Where Gems and Gold Are Fairly Sold

"Life, Liberty and the Pursuit of Happiness"

GAIN the immortal phrases of the Declaration of Independence are ringing throughout the land, as fresh in meaning as the day they were penned, 166 years ago. Today they ring not alone for America but for the whole world. The bowed head in Malaya, cringing before a cruel brown master; the slave people of France, of Norway, of Greece—all may take heart! For the blue-print of world freedom which was written on the North Atlantic by the leaders of two great free peoples is in working process now.

And so, with a slave-weary world suddenly grown conscious of their eventual deliverance from bondage, this 4th of July is a dedication to the future rather than a salute to the past. It marks the re-birth of the Spirit of '76—it is a call to all free men to accept the stern responsibilities and dangers which lie in the path of victory.

The explosion of the firecracker is lost in the roar of the 8-inch gun and the demolition bomb. We lay aside for the present the noise-makers of other and happier Fourth's and settle down grimly to the task of building the fabric upon which shall rest a world that is free.

Peninsular Foundry Is First 100 Percent Firm

The Peninsular Furnace & Foundry Co. is the first Chelsea industry in which employees are participating 100 percent in the payroll deduction plan for the purchase of United States War Bonds.

This announcement was made this week by Howard Lott, president of the company, who stated that each of the 40 employees is now purchasing bonds through this method. The United States Treasury Department has been notified of this achievement and it is expected the company will be awarded a Treasury Flag in recognition of this record in the near future.

This company is now working 100 percent on war contracts, according to Mr. Lott. A second floor addition is being constructed on the building at the rear of the foundry, which will provide an additional 2000 square feet of space for a pattern and machine shop.

Schedule Is Announced For Library Story Hour

As previously announced, the Chelsea Public Library will sponsor a Children's Story Hour each week during the summer vacation, beginning July 8. Sugar Rationing

Until further notice the high school office of the Chelsea Rationing Board will be open on Saturday evenings from 7 to 9 o'clock, except on July 4.

Application blanks for tires have been received by the board. They can be filled out here and will be forwarded to Ann Arbor by the Rationing Board.

For information regarding sugar and tires call 2-2526.

Mrs. Kent Walworth.

Federal Screw Starts New Office Building

Ground was broken this week for a new office building to be constructed by the Federal Screw Works on Congdon street adjacent to their main plant which extends from Main street to Congdon.

The new building will be 45x80 feet, two-story, and will be of cement block and face brick construction. Wer-

muth, Inc. of Detroit have the contract for construction of the building, which calls for completion in 90 days.

According to company officials the new building was necessitated by the lack of adequate office space, and the offices which are now located at several points throughout the factory and in the Steinbach building will be housed in this general office building.

The present office on Main street will be used by the time-keeper.

Scrap Rubber Drive Extended Ten Days

President Roosevelt has extended the scrap rubber collection drive for an additional ten days, because the collection so far has not brought in the total expected. An estimated total of 219,000 tons of scrap rubber has been collected, which was far less than had been anticipated. The extended drive will continue until July 10.

Chelsea's response has been very gratifying, as several of the service stations have collected huge piles of this precious material, but it is believed that large quantities of rubber could still be uncovered in basements, attics, garages, barns, etc., if people would get behind the drive wholeheartedly.

Start the search about your premises now! Take your rubber to a service station, give it to a youngster to take, or call a service station manager and he will see that the rubber is collected.

WAR INSURANCE AVAILABLE

The War Damage Corporation announces that war risk insurance, which has been carried by the Federal Government up to July 1, may now be purchased from local agents by any property owner who desires this form of protection. War risk insurance covers any damage resulting from enemy action. The insurance is sold on a yearly basis, at nominal rates.

NOTICE

Until further notice, Wednesday office hours by appointment only. Adv. E. J. Quirk, M. D.

High School Band Will Present Concert Tonite

First of a series of seven concerts to be presented by the Chelsea High School Band this summer will be given tonight (Thursday), starting at 8 o'clock on the lawn in front of the public grade school building. The concerts are being financed by the Federal Screw Works and will be presented each Thursday evening, under the direction of Marshall Richards.

The program for tonight will be as follows:

Officer of the Day—Hall.
Monarch March—Olivadotti.
Royal Palm Overture—K. L. King.
El Capitan March—Souza.
American Patrol—Meacham.
Little Giant March—Moon.
Determination Overture—Hayes.
True Blue March—King.
Star Spangled Banner.

Rev. and Mrs. Mumby Honored At Farewell

A farewell reception honoring Rev. and Mrs. Fred D. Mumby was held in the auditorium of the Methodist church at 8 o'clock on Sunday evening, with many members and friends gathering to express regret at their leaving Chelsea and to extend best wishes for success in their new pastorate.

Talks by Rev. Ray W. Barber and Rev. Henry W. Lenz, with responses by Rev. Mumby and Mrs. Mumby, featured the evening program, which was in charge of P. M. Broesamle.

In behalf of the members of the church and congregation as a token of appreciation for their faithful service, Rev. Mumby was presented with a wrist watch and Mrs. Mumby with a purse of money. Refreshments were served during the evening.

Rev. Mumby received notification on Friday evening that his appointment has been changed and that he has been assigned to the pastorate of the Milford Methodist church, instead of at Utica as previously announced.

Rev. and Mrs. Mumby departed for their new home today.

Local Merchants Join Drive To Sell Stamps

Chelsea merchants are joining the intensified drive for the sale of War Bonds and Stamps which started throughout the nation yesterday. Many attractive window displays are being arranged in windows of business places and additional effort will be made by the merchants in the sale of stamps. Customers are urged to take their change in stamps, or if they have no change coming to buy stamps when they are shopping.

The goal for Michigan's retailers is the sale of \$48,000,000 worth of stamps and bonds during the next year. Every Chelsea resident is urged to join in this additional effort by investing at least 10 per cent of their income in War Bonds and Stamps. Buy stamps regularly and you'll soon have the bond!

THE HOME FRONT IN MICHIGAN

The price ceiling covers all of Main Street now.

From one end of Michigan to the other, it stands above the cash register in the shoeshine shop as well as the butcher shop. It has been extended until it shields the man who wants a clock repaired or his hat blocked quite as much as it does the customer at the corner grocery or drug store.

All these additions to the price control structure—the whole list would fill innumerable pages—fall into the category of what are called “consumer services.” They are controlled as of July 1 by a new Office of Price Administration regulation.

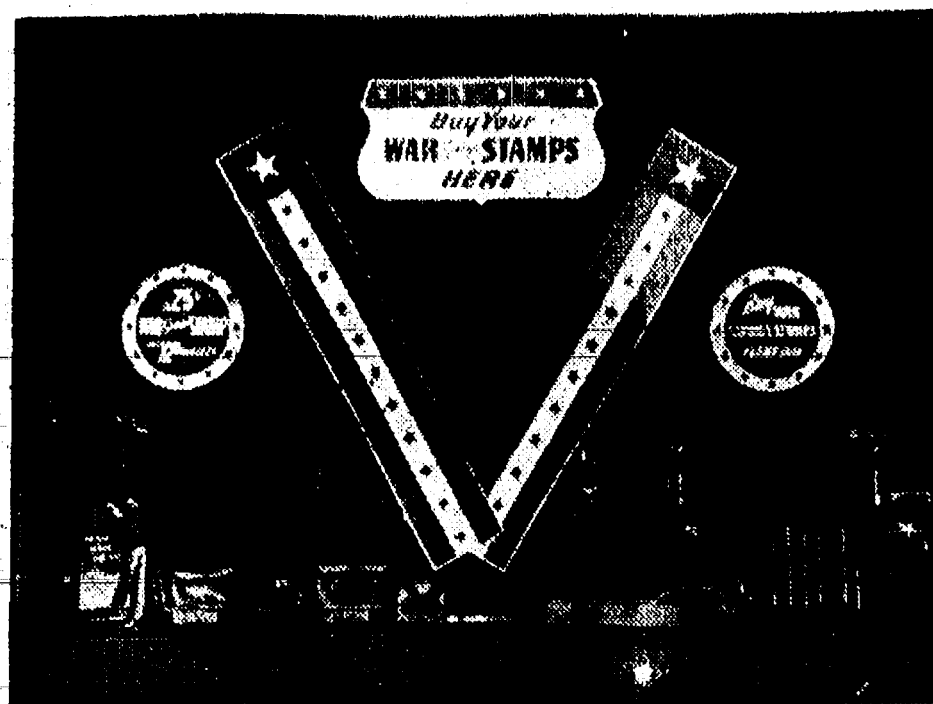

Extension of the price roof which shelters us from the high cost of living is a sizeable one—one which will be reflected (and happily) in almost every family budget.

It will, for instance, be reflected in what the average family pays for repairs to all sorts of things.

The new regulations finish the complete price ceiling system begun on April 28. In the space of two months we have set our economic house in order for war, with solid barriers against rising living costs.

Be sure you remember that the new regulations apply only to consumer services rendered “in connection with commodities.” They’ve nothing to do with fees charged by your lawyer,

Window Display Features War Stamps

Stores in Chelsea will be among the 61,000 retail establishments in Michigan starting a campaign on July 1 to sell at least \$48,000,000 in War Savings Stamps and Bonds by May 1, 1943. The window display pictured above is one of the ways by which merchants are urging their customers to invest.

doctor, dentist, barber or at your beauty shop.

Manpower Commission Chairman Paul McNutt and War Production Chief Donald Nelson took a step last week which should speed skilled workers to war jobs—and keep them there.

In the past, if an unemployed automobile worker was called back to his old job he was forced to report within a week or lose his seniority rights. Now, if the worker has been trained for a new job he may choose to stay with his new war employer and still retain his seniority in the old plant.

Transportation must not be a bottleneck if men and materials are to move to far-flung fronts in sufficient quantities to defeat the Axis.

Trained soldiers waiting at cantonment, finished weapons piled high on docks are of no value on the battlefront.

The Office of Defense Transportation has opened a new offensive on the transportation problem with formation of a “U. S. Truck Conservation Corps.” This corps will enlist owners and drivers of our 5,000,000 motor trucks in a national campaign to save their machines and tires. The President opened the campaign, saying that “it has become the patriotic duty of every truck operator to help make his truck last longer.”

Automobile “graveyards” yielded 383,253 tons of scrap metal in May, a 10 per cent increase over April. Last summer’s aluminum drive netted 6,398,051 pounds, only 42 per cent of the amount expected.

Several million pounds of honey have been made available as a substitute for sugar in bakery goods, ice cream, candy and soft drinks.

and beekeepers have been encouraged to produce more honey by a WPB order increasing the output of wooden beehives.

Your landlord has not been prohibited from re-painting or re-decorating your apartment or home if it constitutes normal maintenance or repair. The U. S. Alien Property Custodian covers a wide variety of machines and processes—among one group seized last week were patents for coal mine conveyors, automatic drills for use in airplane building, oil refining processes, and chemical compounds. The patents were owned by German, Italian, Japanese and Hungarian corporations and individuals. Movie producers have advised WPB they are taking steps to reduce the amount of film in Hollywood and the quantity of material used in sets.

Local Defense Topics

Chelsea may well be proud of the excellent showing made by its local canteen groups under the instruction of Mrs. Kent Walworth and the chairmanship of Mrs. P. C. Mawney. The six units with an aggregate enrollment of 86 members completed the prescribed course and have been doing a splendid job in working out their ten hours of practical application. The various units have for several weeks planned and served the dinners for the Kiwanis service club and will complete this assignment in July. During the Girl Scout Week at Clear Lake, several of the ladies worked off a few hours by delving into the culinary end of the well planned outing for the Scouts. A number of the ladies who were enrolled in Canteen had completed the class in Nutrition under Miss Gladys Clark, with Mrs. A. L. Brock as chairman. So they became full fledged Canteen Corps members.

Dr. Quirk's class in Advanced First Aid, with Mrs. Sidney Schenk as chairman, has completed its course. The group was most enthusiastic and will, no doubt, be well equipped to meet emergencies should they arise.

There is still a need for instructors in home nursing classes in certain parts of the county. Any graduate trained nurse may teach a class, even though she has not been instructed in an official Red Cross Home Nursing course. The CDVO will be glad to have the knowledge of persons equipped with this training.

Miss Margaret Houston of the Michigan Children's Institute, with Mrs. Ralph Gaines of the Perry Defense Nursery School as coordinator, will direct a course in “Basic Child Care” in Ann Arbor during the summer. All the meetings will be conducted by lecturers who know the resources of Washtenaw county, and each one will discuss a special subject, such as “Problems in Child Health,” “The Child in Relation to His Parents,” etc., showing how county agencies can be of service where a special need for help exists in a community. There will be field trips in connection with each lecture.

It seems as though Chelsea should be pertinently interested in this topic. With the industrial situation as it exists in our community where working mothers find it difficult to have desired help in the care of their children, we need to find solutions for the situation which exists as a problem to some parents. Persons willing to participate in this splendid course will find much of interest and value in Miss Houston's Institute.

Several calls have come in recently for some dependable person to care for children. A number of persons

had registered at the CDVO office but when being called upon found it impossible to respond at this time. Perhaps there are others who would be interested in helping in this field.

The latter part of July or first of August, a refresher course is being planned for Home Economics graduates and Public Health Nutrition graduates, who might be willing to do some instructing in nutrition next fall. This course will be set up by

Miss MacLachlan, Director of Dietetics of the University Hospital, and Miss Bauch, of the Ypsilanti Training School, either one day a week for a period of several days, sponsored by the County Nutrition Committee. We shall be glad to learn the names of graduates in Home Economics.

Any volunteer calls in response to any of the above announcements will be taken by Mrs. A. A. Palmer.

Are you taking advantage of the Information Center for Consumers at the Chelsea Public Library? This week you will find your answer to “Why Rationing?” Also helps on “Sugarless Canning” and more Consumers' Guides.

A tin can rescued from the garbage pail will supply the tin for a pair of binoculars or two compasses for an army scout.

Michigan's Beauty Spots are at your door

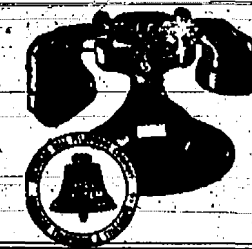

• When you want to telephone home while taking a Michigan holiday, please avoid the busy hours. The best times to make your Long Distance calls are:

BEFORE 10 A. M. FOUR TO 7 P. M.
NOON TO 2 P. M. AFTER 9 P. M.

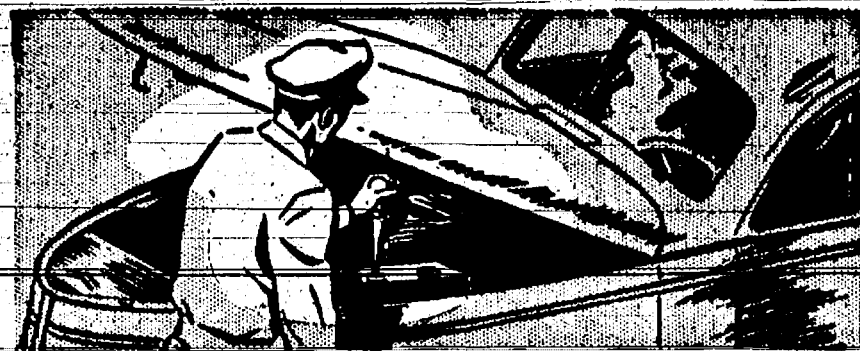

You can help keep lines clear for vital war calls by keeping personal calls brief and by making them at other times than during “rush” hours.

WINNING the war is a job for vigorous Americans, ready to put all they've got into production and to work overtime cheerfully. But on days off they need to renew their energies out in the open. In Michigan, you don't have far to go. Here you'll find almost any kind of recreation you want—fishing, swimming, canoeing, camping—all close at hand. Five thousand miles of streams and rivers and millions of acres of woodland are your playground. Michigan workers are fortunate in having all these opportunities within easy reach by bus, boat or train.

CONDITIONS UNDER WHICH GAS RANGES and GAS WATER HEATERS may be purchased

As a necessary war measure, Uncle Sam expects each of us “to make things last.” Gas ranges and other gas appliances are durably made and with reasonable care may be expected to give years of satisfactory service.

While American families are expected to make their gas equipment do for the duration, it is evident that the government recognizes certain conditions under which the purchase of new equipment is permissible. These have been set forth in a recent order.

1. Gas Ranges and Gas Water Heaters may be purchased when there is no equipment for cooking or for heating water, and the purchaser “does not have available any other equipment.” This is interpreted as applying to newly married couples beginning housekeeping; to families moving from furnished homes and apartments to dwellings which must be equipped; to new residents who move here without equipment.
2. Gas Ranges and Gas Water Heaters may be purchased when the owner's present facilities for cooking or for heating water are worn out or damaged to an extent that repair is impracticable.

The order prescribes certain formal requirements the customer must follow which will be explained on request.

See, Tojo? Hundreds of millions of good U. S. dollars are going into the planes, the tanks, the guns and the ships to blast you right out of your sandals!

And we're paying for it . . . the workers and employers . . . the farmers, doctors, lawyers . . . all of

us of our own free will, lending it, from our pay.

And—because this is the American way of doing things—we're building our own financial security, too, against the day when the war will be over—when we've shown you what decent, clean, free people can do.

Every year those War Bonds of ours increase in value, Tojo, until, after ten years, Uncle Sam hands us back TWENTY-FIVE DOLLARS for every \$18.75 we invested in beating you.

Get it, Tojo? It isn't the Jap way, the Nazi way, nor the Fascist way.

It's the free American way!

So, when you see those clouds of planes over your troops, your ships and your factories—when the tanks come at you spitting lead—and our good American boys get you on the run—remember, we're paying for it—Smith, and Harrigan, and Cohen, and Godowsky, and Leblanc, and Havlek, Americans all, in a free country.

So take it, Tojo—you asked for it!

5 Reasons Why

1. By investing in War Bonds you help provide the planes, the tanks, the guns and the ships we must have to survive and conquer.

2. You prove that you are a patriotic American.

3. You aid the morale of our fighting men, by showing them that the entire Nation is behind them.

4. You prove to our enemies that we are a United People.

5. You protect your own financial future, as every \$18.75 you invest in a War Bond brings you back \$25 in 10 years. You make the world's safest investment, by buying a share in the world's most powerful country.

ROLL OF HONOR War Heroes Decorated

One of the greatest heroes of the present war is Lieut. Edward H. O'Hare, who received the nation's highest military award, the Congressional Medal of Honor, when singlehanded he shot down five Japanese bombers and damaged another in one aerial encounter off the Gilbert Islands. O'Hare was decorated at the White House while a guest of President Roosevelt. He is a graduate of Ann Arbor.

Lieut. John D. Bulkeley, torpedo boat hero responsible for the destruction of at least seven Japanese ships, has been commended by ranking naval officials for "executing his mission successfully." Bulkeley was in charge of a motor torpedo boat that entered Binanga bay, Philippine islands, and torpedoed an enemy vessel of 5,000 tons. His mosquito boat was under the fire of machine guns and shore batteries.

Donald F. Mason, navy ensign, was awarded the Distinguished Flying Cross and Silver Star for sinking two submarines in the Atlantic area. His first sinking came when he dropped depth bombs on a submerged submarine. He reported the sinking with his famous message: "Sighted sub, sank same." Several weeks later he sighted another sub on the surface and destroyed it with depth charges. He has been in the navy since 1935.

Capt. H. F. Wheelless was awarded the Distinguished Service Cross for bravery in the western Pacific. The army flying fortress under command of Wheelless, became separated from its combat force and fought a running battle with 18 Jap pursuit planes for 75 miles, shooting down 11 of them, outdistancing the remainder, and landing safely although the plane was almost out of control. Two of the plane's engines were gone.

Buckwheat Crop Is Due For Increase In State

Buckwheat cakes and maple syrup or sorghum molasses may come back to their own next winter in Michigan. The year 1942 looks like a buckwheat year because the excessive rains of May and June have drowned out thousands of acres of corn, soybeans, and sugar beets or so delayed plantings that farmers are forced to turn to quick growing emergency crops.

Buckwheat is the most satisfactory of these as a cash crop, though it has never been unusually profitable, reports H. C. Rather, head of the Michigan State College farm crops department. The long-time average yield in Michigan is 13 bushels an acre but yields of 20 to 25 bushels are not uncommon. The average, 1931-1940 price in Michigan was 58 cents a bushel but more recently the farm price has been above 75 cents.

Buckwheat is not sensitive as to soil requirements. It can use relatively less available forms of phosphorus and potassium better than any other grain crop. The normal time of seeding in Michigan is June 20 to July 5. Seedings after July 15 are not advisable, according to Rather. It takes 10 to 12 weeks to mature the crop. Three or four pecks of seed are used to the acre.

The crop in Michigan is usually harvested with a binder but the combine may be used if storage facilities are available which permit spreading the grain in shallow layers so it can dry out thoroughly.

Michigan's normal acreage is about 20,000 but, in 1918, 75,000 acres were harvested in this state. The grain is used for pancake flour and groats, the dehulled kernels used for breakfast cereal. Byproducts are used for poultry and livestock feed. The crop is also used to smother weeds, as a honey crop, and for green manure.

ANNOUNCE ENGAGEMENT

Mr. and Mrs. Leonard De Verna of Grass Lake have announced the engagement of their daughter, Marjorie, to Robert Niehaus, son of Mr. and Mrs. Alvin Niehaus of Chelsea. The wedding date has been set for July 26.

DEXTER—The Kiwanis campaign for raising money for the Dexter School Band Fund was completed on Tuesday evening of this week. All the Kiwanians had completed their streets and turned in their money to Dan Vass, chairman. The total amount raised was \$600.47. This amount included many donations from people living outside the village limits as well as those inside. Leader.

Radoman Second Class Harvey Knickerbocker, formerly of the U. S. S. Philadelphia, is spending several weeks at the home of his parents, Mr. and Mrs. Maynard Knickerbocker. He will resume his duties on the U. S. S. Suwannee the last of this month.

New Muck Plots Are Opened By M. S. C.

Twenty-four acres of a 200-acre muck farm owned by Michigan State College and located 11 miles northeast of the campus in the southeast corner of Clinton county have been prepared, plotted and planted and are open to visitors.

The State Board of Agriculture has named Dr. Paul M. Harmer, muck specialist, as acting superintendent of the new substitution to carry on research useful to Michigan muck farmers.

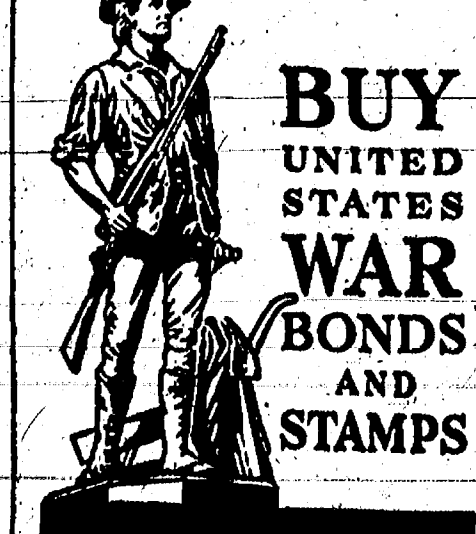

Experimental work is so arranged that several studies can be made with different drainage conditions. Three water levels will be maintained so that the fertilizer trials with a number of crops will be conducted with poor drainage, fairly good drainage and very good drainage.

In addition to trials with varying proportions of phosphate and potash, there are plots showing the effects of copper sulphate, manganese sulphate, borax, zinc, cobalt and sodium applied as fertilizing materials. On these plots are found such crops as celery, onions, mint, carrots, cabbage, table beets and other crops.

Extensive sets of plots planted to potatoes, onions, sugar beets and celery have been treated with fertilizer applied by various methods, broadcast beside the row and at different levels beneath the seed. There also are variety trials with a number of crops including celery, corn, sweet corn, soybeans, peas, tomatoes, carrots and oats.

Possibilities for a muck farm field day about the first of August are being considered by college officials. A decision will be announced later. In the meantime, here are directions for reaching the farm: Visitors take state highway M-78 to about 7 1/2 miles northeast of the college, turn north on Peacock road 2 1/2 miles to the north end of the road, turn east a quarter mile, north a quarter mile to a new road which leads west three-quarters of a mile to the edge of the experimental farm.

Bahnmiller, Mr. and Mrs. Albert Hinderer, Mr. and Mrs. Fred Hinderer, Mr. and Mrs. Elden Weinberg, Mrs. George Hinderer and N. H. Miles from this vicinity. A business meeting was held after the dinner and this was followed by a program.

Officers elected for 1943 are: President—Jacob Bauer, Clinton. Vice Pres.—Mrs. Earl Alber, Manchester. Secretary—Miss Luella Lambarth, Saline.

Ast. Sec'y—N. H. Miles, Chelsea. Treasurer—Donald Lage, Ann Arbor.

GULDE-DOYLE WEDDING

Wedding vows were spoken Saturday afternoon in the chapel of the Woman's League, Ann Arbor, by the Rev. Albert A. Schoen of Dexter, when Miss Gulde Doyle, daughter of Dr. and Mrs. Charles Doyle of Chelsea, and William Stowell Doyle, son of Mr. and Mrs. Charles Doyle of Chelsea, were united in marriage.

The bride wore a dress of white silk marquisette with a train of white satin. She wore a veil of silk net with pearl seed flowers and her bridal bouquet was white roses and stephanotis.

The maid of honor, Miss Eleanor Smalley of Jackson, and Miss Margaret Allen of Findlay, O., who attended as bridesmaid, were gowned in silk marquisette, the former in dark blue and the latter in shell pink. They carried pink and white flowers.

Carlton Runciman, Jr., of Lowell, was Mr. Doyle's best man and the ushers were Don Allen of Allegan and Andros Gulde, Jr. of Saginaw, brother of the bride.

A reception for 75 guests was held in the garden of the League, the bride cake centering the table which was decorated with white flowers and trailing greens.

A buffet supper was served at the residence of the bride's parents preceding the rehearsal on Friday evening.

Mr. and Mrs. Doyle will make their home in Lowell after a wedding trip through northern Michigan and Wisconsin.

For going away the bride chose a suit of blue linen with matching hat.

Mrs. Doyle attended Milwaukee-Downers school and is a graduate of Hillsdale college. She is affiliated with Chi Omega Sorority. Mr. Doyle, a graduate of Duke University, is a member of Delta Tau Delta Fraternity.

BOYCE-WORDEN WEDDING

Ferns with baskets of delphiniums and daisies, decorated the altar of the North Lake Methodist church for the wedding of Elizabeth Ann Boyce, daughter of Mr. and Mrs. Floyd Boyce of Chelsea, and Wilbur Worden, son of Mr. and Mrs. Vern Worden, son of Grass Lake, which was solemnized at 2 o'clock Sunday afternoon. Rev. Harvey G. Pearce was the officiating clergyman.

Preceding the ceremony, Mrs. John Osterle rendered "Oh, Promise Me" and "I Love You Truly". She was accompanied by Mrs. Dora Kayser, who also played Lohengrin's bridal chorus.

The bride's dress was of pale yellow crepe with which she wore a face veil caught in a turban of white, and white accessories. Her corsage was of Tallian roses. Her sister, Ruth, attending as bridesmaid, was attired in pale yellow crepe. Her accessories were white and her corsage was formed of bachelor buttons and rosebuds.

Best man for the bridegroom was his brother, Raymond Worden, while the ushers were Allen Marvin and Harold Boyce, cousin of the bride.

Both Mrs. Boyce and Mrs. Worden wore dresses of blue crepe with corsages of red roses.

At the reception which followed in the church dining room, the bride's table was centered with a white tiered wedding cake, surrounded with flowers.

Both bride and groom are high school graduates, the former from Chelsea High and the latter from Grass Lake. The former also attended Michigan State College. Mr. and Mrs. Worden will make their home at North Lake.

Pvt. Rogers' picture in 'Life' The picture of Private Paul Rogers, son of D. L. Rogers of Chelsea, was in the Life Magazine for June 29. Pictures of Paul and Victory Belle Bunney Bekins, who was also the girl on the cover of that issue, were taken playing ping-pong at the USO headquarters in Dallas, Texas.

Keep fit for war work by healthful vacation in Michigan!

This theme of the Tourist and resort associations has been sanctioned in spirit by the Office of Defense Transportation for the nation's wartime requirements.

It may rescue Michigan's \$300,000,000 recreational industry, highly concentrated in North Michigan and the Upper Peninsula, from the economic doghouse this summer.

Two months ago the uncertainties of war made the summer outlook dismal indeed. Then reservations for cottages began to arrive. And folks are staying for the summer, too. Now, the first week in July, things are on the "up and up" in North Michigan, from all reports. As is often the case, facts are better than fears.

Transportation is the key to the 1942 vacation season.

Anticipated gasoline rationing, a means of conserving rubber tires for the war duration, has been postponed. The contradictory statements of federal and state officials have confused the situation. Resort owners are frankly worried, but the silver lining to date is this: It is not unpatriotic to fish and swim and otherwise to keep physically fit.

From the White House down to governor's executive offices, leaders recommend the desirability of recreation for needed morale.

What are the favorable factors? First, Michigan is convenient to the national center of population. Long trips to the West or New England are impractical this summer. Michigan is within a day's access of millions of people, many of whom are working long hours in war plants, earning high wages, and probably will continue to do so for many months to come.

Second, a short war lessens the need of a civilian furlough, but a lengthened strain upon our manpower will increase its importance. Recent over-optimism has been checked by military reverses of the past few weeks. Victory in 1942 no longer seems possible, even by a remote stretch of the imagination. The long haul is ahead.

Third, railroad and bus facilities are good to Michigan's vacationland. If vacations are started mid-week, instead at week-end periods, these facilities should be adequate to meet the additional travel demands.

Fourth, Michigan comprises not only one peninsula, but two peninsulas. Our coastline is greater than any other state, even including Florida. Consequently, water transportation is possible to such isolated points as Mackinac Island—an attraction that many vacation states do not possess.

Newspaper editors of North Michigan met for a "war clinic" recently at Gaylord.

And here is a typical report of summer prospects:

"Things are a lot better than we thought they would be. In fact, there are signs that we may have a better season than usual, as some families prefer to travel short distances from the cities rather than make long motor trips."

Upper Peninsula towns in mining and lumbering areas are humming with industrial activity, but the resort owners are still apprehensive. Many resorts in the U. P. lack good transportation facilities except by automobile. Distances are great.

A bright spot appears to be Sault Ste. Marie where thousands of United States soldiers are stationed at Fort Brady and surrounding cantonments and a ship lock and airport are under construction.

"A colorful drama of war defense is presented 24 hours a day at this great transportation artery which in peacetime is visited by tourists and sightseers from all over the world," writes John R. Merrifield, secretary of the Sault Ste. Marie Chamber of Commerce.

"Just now barrage balloons float over the locks and the city all day long, and many a powerful searchlight stabs the sky at night."

"Soldiers of the United States Coast Artillery man the anti-aircraft batteries that are installed everywhere. The guns are of many sizes and their crews are trained to a high pitch of efficiency."

"St. Mary's majestic river whose scenic charm has been celebrated for centuries is now patrolled for miles north and south of the city. A strategic shore road is being constructed from end to end of the mighty stream."

"Building of the new lock will keep 600 men busy for two years or more. Widening of the west ship canal has been started by the Great Lakes Dredge and Dock Company."

Frank Davis of the Eastern Michigan Tourist Association reports philosophically, "People are going to take a vacation somehow. The biggest headache is local transportation to and from resort areas."

"Many of our tourists will be with-

out cars and will demand jitney service, or some other means of transportation, into towns. Guests are not going to seek amusement by riding around the country-side in an automobile, but will stay at resorts. Shuffleboard, camera hikes, horseback pack trips, ping pong, tennis, bicycle riding, softball games—these are some of the possibilities for stay-at-camp vacationers."

Davis gives this advice, too, to resort owners: "Don't talk war, or be a 'worry wart' about national affairs. Your patrons are at your resort to escape from the strain of war work and are seeking relaxation to build their morale."

That is the spirit of the 1942 vacation industry in Michigan.

The northland country, scenic in lakes and streams and forests, offers a deal haven for war workers who want to keep fit.

Nearby to Michigan industrial centers are short beaches and parks and small lakes—something which Indiana, Ohio, Kentucky and Illinois, for example, cannot provide for their metropolitan populations.

Michigan is more than an arsenal of assembly-line production. It is an arsenal of outdoor recreation, important to war-time morale.

Salem Grove To Observe Anniversary On Sunday

By Rev. H. W. Lenz

In commemoration of the beginning of the work in our community, the people of Salem Grove Methodist church will observe next Sunday, July 5, as Anniversary Day. Dr. H. Addis Leeson, of Ann Arbor, will be the guest preacher in the morning service at 10:45. This service will be preceded by the church school session at 10 o'clock.

Former members and friends are cordially invited to attend these services—there'll be only one "Nineteenth Anniversary". Between the morning service and afternoon meeting we will break bread together. The usual chicken dinner is being omitted this time, and a co-operative lunch is being planned.

The afternoon program consists of music, vocal and instrumental, brief talks, and Christian fellowship. Mrs. P. M. Broesamle and Adolph Duerr will furnish the instrumental selections, and L. E. Morehouse of Jackson will sing several solos. The Reverend Paul Wuestel, a former pastor, will bring the afternoon message, and Mrs. Glenn Rentschler and Mrs. P. H. Riemenschneider will represent the Women's Society of Christian Service.

FOURTH OF JULY

ADD NEW DRIVING PLEASURE TO YOUR FOURTH OF JULY OUTING

By Fred W. Braun, The Safety Man

You drivers who are in the habit of driving 60 to 70 miles an hour, listen to this. You are asked to reduce your driving speed to 40 miles an hour in order to conserve tires, gasoline and your car. In order to do this you will have to sacrifice a little time—and little is the word—so little that you'll hardly notice it. Here are the figures. If you make a 30 mile trip, it takes only 10 minutes longer at 40. If your trip is 60 miles—just 20 minutes longer—100 miles just 28 minutes longer. Time yourself on your Fourth of July trip and see. Then too, you will arrive at your destination calm and rested—not a nervous wreck.

Forty miles an hour means safety, too. There's not much driving danger at that speed. You have time to think and act in an emergency and only the very careless driver can get into trouble. And it's surprising how much of the country you will see and enjoy—no matter how familiar you are with the road.

Your government expects you to drive slowly. You may be a valuable worker on some war project and your injury would mean a decided loss to your country. And your family, they will appreciate the safety which reduced speed means for them. Stick to 40 or under and hear them say it was the most enjoyable trip they ever had.

The usual automobile accident toll of Fourth of July must not be repeated this year and it need never be repeated once drivers realize how enjoyably safe a little slower speed can be.

PINCKNEY—The steeple on St. Mary's Catholic church of Pinckney was removed last week. It had been damaged successively by windstorms and was considered unsafe. For years, with its 8-foot cross painted in gold leaf, it could be seen for miles in all directions from Pinckney. A roof has been placed over the bell tower and the cross mounted on that. —Dispatch.

MORENO—Last Wednesday night a cave-in occurred in the gravel road between Sections 4 and 5 of Medina township. The road at this spot was supported on a pentagon bridge which disappeared into seventeen feet of water. The sink hole was at a point where the road crosses a marshy place with huckleberry swamps on either side. E. Stacy Stone, Medina highway commissioner, says that three pentagon bridges have been built across this spot. He didn't know when the first one was built but thought the second one was built about 25 years ago, and the last one 10 years ago. This bridge had been slowly giving away for some time, and Mr. DeMeritt, who lives near the bridge, heard a great deal of cracking Wednesday evening. Then sometime in the night it gave way completely and the soft muck walls caved in, also leaving a hole about 45 feet wide and 140 feet long. —Observer.

DEXTER—The Kiwanis campaign **MRS. MABEL E. BLUM**

Mrs. Mabel E. Blum, former resident of this vicinity, and former Washtenaw county treasurer, died Sunday in St. Joseph's Mercy hospital, Ann Arbor, after a brief illness. She resided at 525 S. Division St., Ann Arbor.

Mrs. Blum, a daughter of Timothy and Carrie Vreeland Wallace, was born Feb. 21, 1868 in Lodi township and for several years the family made their home in Sylvan township. She married Philip Blum on Feb. 18, 1890 and was deputy clerk from 1901 to 1905 when her husband was county clerk. She served as deputy register of deeds from 1917 to 1921 and was elected county treasurer on the Republican ticket in 1921, serving through 1926. Mr. Blum died Jan. 6, 1914.

Mrs. Blum was a life member of the Order of Eastern Star and belonged to the Sodality Circle of the King's Daughters. She is survived by two sisters, Mrs. A. W. Taylor of Chelsea and Mrs. H. O. Miller, Eaton Rapids. Funeral services, conducted by Dr. Charles W. Brashares, were held at 4 o'clock Tuesday afternoon at the Muehlberg chapel. Burial was in Forest Hill cemetery.

KIWANIS NEWS

The Kiwanians held their regular meeting this week at St. Mary's hall. Henry C. Schneider was in charge of the interesting program which was devoted to the promotion and sale of War Savings Stamps and Bonds in this area. Mr. Schneider discussed the urgency of purchasing these stamps and bonds at the present time and actively requested each member to purchase as many stamps and bonds as possible. Ernest R. Tonkel and Paul Proud of Ann Arbor discussed the various sales promotion plans which the merchants and business men in larger quantities in order to stimulate the sale of these vital stamps and bonds. The speakers mentioned that to date we are not winning the war and that we must continue to purchase stamps and bonds in larger quantities in order to get the needed arms and equipment to our armed forces. They urged the Kiwanians to feature these promotion plans in their business places and to actively stimulate stamp and bond sales in this area as part of our national and civic responsibility.

George Doe announced that the Kiwanians purchased \$58 worth of War Savings Stamps in their regular meetings during the month of June. President McLaughlin announced that the Kiwanis club and the American Legion would cooperate in establishing tennis courts and a public park on West Middle street. He appointed Lloyd R. Heydlauff, Gurney Hopper, Albert C. Johnson, and George E. Sperling, Jr. as members of the committee which should work out the details of this project with the local Legion group.

Room for Expansion
 The famous Arctic explorer and writer, Vilhjalmur Stefansson, has said that Alaska is capable of supporting 10,000,000 people—it now has only 75,000—because of its vast untapped agricultural, mineral and other resources.

Flounder-Fluke
 There are more than 55 species of flounder. A fluke is a summer flounder, but not all flounders are flukes. The scientific difference between a flounder and a fluke is the number of spines on the dorsal fin.

Prepared

Although this Fourth of July will be comparatively quiet, these two children are prepared for any eventuality. Their last year's toys came through unscathed and they can laugh at priorities.

TWILIGHT LEAGUE

By Rolly Spaulding
 Schedule
 Thursday, July 2—Chelsea Spring vs. Federal Screw, and Kimunity vs. Central Fibre.
 Monday, July 6—Chelsea Spring vs. Central Fibre.
 Tuesday, July 7—Cassidy Lake vs. Spaulding Chevrolet.
 Thursday, July 9—Federal Screw vs. Kimunity.

| Standings | W | L | Pct. |
|---------------------|---|---|------|
| Spaulding Chevrolet | 6 | 1 | .857 |
| Cassidy Lake | 5 | 2 | .713 |
| Chelsea Spring | 3 | 4 | .425 |
| Central Fibre | 2 | 3 | .400 |
| Kimunity | 2 | 4 | .333 |
| Federal Screw | 1 | 5 | .166 |

During the past playing week we have had two of our scheduled games postponed, with the only game of the week being played last Thursday between Cassidy Lake and Chelsea Spring. The Spring Plant boys had a little hard luck and with their star hurler, Whitey Guest, out of the game, lost the game to Cassidy, 9-0. This Cassidy Lake outfit is stepping right up lately and things look fairly hot for Spaulding Chevrolet next Tuesday night. If the Cassidy Lake team defeats Spaulding Chevrolet both teams will be tied for first place—while a win for Spaulding's boys would give them a two-game margin over the field.

With but one game last week to get into this write-up I want to give you a brief outline of our league's financial status since our formation three years ago.

Since the beginning, each registered league player has been assessed a small fee per year (\$1.00 this year) for expenses, and accident insurance in the line of a Players' Disability Fund. We ended our first year by

turning over our entire treasury of \$78.00 to Bob Strop whose broken leg was the only casualty of the season.

The second year we had four broken fingers to pay for and have managed to carry over slightly more than \$50 into our third season—thanks a great deal to your turnout to our past donkey softball games and your wholehearted support of our few financial drives.

Early the first year the problem of a league umpire arose and Clayton White and Jack Dumouchel helped out for the remainder of the season and were compensated by a season's ticket. Last season Jack wasn't able to be out to help us much but Umpire White never missed a game and, thanks to a very much appreciated yearly donation to our running expenses on behalf of the Village Council, we were able to give White an envelope at the end of the season to partly pay for his time.

Brother White is with us again this year and Jack drops out when he can't help out. We have had but one casualty (one of Whitey Guest's hind legs) so far—(everybody knock on wood) and the league is running along quite smoothly.
