## Mayer Wins Decisive Victory Over Harris

The largest election on record in Chelsea took place on Monday, when 1012 electors of the village went to the polls to express their choice for village officials.

One of the contests was very close, and the presidential race resulted in a decisive victory for Alfred D. Mayer, People's party candidate for president, who defeated President Roy Harris by a majority of 246 votes, while W. Arnold Steger, People's candidate for clerk, defeated Jay E. Weinberg, Independent candidate, by a majority of only three votes. Both candidates for clerk were newcomers in the local political field.

With the exception of the two Library Board candidates who were unopposed, M. J. Baxter and Ed. Keusch were the only Independent party incumbents who survived the upset, the former defeating Wm. G. Kolb for treasurer, and the latter defeating Russell Altstaetter for assessor.

## LENTEN MESSAGE

By Rev. M. W. Brueckner  
Pastor Zion Lutheran Church  
Rogers Corners

It is hardly conceivable that anyone could read the story of Christ's suffering and death without being profoundly moved. There was never such agony, before or since.

Naturally, we begin to inquire—we want to know why there had to be a Gethsemane and a cross on Calvary.

Many answers are given that do not and cannot satisfy because they are untrue. God has told us why, and any answer or explanation that falls short of, or that contradicts what the Word of God says of the passion of Christ, cannot satisfy.

Isaiah states it beautifully and comprehensively when he says: "He was wounded for our transgressions, He was bruised for our iniquities; the chastisement of our peace was upon Him and with His stripes we are healed."—Isaiah 53:5.

Sin caused this tragedy—the sins of the whole world, your sins, my sins, everybody's sins. "There is none righteous, no, not one"—Rom. 3:10.

All being in equal condemnation, it is equally comforting for all to hear the testimony of God's Word, "Behold the Lamb of God which taketh away the sin of the world."—Joh. 1:29. Jesus "gave Himself a ransom for us all."—1 Tim. 2:6.

We do know that "God made Him to be sin for us, who know no sin, that we might be made the righteousness of God in Him."—2 Cor. 5:21. If God has done that for us all, then there is forgiveness of sins for us all, and where there is forgiveness of sins, there is life and salvation.

Christ tells us why Israel perished: "They did not want that righteousness which comes by faith in Christ Jesus."—"Ye would not."—Matt. 23:37.

And there is no other way. We have the word of Jesus: "I am the way and the truth and the life, no one cometh to the Father but by me."—Joh. 14:6. We have the words of the Apostle, "There is none other name under heaven given among men, whereby we must be saved."—Acts 4:12.

This Christ, crucified on the Cross of Calvary, this Son of God and Son of Man, "of God is made unto us wisdom, and righteousness, and sanctification, and redemption."—1 Cor. 1:30. Let us accept this answer of God to the questions that arise when we stand beneath the Cross, and let us humbly and gratefully repeat the words: "In my hand no price I bring, Simply to the Cross I cling."

At the village election on Monday the following were elected: President, Conrad Lehman; clerk, Warren Daniels; treasurer, J. Howard Boyd; trustee, J. N. Dancer, Adam Eppler, and John Frymuth; trustee to fill vacancy, H. R. Schoenhals; assessor, H. H. Avery.

A few maple trees were tapped at North Lake last week. Sap ran slow, indicating an off-year for sugar.

Miss Nellie McCloy of Stockbridge

and Nathaniel W. Laird of Sylvan were married on Wednesday, March 14, 1906.

Wm. J. Beach of Lima township has purchased the Alonzo Davis farm in the same township.

F. E. Storms has sold his house and lot on the corner of Harrison and Madison streets to Emory Chipman. Funeral services for Mrs. Arthur S. Congdon were held at the Methodist church on Wednesday afternoon.

## Our Neighbors

NORTHVILLE—A reliable source revealed this week that the Weaver Oil and Gas company of Grand Rapids had leased the entire NE section of Salem township with the view of drilling for oil. Activity is expected to start about April 1. Some 7,000 acres, it is understood, are under lease to the company in the area where the Kehl wildcatter (Sec. 2 NW, NW, NE) of 1937 developed in to a gasser after drilling had gone beyond the 4,000 foot level. The gas was found in the Trenton formation. A slight show of oil was found slightly below the 2,500 foot level. Record.

MASON—William J. Cameron of the Ford Motor company, known throughout the world because of the addresses he has made on the Ford Sunday Evening Hour, will give the address at the community Good Friday observance in Mason on Friday afternoon, March 22. The services are to be held in the Mason Presbyterian church. County News.

HOWELL—Howell will soon have frozen food locker service, with a plant in operation about April 1, according to an announcement of John S. Vogt who has both a processing plant and locker service at Fowler, Mich. which a number of Howell people patronize. Mr. Vogt announces that for the present only a cold storage locker plant is planned here with the processing of meats, fruits, and vegetables done at Fowlerville for customers who desire that service. Later when the volume of business will justify a processing plant in Howell it will be installed, is the plan. County Press.

BRIGHTON—There is an old saying to the effect that it's better late than never, but sometimes in trying to be early too fast, one is delayed far more than if they were more cautious. When the fire alarm sounded this (Wednesday) morning, Leo Hatawell, a member of the department, was nothing less than a streak speeding to the fire hall. But, unluckily, his car decided that this wasn't its morning to go to a fire for when nearly at the hall a wheel came off and unable to stop its mad gyrations, buried itself in the pond. As to the excitement in getting there, one has heard of being the fifth wheel which is one way of being superfluous, but three wheels belong to a tricycle which is a novel addition to the fire department. ## Question And Answer Dept.

Problem—A "morgan" may be plucked, used for sewing rag carpets or a section of a kite's tail. Which is correct? (Answer elsewhere in this department.)

Ques.—Has President Roosevelt ever done anything to help old-age pensioners?  
Ans.—Yes. On Jan. 16, 1939, he made a strong plea to Congress for the social security act to include the aged and children.Ques.—Is it true that Samuel Chase, a signer of the Declaration of Independence, and later a member of the United States Supreme Court, was impeached by Congress. If so, what for?  
Ans.—Samuel Chase was not impeached. In 1805 impeachment proceedings were brought against him for delivering a violent anti-Jefferson speech in Baltimore in 1803. The case was bitterly fought in Congress, and when the vote was taken in the Senate Chase was acquitted by a very small majority.Answer to problem—A "morgan" is the name of the ox-eye daisy, and, of course, it may be plucked.  
Ques.—When will Tom Mooney be released from prison?  
Ans.—Tom Mooney is not in prison. He was pardoned by the governor of California and was released from the penal institution on Jan. 7, 1939.Ques.—Is the Boulder Dam larger than the Grand Coulee Dam? In what State are they located?  
Ans.—At the present time Boulder Dam is the largest in the world. It is on the Colorado River, in the State of Colorado. Grand Coulee Dam will be the largest dam in the world when it is to be completed in 1942. It is located on the Columbia River, in the State of Washington.Ques.—How can an ex-soldier get a copy of his discharge papers if the original has been lost?  
Ans.—The government does not issue copies of military discharge papers if they have been lost or destroyed. However, it issues certificates to take the place of discharge papers. Such certificates may be obtained by writing to the Adjutant-General's Office, U. S. War Department, Washington, D. C.Ques.—In what college did Clarence Darrow, the famous criminal lawyer, graduate? Where was he born?  
Ans.—Clarence Darrow did not go to college. While he went through the common schools, he was practically self-taught by burning the midnight oil like Abraham Lincoln. He studied law and was admitted to the bar in 1875. He was born at Kinsman, Ohio, in 1857.Ques.—What is the meaning of "Dail Eireann", which I occasionally see mentioned in connection with Ireland?  
Ans.—"Dail Eireann" is the lower house of the legislature of the Irish Free State. It is the Irish term for Congress, Parliament, Diet, etc.Ques.—Can you tell me the day of the week and date that Thomas A. Edison was born? This is to settle an argument about the day of the week.

Ans.—Mount Everest in India-China is the highest mountain in the world. It is 29,002 feet above sea level.Ques.—Where is the island of Capri, which is mentioned in a once popular song?  
Ans.—The island of Capri is at the entrance of the Bay of Naples, and belongs to Italy.

Traffic police can and should devote more of their time to protecting pedestrians. Such a program, however, must be given strong community support to be effective. Newspapers and civic groups can aid greatly. Some traffic specialists have suggested that pedestrians involved in accidents be required to file a regular report with the police department, if they are able to do so.

I firmly believe that city ordinances should prohibit jaywalking and crossing between intersections. If we have regulations for the conduct and behavior of the automobile driver, why can't we have regulations for the pedestrian? The automobile driver is not always to blame in these cases, and oftentimes he is subjected to some hair-raising experiences because of the crazy walking habits of some people.

More attention to the enforcement of the pedestrian phase of the traffic problem is badly needed. Many cities have tried this and the accidents have been reduced considerably.

U. S. Oil Consumption  
Thirty-six barrels of oil per family are needed annually to maintain present U. S. standards of living.

## OLDS SALES SET RECORD

Oldsmobile retail sales for the last 10 days of February set a new all time high for the period with a total of 5,753 cars. This represents a gain of 102 per cent over the 2,855 cars sold in the same period a year ago, according to D. E. Ralston, general sales manager.

Sales for the entire month of February also established a new record with a total of 13,541 units which is an increase of more than 59 per cent over the 8,495 cars sold in February, 1939.

Mr. Ralston also pointed out that retail sales of 13,541 for February exceeded the January sales of 12,970, which is the first time since the fall announcement of new models that February sales have been larger than those of January.

"This great record, set by our dealers in February, seems to be conclusive proof that the forthcoming spring selling months have great possibilities and that Oldsmobile will continue to make new sales records for the balance of the model run," Ralston said.

Another interesting fact, Ralston mentioned, is the increased sales of the Custom Eight Cruiser. During the month of February, 3,505 of this model were sold against 1,069 eight cylinder Oldsmobiles a year ago.

This particular model is meeting with splendid reception from fine car buyers everywhere. With deliveries of Oldsmobile's exclusive Hydra-Matic drive on the increase and the enthusiastic response from owners, we expect an even greater popularity for the Custom Eight Cruiser in the months to come," Ralston added.

## One In Four Cows Fail, State Dairymen Prove

When Michigan dairy farmers discard one-fourth of their animals each year, easy proof is found for the present milk production average of 4,800 pounds to a cow as contrasted to such early annual dairy production levels of 1,400 pounds of milk. That is the average the 1850-style dairy animal was producing in the state.

In 1850 there were about 100,000 cows kept for milk in Michigan. There now are about 905,000.

One of the chief reasons for the growth of dairying within the state lies in the fact that means were found for weeding out unprofitable animals, states A. C. Baltzer, extension dairyman at Michigan State College.

In fact, the state had the first American cow testing association; the one formed in Newaygo county in 1906. Dairy herd improvement work has spread throughout the United States, but Michigan still is one of the leaders.

Why are cows removed from herds? Baltzer has records of more than 25-

000 cows that have lost stanchion room in six years.

Bloat from poor pasture management is a scourge to a dairyman, yet only one per cent of the animals removed from herds were lost because of bloat. Even old age ranked low and rated but three per cent of the re-

movals. Top cause is poor production, 52 per cent. Udder trouble is credited for 11 per cent of removals; sterility, 7 per cent; Bang's disease, 13 per cent; those that died, 6 per cent. So that's why dairy testing pays dividends, Baltzer contends. Cow testing shows up the poor producers.

The Seniors' two main features will soon come to a close with great success. It's the Annual and the play.

The bake sale was a success. We wish to thank the girls and their mothers for such fine cooperation in making this a success.

## Home Ec. Club

The tea that was given on March 4 was very nice. Many compliments were given to us.

One of our own teachers, Miss Fox, poured tea. The tea table was set attractively, with a bowl of daffodils for a center piece.

We hope we can meet with our mothers again soon, but girls let's have more of you come.

Sixth Grade

Editors: Frank Aldrich, Jane Downer.

Miss Canfield has been reading the class letters that Orin W. Kaye, Jr. writes. The letters tell us a lot about the war in Europe. We like the letters very much. Before Miss Canfield reads the letter she writes on the board the cities mentioned in each letter. We locate them on maps.

March 8, the sixth grade were anxiously getting ready by washing and dressing up for the Grade Musical Program.

The sixth grade has decided to enter the Detroit Spelling Bee. Out of the forty people that go to the gymnasium we hope to have one of our grade students to win the school championship.

At the age of 14, Horace Greeley became an apprentice in the printing office of the Northern Spectator at Poughkeepsie, N. Y. He later went to New York and secured a job on the Spirit of the Times. In December, 1832, he and Francis Story, foreman of the office, left it and established a printing business under the name of Greeley & Story. After Story's death, Greeley and the former's brother-in-law, Jonas Winchester, were partners and in March, 1834, they began a weekly literary newspaper, which they named the New Yorker.

Above is the Buick SPECIAL

YOU never yet saw a band come down the street without someone out in front setting the tempo, while someone back in the crowd obediently thumped in time.

So, you'll get what we mean when we ask, right out, why drive a car that's along just for the march—when you can pilot a Buick and show the others the way?

Maybe someday the others will have engines like velvet because they're electrically balanced after assembly; but Buick has them now.

Maybe tomorrow they will have coil springs all around that never need greasing—but Buick has them today.

Maybe sometime you'll get the five-foot front seat room and Foamtex cushions of the Super—maybe you'll get direction signals with automatic cut-off as standard equipment—but you can get those things and a lot besides on Buick this year.

Maybe someday you'll get a car as long as Buick for the money, or with a frame as heavy without paying more; maybe sometime there'll be another eight as big and roomy and powerful that's priced like a six.

But why take a chance on those maybes when this money's here, ready for you to take over right now?

Fact is, when you step into

this Buick you take over a car others will be trying to equal for years to come.

So drop in on your Buick dealer. Drop in to talk facts and figures, or drop in to see what next year's cars will try to look like.

## A. A. PASTOR SPEAKS HERE

Rev. Howard Buschling, pastor of the West Side Methodist church, Ann Arbor, was the speaker at the Kiwanis club meeting on Monday evening by invitation of the Public Affairs committee of the club.

Asserting that the popular conception of Original Sin was erroneous the speaker stated that a "helpless child" should not be called illegitimate, but if used at all that epithet should belong to the parents.

Using the Detroit campaign against tuberculosis as an illustration of what might be done to eliminate public evils, Mr. Buschling declared that his idea of Original Sin might be set forth in three words: Indifference, inertia or ease, and ignorance. "The cough of death" campaign aroused Detroit to the deadly menace of T. B. and as a result much has been done to lower the death rate, misery and even the cost of combating the white plague.

If we can get our public to realize the sin of indifference and show concern enough to do something, and to know what is required to be done we shall have made a good start toward solving the problems of public health, sanitation, unemployment, racial differences, and other needs. Intelligent

interest ought to replace indifference, inertia or ease, ought to be replaced by action, and ignorance by knowledge. When this is done beneficial results are assured.

The example of the Christ who went to Calvary for his convictions and shed his life blood for our redemption from all sin, original or committed, closed a very fine and much appreciated address.

**Copper Shield Protection**  
Termites and other wood-boring insects cause an annual property loss to lumber said to run as high as \$45,000,000, according to information from government sources.

Much of the damage comes from so-called subterranean termites which must have moisture to live. As a protection against these destructive pests a copper shield has been devised, the primary function of which is to prevent the termites or other wood-boring insects from entering the building to destroy wood which acts as their food supply.

The average motorist in New South Wales makes his car do for nine and three-quarter years and thereby is believed to increase accidents. Observation suggests that the age of the vehicles explains a major cause of traffic accidents—the number of slow drivers on the road.

"I am the **ENGINE** that couldn't happen!"

**THIS SPRING**, as my eighth birthday passes, I count more than 6 million of me in use. Yet I am the low cost V-8 engine that wise men once said never could be made.

**IT IS TRUE** that before my time the V-8 engine was a rich man's engine, too costly to make and too costly to run for any one else to enjoy. And it is true that without the patience and resources that could cast my new one-piece cylinder block hundreds of times before finding the one right way to do it—I might not yet exist.

**BUT IT IS ALSO TRUE** that today I am every man's pride and pleasure in every corner of the earth!

**BECAUSE MY CYLINDERS** are right, my owners know smoothness of power-flow, quickness of response, nimbleness of action that are unknown to engines of fewer cylinders than mine.

**BECAUSE MY CYLINDERS** are small, I exact no penalty in cost from my owners for my advantages of performance. My efficient use of fuel burns no more gasoline than fewer cylinders of equal total size require.

**BECAUSE MY CYLINDERS** are banked in two rows, my over-all length is short, and passengers inside the car behind me find extra length for their own comfort.

**AND, BECAUSE** the quality of my metals is Ford quality, and the precision of my

making Ford precision—I bring to my work dependability and stamina that are known the world around. It costs but little to buy me, little to run me, little to keep me in shape.

**IN THE EIGHT YEARS** of my life, many improvements have come to me—in economy, in efficiency, in quietness. Three years ago I was brought out in a 60 horsepower size, besides my 85. Owners of that new size now are telling of 22 to 27 miles per gallon of gas, and fine V-8 performance to boot.

**LAST YEAR**, in larger size with heavier parts and 95 horsepower, I became the powerplant of a new car called the Mercury 8. A fine, big car that's getting a reception in excess of anything that had been planned or hoped for it—now in the top ten.

**THIS YEAR, TOO**, in all my sizes, I find myself in four cars that I have ever worked in before. Cars that make people talk excitedly, as I pass; of something they call style. Cars that make people riding behind me murmur approvingly of comfort and of riding quality; and of quietness that's new.

**YES, I AM THE ENGINE** that couldn't happen—but did. I am the engine designed for the future and already proved by the past. I invite you to come with me out on the road today. For I am an engine of action, and I'd like to let my action speak to you for me.
