War for Survival

A mill hand in one of Detroit's war plants was the winner of a slogan contest. He suggested: "U.S.A.-Unity, Service, Action," a war-cry was badly decayed and is replacing it which would insure victory.

Unity, Service, Action a-single-soldier on the battle line. U. S. war industry is going to need some 10,500,000 new workers soon. At least an additional 2,000,000 agers of the Old People's Home since young men will be called soon for its start. They are leaving on Satur-

services in the armed services. These facts intensify the problem of farm labor. America and her allies must have more and more food products. Crops must be larger. How to for service on the battle line and more lucrative jobs in the factories is one of the problems of manpower mobilization to be met by McNutt's new

commission. War-Work-Win To meet the huge demands for manower, non-essential non-war industries must stop. This means greater sacrifices on the Home Front. Sacrifice is not the correct word, said President Roosevelt: "The United States does not consider it a sacrifice to do all one can to give one's best to our Nation, when the Nation is fighting

R. A. McLAUGHLIN Phone 2-1311

War Time Investment Policy

HE disruptive force of war upon our personal lives has a counterpart in its effect upon our fortunes, and upon the industries of the nation in which much of our national wealth is invested. Financial security as well as personal safety are threatened in a nation at war.

Great imbustrial plants are stripped of machinery for neace-time production and converted to the manufacture of war materials. New plants are built. Others are idle, because they are incapable of "changing over" to war pro-

During this "change-over" period, investment policy must he flexible and farsighted. There is no unemployment compensation for lack of earnings on securities. A premium is placed upon the selection of investments in companies which, as a diversified group, can withstand transition and provide goods needed both in war and peace.

-in war time, more than ever, it becomes necessary that investments be chosen wisely and watched constantly; that opportunities be not neglected; that action be prompt and based upon fundamentals, sound judgment and perspective.

Make this your investment policy. Establish a Living Trust for investment in Trust A, the mingled fund operated by Ann Arbor Trust Company, and strengthen your financial security during these times.

Rolling on the original rubber" after 45,104 miles

A story of tire life

that shows how you, too, can keep rolling longer

45,104 miles on a single set of tires -in a little over two years-with much of the distance over rough dirt and gravel roads. And yet they're "still good for at least another year of the same kind of service," according to the owner, Mr. L. of Hammond, Indiana. (Name and street

address on request.) Unusual? Not at all! We expect mileage like this from the thousands

of tires we ourselves use. We expect it and we get it!

The answer? It's very simple. Good driving habits and reasonable care. Your Standard Oil dealer is featuring tire care as part of his Approved Car Conservation Schedule. See him

Remember, a nation on wheels is a stronger nation. Keep America on wheels-help win the war. * * Buy United States War Savings Bonds and Stamps to help guarantee victory.

STANDARD SERVICE

YOUR STANDARD OIL DEALER IS CAR CONSERVATION HEADQUARTERS

Standard Ads Are a Good Shopping Guide!

Maybe your chances of buying a new car are better than you think

Here's clarifying information about the rules on the purchase of new automobiles—and how you can get one if you are eligible.

ORE people are entitled to buy new VI automobiles under Government rationing regulations than may have been generally realized.

Indeed, if you are eligible to buy a new car, and continue to drive an old and inefficient model, you may actually burn up more gasoline, consume more oil and wear out tires faster than is desirable in the interest of conservation of critical materials and supplies.

The principal groups eligible for the purchase of new cars are as follows:

- Physicians, surgeons, visiting nurses, veterjnarians and regularly practicing ministers of a religious faith, when their cars are used for professional purposes.
- Persons engaged in fire-fighting services. police services, public health services, mail services or highway construction and maintenance of equipment when cars are used in direct line of duty.
- Persons furnishing transportation to the public, when the purchase is required in the interest of public safety and convenience.
- Persons engaged in the prosecution of the war, directly or indirectly, including executives, engineers, technicians and workers. Such cars must be used in transportation to or from or within factories, power plants.

transportation or communication facilities farms, lumber camps, mines, military or naval establishments, when the work done in such place of employment is essential. directly or indirectly, to the prosecution

- Persons transporting produce and supplies to and from a farm when applicant does not own or possess a truck or other prac-
- ticable means of transportation. Traveling salesmen, when the car is required in selling foods and medical supplies or machinery and equipment to farms factories, mines, oil wells, lumber camps
- or similar productive establishments. Persons delivering newspapers, when the car is required for wholesale-delivery

The first step in getting a car is to fill out the proper application form, which we will be glad to obtain for you.

It is then necessary only to demonstrate to the local rationing board that your need for a car is bona fide to get a "certificate of purchase" entitling you to immediate delivery on the model of your own selection.

If you have any questions about your eligibility after reading the above list, we will be glad to answer them for you to the best of our ability.

If you're eligible...let us help you

is working in HOME DEFENSE!

In a life that seemed already full, America's women are fitting extra duties. Each one is finding something helpful to do, work that strengthens the home defense, that helps to keep the supply lines to the men at the front moving in a continuous stream. But there is another kind of duty as well, and one that is just as patriotic. It is to uphold morale, inspire confidence and keep the faith through a cheerful mind, a quiet assurance and a beauty of dress. To accomplish this, pretty clothes are a necessity. Our task will be to supply them, to help you choose them, and to offer them at war budget prices.

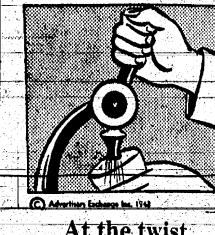

Pram pilots are right on the beam when they head for BURG'S for baby needs. Our "Heir Line" is the safest route to the quality demanded by your baby's good health and the economy dictated by your budget. In it, you will find everything needed to keep the little fledg. ling in the pink and white of condition—happy, healthy and hefty. Drop in today. These ace values assure a happy landing.
