NORTHVILLE—Frightened cries of a cat coming somewhere from the building which houses the Northville library brought aid to the feline in distress Monday evening. When Mrs. C. H. Bryan, librarian, was unable to locate the cat, whose cries could be distinctly heard throughout the reading room, a call was put in for two

members of the fire department. Starr Herrick and Tom Houghton reported just about the time that John Barnes of Detroit, a building engineer, came upon the scene. A search revealed that the cat had been sealed into the wall partitions about a week ago when repairs and a redecorating project were under way at the library. With the aid of a flashlight and hammer, stones were removed from the foundation and the cat, splitting and cuffed, raced out of the fire wall which had confined him for several days. The cat, a Maltese-Angora, ran out into the night and has not been seen in the library neighborhood since. Record.

HOLLY—For the life of a weather man! Few hereabouts feel at all qualified for the job. One day last week, a bit of Spring plowing, on January 3, was being done with a tractor east of the village. Freezing temperatures and snow arrived again on January 4.—Herald.

ENTERTAINS HOMEMAKERS

Mrs. Arthur Kuhl entertained the Freedom Ideal Homemakers with a Christmas party on Friday, Jan. 3. A pot-luck dinner was served, gifts were exchanged, and games were enjoyed by all. Leaders Mrs. LeRoy Breitenwischer and Mrs. Paul Feldkamp gave an interesting lesson on modern dress finishes and demonstrated how to make cloth loops and several of buttonholes. Mrs. Frank Winter invited the club to her home for a half-day meeting on Feb. 21.

The Babcock residence on East Middle street, occupied by Mr. and Mrs. F. C. Mapes, burned to the ground early Monday morning.

At last after many months of weary waiting—in the old freight car—the new station of the D. J. & C. Ry. was opened for business Tuesday. Miss Lulu Feldkamp and Walter Beutler were married on Wednesday, January 17, 1917 at St. Paul's parsonage. Mr. and Mrs. Beutler will reside on the Peter Fletcher farm in Lima.

Myron Grant of Detroit, a former well known Chelsea resident, died suddenly on Tuesday, January 16, 1917.

Carlton Runciman, a former Chelsea boy, who has been superintendent of the Grosse Ile schools for several years, has resigned his position and has purchased an elevator at Lowell. The members of the High Five club were entertained at the home of Mr. and Mrs. George W. Millspaugh of Ann Arbor on Monday evening.

Mrs. Sarah L. Coy died at her home in Lima township on Sunday, January 14, 1917.

The residence of Thomas Fleming of Lyndon township burned to the ground last Thursday evening.

Elmer Gross of Freedom died on Sunday, January 14, 1917.

Mrs. H. L. Wood has sold her interest in the Hatch-Durand block to Mrs. Anna Hoag.

Mrs. John Buss of Freedom township died on Sunday, Jan. 13, 1907.

W. L. Wood has purchased the interest of the Hatch heirs in the building known as the Hatch-Winans block.

J. E. McKune, who has been an assistant in the Chelsea post office for the past seven years, resigned his position on Saturday. Miss Flora Atkinson will take the vacant place next week.

Rev. H. W. Lenz was in Toledo last week, conducting revival meetings.

Herman Hudson has sold his engine and sawing rig to parties in Dansville.

Governor Believes State Deficit Can Be Cut This Year

(Continued from first page)

about it; a few are downright resentful, labeling the Van Wagoner program "smart politics."

Van Wagoner's message called for the following increases in state spending:

1. "A nominal appropriation" for state defense needs.
2. "Funds should be made available" for a public health program to help control cancer and social diseases, and otherwise match "available federal grants-in-aid."
3. "Needed funds" to help assist 7,000 crippled children and 20,000 afflicted children.
4. "Appropriate funds necessary for equipping and operating state hospital facilities to their maximum capacity."
5. Pensions for 30,000 persons, as well as aid for dependent children and assistance to the blind. (The governor also said: "In the administration of the social welfare program wasteful practices prevail, particularly in direct welfare. In one county administrative costs were 17 per cent of the total budget. This should not be tolerated.")

More School Aid

6. "Definite state aid that will guarantee every boy and girl a full school year and every teacher a full pay."
7. "A sufficient appropriation" to provide retirement pensions for non-teaching employees of our school systems.
8. "Full recognition should be given to the financial requirements of the University of Michigan, the Michigan State College, the Michigan College of Mining and Technology, and the State Normal colleges."

(At Michigan State College the last legislative appropriation for classroom facilities was in 1929 and student enrollment has tripled since then. The college board has asked for \$2,500,000, explaining that state funds are needed imperatively to provide adequate room for instruction purposes.)

9. "Needed appropriations to place (five state institutions for handicapped and juvenile delinquents) on a standard of human decency and safety."
10. To overcome the "lack of adequate library facilities in many sections of the state," the legislature should make "an appropriation large enough to assume a reasonable library program."

Tourist Promotion, Parks

11. To institute a long-range program of advertising Michigan as a whole, the state should double the present appropriation for tourist promotion from \$100,000 to \$200,000 annually.
12. "Acquire frontage on the Great Lakes in the southern part of the state, so that parks may be developed more accessible to the large population centers."
13. "Equip many existing state parks with more sanitation facilities and other conveniences to make them more attractive and useful."
14. Increased personnel for the unemployment compensation commission to take care of the servicing of employees who are now exempt and who, the governor believes, should be included in the state act. This change would affect smaller industries that employ less than eight persons and which at present are not taxed.
15. Establishment of a fair labor standards act in Michigan to police wages and hours of employees in intrastate industries. The exact language used by Governor Van Wagoner: "Wages and hours act adapted to Michigan conditions should be made available to all Michigan workers, and not only to those now employed by industries engaged in interstate commerce."

Honeymoon on Wane
Legislators' reaction to this 15-point program of increased state spending were varied. Democrats enthused; Republicans, who possess control, expressed doubt as to the state's financial ability to spend more and to reduce the deficit, too.

Rep. John P. Espie (R) of Eagle pronounced: "Idealistic but very impractical."

Thus the preliminary sparring began. Indications are already at hand that the bi-partisan honeymoon, if it ever existed, is already on the wane.

Cattle Shun Buttercups
At Acadia National park in Maine, where the Cadillac mountain's granite strength rises sheer from the Atlantic, are many other natural beauties. Its meadows, in springtime, bright with buttercups framed setting of evergreen, are favorite subjects for artists. Visitors frequently ask the ranger naturalists why these golden blossoms abound undisturbed. Abundance of buttercups, in spite of grazing domestic stock, is due to the fact that the blossoms secrete a caustic, caustic juices that have poisonous reactions upon horses and cattle. These animals instinctively shun the pastures where the flowers predominate, so that the buttercups multiply unchecked. When dried the blossoms lose their acid juices, so that the fodder cut from these same pasture lands is not affected.

DOES FORD PAY GOOD WAGES?

HERE ARE SOME FACTS about Ford Labor.

During the year ended November 30th, 1940, the Ford Payroll throughout the United States averaged 113,628 hourly wage earners, not including office employees, students, or executives. They were paid \$185,105,639.12. On this basis, the average annual wage was \$1,629.05.

According to the latest available government figures, the annual average wage of all workers in employment covered by old age insurance law was \$841.00.

If the 45,000,000 workers of this country received the same average wage as Ford employees, they would have had additional wages of more than \$35,000,000,000, thus increasing the national income about 50%. Think what such an increase would mean to the workers of this country and to the American farmer, whose prices are based on the national income.

Wage scales in the Ford Rouge plants are divided into three classifications:

Unskilled

Minimum hiring wage . 75c per hour

Semi-skilled

Minimum hiring wage . 80c per hour

Skilled

Minimum hiring wage . 90c per hour

Higher wages are in consideration of ability and years of service.

Minimum wage scales for unskilled labor at the Rouge plant, are the highest in the industry. Top wages for skilled labor compare favorably with, or are higher than, wages in other automobile plants.

Now some facts on Ford labor conditions:

Not only are sanitation and other health conditions the best in the industry, but Ford also leads in safety devices for the protection of employees. Proof of this is found in the following com-

parison of compensation insurance costs:

The national average rate in automotive manufacturing plants as computed by the National Association of Underwriters is in excess of \$1.50 premium on each \$100 payroll. The Ford cost of workmen's compensation is less than 50c.

This indicates that the chance of injury in a Ford plant is much less than in the average automobile plant.

The Ford Motor Company has no age limit for labor, and in fact deliberately attempts to keep older workers working. The average age of Ford workers at the Rouge and nearby plants is 38.7.

A recent check-up shows that nearly one-half the workers at these Ford plants were 40 or over, falling into these age groups:

25,819 between 40 and 50
14,731 between 50 and 60
3,377 between 60 and 70
417 between 70 and 80
12 between 80 and 90

In addition to the so-called regular employees, the Ford Motor Company has hired, and now has on the payroll, at the same regular hourly wage, thousands of workers who are blind, crippled or otherwise incapacitated for normal productive work. They are not selected for their ability to build cars or to maintain the plant. They are on the payroll because of Henry Ford's belief that the responsibility of a large company to labor goes beyond the point at which the unfortunate worker can no longer produce profitably.

The above are facts. They are open to anyone who really wants to deal in facts. Anyone who wants to get a job... buy a car... or place a national defense contract on the basis of fair labor treatment must place Ford at the top of his eligible list.

Higher Prices for Farm Products Are Predicted

Michigan farmers can wear smiles of optimism, for a forecast of 1941 prices and markets indicates agriculture in this state will fare well in the next 12 months.

Summaries of the digest prepared by R. V. Gunn, Michigan State College agricultural economist, start out with prospects for higher prices this year for hogs, lambs, dairy and poultry products and some fruits and vegetables.

No increases appear likely for wheat, cotton or tobacco. Gunn finds it's difficult to predict a trend for beans, soybeans, potatoes or sugar beets, but sees no reason for any decline. For the United States as a whole, economists forecast for 1941 an 8 to 10 per cent farm price increase over 1940, assuming no real inflationary movement in this country.

Estimates still are too meager to give a complete picture of Michigan's income from agriculture in 1940. Gunn, however, estimates the farm returns may equal the 245 million dollar rural income of 1937 or even exceed that figure and be the highest since 1929.

Another part of the picture of prices might seem to cast a shadow on the good news. Prices of farm machinery, automobiles and building materials are expected to average slightly higher in 1941. Farm wages probably will be somewhat higher as well as fertilizers. Yet these are affected by the same factors of defense preparation, indicating farm products cannot be worth more in a more restricted domestic market unless other earning classes obtain more.

Gunn suggests that if war continues, production costs in 1942 may advance as much as farm prices. If this proves true then he thinks the ratio between prices received and prices paid in 1942 would show no improvement over 1941.

Employers Must Issue Statements To Workers

Employers who have not issued wage statements to their workers who are covered by the Social Security Act, covering earnings for the year 1940, must issue such statements now covering earnings of such individuals for the 12 months just ended.

This statement was made by W. I. Rhynsbarger, manager of the Social Security Board field office in Jackson. Mr. Rhynsbarger cited the following passage in the Internal Revenue Code, as amended August, 1939, to show the duty that is required of employers of persons who are covered under the old-age and survivors insurance system. The citation follows:

"Every employer shall furnish to each of his employees a written statement or statements, in a form suitable for retention by the employee, showing the wages paid by him to the employee after December 31, 1939. Each statement shall cover a calendar year, or one, two, three or four calendar quarters, whether or not within the same calendar year, and shall show the name of the employer, the name of the employee, the period covered by the statement, the total amount of wages paid within such period, and the amount of the tax imposed by Section 1400 with respect to such wages."

Commenting on the meaning of this provision Mr. Rhynsbarger said: "Where statements have been issued regularly, in the manner prescribed by the act, an annual statement, which is called a 'receipt for wages' need not be issued. Where no written statement has been furnished heretofore, an annual statement is required for all workers. Any employer who willfully fails or refuses to supply such statements is subject to a civil penalty," he added.

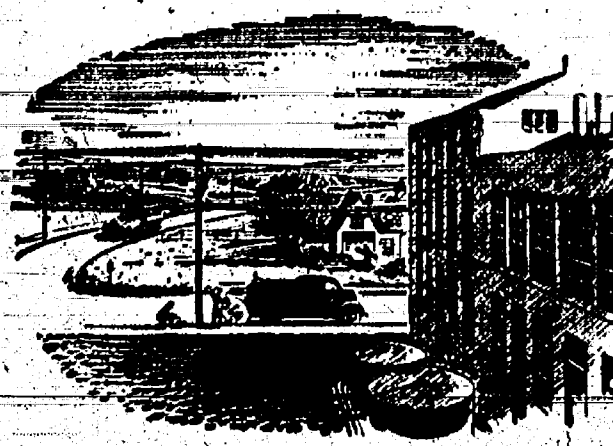

The law provides that these statements must be issued not later than February 23, covering the year 1940. In cases where a worker leaves the service of an employer, the statement must be given on the day when the employee receives his last wages.

Women Better Drivers

The much-maligned woman driver finally has found a champion in Yale university. Studies conducted by the eastern university among 3,000 Connecticut drivers seems to have exploded the old theory held by many that men were better drivers. It was found that while women drive about half the mileage of men, they have less than one-third of the accidents. It was also revealed that young drivers have more accidents per mile than older drivers. Motorists between the ages of 20 and 25 had three times as many accidents as drivers in their forties.

Take Charge, Mister—and

Let's Fireball!

THERE'S a new word spreading through the vocabularies of car owners who have made firsthand acquaintances with this slick new 1941 Buick.

It's a word we first picked out as an apt description of a new and better engine—but it is rapidly coming to mean a completely new and excitingly pleasurable manner of motorcar travel.

All over the country, "to fireball" now means to enjoy both ease and dispatch in your travel by car—with a very special new manner of thrift.

Not the ordinary, scrumpy, self-denying sort of thrift, but thrift with all the thrills left in!

Now, just why that happens is easy to understand.

*Optional equipment on the Buick SPECIAL, standard on all other series.

Reinforced by Compound Carburetion* this FIREBALL eight develops nearly 17% more horsepower on exactly the same fuel rationing.

With all that power on call, we can use a more economical gear ratio as our standard high gear—a ratio that ups miles per gallon by giving more revolutions of the wheels for every revolution of the engine.

Then, in addition, we have in Compound Carburetion a fuel supply system that adjusts itself according to the driving conditions you meet.

Thus your engine is always getting the ut-

most benefit out of the least amount of gasoline that will give the performance you want.

And that spells economy.

So much economy that a man who drives 15,000 miles a year gets as much as 2,000 miles' extra driving on the same amount of fuel.

And that, Buick buyers will tell you, is something very much worth looking into through a free demonstration such as any Buick dealer will gladly give.

DANCER HOUSE BURNS

The home of Mr. and Mrs. Emmet H. Dancer on US-12, three and a half miles east of Chelsea, was destroyed by fire between 8 and 9 o'clock Monday forenoon, with nearly all of the contents. The cause of the fire has not been determined. When discovered by Mrs. Dancer, smoke was issuing from the basement. The Chelsea fire department responded to the call but were unable to save the building and could only keep the flames from the nearby garage.

ENTERTAINS RELIEF CORPS

The Women's Relief Corps was entertained at the home of Mrs. Joseph Drayer on Tuesday afternoon, with Mrs. Russell Olson as assisting hostess. Various games furnished the amusement for the guests. Prizes were awarded to Mrs. J. V. Burg, Mrs. Jacob Mohrlock, Mrs. John Schieffelin, and Mrs. Carl Swickervath. Dainty refreshments were served by the hostesses.

JACKSON MAN INJURED

A. J. Downing, an employee of the Post Road Co. Jackson, was injured about 3:30 Tuesday afternoon when his automobile crashed into a tree on the Clear lake road. He suffered a fractured clavicle and cuts about the head. His injuries were treated at the office of Dr. A. A. Palmer, after which he was taken to his home near Jackson.

PRISON CHAPLAIN SPEAKS

Rev. Samuel B. Wenger, the Protestant chaplain at Southern Michigan Prison-Jackson, spoke to the Kiwanians Monday evening on "A Sociological Program for the Rehabilitation of Prisoners." The extended period of discussion following the talk revealed the deep interest of the men in the subject.

ANNUAL CO-OP MEETING

Quichua is the language of the Incas spoken today in Bolivia, Peru and Ecuador.

Deeryard Inspection

Scenes like the above will be common in swamps and winter deer yards of northern counties during coming weeks as conservation officers and men who work with the state's deer herds conduct boy scouts, 4-H club groups and interested adults on inspection trips through areas where deer congregate when weather is severe. Conservation department game men keep close check on the condition of deer herds in these winter yarding places and will conduct some 600 4-H club members on inspection trips that are part of 4-H study programs. In scene above, conservation officer talks about deer that has starved in overbrowsed swamp.

Pomona Grange Meets At Lima Center Hall

A meeting of Washtenaw Pomona Grange was held on Tuesday at Lafayette Grange hall, Lima Center, a business session preceding the potluck dinner. The afternoon program was as follows:

Songs—"Work for the Night Is Coming", "America the Beautiful" Led by Mrs. George Lavender.

Reading—"Who Killed the Grange?" Mrs. Evelyn Marsh.

Solo—"The Old Refrain"—Mrs. Kenneth Proctor, accompanied by Mrs. Vincent Ives.

Debate—"Resolved that a woman is as well fitted for a business career as a man." Affirmative: Mrs. Mahassy, Mrs. Roy Ives, Mrs. Ernest Braun; Negative: N. W. Laird, Mr. Marsh, A. Campbell. The affirmatives won the debate.

Vocal solo—"The Bells of St. Mary's"—Mrs. V. Ives, with E. L. Beifuss, accompanist.

Solos—"The Wheel of the Wagon Is Broken"; "Winter Wonderland"—Mr. Beifuss.

About 75 attended the meeting.

CONG'L P. F. MEETS

The Pilgrim Fellowship of the Congregational church met at the home of Robert Perkins last Wednesday evening for their mid-week meeting.

The meeting was opened with a piano prelude by Mary Christwell. Peggy Almond, president, turned the devotional meeting over to Martha Barber and Dwight Gadd. Those taking part were Ruth Gracey, Rohn Miller and Charles Walker.

During the business meeting plans were discussed for the coming six months work, and special meetings were planned.

Barbara White and Jane Christwell were in charge of the social hour. Games and stunts were enjoyed and prizes were awarded.

Refreshments of home-made ice cream and cake were served. There were 29 present.

HOMEMAKERS' CLASS MEETS

The Homemakers' class met January 9 in the Home Economics room with a large attendance. A very interesting and educational talk was given by Mrs. Martha Jeffers, County Nurse. The topic included discussion of health gains made in this and other counties, set goals that could be attained in this county, the value of immunization of children and laws governing this and of its vital importance in the future.

The second class will be held this Thursday, January 16, at 8 o'clock. Tailored finishes will be the topic. Everyone is requested to bring their sewing equipment; also a medium size piece of spun rayon.

CHILD STUDY CLUB

A rare, artistic presentation of "Japanese Prints" was handled most capably by Dr. Otto La Porte of the University of Michigan at a meeting of the Child Study Club at the home of Mrs. Warren Daniels on Tuesday evening, January 14.

As a guest lecturer at the Imperial University of Tokyo on repeated occasions, Dr. La Porte has been able to build up a knowledge of Art in the Orient which is outstanding among his talents. He showed how the rich, emotional life of the race is characterized in the temples, festivals and ceremonies; how the "Pagodas" are built as a sequence of umbrellas to protect some relic prized by the people; how each temple is protected at a distance by some gateway quite removed from the temple itself; how surrounding waters are common to all structures as a part of their artistic and traditional arrangement. Even the age old wooden pillars that support the foundations and find foothold in the sand seem strongly to be calced for strength.

Dr. La Porte says that the finest prints were worked out from the years 1700 to 1800 and during that time the most outstanding and successful artists were Harunabu, Utamaro and Toyakuni. The displays and descriptions of his prints were most fascinating for surely the Japanese have a technique which they alone may claim as individual.

To continue the program Miss Marie McNell gave a group of piano selections—"The Adagio movement from 'The Moonlight Sonata' by Beethoven, 'Prelude' by Chopin, 'Second Mazurka' by Godard.

Assisting Mrs. Daniels with refreshments were Mrs. Sidney Schenk and Mrs. Charles Meserve.

CELEBRATE ANNIVERSARY

St. Paul's Mission club held a meeting on Thursday afternoon, celebrating the sixth anniversary of its organization, also the 83rd birthday of the hostess, Mrs. Elizabeth Wackenhut.

Devotionals were in charge of Mrs. Louis Eppler, followed by:

A German reading—Mrs. Albert Widmayer.

Reading—"A Prayer for the New Year"—Mrs. Hazen Lehman.

Reading—"The Silent Sufferers"—Mrs. Alvin Vail.

Reading—"If You"—Lillie Wackenhut.

Song—"Happy Birthday."

The afternoon was spent in sorting Christmas cards, making booklets, and crocheting mugs. A delicious luncheon was served at a table decorated with candles and two birthday cakes.

The next meeting will be held at the home of Mrs. Hazen Lehman.

Sharon

The Ladies' Aid will meet with Mrs. Albert Bahnmiller at her home on Thursday, Jan. 23 for an all day meeting.

Mrs. Roy Raymond, who has been sick for the past two weeks, is improving. Sidney Lehman was also on the sick list last week and unable to be on his job.

Mr. and Mrs. Harold Wahl of Francisco are the parents of a little son, Daniel Harold, born Jan. 4. Mrs. Wahl was formerly Miss Margaret Curtis, daughter of Mr. and Mrs. Amos Curtis. Mr. and Mrs. Walter Haab are also rejoicing over the birth of a son on January 13.

Reuben Haselschwerdt resumed his duties as jurymen in Ann Arbor on Tuesday morning after a few days' vacation.

Women's Toes More Sensitive

The bare toes of women are more sensitive than those of men, a Cornell university psychologist reports. He found that women can differentiate between various grades of sandpaper with their toes much more accurately than their husbands can. Results of other tests proved that left hands are quicker, but make more errors than right hands.

Chelsea Team Loses

By Dwight Gadd

Without the much-needed services of Junior Miller, star forward and high scorer, the Chelsea team was defeated last Friday night at Belleville to the tune of 38 to 25.

The Belleville team started right to work and piled up quite a lead in the first few minutes of play. The Chelsea team couldn't get started and it began to look as if it was going to be a rout. Our boys finally settled down but by that time they had 11 points while all we'd been collecting was 4. It stood the same at the quarter.

In the second quarter Chelsea began to hit the basket and have a little better defense. Policht flipped a couple in to start his scoring and Kusterer made one. Toward the close of the period a couple of free shots were made. They meanwhile made 5 points. At halftime the score stood 16 to 12, still in favor of Belleville.

Chelsea outscored Belleville again in the third quarter 8 to 4, and then the action began.

The fourth quarter was a knock-down drag-out affair with both sides piling up the fouls. Neither side was able to score for quite a spell and then they cut loose with a display of lucky long shots and went ahead quite a safe margin. Chelsea tried hard but was unable to overcome this lead so the final score stood 38 to 25.

The game was rough and dirty, 25 fouls being made in all.

The game with Grass Lake was postponed because of sickness in both schools.

The team goes to Milan tomorrow night. Let's have lots of supporters there to help the fellows get a victory.

Notten Road

Leont Sanderson has been confined to his home for a few days with the flu.

Mr. and Mrs. Chester Notten and sister Mabel were called to Lima on Monday to assist Mr. and Mrs. Emmet Dancer combat the fire which destroyed their home. Very little was saved of the contents.

There was a good attendance at the Grange which was held at the home of Mr. and Mrs. Chester Notten on Friday. The next meeting will be held at the Allmendinger home at Crooked Lake.

Adolph Schenk, who has been in Grand Rapids for a visit, returned to his home here.

Herman Hayes has been on the sick list for a few days.

Mrs. T. G. Riemschneider returned Saturday for her visit at Litchfield, Minn. and Chicago.

Mrs. Alfred Walker of Saline visited her parents, Mr. and Mrs. Edwin Schenk, on Thursday.

Mr. and Mrs. F. G. Riemschneider, Albert Schweinfurth, Mr. and Mrs. Kenneth Proctor and Mr. and Mrs. Fred Notten attended the Pomona Grange meeting at Lima Center on Tuesday.

Mr. and Mrs. P. H. Riemschneider were dinner guests of Mr. and Mrs. Wm. Bueckele on Sunday.

Ray Gann and Mrs. Lina Whitaker called on Mr. and Mrs. E. G. Riemschneider, Monday evening.

The Sunday school board met with Mr. and Mrs. T. G. Riemschneider on Monday evening.

The children of Mrs. F. Widmayer assisted their mother celebrate her birthday on Thursday.

C. M. Hogan of Ann Arbor called on Mr. and Mrs. Herman Hayes on Tuesday.

The Proctor family were at Northville on Sunday, where they visited Mrs. Proctor's parents, Mr. and Mrs. Geo. Bennett.

Miss Mabel Notten was a Sunday guest of Mr. and Mrs. Fred Notten.

Clifford Heydlauff and family of Lima visited Mr. and Mrs. Kenneth Proctor on Saturday evening.

Albert Schweinfurth and Kenneth Proctor attended the agricultural school at Chelsea on Thursday evening.

Would Produce Imports Here

As a partial solution to the farm problem created by the European war, Wheeler McMillen, editor of Farm Journal and Farmer's Wife, advocates the beginning of production in America of the two billion tons of vegetable oils, and of flax, jute, coarse wools, and long-staple cotton now being imported.

FOR MORE LOADS—EXTRA YEARS
THE SPREADER WITH
BEATER ON THE AXLE

THE additional years of service you get from a John Deere Spreader are due, largely, to mounting the beater on the axle—the famous patented feature of construction which has kept John Deere Spreaders out in the lead for more than 25 years.

Mounting the main beater on the axle permits building a simpler, stronger, longer-lived spreader with fewer moving parts—a spreader that's easier to load... easier to pull... that does better work... a spreader that gives you more dollar-for-dollar value.

FEATURES

- "Knee-action" front wheels
- Hardened steel roller drive chain
- Roller bearings on all three beaters
- New-type, non-wrapping spiral beater
- Renewable axle bearings and axle sleeves
- Steel pole and eveners

Problem—After the floor and a tiger rug had engaged in a quarrel what did the floor say to the rug? (Answer elsewhere in this department).

Ques.—How long did it take Sherman's army to reach the sea in his famous march from Atlanta during the Civil War?

Ans.—Sherman's army started its march from Atlanta on Nov. 16, 1864, and reached Savannah on Dec. 21, 1864, thus completing the march in 35 days.

Ques.—Is it true that Columbus did not discover North America?

Ans.—Yes. However, Columbus discovered the Western Hemisphere (America), but he did not know it, thinking he had contacted the eastern shores of Asia. John Cabot discovered North America just five years later.

Ques.—What is the penalty for a man who takes unto himself a second wife?

Ans.—We dunno, because it depends upon whose wives he takes.

Ques.—What was the date of the big Johnstown flood in Pennsylvania?

Ans.—The huge storage dam at Johnstown broke on May 31, 1889, and the inundating of the lower section of the city lasted several days.

Ques.—How long has the Statue of Liberty been in existence?

Ans.—This majestic figure has been standing 65 years; it was unveiled on Oct. 28, 1886.

Answer to problem—The floor said to the rug "I can get under your skin".

Ques.—When it is 12 o'clock EST in New York what time is it in London?

Ans.—It is 5:00 p. m. in London that same evening—just five hours ahead of New York time (EST).

Ques.—Our class would like to know how many grains of gold our standard dollar contains. Our books differ—one saying 23.22 and the other says 25.8. Which is right?

Ans.—Both are right. The gold dollar contains 23.22 of pure gold, but it actually weighs 25.8 grains. This discrepancy is accounted for by the fact that one-tenth of its weight is alloy which is added to make them hard enough to make them wear well.

Ques.—Does the United States furnish a home for the Vice-President as well as for the President?

Ans.—No. The Vice-President must seek a home for himself and family during the life of his term. The official residence of nearly all Vice-Presidents has been in hotels.

"739 Drinking Drivers Lose Licenses in Oregon."

This is an article that appeared in the December, 1940, issue of "Public Safety."

Under the Oregon law revocation of a driver's license is mandatory when he is convicted of driving while under the influence of intoxicating liquor. The driver is eligible for reinstatement at the end of a year, provided he can file proof of financial responsibility.

That's the stuff safety is made of. Let's not bicker about how much intoxicating liquor a man has drunk; the very fact that he has been drinking is proof that he does not have the physical ability nor the mental judgment to act promptly and safely in an emergency. We are all too prone to forgive someone for taking one or two drinks before driving an automobile, but we forget that this does affect the driver's reaction time in applying the proper measures to prevent an accident.

More of the Oregon example is needed in other states. Public officials have the responsibility of enforcing our laws and for taking the necessary measures to protect us.

Putting It Plane-ly

Universal adoption by American cities of just two money saving techniques—centralized purchasing and sound civil service control—would save enough tax money annually to pay for 8,000 pursuit planes plus nearly 6,000 tanks, the National Consumers Tax commission, nationwide women's organization seeking economy in local government, reveals. The savings would total \$748,000,000, the organization says.

Scouting - A Program Of Real Participation

The genius of the Boy Scout program lies in the many opportunities for actual experience it affords the boys. The Scout patrol, troop, and camp meet the boy on his own ground in the field of his own interest. These experiences deal in terms of things to do, says Walter MacPhee, executive of the Washtenaw-Livingston Council.

While perhaps the most important contributions of Scouting experience consist of the attitudes which are influenced in the boy's life, these attitudes and ideals grow through actual experiences which are very real and important to the boy. A Scout learns how to treat the American flag—that the emblem of our nation is entitled to certain forms of respect. Day after day in the Scout camp this becomes clear to him, not through lectures or through ideas presented in words, but through what he actually does and feels. He learns to be respectful of the flag through actual reacting to the flag with respect.

A Scout is taught not a large number of theories about first aid to the injured, but instead is given the opportunity to practice specific things to do in certain emergencies. A Scout learns to use a knife and hatchet and to take care of himself in the woods; not through lectures and rules, but through guided and shared actual experiences—with other boys and men.

A Scout demonstrates his own practice of certain rules of safety at home or work or school on the street or road or farm. Note that he does not memorize these laws merely to recite them but to demonstrate his practice of them.

Scouting experiences provide a vast program of participation at the boy level of achievement. You may see a khaki-clad Scout waving bright red signal flags and think that he is merely playing, yet he is doing far more than this. He is learning to take part in life. He is learning to be a good citizen which means chiefly living with other people happily and wholesomely as a good neighbor.

This Scout is doing things at a boy's level today so that he may be able to accomplish still greater achievements in the year ahead. He is learning to take part in life.

LAFAYETTE GRANGE

The Lafayette Grangers met at their hall on Jan. 9, with the 4-H girls and boys as their guests. A very interesting program of several instrumental selections, pictures by the county agent, Mr. Osler, and games were enjoyed by all. After the program apples, popcorn and candy were served. Two new members were received.

Chorus News

Miss Marie McNeil, who is the director of the High School Chorus, is a graduate of Pontiac high school, Pontiac, Mich., which is her home city. She attended Olivet College, Olivet, Mich. for four years.

Experiencing her first year of teaching she has a very well organized club, both girls and mixed.

Her ambition was to have a chorus of her own, to work with and to be proud of, and it is certain that the high school chorus will do its part in every way to help make this organization a bigger and better one each year.

The Girls' Chorus elected officers for the rest of the semester. Margaret Harper was elected president; Jeanne Meservy, secretary; Lois Palmer, treasurer.

Both choruses are looking forward to begin the work of new music that was recently ordered.

They are planning to have a con-

cert in the early Spring, so they have begun working on some of the music in preparation for it.

The girls have planned a winter party which is to be held soon, and it is hoped that boys as well as the girls will join in.

Hold Boy-Girl Meeting

At their regular meeting last Thursday, the Chelsea Hi-Y boys each invited a girl guest from the high school to help discuss problems which both groups face.

Miss Muzzall, Home Economics teacher and leader of the Home-Ec. club was joint leader, along with Mr. Downing, Hi-Y leader.

The young people thoroughly discussed many problems, and gave a cross-section view of the school on such questions as "Dutch Treat Dating" for boys and girls, how a financial arrangement could be made between the boys and girls to allow them to each pay their own way, should a girl ask a boy to go out with her, and could boys and girls go together in groups and have a good time?

Most girls admitted they favored 50-50 dating, but said it should not be carried to extremes. An argument for this idea was that boys and girls could go out together more, and a point brought up against it was that dating would not be held on the high level which it now claims, because boys would ask too many girls to go out with him on the idea that she would be willing to pay her own way.

The group agreed that a girl might ask a boy to go out with her if she knew him well enough, and that to spend an evening in either the boys' or girls' home (not spending any money) would be just as much fun as going somewhere and spending a great deal of money.

They decided that the boy should always handle the money, no matter who was paying, and that it definitely was not necessary for a boy to have a car in order to ask a girl for a date.

The discussion on group dating was interrupted by the dismissal bell; but everyone felt that they had learned a great deal about how the other fellow felt on these problems, and how these problems might be treated.

Study Hall Nuisances

Have you ever sat next to a busybody in study hall? Of course we all have. There is a person who is constantly bothering everybody's business but his own—whom everyone has gone

out with, what they did and so forth. Then there is the gum chewer who is always chewing and smacking his gum, annoying anybody within fifty feet. If they only could see themselves and see how horrible they really look there would be much less gum chewing except in private or at athletic contests.

Next is the "Smart Alex" who likes to draw attention to himself by whistling or throwing paper wads but when the teacher corrects him, he will answer with some remark which he thinks is cute but really to other students is just boring, after hearing it every day in the school year.

Of course, there are many other things which annoy us in study hall. But I believe many of us do these very same things, although we are not so apt to notice when we are the wrong doer. So let's all of us take pity on our neighbor, who maybe wants to study, and try and behave in study hall. I know all the teachers would appreciate this very much.

Office News

(Mr. Downing's Office)

Rev. Frederick D. Mumby, pastor of the local First Methodist church, spoke at an assembly during the Activity Period on Tuesday, Jan. 14.

The Hi-Y club is sponsoring a dance on Friday, January 24, after the close of the basketball game between Lincoln and Chelsea. This dance is for high school students only.

The first semester will officially end on Jan. 31. Report cards will be issued the following Wednesday.

Facilities for the playing of basketball, ping pong and other games are open during the noon hour to the students who eat their lunch at school. The girls have the use of the gymnasium in which to play basketball on Mondays and Wednesdays. The boys use the gymnasium on Tuesdays, Thursdays, and Fridays. The ping pong tables are available to both boys and girls on all days.

This year the teachers have been taking turns remaining at the school during the noon hour. Miss Fox is on duty this week and next week Mr. Bust will be on duty.

(Mr. Johnson's Office)

Evening classes are being held in Agriculture and Home Economics every Thursday evening at 8:00 at the high school.

The Home Economics classes are under the direction of Miss Muzzall and Mr. Bust conducts the Agriculture classes.

The band, under the direction of Mr. Dunsen, will present a band concert on January 28.

The hot lunch program went into effect at noon January 13. A hot dish, milk, and a choice of either a salad or a dessert can be bought every day for 10c. A week ticket can be bought for 45c. Part of this food is received from the surplus food commodities and the

rest is bought by the school. The food is served in the room where the orchestra instruments are kept and provisions have been made for eating in the kindergarten room.

Fan Mail - Who Knows?

Speaking about "fan mail" this seems especially interesting to one of our popular senior girls. An "All-A" student, prominent in social activities, well-liked, and noted for her artistic ability, Helen Miller (better known as "Chet") has a mystery sister in Kelloggsville, Mich. In fact, according to the latest report she has had two letters and has made arrangements for extra service at the local post office. Although the Helen Miller from out of town isn't quite as prominent in social activities as "Chet", both girls have the very same names, "Helen Irene Miller."

Chet is one of the four students from Michigan who rated high enough in this examination to gain the privilege of competing in the next test based on the material contained in "Our Times", a weekly current event paper published by The American Education Press, Inc. of Columbus, Ohio, was given to history students. Those who survived the first test may take the second part to compete for scholarships to some leading colleges.

We are very proud of our "Chet", and wish her the very best of luck when she takes her final examination, which includes the students from different states.

Miss Mabel Fox will administer this examination, and have charge of it all. It will be given about the 20th to the 25th of January.

Good luck, "Chet", and more power to you!

Assembly

The Bentley Trio, sent out by the National Program Service, entertained the pupils of Chelsea High on Tuesday, January 7, in the high school gym.

The Trio was made up of Mr. and Mrs. Bentley and their daughter. The instruments which they played were made by Mr. Bentley himself. The daughter did a few different dances and they were all dressed in costume. It was enjoyed by everyone.

Girls' Basketball

Due to some unfortunate mistake in the schedule the Chelsea girls did not go to Pinckney for the game last Thursday evening. Because of this mix-up the game will not be played until sometime in February. The girls will travel to Ann Arbor to meet U. High sometime in February also.

The girls did not have a complete schedule made out this season so no definite date is known for the games, although there are more planned.

Elementary News

Third Grade

We have been studying about pioneers. We are most interested in the early settlers of Chelsea. We are securing information from old newspapers, old history books, and our friends who have lived in Chelsea for some time. We are glad to receive any information anyone will give us.

Fourth Grade

Last week we wrote letters to Joyce Peck, who has been ill. She returned to school Monday. We're glad she's back.

For Science we studied snow crystals. We cut some from fine paper. While studying about the early people, their homes and clothing, and how they worked, we made drawings to illustrate some of their activities.

In Art class we made posters for cleaning the teeth.

The picture "The Angelus", hangs in the front of our room. We studied about the painter, Jean Francois Millet.

Sixth Grade

(Marceline Hinderer)

The sixth grade chose secret pals last Thursday afternoon. Now when we come into the schoolroom we don't know what we might find in or on our desk. The first thing we do to choose our secret pal is to write name on a piece of paper. Then someone passes a box around and we all put our names in it. When we all have our names in the teacher shuffles them all around and then we all choose a name.

We had our class meeting Thursday also, and we elected new officers. They are:

President—John Winans.
Vice-Pres.—Jack Christwell.
Secretary—Marceline Hinderer.
Treasurer—Frances Hale.

We started to make geography notebooks last week. Some of us have finished them. We are all going to make a cover for them. The notebook includes the British Isles, India, Australia, New Zealand, and all of the British possessions.

Seventh Grade

(Audrey White and Alfreda Marshall)

The product map which we started in geography is nearly finished. We collected illustrations of the goods manufactured in various places in the United States and indicated the point on the map where they are made. We are now studying transportation, and its development, and are somewhat proud of the fine collection of pictures on our bulletin board.

We had three birthdays to celebrate this week. Shirley Platt's on January 7, Jean Eisenbeiser's on the 8th and Edwin Lantis' on the 9th. Happy birthday, friends!

Requirements Eased for Naval Flight Training

Candidates for Naval Aviation Flight Training will no longer be required to show credits in mathematics in order to qualify for this training. It has been announced by Lieut. Commander Rufus C. Young, Commanding Officer of the Grosse Ile Naval Aviation Base.

Young college men applying for flight instruction with the Navy have, in the past, been required to present credits in Algebra, Plans and Solid Geometry, Trigonometry and Physics.

According to a special order issued by the Secretary of the Navy, the waiving of these requirements is designed to permit otherwise qualified applicants entrance into the Navy's expanding aviation program.

The minimum requirement, henceforth, will be two years college education from an accredited school, and a transcript showing at least one-half the credits necessary for graduation with a degree from a four year course. A go limit remains 20 to 26.

Interested applicants, or those formerly rejected for lacking the previously high mathematical standards may apply to Lieut. V. S. Dietrick, Procurement Officer, U. S. Naval Aviation Base, Grosse Ile, Michigan.

Britain's Troubles Led
Puritans to America
This is the strange story of the
house of Stuart. While ruling Scot-
land during a period of 232 years,
the monarchs met one piece of bad
fortune after another.

At about 1600 a new religion was
growing up in England. The Puritans
had started out to improve the
Church of England, but in time they
broke into revolt. Their leader, Oliver
Cromwell, led his forces to victory
on the battlefield. King Charles was
captured and put to death.

The king's son, also named
Charles, fled to France. Later he
sailed to Scotland and with an army
of 10,000 Scots tried an invasion of
England. The attempt failed, and
Charles fled once more. This time
he had narrow escapes from cap-
ture by the Puritans while obtaining
a vessel to go to France.

After Cromwell died Charles was
asked to come back to England to
rule as king. He accepted and held
the throne until his death 25 years
later. In that period the great
plague visited London, and much of
the city was destroyed in a great
fire.

The changes of power in Great
Britain had a great deal to do with
early American history. While
Cromwell was in control of England,
thousands of Cavaliers, members of
"the king's party," moved to Vir-
ginia and settled there.

Later the return of Charles caused
thousands of Puritans to flee across
the Atlantic. They settled in New
England and helped build up the
colonies of Massachusetts, Rhode
Island and Connecticut.

Slats' Diary

Sunday—We went down to the ves-
terment for super this evening and Ant
Emmy diddled like what were on the
bill of fair so off to good. She sed the
biskits taste like they are some thing
ded in same. But we found out the
biskits was fish cakes and diddled
have nothing ded about them. But
they smelt like it tho.

Monday—We was out driving in
the 2d handed car and Ma were at the
wheel and steering the car and hit a
man and skun him up bad. He went
to a Drs. hospitlle and Ma called on
him and sed she are carelle and have
drove 7 yrs. He sed he are carelle all
so and have walked 67 yrs. So Pa
hafta pay the Drs. bill.

Tuesday—At dinner at 12 m. today
Ant Emmy up and says she that
girls of this day and age etc. dos-
sent tell there mothers much no more.
Pa got back at her and sed they issent
no use of same. Becos sed he the
mothers already know all most as
much as there dotters.

Wednesday—Unkel Hen sed he seen
in the noosepaper where it sed the
way to get along with wives are to
handel them with gloves. Pa thot a
breef time and replide and sed he
wisht he could but he finds he haft
handel hisn all so with 2 \$-3 silk hoes
and a lotta Millinerey. So Ma skowled
and lookt skornef.

Thursday—Well Blisters have got
hisselt a dog from whiches looks
thot it are a combynashen blud houn
and a airdail mixt; But Blisters says
it are a piece dog. And he sed the

resen are it issent never where you
want it when you want it.

Friday—Ma arived home erly from
her bridg club and Pa sed he guest it
were becos all the members was pres-
ent. I ast how that would bring her
home erly and he sed Well if all of
them was there they wouldnt be no
boddle to talk about would they. I
seen the point redidly.

Saturday—Well school are out for
the Chriamus hollidays and what does
the wether haft to do xoept go off and
rain entill evry thing is all covered
with watter and wet. I hope the
wether gets worse and freezes up. If
it only will then I and Jake and Blis-
ters can go skateing in our back yds.
and streets and allies if that last word
are spelt o.k.

Skeet In Trapshooting
The word skeet as applied to trap
shooting was given to the sport by
Mrs. Gertrude Hurlbutt of Dayton,
Mont. Previously it had been called
"Round the Clock Shooting." The
National Sportsman magazine decid-
ed it should have a distinct name. A
contest was arranged. The prize
for the winning title was \$100.
There were over 10,000 names sub-
mitted. Mrs. Hurlbutt chose skeet
because it is an old form of the
Scandinavian word "shoot."

Larger Than Elephants
New-born blue whales are far
larger than full-grown elephants.
They measure some 25 feet in
length, weigh about 8 tons and grow
very rapidly, reaching a length of
about 60 feet during the first year,
while still nursing.

A GREAT SERIAL

By Ben Ames Williams

It would be difficult to imagine more
compelling situations or a more absorb-
ing story than Ben Ames Williams has
given us in "The Strumpet Sea." Our
readers will surely be thrilled by this
vigorous story of love and lust, jealousy
and greed on the high seas.
