Farmers Must File Tax Statements By Dec. 15

Farmers who have sufficient income to require filing a declaration of estimated 1943 income and Victory tax are required to file and make a payment on or before December 15, unless they complied with this requirement on the September 15 date that applied to most other persons, explains Robert E. Hannegan, Commissioner of Internal Revenue. Farmers and others making their first report this time will receive no declaration forms but must ask for them if they do not still have the forms mailed them in August.

Because of the difficulty farmers have in estimating their tax, they have been given until December 15 to file their declarations, whereas others were required to file September 15. Farmers are also given greater leeway in estimating and are not subject to penalty unless they underestimate their tax by more than one-third.

Those persons, including farmers, who must file on or before December 15 are:

1. Persons who did file on or before September 15 but who underestimated their tax by more than 20 per cent (more than 33-1-3 per cent in the case of farmers) and who should file amended declarations to avoid penalties.

2. Persons who did not file in September because their estimated income at that time was insufficient to require filing, but now meet with any one of the following requirements. These requirements also determine which farmers have to file income declarations:

a. Anyone who expects to have during 1943 more than \$100 gross income from a source outside of wages which are subject to withholding and who also expects sufficient gross income to require filing an income tax return (\$500 for a single person, \$1,200 for a married couple, or \$624 for an individual married person).

b. Any single person expecting wages of more than \$2,700 subject to withholding during the year.

c. Any married person or any married couple expecting individually or together more than \$3,500 from wages subject to withholding during this year.

d. Any person who was required to file an income tax return for 1942 and who expects his wages in 1943 to be less than in 1942.

Persons who have questions should address them to their local Collector of Internal Revenue. Collectors' offices again will provide advice and technical assistance to taxpayers who request it. Local Collectors will send bills to taxpayers who filed declarations in September and who have an installment to pay December 15.

Table Knife Shortage Is Boys' Town Problem

Fr. E. J. Flanagan of Boys' Town, Noblesville, writes that wartime shortages have created a serious problem in the Boys' Town dining hall.

The dining rooms are lacking several hundred table knives, lost through normal wear and tear to which such items are subjected. No knives have been manufactured for civilian use for several years, and repeated inquiries to the normal sources of supply in Omaha, Chicago and New York have been to no avail.

Friends of Boys' Town who happen to have a table knife or two to spare would help solve a perplexing problem if they will send these knives to Father Flanagan.

The children of the seventh grade of the public school have agreed to collect and ship the knives collected locally. Will anyone who has a knife or two to contribute please send them to the seventh grade or to some child in the seventh grade? If this cannot be done, please telephone the school so that some child may be sent to collect them.

FALLS FROM LADDER

While employed at the plant of the Penitentiary Furnace and Foundry Co., Bert A. White fell from the top of an eight-foot ladder, Saturday forenoon, striking on his head. Salvage Committee To Collect Tin Cans and Paper Dec. 15th

Chelsea will participate in a county-wide drive this month for the collection of tin cans, according to an announcement by Paul C. Maroney, chairman of the local salvage committee.

Maroney states that a car is to be loaded with tin cans in Ann Arbor on Thursday, December 16, so the Chelsea collection will be held on December 15 so the cans can be taken to Ann Arbor on the morning of the 16th.

In order to avoid any unnecessary inconvenience to residents of the village, the salvage committee will furnish trucks and men to collect the cans if they are placed at the curb. All cans must be washed clean, all paper removed, and flattened. Rusty cans are of no value and should not be included in the collection. The cans must be placed in containers so they can be easily handled.

If old newspapers and magazines are securely bundled and placed at the curb they will be included in the pick-up, according to Maroney.

Tin and paper are needed in the war effort, so get yours ready and have them at the curb on Wednesday morning, December 15.

Eighth Grade Sponsors Dec. 7th Victory Drive

By Opal Odell and Dorothy Grob

On December 7th the eighth grade is having a stamp booth in the hall of the Chelsea high school to commemorate the bombing of Pearl Harbor on December 7, 1941. It is hoped that every child will buy war stamps on that day.

Last year, when we were in the seventh grade, we took in \$502.25 at the booth. We hope to do as well this year, but the senior high is having a bond auction and we won't get so much help from them.

We will give a tag to each person who buys fifty cents worth of stamps and a certificate to the grade that purchases the most.

We also received a number of promises from the people of Chelsea for the purchase of bonds. We hope to have your cooperation this time, too.

The following committees have been chosen to carry our drive to a successful finish:

Tags—Junior Niehaus and Mary Paul.
Certificate—Junior Niehaus.

Stamp Booth—Donald Baldwin, Richard Carlson, Bud Freysinger.
Posters—Clare Kni "bocker".
Canvassers—Ruth Fox, Ielen Hochrein, Opal Odell and Patricia Keeny.

Christmas Seal Sale Is Sponsored By Kiwanis

The opening date for the 37th tuberculosis Christmas Seal sale in Chelsea was November 26, with the Kiwanis club as sponsor.

More than a billion little stickers, worth a penny each, are being distributed over the country. Of this number Michigan's share is 40,000,000 seals. The total income from the tuberculosis Christmas Seal sale in Michigan last year was nearly \$369,000.

War does not change the fundamentals of tuberculosis control. They always are: find the sick, treat the patient, restore his earning power, prevent the spread of disease and keep the family from falling to pieces.

The cost of tuberculosis among veterans of World War I has passed the billion dollar mark. To forestall similar expenses after this war, the armed forces have made preparations to keep tuberculosis out of the services. Orders from Uncle Sam are to give every man in the service a chest x-ray.

Rejections for tuberculosis are about one out of every 100 thus examined. This has reduced the tuberculosis problem in the armed forces, but it has increased the civilian problem.

Help tuberculosis associations fight for you on the home front. Do support the Annual Christmas Seal Sale!

Mrs. B. M. Burbank of Detroit, daughter of Fred Gilbert, was instantly killed in an automobile wreck near Ypsilanti Sunday night. Mrs. Burbank had been in Chelsea visiting her sisters, Mrs. F. C. Mensing and Mrs. Fred Gentner, and her brother, Howard Gilbert. While driving home the driver of the car became blinded by the lights of an approaching car and when he applied his brakes the machine skidded on the slippery road and overturned in the ditch. When Mrs. Burbank was removed from the wreck it was found that she had been instantly killed. Rev. P. W. Dierberger officiated, and interment was in Detroit.

Word was received of the sudden death of George A. Miller of Chicago. Mr. Miller was born in Chelsea on March 31, 1864 and spent the early part of his life in Lyndon township. FDA Purchases Food From State Producers

The Food Distribution Administration has purchased 534,605 one-hundred pound bags of dried pea beans from Michigan producers during the 9-month period from January 1 through September 30, 1943, according to a report made by Angus C. Doane, Michigan State Supervisor of the Food Distribution Administration. The purchases were made for shipment from 118 marketing points in the state.

Pork products led the list of meats purchased during the period with 18,065,992 pounds. Beef purchases were limited to 286,900 pounds and lamb-and-mutton 75,000 pounds, according to Mr. Doane's report.

Dairy products acquired by the agency in the state during the 9-month period ended September 30 totaled 31,580,472 pounds, including 450,542 cases of evaporated and condensed milk, and 9,206,000 pounds of dried skim milk. Dried egg purchases were 5,678,237 pounds, equivalent to more than 17 million dozen shell eggs.

Fats and oils purchases were 15,376,600 pounds, of which 13,566,600 pounds represented lard and 1,810,000 pounds, oleomargarine. No butter purchases were made in Michigan, Doane reported.

Other large acquisitions by the federal agency during the 9-month period included dehydrated potatoes, 500,000 pounds, and assorted jams, 500,000 pounds.

The FDA also made large purchases of Michigan farm products in terms of

naul markets in neighboring states. Doane pointed out. "Michigan farmers and processors are entitled to a lot of credit in the victories our Allies are now winning in Europe, because the foods purchased by the Food Distribution Administration have supplied an important part of the rations for the Russian army and our other Allies," Doane stated.

Help him get a line to home

ABOUT the only time he can get to the telephone is a few short hours in the evening. That's when thousands of other boys in the camps want to use long distance, too.

Any time you are not on the lines, there's a better chance for a soldier's call to get through.

So unless it's urgent, we hope you won't be using long distance from 7 to 10 o'clock at night. Save those hours for the service men.

THE NAVY needs it more

The reason you are asked by the Government to make your present gas range and other gas appliances do for the duration, is the greater need for metal and manufacturing facilities by the armed forces.

If you had expected to buy a new gas range this year, invest the money instead in War Bonds which can be used later to purchase the latest advanced model of the Certified Performance Gas Range.

Meanwhile, your present gas range will continue to give you satisfactory service if you clean it regularly and keep it in good condition.

Wipe the enamel with a damp cloth while still warm to keep it spotless and new-looking. If burners become clogged, use a stiff brush or insert a wire gently in the openings. Do not slam the oven door or drawers.

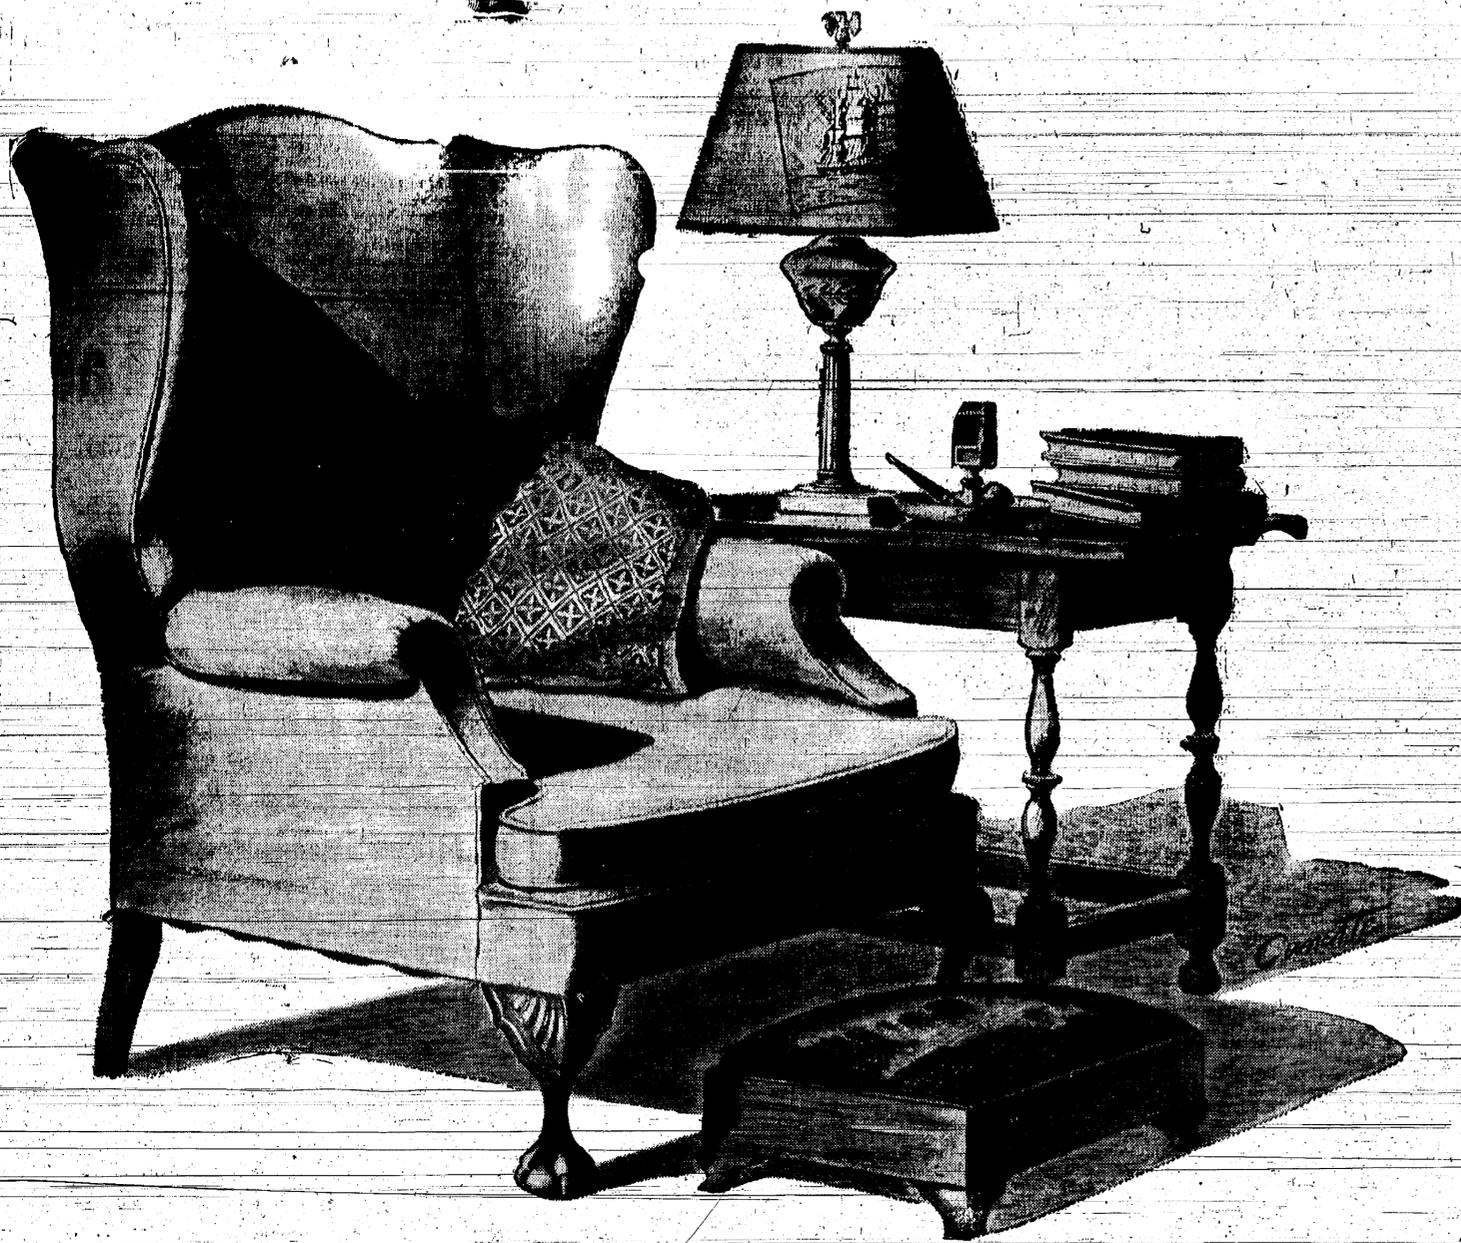

A booklet has been prepared on the care and use of gas appliances. You are welcome to a copy. It is to our mutual interest to see that your gas appliances work properly and give satisfaction.

What are you doing about the empty chair?

THIS YEAR, on Christmas, almost everyone is thinking of an empty chair.

Perhaps the one in your house is empty for the first time. Or perhaps this is the second Christmas. Perhaps it will go on being empty always.

It will not be a happy Christmas for many. But it should be a Christmas of hope—hope that you can make stronger.

You know that even though the tide has turned now, and we've begun to win this war—our soldiers cannot come home until it is won. And you know

the sooner it is won—the more soldiers will come home.

What are you doing about those empty chairs on Christmas?

There is something you can do—that everyone in America can do this year.

You can buy War Bonds for Christmas presents—War Bonds for every empty chair in your house—War Bonds for every person who hopes those chairs will not remain empty too long.

This should be a War Bond Christmas. Isn't that the most important kind of a Christmas for you?

James Moran
James Moran, nearly 88 years old, died Monday at his home on Adams street.

The son of James and Susan Cavanaugh Moran, he was born Dec. 13, 1855 in Lyndon township, where he resided until moving to Chelsea in 1938. He is survived by several nephews and nieces.

Funeral services will be held at 10 o'clock this morning at St. Mary's church, with Rev. Lee Laige officiating. Burial will be in the Catholic cemetery in Lyndon township.

Kenneth R. Piatt

Kenneth R. Piatt, 59 years old, died early Thursday morning at his home in Chelsea.

He was born Feb. 8, 1884 in Indiana and had resided in Chelsea for about 20 years. On July 12, 1922 he married Harriet Stofor and he is survived by the widow; five daughters, Betty Ruth, Mary Jane, Shirley, Minnie and Phyllis; and two sons, K. R. and Jerry, all of Chelsea.

Funeral services were held at 2:30 Sunday afternoon at the Staffan funeral home, with Rev. Bert Ede officiating. Burial was in Oak Grove cemetery.

Rev. James E. Jacklin

Rev. James E. Jacklin, oldest Methodist minister in Michigan, and one of the organizers of the Methodist Old People's Home here, died Wednesday, Nov. 24, in a Detroit hospital, of pneumonia. He was 97 years old.

A native of Detroit, Dr. Jacklin was educated at Albion College and the University School of Theology, Boston. He began his ministerial career in 1875 at Saginaw and later held pastorates in Northville, Monroe, Bay City and Flint. For several years he served as executive secretary of the Methodist Home. He retired from active service in 1925.

Funeral services were held at 2 p. m. Friday in the Cass Community Methodist church, with Rev. Sidney D. Eves, Detroit District Methodist superintendent, officiating.

SURPRISED ON ANNIVERSARY

Mr. and Mrs. Raymond Culhane were pleasantly surprised on their thirty-ninth wedding anniversary on Thanksgiving eve. The event was attended by seventeen, including six of their eight daughters and their families.

The table, laid with a lace cloth, was centered with a bouquet of chrysanthemums and a large wedding cake.

Out of town guests were Mr. and Mrs. Kenneth Timal and son of Ann Arbor, Cadet Ralph Culhane of Barbour Hall, Kalamazoo, and Miss Patricia Culhane of St. Joseph's Academy in Adrian.

Many lovely gifts were presented the honored guests.

Mr. and Mrs. Culhane were united in marriage on Thanksgiving morning, Nov. 24, 1904, in Piquette, by the Rev. Father Commerford.

SAWDUST PILE BURNS

MSC Perfects Process For Drying of Foods

A simple phenomenon that the evaporation of water lowers the temperature has long been known, but it took the inquiring mind of a Michigan State College scientist to apply the knowledge to a simplification and standardization of food dehydration.

In commercial practice, three methods are in use to determine when a food has been dried down to a desired condition. One is by appearance and by feel. Another is by taking a sample and determining its moisture content. The third is by dehydrating the material for a pre-determined length of time. Commercially, and scientifically these tests are not considered satisfactory nor accurate.

Now according to the work of Dr. George Bouyoucos of the college's agricultural experiment station, the exact moisture content of foods can be indicated at any stage of the drying process. The reading can be obtained while the food is being processed.

Two temperatures prevail, Dr. Bouyoucos points out, when the fresh material is being dehydrated—one temperature in the air chamber and the other in the material itself. As the material dries, temperatures in the chamber and in the material come closer together, giving a guide to the degree of dryness.

To permit exact reading, special thermometers were devised. One is bare and hangs in the air chamber. The bulb of the second thermometer is covered with a definite amount of the dehydrating material in a small bag of cheesecloth. The thermometers are electrical resistance types, using a liquid instead of a metal as a resistor, permitting far greater sensitivity than the metallic type.

With the aid of H. A. Cardinell of the horticultural section of the experiment station, Dr. Bouyoucos dried cabbage, carrots, peas, green beans, potatoes, spinach, bananas, cherries, apples, and peaches, and proved the efficiency of the process with each. As a result the college has applied for a patent on the process and on the special thermometers which Dr. Bouyoucos devised.

MENINGITIS THREATENING

Foreseeing a major epidemic of meningitis in Michigan next year, the state health department has announced that it is distributing sulfonamides to health officers and physicians in anticipation of increased need.

There has been a gradual increase in meningitis over the last year. In normal years, the expectancy of meningitis during the hot months is zero. In recent months, however, meningitis has remained at epidemic level during a period when no cases could be expected on the basis of seven-year averages.

Meningitis is referred to as a "crowd disease" and the present increase is attributable to crowding in public conveyances and buildings, to increased travel from one section of the state to another and to mass migration to Michigan industrial areas from other states.

New sulfa compounds are aiding in the reduction of deaths from meningitis. Since there is no preventive of meningitis, such as vaccination against smallpox, reliance must be placed upon good personal hygiene, good medical care and avoidance of crowds so far as possible.

War Conditions Reduce Sale of Fishing Licenses

Having estimated the probable effect of travel difficulties, long working hours and other possible wartime problems on fishing in the coming year, the state conservation department has cut down its printing of 1944 fishing licenses by 75,000. A total of 1,025,000 has been ordered. This is approximately 25 per cent less than the number of licenses sold during the last peacetime season.

Fishing license sales for the current year show the effect of the first summer of gas rationing and other war restrictions. According to the latest count, 521,556 resident and approximately 180,000 non-resident 1943 licenses have been sold. This is 10 per cent less resident licenses than were sold in 1942 and the decrease in sale of non-resident licenses was 44 per cent for temporary, 24 per cent for annual and 88 per cent for non-resident wife.

The 1944 licenses will be required for all persons fishing on inland waters after January 1. The 700,000 \$1-resident licenses are 50,000 fewer than were prepared last year and the 125,000 non-resident temporary (10-day) \$1 licenses are 25,000 less than ordered for 1943. The number of non-resident annual licenses, 100,000 at \$2 and non-resident wife 1944 licenses, 100,000 at 50c are the same amount as were printed for 1943.

Should We Accept Subsidy Checks?

The Farmers' Guild, along with other farm organizations at their State and National conventions, went on record as opposed to subsidies. Can these farm organization leaders accomplish any purpose, with the subsidy going in one direction and the membership going in the opposite direction, namely by taking the subsidy checks? Do you want the Government to control your farms? Do we need two markets for our milk—the creamery and the subsidy market? Would these employees used at the subsidy market do the farmer more good in the dairy barn, or in the subsidy office? Will these non-essential subsidy employees create more or cheaper milk for the consumer? Do we want to erect buildings for housing these non-essential records, and employ people to keep them? It has been reported that an official booklet has been prepared by Arthur B. Thatcher, Chief of the Office of Plans and Operation of the United States Department of Agriculture, stating that 3,074 such buildings are to be erected, one per county.

These buildings are to have from 11,250 to 18,000 square feet of floor space for the housing of the AAA, FSA, FCS, HD agents and others of the alphabet that the public has tolerated. Are we not creating what our forefathers died to get rid of through the Revolutionary War? Does not our 7th and 8th grade history tell us: "He created among us a multitude of new offices, and swarmed us with officers, and harassed our people, and ate out their substance." Sylvan and Lima Farmers' Guild 254. SO. SYLVAN HOME EC CLUB The South Sylvan Home Economics Club met at the home of Mrs. Reuben Lesser on Tuesday afternoon, with about 20 members and guests attending. The club is doing extra war work and is planning to make lap robes and afghans to be given to the Red Cross. The afternoon was spent in cutting blocks and knitting squares, after which refreshments were served. Mrs. Arthur Grau and Mrs. Raymond Liebeck were assisting hostesses. "Choosing Today's Fabric" will be the lesson for the next meeting, which will be held at the home of Mrs. Wilbur Hatt on Thursday, December 9, at 2 p. m.

Lindbergh Flies High Over Chelsea In Tests

Charles A. Lindbergh furnished a lot of entertainment for local residents during the past week while making high-altitude tests in a P-47 Thunderbolt. Although it is presumed that his altitude may have exceeded any heretofore attained, Lindy's tests are said to be for the Ford Motor Co. and the U. S. Government and the details are a military secret. Although he was so high that his plane was invisible, the frozen vapor from the exhaust of the plane could be clearly seen as he circled above Chelsea. Some people became somewhat alarmed, believing it might be "the handwriting on the wall" and others say he did some fancy sky-writing with a farewell of "Lindy." P. L. OFFICE NEWS

Report cards for all grades were sent home with the students last night.

The girls of the Homemaking Department are sponsoring a style show December 8.

The school superintendents in the county are meeting tonight in Ann Arbor.

GOOD SPORTSMANSHIP

Good sportsmanship is shown by a person who can take the bad breaks of a game or in anything else he does as well as he can take the winning breaks. It also is shown by a person who can make the best of any situation without grumbling and can lead aid to friend or foe who is in need. Such a person is noticed and commended for this by many people, more of this than he is for his other characteristics.

In a game good sportsmanship is important to both spectators and player. The student body acting as spectators at a game must consider the reputation of their school before saying or doing anything. The player has to consider the reputation of the school for which he is playing as well as his own reputation. This has already been shown in athletic competition when the unsportsmanlike actions of the players reflected upon the school rather than themselves.

So, when attending games as spectators, think before you say or do a thing. And if you are a player do likewise.

STUDENT COUNCIL

The president opened the meeting. The secretary read the minutes of the last meeting and they were accepted as read.

A discussion about parties followed. The members of the council thought there were too many parties. No parties will be held until December 17.

Ray Knickerbocker brought up a discussion about dancing lessons. The standing committee will take care of it.

No committee reports were given because there was no time for them. Leota suggested having a clean-up day. A week's notice would be given to the teachers. A motion was made by Leota to have it the second week in December. It was seconded by Andy and all agreed. The date was set for December 10. The clean-up committee will make the plans. A dance will be held afterwards.

Andy reported that he had the key to Miss Betty's room. Miss Hammond reported that Mr. Johnson said the victrola was for the whole school-use and it should be available when it will do the most good. No group may consider it its own.

The meeting was adjourned.

SENIOR CLASS NEWS

The date of the Senior play, "My Mother-in-Law," has not yet been definitely set, but it will be on either one of the last two week-ends of January.

CLASS NEWS

The Freshman return party to the Sophomores was a great success last Friday, Nov. 19. The entertainment which was very good was under the direction of Harry Wellhoff.

The Sophomores enjoyed the Freshman return party very much. They wish to thank the Freshmen for a pleasant evening.

The Juniors are working hard for their Christmas party which they plan to have in December.

In Hitler's Europe the farmers are producing too, but their product goes to Nazi Germany to feed the soldiers who are shooting thousands of prisoners who object to this form of tyranny.

Although he likes music very much, in the future he will be serving Uncle Sam.

Bob weighs 135 pounds and is 5 feet 11 inches tall. He likes lemon-meringue best of all; he says red is his favorite color, and chemistry his favorite subject.

When Bob has nothing else to do he likes to play St. Louis Blues on the piano.

Mary Jane Eder, that girl of the Senior class with those dark brown eyes and hair, was born on August 22, 1926, in Chelsea. She is 5 feet 3 inches tall. She can think of nothing she likes to eat better than fried chicken. When asked what her favorite subject was she promptly replied, "Latin," and her favorite color is light blue.

She, too, likes to play the piano and her favorite selection is Sunrise Serenade. In the future Mary Jane hopes to become a nurse.

JOURNALISM

Did all of those people get hurt? No!!! It couldn't be. Don't get excited folks, it's only Miss McDonald's First Aid class. Every Tuesday and Thursday you will find this class trying to learn First Aid. They are working for their Red-Cross certificates. The Sophomores are now able to obtain the certificates since the age limit has been changed.

Some of the bandages do look a little—shall we say, ragged, but remember they're just learning. All kidding aside, the First Aid class is a very helpful and interesting class and I think everyone in it enjoys this class and gets a lot out of it. A knowledge of First Aid will do many girls a lot of good.

We'll let you know later whether the girls have a chance to try First Aid on any patient in school. I'm sorry, Miss McDonald, I mean victim.

G.A.A.

The girls are still working on splints in First Aid. An open book test was given Tuesday. Several of the girls will give demonstrations in artificial respiration and applying splints for both the boys and girls physical education classes.

WAR COUNCIL

The War Council plans to sponsor another bond auction on Dec. 7. Bonds and stamps make good Christmas presents, so don't forget to purchase them at the bond auction on Dec. 7. The box social will be held sometime in January.

When Mrs. Anderson, State Supervisor for Homemaking, visited our school she invited the girls to write a story for the magazine entitled "What We Are Doing in Chelsea." This is the second time Chelsea will have a story printed in the magazine.

The seventh grade closed up the Homemaking Department for vacation last week. They are working on Christmas cookies. They are modeling their aprons in the Style Show. Joyce Crawford is their commentator.

ABOUT MORONS

Who is the most popular guy? The bird on everyone's lips? It's the little Moron.

By the way, have you heard these? Didjo ever hear about the little Moron who—

- kept his shoes filled with bird seed to feed his pigeon too?
- swallowed some pennies so there would be some change in him?
- saluted the refrigerator because it was General Electric,
- drank eight cokes and burped 7-up.
- cut open his knee cap to see if there were any drinks in the joint?
- took along a bottle of milk to show when he heard they were having a serial?
- stood on the corner with a loaf of bread waiting for a traffic jam?
- blinded himself when he went on a blind date?

Jerusalem School News

The second term of school closed for the Jerusalem school, Wednesday, November 24. Those neither absent nor tardy during the term were Shirley, Raymond, Leona, Harold and Howard Moore; Joyce Eiseemann; Norman and Carl Koch; Arlene and Doris Haist, and Shirley Barth.

We bought \$13.60 worth of defense stamps this term.

The president of our Civic Health Club is Joyce Eiseemann, the secretary is Norman Koch. We have made some health posters showing correct posture. Miss Pearl Haist called at our school and left some information on health.

Most of us have read quite a few books. Several have enough for a certificate.

We enrolled in the Junior Red Cross.

The lower grades studied Indians and Pilgrims. The teacher read them several stories. Then we all helped them to make scenes in the sandbox for each. We all contributed to the Pilgrim scrapbook and the Indian scrapbook. We all drew many good free-hand pictures portraying life of both. We have enjoyed this study.

For more art work some of us made some patriotic posters and some cut work winter scenes. We made some flower vase holders.

Mr. Thayer visited our school on October 22.

We have a new room furnace in our school. It is very nice and keeps us comfortable.

We have learned several songs, the

lower and upper grades each learned a Thanksgiving song.

The lower grades have added pictures to their picture study book.

The seventh grade has added a lot of good Colonial pictures to their Colonial book in connection with their history.

Our beginner has finished his first book, "Off We Go," and has started "Jim and Judy."

We are now turning much of our attention to Christmas program and other Christmas preparations.
