't in that battle?

Ans.—The Prussian main army detached a small command at Wavre (as a sacrifice) to decoy Grouchy into the belief he (Grouchy) was fighting the whole Prussian army. By this strategy the Prussians marched on to Waterloo, where they arrived just in time to save Wellington. His famous words: "Oh, would that Blucher would come!" had scarcely died away when he saw Blucher with 40,000 men coming over the hill. Grouchy mopped up a handful of Russians at Wavre before going on to Waterloo. He arrived there only to find his chief, Napoleon, had taken to flight.

Ques.—What kind of a flower is the Gloriosa?

Ans.—"Gloriosa" is the florists' name of a plant belonging to tropical American plants. It has beautiful many-colored, funnel-shaped flowers and velvety leaves. They will bloom the first year if carefully potted, and the roots may be stored away in a dry place protected from the cold.

Ques.—When, if at all, was Spain a great world power?

Ans.—Spain was at its height of world supremacy about the year A. D. 1600. Besides vast continental dominions in the New World, the European possessions comprised the whole of the Spanish Peninsula, The Netherlands and other lands of the House of Austria, the Sicilies, Sardinia and Milan.

Ques.—What is the meaning of the abbreviation "e. g."?

Ans.—This is the abbreviation of the Latin two words "exempli gratia," which means "by way of example."

Ques.—When did the Trojan War take place, and what was the cause?

Ans.—This war (partly mythical) began in 1193 B. C. and ended in 1184 B. C. It was caused by the Greeks avenging the abduction of Helen of Troy by Paris.

Ques.—Who were the first astronomers to observe the heavens?

Ans.—The Chinese have astronomical annals dating back to 2857 B. C., and claiming to be first. However, the Hindus, Chaldeans, and Egyptians claim the honor.

Penny a Day?

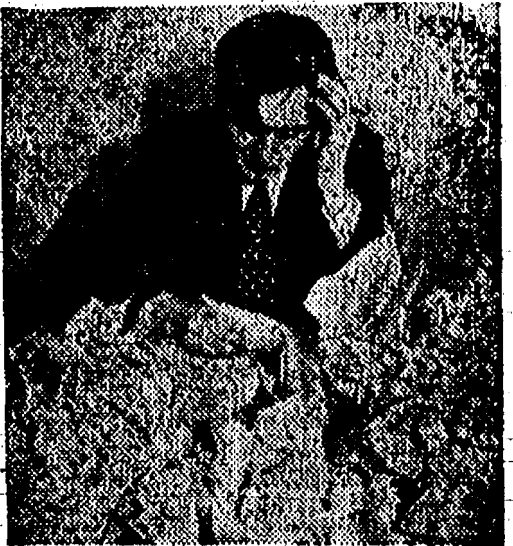

Americans have lost 5,000,000,000 cents since the United States government began making them in 1793, the office of the mint has estimated. Of 91,202,000 two-cent pieces coined between 1834 and 1872, more than 57,000,000 are still missing, and 58,000,000 of the three-cent pieces discontinued in 1839 have never turned up. Collectors hold very few of these coins; it is believed that most of them were dropped in drains and gutters.

VALENTINE'S DAY

How Not to Write a Valentine or the Mental meanderings of John-nay, youthful swain who has decided to eulogize the light of his life in immortal verse.

"Boy, am I hot! Will Toots love this? It'll make even Shakespeare shudder. When Babykins gets a load of this poetry she'll think I'm the Great American Lover."

"This is all right. Let's see—what rhymes with 'June'? There's 'balloon,' 'goon,' 'baboon,' 'loon,' and, oh, yes, 'moon.' That's that. Now what rhymes with 'affection'?"

"Why, oh, why can't I get this junk to sound like poetry? What did Shelley have that I haven't got? Nothing, that's what, nothing! But confidentially, this stuff—"

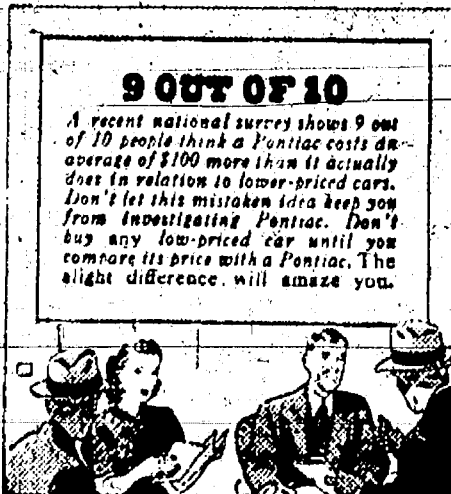

"Baa, baa black sheep, have you any wool? Goosey, goosey, gander. Hi diddle diddle. I'm going crazy. Valentine's Day, bah! It's a racket."

"O grave! where is thy victory! O death! where is thy sting? I'm through—washed up—done! Let someone else write poetry. I'll stay single."

Conscience Bothered Him
Three months ago a California man threw his car out of gear and let it coast down a steep Wyoming hill. That is against the law in Wyoming. The law presumes such a car is "out of control." Recently Capt. William Harwood, of the state highway patrol, received the letter from Los Angeles in which the driver apologized for his "recklessness," said his conscience bothered him as he was "trying to lead a Christian life," and would the captain forgive. The captain would, and did.
