July 4, 1776—Declaration of Independence—July 4, 1941

We hold these truths to be self-evident—that all men are created equal; that they are endowed by their Creator with certain inalienable rights; that among these are life, liberty, and the pursuit of happiness. That, to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed.

When Thomas Jefferson and his colleagues wrote the Declaration of Independence, they set forth for all time the basic principles of true democracy. They are just as true today as they were when they were adopted on July 4, 1776.

Almost insurmountable problems faced the tiny republic when it decided to tear itself loose from the powerful British empire. The battles of Lexington and Concord had been fought, and the colonies were actually at war with England, but many persons hesitated to take the irrevocable step of demanding independence. To explain and justify the decision to establish a new, democratic nation, the Founding Fathers wrote the Declaration of Independence.

Kennedy Asks Motorists To "Slow Down" On 4th

Lansing, July 2—A last-minute warning to Michigan motorists to "slow down" over the Fourth of July holiday period last there be a repetition of the Memorial Day tragedy in which 49 persons were killed in traffic accidents, was issued today by State Highway Commissioner G. Donald Kennedy.

"Excessive speed," Kennedy declared, "was one of the major causes of the fatal crashes during the Memorial Day period. By the simple process of reducing our speed, we can save many human lives."

Kennedy also hailed the work of the Boy Scouts and members of the Junior Chambers of Commerce throughout the State in the distribution of auto stickers as a fine example of the interest being taken in the "49 Too Many" safety campaign now in progress. By their work, 750,000 motorists have been enlisted in the safety drive.

Said the Commissioner: "In response to the Governor's plea for cooperation of all citizens, all state, county and municipal officials to join in a great effort to reduce traffic deaths has been outstanding. Now it is up to the motorists by driving sensibly to make our highways safe over the dangerous period just ahead."

Calling attention to the fact we are now entering the worst month in the year for accidents, Kennedy stated that last year 129 persons were killed on Michigan's highways and streets during the month of July. Of this number, 29 lost their lives during the Fourth of July holiday period, for an average of 5.8 deaths per day. It was shown the state suffered an economic loss of \$9,000,000 from this cause in addition to the incalculable amount of human suffering followed from it.

Traffic on Michigan highways, already up as much as 30 per cent over last year, is expected to reach an all-time new peak over the three-day holiday period just ahead. "Fatal crashes," Kennedy warned, "will also show a sharp increase unless extreme caution is exercised by all motorists."

Because Michigan lakes and streams will attract hundreds of thousands of motorists as the nation celebrates its independence, trunkline highways are expected to be taxed to capacity.

"If Michigan motorists would consult highway maps when planning their holiday trips," Kennedy suggested, "they could choose less traveled roads, especially for short trips, that would greatly relieve crowded conditions on the main arteries and would undoubtedly result in less accidents."

Kennedy pointed out that highways have been put in the best possible condition for the influx of recreational motorists and that highway facilities, such as roadside parks and picnic tables, would be inspected and cleaned daily during the holiday period for their convenience.

NYA Aids 1000 Youth In Washtenaw County

More than 1,000 youth were aided by the National Youth Administration in Washtenaw county during the fiscal year ended June 30, and of this number 168, as a result of work experience thus gained, found gainful private employment, Ralph Brunette, NYA area director, revealed in a report to Orin W. Kaye, state NYA administrator, at Lansing.

This latter figure is exclusive of those from the county who were sent to the Southfield project of the NYA in Detroit where they gained useful experience in the operation of industrial machines fitting them for employment in mass-production industry.

In the county NYA youth were employed on a number of projects including those at the Dunbar community center, the Michigan State Employment Service, the Ypsilanti Water Treatment plant, the University of Michigan fresh air camp at Patterson lake, the Rackham special school at Ypsilanti, and the Michigan State Normal college, Ypsilanti.

NYA youth also were employed on clerical projects where they gained experience in office detail at Chelsea high school and other high schools in the county, county welfare commission offices, U. of M. projects, and at the county offices of the NYA in Ann Arbor.

torial from the Ottawa Citizen, a liberal daily:

"There can no longer be doubt about it. President Franklin Roosevelt is taking the United States into war against Germany."

Again, this excerpt from the same editorial:

"When Mr. Roosevelt some weeks ago proclaimed the Red Sea open to United States shipping, Germany said that any United States ships appearing in the Red Sea would be sent to the bottom. Well, there are 25 United States ships on their way to the Red Sea now, or in the Red Sea; 25 United States ships carrying war supplies for General Wavell's armies. If Germany should sink any one of them, or fire on any one of them, there can be no doubt over what will be the answer of Mr. Roosevelt. His answer will be war—shooting war. Soon or late, that is coming anyway."

That is why, ladies and gentlemen, we're in the war—like it or not. Such is reality as we found it in Canada.

Farm Loan Association To Hold Annual Meeting

A. Pence. There are more than 22,000 members of this and similar associations in Michigan, and Mr. Pence said that most of them will gather in annual meetings during June and part of July. The members have more than \$53,137,000 in Federal Land Bank loans in this state.

Most important of the matters to be considered will be the report of the secretary-treasurer on the year's business. Mr. Pence hopes that there will be discussion from the floor in regard to items shown in the report charts.

Directors whose terms expire this year are President Frank M. Potts of Dexter, and Vice-President Wm. C. Pritchard of Chelsea. These men have given many years of service to the work of appraising farms and managing the affairs of the Washtenaw County Association.

Arrangements are being made with the United States Soil Conservation Service to show slides of different interesting farm projects, such as soil erosion prevention, etc., which are being carried on in this and adjoining counties. Lansing—Well, folks, we're in the war!

I had to go to Canada to find it out. For the past eight days I have been touring Old Ontario from Toronto to North Bay and from Ottawa, the dominion's capital, to Niagara Falls, as a guest of Canadian newspapers and the Province of Ontario.

While the junket was for tourist promotion rather than for war propaganda, the latter persistently bobbed up in speeches given by host officials at luncheons and dinners.

American editors heard Premier Mitchell Hepburn at Toronto and J. L. Ralston, dominion minister of national defense, at Ottawa. It can be stated without contradiction that Canada looks to the United States not only as a friendly neighbor but as an ally in what the British Empire grimly regards to be our common "fight for freedom."

"Slow Motion Dive"

A newspaper editor at Midland, Ontario, aptly phrased the American position by the following simile:

"You have left the diving board, but you haven't yet reached the water. As a dive into war, it's the world's slowest motion plunge in history."

This Canadian viewpoint is not wishful thinking.

It merely reflects an acceptance without qualification of President Roosevelt's latest farside chat.

The President's picture appears beside the picture of Winston Churchill on highway billboards promoting sale of Canadian Victory Bonds. At Toronto Wendell Willkie was accorded a welcome which exceeded in popular enthusiasm the organized reception given to the King and Queen. Dorothy Thompson, the American newspaper columnist, enjoys a fanatical following. Walter Lippman is well-liked.

Canada in Clover

Now for some clear-cut impressions of Canada.

First, the dominion is enjoying a boom. Industrial production increased more than 25 per cent in 1940, over 1939, and Canadian arms plants are now turning out guns, shells, and tanks. The gasoline tax was increased recently 11 cents; the dominion excise tax (a hidden sales tax) is 8 cents.

The second bond loan was oversubscribed in June by more than 100 millions.

Canadians have money. They are spending it. (World War figures: Industrial output soared from 69 millions in 1913 to 489 millions in 1917, mostly in the provinces of Ontario and Quebec; agriculture, 127 to 384 millions.)

Loyal to King

Second: Canada is loyal to the empire and its symbol—the King—in support of the war.

I visited Camp Borden, largest of the dominion's military centers, where 1100 men are being trained for overseas air service. Army troops, including armored units, number around 12,000 men.

I talked with two Norwegian flyers who are helping to train Norwegian soldiers for overseas combat duty.

From the dominion's minister of national defense, a quiet-speaking, square-jawed individual, I learned that Canada's belated re-arming has resulted in sending 80,000 men to England—70,000 in the army and 10,000 in the navy and air force, while 1941

commitments are three divisions and replacement troops.

These men have been—or will be—fully equipped by Canadians at their own expense.

A few Canadian divisions may be only dribbles in contrast to the Nazi flood, estimated at 260 divisions. Yet Canada had only 10,500 men under arms when Hitler invaded Poland and England formally declared war. Like us, they were unprepared.

Friendly to U. S.

This current European mess is doing things to Canada.

And here you run into strange situations.

Canadians seem to be intensely loyal to the empire, yet they have become increasingly friendly with the United States. Economically, Canada is a part of us. Socially, they have more in common with us than with the British. Politically, they are a part of the empire—one of the units in the British Commonwealth of Nations, that loosely drawn system that holds together the outlying possessions ruled with traditional diplomacy from Downing street, London.

One Canadian newspaperman, born in England, made this surprising statement:

"After all this is over, I hope we will be one country together."

Thinking of the English speaking union plan, I asked him, "Well, how about the King and the titled nobility? Where would they fit into the picture?"

He replied with candor: "They are symbols that are losing much of their traditional meaning. We are having more democracy today than ever before, and we like it. Many Canadians would like to see Canada—some day part of the United States."

French Canadians

Everywhere in the province I heard critical comments of the French Canadians because of their alleged lukewarm interest in Canada's war effort and of Prime Minister McKenzie King's alleged disposition to temporize with them because of political reasons.

Both criticisms may be unjustified. But there seems to be some ground for them in the fact that Canada's federal parliament at Ottawa has not enacted military conscription for overseas duty.

Home conscription exists in a half-hearted fashion, young men being trained for periods of four months only.

Three-fourths of the inhabitants of the Province of Quebec are of French descent, or French Canadians as we know them. They number three millions out of around eleven million, a force to be reckoned with. Tens of thousands cannot speak English at all.

The Canadian attitude exists that the French citizens of Canada are indifferent to the cause of the empire. Yet these same people are fanatically loyal to Canada itself, their adopted homeland.

The Canadian Effort

In summary, I believe that the following observations are true:

1. Canada is giving more in men and dollars for war than we Americans are for national defense. Their armed force of 250,000 men is an equivalent of 2,750,000 men in the United States. Her spending is on a colossal scale—so much so that one government official said, "We are getting fairly billious talking about billions."

2. Canada recognizes an economic dependence upon the United States. This relationship has been apparently accentuated by events of the past year.

3. Canada is anxious to have the friendship and patronage of the United States.

4. Canadian leaders apparently are confident that we are becoming their allies.

"Good Yankee Talk"

Witness this statement in an editorial from the Ottawa Citizen, a liberal daily:

"There can no longer be doubt about it. President Franklin Roosevelt is taking the United States into war against Germany."

Again, this excerpt from the same editorial:

"When Mr. Roosevelt some weeks ago proclaimed the Red Sea open to United States shipping, Germany said that any United States ships appearing in the Red Sea would be sent to the bottom. Well, there are 25 United States ships on their way to the Red Sea now, or in the Red Sea; 25 United States ships carrying war supplies for General Wavell's armies. If Germany should sink any one of them, or fire on any one of them, there can be no doubt over what will be the answer of Mr. Roosevelt. His answer will be war—shooting war. Soon or late, that is coming anyway."

"Our Sacred Honour"

By Ruth Jor

"For the support of this Declaration, with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our Lives, our Fortunes, and our Sacred Honour."

The first part of the Declaration of Independence with its glorious credo of Americanism is well known to all of us, but until the President's voice rang out to the nation in those stirring last lines of this same document, how many of us remembered that the Declaration of Independence demanded service from us, in return for the rights of "life, liberty, and the pursuit of happiness?"

Our fortunes are a small price to pay for the freedom under which they were built up. Without liberty where would they be? We have the answer in every land where the democracy haters have conquered a careless, uncoordinated people.

Our lives—would they be worth anything under the iron hand of a dictator? Devoid of freedom to worship, to speak, to study, even to think—what could life hold to those of us who are steeped in the traditions of liberty?

But the third part of the pledge is our greatest safeguard of our liberties.

What is our Sacred Honour? According to the dictionary, Honor is "the sense of what is right and conformable to a high standard of conduct." And, according to the Bible: "A man's pride shall bring him low; but honour shall uphold the humble in spirit."

Doing what we should because it is the right and honorable thing to do is the basis of a stable society. There is no security unless men and nations can depend upon each other's pledged word.

Reliance on our sacred honor has been the bulwark of our defense during all the trials through which the nation has passed. The pledge of not just our lives, or our fortunes, but our sacred honor as well—that is what made and will continue to make the Declaration of Independence work!

As a nation let us therefore on this one hundred and sixty-fifth anniversary of the signing of the Declaration of Independence solemnly repeat this pledge and consecrate ourselves anew to the ideals of the democratic way of life.

KROGER GROCERY BUYS 1,116 ANIMALS AT 4-H CLUB SALES

Livestock buyers for the Kroger Grocery and Baking Co. purchased a total of 1,116 animals at 84 4-H Club and Future Farmers of America sales during the past year, it was announced by Albert H. Morrill, Kroger president. Although this is a record for participation and purchases, Mr. Morrill said that the company plans to take part in even more junior livestock events during the current year.

Last year's purchases represented a marked increase over those of the previous year when Kroger bought 778 animals at 50 sales. The figures for 1938 were 211 purchases at 41 shows, according to Mr. Morrill. He explained that the company has participated in these sales for a number of years as a means of encouraging farm boys and girls to feed high-type livestock. In recent years it has been the policy of Kroger buyers to support the market by bidding on runners-up and other entries instead of attempting to buy grand champions and reserve champions. This plan was adopted after Kroger buyers observed that the top animals always brought premium prices, while other fine animals sometimes sold below the general market to the disappointment of the boys and girls who owned them.

In some instances where circumstances appear to justify it, Kroger buyers have purchased prize animals, but greater emphasis always is placed on making certain that all entries bring a fair price. Included in Kroger's 1940 purchases were 705 beef calves, 16 lambs and 195 hogs. Regardless of the prices paid for these animals, they always are sold later at regular prices in Kroger markets, usually in the community in which the animals were produced, Mr. Morrill said.

WASHTENAW RETAILERS WILL SEND SALES TAX TO LANSING

More than 10,000 retail merchants of Macomb, Monroe, Oakland, and Washtenaw counties were notified this week to mail sales tax returns and pay sales taxes to the State Board of Tax Administration at Lansing, beginning with the filing of their June, 1941 returns. These are due on or before July 15, 1941.

Heretofore retailers in these counties have filed returns and paid sales taxes at the Detroit office of the Sales Tax Department. Hereafter the Detroit office will receive tax returns and payments from Wayne county retail merchants only.

Louis M. Nims, managing director of State Board of Tax Administration, commenting on the changeover, declared that the new plan requiring all lower peninsula retail merchants, excepting those in Wayne county, to file their tax returns in Lansing would make for greater efficiency. It is in line with the new revenue bill recently passed by the legislature establishing a centralized tax collecting agency.

Question And Answer Dept.

Problem—What six-letter word in the English language that uses only three different letters of the alphabet—namely "r", "m", and "u"? (Answer elsewhere in this department.)

Ques.—Why do the newspapers always show pictures of Mussolini standing?

Ans.—We do not know. Probably it is because he has been so badly burned in Greece that he cannot sit down.

Ques.—Can you give me a brief sketch of the Siamese twins?

Ans.—The Siamese twins were two male individuals whose bodies were inseparably connected from birth by a fleshy ligament stretching from the breastbone of one to the breastbone of the other, which had on its lower border a common navel. They were born in Siam in 1811. The father was a Chinese and the mother a Chinese-Siamese. One was named Eng and the other Chang. At first the connection was such that they faced each other, but the fleshy ligament became lengthened by constant strain until they finally stood side-by-side. When the center was touched, both felt it; but on touching toward one side, the person farthest from the point of contact did not feel it. At the age of 18 they came to America and amassed an immense fortune by exhibiting themselves. In 1870, Chang suffered a stroke of paralysis, but Eng was not affected. They had settled in North Carolina where they married two sisters. On Jan. 17, 1874 Chang died, and Eng died about three hours later.

Ques.—Who and what were the Sirens?

Ans.—In Greek mythology the Sirens were sea nymphs that were seated on the island of Siren, off the southwest coast of Italy. The song of the Sirens was so enticing that the sailors felt an unconquerable desire to jump overboard and join them, and they would perish at the hands of the nymphs or were engulfed by the waves.

Ques.—Is sorghum molasses made from sugar cane?

Ans.—No. Sorghum molasses is made from a plant that resembles sugar cane and broom corn. It is native to China and was brought to America in 1856. Like sugar cane, sorghum can be cultivated wherever corn is grown.

Answer to problem—The six-letter word is "murmur."

Ques.—Who wrote the book entitled the "Spontaneous Generation of the Human Race?"

Ans.—Herbert Spencer, founder of the system of synthetic philosophy, was the author. He was an Englishman born in 1820 and died in 1903. In this work, as you probably know, he did not accept the biblical doctrine of the creation of man or the universe.

Some people believe that after the ambulance has taken the injured people from the scene of accident and the garage wrecker has removed the wrecked automobile, the accident is closed and all its effects have disappeared.

This is not true. Some accidents do not end for weeks and months, and some take years to settle. By this I mean the results of accidents—the terrible injuries suffered that take years to heal and the permanent disabilities that can never be corrected—all caused by our careless driving habits. This alone ought to discourage many of us to drive safely. It's smart to drive carefully; but if you intend to remain alive on the Fourth of July week-end, stay on the front porch and "stay alive."

Our Neighbors

PINCKNEY—The Walsh farm and several hundred acres of land, south side of Big Silver Lake has been leased by some 60 families who live in the Brightmore subdivision near Redford and a fresh air camp will be established there similar to the ones in that section. The difference will be that adults will be provided for as well as children. Wells are being put down and other improvements made and we understand that a number of buildings will be erected.—Dispatch.

MILAN—Milan's policy of the past year of "pay as you go" has been adopted this year in setting the tax rate for 1941. This community is one of the few in the state without any bonded indebtedness, and this in spite of the fact that a great many improvements in roads and sewers have been completed in the past five years. The new tax rate for the present tax collection year was set by the council Monday night at 13 mills. This is an increase of two mills over the rate of a year ago. The entire increase in rate is charged to the sewer extension now under construction.—Leader.

NORTHVILLE—Northville's fair is going to last five full days this year, beginning Wednesday, Sept. 10, and continuing through Sunday, Sept. 14. A feature of the fair this year will be the rodeo. There will be three days of harness racing and the Horse Show will have a five-day program.—Record.

MORENO—The city council voted \$800 towards the construction of a swimming pool in Wakefield Park. Mr. Bronson will furnish, entirely free, water for the pool from his big 10-inch well that is being installed at the Moreno Rubber Products. He has agreed to pump 5,000 gallons of water an hour at a temperature of 72 degrees through the pool. This will change the water in the pool every nine hours. He also has offered the use of his big cement mixer, building forms and money besides. His employees have offered their services to construct the pool. The pool as planned will be 50x150 feet and will be three feet deep at one end and seven at the other.—Observer.

JURORS HOLD PICNIC

The Washtenaw County jurors of 1936 held their annual picnic on Sunday at the farm home of J. B. Mantell, near South Lyon, with about 35 partaking of the cooperative dinner, served on the lawn.

At a business session following, the officers of 1941 were re-elected. They are:

President—Theodore Kuhl, Freedom.

Vice Pres.—Sam Hammill, Ann Arbor.

Secretary-Treasurer—Mrs. Nina Arend, Saline.

It was voted to have a mid-winter picnic at the home of Mr. and Mrs. Harry Knickerbocker, Manchester.

The wooded half of Michigan

MIGHTIEST of all Michigan's resources was once its virgin timber. In Southern Michigan the hardwood was cut to clear farms. And to the north, the vast pine woods were turned into lumber for building the nation's cities.

Today, under wise methods of reforestation, the woods are growing up again. About 20,000,000 acres—over half Michigan's land area—are wooded. By scientific cutting, these forests produce more than 400,000,000 board feet of lumber a year, besides firewood, pulpwood for paper, tanbark, veneers and other products.

Legend has it that when the mythical Paul Bunyan was lumbering Michigan, his shout could be heard from Monominee to Saginaw if the wind was right. Modern lumbermen and forest rangers don't have such voices. But by telephone they keep in touch with woods operations, market their products, and control forest fires, far more efficiently than the old-timers ever could.

Schedule

Thursday, July 3—Federal Screw vs. Kimunity.

Monday, July 7—Hankard Hi-Speed vs. CCC.

Tuesday, July 8—Central Fibre vs. Chelsea Spring; Cassidy Lake Faculty vs. Federal Screw.

Note—A new schedule has been drawn up for the last half of the season. All managers are to get in touch with me and get their copy.

Standings

	W	L	Pct.
Chelsea Spring	6	2	.750
Hankard Hi-Speed	4	2	.666
Federal Screw	4	2	.666
CCC	5	3	.625
Spaulding Chevrolet	5	3	.625
Cassidy Lake Fac.	2	5	.285
Kimunity	2	5	.285
Central Fibre	2	6	.250

During the past playing week games have been played that have started a real battle for top league honors.

A week ago yesterday Federal Screw called on Cassidy Lake Fac. at the camp, ate supper with them and then proceeded to sneak in a winning run in the second overtime inning and defeat them 4 to 3. Is that the way a guest should act?

The following night Cassidy Lake Fac. came in town to play Central Fibre and Central Fibre gave the Faculty another one run defeat with a wide open score of 11 to 10. And while this game was taking place Spaulding Chevrolet and Chelsea Spring were over in the southwest corner taking care of a much postponed play-off. There were a couple of errors and a couple of lucky breaks and Chelsea Spring lost their second game of the year.

Chelsea Spring, after having lost two straight, got slightly hot under the collar or sunburn, walked on the field last Tuesday night and gave the heretofore second place CCC a slap-down into a tie for third by defeating them 12 to 6.

As you have noticed we now have two teams tied for 2nd place and two for 3rd place, and any one of the five teams losing a game will change the order all around. The game to see this next week will take place on Monday, July 7 between Hankard Hi-Speed and CCC.

Cash Rent Undesirable

Lease for Farmer, Owner

Thousands of farm owners and tenants will soon be thinking about next year whether to string along with each other on the same terms, find a new tenant or landlord, or possibly make a new lease. The landlord-tenant relationship is not an easy one. There are many things to irritate one or the other coming up during the year. A good farm lease, fair to both parties, will not save a landlord-tenant relationship from going sour because of the sins of commission or omission by one or the other, or both, but it will help. Also it generally saves a lot of useless argument.

The most simple lease, and one that many tenants and owners prefer, is for straight cash rent. There are instances in which the same family has rented a piece of land for several generations from an owner and his heirs for cash. Such leases are durable where the rental is nominal, the tenant capable and honest, and the owner lenient when crops fail and there is difficulty in getting the money together. In this form of lease, the tenant has maximum freedom in running the farm and the owner has little responsibility. It is the usual kind of lease you find where the owner has moved to California or Florida, takes little or no interest in the farm except the rent check, if any, or when the tenant writes to tell about the roof leaking or the crib going down on one corner and what should he do about it.

Shortage of 'Seeing' Dogs

"At the present rate of training it would take 250 years to train enough dogs to serve as 'eyes' to blind persons and the demand probably will be quadrupled because of present war conditions," Miss Hazel Hurst, president of the Hazel Hurst Foundation for the Blind, at Monrovia, Calif., said recently. She explained that it takes four months to train the dogs; one month with the person whose protector they are to become, but it takes four years to train a man to train the dogs, she said.

Art the Hard Way

Perhaps adults are too busy to appreciate culture or art, as a famous sculptor and painter once said, but school children are not too busy. As a matter of fact, school children in Tacoma, Wash., went out of their way to have a statue made for their school.

The children made the statue for the sculptor as per order, but the problem arose as to how the children were to pay for it. They solved the problem by gaining permission to raid all the dumps and even garbage cans they could find. They succeeded in gathering up such articles as bottles, discarded cans and rags in such great quantities that their subsequent sale provided ample funds to pay for the statue.

This Week In Defense

Civilian Defense Director LaGuardia announced plans for a nation-wide Fourth of July celebration, with a radio address by President Roosevelt at 4 p. m., EST, to be followed by the singing of the national anthem simultaneously throughout the nation.

Commenting on the arrangements, the President said, "It is altogether fitting that we should dedicate ourselves to defend and perpetuate those inalienable rights which found true expression in the immortal Declaration. Those words never had a deeper or more solemn meaning for America than they have in this hour of anxiety and peril."

President Roosevelt told his press conference the U. S. would give all possible aid to Russia in its war with Germany but that no list of Soviet needs had been submitted yet. The Treasury Department announced it had licensed Russia to use its \$40,000,000 in frozen funds here. Acting Secretary of State Welles announced the Neutrality Act, which prohibits American vessels from combat areas, would not be invoked in connection with the Russian conflict.

Mr. Welles said that while the Communist dictatorship is as intolerable as the Nazi dictatorship, the immediate issue is defense against Hitlerism and the German plan for universal conquest.

Town Sells City Park

Legend has it that farmers, from time to time, have been sold the Brooklyn bridge, the Empire State building, or a gold brick, but it remained for the town of Ada, Okla., to pull a prize boner that should be given top honors. Walter Brooks bought 10 acres of ground from a tax resale list. After buying the property through a bidding sale, he went to look at the property. He discovered that he had purchased part of the city park. How the park property was listed on the tax rolls was not accounted for, so now the town is seeking some means of cancelling the sale; giving Brooks back his money and the town keeping the park.

THE world must be made safe for democracy.

Calling aside all his obligations of neutrality, President Wilson came before both branches of Congress, assembled April 2, 1917, and in a historic speech asked for a declaration of war against Germany in order to make the world "safe for democracy."

'Anyone Can Sing National Anthem'

You don't need a perfect voice to sing our National Anthem correctly, according to Miss Lucy Monroe, famous singer of stage, radio and opera. Miss Monroe ought to know, too, because she is considered the foremost exponent of the National Anthem today.

"There has been a lot of talk from various quarters," she says, "that the National Anthem is much too difficult to be sung by the average American, that its register is so high it is a vehicle for opera stars. This is a lot of bosh."

"There's only one way of singing the National Anthem, and that's to sing it as you would at a patriotic gathering."

Miss Monroe has sung this stirring song so many times that she has been honored with the title of "Star Spangled Soprano." Her fame as an interpreter of the National

LUCY MONROE
"Star Spangled Soprano"

Anthem has made her the official soloist of the American Legion and the Gold Star Mothers. As star of the "American Jubilee" at the World's fair last summer, she sang the song more than 700 times to over 2,000,000 people.

This spring Miss Monroe made what she considers "an all-American recording" of the "Star Spangled Banner." With the accompaniment of the National Symphony orchestra, she sang the song from the authentic first edition in the Library of Congress.

The disc was recorded at Constitution Hall in Washington on the tenth anniversary of the congressional act which made the "Star Spangled Banner" our National Anthem.

Because of her heritage and training Miss Monroe is considered an all-American artist. Her family came to America in 1810, and seven of her ancestors fought in the battle of Bunker Hill. She is a member of the family which gave the White House President James Monroe.

In addition to being featured in more than 500 coast-to-coast broadcasts in four years, Miss Monroe has sung with four of America's outstanding opera companies—the Chicago, St. Louis, Cincinnati and the Metropolitan. Yet for all the "glamour" there is to an opera star, she prefers to be known as "the girl who sings the Star Spangled Banner."

A PLEA FOR HUMANITY

By Fred W. Braun, The Safety Man

"459 Americans Killed in Action." If you read that headline in this paper you'd be appalled at this terrible loss of life. Your fighting spirit would be kindled and you'd shout, "revenge!" Well, that's exactly what happened last Memorial Day just a few weeks ago, but there were no glaring headlines!

These people did not die in battle, they died in accidents—most of them in automobile accidents, and the peculiar aspect of this tragedy is the placid manner with which it is noted by the public. Is this sort of thing to be expected? Are we to continue to pay this terrible price every holiday on the calendar? Do we have to have wars to awaken us to the value of life, comfort and happiness?

What can be said to make people realize that

there is no difference in death and injury on the battlefield and the same fate on the highway? A life is lost—it makes no difference how or why. If someone put a gun in your hand and told you to go forth and engage an enemy with the same weapon, you'd shudder and perhaps resist, yet that's exactly what happens when you start out in your car on a crowded highway. Chances are if you're careful you'll avoid the enemy, "accident," and get to your destination and return safely. But one false move of carelessness and the enemy is upon you and your life—and often those with you—may be snuffed out in a second.

While it is true the safest place to enjoy the Fourth of July is on your own front porch with your car in the garage, it is not the intention of this writer to advocate staying at home. It is the principle of safety that is emphasized—safety on the highway—care, caution, and common-sense. Stay alert, Stay on the Safe Side, Stay alive!

Bacterial Vaccine Fails

To Prevent Common Colds

A carefully controlled study of the heat-killed bacterial vaccine for the common cold revealed no evidence that it was of value in a group of cold-susceptible students in the University of Minnesota. H. D. Dichi, M. D., A. B. Baker, M. D., and D. W. Cowan, M. D., Minneapolis, report in The Journal of the American Medical Association.

Their study was based on two groups of cold-susceptible students. The control group, the members of which believed that they were receiving vaccine, were given hypodermic injections (beneath the skin) of sterile salt solution at the same intervals that the experimental group received the vaccine.

"During the year of the study,"

the three physicians report, "the persons who received the vaccine reported an average of 2.1 colds per person. This is a reduction of 55 per cent from the average of 4.7 colds which these same students reported that they had had during the year prior to the study. This is as great a reduction as has been reported in most of the studies which conclude that these vaccines are of value."

"However, our control group, who received only the salt solution, reported an average of only 1.9 colds during the year of the study, a reduction of 61 per cent from the average of 4.9 colds which was reported for the previous year."

"From these figures it is apparent that there is no evidence in this study that the vaccine had any influence on the average number of colds suffered per person."

Fresh Garden Beans

Fresh garden beans contain about as much vitamin C as tomatoes. Although from 30 to 40 per cent of the vitamin content is lost in cooking, beans still are considered a good source.

Cereal Flake Crumbs

There's no need to struggle with a food chopper or grater when your recipe calls for dry crumbs. Here's a much easier and quicker way: place crisp cereal flakes between two folds of a towel, roll to desired fineness, shake the crumbs into a bowl—and there you are. Crumbs, a clean towel and a rolling pin. This is one of those cases where the easiest way is the best way. For the toasty flavor of the crisp flakes adds an extra finish that's hard to beat, and adds vitamins, too, when a vitamin-enriched cereal is used.

TO: NATIONAL BANK OF DETROIT 532 DETROIT

PAY ONE HUNDRED SIX HUNDRED THIRTY-THREE THOUSAND FOUR HUNDRED NINETY SIX AND 12/100 \$1,016,496.12

State Treasurer,
Lansing, Michigan

MICHIGAN BELL TELEPHONE COMPANY

One half of Telephone Company's state property tax payment for 1940 made at Lansing, remainder to be paid by October 31. The Company's total State and Federal tax-bill reaches \$8,000,000 for the year.

Lansing, June 30—The Michigan Bell Telephone Company's total tax bill reached a new peak of nearly \$8,000,000 in 1940, it was announced today by Frank L. Hall, tax attorney for the company, as he handed to Auditor General Varian a check for \$1,016,496.12, representing half the company's state property tax, which is payable into the Primary School Fund.

Hall said that 1940 taxes of \$7,920,000 were 28 per cent above the 1939 total, the previous high. Of that amount, \$7,568,000 was chargeable to operating expenses, amounting to

\$8.71 per average telephone in service during the year, or 16 per cent of the company's operating revenue. In addition to a total state property tax of \$3,236,992.24, taxes chargeable to operations embraced the Federal income and capital stock taxes of \$81,000, and social security taxes, to the Federal and State governments, \$598,000. Miscellaneous taxes, primarily municipal levies on property not used in telephone operation, amounted to \$47,000.

Hall attributed a large part of the tax increase in 1940 to the sharp plant expansion brought about because of

the National Defense Program and the accompanying industrial upsurge. He pointed out incidentally that approximately \$600,000,000 in Defense contracts were awarded Michigan industries during the year, 75 per cent of which were in the Detroit area.

The company's state property tax is the largest single payment into the Primary School Fund. From that fund, the taxes are returned to the 88 counties in proportion to their school population and are used for school purposes. Final payment on the \$3,236,992.24 property tax of the company is due by October 31.

Continuous Activity

THE majority of mankind have been accustomed to considering employment as a material activity in which they engage for the purpose of "making a living." When this activity is taken away from them for any reason, and the income which they have been receiving and which is considered necessary for maintaining a comfortable home, ceases, then doubt and fear creep in, together with the suggestion that they may be permanently cut off from any activity which will afford a living. This condition of thought is the result of holding the concept of man as material, finite, and limited in activity.

In the first chapter of Genesis it is clearly stated that man was made in the image and likeness of God. Christ Jesus said, "God is a Spirit" (John 4:24), and in the Christian Science textbook, "Science and Health with Key to the Scriptures" (p. 465), Mary Baker Eddy has given Spirit as one of the synonyms for God. Therefore man, His image and likeness, or reflection, must be spiritual. Spiritual man, therefore, is continuously expressing the uninterrupted activity of Life, God, Mind, and constantly manifesting intelligence and wisdom. Jesus had a clear realization of man's relationship to God when he said (John 5:17), "My Father worketh hitherto, and I work."

"Well," one may say, "granted that there is spiritual activity, what bearing has that on my problem? I need some concrete material employment that will bring in the income necessary to meet my human needs." True, we all do, but this can be demonstrated and made manifest in our experience by right, active, spiritual thinking about God and man's relation to God; in other words, by seeking "first the kingdom of God, and his righteousness" (Matthew 6:33), which Jesus said would be followed by the addition of "all these things" that are needful.

In "Miscellaneous Writings" (p. 307) Mrs. Eddy says, "God gives you His spiritual ideas, and in turn they give you daily supplies." It is our receptivity to these ideas which enables us to express right activity. If we go forth in search of work, understanding that we possess those spiritual qualities which are so much needed in the business world today, and holding uppermost in our thought the desire to give of what we have rather than the wish to get, this spiritual thinking will direct us to those who are in need of what we can give. The Bible promise (Luke 6:38), "Give, and it shall be given unto you; good measure, pressed down, and shaken together, and running over, shall men give into your bosom," is always fulfilled.

Sometimes we may be asked to perform services which we have previously thought were beneath us, but if we perform our present tasks humbly, gratefully, and efficiently, we shall soon find suitable and congenial occupation.

We can all be more active in our expression of thanks for all blessings by being more watchful and alert to seize an opportunity to help others, by doing some little act of kindness, and giving a word of encouragement to some one struggling under a heavier load than we are bearing. The thought that inactivity is a result of advancing years is one that must be destroyed. Mortal mind may argue that we are beyond the age when we can be of use in business, or, at best, that our opportunities to engage in lucrative employment are limited. Does God manifest falling faculties or other infirmities? No; that is unthinkable. Then man, His image and likeness, cannot be hampered by beliefs of age.

Sometimes we may be tempted to think that we have been wrongfully forced out of our place, to make way for some one else, and resentment and self-pity may try to control us. In the only real universe, the spiritual realm, there is no taking from one to give to another. Each of us has his work to do here and now, and that work is the daily endeavor to demonstrate man's oneness with God and to manifest the abundance of good which God has bestowed upon all of His sons.

Soapy Rinse for Clothes

A light suds rinse does for clothes and linens in the wash what a second lathering does for hair being shampooed. First press or spin out as much of the soiled wash water as possible; then give the wash a quick suds rinse. Following with at least two clear water rinses and you will be delighted with the whiteness of the wash.

Display of U. S. Flag Has Etiquette 'Code'

THE CORRECT USE OF THE FLAG

Do not let the flag touch floor or ground.
Do not place any object or emblem on the flag.
Do not use the flag as drapery. Use bunting.
Do not use the flag as part of a costume or uniform.
When used on a motor car, the flag should fly from a staff.
Do not use the flag in any form of advertising.

Above are six tips for flag etiquette as outlined by Mrs. Russell B. Williams, Chicago, chairman of the flag committee of the Daughters of the American Revolution. The D. A. R. is in the midst of nationwide campaign to popularize flag etiquette.

On important national holidays patriotic citizens throughout the country like to display the American flag as outward evidence of their loyalty toward their nation.

On days like these, being familiar with proper flag etiquette is valuable and important. For rather definite and well-defined courtesies toward the national banner have been developed in military and civilian practice of flag display.

Most people realize in a general way that good care should be given the flag and its use as a common piece of cloth should be avoided. But sometimes lacking is the knowledge of more specific rules regarding its display.

Compiled here are a few rules of flag etiquette for the display and use of "Old Glory."

1. When the flag is displayed on a wall, the stars should be toward the left with the stripes floating to the right.

2. When hanging with the stripes in a vertical position, the stars should always appear in the upper left hand corner.

3. On parade, the American flag always claims the place of honor—at the right.

When flown at half-staff, the flag should be hoisted to the peak for an instant and then lowered to the half-staff position. Before lowering the flag, it should be raised again to the peak. On Memorial day, May 30, the flag should be displayed at half-staff from sunrise until noon and at full-staff from noon until sunset.

4. The flag must not be used as a table cloth. Nothing but the Bible should rest upon the flag.

5. Never display the American flag with the union down except as a signal of distress.

6. The flag should never be used to decorate platforms or stands, or draped in any fashion for decorating purposes.

7. When used to cover a casket, the flag should be placed so that the stars are at the head in the upper right-hand corner (over the heart) looking from the foot. The flag should not be lowered into the grave nor allowed to touch the ground.

8. No other flag should be hoisted above the American flag except a church pennant, which can be flown from the masthead above the Stars and Stripes when religious services are in progress in a military chapel or aboard a United States navy ship.

Hot Weather Relief

High temperatures and clear, bright days make swimming and sun bathing at Michigan's many beaches an ideal way to spend a hot weather holiday. As at Bay City state park shown here, where thousands play on the warm sands each weekend, or swim under the watchful eye of the lifeguard, some of the state's finest water frontage developed for recreation is within the limits of the 88 state parks. In the course of a year the Michigan state park system is host to visitors numbering nearly twice the population of the state.

Beauty Is Not Necessary For Success in Movies
If you are hard to photograph, young woman, the chances are you would make a good motion picture actress.

That is, being hard to photograph is the first step.
You'll have to have talent, you'll have to study, and you'll have a lot of other chores to do. But you can rest assured, right from the beginning, if you haven't one of those even, regular and perfectly beautiful mugs, that you have a chance.

The authority for this statement is Charles Lang, A. S. C. Lang is a head photographer at Paramount studios.

"After 20 years with cameras," Lang says, "I've come to the conclusion that young girls who have beautiful, regular features, although they photograph wonderfully, haven't much chance to get anywhere in films."

"The girls who do get ahead have character in their faces. Some aren't beautiful. In fact, some have very homely features which make them extremely difficult to photograph. But they do have a quality above and beyond beauty—something that stands out."

Lang, who left the University of California to photograph players and has been at it ever since, asserts that the girl who looks like everyone else, although she is beautiful, doesn't have a chance.

"From the standpoint of the cameraman and the lens," he explains, "a face must have something to sell—something which makes it unique, and different, and unusual. Girls with a common, ordinary variety of beauty should stay out of Hollywood. They're just too, too lovely to mean anything in front of a camera."

Dog Aids Mounted Police
By Finding Liquor Cache
Not only do the Mounties get their men, but they've trained their dogs to get them, too.

This was revealed for the first time in Canadian legal history when Constable E. Moore of the R. C. M. P. introduced Happy Black Lux, a handsome police dog, as his principal "witness" in a liquor case in Regina, Sask.

The evidence, it might be said, was as clean as a hound's tooth. The constable, it must be admitted, did most of the talking, but the dog's actions told the rest.

Moore told how the dog uncovered some bottles, one containing liquor, in the manglers of a barn on the farm of Christ Hamann. Hamann was found guilty and fined \$50 and costs.

The constable described how the dogs were trained to help the Mounties. He related how Happy Black Lux was taken to the vicinity of Hamann's farm, under suspicion of harboring liquor, and "commanded" to make a search.

Before sending him off on a chase, Moore said, he lets the dog smell a vial of liquor containing either home brew or straight alcohol, depending on whatever the Mountie expects to find.

The dog is then released with the command: "Go find him, Happy Black Lux."

Insects' Eyes More Sensitive
Eyes of some insects are much more sensitive to ultra-violet light rays than are human eyes, reports the Better Vision Institute. In an experiment sunlight was passed through a quartz prism so that infra-red rays fell on one area, and ultra-violet rays fell upon another area. To human eyes the red area was light, but the ultra-violet area was dark. A nest of ants was distributed over both areas under the prism. The ants hurriedly carried the eggs out of the ultra-violet into the red area. This indicated that ultra-violet rays are visible to ants, but that infra-red rays are relatively dark.

Always a First Time
The old clock in the tower of the New York City hall stopped at 5:24 p. m. one day recently for the first time since it was electrified 10 years ago. Most affected by the stoppage were the old men in the City Hall park, many of whom measure their slowly dwindling lives by the moving hour hand of the city hall clock. The clock in the mayor's room on the second floor of the same building stopped at the same time, having been cut in on the same circuit that controls the outer clock. There was considerable speculation as to what might have caused the stoppage, but the answer wasn't known until the next day when repairs were made.

Women Past 40
"The woman more than 40 years old has a struggle when thrown on her own resources," reports Miss Mary V. Robinson of Washington, public information director of the Women's Bureau of Public Employment. "Try as we may to believe otherwise, there is still discrimination on jobs on the basis of sex." A survey described by Miss Robinson suggests that older women—who often have had college training before marriage—are excellent companions or as expert shoppers; may direct parties; may do "fancy" cooking at homes or develop jobs in hotels and other large organizations.

(This is a paid advertisement)
Owing to the balance of trade (outside of defense work) being against us, the devaluation of our money in gold, the influx thereof by foreign capitalists, and the seeming lack of confidence between bankers and us real estate sellers, the price of all desirable lots I have left will take a twenty-five dollar advance on and after August 1, 1941.
I only want to sell to people that can use or will want to use a lot in the near future to live on or build on as real estate is a poor investment if you have no use for it.
You only need \$25.00 down and balance on your own terms if you are looking for a lot. However the time to pay is when money is coming easy and in fair sized bunches. You can do it with much less effort.
I have only two lots left north of Chandler St. and east of Wilkinson St.—Price \$175.
Eight lots left (some of them poor) south side of Chandler St.—Price \$150.
Seven lots Archie Wilkinson addition, east side Wilkinson St.—Price \$150. And six lots on Sec. 13 outside Village on old Territorial Road—Price \$125.
Since running my last advertisement two years ago, advising my friends to buy if they could use lots and to keep away if they had no use for them, I have sold more lots than I now have ready and desirable.
Dated July 1, 1941.
Respectfully,
ARCHIE W. WILKINSON
