NEW ADDITION AND IMPROVEMENTS AT METHODIST HOME TO COST \$140,000.00

Shown above are the three sections of the present Methodist Home to which another wing will be added, in addition to general improvements to the present building. Gift from Kresge Foundation makes this work possible.

The Methodist Home of Chelsea has been the recipient of a generous gift from the Kresge Foundation of \$140,000.00 toward the construction of a new wing, as well as the rehabilitation of the present buildings. The new addition will be constructed west of the present buildings. The new wing will be of fireproof construction and will also have an additional elevator. The present building will be completely renovated and the interior will be redecorated. The new wing will be a two-story building and will contain 100 beds. The new wing will be a complete home for the aged, with all the modern conveniences and comforts. The new wing will be a place where the aged can live in peace and comfort, and where they can receive the best of medical care. over Livingston county about 6:00
o'clock Saturday evening destroyed
nearly everything in its path, causing
much damage to buildings and other
property, but fortunately there was
no loss of human life. The storm ap-
parently struck the county near Greg-
ory at the John Rutman farm in
Isosco township and traveled almostdirectly in a northeasterly direction
down across US-16 near the Shiawas-
see bridge and then on into Ocella,
carrying destruction in its path, which
was estimated to be from 50 to 100
rods wide and some 25 or 30 miles in
length.—County Press.BRIGHTON—Brighton firemen an-
swered to a call at around two o'clock
on Monday morning, when in spite of
the efforts of three fire departments,
those of Brighton, Hartland and Fen-
ton, the Hartland Area Hardware
store at Hartland burned to the
ground, together with all its contents.
The store, which provided work for
ten employees, under the management
of J. Robert Crouse, Jr., was com-
pletely destroyed, together with its
sore of farm implements, hardware,
electric household appliances, etc. The
cause of the fire is unknown. It is
understood that the loss on the store
and contents, which has been esti-
mated at approximately \$50,000, is
covered by insurance.—Argus.**Bargain Furniture Co.**

BUY NOW...there are no two ways about it now. The National
Defense has things humming—payrolls are the biggest
in years... and people, too, are tired of their old furni-
ture. They want new things. New beds, new springs and
mattresses—new rugs and carpeting.We are ready for you, for this new up-swing in buy-
ing, and we prepared for it in a favorable market. We are
in excellent position now to take care of your requirements,
at best of all—savings to you. We are glad our foresight in
buying will benefit our customers. Now check your needs
and buy while present prices are maintained.We never have and never will be a store to alarm our
customers that prices will be apt to go sky-high. We have
experienced several small increases due to labor conditions
and new regulations, as well as the National Defense. We
frankly do not know just what to expect, but merchandise
is even now beginning to be difficult to obtain.**The E. J. FOSTER CO.**

Defense Bonds Go On Sale at Postoffice Today

The United States Defense Savings Bonds and Postal Savings Stamps were placed on sale in the postoffice at the opening of business today, May 1, as part of the national effort to make America Impregnable.

Postmaster H. D. Withers states that plans are completed for this community, along with thousands of others from coast to coast, to do its full part at the opening of the savings program. It is expected that civic leaders will be among the first purchasers of savings bonds and stamps here.

The new Defense Savings Bond is similar to the familiar "Baby Bond", of which more than five billion dollars worth have been bought by more than two and a half million Americans since 1935.

A Defense Bond may be purchased May 1, or thereafter, for \$18.75. In ten years, this bond will be worth \$25.00. This is an increase of 33 1/3 per cent, equal to an annual interest return of 2.9 per cent, compounded semi-annually. Any time after sixty days from the date of purchase, the bond may be redeemed for cash, in accordance with a table of redemption values printed on the face of the bond.

To spread investments widely among all the people in America, a limit of \$5,000 has been set on the amount of these bonds to be bought by any one person in one year. The bonds are in denominations of \$25, \$50, \$100, \$500 and \$1,000, all of which are sold for 75 per cent of their maturity value and all of which mature in ten years.

For the smaller investor who wants to buy a Government Bond on an easy payment plan, the postoffice will have a new series of Postal Savings Stamps at 10c, 25c, 50c, \$1, and \$5. Each purchaser of any Savings Stamp higher than 10c will be given, free of charge, an attractive pocket album in which to paste his stamps until he has enough to buy a \$25 bond or one of higher denomination.

Chick vs. Post, But Emily Should Approve

Emily Post may not approve—but Michigan's poultry industry and thousands of persons with hearty appetites are registering favor for some new terms popular in eating places.

All of the newness involves a way of eating fried chicken in public—using fingers instead of silverware.

Such terms as "Chicken in the Rough", "Chicken En-Ruff", "Chicken in the Basket" are characteristic of the new servings of the one-half fried chicken, according to Ray Conolly, field representative of the Michigan Poultry Improvement association and stationed at Michigan State College.

Secret of the popularity lies in quality and price, comments Conolly. One restaurant operator informs Conolly that since the new way of serving chicken has become known his chicken dinners each week have increased from an average of 200 to a present average of 900 a week, with prospects that warm weather will bring further increases.

Popular way to serve the new type meal is to bring on the fried chicken, served unjointed, with French fried potatoes, biscuits and honey. There's no knife or fork. The patron tucks a napkin under the chin, grabs the chicken and gnaws the meat from the bones. Between bites of meat, the honey is soaked up with the biscuit and the potatoes are also eaten with the fingers for forks.

Poultrymen are enthusiastic, according to Conolly, for the more chicken eaten the better the poultry industry. Pioneers are expected to help increase the new eating style for chicken this summer.

REDUCED Long Distance Rates

Effective

Saturday, April 26

● Reduced rates on long distance calls from any Michigan Bell exchange to any other Michigan point more than 42 miles distant became effective on Saturday, April 26. Based on current volume of usage, that will mean savings of \$700,000 annually to the company's customers.

Your Long Distance Operator will quote the new rate to any point requested.

As soon as possible after authorization by the Courts, refunds or credits, totaling \$1,500,000, will be made for the difference between the old and new rates on such long distance calls made between August 1, 1938, and April 26, 1941. It will be some time before such refunds or credits can be made because of the great volume of work involved in checking more than 65,000,000 long distance calls in the accounts of 700,000 users.

Until the work of checking your account is completed, further information with respect to specific refunds or credits will be unavailable.

Royal Master Owners RELAX... Never Worry About Tire Trouble

THEY FEAR NO SHOCKS. When brakes are applied, the spring continuous ribs break up into blades, dispersing road blocks—blows through the air, not into the car.

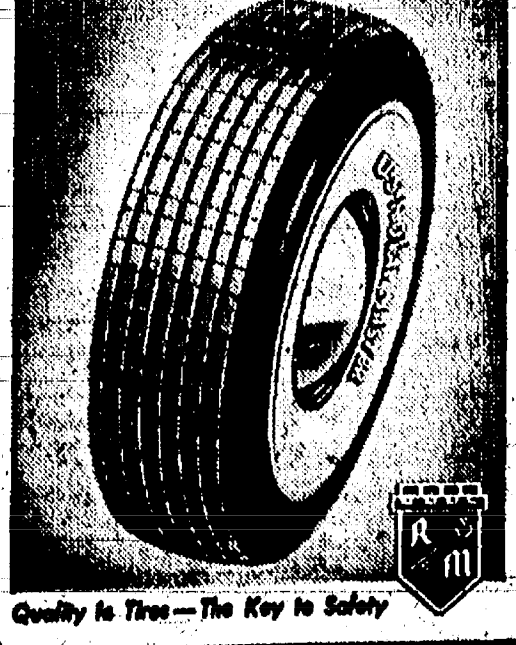

THEY GET TEMPERED RUBBER. New improved with a secret compound to give it greater resilience so heat, wear, and mileage—chick tempered rubber tread can be expected to give nearly double the non-skid wear.

THEY FEAR NO BLOWOUTS. Outside ribs on a curve give "railroad-track" stability—no skidding on the road. Safety bonding saturates cords in latex to resist blowouts from nails, speed, heat.

THEY GET SMOOTH RIBS. The new improved with a secret compound to give it greater resilience so heat, wear, and mileage—chick tempered rubber tread can be expected to give nearly double the non-skid wear.

Chelsea High Baseball Season Opened Tuesday

By Dwight Gadd

By the time this has reached you readers the first game of the '41 season will be history as you will note by the schedule below. Your reporter was a little lax this year and let the season catch up to him before he knew it.

Spring practice was begun about three weeks ago, at which time approximately 20 boys turned out. The squad as a whole looks very good in practice but has yet to prove itself against an opposing team. The veterans returning from last year's squad are Junior Miller, L. Dietle, B. Stricker, A. Policht and G. Lane. Some of the newer boys who are fighting for first string berths are Rohn Miller, an outfielder with an excellent throwing arm and a fair batting average; Luther Kusterer, a shortstop with a good fielding average but who hasn't seemed to find his batting eye yet; Dwight Gadd, a third baseman that has both a good fielding and batting average; Jack Miller, a first baseman that is a strong defensive player but is another one who seems to lack a good batting eye; B. Eaton, L. Policht, D. Bahnmiller, R. McDaniel, C. Light, C. Lowe, G. Hades, C. Walker and D. LaVan are the rest who are out. LaVan is a reserve lefty winner from last year.

The league this year has been divided into two divisions, the Eastern and Western. Saline, Milan, Roseville and Chelsea form the Western League, while Dundee, Flat Rock, Romulus, Belleville and Lincoln form the Eastern League. The winners from each league will meet in a miniature world series to determine the championship.

The probable starting line-up is as follows: C. B. Stricker; P. A. Policht or J. Miller; 1st, Jack Miller or A. Policht; 2nd, C. Lane; 3rd, D. Gadd; SS, L. Kusterer; LF, L. Dietle; CF, J. Miller; RF, Rohn Miller.

Although this is subject to change, it is undoubtedly the first string. The schedule for the season has been shortened somewhat because of the league being divided. Chelsea has seven games on the card for this year. They are:

April 29—Chelsea at Manchester.
May 6—Chelsea at Saline.
May 9—Roosevelt at Chelsea.
May 13—Milan at Chelsea.
May 16—Saline at Chelsea.
May 20—Chelsea at Roseville.
May 23—Chelsea at Milan.

Party Held Friday for 4-Hers and Leaders

About 90 4-H club members and leaders of the Chelsea area were in attendance at a party sponsored by the Kiwanis club, which was held Friday evening in the public school auditorium.

The meeting opened with a flag-raising ceremony by Merle S. Bagg and a flag drill by the boys and girls. Mrs. John Bird, president of the Legion Auxiliary, gave a short talk on the meaning of the flag. Patriotic songs were led by Paul F. Niehaus, with Mrs. Niehaus at the piano.

John Gwinn, of the U. of M. Physical Education Department had charge of the games, in which Kathleen Schelbach, Geraldine Kruse, Angelina Merkel, Armin-Kuhl and Leon and Spiegelberg held high score.

Miss Ardis Nugent assisted with the games, and a moving picture, "Singing Wheels," was shown by H. S. Oster. The Kiwanians served refreshments.

LOCAL STUDENTS HONORED

Eight hundred University of Michigan students received public recognition at the eighteenth annual Honors Convention on April 25 for their outstanding scholastic work. Speaker for the convocation was William E. Wickenden, president of Case School of Applied Science, Cleveland.

The following students from Chelsea were honored:

James K. Daniels, who received recognition for outstanding scholarship.

Charles E. Erickson, who received recognition for outstanding scholarship, and the Phi Lambda Upsilon award in Chemistry and Chemical Engineering.

Minors Must Obtain Social Sec. Numbers

High school and other students who are planning to work in commerce or industry during the vacation period must have social security account numbers, even though the student-workers are minors.

This statement was made this week by Sidney Laurens, manager of the Social Security Board field office in the Reynolds building in Jackson. Explaining his statement he said:

"As graduation approaches many students are asking if they need social security account numbers for temporary work. The answer is yes, if the work is in practically any line of commerce or industry. The number must be used by the employer when he pays the social security tax to the collector of internal revenue.

"Students who have jobs will save time and trouble for themselves and their employers by getting social security account cards before starting on new jobs. Applications may be obtained at any post office or at our office. A student who will do farm work or who will be idle during vacation has no need for an account number."

KIWANIS NEWS

The various committees of the Kiwanis club successfully completed many worthwhile projects during the past week. On Friday evening the agriculture committee entertained the 4-H clubs of this vicinity at the Chelsea high school. Tom Bust was the chairman of this activity, and he presented a fine meeting and diversified program for more than 90 members and guests. The Kiwanians sponsored this endeavor which contributes greatly toward maintaining the much-needed cooperation between the business man and the farmer.

On Saturday evening the Chelsea Community Association, which is a Kiwanis endorsed organization, staged a successful dance at the Chelsea high school gym. John J. Lamb was co-chairman of this affair, and was ably assisted by Norman Perkins, Lowell Davison and Dudley Holmes of the Kiwanis club.

On Monday evening the Kiwanis committee conducted its second "Flowers for the Living" program, and designated Vernon Downing as the recipient of this honor. Charles Cameron presented Mr. Downing with an excellent book and commended him upon his very fine record in Chelsea, both as a teacher and as a leader in the encouragement and development of the youth of this community.

The program committee selected Roger From of Ann Arbor to present the program for this regular weekly meeting. Mr. From has had a vast experience in boys' work and conducts Camp Birkett during the summer. The speaker stressed the importance of creating the correct attitude in youth toward life and its problems, as well as the necessity of instilling the proper community spirit and the ideal of cooperativeness in individuals at that stage of life. He concluded the program by showing pictures of camp life and explained how such a program develops leadership, personality, and the spirit of cooperativeness in boys through the personal assistance of capable directors who attempt to solve the problems of each individual boy.

FARMERS' ATTENTION!

Do you know what the Milk Bills are? Here are a few of the facts: Sec. 5. (House Bill No. 164, known as the Acker Bill). A board to be known and designated as the Michigan milk marketing board is hereby created which shall consist of five members appointed by the governor with the advice and consent of the senate. No member of said board shall be pecuniarily interested in the production, processing, manufacturing, handling or disposal of milk and or milk products.

Does this not look as if the price of the farmer's milk would be fixed by the consumer?

Also—Who is going to pay for the advertising? Read Sec. 6 of Senate Bill No. 176, then think and act:

There is hereby levied and imposed an excise tax of one cent per pound or fraction thereof upon all butterfat, the shipment of which takes place during the period beginning June 1 and terminating June 15, inclusive, 1941, and annually thereafter during the same period: Provided, however, That the provisions of this section shall not apply to butterfat in milk or cream produced outside the state of Michigan, or to butterfat in milk

or cream consumed upon the farm where produced. For the purpose of computing the tax in shipments where butterfat tests are not available or the butterfat content or weight not definitely known, the amount of butterfat in milk and cream shall be computed on the basis of 4 per cent and weighing 8.6 pounds per gallon in the case of milk and 82 per cent and weighing 8 pounds per gallon in the case of cream. All taxes levied and imposed under this act shall be collected by the first handler or processor of dairy products; the money so collected shall be deducted from the amount due the producer of the butterfat and such deduction shall be shown on the statement furnished to the producer as prescribed by the committee.

Copies of the Bill may be seen at secretary of Legislative Committee of Farmers' Guild, No. 254.

Fred W. Kennedy, Chairman.

Lansing—Potatoes at \$6 a bushel, eggs at \$1 a dozen and sugar at 25 cents a pound are not expected in 1941 and 1942 war-time economy, such as was the case in World War I.

The farmer, remembering the price collapse that trailed the great boom, is inclined to be cautious and wary. And Uncle Sam is taking a hand with reins on possible inflation.

Prospects of 1941 farm crops in Michigan are decidedly favorable, if not bullish. The Michigan cooperative farm reporting service at Lansing pointed out this month that winter wheat, rye and pasture were above average in condition. Corn, wheat and oats are above average, the estimate for oats being 27 million bushels compared with a Michigan average of 15 million.

Because of the mild winter, fruit prospects are also equally bright. And so it goes.

Brakes on runaway prices are to be applied at Washington through a special administration headed by Leon Henderson, the federal economist who accurately foresaw the "recession" of 1937. And at the same time a price ceiling is contemplated for food products—pork, butter, eggs and chickens. The net result should be more money in the farmer's pocket.

We Eat More

Consumption of food is not static; it does not remain stationary.

The federal stamp plan for marketing of surplus food commodities helped to establish this fact. In country after country in Michigan where this surplus system has been put into use, families on welfare lists are eating more food.

Studies by the American Institute of Food Distribution reveal sharp variations in consumption by income groups. As income of the "submerged third" increases, total food consumption goes up.

Food prices tend to rise when spending is inflated.

Meats, for instance, register the highest percentage of price rise from an index of 68.4 in February, 1940, to 83.6 in February, 1941. But this is an exception.

Foods generally have gone up only 6 points from March, 1940 to March, 1941.

Lend-Lease

Under the new price program at Washington, production of pork, dairy products, eggs and poultry will be stimulated by pegged prices during the next year or two. Prices will be kept at levels remunerative to producers.

Here is where the lend-lease act should help the farmer.

It is a story of surplus and shortage.

The surplus of wheat in the United States is 380 million bushels, greatest in our history. In South America wheat is being fed to livestock; Canada has stored enough wheat to provide for needs of the Dominion of Canada and the British Isles for the next two years.

Furthermore, federal triple-A exports concede that the prospect of the 1941 wheat crop, combined with the record carry-over, should be enough to take care of our domestic needs for nearly two years if farmers didn't grow another bushel of wheat in that time!

NOTED LECTURER WILL SPEAK AT CASSIDY LAKE SATURDAY

Frederic Snyder, noted lecturer, newsmen and publicist, will be in Chelsea on Saturday, May 3, at which time he will speak to youth at the National Youth Administration project at Cassidy Lake. Subject of his talk will be "The Value of Training."

Mr. Snyder is president of the World Press Congress and was their representative at Geneva. Known as "The Verbal Newspaper" and "The Platform Publisher," he has appeared on lecture platforms throughout the world discussing vital events and personalities.

Snyder who is in the state as a guest of Orin W. Kaye, State N.Y.A. administrator, was invited by Mr. Kaye to speak to workers at the Cassidy project because he felt that Mr. Snyder's wide experience in world affairs and his close contact with the national defense program would be valuable in acquainting youth with what is going on in the world today.

He will emphasize the importance of their N.Y.A. work experience and related training as preparation for employment in defense industries.

It has been pointed out that the N.Y.A. is currently placing special emphasis on preparation for defense jobs to forestall any shortage of experienced workers in vital defense industries, and at the same time to provide unemployed youth with the chance to get jobs in those industries presenting the greatest employment opportunities.

MICHIGAN BELL ANNOUNCES REDUCTION ON LONG DISTANCE

Detroit—The Michigan Bell Telephone Company announces that reductions on long distance calls from any of its exchanges to any other Michigan point more than 42 miles distant became effective on Saturday, April 26.

George M. Welch, president, said the company has filed the new tariffs with the Michigan Public Service Commission, which has granted authority to initiate the reduced rates. The new rates follow the recent decision of the State Supreme Court upholding an order of the former Michigan Public Utilities Commission cutting intrastate rates to the level of interstate charges. Welch estimated that the reductions will mean a savings of \$700,000 a year to subscribers, based upon current usage of the long distance service.

Long distance operators of the company will be enabled to quote the new rate to any requested Michigan point.

Welch also said that Judge Leland W. Carr, of the Ingham Circuit Court, will be asked, probably early next week, for a decree authorizing the procedure for refunding approximately \$1,500,000, representing the differ-

ence between the two rate schedules on the intrastate toll calls made since August 1, 1938, the effective date of the former commission's order. The money has been impounded, under bond and without interest, in a bank designated by the court.

Further information is not available at this time on the method of making the \$1,500,000 refund, Welch said. He also emphasized that it will take some time before the company can start refunding due to the size of the task. He pointed out that the company must check the records of 65,000,000 long distance calls on the accounts of approximately 700,000 telephone customers.

"...and one for the pot!"

That may be a good rule for brewing coffee but it wouldn't do for compounding medicines. The pharmacists cannot give "good measure"—his quantities must be exactly right. They are weighed on precision-built scales that can weigh your signature on a piece of paper, and measured in graduates that represent accuracy in its highest degree.

But these examples of mechanical perfection are not sufficient in themselves because the compounding of prescriptions is a manual operation, done by trained hands that are guided by an experienced mind. Here, the combination of experienced pharmacists and the finest laboratory equipment assures you of absolute accuracy on all prescription work.

NOTICE OF MORTGAGE SALE

Default having been made in the conditions of a certain mortgage made by Charles J. Wahr and Genevieve E. Wahr, husband and wife, of the City of Ann Arbor, Washtenaw County, Michigan, to Ann Arbor Trust Company, a Michigan corporation, dated the 29th day of June, 1929, and recorded in the office of the Register of Deeds for the County of Washtenaw, State of Michigan, on June 29, 1929, in Liber 184 of Mortgages, page 576, and which said mortgage was later duly assigned, by said Ann Arbor Trust Company, mortgagee, to Oscar H. Butterfield and Cora E. Butterfield, husband and wife, or the survivor of either, of Ann Arbor, Michigan, by Assignment dated the 15th day of August, 1929, in Liber 22 of Assignments, page 424, in the office of the Register of Deeds, Washtenaw County, Michigan, and the said Oscar H. Butterfield having departed this life, and the said Cora E. Butterfield being the owner of said mortgage, as the survivor of Oscar H. Butterfield and Cora E. Butterfield, husband and wife, and which mortgage contains power of sale and on which mortgage there is claimed to be due and unpaid at the date of this notice for principal, interest, taxes and insurance the sum of \$4467.64, and no suit or proceeding at law or in equity having been instituted to recover said monies or any part thereof.

Now, Therefore, by virtue of the power of sale contained in said mortgage and in pursuance of the statute in such case made and provided, Notice is hereby given that on Saturday, the 26th day of July, 1941, at ten o'clock a. m., Eastern Standard time, there will be sold at public auction or venue to the highest bidder at the southerly or Huron Street entrance of the Washtenaw County Court House in the City of Ann Arbor, Michigan, that being the place where the Circuit Court for the County of Washtenaw is held, the premises described in said mortgage, or so much thereof as may be necessary to realize the amount due aforesaid on said mortgage, together with interest at the rate of 6 1/2% per annum and all legal costs and charges allowed by law and provided for in said mortgage, including an attorney fee, which said premises are located in the City of Ann Arbor, State of Michigan, and described as follows, to-wit:

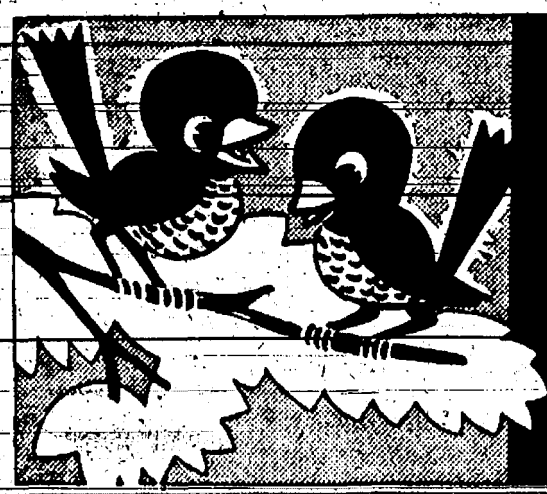

"Beginning at a point 65 feet east from the north west corner of lot one block four, south of Huron St., range six east in the City of Ann Arbor, running thence east on the north line of said lot 33 feet; thence south parallel with the west line of said lot 85 feet; thence west parallel with the north line of said lot 33 feet; thence north parallel with the west line of said lot 66 feet to the place of beginning."

Dated at Ann Arbor, Michigan, this 29th day of April, 1941.

Cora E. Butterfield,
Assignee of Mortgage.
