Congressman Michener Addresses Kiwanians

Congressman Earl C. Michener addressed local Kiwanians and a number of guests at the regular meeting of the club held Monday evening at the Tower Cafe, discussing many issues which confront the nation today.

Mr. Michener stated that both parties in Congress are attempting to work together during the present crisis in an effort to hasten the victory. He said that we are sure of winning the war, but that this can be accomplished only through many more sacrifices.

HON. EARL C. MICHENER

Michener and a supreme effort on the home front. He paid high tribute to our fighting forces throughout the world in fulfilling their duties, and asked that a comparable effort be made on the home front.

Likening the present period of the war to the break of dawn, with rays of light beginning to show, Michener stated that the greatest battles are yet to come, and warned that we must be prepared for announcements of heavy casualty lists which will be inevitable when the major battles develop, which he predicted would be in the near future.

Discussing briefly the subject of taxation Congressman Michener admitted that taxes are too high but that there is no other way out. In fact, he stated that they must go higher in order to finance the gigantic operations of our country at war. He also admitted that there is much waste in wartime expenditures, but that Congress has stood on its hind legs and fought for economies in non-essential expenditures. "Many things which are desirable in time of peace are not essential in time of war," stated Mr. Michener, "so Congress has fought for the elimination of many of these expenditures and have won their fight."

"Our national debt may reach the staggering figure of \$350,000,000,000 when this war is over," continued Mr. Michener, "and that means that 25 per cent of our national income will be necessary to pay interest and service charges on this debt, which will make it necessary to raise more money by taxation."

Mr. Michener's address also included discussion of this nation's postwar obligation to the conquered countries. He stated that for a time we would have to help feed the peoples in these countries, as well as helping to provide for their rehabilitation. He said that while in peace time we are geared to a production of feeding 140,000,000 people we are now faced with the problem of feeding many times that many, which means more production from our farms and more sacrifices in our eating habits.

Other topics of interest were touched upon briefly by Mr. Michener, and following the adjournment of the meeting many of the Kiwanians and guests joined in a two-hour discussion of national affairs with the Congressman.

Chelsea Community Fair Cancelled for This Year

The annual board of directors meeting of the Chelsea Community Fair Association was held last Wednesday, August 18, at the high school. President Darwin Downer called the meeting to order and asked for suggestions concerning the advisability of having a fair this year.

Since most of the fair work falls upon those who have considerable extra work in connection with the war, it was voted unanimously not to have a fair this fall.

All trustees and officers were asked to continue in office until the 1944 meeting.

PROMOTED TO RANK OF MAJOR

Word has been received that Captain Donald L. Miller has been promoted to the rank of Major. He has recently been transferred from Alpena, Mich. to George Field, Lawrenceville, Ill., as Commanding Officer of the Sub Depot. Major Miller is expected home soon to spend a short furlough with his family.

VACATION NOTICE
My shop will close August 31 and open on Sept. 8. Quality Shoe Repair, Adv. and Mrs. L. B. Lawrence.

Called To The Colors

Robert Coleman Reed, son of Mr. and Mrs. Frank L. Reed, was inducted into army service on July 27 and after a three weeks' furlough, he reported to Fort Custer on Thursday, May 1, 1942. He had resided in Chelsea for 15 years and the past year had been employed at the Peninsular Furnace and Foundry Co. A farewell party was given by his parents on Tuesday evening preceding his departure and dinner was served at 9 o'clock to 22 guests. Robert received several parting gifts.

Glen W. Hasley left for Camp Custer on August 19. The son of Mr. and Mrs. Fred Hasley of Sylvan township, he is 18 years old. He graduated from Chelsea high school in 1943, and has been employed at the Chelsea Spring Company.

New H.S. Pupils Will Enroll On Sept. 1 and 2

High school pupils who are enrolling in the Chelsea public schools for the first time are asked to report to the office of the superintendent on either Wednesday, September 1 or Thursday, September 2, anytime between the hours of 8:30 to 11:30 a.m. or 1:00 to 3:30 p.m. Lockers will be rented and textbooks sold during the same hours.

Pupils who have previously enrolled in high school and all grade pupils, including kindergarten, will enroll in their home rooms at 1:00 p.m. on September 7.

A number of courses of study will be offered in high school and pupils may select any one or a combination of the following courses: College preparatory, Commercial, Agriculture, Home Economics and Shop. The subjects to be offered in the high school are:

Ninth Grade—English, Civics, Algebra, Mathematics in Life, Home Economics I, Shop I, Biology.

JOINS HUSBAND IN FLORIDA
Mrs. Dudley K. Holmes, with her daughter, Diane, left Wednesday to join her husband, Ensign Holmes, who is located at the Naval Air Station, Miami, Fla. They will make their home in Fort Lauderdale.

On Thursday of last week Mrs. Holmes was honor guest at a farewell party given by her mother-in-law, Mrs. Howard S. Holmes, at Barton Hills Country Club. A luncheon was served at one o'clock, with covers for 20. In bridge, which furnished diversion for the afternoon, Mrs. Leona Diekema of Ann Arbor held high score and Mrs. George Turnbull of Detroit, second.

Mrs. John Keusch was hostess at a bridge party on Saturday afternoon, following a luncheon at 1:30.

ATTENTION, LADY BOWLERS

All girls interested in league bowling please be present at a meeting to be held August 30, 8:00 o'clock, at the Sylvan Hotel. This meeting is important. We will decide night of bowling, how many teams will bowl, and also will make our rules and regulations. If you cannot be present, please leave your name at the Sylvan Hotel.

COMPLETES TRAINING COURSE

Sgt. Edwin W. Barth, who recently completed a three-months' course in an enlisted men's Signal Corps and Radio Training School at Fort Monmouth, N. J., has been transferred to Salt Lake City, Utah. En route, he spent five days at the home of his parents, Mr. and Mrs. Geo. E. Barth, Washington St.

NUTRITION MEETING TONIGHT

The board of directors of the Washington County Chapter, American Red Cross, will meet with the local chapter at the Chelsea high school tonight (Thursday) at 8:00 o'clock. Miss Beecy, county nutrition chairman, will be the speaker of the evening, on the subject of "Nutrition." The public is invited to attend.

Robert Lawrence of New York City returned home on Tuesday after several days' visit with his parents, Mr. and Mrs. L. B. Lawrence.

Forms Distributed For Filing Income Reports

Washington—Guy T. Helvering, Commissioner of Internal Revenue, recently announced that forms and printed instructions for the filing of estimated income and Victory tax declarations on or before next September 15, as required by the new Current Tax Payment Act, are now being distributed to individual taxpayers by the Collectors of Internal Revenue.

Filing of the declarations will be the second major step under the Current Tax Payment Act in converting the Federal individual income tax from the old delayed payment method to a "pay-as-you-go" basis. The first step was the inauguration July 1 of the new withholding plan, under which the Victory tax, normal income tax and first bracket surtax are paid by millions of persons through deductions from their wages and salaries.

The purpose of the declarations is to make current in their tax payments all those individuals whose income and Victory tax liability will not be fully covered by collections through withholding and other credits.

Experts of the Bureau of Internal Revenue have greatly simplified for the average taxpayer the task of filing the declarations.

A form and set of instructions for use in estimating the tax on incomes up to \$10,000, and for incomes over \$10,000, will be distributed to the taxpayer. The form, which made its debut in 1942, The computations and entries which this simplified declaration method requires should be matters of about five minutes for a large portion of the taxpayers by whom declarations will have to be submitted, the officials said. For those who desire to make a more precise computation, or who have an income of more than \$10,000, detailed worksheets may be secured from the Collector upon request.

Persons required to file the declarations are generally: 1. The recipients this year or last year of gross incomes from wages subject to withholding in excess of \$2,400 for single persons or \$3,500 for married couples; 2. Those who have incomes this year, or had incomes last year, requiring the filing of a return, with more than \$10,000 of income.

Summer Recreation Season Closes Friday

The summer recreation program sponsored by the Chelsea Recreation Council through the generous contributions of the industries and organizations of Chelsea closes tomorrow, August 27. In behalf of the many children and older folks the Council wishes to express its gratitude to the industries and organizations for making it possible to enjoy wholesome recreation in our village.

Many parents have expressed favorable opinions for the efforts of the Council in bringing together children of various ages in a wholesome playtime program. The minds of working mothers of smaller children, making their contributions to the war effort, were relieved in knowing their children would be taken care of at the playground.

The young people of Chelsea and vicinity enjoyed the dances held every Friday night in the high school gymnasium. Many of them expressed the desire of having these dances continue through the fall and winter months. The Council would welcome written suggestions for fall and winter recreation in Chelsea. Write your suggestions to the Chelsea Recreation Council in care of Charles S. Cameron. The problem of providing recreation in the colder months has already been discussed by the Council and will again be brought up in the September meeting.

The young women's softball league has been enjoyed by the ball players as well as the many people, in the stands who came out to watch them. Without a doubt this girls' league has displayed more enthusiasm in baseball than any league in Chelsea for some time. The season has come to a close and the girls are anxiously awaiting the play-offs beginning next week. Be sure you are present at these play-offs to give the girls your support.

The Spring Company and Central Fibre Products Co. ended the regular season's play in a tie for first place with 7 victories and 5 defeats. In the draw for the play-offs Spring drew a bye, and the Fibre team and All-Stars met in the first game. The winner of this game will play Spring. The two-game knockout tournament will be completed next week on Tuesday night. The scores of this week's games will be published next week. Look for "Doc" Aber's "Softball League Standings" column and the article following.

As we come to the end of the summer recreation season, may we say again that we hoped you enjoyed our program. The Council is looking ahead to provide recreation for the coming months.

—Recreation Council.

Mr. and Mrs. Theodore Quigley, who spent the past week in Chicago, returned home on Sunday.

LOOKING AHEAD

By RUTH TAYLOR

Now that we can see the beginning of the end—far off though it may be—our minds race ahead in the future to that hoped for day when the war will be over and the ways of peace come again on earth.

The organized workers know full well that peace has its dangers as well as war and that the decisions of the peace table will determine the fate not only of those arraigned before it, but the futures of the victors as well. The close of the war must be followed by immediate action; previously planned and arranged, for the feeding of the peoples in need, for the reconstruction of the devastated countries; for the provision and transportation of raw materials and capital equipment necessary for the restoration of economic activity; for the reopening of trade outlets, for resettlement of workers and their families under circumstances in which they can work in freedom and security and hope; for the changing over of industry to the needs of peace; for the maintenance of employment, and for the raising of standards of living throughout the world.

To this end Labor seeks representation in the final settlement, not to obtain privileges or favors for itself, but as the voice of the "little people" of the earth. To represent Labor, the logical choice is the International Labour Organization, which, possessing

the confidence of the free peoples and including in its structure the representatives of workers and employers, is peculiarly fitted to take part in this work in such a way as to minimize misunderstanding and unrest and to promote a stable and enduring peace.

As Dr. Carter Goodrich, chairman of the governing body of the International Labour Organization, said recently: "The various dependent nations need a kind of new social and economic deal. We have an opportunity by the progressive improvement of labor standards to assist dependent nations out of their condition of dependency. We can through our international lending, set certain standards for labor and insure a wider improvement of the condition of the masses. For anyone to take a position of defeatism in the present crisis is to ignore what is abundantly clear, for at the moment when we see great and worldwide destruction going on of goods and services, we are seeing actually a new discovery of economic strength and productivity manifesting itself, especially in America."

"Peace without unemployment is the goal of the I.L.O.; it is attempting to formulate in consultation with employers, workers, and governments plans that will aid in promoting full employment and a rising standard of living. The I.L.O. is not an office or a staff of experts, but an agency of cooperative action in the promotion of social justice. From the first it has had its main impetus from Labor; it depends ultimately on Labor for its service in improving standards of the world over."

The I.L.O. has its years of experience and research in all nations to fit it to help with the planning and application of measures of reconstruction and should be represented in any Peace or Reconstruction Conference.

The Washtenaw County Road Commission made strenuous efforts to get a trunk line through between Chelsea and Stockbridge, but it failed to get past State Highway Commissioner Frank Rogers. He expressed regret that he could not grant this request, and says his refusal is due to the fact that so many more roads are requested than can be accommodated.

Schools will open Sept. 2, with the following corps of teachers—High school: Supt. J. E. McCloskey; principal, Miss Nina Roode; French, Miss Katharine Johnson; Miss Lilly Robinson; Mrs. J. M. Martin. Grades: Mrs. Florence Howlett, Mrs. Nellie BeGole, Miss Minnie Allyn, Miss Ethel Kalmbach, Miss Alma Widmayer, Miss Ruth Spiegelberg, Miss Florence Springs, Music and Drawing, Miss Hazel Speer.

Interurban fares between Chelsea and Detroit have been increased from 80c to 90c.

Postmaster Hummel has received word from the government that government surplus food may be ordered and delivered through the local post office. A maximum of 125 pounds is allowed for each shipment, but any individual may order as many shipments as he pleases.

Mr. and Mrs. Thos. Beissel and daughter Verina, Mr. and Mrs. Wm. Doll, Mr. and Mrs. Wm. Wheeler, Jr., and Miss Frances Hindelang attended the wedding of Miss Cora Foster of Ann Arbor and Edward Beissel of Chelsea, at Ann Arbor on Tuesday.

Michigan will observe another holiday, this being Columbus day, October 12, set aside in honor of the discovery of America. Columbus day will be a legal holiday and with the exception of the fact that any legal papers executed on that day are valid, it will in every respect be recognized as a legal holiday.

Geo. Mast, Sr., was overcome with the heat about 4:00 o'clock Wednesday afternoon. At the time of the accident he was on the way to the barn when he became faint and in falling he struck upon the hydrant, breaking a rib which penetrated the lung on his left side. His condition is considered serious.

Ed. Doll is having the foundation walls built for a large barn that he will have erected on his farm in Lyndon next spring.

Wm. Barber and Florenz Moeckel are taking lessons in running automobiles. Barney Oldfield will not be in it with them.

Forms Distributed For Filing Income Reports

(Continued from page one)

\$100 of these incomes derived from sources other than wages subject to withholding. 3. Those required to file an income tax return on 1942 incomes and whose wages subject to withholding for 1943 are reasonably expected to be less than their similar wages for 1942.

Where the declarations show an estimated tax liability for 1943 in excess of credits, half of the excess is to be sent to the Collector of Internal Revenue along with the declaration, and the other half remitted on or before December 15. Credits to be taken on the declaration include withholdings and the payments, if any, made to Collectors on March 15 and June 15 this year on account of 1942 income taxes. The withholdings to be credited include those, if any, made by employers on the Victory Tax for the first half of the year, before the new withholding system went into effect, plus those made since July 1 under the new system.

Treasury statisticians have calculated that about 15,000,000 persons with tax liability for 1943 will be required to file the declaration.

Many of the people who must file declarations will be professional work-

ers, such as lawyers and doctors. Many more will be persons operating their own business establishments. Another large class of people who must file the declaration are those with earnings on which there is a liability reaching into the upper surtax brackets, and therefore not fully covered by withholding. There will be many also from persons with combination incomes such as wages, on which taxes are withheld, plus interest, dividends or rents, to which withholding does not apply.

If correction of the September 15 estimate of any taxpayer becomes necessary, an amended declaration may be filed on or before December 15, and the proper adjustment in payments made.

Declarations are to be sent by September 15 to the Collector of Internal Revenue in whose district the taxpayer expects to file his final income tax return for 1943 next year.

In the case of taxpayers deriving 80 per cent or more of their gross income from farming, filing of declarations is not required until December 15, at which time the full unpaid balance of the estimated tax must be paid. They may, however, file on September 15 if they wish and pay their estimated tax in two installments, September 15 and December 15.

The Current Tax Payment Act provides a penalty for a substantial underestimation of the tax due. However, it was pointed out by the Treasury, no one who makes his estimate carefully

need incur this penalty. The privilege of filing an amended declaration on or before December 15 is a safeguard on this score.

Eventually, operation of the withholding system plus the declaration system will make all individual income taxpayers substantially current. That is to say, each individual income taxpayer will pay his taxes during the year in which the income is received. Under the old income tax law, payment of an individual's tax for any given year's income was delayed to the year following.

"Anything new, Bert, on that black market trial up at the county seat?"

"The jury came in 'bout an hour ago, Judge. The verdict was 'guilty.' I understand the sentence is going to be a mighty stiff one."

"Can't be too stiff to suit me. Anything those law-flouting racketeers get will be too good for them. How they thrive every time there's an opportunity to sell something

illegally instead of legally in this country. Just like the bootleggers did during the 14 years when liquor was sold illegally instead of legally."

"Unless this black market in meat and other commodities is stamped out and stamped out quickly, Bert, we're in for another dose of the crime, corruption and lawlessness we had following the last World War."

Figure It Out Yourself. How can you effectively join in saving all the little children of the world from human slavery, death and injury from the Nazis and Japanese? Put more and more of your pay into war bonds every payday. Your savings will go to war in the form of weapons and other munitions. How much more should you put into war bonds? The only ones who can answer that are—you and your family. It's up to you to decide just how much more you'll do to win the war.

If you were fighting in the Solomons or in Africa or fording a landing in Europe, you'd like to feel that the folks at home were back of you—all the way—you'd be proud of your family and your friends if you knew they were buying war bonds not at 10 per cent or 15 per cent, but with every cent beyond that which they need for necessities.

RATION REMINDER

Gasoline—In states outside the east, ration coupons are valid through September 21. All gasoline coupons in the possession of car owners must be endorsed with the owner's license number and state of registration.

Fuel Oil—Period 5 coupons in old ration remain valid through Sept. 30. Period 1 coupons in new ration are valid now. Occupants of oil-heated homes are urged to return their applications for next year's fuel oil to their ration boards promptly and when issued new ration to place orders with their dealers for summer fill-ups.

Sugar—Stamp No. 14, good for 5 lbs., is valid through October. Stamps No. 15 and 16 are good through Oct. 31 for 5 lbs. each for home canning purposes. Housewives may apply to their local ration boards for more if necessary.

Shoes—Stamp No. 18 (one pair) is valid through October 31.

Stoves—Consumer purchases of rationed stoves must be made with a certificate obtained at local war price and rationing boards.

Meat, etc.—Red stamps T, U, V and W valid through August 31. X valid through October 2. Y becomes valid August 29. Z becomes valid September 5, and both remain valid through October 2.

Processed Foods—Blue stamps R, S and T remain valid through September 20. U, V and W become valid September 1 and remain valid through October 20.

Urges Cut in Labor Day Travel—Stay off trains and inter-city busses over Labor Day week-end—this is the plea of Joseph B. Eastman, Director of the Office of Defense Transportation. Mr. Eastman, in asking the public to spend Labor Day week-end at home, said that failure to follow this advice might result in travel congestion worse than that experienced over the Fourth of July week-end. Mr. Eastman pointed out that transportation equipment formerly available for holiday travel is now in troop service or used to handle the greatly expanded military and essential civilian traffic.

Jobs To Guide Father-Draft

After October 1, when drafting of fathers begins, those in non-deferable activities or occupations, regardless of their order numbers, will be the first fathers called for military service. Those who transfer to essential occupations and thus release single men for military service help to decrease the need for drafting fathers. Generally speaking, after October 1, the occupation of an eligible registrant will determine whether he will be inducted or deferred if his number is called. However, the question of hardship to dependents must be given consideration in each case.

Mail Christmas Gifts Early

Christmas gifts to naval and marine personnel overseas should be sent between September 15 and November 1. This period has been designated by the Navy Department in cooperation with the Post Office Department. Parcels must not exceed five pounds in weight.

Save All Fats

With millions of pounds of waste kitchen fats still needed to meet war demands, Paul C. Cabot, Director of WPB Salvage Division, recently urged housewives to remember that even if accumulated fats become rancid, they still retain a majority of the valuable glycerine that goes into war production. Some housewives, believing that rancid fats are valueless, have not been turning them in for salvage. This has resulted in the loss of thousands of pounds of glycerine that could have been processed from these fats.

New Gasoline Coupons

Car owners who still hold the old type "B" and "C" gasoline ration coupon books should exchange them for the new mileage ration sheets of coupons between August 23 and September 1. OPA announced recently. Old type "B" and "C" coupons become invalid September 1, and gasoline dealers cannot accept them on and after that date. The old type coupons are identified by the words "Permits Delivery of One Unit of Gasoline." The new type say "Mileage Ration" plus a large "B" or "C."

Wheat Goals for 1944

State wheat acreage goals for 1944, representing an apportionment of the national goal of 68 million acres—26 per cent above this year's seedings—were announced recently by the War Food Administration. County goals will be established on the basis of these state figures and will constitute the wheat goals farmers will be urged to meet in 1944. In broad terms, the WFA advises farmers to plant as much wheat as possible without departing from sound farming practices and after reserving sufficient land for expanding other urgently needed crops.

More Nurses Needed

Many American hospitals cannot maintain normal standards of service today because of the lack of nurses, according to reports made to the U. S. Public Health Service of the Federal Security Agency. A year from now America will need 359,000 nurses—or 100,000 more than are now available. Of this number 66,000 will be needed for military service and 293,000 for civilians. Because of limited facilities, the maximum that can be trained this period is 65,000.

What You Buy With WAR BONDS

Booby Trap Detector

In the snow, in the sand, on the beaches, on the roads, in the woods, everywhere the Axis soldiers hide "booby traps" to slow the movement of oncoming fighting men of the United Nations. The detector does the same work on land as the mine sweeper does at sea.

Like buying War Bonds, the soldier operating the detectors will never know just how much they have aided in the success of their campaign, but he knows his work is necessary and must be accomplished. If more Americans on the home front will come to realize this, the success of our War Bond campaigns will be assured.

Bolivia Land-Locked

Land-locked Bolivia, with an area of about 420,000 square miles, is the third largest country in South America. She has a population of about 3,500,000. Her capital, La Paz, is the loftiest capital in the world, with a site 12,000 feet above sea level.

NUTRITION TIPS

Civilian Defense Volunteer Office Release

Apples, Peaches, Pears—Are Next—Early varieties of apples, peaches and pears are already ripe. Others will be ripening weekly from now on until late autumn.

The Washtenaw County Nutrition Committee suggests that housewives take full advantage of these orchard fruits, eating them every day and canning, drying and storing as many as possible for winter.

Some early apples and pears cannot be stored and must be canned if we are to enjoy them when their season is over. Peaches must be canned, dried or frozen. All of these fruits supply some Vitamin C, the vitamin we need every day, because it cannot be stored in the body like fat. It must, therefore, be renewed daily. In addition, fresh fruit supplies that add zest to meals that we all need to stimulate jaded appetites and make ordinary foods more tempting.

Apples, peaches and pears are best when eaten by the hot pack method and process in a boiling water bath or the oven. This method preserves food values, color and flavor. The shell pack is economical as many halves will go in one jar by placing pit or core side down in overlapping layers. All three of these fruits are very good when dried. Select the best quality to start with for the best results.

In using the fresh fruits, fruit cup makes a delicious dessert that is universally liked. Sliced apples, peaches and pears with green grapes added for variety are a good combination. For supper try apple flapjacks. Just add one cup of finely grated apple to your favorite pancake recipe. Or for something fried use the following recipes:

Fried Apples

8 apples,
1/2 teaspoon salt,
3 teaspoons bacon drippings,
2 teaspoons water,
2 teaspoons honey or brown sugar.
Wash apples, cut in quarters and remove stems and seeds. Slice medium pieces and put in skillet with hot bacon fat, add other ingredients and cook at high temperature for 5 minutes. Reduce heat to low and cook about 25 minutes or until tender. Both peaches and pears are excellent with cereal, especially the cooked or prepared varieties, and all three—peaches, pears and apples—can be used with puddings, on ice cream or for shortcake. A peach recipe that never fails to please is:

Peach Roll

2 cups sifted flour,
2 teaspoons baking powder,
1/2 teaspoon salt,
4 tablespoons shortening,

1/4 cup milk,
Melted butter,
1 1/2 cups peaches,
6 tablespoons sugar.

Sift flour, measure, add baking powder and salt, sift again. Cut in shortening, add milk gradually, stirring until soft dough is formed. Knead to shape and roll 1/4 inch thick. Brush with melted butter; cover with peaches and sprinkle with sugar. Roll as far as jelly-roll. Place in greased loaf pan with edge of roll on under side; brush with melted butter and bake at 400 degrees F. for 30 minutes or until done. Serve hot with peach sauce or cream.

SOFTBALL LEAGUE (Men's League)

The Spring Company made it two straight this week when after holding the All Stars to a tie on Tuesday, came back and beat them on Wednesday and Fibre on Thursday, thus ending in a tie for first place.

On Wednesday night the All Stars played Fibre and the winner will play Spring on Thursday. The play-offs are on a two game knockout basis.

There will be some very good softball games played at the local field this week and be sure you are out there to see them.

On Tuesday, Central Fibre was defeated by Camp Boy Town, 5-4, in a real good ball game.

Answers to your Questions about the Beer Shortage

Q. Is there REALLY a beer shortage?

A. There certainly is; we at Altes are unable to meet the demand.

Q. Is the demand for Altes any larger than usual?

A. It far exceeds anything we have ever known.

Q. Then why don't you increase your production?

A. We are unable to do so because of a shortage of malt. Since March 1st, by necessary government restrictions our malt has been limited to 93 per cent of the amount we used in 1942. In July this amount was further cut by a new order requiring all brewers to use 15 per cent of their available malt in the production of beer for our fighting men.

Q. Couldn't your formula be changed to use less malt?

A. Yes, but the result wouldn't be Altes Lager.

Q. Would Altes users notice the difference?

A. Any beer drinker who has come to know and enjoy the Aged-in, Sealed-in flavor of the beer we make from prime ingredients is sure to notice any change. That's because our process preserves the natural goodness.

Q. Will I be able to get more Altes in the weeks ahead?

A. We hope and believe that the malt shortage will be temporary. If so, we shall immediately make more Altes—and you will get it.

Q. Right away?

A. No, after it has been properly aged. Before it leaves the brewery, every drop of Altes is going to meet the high Altes quality standards. That's our way of keeping faith with you, the people who prefer Altes above all!

Mrs. Frank Gieske will entertain the W.S.C.S. next Wednesday, Sept. 1. Mrs. Glenn Allen spent the weekend at the home of Mrs. Lydia Riemenschneider.

Mr. and Mrs. William Breitmeyer and daughter of Ann Arbor and Frank Barker of Munich called at the Harvey home Sunday morning.

Mr. and Mrs. Lyle Harvey of Royal Oak and Mr. and Mrs. Millard Harvey and daughter of Dexter were Sunday dinner guests of Mr. and Mrs. H. Harvey.

Mrs. Carrie Richards entertained at a birthday dinner Sunday in honor of Fred Osterle. The following guests were present: Carrie, Herman and Arthur Osterle; Velma Dorr and family and Miss Parte of Grass Lake and Mr. and Mrs. Earl Behan of Ann Arbor.

The following guests were present at a picnic dinner at the home of Mr. and Mrs. Chester Notten on Sunday: Mrs. A. Marie Tefft, Miss Anna Mae Bouter, Mr. and Mrs. Carl Reuter of Jackson, Mr. and Mrs. Leonard Loveland, Mr. and Mrs. Emmet Dancer, Mrs. Floyd Cluin and daughter of Hastings, Mr. and Mrs. Donald Dancer and daughter and a cousin of Mrs. Dancer's and her grandchild, and Mr. and Mrs. Erle Notten.

Say Ration Like Fashion

There is no evidence that "ration" (pronounced like "nation") ever got a foothold in the armed services, the only circles in which the word has a continuous living history. The editors of the New English Dictionary note that "ration" (pronounced like "fashion") is the pronunciation "usual in the army," and they explain it as perhaps "due to the adoption of the word from French."

HOLD PICNIC SUPPER

Members of the W.S.C.S. of the Methodist church, husbands and friends, enjoyed a pot-luck picnic supper at the home of Mr. and Mrs. W. G. Price, Lima Center, on Tuesday evening, August 17.

Announcement was made to the group of plans for helping the colored youngsters at the Sugar-Brown Home and Godman school in Louisiana. They are in need of all kinds of clothing, new and old. The boys' ages range between 12 and 17; girls between 5 and 18. The Friendship Home and Esther Hall in Detroit, homes for white and colored girls, are in need of house furnishings such as bedspreads, table cloths, dresser scarfs, etc. Contributions may be brought to the next regular meeting September 23.

Please note—the September 23 meeting will be a supper instead of a lunch. The study committee met this summer and decided to try a few evening meetings with the board meeting on the same day. So program for September 23 is as follows: 4:30-6:00, board meeting; 6:30-7:30, supper (not a pot-luck, a planned meal sponsored by one of the circles) to which the families are invited; 7:45-9:00, business meeting.

Announcement was made of the need for surgical dressing workers, especially Wednesday afternoons beginning at 2:00 o'clock, at the school.

The weather didn't permit the playing of games out of doors, so the balance of the evening was spent in visiting.

CARD OF THANKS

We wish in this way to sincerely thank our neighbors, friends and relatives for their many acts of kindness during the illness and following the death of our mother and grandmother, Mr. and Mrs. Oscar Kalmbach and family.

Miss Linda Kalmbach.

Have Some Cigarettes, Soldier—Six Bucks a Pack!

Overseas Mailing Must Start By September 15

The Christmas shopping season is here—even though the weather is still warm.

Mailing of gifts for Army and Navy personnel overseas must begin by September 15; if many of the men and women in our armed services are not to be disappointed, and September 15 is less than a month away.

Christmas gifts may be mailed by parcel post to Army men and women overseas only between September 15 and October 15. After the latter date, such parcels may not be mailed unless a written request from the soldier for the article is presented with each parcel. No soldier should have to ask for a Christmas gift, so gifts must be mailed on time. The Navy also urges that gifts be mailed between September 15 and October 15.

Those who have relatives or friends in the service should remember that we have fighting men in Alaska, Greenland, Iceland, England, Sicily, far-separated regions of Africa, the Near Eastern countries, Australia, many of the South Pacific islands, India, China, South America, and other areas.

Weeks are required for a ship to reach many of these stations. There can be no assurance, of course, that the first ship sailing for any of these locations will have space available to carry Christmas parcels. Gifts may have to wait until vitally needed supplies and equipment have been shipped, to assure victory and to save the lives of our men. If the parcels are not mailed early, that delay may prove to be just enough to prevent their arrival by Christmas day, with consequent disappointment to the men who are offering their lives for their country and ours.

Rules for Christmas mailings to the fighting forces overseas are as follows:

The parcel must not exceed five pounds, and must not be more than 15 inches in length or 36 inches in length and girth combined. It should be marked "Christmas parcel" so that it may be given special attention to assure its arrival before December 25.

Not more than one parcel may be mailed in any one week to the same member of the armed forces by or in behalf of the same mailer.

The parcel must be well and strong.

ly packed, in a container of metal, wood, fiber board, or similar material, then wrapped in strong paper and tied with twine. The cover should be such that it can be opened readily for censorship. The contents should be packed tightly.

Perishable goods, such as fruits that may spoil, are prohibited. Intoxicants, inflammable materials such as matches or lighter fluids, poisons, and anything that may damage other mail also are prohibited. Gifts enclosed in glass should be substantially packed to avoid breakage. Sharp instruments, such as razors and knives, must have their edges and points protected so that they cannot cut through the coverings and injure postal personnel or damage other packages.

Since the armed forces are being plentifully supplied with food and clothing, the Army and Navy recommend against these gifts.

Addresses must be written clearly and completely. In addition to the return address of the sender, a parcel for an Army man should show the name, rank, Army serial number, branch of service, organization, Army post office number and name of post office through which the parcel is routed.

The address on a parcel for a Navy man should include the name and rank or rating of the addressee, the Naval unit to which he is assigned, and the Navy number assigned thereto, or the name of his ship, and the fleet post office through which the parcel is routed.

HONORED AT DINNER

Mr. and Mrs. O. G. May entertained at a dinner on Sunday, honoring their son-in-law and daughter, Lieut. and Mrs. Richard Hoelzer of Rapid City, S. D. The guests included Mr. and Mrs. Carl Hoelzer of Clinton and Mr. and Mrs. Leonard Eder and family of Cavanaugh Lake. Mrs. Eder also gave a dinner in their honor on Tuesday evening.

Canning Bulletins Are Available At Library

A number of wartime canning bulletins, both for fruit and vegetables, have been secured by the local Nutrition Committee and placed in the Public Library for disposal. Anyone interested in having one of these bulletins may have same by calling at the Library.

The Library is cooperating with the Nutrition Committee in placing on file much material received, such as leaflets and booklets on wartime canning, brining vegetables, dehydrating fruits and vegetables, lunch box meals planned for children and factory workers, receipts to match your sugar rationing—all of these and many more interesting things pertaining to canning are among the material received and placed on file for your convenience.

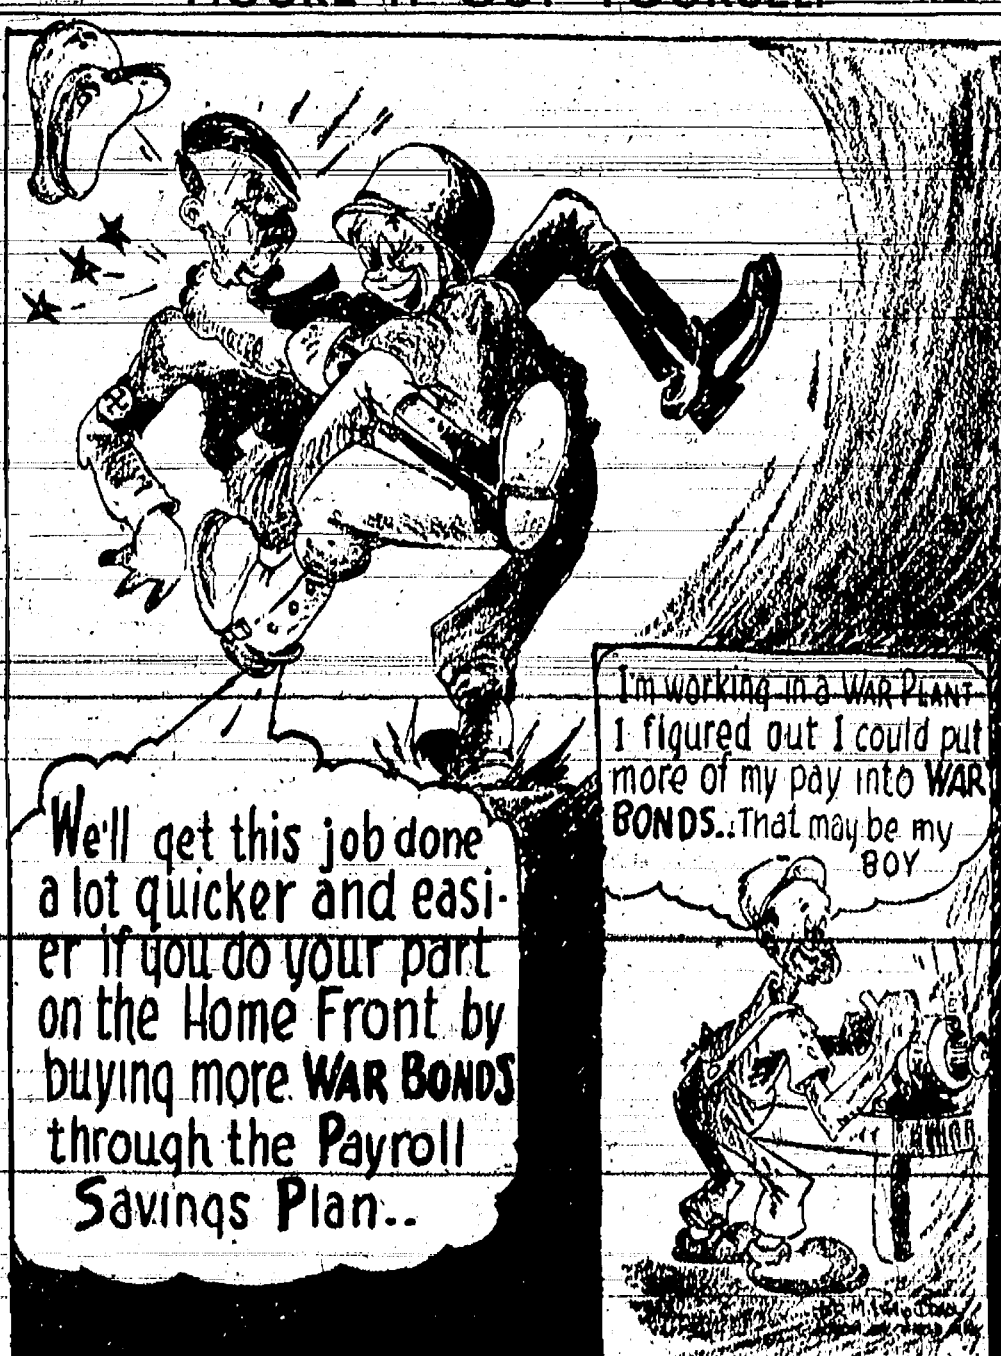

If you have a canning problem, need to have some help on the everyday lunch box, or possibly a new receipt, look through these files; the committee is sure you will find the answer.

HONORED AT SHOWER

A miscellaneous shower on Thursday evening at the home of Mrs. George Heydlauff in Sylvan township honored Miss Betty Kalmbach, daughter of Mr. and Mrs. Oscar Kalmbach, whose marriage to Leon Sanderson, son of Mr. and Mrs. W. E. Sanderson, will be an event of the week. Assisting hostesses were Mrs. Walter Kalmbach of Francisco and Mrs. Clifford Heydlauff of Lima township.

A feature of the entertainment was a mock wedding, with Caroline Kalmbach as the bride; Wilma Schweinfurth, the groom; Phyllis Kalmbach, bridesmaid; Charbel Hoppe, best man; Jean Ruth Schweinfurth, train bearer, and Mrs. Kenneth Broctor, the minister. Refreshments were served to about 80 guests. The bride-to-be received many beautiful gifts.

Two 25th Anniversaries Celebrated On Sunday

The 25th wedding anniversary of Mr. and Mrs. Leigh Luick of Lima township and Mr. and Mrs. Clarence Eschbach of Grass Lake was the occasion of a celebration held at the home of the former on Sunday afternoon. The sisters, formerly Bertha and Amanda Gross, were united in marriage on August 22, 1918 at the home of their parents, Mr. and Mrs. Frederick Gross.

Rev. A. A. Schoen of Dexter, who officiated at the wedding 25 years ago, gave a short talk during the afternoon and a poem, "Twenty Five Years," was read by Mrs. Walter Gage.

A three-tiered wedding cake decorated in silver formed the table centerpiece, where lunch was served the following guests: Rev. and Mrs. A. A. Schoen, Mr. and Mrs. Adolph Gross and Mr. and Mrs. Harold Gross and daughter of Dexter; Mr. and Mrs. Albert Gross of Jackson; Mrs. O. D. Luick, Mr. and Mrs. Gerald Luick, Mr. and Mrs. David Beach, Mrs. D. E. Beach, Mr. and Mrs. Carl Gross, Mr. and Mrs. Herman Gross, Mr. and Mrs. Elba Gage and daughter, Mr. and Mrs. Walter Gage and daughter, Miss Hilda Gross, Mrs. Mina Wiseman, Miss Dorothy Lashgoba and Frank Gross of Chelsea.

Each couple was presented with 25 silver dollars, also many other gifts.

ANSWER THREE ALARMS

Three fires during the past week called out the local fire department. A fire at the trailer camp on Wednesday night and a roof fire at the J. Pullen residence on Thursday morning resulted in slight damage. On Saturday afternoon a grass fire on the farm of Mrs. Minnie Alder in Sylvan township spread to the woods, causing some damage.

WEDDINGS

Kendall-Lehman

Miss Twyle Kendall, daughter of Mr. and Mrs. William Kendall of Saginaw, became the bride of Earl E. Lehman, son of Mr. and Mrs. Elmer Lehman of Sharon township, at a ceremony which took place on Wednesday evening at St. Paul's Evangelical church. The marriage service was read at 7:30 by Rev. P. H. Grabowski.

Lohengrin's bridal chorus was played by Mrs. Wilbert Breitenwischer and she also accompanied Mrs. John Osterle, who sang "O Promise Me" before the ceremony.

The bride was gowned in white satin with a veil of tulle and her bridal bouquet was of white roses. Miss Helen Lehman, sister of the groom, who attended as bridesmaid, wore a dress of poudre blue taffeta and her flowers were Talisman roses. Arthur Kendall, brother of the bride, was best man.

A reception was held in the church hall after the ceremony.

The bride, who is a graduate of Michigan State Normal College, was a teacher in Royal Oak the past year. The groom is a graduate of Chelsea high school and Cleary Business College and has a position with E. G. Wiedman Co., Ypsilanti. Mr. and Mrs. Lehman will reside in Ypsilanti.

HONORED AT FAREWELL

A farewell party was given Saturday night in honor of Miss Ruth C. Collins of Dexter at the home of Miss Helen Toth, South St. The evening's entertainment began by attending the second show, after which the group returned to partake of a delicious buffet luncheon. Fourteen guests were present, including Miss Collins' co-workers in the Navy inspection department. The honor guest was presented with a beautiful gift. Miss Collins will attend Mercy College for nurses' training.

DEATHS

John Pullen
John Pullen died Saturday morning at St. Joseph's Mercy hospital, Ann Arbor, following a brief illness. He was born 66 years ago in Bedford, Va. and had been a resident of Chelsea for more than 25 years. He leaves a wife and two sons.
Funeral services were held at 2:00 p.m. Tuesday afternoon at the St. Joseph's church, with Rev. W. H. Montgomery officiating. Burial was in Oak Grove cemetery.

Mrs. Fred Kalmbach
Mrs. Mary Anna Kalmbach, 83 years old, died Saturday afternoon, August 22, at the home of her son, Fred Kalmbach, in Sylvan township. The daughter of John and Elizabeth Kalmbach, she was born Jan. 7, 1860 in Hessen, Germany, coming to her parents to America when a year old. On April 5, 1883, she married Fred Kalmbach and they made their home in Sylvan before moving to Chelsea 22 years ago. Mr. Kalmbach died in 1933. Mrs. Kalmbach was a member of Salem Grove Methodist church.
She is survived by the son, Oscar, Sylvan, and a daughter, Linda, of Lansing. The oldest son, Carl, preceded her in death in 1932. She also leaves nine grandchildren and one great-grandchild.

A prayer service was held at 1:30 p.m. Tuesday afternoon at the Miller funeral home, followed by funeral services at 2:30 at Salem Grove church. Rev. Louis Green of Adrian officiated and burial was in Salem Grove cemetery.

Charles A. Brown
Charles A. Brown of Grand Rapids, father of Mrs. Edmund J. Quirk of Chelsea, who had been spending the summer at North Lake, was stricken with a heart attack Thursday afternoon as he stepped into the lake to swim and collapsed in three feet of water.

Charles, who was familiarly known

as "Chuck", was born in Grand Rapids April 25, 1903, the son of the late Mr. and Mrs. Charles L. Brown. He attended St. James school, Union high school and Junior college, and while at the Union he was a member of the football and basketball teams, being a member of one of Union's state championship basketball teams.

He continued his athletics in Junior college but in his second year he was stricken the first time with sleeping sickness, which ended his athletic career and blasted his hopes of joining the medical profession. Doctors held little hope for his recovery but owing to his superb physical condition resulting from his sport activities, he recovered to graduate from Junior college and complete his pre-medical course at Detroit City college, now Wayne University. He was in his first year at Detroit College of Medicine when he suffered a recurrence of sleeping sickness, which left him a semi-invalid since that time.

For the past 20 years he had made his home with his sisters and was hopeful of resuming his studies sometime in the future. He was a member of the Holy Name Society of St. James church and the Good Fellowship club of Union High, Grand Rapids.

Survivors include one brother, Dr. J. Gerald Brown, of Detroit; and six sisters, Mrs. Leo Schloss and Mrs. DeWitt J. Smith of Grand Rapids; Sister Mary Paschaline S.S.N.D. of Morilton, Ark.; Mrs. Edmund J. Quirk of Chelsea; and Mrs. Leo Maas and Mrs. J. A. Heilers of Detroit.

Funeral services were held at 9 a.m. on Saturday at St. James church, with Mr. Dennis Malone officiating. Burial was in Mt. Calvary cemetery, Grand Rapids. Dr. and Mrs. E. J. Quirk and children attended the services.

AGED WOMAN BREAKS HIP

Powder Monkey

On board ship and in the artillery their buddies call them "powder monkeys." Not disrespectful, just a personal, intimate term between friends. Civilians call them gun crews. During a battle the crews of "powder monkeys" must work like trojans bringing the ammunition to the guns.

The gun may fire an anti aircraft 50 calibre shell or a broadside from the 16 inch guns of a great battleship, but in either event the "powder monkey" must pass millions of dollars' worth of ammunition to make the gun effective, and your savings in War Bonds are necessary to supply the financial ammunition that provides the shells.

INFANTILE PARALYSIS SEASON
Warning that August and September are months in which infantile paralysis has occurred most frequently in Michigan in other years, State Health Commissioner H. Allen Meyer advises parents to take "no" chances when their children appear unwell.

"Fever, headache, nausea and vomiting may be symptoms of the disease," Dr. Meyer said. "Stiffness or pain in the back or neck, or muscle soreness, are other symptoms. A physician should be called immediately when such symptoms are noticed. Possibility of paralysis is greatly lessened when there is prompt diagnosis and adequate treatment of the disease in its earliest stages."

Nineteen cases of infantile paralysis have been reported to the state health department so far this month. Seven-year average for the period is 35.

Seventy-seven respirators located in 28 Michigan counties now are available when the disease affects muscles of respiration.

Aluminum Light-But Strong

Aluminum is approximately one-third as heavy as steel or copper, one-fourth the weight of lead, one-half as heavy as zinc. Resistant to corrosion, it can be alloyed successfully with at least 30 different metals, and achieves important tensile, shear and compression strength according to the constituent elements employed.

Paint Affects Time Passage

A recent bulletin of the National Association of Manufacturers says that in a blue environment, time is likely to be underestimated. In a red environment time is likely to be overestimated.

Under the impetus of war, medical science is making discoveries of tremendous importance—new drugs—new methods of treatment—that will mean freedom from many of the ills and afflictions that scourge humanity today. For example, American military deaths resulting from wounds are the lowest for any war anywhere, any time. Applied to civilian practice, this knowledge will reduce still further the dangers attending operations. Your physician may count upon us for adequate supplies of the new drugs as they become available.

Every Michigan town has a Charles Bell.

Not only Crystal Falls, once a prosperous iron-mining center, has Charles Bell, once an ex-lumberjack, town photographer, fluent raconteur and aristocrat of the outdoors.

We mention Charles because the blueberries are abundant on the plains from Ironwood to Sault Ste. Marie because millions of quarts of the luscious berries are awaiting in vain for pickers this summer; and because my thirty-impetuous mind of was ready for food, decided suddenly I can blueberries on an outdoor picnic at Runkle park by a small lake at Crystal Falls where we stayed a few days.

"Charles Bell is your man," said Tom Conlin, editor of the Ironwood Press. And so we engaged him for the job.

"How many quarts of blueberries do you want?" asked Charles.

We surprised. "About 20 quarts," thinking of his own arm.

"Hardly worth my while," replied Charles with dignity. He is a good six feet tall, with an Englishman's chin and nose. "I can pick easily 30 quarts. My good wife and I have 250 quarts of berries in our basement now."

I gulped, first in amazement, then in doubt, and finally nodded acceptance to his bid.

"I was just planning to do some fishing," added Charles, as he glanced at the ground beneath the tomato vines in his small victory garden. "Worms are hard to get with a flashlight. Kindly survey these tomato vines. They'll grow at least 12 feet high before summer is over. Already five feet off the ground, and growing a foot a week."

Charles stood in pride before his garden triumph. Even prospective 12-foot tomato vines merit a visitor's admiration.

We inquired about the delicate matter of using a ladder to pick the tomatoes, but Charles was courageous to the degree of solemnity and never simulated a smile. "So we changed the subject to fish bait."

"Ah, yes, the piscatorial art," quoth Charles. "I have been catching a mess of the finny denizens almost daily. I rely exclusively on the lure of a brown and red back tail, although the charge-vill has its good merits and the June bug is preferred by others, if you know what I mean."

We fathomed clumsily that Charles had been fishing, and so let it go.

The more we thought about Charles Bell, the more we concluded that the risk was too great. And so the next afternoon we organized our own assault on the blueberry plains near Lake Mary, led to the spot by Jimmy the printer's devil, over a winding hummock trail that finally brought us to a beaver dam pool fed by springs from nearby hills. The three of us picked 10 quarts in a few hours and sampled a few quarts more, trying to decide which was the more delicious, blueberries or blackberries.

The still not sure.

Over on an adjoining hill a good half mile away, we detected the form of a berry picker. He was picking berries with one arm. Sure enough, it was Charles. "I'm just here to see whether Charles had been all for home."

"That evening we went to Charles's home. "Ran into hard luck," started Charles. "I was getting along fine until my hand-dug got thirsty and I took him to a spring for water. There we encountered a cloud of mosquitoes. I waved my hat to chase 'em away, and a fish hook caught on my left ear. Had to leave early—twas at least 3 o'clock. The doctor broke two pliers before he extracted the hook."

We knew what the ending was going to be, and looked at the carton filled with blueberries. Charles read our minds.

"I regret exceedingly my inability to get 35 quarts, but you'll find 20 quarts or more there. If you don't find that many berries in the box, come and get your money back," he pronounced officially, like a judge from the bench.

When we made reference to the handicap of one arm, Charles reminisced. "That was a bitter cold night, 54 years ago, when I was lumberjacking out at camp twelve near Iron River. The temperature went down so fast my ears were frost-bitten by the time I reached the shack. Before going to bed later that evening I happened to remember about a jug I had left at the doorstep outside. I opened the door and stuck my right arm out to get the jug. It's hard to believe how cold it was that night. But my right arm was frozen to the elbow before I could bring it inside. The arm got black, swelled up like a sick pup, and so I took an axo and whacked it off. Yes, sir, never missed that arm much even while picking blueberries. It was a shame that fish hook had to snag in my ear."

Back in camp, we told the misad-

of Charles Bell. We also related the years of the 12-foot tomato vine, the red and brown-backed tail, and the warty night casualty of a half century ago.

The Upper Peninsula is a big region, and big game is one of its natural virtues. Maybe blueberries is a reasonable. Or perhaps the native hospitality of providing extra treatment for incontinent travelers is to blame.

Still skeptical, we moved Charles's box of blueberries. My wife started to count the quarts, curious to see whether Charles had been all for home.

When a resident of the lower peninsula, even one from such a virtuous place as Lansing, comes to the north country with its direct unlimited forests and lakes and streams, he is impressed anew at the greatness of Michigan—its rich natural resources of iron, copper, oil, salt, forests and fish; its booming industrial centers, unparalleled in the world for mass production skill, now making Norton bombights and monster tanks and airplane engines and jeeps and many other weapons of war.

He recalls our rich fruit belt, and our bustling lake ports where steamships dock with cargoes of ore, coal and merchandise, and all the other characteristics of this pinnaul state amid a great chain of inland seas.

And then you think of Charles Bell with his proclivity of exaggeration, and wonder if Charles is to blame amid this wonderland-of-God's riches. Yes, let me say this for the record. When my wife had finished measuring the blueberries which Charles had picked, we found not 20 quarts as he had promised, but 21 quarts—a full honest measure.

Sure, every Michigan town has a Charles Bell.

He is just a part of American hometown pride. He is a living reincarnation of Paul Bunyan whose yarns of the north still remind us of the greatness of Michigan.

Soldiers Need Cotton
The average soldier consumes ten times more cotton than the average civilian. It is conservatively estimated that 250 pounds of cotton per soldier are necessary to equip an army.

Drying of Foods Is Second To Canning

Take the results of research and combine it with the experience of hundreds of Michigan housewives drying fruits and vegetables as a wartime conservation measure, rather second to the method of pressure cooking or canning non-acid vegetables, according to Miss Roberta Hershey, extension specialist in foods and nutrition at Michigan State College.

Michigan indicates many Victory Gardeners and those cultivating sizeable farm gardens are wondering about preservation by drying.

"The food value is not as high if foods are dried," asserts Miss Hershey. "Sun drying certainly cannot be recommended in Michigan. Oven drying may increase the cost of preservation beyond the value of the preserved food."

When jars are full or pressure cookers not available for canning the non-acid vegetables, some may be dried for wintertime meals. Corn, peas and lima beans, string beans, greens and apples are foods that may be put through a home drying process.

For corn: Gather in milk stage, husk, remove any worm injuries, steam or dip in hot water 15 to 20 minutes to set the milk. Drain, cool, cut kernels from ear. Spread on trays 1-2 to 3/4 inch deep and dry at 130 to 140 degrees. Stir occasionally to separate kernels. When dry, grains will break like glass.

Peas, lima beans: Gather when mature but before pods are dry, shell. Dip four minutes in boiling, salted water, 2 tablespoons salt to gallon of water, or steam peas 8 to 10 minutes or lima beans 6 to 8 minutes.

Spread on trays 1-2 to 3/4 inch thick. Dry 115 to 120 degrees allowing temperature to rise gradually to 150 degrees until peas or beans are dry and brittle.

String beans: Cut 3/4 to 1 inch lengths, steam 10 to 15 minutes or pre-cook 5 minutes, dry at 155 degrees until brittle.

Greens: Sort, trim leaves, dip in boiling water 1 to 3 minutes, or steam 2 to 5 minutes, dry at 150 degrees.

Apples: Use mature fruit, but not soft. Pare, trim, slice evenly 1/4 inch thick. Keep in salt water, 3 to

5 teaspoons salt to gallon of water until placed in drier. Start drying 130 degrees, increase to 160 degrees. Apples have elastic, stringy feeling when dry.

Trimmer Hogs Will Be In Style This Fall

Michigan hogs will stop more lightly and at a younger age when they trip to market this fall, if farmers wisely conserve feed and observe the lessening demand for the heavy-weight hogs. When swine numbers were low and feed was plentiful, it was patriotic and fattened the farm income to market hogs at 250 or 300 pounds, according to H. F. Moxley, animal husbandry specialist at Michigan State College.

Now hog numbers are high and feed prospects are relatively low. Moxley suggests farmers plan marketing hogs at 180 to 220 pounds, since hogs make the most economical gains up to those weights.

After hogs reach 200 pounds in weight, Moxley points out, it takes 50 pounds more of feed to put on 100 pounds of gain than it did per hundred for the first 200 pounds.

One proof of the trend to lighter hogs and the ratio of hogs to feed supplies has been the sharp drop in feeder price pigs. Liberal feeding of concentrates is necessary in finishing pigs to 180 or 220 pounds for market. Many early spring pigs are now approaching market weights and will be sold late in August, September and early October. With limited feed supplies, the early marketing, Moxley concludes, is necessary to make the most economical use of farm feeds and to leave some food on farms to finish the pigs farrowed after the early spring pigs.

Spain Uses Mahogany First
The first known European use of mahogany was for the chanting desk, choir stalls, doors and for cases, shelves and desks in the great library of the Escorial, begun by Phillip II of Spain in 1563 and completed in 1584. Its earliest known use in England was in Nottingham castle, built in 1680.

A barometer predicts changes in the weather. A barograph is a self-registering barometer.

Home Dry Cleaning
A match, lighted cigarette, forgotten pilot light of the stove, or a spark generated by rubbing a cloth, could cause an explosion and fire in home dry cleaning. The National Safety Council reports

that one in every six accidental deaths in America is caused by burns, explosions, and fires. Last year over 6000 people died from these causes, which was an increase of ten per cent over 1941.

Poisoning by toxic fumes is another danger in home dry cleaning. The best advice is not to do any home dry cleaning. However, if you insist, the following should be carefully heeded: Use a nonflammable fluid. Non-explosive products can still be inflammable. Do the cleaning outside

the house where the wind will carry the vapors away. Also, dry the garments outside. Keep the children and pets away. Be safe! Pay careful attention to these instructions.

No Blood Vessels
The lens and the vitreous humor of the eye do not contain blood vessels, which would interfere with the light rays. The refracting parts of the eye are nourished by transparent lymph circulating through them.

If They Can Do It, We Can!

Whenever the going here at home seems too tough, we think of the front-line railroaders... the men who keep supplies moving up to the fighters in the battle zones. Bombs rip the tracks from under their wheels. Enemy planes machine-gun them from cab to caboose. Yet somehow, by sheer guts and fighting heart, they get the Army supply trains through. Some of them worked with us on the Central, before they traded their overalls for uniforms. And a lot more of us would like to be over there with them.

But we know that we've got our railroading job to do too... behind the lines. We can't hear the big guns blasting back here. But we can see thousands of freight trains thundering across the country day and night... packed to the couplings with fighting equipment... carrying double the loads they carried before... racing against time.

We can't go into battle with the two million soldiers we help transport each month. But we can back them up. We can keep guns and shells, tanks and jeeps,

planes and bombs pouring in a mighty torrent over America's rails... from thousands of roaring warplants to thousands of waiting ships... to make sure that these fighting men have more than enough to bury Axis aggression beneath an overwhelming weight of armor and firepower!

And we can't ride with those fighting railroaders in the cabs of their Army engines. But we can promise them that no job will be too big, no working hours too long, no sacrifice too great... if what we do will shorten the war as much as a single day.

For they are more than holding up their end of the greatest supply line on earth. And if they can do it over there, we can keep on doing it here!

fendants.

At a session of said Court, held at
the Court House in the City of Ann
Arbor, in said County, on the 12th
day of July, A. D. 1948.

Present: Hon. George W. Sample,
Circuit Judge.

It appearing to the Court from the
allegations contained in the Bill of
Complaint filed in this cause and from
the affidavit annexed thereto that the
above-named defendants and their un-
known heirs, devisees, legatees and
assigns, are necessary and proper
parties to said cause, and that the
said plaintiffs do not know and have
been unable, after diligent search and
inquiry, to ascertain the places of

to be served on the attorney for the
plaintiffs within fifteen days after
service on them of a copy of the Bill
of Complaint and Notice of this order,
and that in default thereof said Bill
of Complaint be taken as confessed
by each and all of said defendants,
and also that within forty days of this
order the plaintiffs cause a copy of
this order to be published in the Che-
lsea Standard, a newspaper printed,
published and circulated in said County
of Washtenaw, and that said publi-
cation be continued once each week
for six weeks in succession, or that
the plaintiffs cause a copy of this or-
der to be personally served on the said
defendants and each of them at least
twenty days before the time pre-
scribed for their appearance, or cause
this order to be otherwise served as
provided by law.

HOUSEHOLD MEMOS... by Lynn Chambers

Barbecued Beef on Buns Tastes Good (See Recipe Below)

Fun Outdoors

Your family will like eating out-
doors for nothing seems so good as
beef barbecues or hamburgers
served in the open when appetites
are their sharpest, or coffee made
on a make-shift stove from a couple
of large bricks maneuvered to hold
the old granite coffee pot in place.

Food is good and wholesome, and
there's plenty of it whether you cook
it at home and wrap it up to take
with you to the spot of your
choice, or if you gather twigs and
cook to order. Make use of the
back yard for your barbecue, or take to the woods
or lake, even if you have to use the
bicycle. The change from eating on
the dining room table will be a wel-
come change and will do wonders
toward perk up summer appetites.

Make outdoor eating as convenient
as dining at home. Be sure to include
such things as salt and pepper, nap-
kins, plenty of cups, plates and sil-
verware in your basket to make the
family comfortable.

A spicy sauce with beef or veal
makes up a delicious barbecue. The
pound and a quarter of meat is
enough for 12 buns—just in case
you're interested in stretching those
precious red points:

"Barbecued Beef on Buns."

1 1/2 pounds beef or veal

1 cup thinly sliced onions

1 clove garlic, chopped (optional)

1 tablespoon Worcestershire sauce

1/2 cup catsup

1 1/2 teaspoons salt

1/2 teaspoon pepper

Cut meat in 1-inch cubes and
brown in hot fat. Add 1 cup water
and simmer 1 1/2 hours until tender.
Brown onions and garlic in hot fat
and add to cooked meat with remain-
der of ingredients. Make on out-
door stove or wrap carefully in con-
tainer with plenty of towels to keep
warm, and take to barbecue. To
serve, spoon on to warmed buns.

Hamburgers are still a great fa-
vorite for outdoor eating, particu-
larly now since hamburger still
has fairly low point value. This
recipe makes tasty and tender,
well seasoned hamburgers:

Prize Hamburgers
(Makes 24 hamburgers)

4 pounds hamburger

1/2 cup chili sauce

1 teaspoon Worcestershire sauce

1 1/2 tablespoons salt

1 teaspoon onion salt

1/2 teaspoon celery salt

24 buns, toasted and buttered

Mix hamburger well with sauce
and seasonings. Form into 24 pat-

terns.

Bomb-Blasted Ruhr Paralyzed

Travelers Describe Ravage Of Hearts of German Industrial Centers.

STOCKHOLM.—Railway traffic
through the industrial metropolis of
Dortmund was paralyzed for at least
three days after the last great RAF
raid, according to persons who have
traveled through bomb-blasted west-
ern Germany.

Movement through Dortmund's
main station was impossible and
traffic had to be rerouted around the
city, causing a bottleneck in the
transportation of war freight and
passengers from the Ruhr eastward
to points such as Berlin and Ham-
burg. Police closed the area and
officials told travelers that an RAF
blockbuster dud was lying in the
station, but English reconnaissance
pictures since show the station is
badly damaged.

If the Nazi claims are correct,
then the blockbuster obviously ex-
ploded later.

Neutral Swedish and other sources
over a period of days drew the fol-
lowing picture of morale and dam-
age by air raids in the front line of
the Reich:

Ravage Industrial Centers.

Hearts of most of the great indus-
trial centers in western Germany
such as Cologne, Essen, Düssel-
dorf, Duisburg and Dortmund, have
been torn out by explosive fires leav-
ing either an expanse of twisted
wreckage and mountains of debris
or the tottering facades of gutted
buildings.

A description of western German
cities by the Nazi newspaper Voelk-
ischer Beobachter recently only be-
came to tell the story. It said: "It
isn't single houses any longer which
are being destroyed but entire dis-
tricts are burned out and laid waste.
There are business streets which
must be closed off because on both
sides only smoke-blackened facades
stand and threaten to collapse.
There are squares surrounded by
ruins and without a single distin-
guishing feature, neighborhoods in
which one hardly meets a soul be-
cause the houses are empty, gutted,
battered or destroyed."

Outlying residential districts are
much less damaged than the cen-
tered towns, where the extent of
the damage is really breathtaking.

Yet this does not mean that life is
stagnated. One explanation is the
manner in which the Germans tackle
the cleanup job, restoring a reser-
vance of order as rapidly as pos-
sible.

Foreigners Put to Work.

Fire-fighting apparatus stands
ready day and night near military
objectives. As fires rage and threat-
en to grow out of control as in
Dortmund which undoubtedly is typi-
cal—air raid wardens dash from
shelter to shelter ordering all males,
including foreigners, to help battle
the flames.

Like the British, the Germans
have built emergency reservoirs for
pumping because water service is
frequently interrupted by a heavy
raid. Dortmunders were surprised
that the RAF failed to come after
breaching German dams to the
south.

"For three days Dortmund and
the entire surrounding area were
without water," one source ex-
plained.

Sven Malmberg, Swedish violinist
who was in Dortmund on tour dur-
ing the heavy raids of May 4-5 and
May 23-24, told the Stockholm news-
paper Tidningen that the scenes in
Dortmund were almost impossible
to describe.

"I will never forget it and I will
never return to western Germany
as long as the war lasts," he said.

Banana Is an Event

Life of Boy in Scotland
EDINBURGH.—It was an event in
the life of three-year-old John John-

"What is that for, ma?" he asked.
She explained, John took a bite and
was ecstatic. When the banana was
eaten he called for more of a fruit
rarely seen in Britain these days,
but there wasn't any more.

John had been presented the
banana by Mrs. C. Glenwright, a
neighbor, whose husband, serving in
the navy, had sent a few home.

Announcements

Attention, lady bowlers—All girls interested in league bowling please be present at a meeting to be held Aug. 30, 8:00 o'clock, at the Sylvan Hotel. This meeting is important. We will decide night of bowling, how many teams will bowl, and also will make our rules and regulations. If you cannot be present, please leave your name at the Sylvan Hotel.

The Odd Fellows will hold their first meeting of the season on Wednesday evening, Sept. 1 at 8 o'clock. All members please attend. Important.

The Loyalty chapter of the Congregational church will hold a pot-luck supper at the home of Mr. and Mrs. M. L. Burkhardt on US-12 at 6:30 o'clock this Thursday, Aug. 26. Bring a dish to pass, sandwiches, and your own table service. Everyone is invited to attend.

British Rations

British weekly rations per person allow six ounces of edible fat of which not over two ounces can be butter; two ounces of cooking fat; four ounces of cheese. Meat is rationed on a different basis—only one shilling and twopenny worth may be bought per week, and though it depends on the cut, an average ration would be one pound. In addition, Britons may have four ounces of bacon.

Low Temperatures

Meats and other high protein foods will taste better and yield more food values when cooked at low temperatures. High cooking temperatures cause greater shrinkage and toughen the meat. Tender cuts can be broiled in an uncovered pan with no water, but tougher cuts should be cooked in a covered pan with a little liquid.

Taunt Nazis by
Secret RadioDutch Patriots' Underground
Station Operates in Spite
Of Gestapo.

NEW YORK.—The secret Dutch radio station was on the air. A Dutch Nazi had been killed by patriots in Utrecht, and the broadcaster was brazenly giving details of the slaying.

Three weeks later the Gestapo still was searching for the underground station. It came on the air again, taunted the Nazis by describing a visit to Gestapo headquarters in Amsterdam with a full description of the building's interior even to the pictures on the walls and the dirt on the floors.

The Gestapo still hunted in vain and Dutch patriots still listened to their radio.

This one incident in the Nazis vs. Allies radio war is recalled by the Netherlands information bureau here since a report from London that Nazi authorities in Holland had ordered the confiscation of an estimated 1,000,000 radio sets in an attempt to keep the people from hearing and heeding Allied invasion signals.

Listen Only to Free Radio.
The order was interpreted in London as an admission by the Nazis that the Dutch listened only to free stations—the United States, British and other shortwave broadcasts and those of the Netherlands government in London.

The Netherlands government frequently has broadcast instructions to Dutch civil servants and the population over Radio Orange from London. During the recent crisis after the German decree for the rearmament of all former members of the Netherlands armed forces as prisoners of war, the Netherlands government advised the ex-soldiers not to comply, and asked the people to aid them in avoiding arrest.

The Nazis themselves have shown on numerous occasions how fruitless were their efforts to woo the Dutch from their broadcasts.

On July 16, 1941, after a year of Nazi rule, the head of the central Nazi office for public welfare, in Amsterdam, declared "many Dutchmen look unhealthy" and ascribed this appearance to "unhygienic living conditions, including the fact that they stay up late at night listening to the forbidden radio."

Admit Children Listen.
The newspaper Volk en Vaderland, Dutch Nazi party organ, said last fall, "at home the children listen to the British radio while religious teachers tell them Nazism is a weapon of Satan."

Tens of thousands of Dutch listeners, the paper said, were being hypnotized by the voice that comes across the North sea.

The Dutch Nazi daily, Nationale Dagblad, reported last fall that an elementary school inspector visited the highest class of a denominational school in Heerlen, and found a "series of remarkable sentences written in the pupils' exercise books. These, he concluded, were apparently dictated by the teacher and resulted from listening to Allied broadcasts."

The Russians twice hit a German battleship, read one of the "Things in Germany grow worse. Daily 800 men are killed," said another.

The Nazis have tried elaborate ruses to discredit the underground broadcasting in the Netherlands but have met with little success.

Old Rent Law Is Invoked

By Attorney in Arizona
PHOENIX, ARIZ.—Arizona has discovered in musty statute books a law providing penalties of \$100 to \$500, or three months in jail, for discriminating against prospective tenants who have children.

County Attorney Harold R. Scoville filed a justice court complaint under the rediscovered act, charging a Phoenix landlord with refusal to rent an apartment to a war worker's wife.

Scoville said she told him the family of five has been paying \$120 a month for a one-room cabin, because they could rent nothing better.

Britain Takes Ban Off
Ring of Church Bells

LONDON.—Britain's church bells, reserved as an invasion signal during the early war years, may now be rung at any time, Herbert Morrison, home security minister, informed the house of commons. The ban was partly lifted April 20, to permit the bells to ring on Sundays and religious holidays, but now, Morrison said, they can be rung "for any purpose at any time provided their sound is not liable to be mistaken for a signal in connection with air raids or a gas attack."

Oregon Farmer Finds One
Way He Can Double Up

CARLTON, ORE.—John Kirsch, farmer, has solved the manpower shortage.

He had two tractors and only himself to run them.

He set the controls of one and started it, driverless across the field. Then he jumped aboard the other and followed. Before the first one reached the fence he ran it down and turned it around.

And so on—for 300 acres.

First Use of Mahogany
There exists today preserved in the cathedral at Ciudad Trujillo, formerly Santo Domingo, a rough hewn mahogany cross inscribed: "This is the first sign planted in the center of this field to mark the beginning of this magnificent temple in the year 1514." That inscription is our earliest record of the use of mahogany.
