Canvass For Scrap Will Be Held October 8

Trucks Will Cover Village and Country For Metal Donations

Collection of scrap metal will go into high gear in Chelsea next week Thursday, October 8, when a house-to-house canvass will be made for the pickup of anything from a worn-out shovel to an abandoned manure spreader or threshing machine.

The decision for this canvass was made at a meeting of the local salvage committee last Wednesday night, when it was also decided to ask all business places to close at 12 o'clock noon until 6 o'clock so that more men and trucks will be available to help in the pickup. A proclamation by Village President Alfred D. Mayer, requesting all business places to close that afternoon, is published in this issue.

Everyone is urged to search their premises thoroughly for scrap metal, rags or rubber, and if the scrap is not too heavy for them to move it should be placed at the curb so it can be more easily loaded on trucks. If there is no scrap at the curb, the canvassers will call at the home to ascertain if there are any heavy articles which could not be placed at the curb.

Plans for the collection of scrap metal in the rural areas were also made by the committee. Each rural school was contacted and asked to work on the gathering of scrap in their district, and farmers are asked to cooperate by taking their metal and dumping it on the school grounds where it will be picked up by local trucks. If anyone in the rural districts has too much scrap to be handled in this way, the local committee will arrange to send a truck to the farm for the pickup next Thursday afternoon.

In the meantime anyone who can possibly do so is asked to take their metal to the Harper used car lot on West Middle street which has been donated by Mr. Harper for this purpose. After the big drive next week the metal will be sold to a junk dealer and proceeds will go to the Salvation Army, according to action taken by the committee at their meeting last Wednesday.

The Salvage Committee will collect only metal which is being donated. Those who wish to sell their scrap should contact a junk dealer at once so that a complete cleanup of the scrap metal in this vicinity may be completed next week.

Local men are devoting much time to this phase of the war effort and trucks will be donated by public-spirited business firms and individuals for the pickup—is it asking too much that you spend some time searching your premises for scrap and then donating it to such a worthy cause? This is a patriotic gesture and everyone should cooperate to the fullest extent. War industries need more scrap—let's all get into the scrap before it's too late!

The committee needs volunteers to help in this pickup next Thursday—everyone who can furnish a truck or help collect the metal is requested to be at the Harper lot at 1 o'clock next Thursday, when the big canvass will get under way.

For more information concerning the big drive next Thursday, please contact Paul C. Maroney, H. T. Moore, L. R. Heydlauff, Wilbur Hinderer, Russell Alkstaetter, Russell McLaughlin, Norbert Merkel, Walter Harper, A. C. Johnson, or M. W. McClure.

And don't forget—Chelsea stores will be closed all afternoon next Thursday—do your shopping early on that day. This is a patriotic holiday if there ever was one! Please cooperate!

Everyone is requested to fly a flag on that day if possible.

New Federal Census Of Chelsea Started Today

Under the supervision of Wm. F. Lehmann, Bureau of the Census, Department of Commerce, Washington, D. C., a Federal census of the village of Chelsea is being taken as of October 1, 1942.

Everyone in the village is to be enumerated within a ten-day period, according to Mr. Lehmann. The enumerators employed by the village for this purpose are Mrs. Ed. Keusch, Mrs. J. H. Boyd, Mrs. John O'Hara, Mrs. O. G. May and J. H. Boyd. Work on this project was started this morning.

Because of the large influx of defense workers it is believed by village authorities that Chelsea's population is much larger than was enumerated in the official 1940 census. Certain benefits will be derived by the village if a correct census of the present population is ascertained.

Preliminary figures on the census will be released by Mr. Lehmann in about two weeks.

PROCLAMATION

BE IT KNOWN, That Whereas, the Village Council feels it imperative that the Village of Chelsea should give its concerted, all-out effort in the task of collecting scrap metal within its bounds because of the existing national emergency, and because of the willingness of its citizens to aid this cause for Victory.

IT IS HEREBY proclaimed that all places of business in Chelsea will close on Thursday, October 8, 1942, from 12:00 o'clock noon until 6:00 p. m. in order to give every citizen the opportunity to participate in the house-to-house canvass and collection of salvage material.

By Order of the President,
ALFRED D. MAYER.

Bill Rogell To Auction Bonds Here Saturday

Victory Auction Of War Bonds To Be Held At Community Fair

Chelsea's Victory Auction of War Bonds will be held at the public school auditorium on Saturday night of this week in connection with the Community Fair. It is planned to start the auction at 8:00 o'clock.

The local War Bond and Stamp committee has arranged for Bill Rogell, former shortstop of the Detroit Tigers, to act as auctioneer at the event. During his playing days with the Tigers Rogell was the idol of thousands of baseball fans, and his presence here should add to the interest of the event and increase the sale of War Bonds.

Scores of prizes, including several baseballs autographed by members of the Detroit Tigers team, will be offered.

Display Posters!

Complaints have been made by the local War Bond and Stamp committee and the Salvage committee that posters which they have distributed to the business places are not being displayed. Some merchants state that they have no room for such displays and others neglect to place the posters on display. This is war! It is not too much to ask that these posters which are distributed for the purpose of aiding the war effort be freely displayed by everyone!

Prizes are being furnished by merchants, the Kiwanis club, and others interested in promoting the sale of War Bonds on Saturday night. Those who have not been contacted are invited to donate prizes at the Victory Auction.

Although the value of the prizes to be offered is not large, it is believed that the competitive bidding for each prize will be an attraction which will provide purchasers for a great number of bonds, the purchase of which might otherwise be delayed.

So far Chelsea has done her part in the purchase of War Bonds and it is believed by the committee in charge that Saturday night's event will show very gratifying results. Don't fail to attend the Victory Auction and see Bill Rogell in action—not on the playing field but on the auction platform battling out home runs for Uncle Sam!

Another attraction on Saturday night's program will be the showing of moving pictures by representatives of the United States Navy. These pictures of the Navy in action should be exceedingly interesting to everyone at this time.

Miller's Celebrate 50th Wedding Anniversary

Mr. and Mrs. John H. Miller celebrated their golden wedding anniversary on Sunday, entertaining at a dinner at their home in Sylvan township. The guests included Mr. and Mrs. Will Havens, Mr. and Mrs. Fred Otis, Mr. and Mrs. Forrest Havens, Mr. and Mrs. Howard Johnson, Mr. and Mrs. Rankin Hart and daughter Mary, all of Hastings.

In the afternoon and evening, Mr. and Mrs. Miller held open house and more than 100 relatives and friends from Detroit, Ypsilanti, Ann Arbor, Jackson and Chelsea, and vicinity called to extend congratulations. Mrs. Nellie Stock and Mrs. Dora Miller of Defiance, Ohio also were callers.

Fall flowers formed attractive house decorations while the dining table centered with yellow roses and baby's breath was lighted with yellow tapers in crystal candelabra. Many flowers and gifts were presented Mr. and Mrs. Miller as souvenirs of the event.

On Monday about 40 members of Cavanaugh Lake Grange assembled at the Miller home for a social evening and refreshments were served.

Mr. Miller was born April 16, 1866 in Waterloo township, the son of Mr. and Mrs. Christian Miller, coming to Sylvan township when ten years of age.

Mrs. Miller, formerly Jennie Havens, daughter of Mr. and Mrs. George Havens, was born May 2, 1874 in Sylvan township. In 1879 she moved with her parents to Hastings, where she made her home until her marriage to Mr. Miller on Sept. 27, 1892.

With the exception of one year, Mr. and Mrs. Miller have spent their married life in the home where they now reside. Both are members of Salem Grove church, North Francisco. They have one son, Roy Miller, and a daughter, Mrs. Walter Riemenschneider, both of Sylvan township.

The supply of such refrigerator cars has been shut off until the wartime transportation difficulties have been overcome.

How are your driving habits? Habits are cultivated; they can be good or bad. A bad habit is cultivated because of careless, reckless, or thoughtless behavior. Driving habits are the same. Once you develop a bad driving habit, it is difficult to correct it. We should devote our efforts in

driving to the cultivation of good habits, since they are the safest. Try practicing courtesy. You will be surprised at how pleased you will be with courteous action on your part toward pedestrians and drivers. It is true that sometimes you feel you ought to have a club in the car to teach some of the oncoming drivers some sense, but this will give you no satisfaction, whereas courteous conduct and treatment will eventually lead them into the cultivation of these good habits we are talking about. Let's try it.

THINK

Supposing There Wasn't
Any Newspaper In Chelsea

TO THE SCHOOLS—

Who would publish the volumes of school items which are important to us, but would be drab and uninteresting to others outside the community?

TO THE CHURCHES—

Who would publish the weekly church notices and numberless church articles only of local interest?

TO CLUBS AND SOCIETIES—

Who would publish accounts of these meetings which are so necessary to maintain interest and good will?

TO THE ADVERTISERS—

Who would advertise the products you have to sell and the services you have to promote? Yes, you could use other methods of advertising, but you will find none so effective, because there's no other advertising medium which your potential customers receive because they want it and pay for it.

TO THE TAXPAYERS—

Where else can you keep in touch with expenditures of your money, being made by the township, village and school districts? Of course, the law provides for posting of notices giving certain of these facts in towns where no newspaper is published; but how many of you would find time to go to a bulletin board to read them?

TO THE READERS—

It is to you the paper means most of all. Where else could you get the full picture of our community life—our joys, our sorrows, our activities, our progress, our pleasures, our social and religious life?

Wildlife Week Stickers

These six stamps are samples from the full color sheets of 24 that school children, sportsmen and members of garden and service clubs throughout Michigan will be selling by thousands during Conservation Week, October 4-10. Canoeing, camping, fall coloring and waterfront scenes are among the others that will be used to merit this year to advertise Michigan's attractions. Revenues finance local and statewide conservation projects. In calling for purchasing stamps, Governor Murray D. Van Wagoner in his official Conservation Week proclamation declares, "We should not forget, amid war pressures, to continue those basic conservation practices that are paying dividends today."

State-Wide Scrap Drive Starts Monday

Newspapers Praised For Prompt Action In Campaign Leadership

By Gene Alleman

"The prompt and enthusiastic action of the newspapers of Michigan in accepting leadership in the vital national salvage program is the kind of answer I expected in my challenge to the American Press."

This quotation is from a telegram received by the Michigan Press association from Donald Nelson, chairman, War Production Board.

It pertains to the newspapers' scrap metal drive which is getting under way in every county and community of Michigan and which will be climaxed by a final cleanup collection of scrap metal starting next Monday, Oct. 5 and continuing until Saturday, Oct. 17. All newspapers, daily and weekly, are participating in the patriotic campaign.

You may logically ask, "Why is it necessary for the United States to have another scrap drive? It looks to me as if Washington has fallen down on the job."

Well, do you remember those newspaper headlines of a few months ago?

Of course you do. They were pretty unpleasant, losing one battle after another, abandoning one fortress after another, surrendering one island after another. Many of us grunted our teeth then and muttered, "Why don't THEY do something about it? Why don't THEY send enough men and materials to win the battles?"

Some of us were pretty indignant about it. We Americans are not in the habit of losing a war.

THE BATTLE OF SCRAP IS today's battle on the home front.

It is OUR responsibility—not Washington's, or MacArthur's, or even our sons' on foreign duty throughout the world.

What are the FACTS, as the newspapers know them to be?

The Axis prepared for war. We did not.

Germany and Japan accumulated huge reserves of vitally needed metal.

When you turn over your scrap metal—either by donating it to some local charity or by selling it to the local junk dealer—you will make possible the building of reserve scrap "banks" against which Uncle Sam can draw during the coming winter.

These scrap piles, whether in sight on the town square or in the junk yard, will be visible evidence that Uncle Sam CAN get the scrap if and when and where it is needed. It is entirely possible that such scrap may be held in reserve for emergency use in Michigan war plants until next February or March or April. But, such metal can't do the job if it is in your basement, or hidden under snow on your farm, or forgotten about in an old industrial plant.

Many of you may be already tired of hearing and reading about the necessity of scrap metal. Listen to these words by Linwood I. Noyes, editor of the Ironwood Daily Globe, way up north in the "iron country":

"You haven't time to get tired. You haven't heard anything yet. When this drive is completed there will be another, and another and still another. For scrap, for rubber, for basic materials, for money, for manpower, for men, for women, for soldiers, sailors and marines."

"Is it worth it? Yes. Don't get discouraged. FIGHT!"

"Let it not be said we had 'too little too late'."

WPB Orders Party Lines If Necessary

A new order of the War Production Board provides that, in areas where telephone facilities are congested, individual-line users may be required to change to party-lines so service can be supplied to persons essential to the direct war effort or to the "public health, welfare or security."

Receipt of the order was announced this week by N. J. Prakken, manager for the Michigan Bell Telephone Company. The order does not apply to present business telephone service, he said.

The order also provides that extension telephones cannot be installed in residences, even for persons essential to the war effort, excepting on a temporary basis in the case of critical illness.

The telephone manager pointed out that the new WPB order, like preceding orders, arises from war-time conditions. In normal times, he pointed out, the company would build additional facilities to meet increasing service demand. Now, however, that cannot be done because the required materials are more urgently needed for war weapons.

Because of congested facilities, new telephone service installations are restricted in more than 20 Michigan exchanges, including large sections of Detroit, with the likelihood that they will have to be extended as conditions become more critical. In some exchanges new service can be installed on a temporary basis, applicants agreeing to its removal on a 48-hour notice if it is required for war or other essential use.

Ten per cent of your income in War Bonds will help to build the planes and tanks that will insure defeat of Hitler and his Axis partners.

What You Buy With WAR BONDS

It is imperative that the ship lanes be kept free of ice. With American troops occupying Iceland and the Navy using the northern route for transportation of supplies to Russia, ice breakers are essential to Naval operations. The ice breaker is a specially constructed ship with heavily armored bows and powerful engines that crush the ice floors rather than ram through them.

Ice breakers of the Kickapoo class operating in the North Atlantic cost approximately \$10,000,000. You can help our Navy build these ships by investing at least 10 percent of your income in War Bonds every pay day. Enroll in the payroll savings plan or apply at the nearest bank or postoffice.

Voluntary Purchase Of Bonds Must Continue

Michigan retailers have been advised that, regardless of what legislation Congress may pass which might force the purchase of War Savings Bonds by individuals, the voluntary sale of Bonds must continue through out the war, and retailers are counted upon more than ever to enlist a substantial share of the money needed to bring Victory.

Retailers were selected to do this job because they contact practically everyone in America. Almost every individual has to shop for something, from chewing gum to furniture, every day. Retailers can remind them more frequently than anyone else of the importance of investing regularly in War Savings Stamps and Bonds.

"Some retailers give the excuse that people resent being asked to invest in War Savings Bonds, and Stamps," commented Paul L. Proud, Retail Chairman for Washtenaw county. "Occasionally there may be some person who raises such an objection. However, this is war, and any person who resents being invited to put more money into this finest investment in the world today—and one so vital to our winning this war—just doesn't have the right attitude."

"When any person in a retail store invites a customer to invest in War Savings Stamps and Bonds, he is doing that customer a favor. And we retailers are going to keep on asking our customers day after day, to do this thing which every real American ought to do to the limit of his ability. There are, after all, only three reasons for a person to invest in War Savings Stamps and Bonds. First, we need more and more money to get the things our boys need to win. Second, the more we put away in War Savings, the less the danger of inflation, which would be so disastrous. Third, the money we put away now really amounts to advance payments on new cars, clothing, furniture and other things we will all need and want when this war is over and business returns to normal. And remember, all of that money we put away now earns interest, so that four dollars comes back for every three we invest today."

When you are asked by any person working in a retail store to invest part of your change in War Savings Stamps or Bonds, remember that person is trying to help Uncle Sam, and that is what all of us must do in every way we can if we are going to win this war, and win it as quickly as possible.

Flower Show

Plans are being carried out for the annual Flower Show which is one of the features of the Community Fair. The frost has nipped many of the late summer flowers, so let this be a challenge to you to arrange the few stragglers to the best advantage. The woods and countryside are abundant now with grasses and weeds that make interesting and colorful bouquets, so let's get into the spirit and try our ingenuity at arranging them. This is your Flower Show so help make it a success by contributing to the displays. The committees urge everyone to make entries in one or several of the following classes, with chairmen as listed:

House Plants—Mrs. L. Waack, Mrs. Alfred Mayer.
Miniature Bouquets—Mrs. Russell McLaughlin, Mrs. Philip Olin.
Winter Bouquets—Mrs. Paul G. Schaible, Mrs. A. Wilkinson.
Flower Arrangements—Mrs. Martin Steinbach.
Junior Division—Marceline Hinderer, Clara Miller, Rosemary Hummel.

Bouquets in Shoes—This class is new this year and should offer a lot of fun in arranging. Any kind of footwear may be used as a flower container. Chairmen: Mrs. David Beach, Mrs. Dudley Holmes.

Center Pieces—Mrs. R. E. Jolly.
Judging Assistant—Miss Bertha Spaulding.

General Co-Chairmen—Mrs. Lloyd Heydluff, Mrs. Howard Flintoft.
The Specimen Bloom division will be omitted since the frost has killed most of the lovely blossoms. However, if you still have any blooms please bring them in.

All entries must be made on Friday, October 2 between 9 a. m. and 1 p. m., and judging will begin at 1:30. Everyone should call for their exhibits after 10 o'clock Saturday night.

Runaway Children Take Trip To Milwaukee, Wis.

The three children, for whom a state-wide search had been made since they disappeared on Tuesday of last week, returned to their home on Pierce Rd. Monday night after an exciting trip to Milwaukee, Wis.

Maurice Beck, 13 years old, a brother, Basil, nine, and a sister, Marcia, eight, were reported missing Thursday by the teacher in the Savage district, where the three had been absent from school two days. An investigation disclosed that they had started for school on Tuesday, but had spent most of the day around Cavanaugh Lake and had not been seen since.

Sheriff John L. Osborn, with a party of deputies and volunteers, searched for five hours on Sunday, combing the area surrounding Cavanaugh, Crooked, Mill and Cedar lakes.

The children, who were very happy and excited over their trip, told Undersheriff Fred Sott that they had traveled by hitchhiking in trucks and automobiles on the highways and, to avoid detection, had hidden on municipal buses through the cities. The first night they slept behind a billboard on US-12 and in the morning they hitchhiked to Kalamazoo, looking for friends of the family, whom they did not find.

They then set out for South Bend, Ind., going from there to Chicago and thence to Milwaukee. Armed with a shoe-shining box and cleaning equipment, they said they made \$3 a day every day they were gone. They were questioned by no one until a lady motorist, who picked them up on the return trip, asked if they were not the children who were being sought in Michigan. When she found that they were returning home, she did nothing about it.

He urged everyone on the home front to buy more War Bonds and to cooperate in the salvage drives, as the morale of the army will always be higher if they know they have the active support of the home folks.

In this "toughest war of all time" we are going to have to get down to brass tacks—and turn the brass tacks into bombs and bullets.

To an extent, we have been doing this, but now the need is terribly urgent and materials scarce. Now we must have war goods in greater volume than ever—and in shorter time. Our enemies don't wait.

Steel mills, eating up almost five million tons of scrap metal a month, are running on almost day-to-day basis. We are dangerously short of copper, tin and other non-ferrous metals.

That's why our school children—30 million of them—are being enlisted to comb out homes, backyards and farmyards for scrap to feed the steel giants. That's why the aid of newspapers throughout the land has been sought to impress upon their millions of readers the seriousness of the situation. That's why our kitchens must shower down old tin cans by the millions so that we can reach our goal of 3,000 tons of household tin recovered a year in 17 new de-tinning plants.

That's why we must save waste fats and greases, turn in half billion pounds we have been asked to salvage. These fats would help make enough bombs to cripple the German war machine or enough explosives to fire 1,250,000 anti-aircraft shells.

Steel mills, eating up almost five million tons of scrap metal a month, are running on almost day-to-day basis. We are dangerously short of copper, tin and other non-ferrous metals.

That's why our school children—30 million of them—are being enlisted to comb out homes, backyards and farmyards for scrap to feed the steel giants. That's why the aid of newspapers throughout the land has been sought to impress upon their millions of readers the seriousness of the situation. That's why our kitchens must shower down old tin cans by the millions so that we can reach our goal of 3,000 tons of household tin recovered a year in 17 new de-tinning plants.

That's why we must save waste fats and greases, turn in half billion pounds we have been asked to salvage. These fats would help make enough bombs to cripple the German war machine or enough explosives to fire 1,250,000 anti-aircraft shells.

Last year our production of all-wire coat-hangers, if made into military barbed-wire, would have girdled the earth 6 1/2 times. We shall not be making wire hangers this year.
