To Fishing March 31

With closing of inland lakes of Michigan to fishing March 31, anglers face the period of greatest inaction of the year, except for the smelt runs which are the occasions for celebrations in a number of northern Michigan communities.

Waters remaining open to fishing are the Great Lakes and connecting waters, non-trout streams, trout streams designated open to hook and line fishing throughout the year, and certain lakes directly connected with Lake Michigan.

Trout streams and trout lakes will be opened to fishing again on April 27. Pike lakes will be opened to fishing again on May 15 when everything except black bass, bluegills and sunfish may be taken. These species may not be taken from any waters until June 25 when all inland lakes are opened.

HOWELL—A communication from Mrs. Fred Hill, former local resident, now living in London, England, states some of the hardships incident to the war condition in that country. The gasoline ration is six gallons a month and there are not many cars on the road. Each person is allotted a quarter of a pound of bacon a week, a quarter of a pound of butter each, and some other meat will be rationed, she says. She also states some of the disadvantages during the "Blackouts" each evening when one cannot go out after 9 o'clock. County Press.

Gerrau With Big Ideas
Hermann Seegell, of Munich, Germany, once suggested damming the Mediterranean at Gibraltar, at the straits of Dardanelles and at the Suez canal. Since the sun takes water from the Mediterranean three times faster than rivers flow into it, a vast area of arable land now undersea would thus be bared. Next, Seegell also suggested that a canal should be built to the Sahara desert, which is below sea level, to turn the desert into a garden.

Band and Orchestra

Since the band festival in Saline, the band and orchestra have been working as hard (if not harder) as before since their concert will be given on April 19. Don't forget that date!

The pieces have not, of course, been selected as yet but it has been rumored that the band has a "snazzy" arrangement of "Star Dust" and that that will be one of the pieces. (Don't tell anyone I told you, though.)

There has been several new members added to the band and orchestra and so they (the band and orchestra) have swelled to a newer and greater number of members.

The Swing Band has also been "playing around" and played for the Senior play "Going On Seventeen" which I imagine you all saw (or wanted to very much). Anyway we were talking about the Swing Band but we got off the track. Oh well guess its about time to travel on, so I'll be seeing you (on April 19).

H. S. Honors Announced

Another class of Chelsea high school is looking toward graduation in the near future. As the plans for commencement are nicely under way it is always of interest to learn who leads the class in scholastic attainment. This year the first honors are claimed by Eunice Hart. For three and one-half years her average reached 3.92 points out of a possible 4. Mary Sullivan has earned for herself a total of 3.75 points out of a possible 4 which gives her second highest honors. These honor students will soon have their addresses ready for publication in the 1940 annual.

Following the first two honor students we find in alphabetical order seven others who rate above 2.0 points: Mary Jane Bahnmiller, Helen Lehman, Arlene Martin, Richard Riemenschneider, Robert Schwartzmiller, Joan Walworth, and Clarence Wood. The Senior Class Night will be held on June 5. Commencement on June 6, and Alumni Reception on June 8. Other dates and arrangements will be published as soon as they are available.

Agriculture Banquet

On the night of March 24 the C. H. S. gym will be a place of scholars for on that night the awards for many weeks of study will be made. The men who have completed their study under Thomas Bust in Chelsea's agriculture night school will receive certificates and the leading F. F. A. projects will be rewarded. These men have studied soils, crops, livestock, poultry management and disease control methods.

The banquet to be held on the night of March 26 at 7 o'clock will be a celebration with music and entertainment.

ment, and any man or woman interested in agriculture is invited to attend. Any F. F. A. boy will gladly sell you a ticket. The supper is to be served by Miss Muzzall's Home Ec. department.

The F. F. A. projects awards are to be made for the best dairy, sheep, crop, and best all around project achievements for the past year's work.

This is the first time in the Chelsea Chapter Future Farmers of America's history that awards have been given. It is hoped that Roy Wallis, the former ag teacher, will be present to act as toastmaster.

A Tribute - - a Thought

(An editorial by R. McDonald)
A few days ago I left the study hall and went down to my locker, specifically to fill my pen with ink. While I was standing in front of the locker Mr. Gentner came out of the engine room, and somehow we started talking. He told me very proudly that he had worked in our school for almost 18 years, and that, during all this time no one else other than him had either locked or unlocked the school doors.

Perhaps this record did not immediately click on me, but soon afterwards I began to think it over. Most young people today never give such a record a second thought. When it is said, we probably would agree, and remark that it really is something to be proud of. But perhaps when we are able to brag about such a record as Mr. Gentner's, then we shall understand more fully why he is so proud of it.

Our elders often remark, with a sympathetic air, that the youths of today are too careless, never having a serious thought. Why should we? Ever since "time was a pup" young people have been this way. It's their natural heritage.

Give us time, and we'll show you. Time is all we need. And perhaps 50 years from now we can sit back and remark to the young and thoughtless generation, "There, see what I've done. Don't you wish you could do as good?"

We have the materials. All we need is an experienced hand to shape them into something useful, and it is up to you, our parents, to see that we get that training—the training which will allow us to follow in your footsteps.

Confucius Say - -

It seems that last week we forgot to mention that Betty R. P. also had a "hero" from Detroit. Sincere apologies, Betty!

"Going On Seventeen" afforded Confucius a good chance to see the heart-interests of C. H. S. He saw for instance—Margaret K. with a handsome lad in green—he saw the editor and several of the Hi-Light together—and he saw "Porky" with Jeanne M.

Bob S. "pulled his whiskers" last week, and had a few mishaps in the form of nicks. We think it was for the first time, but he says the blades were dull!

The morning classes in Room 14 have suddenly taken an active interest in what's outside the windows. It

couldn't be because the Home Ec. girls are making and trying on dresses, could it? Boys!

M. J. D. has been sauntering about with her (the lion?) and we would like to know if he ever grows.

Ruth G. and Madeline R. were "stag" Friday night. Where were D. L. V. and J. M.?

Dick K. is in circulation again, at least he and M. A. were "sipping cokes" together after the play.

G. K. wears the nicest corsages! Have you been holding out on us, Gert? Who is he?

Melissa's "big moment" arrived in grand style—in a "40" Ford—Friday night. Come on, Melissa, let us in on your secret charm!

Bill S. had deep, dark circles under his eyes—could it be that the weekend was too much for him?

Chelsea gals are "slipping"—A. L. goes out of town for his week-ends—he goes to Jackson to be specific. Who is she, Art?

Hi-Y News

At their regular meeting last Thursday, the Hi-Y club elected their new officers for the coming year. The following boys were elected: President, John Hale; vice-pres., Wesley McAttee; secretary, Robert Dorer; treasurer, Dick Kinsey; sergeant, Andy Polkitt; and cook, Wilgus Osborne.

At this meeting it was decided that Chelsea should be the host for the 1940 District Hi-Y meeting. The various Hi-Y clubs in this district are invited, and at the time we shall ask representatives from two high schools, Dexter and Manchester, who have no local Hi-Y clubs to visit us. Perhaps the Chelsea Hi-Y will be able to spread the Hi-Y fellowship in this vicinity.

The Home Ec. club will furnish the evening meal. The cost for this will be 40c. The entire cost for the meeting is 50c, which includes this meal.

At this time a district-counselman will be elected for this district. We would like to also have a candidate from Chelsea to Oberlin (the National convention).

The Chelsea Hi-Y also plans to have one or two delegates to Hays-Went-Ha, the Y camp, sometime during the summer.

The Hi-Y club is selling National Wildlife stamps during National Wildlife Week, March 17-23. They are very beautiful stamps, in color, and all sportsmen in this vicinity who are interested in promoting wildlife conservation in Michigan should cooperate with the Rod and Gun club in buying the stamps. They may be purchased from any member of the Hi-Y.

ESSAY CONTEST FOR SCOUTS

In commenting on the nation-wide contest, open to all Scouts on the topic "Why I Am Glad I Live in America", Scout Executive Walter MacPeck expressed enthusiasm and indicated that he expected that several hundred Scouts from Washtenaw and Livingston counties would participate.

The contest is conducted by the U. S. Rubber Company which will award \$4700 in prizes to the Scouts submitting the best essays. No one is required to buy anything in connection with the contest. The Scout merely calls at the dealer's store for an entry blank and writes his essay of not more than 250 words and mails it to the contest office.

"I covet for every Scout the experience of thinking through and writing down his ideas as to why he is glad to live in America—this is a valuable experience for him, regardless of whether he might win any prize", Mr. MacPeck said.

March has been a corker, having displayed more continuous cold weather than any other month this year, and since spring arrived on the calendar—has treated us to more snow than fell all winter. Not satisfied with the above, it trotted out a thunder storm Tuesday night that made even sound sleepers sit up in bed and wonder if Villa was coming. It sure has been some little old month, and there is more than a week of it yet to come.

KOREAN SPEAKS AT KIWANIS

Speakers at the Monday evening meeting of the Chelsea Kiwanis club were Winfield H. Line of Howell, and his wife, Dr. Grace Song Line, who recently returned from a trip to Japan, where she was the first Korean woman to receive the degree of Doctor of Public Health in this country. She was the first Korean woman to come to the University of Michigan, having received her medical doctor's degree in Tokyo, Japan.

Mr. Line has traveled on foot through every state in the union. On a trip around the world, he later visited 44 countries in 37,000 miles of travel. Mr. and Mrs. Line told their experiences in Korea, especially their difficulties with the Japanese military and civil intelligence officers, and discussed the problems of the orient. They also showed two reels of technical film, from which much had been cut by the Japanese authorities, but which showed much of the natural beauty of the country and the customs of the people.

It was one of the most interesting and instructive events that has occurred in the village, and was greatly appreciated by the members of the club and their wives.

A special feature of the occasion was a prettily decorated birthday cake with candles, celebrating the sixteenth anniversary of the local Kiwanis club.

Accidental Discovery
Accident often plays a large part in the discoveries of science. Roentgen, credited with discovering the X-ray, was put on the path of his epochal feat when he found that waves emitted from a Crookes tube, through which he had been sending electrical charges, registered on some photographic plates stored in his laboratory.

The accident statistics for 1940 have recently been released. Motor vehicle accident fatalities numbered about the same in 1939 as in 1938—approximately 32,600. Home accident deaths went from \$1,500 in 1938 to \$2,000 in 1939, an increase of about 2 per cent. Approximately 8,800,000 persons received non fatal injuries in accidents during 1939.

The year's economic loss due to accidents was about \$3,300,000,000. This includes wages lost, medical expense, the overhead costs of insurance, and property damage in motor vehicle accidents and fires.

These are staggering totals, showing how important it is that all of us pay more attention to the accident prevention problem.

Deer Hunting Citizens

The city of Biggs, Colo., has again lived up to a tradition that has been established for several years. It is that when the deer season opens, fully one-half of the population moves to the hills. Fortunately, as each hunter is only allowed to kill one deer a year, the hunters get back in time to prevent any serious breakdown in the city's economic and industrial life.

COOKED BY FLAMELESS HEAT;
IT'S TENDER AND IT'S JUICY AND
ITS FLAVOR CAN'T BE BEAT!

Electricity in itself is the fastest thing in the world and travels at the rate of 186,000 miles a second. It has taken years of research by engineering science to release this magic speed for cooking purposes.

The modern electric element brings glowing, intense heat into direct contact with the cooking utensils, with an absolute minimum of lost heat. There is no waiting with the improved high speed units which almost instantly respond to a turn of the control switch.

Today's Electric Range, like the automobile, has been accelerated to meet present-day requirements. This year's automobile has stream lines for wind resistance and the modern Electric Range has automatic control for drudgery resistance—it is the modern woman's demand for more speed in her kitchen.

Ohio Farmers Hoaxed

In 1887 Grain Swindle

In the late summer and early fall of 1887 three agents, claiming to be representatives of the Missouri and Kansas Grain company, sold to Ohio farmers a wheat claimed to be hybrid, at \$15 a bushel.

The price seemed to be exorbitant, but there was a catch and the farmers fell for it. The agents, bound themselves in writing to sell all the wheat the purchasers raised the succeeding seasons at the same price. Pay was taken in cash or notes which in some counties alone amounted to as much as \$25,000. The agents reaped such a harvest from Ohio farmers that they went into Missouri, where their fictitious business was investigated and all persons connected with it were indicted.

One of the men was Schuyler S. Cox of Ohio, who, getting wind of the trouble, fled back to Ohio and successfully remained in hiding until his companions were safe in the penitentiary. This was one of the most successful hoaxes ever perpetrated upon Ohio farmers, and it was long known as the Ohio hybrid wheat scandal.

Population Concentration
In the United States there are less than 50 persons per square mile as against about 700 in Great Britain, says a study issued by the Columbia University Press.

Tropical Fruit Boom
Anticipating continuation of the trend toward greater use of exotic tropical fruits in the American diet, 1,500 acres in the rich Everglades adjacent to Miami, Fla., have been opened to cultivate papayas, sapodillas, avocados, guavas, mangoes and pomegranates.

Popular Turkish Drink
Raki is one of Turkey's most popular drinks and is a clear, colorless liquid made from raisins grown in Smyrna and flavored with anise seeds. It is distilled three times, twice with the raisins and once after the anise has been added.

GENERAL HUGH S. JOHNSON Says:

WHY WHIP-SAW-WEIR?
It is hard for me to understand why Mr. Weir should be singled out for any whip-sawing by New Deal columnists because he accepted a fund-raising post on the national Republican committee.

If it is because he has a fortune, then the Democrats had better pour some ink-eraser over their own record: Johnny Raskob didn't hold exactly that post in 1928 but he was responsible for the financial end of the party effort. I don't know if Johnny's fortune then compares with now, but it certainly wasn't hay. Among other things he had that year was to underwrite some of the Warm Springs obligations to make it easier for Mr. Roosevelt to run for governor of New York.

Fat Cats Not Missing:
Of course, it may be said that Johnny wasn't a New Dealer. Frank Walker took over that responsibility when Mr. Roosevelt ran in 1932, and Frank is no potential pauper. The Democrats had their fat cats in both 1932 and 1936.

The New Dealers may kick such men around in the spotlight for the benefit of the audience—but they don't do it in the wings. Such lead-

ing lights as the ambassadors to France, England, the Vatican, and lately Poland and Belgium belong to their '60 families. They may mar them but they also marry them.

The royal family itself is conspicuously overlooking no opportunity to get into the fat cat class. All of which is O. K. and above criticism, but it doesn't justify cracks at men of different political beliefs for performing their political offices of citizens on the ground that they are far from being on WPA relief. Wealth is as yet no crime among us and neither is poverty of itself any particular passport to preference.

He Appealed and Won.
Of course, the attack on Mr. Weir slides off into different ground. First, that he opposed collective bargaining; second, that William Green once said that he offered labor nothing; third, that he once resisted in the courts a workers' election conducted by the old-NRA labor relations board.

The latter statement is true? He appealed to the courts against illegal action by that board—and won his case. Since when is that a disqualification? The other two statements are untrue. When the New Deal and especially NRA, began its

crusade for better labor relations, especially in the then crustacean steel industry, they had no more sincere supporter than Mr. Weir.

His own labor relations were good.

His was one of the first great companies voluntarily to seek an election supervised by government to determine the question of majority representation.

Agreed on Rules.
The board held a hearing and its agreed with the company and its employees on the rules for this election—which was then established procedure before the old-NRA board—a creature of executive order rather than of statute. Mr. Weir went back to Weirton to carry out the agreement. On the eve of the election an officious young lawyer of the later or janissary type of fourth it and announced a radically different procedure from that formally and regularly decreed by the board. Mr. Weir refused to accept this new usage and was up held in court. From that time on he got the worst running around and series of kicks in the pants of any industrialist of those times.

At first hand, I don't know enough about developments since to say whether that soured his view or changed his attitude, but I do know that when the New Deal started he was considered by the most liberal and progressive employer in his industry.

U. S. KIDDED ON DEFENSE.
This is the testimony of army officers before a senate subcommittee. Question: "How many anti-aircraft guns will you have at the end of this fiscal year?"

Answer: "I understand that there are 144 heavy anti-aircraft and 48 medium caliber anti-aircraft in the defense of London. The guns we have on order will be delivered by September 1941. All but 48 will be delivered by November 1940." (This figures a rate of delivery for the last 48 of a little over 4 guns a month.)

Alabama's Garden Supplies.
Garden experts estimate Alabamans should have \$10,000,000 worth more vegetables than the state produces.

Taxes From Churns
Before it reaches the consumer, butter picks up about 11.3 per cent in cost through hidden taxes, says the National Consumers Tax commission.

Barring the Borer
By stringing electrocuting lights around his cornfield, T. E. Hein, of the Indiana Experiment station, finds that he can attract and kill corn borers before they have any chance to lay their eggs. He declares the Country Home Magazine. Last year his wired field was almost entirely free of borers, while nearly half of the cornstalks on surrounding farms were badly infested.
