Public Invited To Visit Home Economics Dept.

The Home Economics Department of the public schools is planning an "Open House" for Thursday evening, April 11, from 7:00 to 9:00 o'clock. The public is invited to visit the new department to see the new building and equipment, and to learn more about the type of work to be carried on by the girls in these courses. There are 70 girls enrolled in this department at present.

The home economics course of today is a great distance ahead of the "domestic science" of yesterday, where the course was one of cooking and sewing only.

Today the purpose for vocational education in home economics in high schools is for the improvement of home and family life through the training of youth for the vocation of, or participation in, homemaking, particularly in the assumption of such responsibilities as provision of food for the family; selection, care, and construction of clothing; care and guidance of children; selection, furnishing, and care of the house; selection and use of home equipment; maintenance of health; home care of the sick; consumer buying; maintenance of satisfactory family relationships; and the application of arts and sciences to the home.

Jackson Youth Killed When Car Overturns

Fred Forbes, 17-year-old Jackson high school student, was killed in an automobile accident about 12:30 Sunday morning when the car in which he was riding overturned on US-12 near the Dancer Road, east of Lima Center. Two companions also were injured, but not seriously.

Don Thompson, 15, the driver, was bruised on the right leg, and James Tittle, 19, suffered severe bruises to his back and head. Both were treated at St. Joseph's Mercy hospital, Ann Arbor. Forbes died while being rushed to the hospital and a physician said his neck had been broken in the accident.

The youths were returning from a school party in Ann Arbor, when the car, reportedly traveling west on US-12 at 70 miles an hour, apparently failed to make a left curve, and hit the right shoulder. It then swerved across the highway to the left shoulder and then back onto the pavement, where it overturned and rolled several times. Thompson, the driver, said he believed something went wrong with the steering mechanism, causing him to lose control of the car.

Detroit Concern Leases Peat Plant Property

Farm Dryers, Inc. of Detroit have secured a five-year lease on the local peat plant building and land from Moss and Rhubach, Detroit, and will manufacture commercial peat moss to be used as a bacteria inoculant and for poultry litter.

A dehydrating unit was moved to the local plant on Wednesday and according to C. W. Hoffman, general manager of the company, it is expected that production will be started in about two weeks. Approximately five tons of finished product will be produced daily. The output of the one unit is already contracted for, and it is expected that other units will be added later. The plant will ultimately employ about ten men, according to Mr. Hoffman.

Farm Dryers, Inc. manufacture dehydrating units in Detroit which preserve farm products in their natural state, thus providing greater food value for livestock. Such a plant is operated by the company at Ypsilanti.

Federal Census Starts Throughout Country

By Harold S. Olsen, Squad Leader, Washtenaw County

The Sixteenth Federal Decennial Census of population, housing, and agriculture started in this community, and simultaneously throughout the United States, on Tuesday, April 2. This survey will be the most extensive of its kind ever undertaken by any country. In order that the statistics compiled may be of value, it is essential that full cooperation be obtained from the public.

Citizens of this community should be prepared to answer the following questions:—Home value, if owned; monthly rental, if rented; name of every person in household, including lodgers and hired help, and relationship to head of the family; ages of members of the household; marital status; schooling; citizenship; where did each person live five years ago, that is, on April 1, 1935 (this is to get a study of internal migration). To get complete facts of employment and unemployment, each person 14 or over must say whether he or she was at work for pay or profit in private industry during the week of March 24 to 30; if he is not working in private industry or regular government work, he is to say whether he was working for WPA, NYA, or CCC that same week. The report should also include the number of hours worked during the week of March 24 to 30 and the number of weeks worked during 1939, together with the amount of wages or salary received during 1939.

The first and only complete statistical record presenting all the facts about the houses in which 33,000,000 American families live will be the object of the housing census. For years it has been the contention of many

By Tuesday morning at 7 o'clock over 1200 feet of oil had collected in the well and the drilling stopped. From the time drilling started, the oil continued to rise in the well at the rate of 20 feet per hour. By this morning (Thursday) at 9:30 o'clock the well was flowing oil into the tank without being shot.—Reporter.

Federal Census Starts Throughout Country

(Continued from page one)

persons that the expansion of home construction is essential to bring about a return of prosperity. But experts never have been able to obtain a composite picture of existing housing facilities, nor obtain even an approximate demand for additional homes. This lack of information has made private capital timid about entering the field with any long-range, systematic development plan. The government and cities have been making efforts to stimulate home building, but the lack of factual data has acted as a deterrent to these efforts. The census enumerator will seek information from each family on the type of structure in which it lives. He will ask how the building is, what material it is made of; repairs needed; number of rooms; water supply; bath; tub; running water; lighting equipment; refrigeration; fuel used. To obtain a national picture of the home indebtedness situation, the enumerator will ask if the home is mortgaged, mortgage payments and interest; and real estate taxes. Cities will know from such information, what neighborhoods are lacking in housing capacity, and where there is the greatest demand for extension of water mains, electric lighting, sewage, and other improvements; builders and material men should be encouraged to go forward with improvement plans; and the possibility of additional employment by reason of new construction should help every community.

Agriculture as an industry has been in bad health for a number of years. Vital changes, both in this country and abroad, have directly affected the prosperity of the American farmer, and the farmer is therefore confronted with the problem of adjusting his production to meet these changes, and the census will tell him what these changes are. It is suggested that farmers acquaint themselves with the essential facts about their 1939 operations, such as acres in use for each crop; number and classifications of all livestock; and quantity and value of all products; amount of any farm mortgage; and expenditures for feed, farm implements, and fertilizer.

FORD DEALERS SPONSORING NICKNAME USED CAR CONTEST

The State of Michigan and some Ohio counties will be included in the limited \$1000 "Nickname Used Car Contest" being sponsored this week by "Dearborn Branch" Ford dealers. By midnight of April 11, ten used car buyers will each be \$100 better off, according to D. D. Harris, chairman, of Lansing, who describes the contest as follows:

"To enter our Nickname Contest all the used car buyer has to do is to give the car he buys a nickname. People have nicknamed their cars for years—such names as 'Betsey' or 'Elmer', for example. We want to encourage used car owners to think up better nicknames for their cars than 'Betsey' or 'Elmer'. So we are giving 10 prizes of \$100 each by April 11, for the catchiest nicknames. The names may be descriptive—'Lansing Liner', for instance—or funny or serious. Our judges are Hon. John L. Carey, Mayor of Dearborn; Gordon Kingsbury, Director of Advertising Courses at Wayne University; and G. D. Gettins, Automobile Editor of the Toledo Blade."

"Of course," said L. G. Palmer, local Ford dealer, "there's more to the Nickname Contest than a desire to improve car nicknames. We Ford dealers want to impress the public with the fact that this time of year is the best time to buy a used car, when the selection is largest and prices are low. We think it's well worth \$1000 to us to get action now from people who are in the market but are putting off buying for no particular reason."

Mr. Smith is an ideal father. His son wants a bicycle. The financial condition of the Smith family is none too good, but Mr. Smith economizes—smokes nickel cigars, walks to work—and, when son's birthday arrives, presents him with a shiny new bike and sends him out to enjoy the newly acquired vehicle. Mr. Smith sits back with pleasure and a bit of pride. He has made his son happy; he has done his duty as a father.

But has he? What about instructing his child in the proper way to operate a bike? What about teaching this youngster the traffic rules which apply to bicycles as well as automobiles? What about warning him not to be a show-off rider? The way this boy rides his bicycle is very likely the manner in which he will operate his car when a grown man. It is the parent's duty to caution their children to think and act safely. Safety habits instilled in the mind of a child will be lasting.

ATTEND DIVISIONAL MEETING
Eleven members of the Chelsea Kiwanis club attended the annual meeting of Division 6 at the Masonic Temple at Dexter last Thursday. The Dexter club was host to the meeting. Lieutenant-Governor "Mike" Loessell of Ypsilanti presided. The reports of all the constituent clubs were read. Secretary Forney Clemens of Ann Arbor spoke on the three coming events in Kiwanis: the conference on vocational guidance to be held at the university this year under the auspices of the state committee for vocational guidance, the International Kiwanis convention to be held in Minneapolis in June, and the state convention scheduled for early September at Port Huron.

The address of the evening was delivered by District Governor Marshall Reed on "The Humanics of Kiwanis." The speaker coined the word to set over against the mechanics of organization. While the organization of Kiwanis is important, and extremely efficient, almost to the point of perfection, the speaker contended that it was the "humanics" of the movement that were the most important. No where does this assume greater proportions than the work among crippled, underprivileged and neglected children.

Above is the Buick SPECIAL 4-door touring sedan \$896*

WE'RE talking here to those thousands who have not yet achieved a lifetime ambition. That is to say, they don't yet own a Buick.

We want to point out a few facts about the Buick SPECIAL pictured here—show how it swings wide the door on a golden opportunity. Step into this sleek sweetheart. Your treadle foot touches off a trigger—

quick Dynaflex straight-eight engine that's just about the smoothest thing that runs, thanks to micro-poised-balancing after assembly. Swing through the gear changes and you find the same easy, finger-flick shifting as in the most costly Buick. And the same recoil-mounted Kneecap Action soaking up bumps before they reach your hand on the steering wheel.

Take a rough road in stride. You'll find that stout Buick Coil Springs muffle out the bumps—and they'll never need lubrication. Look out through the easy-vision Safety Plate Glass in every window. Check up on the equipment: Two-Way Direction Signal with

automatic cut-off, built-in automatic choke, oil-filter, high-capacity water pump—they're all there. Here's the smart style, the blithe performance and the solid, substantial Buick quality of materials and workmanship that make this the car you've been looking forward to. Yet the figures on the SPECIAL make you think it's a six instead of a husky straight-eight. Indeed, when you count in the included equipment, it costs no more than some cars with lower advertised prices. So look into the Buick SPECIAL. See if this isn't the time to "step up" to the car you've always wanted. You can take a trial drive any time just by asking your Buick dealer.

Price begin at \$895 for Business Coupe—Sedan prices start at \$935—

*delivered at Flint, Mich. Transportation based on rail rates, state and local taxes (if any), optional equipment and accessories—extra. Prices subject to change without notice.

PROCLAMATION

Army Day will again be celebrated throughout the country on April 6, 1940.

In view of present world conditions, with hopes of peace and fears of war filling the minds of people the world over, it is fitting that we observe this day, as an expression of our confidence in and encouragement of the United States Army.

In a nation of 130,000,000 people, our standing Army remains one of the smallest in the world. This is so, because it is an instrument of defense, not of aggression; a guarantor of peace, not a provoker of bloodshed. As such, it is deserving of our homage, and for that reason, I urge my fellow citizens to join in patriotic observance, by the display of flags, on Army Day.

(Signed)
ALFRED D. MAYER,
President, Village of Chelsea.

IMAGINARY DIARY OF SUMNER WELLES

MON.—Arrived in Italy okay. Was notified that Mussolini was busy reviewing a new goose step but that Count Ciano would see me. Nearly started a new war by absent-mindedly asking hotel manager if he knew where I could get a good Italian dinner.

TUES.—Was late reaching parley with Ciano because of streets being blocked by parades. Found Ciano so peaceful he dispensed with

usual Italian custom of starting to argue before hearing the subject announced.

The count says Mussolini wants peace as soon as he is sufficiently armed for it.

WED.—Traveling through Switzerland. The Swiss are so peaceful I am wondering if other countries would be less belligerent if they yodelled.

THURS.—I see Goering and Hitler soon. The prospect is quite unnerving.

FRI.—Saw General Goering. Both of him. He wanted to know if I was H. G. Wells or Orson Welles. It was hard to get down to peace talk as he wanted to discuss spring styles in men's military coats. He said Germany was not opposed to peace unless it meant she would have to get along without quarrelling with everybody. He asked me if I thought Hitler might retire to the background. He said, "Can you imagine any prime dame retiring to any background?" I had an uncomfortable feeling that there was something under my chair. It turned out to be Goebbels. As I left Goering he said, "Remember us to Roosevelt and tell him not to get discouraged; he'll get into this mess yet."

LATER.—Met Hitler in the Rum-pus Room. He asked me how America was and said he was sorry to hear it was so bad.

He then asked for an explanation of the peace idea. I told him Mr. Roosevelt felt peace would be a good thing. He replied, "When I've been in as many fights as Roosevelt I'll think so, too."

He suggested that we carry on our discussions in Russian. I said I did not understand Russian. He said, "Neither do I, but a peace conference is a conference." One word from me led to another. In fact it led to a dozen others. Hitler said Germany was always for peace and that if her artillery held out she would get it.

He kept fumbling with a microphone during the entire talk and once remarked, "If television was here I could conquer the world in six weeks."

MON.—Arrived in Paris. Daladier said France was not only for peace now, but had been hoping for it for centuries.

TUES.—In London. Saw Chamberlain. He suggested that we hold discussions in English. I said this might commit us to a clear understanding of what we were saying. He saw the danger of this at once.

I am to see him again tomorrow. I can't escape the conclusion that everybody in Europe is in favor of peace up to the point where peace is proposed.

WHAT! NO SMELT?

The Smithsonian Institution, believe it or not, publishes a catalogue listing the fishes taken on President Roosevelt's cruises. (This department has actually seen the one for 1938.) What's more, the President always brings back fish for the Smithsonian Institution to keep. We note that Franklin is represented in the Smithsonian by the Muraenidae (morays), a Sphyrnidae (baracuda), an Acanthocybium petus and, honestly, one Haemulidae or grunt, as most fishermen call 'em.

ESSAY CONTEST CLOSES

The essay contest for high school students on the topic "Why Increased National Defense Is the Best Insurance Against War" conducted by the local American Legion Auxiliary, ended recently. Seventeen students entered the contest and Lorraine Weatherax and Roy Broessamle were the successful contenders and each received prizes of \$2.50. Honorable mentions were won by Carolyn Kaimbach, Valerie Leeman and William Rademacher. The winning essays have been entered in the State contest.

Naming Solomon

The name Solomon means peaceful and was given Solomon because of a prophecy which foretold his birth: "For his name shall be Solomon, and I will give peace and quietness unto Israel in his days" (1 Chronicles 22:9).

Tea Prices

In 1859, tea in New York was selling for a dollar a pound. George Huntington Hartford, believing the price was too high, opened a store which was the forerunner of modern chain distribution, and sold tea for less than half this price.

The girls are becoming quite professional at serving. They cooked and served the F. F. A. banquet which was held Tuesday evening, March 26 at 7:00 o'clock. The girls wished to do something worth while with their money so they are going to buy two Venetian blinds and some small plants for their new building. The F. F. A. banquet made a total of three banquets which we have served.

has been doing herself right proud by singing for some of our drills. We enjoy and appreciate these classes very much. Before they started those of us who knew how to dance were just a bit timid in trying. Now, however, we at least make a try. These classes are to continue on through May. There is no expense connected with these classes as they are part of a social training project sponsored by Mr. Ford.

Confucius Say

Dancing class convened as usual on Tuesday, but due to the illness of our instructor, substitutes were sent out to carry on the class. We hope we made a good impression but some of us did act a bit crude, shall we say? Several of the boys from both groups have been trying their hands at "catting" quadrills, and (if I must admit) they do very well. Betty R.

Joan W. had a fling over the weekend. It's a wonder "they" didn't wait out the road from Chelsea to Ann Arbor, or maybe they weren't on the main drag! Those four charming personalities were together again after the F. F. A. banquet. You know I mean Mary M. and Ruth Y. and their better halves. Several underclassmen were seen out to Lima Center last Thursday.

Parkway Playground Project Contest

A contest is being sponsored for a clear knowledge to school children (Grades 7-12 inclusive) of what such a project really means to people in these counties.
The prizes range from \$3.00 to \$100 on these essays which must be from 500 to 1000 words in length, and must not be submitted later than June 1, 1940 (from the schools).
Each winning essay in the school contests will be entered into the county contest and that winner's essay will be entered for the grand prize of the five-county area.
If the five counties or any two adjacent counties vote in favor of this project a metropolitan district will be established over these counties.
This project covers Livingston, Macomb, Oakland, Washtenaw and Wayne counties.
The standard that should be had for recreation is at least one acre for every one hundred persons and now there is only one acre for every five hundred persons.
This proposal will come up in November and a vote of "Yes" really means a lot.

Many Prizes Offered for 'Know Michigan' Essays

Additional prizes for the best essays entered by high school students in the "Know-Michigan-Tourist Week" essay contest were announced this week by Mrs. Arthur W. Bromage, chairman of the essay judges, speaking for the county committee in charge of the contest.
The Washtenaw contest is part of a state-wide competition being conducted in an effort to make Michigan residents more familiar with the possibilities and present significance of the state's recreational resources.
"We hope to distribute prizes in such a way," said Mrs. Bromage, "that the best essay in each high school will be rewarded. In addition, there will be several prizes at large for best essays in the county."

The prizes include the originally announced week-end for two persons at Traverse City during the cherry season. In addition to this, some young man will win a week at Camp Charlevoix for boys. A week at Camp Newkirk is also among the prizes, and is offered by Herbert Twining of Ann Arbor.
The Roosevelt high school in Ypsilanti will provide a trip for two persons to the Blossom Festival in St. Joseph and Benton Harbor. The Ann Arbor Chamber of Commerce is sponsoring a trip for two persons to the Holland Tulip Festival.
A Kadette radio, offered by the Kadette Radio Corporation, will be won by some student, and the International Research Corporation is providing two Argus cameras as prizes.
The State Savings and the Ann Arbor Savings and Commercial Bank are each offering a \$10 deposit account as prizes, as are the National Bank of Ypsilanti and the Ypsilanti Savings Bank. The People's State Bank of Milan and the Chelsea State Bank are each offering a five-dollar deposit account as prizes.

Also among the prizes is a season ticket to the May Festival, provided by the University Musical Society. A book, each is being offered by the Ann Arbor Lions club, the Ann Arbor unit of the American Legion, and the Ann Arbor Kiwanis club.

Auto Taxes In State Show Sharp Increase

Motor vehicle registration fees for 1939 totaled \$21,965,018, an increase of \$1,117,705 over the previous year, according to figures compiled by Harry F. Kelly, secretary of state. The receipts cover licenses for all kinds of motor vehicles, from a motorcycle up to a giant truck; fees for the transfer of licenses and titles; issuance of duplicate plates; dealer licenses and driver's permits.
For license plates alone, car owners paid \$19,935,345, of which \$18,893,910 was apportioned directly back to the counties for highway improvement and maintenance. The balance, \$41,435, represents the state's cost of collection.
Registration of vehicles of all types was 1,325,302, as compared with 1,270,378 for 1938. Greatest increase was in the passenger car division, 54,578 more licenses being issued. Commercial cars jumped from 112,138 to 116,186; house trailers from 9,568 to 10,904.
Gas tax collections for 1939 were \$29,788,442, as against \$27,679,387 for 1938.
With licenses for 1940 running ahead of 1939, and gas tax collections for the first months of the year greatly exceeding the mark for the previous year, Secretary Kelly estimates that motorists will contribute more to the upkeep of the state in 1940 than at any time in the history of Michigan.

Poultrymen Vary In Opinions On Chicks

Michigan poultrymen can't agree. Although thousands of them have changed their management practices in order to hatch or purchase baby chicks in February or March, the most popular month still is April and many are started in May.
So Ray Conolly, as field manager of the Michigan State Poultry Improvement association, with headquarters at Michigan State College, sums up what different treatments are required by the later chicks.
February and March chicks can be brooded under more even temperatures, disease is less prevalent and pullets start laying when eggs are highest in price, broilers go to market when prices are best and the early brooding is at a time when a farmer has free time.
Here are a few advantages of the later hatching. The chicks grow rapidly after April or May hatching. Insects are plentiful, sunshine is easier to get, chicks are usually lower in price, less heat is required for brooding.
But good poultry practices are necessary for these late chicks, Conolly points out. Brooder house temperatures should be the same as for earlier chicks. Feeding practices should be similar except the mash consumption should be encouraged rather than heavy grain feeding.
Most important is sanitation to curb disease. Clean ground is necessary. Houses should be cleaned frequently and kept on clean ground. Feed hoppers and water dishes must be removed and cleaned often. Chicks should be kept away from old stock.
Thus, says Conolly, there may be more work involved, but these April or May chicks may still mature in time for profitable fall laying.

BIG PARDON

A subscriber says Boulder Dam is on the state line between Nevada and Arizona, and not in Colorado as stated in this column recently. Our subscriber is correct. The dam is located at a point where it separates the states of Arizona and Nevada. This "friendly criticism" is a source of satisfaction to us in that it betrays keen reader interest in our question column.

Problem—When will hard water not pour out of a pitcher? (Answer elsewhere in this department).

Ques.—What is the meaning of "soviet", as applied to Russia?

Ans.—"Soviet" is a Russian word which means a council. Hence, a council of the Union of Soviet Socialist Republics, established as a result of the Russian revolution of 1917, and later by the constitution of the Russian Union in July, 1923. The soviets (councils) are the primary organs of government based on the principle of communism, seeking to give the power of government to the working classes.

Ques.—What is the most northern point in the United States?

Ans.—The most northern point in the United States is in Minnesota, on the shores of the Lake of the Woods. It is a scant one mile farther north than the most northerly point in the State of Washington.

Answer to problem—When it freezes into solid ice.

Ques.—What is the cause of earthquakes?

Ans.—The earth is shrinking slowly, and this puts a good deal of strain on the surface rocks, especially in parts of the earth where rocks are being forced up into the mountain wrinkles. Sometimes a few layers of the rocks break under this strain, and the rocks on one side of the break slip up or down or sideways. The shock of this slip makes an earthquake.

Ques.—What will be the regular line-up of the Detroit Tigers this coming season? Does Paul Waner and Heime Manush both get left-handed?

Ans.—The regular line-up will not be known until late in the training season. We can only hazard a guess that the Tiger line-up will include McCoskey, Higgins, Gehring, York, Greenberg, Bartell, Campbell. Both

Manush and Paul Waner bat and throw left-handed.

Ques.—What do fish eat?
Ans.—There are a few fish which eat seaweeds or other fish, but most fish live on the microscopic plants and animals, millions of which are contained in every cubic inch of the surface water of the sea.

Ques.—What is the capital of Finland? According to newspapers it is Helsinki, but my geography says it is Helsingfors.
Ans.—Helsingfors was the capital before Finland got their independence from Russia. The name was changed to Helsinki when they established a republican form of government in 1919.

Ten '100 prizes to be awarded in the FORD DEALERS' NICKNAME
Used Car Contest closing April 13th

BUY YOUR USED CAR FROM ANY FORD, MERCURY, OR LINCOLN-ZEPHYR DEALER IN THE TERRITORY SHOWN ON THE MAP BY MIDNIGHT, APRIL 11, AND YOU'RE IN THE RUNNING FOR A \$100 CASH PRIZE!

Follow these 3 Simple Rules

- 1 See any Ford, Mercury, or Lincoln-Zephyr dealer in the territory shown on the map. Pick out any used car in his stock. When you've made your down payment, the dealer or his salesman will give you a certified, self-addressed and post-paid Envelope Card.
- 2 Write or print on the card a nickname for the car you bought, using not more than five words. Mail the card. It must be postmarked not later than midnight of April 11.
- 3 The ten best nicknames as determined by the judges will each be awarded a \$100 cash prize within a week after the contest closes. Decisions of the judges will be final. In case of a tie, duplicate prizes will be awarded. The judges are Hon. John L. Carey, Mayor of Dearborn, Mich.; G. D. Carlin, Automobile Editor, Toledo Blade; Gordon Kingsbury, Director of Advertising Courses, Wayne Univ. (NOT ELIGIBLE: Ford Dealers or their families, Ford dealers' employees or their families.)

Just Nickname the Used Car you buy! That's all! The ten best nicknames given to used cars bought from Ford dealers before midnight, April 11, in the territory shown on the map will bring crisp \$100 checks to the winning used car buyers!

We easy to Nickname a Car! To score high all you have to do is to hit on a simple nickname that's not as common as, say, "Betty." Such names as "The Lansing Liner," for instance, or "Toledo Express." (These names should not be entered.)

Limited Time! Prices Slashed! What a bargain you'll get if you buy from your Ford dealer NOW! You'll find the car you want at the price you want to pay! Make the down payment and you're in the Nickname Contest! Read the 3 Simple Rules!
