## Trial Blackout For This District To Be Held Next Thursday Night

### Victory Party Will Be Held Here On August 7

Chelsea will hold its second Victory Party of the current year at the high school athletic field on Friday evening, August 7, from 7:30 to 10:30. The Michigan Symphony Orchestra from Detroit has been engaged to play a concert for the residents of this vicinity and they will feature military, symphonic, and popular music, thereby providing maximum entertainment for the music-lovers of this area.

Henry C. Schneider has been appointed chairman of this affair which is sponsored by the Kiwanis club, the American Red Cross, and the local American Legion Post. He has appointed Mrs. A. L. Steger, P. C. Maroney and R. A. McLaughlin as his chief advisors for this project and he has carefully arranged a fine program which should make this one of the finest parties of the year. The chairman has announced that the dual purposes of this party are to stimulate the sale of the vital War Savings Bonds and Stamps and to bring a fine concert band to this vicinity. The price for admission to the party is the purchase of a War Savings Bond or Stamp of any denomination which will be retained as the sole property of the purchaser.

Residents of this vicinity purchased a total of \$3800.00 worth of stamps and bonds at the dance held in April and it is hoped that this amount will be exceeded at the concert on August 7. All of us realize the tremendous need for the purchase of bonds and stamps at the present time, so let's cooperate to aid our country to the best of our ability.

### Band Concert Will Be Presented At Carnival

The Chelsea Summer Concert Band will cooperate with the American Legion and present the regular Thursday night program in connection with the carnival. Program:

Office of the Day March—Hall.  
Little Giant March—Moon.  
Student Prince Overture—Romberg.  
Men of Valor March—Klohr.  
Black Rose Overture—Brooklyn.  
American Patrol—Meacham.  
Iron Count Overture—King.  
U. S. Field Artillery March—Souza.  
Star Spangled Banner.

Some of the outstanding musicians from neighboring communities are playing with the band each week. With this help it is possible to play some of the most worthwhile band selections. The experience of playing in such an organization will mean a great deal to every member.

### WINS SCHOLARSHIP

Carl L. Heselschwerdt, son of Mr. and Mrs. John M. Heselschwerdt of Sylvan township, is one of three winners of the University of Michigan club of Ann Arbor Freshman scholarships to the University. Others who were granted scholarships are Robert A. Mills of Ann Arbor and Sidney M. Stokes, Ypsilanti. Winners were selected on the basis of scholastic ability, financial need and the indication of high class work in the University. The scholarships will be renewed each year until graduation, providing the holder maintains an academic standing according to requirements. The winners will enter the University at the opening of the fall term in October.

### WILL ENTER CAPITAL U.

Miss Esther Brueckner, daughter of Rev. and Mrs. W. W. Brueckner of Rogers Corners, who has applied for admission at Capital University, Columbus, Ohio, has been accepted as a freshman in the Elementary Teacher Training course, according to a communication received from the Admissions Office of the University. Miss Brueckner graduated from the Chelsea high school in 1940. She ranked among the leading students in her class and was also active in high school activities. Miss Brueckner's brother, Theodore, will be a Senior in the Arts course at Capital University when the fall semester opens on September 21.

**50TH WEDDING ANNIVERSARY**  
Mr. and Mrs. Perry E. Noah of North Lake will celebrate their 50th wedding anniversary Tuesday, August 4. They will hold open house from 2 to 10 p. m. and will be glad to welcome friends at that time.

## Plans Being Made For Annual Golf Tourney

### All Lights To Be Extinguished at 10:15 for 15 Minutes; Wardens and Police Will Be On Duty

The second annual Chelsea Invitational Amateur Golf Tournament will be held at the Inverness Country Club at North Lake in the near future. The Chelsea Community Association is again sponsoring this event and the officers have appointed Claire Rowe and Robert G. Foster as co-chairmen of the affair. The event will be match play with each entrant playing eighteen hole matches until he is eliminated from the tournament. Prizes will be War Savings Stamps and the tournament is open to all amateurs in this district.

All golfers in this vicinity who are interested in playing in the tournament should see the chairmen and must pay their one dollar entry fee before playing any of the matches. In the tournament last year Robert G. Foster won the first division trophy while Dudley Foster was the victor in the second flight. This year there are several other good golfers in the vicinity who should provide plenty of competition for the present champions, so the tournament promises to be close throughout.

### Infantile Paralysis Warning Is Issued

Emphasizing that outbreaks of infantile paralysis occur during the summer and early fall, Dr. H. Allen Moyer, State Health Commissioner, calls upon parents everywhere to be on the watch for the first signs of the disease.

"Calling a doctor early is particularly important in poliomyelitis," said Dr. Moyer. "The first stage of the disease, which may come on quickly, is usually indicated by slight fever, general uneasiness and often nausea and vomiting. Children may complain of stiffness or pain in the back and neck and of muscle tenderness."

"Prompt diagnosis followed by continued medical supervision and special care will greatly lessen the possibility of paralysis." Fifteen cases of infantile paralysis were reported to the Michigan Department of Health during the first half of this year. Last year 14 cases were reported during the same period, but in the last six months of 1941 the total was increased by 256 cases with 21 reported in July, 60 in August, 90 in September and 85 in the remaining three months.

Michigan Department of Health records for other years also show upturns in the number of infantile paralysis cases in July, August and September and in some years outbreaks of the disease continued through October indicating that these are the months when parents should be particularly alert for the first danger signals of the disease.

### Legion Carnival Will Start Here Tonight

The annual carnival sponsored by the American Legion will open this evening at the village grounds, North Main street, and will continue on Friday and Saturday evenings.

Headlining the event will be a balloon ascension each night just before dark, with a solo parachute drop the first night and double drops on Friday and Saturday evenings.

There will be the usual popular rides and concessions, and the Chelsea Summer Concert Band will present their weekly concert on the carnival grounds tonight. The Legion will sell ice cream and soft drinks, and the Legion Auxiliary will operate a lunch counter.

The Legion's net proceeds will be used for the relief of distressed veterans, their widows and orphans.

### ATTENDS RECEPTION

Miss Dorothy Schanz attended a reception for summer school graduates given by the faculty of Michigan State Normal College at the Charles McKenny Hall, Ypsilanti, on Monday evening. She will receive her Bachelor of Science degree at the close of the summer session.

### NOTICE

Archie Schingler is now employed as barber in the George Doe barber shop, with Mr. Doe assisting part time.

Chelsea's first trial blackout will take place next Thursday night, August 6, when the village and the townships of Sylvan, Lima, Lyndon and Dexter will extinguish all lights in a test of the ability of this section to carry out an emergency blackout if there should be the necessity for such action.

Authority to carry out the trial blackout was given Village President Alfred D. Mayer, chairman of the Chelsea Council of Defense, by Captain Donald S. Leonard, State Commander of the Citizens' Defense Corps.

Plans call for a complete blackout from 10:15 to 10:30 Thursday night. The air-raid siren will sound for three minutes, starting at 10:12, which will give everyone plenty of time to turn out all lights by 10:15. The siren will sound the all-clear signal for one minute at 10:30.

Chelsea's industries will not participate in the complete blackout because of the urgency of their work, but they have informed the Defense Council that they will turn off their floodlights in order to make the blackout more effective.

All Chelsea air raid wardens will be at their posts to see that blackout rules in their respective sections are properly observed and to report violations. Auxiliary police officers will also be called upon to do patrol work during the blackout.

The sheriff's department will take care of details in rural areas and on the approaches to Chelsea to see that drivers of cars stop and extinguish their lights.

Only factory lights, the lights on emergency vehicles, railroad train lights, signals and gate lights, etc., will be permitted during the trial period. Violation of any of the rules and regulations carries a penalty of a fine not to exceed \$100 and costs, or imprisonment of a term not to exceed 90 days, or both, in accordance with a village ordinance dealing with blackouts and air raid protection. It will be necessary for residents of the rural areas who are unable to hear the Chelsea siren to watch their clocks closely and turn off their lights at the appointed time to avoid violation of general blackout regulations.

It is planned to call a final meeting of all air raid wardens and law enforcement officers to make definite plans to be carried out that night. All who are eligible will be notified of the meeting place, date and time.

Following is the complete list of rules and regulations as ordered by the Chelsea Council of Defense, which must be observed in its entirety during the 15-minute blackout period, and during any future trial or emergency blackouts:

1. All lights of every nature are to be extinguished and kept off during the test. Exceptions: factory lights; lights on emergency cars; railroad train lights; railroad signals and gate lights; highway barricade lights and flares; lights that are completely (Turn to "Blackout", page 8)

### NURSES' NAMES WANTED

Mrs. A. A. Palmer, chairman of the local Civilian Defense Volunteer Organization, wishes to have the names and addresses of all graduate nurses either in Chelsea or the surrounding townships.

This request does not mean that these nurses are being called for any service but it is in answer to the request of Miss Pearl Haist, county nurse who wishes this information as a matter of record.

If you are a graduate nurse or know of any in this locality, please call Mrs. Palmer at 2-1661.

**FORMER CHELSEA GIRL FLIES**  
Miss Melissa Balmer of Ann Arbor, former Chelsea resident, who has been a member of the Civil Air Patrol, has now joined the Ann Arbor Flyers' club. She has taken her instructions and is ready for her solos. She will then make her first cross-country flight. Miss Balmer, a daughter of Mr. and Mrs. Austin Balmer of Lyndon township, is employed as an inspector in the International Industries, Inc.

IN  
MICHIGAN

There probably aren't many Americans who still are naive enough to think that this is going to be a war easily won—not after the grim news of the past fortnight.

Since Pearl Harbor, 44,143 U. S. soldiers, sailors, marines, and coast guardsmen, and members of the Philippine scouts have been killed, wounded or are missing (probably prisoners of the Japs). Their sacrifices and the sacrifices of the homes from whence they came emphasize the pettiness of those who complain of restrictions on their normal lives.

Our ships are being sunk faster than we can replace them.

The situation on the Russian front is grave.

Such dark news must make us realize the sort of war we are in—that greater sacrifices will be necessary on the Home Front, as well as on the field of battle, before the victory is won.

On the Home Front, our one concern must be to see that every bit of material we can provide goes to make weapons for our troops and that there are train enough and trucks enough and ships enough to take these weapons where they are needed.

This great task may be sub-divided into three main jobs:

The job of supplying materials for our factories—which includes the important work of salvage and saving.

The job of production—which entails all of the energies of a vast and constantly growing army of American craftsmen.

The job of transportation. Let us see what progress we have made with each of these jobs.

The War Production Board moved

once more to assist the flow of critical war materials to those points in our industrial system where they are most needed. Changes in the priorities system were made in order that the WPB may know the supply and requirements situation and meet the most important needs of our fighting men, even though it means further curtailment of goods for civilians. We no longer have enough to go around. We must put the weight of our production where it is most needed.

Restricting the use of war materials is one way of combating the material shortage problem. Salvage is another. We must have scrap metal to drive the war. The great new salvage drive is on—now—and there is no excuse for half-heartedness or half-measures on the part of any city or any town or any individual.

Here's another chance for free Americans to prove that a free people can do a better job than the slaves of a dictatorship.

The Nazis need scrap metal, too, and they are going after it. A recent Berlin radio broadcast for the German Home Front said Hitler had ordered all unused iron and steel confiscated.

"Active support of the total action will be brought about by the 'uninformed police,'" said Herr Hitler—in other words, by Himmler and the Gestapo.

Let's send Hitler our scrap—in bombs and bullets.

\*\*\*

If production were our only problem we would be well on the way to solving it. Scarcely a day goes by but what the labor-management committees of great industrial plants in the east, midwest and Pacific Coast report more production records smashed. A single plant has set more than a thousand production records since Pearl Harbor and its workers and management pledged "this is the pace we have set for ourselves until the war is over."

\*\*\*

The transportation problem also demands the help of every one. No unnecessary travel, pooling of rides, staggered work hours and many other ways are open for your help. We cannot put great quantities of war materials into new transportation facilities. Even the present facilities will be curtailed.

Yes, the war news may continue to be bad—

The Home Front can help change the headlines.

\*\*\*

The War Production Board moved

By Gene Alleman

The ladies, bless 'em, may win the war yet.

No kidding, folks, we're serious about it.

Michigan is in a bad spot, and Uncle Sam isn't doing so good either.

Michigan has been given more war contracts than the average state. Why? Because the automobile industry, including automotive suppliers in scores of small towns, has demonstrated an ability to produce goods quickly.

Michigan young men are being called to the armed services in increasing number. Even husbands are going.

A serious labor shortage looms, and it's high time we started to think about it.

Here is a realistic picture, as we see it, and no punches will be pulled.

We're not out of the woods.

The war isn't won yet.

In fact, we can lose it on the home front.

UNLESS management and labor produce MORE AND MORE airplanes and tanks and other urgently-needed arms for our Yanks and our hard-pressed Allies who, incidentally, are doing most of the fighting for us until we are ready to hold our own.

UNLESS a serious shortage of workers in Michigan can be solved in the near future.

This conclusion is inescapable in view of facts which are readily available.

Michigan's mass production industries have been given a leading responsibility in winning the war on the home front. Lieut. Gen. Brehon B. Somervell, chief of the army's services of supply, and Lieut. Gen. William Knudsen, chief of production, did not visit Michigan this month to extol management and labor. They came, and it might just as well be put bluntly, to plead for MORE production.

As General Somervell phrased it in an interview, our present production—as remarkable as it has been and is—still is pitifully inadequate to meet today's very urgent needs. The output, as recorded on paper reports, is enough to justify pessimism at Washington. Yet the spirit of the men—management and labor alike—is enough to justify the utmost optimism in Michigan.

No bombs have fallen on Michigan. We hear no sound of cannons. It is still hard for us to imagine what war is like even though we read about it in the newspapers, hear about it on the radio, and see it on the motion picture screen.

At Washington, said General Somervell, the situation is discouraging. "Until every American man has been fully equipped, every American division has been fully armed, American industry hasn't done the job," he said emphatically, using some colorful words to indicate that he really meant it.

We are still trying to hold ground defensively, to arm our allies, while we train and equip our own men, while civilian industry continues to take quantities of raw materials that are desperately needed by the army and navy.

Already, war plants in Michigan have shut down for lack of scrap iron! Raw material is a serious bottleneck in the Middle West, just as shipping is a bottleneck on the seaboard.

Re-tooling of Michigan war plants is still continuing.

Don't let anyone tell you otherwise.

From the best figures which we can obtain, Michigan's available labor supply is wholly inadequate to meet the needs of our war industries between July and December. In Detroit alone approximately 135,000 MORE workers will be needed to fill the jobs of men who will be called into the armed services and to meet the needs of additional machines and the three-shifts-per day production.

Here is the picture, and it is startling in its significance, concerning the need of women in war industries.

Unless women can be recruited voluntarily to man the additional war machines in Michigan war plants, one or more of three things may happen:

1. War contracts will have to be taken from Michigan and given to other areas.

2. Workers will have to be imported from other states.

3. Workers will have to be transferred from non-essential manufacturing employment to essential war work.

The alternative to the above three possibilities, as the war work planners see the situation, apparently rests with the ladies.

It's a radical departure from the role of the woman in the kitchen or nursery, but it is realistic responsibility that is being imposed upon us by dire necessity, so the argument goes. And here's why:

Any large-scale importation of la-

bor to Michigan, it is pointed out, would only overtax existing housing facilities, would overcrowd living conditions, would only reduce worker morale, and would also open the gate to a serious post-war relief load.

Utilizing Michigan woman-power for Michigan war jobs, so the officials say, would avoid putting new burdens on housing in industrial centers. Women workers would lessen the likelihood of heavy relief loads for imported workers, stranded here at the close of the war.

Well, that's one way of looking at it.

It's not a pleasant outlook. It is another call for sacrifice.

In our opinion the Michigan home-front is far ahead of Washington in its willingness to forego individual pleasures for national security. We're ready for the job. As soon as the leaders at Washington can make up their minds what they want us to do, we'll deliver the goods!

Michigan will not fail.

**CONDITIONS UNDER WHICH  
GAS RANGES  
and  
GAS WATER HEATERS  
may be purchased**

As a necessary war measure, Uncle Sam expects each of us "to make things last." Gas ranges and other gas appliances are durably made and with reasonable care may be expected to give years of satisfactory service.

While American families are expected to make their gas equipment do for the duration, it is evident that the government recognizes certain conditions under which the purchase of new equipment is permissible. These have been set forth in a recent order.

1. Gas Ranges and Gas Water Heaters may be purchased when there is no equipment for cooking or for heating water, and the purchaser "does not have available any other equipment." This is interpreted as applying to newly married couples beginning housekeeping; to families moving from furnished homes and apartments to dwellings which must be equipped; to new residents who move here without equipment.
2. Gas Ranges and Gas Water Heaters may be purchased when the owner's present facilities for cooking or for heating water are worn out or damaged to an extent that repair is impracticable.

The order prescribes certain formal requirements the customer must follow which will be explained on request.

Mr. and Mrs. James Liebeck were in Muskegon for a week-end visit with her mother, Mrs. Leo Boone, and to see her brother, Corporal Kenneth Boone, who is stationed with the Military Police at Pine Bluff, Ark., and is home on furlough.

## Hot Weather Causes Greater Food Waste

Michigan housewives have a hot weather job that embraces health, economy and wartime efficiency.

Food wastes increase during periods of hot weather, home economics specialists at Michigan State College point out. The problem centers especially around meat, eggs and milk.

Use of a refrigerator protects food designed for more than a day's supply, the college authorities agree. If such cold storage is not available, the food spoilage may be dangerous to health and housewives should be encouraged to keep but a day's supply of the critical foods on hand.

Temperatures of 45 degrees Fahrenheit or lower are needed to safely keep raw meat, poultry and fish. Special care should be taken of ground meat to prevent spoilage.

Milk, like meat, belongs in the cold storage spot and should not stand at room temperature. Milk or cream remaining on the table should have priority on trips returning food to the refrigerator. Suds and sun should be applied on milk containers when empty.

Eggs lose their freshness and some of their food value after a few hours in a warm room. Meat and milk and egg mixtures not only spoil quickly but can be dangerous in hot weather if not protected from warm weather spoiling. Wartime, the college statement concludes, is no time for food spoilage and waste.

## BAHNMILLER REUNION

The annual Bahnmiller reunion was held Sunday at Dexter-Huron park where a pot-luck dinner was served to 55. Bingo furnished amusement for the afternoon. Officers chosen for 1943 are:

President—Louis Springer, Ann Arbor.

Vice-Pres.—Miss Ruth Loeffler, Ann Arbor.

Sec'y-Treas.—Mrs. Wilbert Grieb, Chelsea.

Table Com.—Mrs. Louis Springer, Mrs. Leone Kruspe, Mrs. Oscar Parson.

Entertainment Com.—Mr. and Mrs. Alfred Schneider, Chelsea, Mr. and Mrs. Erwin Horning, Ann Arbor.

Honored as the oldest members present were Jacob Bahnmiller, 82 years old, and Mrs. Bahnmiller, 85. The youngest was Luther Horning, 8 months old, son of Mr. and Mrs. Erwin Horning.

The steel, copper wire and brass used to make an average piano would be enough to produce a dozen bayonets, a signal corps radio set and 66 30 caliber cartridges.

# KEEP THE

# TELEPHONE HIGHWAYS CLEAR FOR VICTORY!

TELEPHONE lines today are crowded as never before. And Long Distance lines between all Michigan points and war production centers are carrying some of the heaviest traffic in the country.

War calls must go through promptly. In normal times we'd enlarge the telephone system to handle the increased load. We can't today, because the materials required for sufficient telephone expansion are even more urgently needed on the fighting fronts.

What we must do is make the most efficient use of the facilities we now have — with your help. Here are three simple ways in which you can help keep the words of war moving:

1. Make only the most essential Long Distance calls.
2. Keep your conversations as brief as you can.
3. When possible, give the number of the distant telephone you are calling.

The same kind of cooperation will improve local service, too. Try to keep your calls short. Look up numbers in the directory, but if necessary to call information for a number, write it down for future use. Everybody can help by saving wires for war!

**TWILIGHT LEAGUE**

By Rolly Spaulding

Schedule

Thursday, July 30—Cassidy Lake vs. Chelsea Spring.

Monday, Aug. 3—Chelsea Spring vs. Federal Screw.

Tuesday, Aug. 4—Spaulding Chevrolet vs. Central Fibre.

Thursday, Aug. 6—Cassidy Lake vs. Kimunity.

Standings

Spaulding Chevrolet .9 2 .808

Cassidy Lake .7 3 .700

Central Fibre .6 5 .545

Kimunity .5 6 .454

Chelsea Spring .4 7 .343

Federal Screw .2 10 .121

In a little get-together last Thursday night Federal Screw used a varied lineup to try and do a little trimming where Spaulding Chevrolet was concerned, but the game ended the other way with Spaulding Chevrolet winning by 4 runs.

Federal Screw showed definite promise of having something when they rallied to score 5 runs in the 6th but the game was too well along for the rally to change things any.

Monday night Federal Screw again took the field but Central Fibre got the largest share and handed out a 11-5 defeat for John Ford's boys.

Federal Screw seems to have lots of trouble with their lineup. I've seen one of the league's best short-stops playing center field and wishing he was somewhere else and their best pitcher dropping flies out in right field, while some of their other stars are elsewhere part of the time. It's a little late in the season but this team could still get quite a start or rather make quite a finish.

Now for the week's highlight—Kimunity vs. Spaulding Chevrolet—the best of the best games of the year—sixth inning—score 6-4 favor of Spaulding Chevrolet—first of the seventh—Kimunity at bat—2 runs cross plate to tie the score and Spaulding's boys have the last bats of the game—as usual (Manager Len Novess has won the flip every game so far this year)—things look like a tie game until Miller gets on base with a hard liner and Our Joe steps up and drives him in, ending the game, 7-6.

**Local Defense Topics**

Auxiliary firemen, police and air raid wardens have completed their courses in nearly every center in Washtenaw county, and are ready to serve in community protection when and if the need arises.

Chelsea numbers 33 in this field and in completing a ten hour course directed by the sheriff's office, they have been fingerprinted; received instruction in "war gases" as to effect and treatment; have been enlightened on the subject of "War Hysteria" through a lecture by Dr. Himber of the University Health Service. General information as to duties of Air Raid Wardens was enlarged upon so that the group has a feeling of security in executing tasks which in war times are most probable.

A new class in surgical dressings has been organized among the summer residents of Cavanaugh Lake under the direction of Mrs. Dudley Holmes. The group works each Monday afternoon from 2 to 4 at the Holmes cottage.

Are you taking advantage of the Consumers' Information—which is available at your Public Library? The pamphlets will tell you: 1. How to stretch your dollars in wartime to meet your family's needs. 2. How to take care of the things you have in order to conserve metals and other materials for victory. 3. How to plan with your neighbors for sharing the use of automobiles and household equipment. 4. How consumers can do their part to check rising prices. 5. How consumers can help safeguard health and basic living standards during the emergency. 6. How to cook and bake without sugar, etc.

The monthly meeting of the County Red Cross training class chairmen and their various unit chairmen will have a luncheon on Friday, July 31 at the Production rooms in Ann Arbor. All chairmen are expected to report on their unit activities. Mrs. Anne Flintoff is chairman in Chelsea and will be glad to take your reservation.

**INFORMATION FOR LANDLORDS**  
Landlords should not send their registration statements to Washington, as many are doing. Area Rent Director Patrick McNamara stated this week.

"Registration statements," Mr. McNamara announced, "must be returned to the area rent office in the Detroit defense rental area, not the Office of Price Administration in Washington. Instructions on the forms clearly state that they are to be returned to the local area rent office. The Detroit office is located in the Penobscot Bldg. Statements sent to Washington only have to be sent back here, causing needless delay for landlords and tenants alike."

## Junior Farm Bureau Launches Bond Drive

The farmers of Washtenaw county are being asked by local Junior Farm Bureau members to contribute one bushel of wheat or its equivalent in money to help purchase a \$10,000 war bond for post-war promotion of rural youth leadership.

This bond is to be purchased by the State Junior Farm Bureau which recently purchased a Red Cross ambulance and will be held in trust until it matures. The drive is state-wide and is to be completed by November.

Junior Farm Bureau members are requesting that farmers sign pledge cards now for the wheat or money. Pledge cards may be obtained at local co-operative houses or from Junior Farm Bureau members in the county and the wheat pledged will be picked up later in a farm to farm canvass by members.

In return for these pledge cards each participant will be given a chance on a pure-bred Berkshire sow and a Holstein heifer which will be given at the Washtenaw County Fair on August 6 and 7. The sow and heifer will be on exhibition at the fair. The Washtenaw County Senior Farm Bureau is giving its support and is donating one of the prizes to be given.

## Francisco

In observance of Mrs. Charles Lockwood's birthday Saturday a number of relatives and friends joined the Lockwood family and went to Clear Lake where they enjoyed a picnic supper. Mr. Lockwood was home from Dearborn for the occasion.

A delightful evening was spent at the Peter Young home Wednesday evening when they entertained a large group of relatives and friends of Mrs. Austin Artz in a miscellaneous shower for the recent bride. The gifts were lovely and Mrs. Artz graciously thanked the guests for them. Before the party broke up delicious refreshments were served.

Mr. and Mrs. Thomas Wortley attended the funeral of their uncle, Joseph Wortley, at Lake Odessa, on Saturday. Jean Evon spent the day with her grandparents, Mr. and Mrs. Chas. Wakeman.

Miss Evelyn Gardner has gone to Skeels to spend a couple of weeks with her grandmother, Mrs. Roy Uhl and family.

Mrs. Clara Livingway and daughter, Miss Delores, visited at the Helt home one day last week. Mrs. Charles Bidwell of Jackson spent part of last week with her parents, Mr. and Mrs. Peter Young. Gretchen Lehmann of Michigan Center spent a number of days with her aunt, Mrs. Walter Bohne and family.

Mrs. Thomas Wortley and daughter spent Sunday afternoon with the Charles Wakeman family.

DEVERNA-NIEHAUS WEDDING  
Mr. and Mrs. Leonard DeVerma of Grass Lake have announced the marriage of their daughter, Marjorie, to Robert W. Niehaus, son of Mr. and Mrs. Alvin Niehaus of Chelsea. The ceremony was performed at 4:30 Sunday afternoon at the Federated church, Grass Lake. Mr. and Mrs. Niehaus will reside in Saline.

CHAPTER MEETS  
The Martha Mary chapter met at the home of Mrs. Ed. Frymuth on Thursday afternoon. Twenty-five members and guests were present. The devotionals were in charge of Mrs. R. W. Barber. Mrs. H. C. Schneider read an interesting article on Pleasant Hill Academy in Tennessee. Refreshments were served. The assisting hostesses were Mrs. C. E. Clayton and Mrs. A. D. Baldwin.

## FIRE DESTROYS BARN

The local fire department was called to the Frank Roepcke farm in Lyndon township about 5:30 Saturday afternoon when the barn burned. The firemen saved several small buildings and the house from burning and also put out a grass fire that was near a large stack of oats. The fire was caused by

spontaneous combustion. A large amount of hay, farm machinery, and several pigs were destroyed. Another barn on the Roepcke farm burned several years ago.

How Long for You?

The life of a dollar bill is said to be nine months.

## What You Buy With WAR BONDS

Barbed wire used by Uncle Sam's fighting forces is vastly different from that used on American farms. Army and Marine barbed wire is much heavier and the barbs, about three inches in length, are more vicious than ordinary barbed wire.

The Marine Corps pays fifty cents for each twelve yards, or 36 feet of this specially manufactured barbed wire. The Army and Marine Corps needs thousands upon thousands of feet for defensive warfare. Your purchase of War Bonds and Stamps will insure sufficient quantity for their needs. Invest at least ten percent of your wages in War Bonds every pay day.

### ELTON R. EATON TO MANAGE OWN CAMPAIGN FOR SENATE

Elton R. Eaton, of Plymouth, who has filed his petitions seeking the Republican nomination for United States senator, declares that it is his intention to conduct his own campaign in the contest for this office at the fall election.

"There will be no paid managers in my camp, no press agents, no field workers, no army of clerks, stenographers and contact men running around the state in my behalf," states Eaton.

"I propose to conduct the most economical campaign ever made in Michigan for the United States senatorship. I feel that in these desperate times when our national existence is at stake that every penny, every dollar one possesses, not needed for actual living expenses, should go to our government for war bonds and stamps. I regard the expenditure of unusual sums of money for campaign managers, contact men, press agents, clerks, stenographers, big campaign headquarters and the like as nothing less than an affront to the mothers and fathers of sons who have gone into military services," stated Eaton.

"Now is a good time to take the senate nomination and election in Michigan off the auction block. There is no question that in the past, too

much money has been spent in efforts to control these nominations and elections. Already there is plenty of evidence that other candidates seeking this nomination have plenty of money to use, and are now using it. "I propose to go to the voters upon the tremendously important issues of the day, and to tell them that I will follow the same rule in the United States senate if nominated and elected as I did when a member of the legislature. That rule places public interests above party interests. We have a war to win. I am seeking an opportunity to be of greater service in our determination to win it."

"For these are the lasting, truthful things..."

This is an American soldier

He goes to war not with any fanatical theories of race superiority, of any special "place in the sun," nor any desire to rule the world by fire and by sword. He fights for something greater. For decency—for his loved ones—for his Country, not as some warlike symbol, but as the one great refuge in this world where the humble, the meek, and the righteous may live and work in peace.

This is why he must win. For these are lasting, truthful things. They are not temporary drugs for the mind, but steadfast things of the heart and the soul. And when the flame of fanaticism finally flickers and goes out, the fires of American decency and honor will still burn.

It is this same sense of decency and honor that has bound us all together. We know we cannot all fight. But there is something we can do—and are doing—to help. We can help provide the guns, the planes, the tanks, and the ships to put might behind the right.

By the tens of millions, Americans are saving for Victory in the War Bond Payroll Savings Plan. Every payday we employees, workers and bosses are putting aside 10% of our pay—a dime from every dollar—and every time these savings amount to \$18.75, we get a War Bond. And—because this is the free American way—our money is working double. First it goes in a mighty flow for the instruments of Victory, then—ten years later—it comes back to us, four dollars for every three we've put into War Bonds—\$25 for every \$18.75.

Now look at the picture again. Then imagine that this soldier were your brother, your son, or your sweetheart.

Would ten percent of your pay, in War Bond savings, be too much to help him win—and live?

EVERYBODY—EVERY PAYDAY 10% IN WAR BONDS

## KIWANIS NEWS

The Kiwanians enjoyed one of their finest meetings of the year on Monday evening. The group met at the home of Roland Waltrous and were served a delicious picnic supper by the committee headed by H. T. Moore. After the meal the members divided into groups and played horseshoes, croquet, shuffleboard and softball during the remainder of the evening. President R. A. McLaughlin concluded the meeting by stating that the Kiwanians of Chelsea and Dexter would hold an inter-club meeting next Monday evening at the home of Herbert Cassell on Spring Lake. He urged the members to be there at 6:30 sharp and mentioned that the two clubs would resume their softball rivalry after the picnic supper.

## MISS JOSEPHINE HOPPE

Miss Josephine Hoppe died Wednesday morning at her home in Sylvan township, where she was born June 8, 1866; the daughter of William and Mary Hoppe.

screened in your blackout rooms (prepared beforehand); and any other exceptions authorized by the Defense Council.

2. Store owners, factory owners, hotel, rooming house and apartment operators, and the owner of any building where the public is invited are fully responsible for the observance of all blackout rules.

3. Stay off the streets. Your home is the safest place. Do not group together with more people than absolutely necessary at any place or time, during any blackout.

4. Do not drive during blackout. If caught in your car, park at once in a safe place. Lock your ignition, and set your hand brake—leave car but do not lock the car door. Don't double park in the path of the fire department, or in any other dangerous spot. Find place on a side street, if possible. Parking will be permitted in restricted zones during blackout.

5. Do not dispute or argue with any officer in charge. Do as you are told. Your air raid warden or police will keep you posted at all times.

6. Don't go away from home and leave unattended lights turned on—as this will cause trouble and constitutes a violation.

7. Don't use matches, flashlights or candles where they will be visible from the outside.

8. Telephones must be used only for emergency purposes. Know your

WHAT looks like a big pile of money is but "petty cash" when you stop to figure out that running a world war is a mighty expensive business. There are thousands of classifications of fighting needs... planes, ships, tanks, guns, food and clothing supplies; to mention only a few... that are costing billions of dollars; and all so vitally important to a fighting army. Getting that money... and plenty of it... to turn out and to transport all that fighting equipment FAST is one way to a United Nations total victory. The War Bonds and Stamps we're buying add to that pile of money.

We are proud of the July record of Bond and Stamp sales for Washtenaw County; all indications are that the quota will be reached, and exceeded. We can, we will, we must buy more and MORE War Bonds and Stamps until Victory is ours.
