Community Fair Will Be Held October 3-4

The Chelsea Community Fair Association held its fall meeting Tuesday night at the high school.

Plans are being made for a larger fair with more exhibits than there has been in previous years. The fair will be held on October 3 and 4.

The policy of limiting entries in most of the agricultural exhibits to 4-H club members and Smith-Hughes students will be followed again this year. Entries in the flower, hobby and grain exhibits are open to anyone.

Premiums in the livestock classes are to be raised to encourage a larger showing.

Committees and those in charge of exhibits are as follows:

Hobbies—Mrs. Paul Schaible.
Flowers—Mrs. Warren Daniels.
Livestock—Loren Koengeter.
Agriculture—George English, N. W. Laird.
Home Economics—Miss Gladys Clark.
Commercial Exhibits—Lloyd Heydlauff, Norbert Merkel.
Contributions—Paul Niehaus, Russell McLaughlin, Roy Ives and Henry Schneider.
Friday night program—Albert C. Johnson.
Saturday night program—Ray W. Barber.

Advertising—M. W. McClure, Dale Claire.

Officers of this year's fair are:
President—Darwin Downer.
Vice-Pres.—Mrs. Paul Schaible.
Secretary—Thomas Bust.
Treasurer—Carl Mayer.

As in previous years there will be programs both evenings. The program for Friday night will be offered by the high school, while that of Saturday night will be a program from outside.

LET'S BE FAIR!
(An Editorial)

A few complaints have been heard during the past week concerning the two-hour parking limit which is now being enforced on Main and Middle streets in Chelsea.

Contrary to some opinions, this parking limit is not intended to inconvenience anyone, but rather for the convenience of those who wish to find parking space near the place they plan to do their shopping.

Before the limit was put into effect some sections were parked full with cars which stood there from morning until night, making it impossible for shoppers to find a place to park. There are many streets which are close enough to the factories to permit all-day parking with little inconvenience to anyone, and business men can leave their cars at home or find parking space other than in the restricted area.

Few farmers or shoppers park for more than two hours in one spot and the restrictions should not cause them any inconvenience—to the contrary, they can always find a place to park.

If street space cannot be found for all-day parking, the village has a large lot on North Main street which can be used, and the municipal parking lot is very conveniently located near the business district.

Be fair in voicing your opinions—this action was not taken by the village council in the spirit of hurting anyone—it was taken to correct a situation which was unpleasant in many respects. Let it be given a fair trial before we pass judgment!

Chelsea Public Library Has Exhibit of Curios

A very interesting and educational exhibit has been placed in the Chelsea Public Library. The exhibit is arranged in a covered case mounted on a desk-like stand. The case is filled with various curios, quite appropriately called "My Paper Weights", collected by the donor from all parts of the world. There is "Sand from Sahara Desert", Lava from Vesuvius, Coral from Bermuda, Rock Crystal from Switzerland, Cork from Algeria, a Florentine Mosaic, a piece of German camouflage, etc.

This exhibit has been loaned by Orla B. Taylor of Detroit, who has traveled very extensively, and is to remain in the library for an indefinite period.

Mr. Taylor, an outstanding resident of Detroit, was born in Fowlerville in 1865. His parents moved to Chelsea when he was three years old and his childhood and youth was spent in this community. He completed his law course at the University of Michigan in 1887 and has attained very outstanding achievements in the legal profession.

Mr. Taylor has contributed articles to newspapers and magazines relating to legal, financial, historical and political subjects. Recognition has been shown him through the bestowal of awards and honorary degrees. He is president of the Detroit Historical Society and a trustee of the Michigan State Historical Society. Mr. Taylor has traveled extensively in all parts of the world and has collected the objects of interest and value which are on display in the case.

Chelsea can justly be proud to claim Mr. Taylor as one of her sons and sincerely appreciates his interest in this community, evidenced by the loaning of this exhibit to the library and to the community.

Donkey Baseball Classic Won By East Side Team

By Rolly Spaulding

Last Monday night almost everyone within driving distance of Chelsea thronged to the local athletic field, where the annual East Side - West Side Donkey Softball game was to be played. "The lights dimmed, a hush came over the audience" and the game was under way.

The East Side scored two early runs and then after the West Siders had scored two runs to tie the score, they pulled, tugged and cussed two more runs home to defeat the West Side by the score of 4 to 2.

The morning after the night before rolled around to find the players stiff and—well, ask George Doe, who I am sure is glad a barber's job is entirely a standing job.

However, the purpose of the game was accomplished. As you probably know, each Twilight Softball League player was assessed a small amount and with the receipts from Monday night's donkey game all the doctor bills incurred during the past softball season will be paid in full without any cost to the individual himself—thanks to good sportsmanship on the part of the players and the very much appreciated support of all you people who turned out to our donkey game.

This completes the second year of our Twilight Softball League games and on behalf of the fellows who played I want to thank our sponsors, the village council, and all of you folks who made our league possible.

Plans Call for Delivery Service Starting Oct. 1

Although plans are not completed for initiating mail delivery service in Chelsea, Postmaster H. D. Witherell believes that the service will start as scheduled, on October 1. Information regarding civil service examinations for the carrier positions has not been received by Mr. Witherell, which will no doubt make it necessary to start the service with temporary carriers.

Many inquiries have been received as to the proper method of installing mail boxes for this service. Mr. Witherell states that slots may be cut in doors or that mail boxes may be placed in a convenient sheltered spot near the home entrance.

All who desire the service must have their houses properly numbered before the service starts. If anyone is in doubt as to their correct house number this information may be obtained by calling the local office of the Michigan Consolidated Gas Co.

Schools To Cooperate In Defense Program

According to information received from the United States Office of Education, the schools of the country will be asked to take part in the National Defense Savings Program.

In a statement issued jointly by the U. S. Treasury and the U. S. Office of Education, three goals are listed as the purpose of the program: The preservation of individual freedom; systematic savings to counterbalance inflation; and a cushion against post-war unemployment.

Plans formulated by the Federal government for public school participation in the sale of stamps and bonds include:

1. To give information to students about the Defense Program and how it is to be financed.
2. To outline and administer the program by a Defense Savings Staff under the Treasury Department, with the cooperation of the U. S. Office of Education.
3. To carry out the program by State and local committees on which the schools will be represented.
4. Objectives to be realized include: aiding students to know the facts and understand the purposes behind the national effort for total defense and to persuade students and their parents to participate in financing the national defense.
5. Citizenship training for the national defense is closely related to the general purpose of the education program of the public school system of the nation.
6. Any advice or assistance needed for effective cooperation, will be available from both Federal agencies. The program will get under way in the near future in order that "prompt emphasis can be put upon the fight for freedom to which this nation has dedicated itself."

MILAN—School opened Tuesday with an enrollment of 640 students. In the six lower grades there is an enrollment of 280 which averages forty pupils to a room, a task to challenge any conscientious teacher. In the upper six grades there are 360 but more are arriving, so the correct number cannot yet be determined.—Milan.
TECUMSEH—Fire fans—and there are hundreds of them in Tecumseh—were struck a "below the belt" blow Monday evening when the village council enacted an ordinance providing a minimum fine of \$10 and costs for all persons who violate a Tecumseh law which provides that it is unlawful to follow either fire or police apparatus, on official business, at a distance closer than 300 feet. The ordinance, which contains the sharpest teeth of any yet written by the council, was given immediate effect.—Herald.

HONORED ON BIRTHDAY
 A family party on Sunday at his home in Lima township honored Julius F. Schmid on the occasion of his birthday anniversary. Supper was served, with covers for Mr. and Mrs. Erwin Eisenhan and son, Mrs. Henrietta Eisenhan, Mr. and Mrs. Ralph Grossman and daughters and Mr. and Mrs. Edw. Wenk of Ann Arbor; Mrs. Roy Feldkamp of Clinton; Mr. and Mrs. Otto Eisenman and family of Chelsea, and Mr. and Mrs. Arthur Kuhl and daughter of Lima.

HOWELL—Celebrating the 84th anniversary of its opening, the Michigan State Sanatorium near Howell will observe Sunday, Sept. 7 as Hospital Day, according to Dr. George L. Leslie, medical superintendent of the sanatorium. Looking at the sanatorium today, with its beautiful grounds and buildings valued at a million and half dollars, it is hard to visualize September 7, 1907, when two patients were admitted as the sole occupants of Michigan's first state tuberculosis sanatorium—a frame shack with a 10 bed capacity. Today's capacity is 420.—County Press.

Lansing—Michigan's revenue boom for state spending may soon come to an end.

While state officials are wary about prognostications in these days of overnight defense commands from Washington, the state financial picture is becoming clouded. Here are the reasons:

1. Curtailment of production of automobiles, projected to be 25.5 per cent for September, October and November and likely to be 50 per cent for the 1942 model year.

2. Curtailment of easy credit. It's 15 to 33 1-3 per cent down for many commodities, if you can get them at all.

3. Curtailment of gasoline consumption. Eastern states have been undergoing an emergency remedy for gasoline shortage (the latter being caused solely by lack of transportation) whereby gasoline stations are open from 7 a. m. until 7 p. m. and a blanket 10 per cent reduction is made in wholesale bulk deliveries. Although this rumor could not be verified, Mid-West dealers including those in Michigan have been advising customers to expect similar restrictions here early in the Fall.

4. Curtailment in production of non-defense goods in certain industries which are dependent on supplies essential for national defense.

If the shortage of supply becomes acute—and that stage is rapidly developing—then defense orders will get the right-of-way and non-defense goods must wait.

Such priorities are already causing production delays for many non-defense items—such as furniture, refrigerators, washing machines, stokers and so forth.

In a period of unusual prosperity, a seller's market in fact, it is a paradox that fattened pocketbooks cannot buy some commodities at any price.

Put them all together, as the old ballad goes, and it spells one thing: Less tax revenue in the next few months. And that, ladies and gentlemen, could easily give Governor Murray D. Van Wagener and the state legislature a financial headache of annoying size. We're not forecasting that it will develop. Your guess is as good as ours. It just COULD happen!

BIRTHDAY PARTY
Honoring her daughter Jayne on her eighth birthday, Mr. and Mrs. Kenneth Proctor entertained Miss Leona Moeckel of Waterloo and the teacher, Mrs. Wilson, and 11 school-mates on Monday afternoon from 4 to 6. Games furnished the diversion of the afternoon. A delicious supper was served. Miss Jayne received many lovely gifts.

Automobile Revenue
Take the automobile situation, for example. Here is something right at home. It vitally affects the welfare of hundreds of thousands of Michigan citizens.

In addition to inflicting temporary unemployment upon some automobile workers, curtailment of automobile production will mean a decrease in the sales tax revenue. Recent reports of the sales tax department show that Michigan's state treasury has been receiving about one-fourth of all sales tax revenue from purchase of new automobiles. The 3 per cent levy is bringing around 73 millions annually; one-fourth of that is 18 millions.

Cut automobile sales one-fourth to one-half, and you can figure quickly what it will mean to the state budget—\$4,500,000 to \$3,000,000 less revenue.

Of course, there is no state sales tax on government orders. When you substitute tanks for automobiles, you substitute a non-productive tax product for one that helps to balance budgets and provide funds for old age pensions, library books and other deserving needs.

Installment
When Uncle Sam decided that we were on the verge of getting inflation drunk on easy credit, he knocked the props out from the "\$1 down, \$1 a week" type of consumer spending.

Now, if you want to buy a refrigerator, washing machine, electric iron, stove, air conditioner or radio, and prefer to spend some of your future earnings for immediate use and enjoyment of such commodities, you must plunk down 20 per cent in cash before you sign the contract. The down payment on a furnace, stoker, oil burner or water heater must be 15 per cent.

And every time someone signs an installment contract, the State of Michigan starts to collect 3 per cent sales tax on the total amount. Easy credit, together with easy money, boosted the sales tax total from 60 to 73 millions in 12 months. Where the tax total had been 46 millions six years ago, it soared to 73 millions in the past fiscal year ending June 30, 1941.

If credit curbs tend to reduce spending, then the immediate effect would be a decline in sales tax revenue. The long-range effect might be something else, merely channeling consumer dollars into other fields. If you can't "afford" refrigerators, radios, washing machines and automobiles from the month's pay check (with respect to the larger down payment) then you may prefer to buy jewelry, clothing, food delicacies, sports equipment and other non-defense articles.

Business Week recently recorded these gains in sales for 1941, com-

pared with 1940: Automobiles, 37 per cent; jewelry, 28; household appliances, 23; furniture, 22; building materials, 22; men's clothing, 19; shoes, 19; women's ready-to-wear, 12; drugs, 9, and groceries, 5.

Gasoline Revenue
By constitutional amendment, the state's tax on gasoline must be used for highway building and maintenance.

Hence, the possibility of gasoline rationing does not affect the state budget except as it might curtail the activity of local and state highway departments.

But we're all interested tremendously in good roads. Here are some comparative facts concerning gasoline taxes:

1937	\$29,375,000
1938	27,679,000
1939	29,788,000
1940	32,392,000

According to the Michigan Petroleum Industries Committee, gasoline consumption has been running about 15 per cent ahead of last year as shown by collection of taxes. June collection for May consumption was \$3,332,000, a revenue gain of \$84,000 or 13 per cent. May ran more than 15 per cent. July's consumption, based on collections in August, should reach an all-time high. Automobile travel at the Straits of Mackinac, for example, is running far ahead of last year.

Priorities
Because such essential commodities as steel, aluminum, copper and silk are being diverted from consumer-goods industries, business is in a restrictive phase for the moment. Demand for these commodities is far ahead of existing supply. Hence, the necessity of priorities.

Business indexes have been declining for three successive weeks. It is a temporary period of adjustments, while the demand for non-durable goods—wool, cotton, and rayon, for example—are hitting new peaks. Department store sales have been as high as 40 per cent ahead of last year.

Automobile financing in May, 1941, was nearly 50 per cent above May, 1940.

It is a novel situation.

dicted on two-year continuation of the defense boom.

It assumed that revenues will be maintained at 1941 levels.

Appropriations made by the legislature and approved by the governor call for an increase of 13 millions during the current year for comparable items in 1939-40. Even on this basis the budget, as originally drafted, contemplated a surplus of \$4,500,000 for 1941-42 and \$5,100,000 for 1942-43.

If revenues were up to expectation, the two-year surplus of \$9,000,000 could be used to reduce the deficit, estimated August 1 to be \$14,411,000.

Budget Director Leo Nowicki is said to be apprehensive that curtailment of automobiles, an end of easy credit, and the bottleneck in priorities may combine to reduce sales tax revenues and thus throw the budget out of kilter, at least to the extent of not reducing the deficit during boom years.

"The revenue picture looks brighter than it did some time ago," said Mr. Nowicki, "despite the prospect that we will experience a decline in revenue in the immediate future. Many men are now at work for the first time in years and there is more buying power available."

Payrolls
State payrolls have consistently climbed during both Republican and Democratic administrations, and Michigan's so-called bi-partisan government is no exception. Payrolls were \$1,428,000 higher for the first six months of 1941 than they were over a similar period during the Fitzgerald-Dickinson regime. Furthermore, new civil service salary scales will add \$1,900,000. Thomas J. Wil-

son, civil service director, is threatening to discharge 2,000 to 2,500 workers, but so far the economy has been confined to newspaper headlines. Old-time observers at Lansing was their heads and smiles.

This is the financial situation at Lansing today. Since the legislature is still technically in session, Republicans may be able to justify further the unparalleled adjournment by "coming to the rescue" if and when state tax revenues start skidding. It could happen.

Seventh Grade
(Marcelline Hinderer and Loren Munro)

We started school a week ago Tuesday. We were all glad to be back. We have three new girls this year. Their names are Naomi Gordon, Eleanor Fersch, and Sue McManus.

Many of us went on trips, or did something interesting during vacation. Paul Schaible, Barbara Dickerson, and Bob Daniels visited the Straits of Mackinac. Jack Wellnitz visited friends and relatives in Adrian for two weeks. Marcelline Hinderer went to the Cavea of Kentucky, also the Smoky Mountains, and to Washington, D. C. Murray Merrill visited his grandmother at Loyal City, Jackie Wiggins went to the ball game in Detroit and got lost. Charles Popp spent three weeks in Saginaw. Bragdon Barlow went to Canada.

We discovered that some of us have very unusual pets. Sue McManus has

some pet foxes, Naomi Gordon has a pet chicken, while Jack Wellnitz has a pet toad.

Eighth Grade

(Jane Downer and Robert Brettenwischer)

We all had very nice vacations, but most of us are glad to be back in school again.

Our enrollment is the same as last year, because while Ann Lambertson moved to Jackson, Robert Edington came to us from East Intermediate School, Jackson.

Boys are taking shop and girls are taking home economics.

Several of us had pleasant vacation trips. Laverne Holbrook went to Chicago; Leroy May visited in Kalamazoo and Van Wert, Ohio; Alfreda Marshall visited in Kentucky; Robert Brettenwischer visited in New York City; Jane Downer and Donna Perkins spent some time at Chippewa Lake, near Big Rapids; Robert Faber went to Fremont; Barbara Eaton went to Emporium, Shutes and Jean Eisenbeiser went to South Haven; Audrey White visited in Gary, Ind.; Edwin Lantis went to Fort Wayne, Ind.; Arthur Paul went to Vincennes, Ind.; Doris Nagy visited in Cecil, O. and Munroville, Ind.

Football Is Here

By Dwight Gadd

Kickoff—the game is on—end over end the pigskin climbs skyward. For a brief electric moment, while the stands hold tight, the new tan ball hangs motionless in the wind-swept, law-blue September sky. Suddenly it wobbles, and drops. Heads up, the safety cruises to meet it. Interference converges, drives ahead like a sub-chaser squadron in a choppy sea. And out of the maze of spilled-to-

gether elevens flashes the ball-packer, shedding tacklers, zig-zagging, and straightening a path goalwards. The game is on—It's the kickoff—For it's Fall again, and football's here. Football, the grandest game of them all.

Yes, the new season is on, with Chelsea ready for all comers this year with a team that appears like it should really go places. A veteran team in every position—except one should also mean something. The line is rugged, pretty good sized, and fairly fast and is leading the way for an array of fast, high-stepping backs.

Captain Larry Dietle is on the left flank, while Tom Lyons is filling the other one in place of Junior Miller who has been shifted to the backfield for his ability to pass and punt. The tackle slots are being very ably filled by Chuck Lane, that 200-lb. plus terror, and Chuck Downer, who showed last year that he had what it takes to play a game that was a game in that position. Joe Merkel and Dick Schmidt are filling the guard positions with lots of power when and where it's really needed. Of course Bob Strleter is back this year—the same dependable fellow on both defense and offense that he's always been. In the backfield we find three veterans and one rookie holding the positions—Dick Kern is at left-half, Junior Miller at fullback, and Dwight Gadd at quarterback. A first-year man, Reynolds Walz, has been running at the right half or blocking back position and is doing alright so far. While competition is still going on for all positions this will undoubtedly be the varsity lineup.

With the first week of practice already gone when this was written, both coaches have hopes of a prosperous season ahead for the "41" team. Coach "Charlie" Cameron is being assisted this year by Coach George Miller, recently of Grass Lake, whom all of the fellows think already is an "all-right" guy and an excellent backfield coach. He will also assist Mr. Cameron in basketball and will coach baseball alone while Mr. Cameron takes over track.

The football schedule this year is a tough one but don't put it down in your book yet that the team won't be at the top in more than one of those games. The first game is with Dexter and then come the league games to be topped as always by the annual Chelsea-Manchester clash to be held at Manchester this year on Nov. 14. Here is the complete schedule:

Sept. 19—Dexter at Chelsea.
Sept. 26—Chelsea at Saline.
Oct. 3—Dundee at Chelsea.
Oct. 10—Chelsea at Flat Rock.
Oct. 17—Bonulus at Chelsea.
Oct. 24—Chelsea at Milan.
Oct. 31—Belleville at Chelsea.
Nov. 7—Roosevelt at Chelsea.
Nov. 14—Chelsea at Manchester.

With a lineup like that coming up all we can say is "we shall see what we shall see."

Let's all get out and support the team at all possible times whether they are playing here or away. It's always easier to play when there's a good supporting body of team-minded watchers who give an encouraging yell now and then or a cheerful word than it is when it seems that nobody gives a hoot whether you win or not. So let's come and support them and in return they're promising you an afternoon of the best brand of football they can display. See you at game-time!

Fall days will soon be here. With them come frequent weather changes, such as rain, snow, fog, mist, and ice, all of which contribute to hazardous driving conditions.

Now is the time to think about these things and to prepare yourself to cope with such conditions when you are behind the wheel.

A sudden squall of fog in a low dip in the road might be a death trap. If you are not prepared for this condition, if you are not aware of it, and if you do not know what to do when you meet it suddenly, you may be on the short end of a long ride. It doesn't take long to bury people. Be alert—face these conditions and meet them with some good safety judgment.

Heavier Feeding of Cows Urged By FSA

Heavier feeding of cows rather than expansion of the dairy herd is being recommended by the U. S. Department of Agriculture as the most profitable and practicable way for farmers to increase milk production for defense needs, according to Donald Kline, Farm Security Administration supervisor for Washtenaw county.

"One for one," an extra pound of milk in return for an extra pound of gain, is a new rule of thumb for the farmer with milk cows, Mr. Kline said.

"Ordinarily, two or more pounds of milk are expected for each pound of production gain, but more feed is required when production is increased above normal. At a time when a vastly increased milk production is immediately needed, more liberal use of grain may fill an urgent defense need," he continued.

"Department of Agriculture experiments over the last four years show that, unless a farmer is already feeding at extremely heavy rates, he can safely assume his cows have a 20 per cent reserve capacity. In other words, a cow producing 6,000 pounds of milk at about standard feeding levels can raise her production to 6,000 pounds a year if given an extra 1,000 pounds of grain

KIWANIS NEWS

The Kiwanians held their regular meeting this week at Kolb's hall on Monday evening. Henry C. Schneider, who was a delegate of the Chelsea club at the International Convention in Atlanta, Georgia, reported the highlights of this convention to the group as part of the program for the evening. He emphasized the atmosphere of friendliness which was present throughout the whole convention. Mr. Schneider adroitly pointed out that the value of these conventions lies in the exchange of ideas and projects carried on by the various Kiwanis clubs which benefitted the various communities. The speaker stressed the fact that the Kiwanians have an affirmative duty to the community in suggesting betterments and in carrying out constructive improvements for the locality. He also mentioned that the subject of vocational guidance is rapidly becoming more important for young people today, and added that the members of the Kiwanis club who represent diversified occupations could do much to stimulate and develop such a program. Mr. Schneider concluded his fine message by urging the Kiwanians to lead and to sponsor these projects which would result in the betterment of the vicinity of Chelsea.

The program chairman announced that Glendon F. Swarthout of Lowell will be the principal speaker on next Monday night. Mr. Swarthout is leaving very soon for South America where he will write various articles on conditions prevailing there for 25 Michigan newspapers, including The Chelsea Standard. The chairman urged the Kiwanians to attend this interesting meeting and to suggest questions to the speaker which they would like to have answered in his articles to these newspapers.
