Court of Honor Held By Scouts On Tuesday

The Copeland District Boy Scout Court of Honor was held at the public school on Tuesday evening. The Court of Honor was opened by saying the Scout oath. After progressive games were played, the Scout Executive, Walter MacPeck, had the Scouts fall into their respective patrols, which are the "Wolf," "Flaming Arrow" and "Flying Eagle." The patrols competed against each other to see which could make up the best questions on second class requirements.

Tenderfoot pins were awarded by Scoutmaster Edmund A. Kayser to Bob Barlow, David and Clare Knickerbocker and David Myers. A certificate for Second Class Scout was awarded to Junior Niehaus by Mr. MacPeck. Remarks were made by District Commissioner Albert Johnson, Scoutmaster Kayser, Rev. Skentelbury and District Chairman Paul Niehaus. A number of the parents were present, and also several of the Den Mothers and the Cubmaster, Mr. Knickerbocker. The Court of Honor was closed by singing "God Bless America," led by Mr. Niehaus.

Farmers Invited to Free Motion Picture Show

How to keep farm machinery in fighting trim is the keynote of the special free motion picture program sponsored by Chelsea Hardware Co., which will be shown on Tuesday, March 7, at 1 o'clock p.m. at Sylvan town hall.

"Every farmer, farm boy, or farm helper who works with tractors or other farm machinery, regardless of its make, is especially invited to attend this motion picture show," says Lewis Haselswerdt, of the Chelsea Hardware Co. "He is assured of getting much worth-while information on the care, repair, and servicing of farm equipment."

Featured on the program is "War-time Care of Your Tractor," a talking picture which covers every angle of tractor servicing and care," says Mr. Haselswerdt. "It has plenty of worth-while pointers for every farmer, no matter what make of tractor he owns."

Talking pictures on adjusting and servicing mowers, combines, and planters, plus a picture on hitching and belting of farm machines, are also on the program. An interesting newsreel showing action on the battlefronts of the world and on the production lines at home is included.

While this show is largely a man's show, women who are interested are cordially invited to attend, according to Mr. Haselswerdt.

TAKES SPECIALIZED TRAINING
Glen W. Haffey, son of Mr. and Mrs. Fred Haffey of Chelsea, is stationed at Indiana University, Bloomington, Indiana, where he is included in the army specialized training program. Army specialized trainees at Indiana University receive either basic or foreign area and language instruction. The basic course prepares for engineering and related services and the area and language training is designed to meet the army's need for specialists in a wide variety of fields.

Donald Bloom of Appleton, Wis. visited Mr. and Mrs. Henry C. Schneider over the week-end.

Paul W. Schneider, who enlisted in the United States Naval Reserves in September, 1942, will report for service on Monday at Plattsburg, New York.

The son-of-the-late Mr. and Mrs. Oscar D. Schneider, he was born in Chelsea on July 8, 1922. He graduated from Chelsea high school in 1940 and from Albion College in January, 1944, majoring in business administration.

New Quota Announced For Surgical Dressings

Our County Chairman of Surgical Dressings, Mrs. Patten, has notified the committee that our new material has arrived, and that Chelsea's quota of dressings will be 8600.4x4 dressings and 800.2x2 dressings for the month of March, making a total of 4400 dressings.

With this number of dressings to make, it means we must have all our trained workers put forth every effort to attend Monday night meetings, and as many workers as possible can turn out for the Wednesday afternoon meetings.

It has been through the faithful efforts of the women of our community that we have been able to meet our former quotas; we are depending on you to help meet this one with the same courage and pledge to ourselves that we will devote Monday night and Wednesday afternoon to surgical dressings.

The committee wishes to express thanks to Geo. Staffan for his cooperation in transporting the dressings to and from Ann Arbor. Had it not been for his help, we would have been without material several times.

It is through all our combined efforts that we will be able to accomplish the task placed before us. Until Victory comes we must continue to supply our boys with the much-needed dressings.

—Committee.

RED CROSS NOTES

January and February quota consisted of:

21 Hospital Shirts.

120 Kit Bags.

29 Lap Robes.

33 Hospital Pillows have been completed and a check for \$120.00 to fill bags has been sent to Ann Arbor Headquarters.

There is a great demand for 6x6 squares for afghans. Dig down deep in your scrap-basket and make a few squares. One block may be made of many colors. They are gay and very comfortable and are greatly appreciated by convalescent patients in the hospitals. When completed send to Knitting Chairman, Mrs. J. E. McKune, where they will be assembled. It requires 96 blocks for an afghan.

FATS COLLECTION SATURDAY
Girl Scouts will collect waste fats on Saturday, March 4. Please have fats ready for the girls.

Cub Scout Group Is Organized In Chelsea

At a meeting held last Wednesday night at the public school, the Cub Scouts were organized. There has been a real need for an organization of this kind in Chelsea for some years. Thanks to the sponsorship of the Young Mothers' club, the help of both Scoutmasters, Walter MacPeck and Edmund Kayser, Supt. A. C. Johnson, and the parents who gathered at the meeting and gave their support, this Cub group has been formed.

Maynard Knickerbocker has been elected Cubmaster and he is to be assisted by Ole Johnson. The Den Mothers who graciously offered both their time and their homes for the meetings are:

Den 1—Mrs. L. R. Heydlauff, Mrs.

N. Merkel.

Den 2—Mrs. M. Steinbach.

Den 3—Mrs. Ole Johnson.

Den 4—Mrs. Seelye.

Den 5—Mrs. E. J. Quirk, Mrs. B.

Crocker.

Den 6—Mrs. M. Knickerbocker.

Also assisting these Den Mothers are the Den Chiefs. These are boys chosen from the Boy Scout organization. They will give their service in helping to make good citizens of the younger boys. They are: Arthur Paul, Lyle Christiwell, George Slane, Clair Knickerbocker, Donald Baldwin, and Phillip Roy.

An organization which has the support of each child's parents is bound to be a success. The community is also asked to support the boys and girls in these group organizations, for in helping them, you are helping the community and our country.

The Cub Pack will meet on Monday, March 20. At this time a pot-luck supper will be held at the Chelsea public school gym at 8:30. Cub boys, Den Chiefs, and their families are cordially invited. Any boy between 9 and 11 years of age who is interested in this work is urged to attend and bring his parents.

Local Library Receives Grant From State Fund

The Chelsea Public Library received a check last week for \$86.34. Mrs. Jean L. Eaton, treasurer of the Library Board announced. This check is the first half of a grant from the State Aid to Public Libraries Fund for which the library has qualified this year.

These grants to our library are made possible through the appropriation by the Legislature of \$300,000 for the 1943-44 year. The 1944 special session has renewed this amount for the fiscal year 1944-45 which will provide much-needed funds to meet libraries' increased war-time costs.

This bonus is paid to the Chelsea library because the local tax support is being maintained. If the local tax support drops, the library is disqualified for this grant.

Once a grant is received, its use is entirely up to the library board which allows the projects to be designed to fit this community. Only capital expenditures are outlawed, Mrs. Eaton explained.

WEATHER GADGET LANDS HERE

An enclosed instrument which was sent up by balloon from the U. S. Weather Bureau at Joliet, Ill. on Saturday, was found by Julius Reule in his front yard Sunday morning. According to information printed on the instrument case, the balloon goes to a height of about 12 miles, when the balloon bursts and the instrument comes down slowly on a parachute. While in the air the instrument acts as a radio-broadcast of the temperature, pressure and moisture of the air through which it passes. Instructions and labels for the return of the instrument are attached, and Mr. Reule mailed the parcel on Monday. "Jule" said that finding of the instrument added about ten years to his age, as he was sure it was a time bomb, and called in neighbors before he could muster enough courage to investigate.

ENTERTAIN FARMERS' CLUB

Mr. and Mrs. Martin E. Miller entertained the Western Washtenaw Farmers' club at their home on Thursday evening, with 46 members enjoying a pot-luck supper at 7 o'clock. N. W. Laird was in charge of the business session, and a feature of the program was a pianologue by Rev. William Hainesworth of Dexter. Brief remarks were given by Rev. Everett Major, pastor of the Methodist church.

OBSERVE 30TH ANNIVERSARY

The 30th wedding anniversary of Mr. and Mrs. John M. Heeselschwerdt was the occasion of a family dinner held on Sunday at the home of Mr. and Mrs. Merle McVay. Covers were laid for Mr. and Mrs. Heeselschwerdt, Mr. and Mrs. David Mohrlock of Chelsea, and Mr. and Mrs. Waldo Ehms and daughter Ann of Kalamazoo.

By GENE ALLEMAN

To 40,000 Michigan men, veterans of World War II, the war is already over.

Post-war is here—today—for them. This fact was emphasized by Dr. Alexander Ruthven, president of the University of Michigan, at a conference with members of the educational committee of the state legislature which recently was in session at Lansing. Approximately 3,000 Michigan men are being discharged each month by the army and navy, he said. Seventy per cent of these being returned to civilian life because of physical and nervous disabilities; a surprisingly large percentage of the national total represents psychiatric casualties—inability of the human nervous system to absorb the shock of modern warfare.

These facts, little known by the public, present one of the serious growing problems of 1944: How to assist these valiant men to readjust themselves to a new world—new to them because of their new handicaps. The answer, in the eyes of education, is just this: adult education!

While the State of Michigan, from its very inception, has accepted the responsibility of free education for youth, the state has not ventured into the newer field of education for adults. Hence the decision of Gov. Harry F. Kelly to submit a state program of adult education to the state legislature is the breaking of precedence. The state would assume responsibility for adult education but only to the extent of financial support and overall supervision. Educational services themselves would be given by colleges and schools, for the most part, and hence under control of local communities and the state boards of education. Furthermore, since the program would be an innovation, it is the governor's belief that the 1944-45 cost to the state should be in keeping with the experiment as a long-range objective.

The idea of adults going to school is not new. Scan its history. The lyceum movement was born 100 years ago; the 1870's saw the birth of the free public library. The Philadelphia Centennial Exposition gave an educational impetus to museums. In the same decade the Chautauqua Institution was founded, and that brought the traveling chautauqua to rural communities everywhere prior to the day of automobiles, good highways and movies.

The university extension movement came in the late 1880's, modeled after the extramural activities of Cambridge and Oxford universities in England.

In 1914 Congress passed the Smith-Lever act establishing an extension service in the United States Department of Agriculture. Michigan State college has made this service in Michigan a national pattern; Michigan is the recognized leader.

Next comes the George-Deen act of Congress during the post-war economic depression of the 30's, and it was put to good use during the pre-Pearl Harbor days when national defense was mobilizing mechanical skills.

Is there a real need for adult education in Michigan?

Dr. Eugene B. Elliott, superintendent of public instruction, points out that the 1940 census disclosed these following facts which tell their own story: 300,000 citizens of Michigan received an education through the first three grades; 72,000 others the first grade. We have 200,000 illiterates.

Because we have not learned yet to live with each other, Michigan is spending a million dollars a year in Detroit alone to maintain state troops as insurance against race riots.

Leaders of labor unions concede privately the need of rudimentary economics for the rank-and-file membership which continues to pressure officials at the top for more and more wages without reckoning the ultimate effect on the cost of living—their own pocket books.

George H. Fern, director of the

state board of control for vocational education, recently announced a post-war plan to provide technical training for war veterans as well as for young people who do not go to college.

Fern's program calls for vocational rehabilitation for disabled residents through a federal-state relationship whereby instruction is given in local school districts and hence is the responsibility of local school districts—grass roots democracy itself.

It is Fern's suggestion that trained instructors be assigned to each school district for the purpose of vocational education. Dr. Elliott favors a broad program of adult education in which vocational training would be included and general instruction would be provided by teachers now on the staffs of local school districts. The state would reimburse the local schools for 75 per cent of the instructional cost, and Dr. Elliott believes that much of the remaining 25 per cent could be financed through educational fees paid by those who received benefits.

Here is the broad picture:

Approximately 500,000 men from Michigan will be in military service in World War II.

Of these perhaps one-tenth or less—Dr. Elliott estimates the number to be 30,000—will have the mental capacity to go to college for post-war training.

The Federal Communications Commission has assigned five Frequency Modulation wave-lengths for educational radio stations. Radio is a long-range possibility. In the meanwhile, Michigan State college's radio station, WKAR, is already providing daily service for adult education and is making application for "FM" broadcasting.

Assisting Michigan veterans to readjust themselves to civilian economy is a tremendous challenge. It is a post-war problem that is already here today!

THE OLD JUDGE SAYS...

"Somethin' special catch your eye in the paper, Judge?"

"Sure did, Chet... an article here telling about prohibition in India being written off by the Madras government as a dismal failure after a three-year trial. They found out that enforcement was ineffective and that there was a steady increase in bootlegging and other violations of the law which increased penalties failed to check."

"It all goes to prove what I've said time and time again, Chet... prohibition does not prohibit. It's been tried in this country 47 times in the last 33 years and discarded everywhere except in three states. Was found to be a failure and abandoned in Canada, Norway, Sweden, Finland and Russia, too."

"Same thing happens every time... as soon as legal liquor is voted out, bootleg liquor with its crime and corruption moves right in."

Without going to extremes there are various ways in which a household can conserve heat.

So great is the demand for Natural Gas in the production of war materials that the government is requesting every family to use it wisely in the home.

Heat may be saved by closing off unused rooms.

Remember also to turn down the thermostat when no one is to be at home.

At night place a rug before your bedroom door before opening the window, to prevent cold air seeping through the house.

Keep the fireplace damper closed when not in use.

Draw the window shades at night and keep them part way down during the day.

Key Points Of Farm Machinery Are Listed

Lists of the fatigue points on typical Michigan farm machines have been summarized as a service to farmers by agricultural engineers at Michigan State College. Machines ready to go when a job needs to be done can help solve many an individual farm labor problem, the college men point out.

On a plow, for instance, there are 14 inspection points that ought to be watched. Disc harrows have six, grain drills have 18, corn planters 10, potato planters 6, and manure spreaders 10.

Winter attention to a plow would take in the complete check list of the share, landside, frog, beam, moldboard, jointer, coulter, wheel bearings, axle collars, frame, lifting clutch, lifting springs, levers and all bolts.

On the disc harrow the critical points are the discs, levers, disc bearings, tongue or trucks, scrapers and the gang bolt. The spring-tooth harrow should be checked for teeth, tooth

clamps, tooth bars, tooth bar bearings, levers, quadrants and all bolts.

Grain drills should be kept clean when not in use, greased regularly. Check points include the hopper, agitator, feeding device, seed shaft, seed tubes, furrow openers, drag bars, scrapers, wheel bearings, frame, levers, wheels and the fertilizer and grass seed attachments.

Corn planters should be checked for bearings, hoppers, plates, feed shaft, clutch, valves, checking heads, variable drop mechanism, furrow openers and all bolts. Six points on a potato planter involve the hoppers, pawls and springs, wheels and bearings, clutch, sprockets and chains. The 10 points on a manure spreader include wheel bearings, drive pawls and springs, apron and apron drive, apron shaft bearings, beater shafts and bearings, drive chain, beater chain, feed pawls, feed ratchet and all bolts.

Inspection should lead to listing all needed repair parts.

NEWS BEHIND THE NEWS

By PAUL MALLON

Released by Western Newspaper Union.

PRESIDENT WILL RUN: WHO WILL RUN WITH HIM?

WASHINGTON.—Mr. Wallace, the V.P., divulged no secret when he said he thought Mr. Roosevelt intended running for the fourth term.

In truth, the President has been trotting a trial heat here the past few weeks. By his actions, Mr. Roosevelt has let all his associates know his intentions.

His conduct of the Democratic National committee meeting particularly informed all his party associates in and out of congress in unmistakable terms that he expects to have their ticket again. The reaction has been mixed.

To a considerable extent, his forwardness has lessened criticism of him and his policies by wayward Democratic congressmen. The Southern bloc has been pushed into the position of accepting the inevitable or openly breaking. Only one so far, Senator "Cotton Ed" Smith of South Carolina, has stuck openly to his critical guns.

Some still talk of running Senator Byrd as the opposition candidate in the South. Organizations working for his candidacy exist in several southern states.

But the great majority seems prepared to swallow silently the Roosevelt pill, and organize a real fight on the vice presidency. They are determined to prevent the nomination of Wallace or any North New Dealer man.

They have not, however, settled upon a man of their own. While Speaker Rayburn is most frequently mentioned in public, many would prefer a more outspoken southern opposition man like Byrd.

Who Mr. Roosevelt wants, no one knows. Mr. Wallace obviously is waiting nervously for an invitation. Some high Democratic gossip, however, suggests the President might even choose a Republican running mate (Willkie) in order to strengthen his candidacy.

Final choice, no doubt, will be made on the basis of what man will contribute most to the ticket politically.

Thus the trial heat has somewhat watered down the President's opposition within the party, but all the old coals still burn underneath. It has had little effect on the Republicans who are extremely confident they will win more than those states now having Republican governors (26).

POLITICS INFLUENCE ALL WASHINGTON ACTION

Politics have guided the final considerations on the soldier vote bill. Some of the administration senators are acting as if they thought a greater advantage might be gained by dragging out the fight over methods as long as possible, rather than accepting a compromise solution. They know Mr. Roosevelt has obtained more favorable publicity on this than on any other pending subject, and therefore do not want to hurry the final enactment.

Also Mr. Roosevelt's endorsement of the civilian draft bill (Austin-Wadsworth), which seemed mystifying to me at first in view of the satisfactory manpower situation, now can also be clearly recognized as a political move. The endorsement of such a stringent action (which congress will not take) will thus safely add to Mr. Roosevelt's popularity among the soldiers and sailors who already have been drafted for military duty.

In short, if there is any Washington news you do not understand these days, the law of averages will justify your interpretation of it as politics. No other motive for doing anything exists here in a campaign year.

OUR TAX PROBLEM

Praises for bravery are being heaped upon Mr. Willkie for daring to demand \$16,000,000,000 more taxes—but not by taxmakers. Mr. Willkie denounced the President for having failed to submit a program to raise half that amount, but he himself failed to mention a single additional way of raising the money.

The federal tax bill now is \$43,000,000,000, state and local \$11,000,000,000. The national income is running around \$185,000,000,000. Theoretically it is therefore possible for the government to take \$10,000,000,000 more, as the country now has two-thirds of what it earns left to live on.

But it would require something like a 40 per cent withholding tax, meaning that the man earning \$50 a week would get only \$30.

The Truman committee quietly called in James Landis, the President's Lend-Lease commissioner in the Near East, who stomped back to Washington unannounced, complaining the British were circumventing him at every Lend-Lease turn. None of the testimony will be made public, and Landis will not resign. Apparently, he got the action he wanted here. At least, he told the senators he would take back to Cairo an enlarged staff of experts who would enable him to meet better the shrewd British.

TOWN AND FARM IN WARTIME

To Review Farmer Deferments

Local Selective Service Boards have been ordered to review promptly deferments of agricultural workers because of the sharp curtailment of available manpower for the armed forces. Selective Service has announced. "It is not expected that local boards will defer or continue to defer a registrant as necessary to and regularly engaged in agriculture unless by his own personal and direct efforts he produces 16 or more war units each year." Selective Service asserted. About 1,700,000 men in agriculture were deferred in class II-C and III-C as of January 1, 1944. Of this total, 400,000 are single men below 22 years of age and more than one million are non-fathers. In all other war production and war supporting activities less than 125,000 non-fathers below the age of 22 were deferred as of January 1.

Announces More Support Prices

Support prices proposed by the War Food Administration for hay and pasture seeds in 1944 are in general higher than those of last year. Increases of 8 cents per pound were proposed for northern alfalfa, red clover, alsike clover, and biennial yellow

sweet clover, and of 2 cents a pound for biennial white sweet clover and Sudan grass. Western grasses would be increased as much as 50 per cent because of harvesting difficulties, and several grasses appear on the support program for the first time this year.

Less Paper Work To Build

Less paper work for persons who build privately financed housing construction is assured by War Production Board Order P-55-C. This order, announced jointly by the WPB and the National Housing Agency, eliminates filing of a detailed list of materials and permits use of materials that will conserve lumber and fuel. A simplified procedure for farm housing, which was excluded from Order P-55-C, was provided in CMP regulation 6, direction 1, effective Feb. 15.

Pork from Farm Slaughterers

Twelve red stamps in book four, which are numbered "8" and lettered from "A" through "M," may be used for buying pork and other rationed meats from farm slaughterers. These stamps will not be used by consumers in general until February 27. They will have same expiration dates for purchases from farmers as in city markets. The stamps are worth 10 points each, making a total value of 120 points. This does not give the individual who buys from a farm slaughterer a larger meat ration than

anyone else. It merely allows him to buy a fairly large amount at one time. In addition, brown stamps in book three may be used ahead of their regular validity dates when used in buying from farmers.

To Fight Gas Black Market

A plan whereby gasoline ration coupons are mailed to individual motorists from carefully guarded central issuing stations is now being established by OPA. The plan is expected to eliminate thefts of ration coupons, give OPA a check of issuance, and eliminate a great deal of local boards. To further fight black markets, about February 1 OPA will issue a notice urging endorsement of coupons to be inserted in newly issued gasoline ration books.

Ease Restrictions On Plumbing

Consumers who wish to buy plumbing, cooking, and heating equipment in most cases no longer need authorization from WPB. Some of the items which need no priority rating are: bathtubs, lavatories, toilets, laundry trays, sinks, showers, shower stalls, condensation pumps, chemical toilets, drinking fountains, septic tanks, grease interceptors, flush tanks, scullery sinks, and wash fountains. Unrationed cooking and heating stoves also may be purchased without WPB authorization.

NAMED TO DEAN'S LIST

Miss Margaret June Harper, daughter of Mr. and Mrs. Walter Harper of Chelsea, has just been named to the Dean's list at Albion College for the first semester of this year. This is a coveted honor since only those are listed whose scholastic average is 2.3 or higher, making them eligible for honors recognition at the time of graduation. Miss Harper is a junior, majoring in history and pedagogy.

DEATHS

Arthur G. Armstrong Word has been received here that Arthur G. Armstrong, of Boggs, Okla., a former Chelsea resident, died Monday of heart failure at a hospital in Okmulgee, Okla.

He was the son of the late Dr. R. S. and Elisa Armstrong, and was born in Chelsea, Dec. 4, 1886. His boyhood days were spent here and in 1905 he went to Roy, Mo., where he resided until he moved to Oklahoma five years ago.

Mr. Armstrong is survived by the widow; a daughter, Olive, and a son, Rilla, both of Los Angeles, Calif.; a sister, Mrs. Ernest R. Dancer of Chelsea, and three grandchildren.

FAREWELL PARTY
About 60 neighbors and friends gathered at the home of Mr. and Mrs. Arthur Koengeter on Friday evening

for a farewell party. Mr. and Mrs. Koengeter have moved to their new home in Ann Arbor.

The evening was spent in playing progressive pedro. High score was held by Arlene Koengeter and Fred Bollinger, and low by Clarence Koengeter and Mrs. Harold Eschelsbach.

Lunch was served, after which Mr. and Mrs. Koengeter were presented with a wool blanket as a remembrance of the occasion.

LOYALTY CHAPTER MEETS

Loyalty chapter of the Congregational church held their February meeting on Thursday afternoon at the home of Mrs. Paul C. Maroney, with 20 members attending. Singing "O Beautiful for Spacious Skies," opened the program. Mrs. Leon Fox had charge of the devotionals and the "Song of Our Syrian Guest" was read by Mrs. Edward Frymuth. The hostess was assisted by Mrs. A. L. Brock and Mrs. Carl Bagge.

Measles Epidemic Is Of Especially Serious Type

Measles of especially serious type, now epidemic in Michigan, can have bad after effects, the state health department warns in urging parents to obtain prompt medical attention for children who have been exposed to the disease.

The so-called red measles now sweeping the state—over 2,000 cases were reported in the first seven weeks of 1944—is the second leading cause of death of children under five years. Eighty-two persons died of measles in Michigan last year; 70 per cent were under five years.

Parents are advised to keep preschool children at home if there is a measles outbreak in the community. Children who are known to have been exposed to measles should be put to bed with the onset of upper respiratory symptoms, and if measles develops, should be kept there for several days after the rash disappears. Severity of the disease often can be modified by administration of certain biologic products at the hands of a physician, if given shortly after exposure.

Common complications following measles are pneumonia, middle ear and mastoid infections and kidney damage.

JEWETT STONE SCHOOL

There are 14 pupils at Jewett-Stone. During the last six week period our stamp sale amounted to \$19 and our bond sale \$850.

Mr. Thayer visited our school during the early part of this period. He showed us many interesting and educational moving pictures.

We have added eleven new books to our library. These books will help us in our science, history, and geography. We find the book "Children of North Africa" written by Louise A. Stinefort especially helpful in our seventh grade geography.

We enjoy our new table globe. It shows us the many islands on which our soldiers are stationed.

For art work we made good health posters, Valentines and a display of the Colonial and United States flags.

On February 18 we had a Patriotic party. This took in our Valentine party, also. Mrs. Chapman, Mrs. Lester and Mrs. Eschbach were our guests. We had a play. In this we explained the flags we had made. Donna Lee, Kathleen, Ralph, and Laurence told us interesting facts

about Washington, Lincoln, Edison, and Longfellow. We had an enjoyable time. Popcorn, candy, and salted peanuts were served.

Our Junior Red Cross helped Mrs. Schorling by sending in three pairs of home-made slippers, comic books, a joke book and several colorful picture puzzles for the small children at the hospital.

The Primary class has made two projects in the sandtable; one a fort with its soldiers and guns; the other one is a farm with its animals and buildings.

We are always glad to see interested visitors.

Reporters: Donna Lee Chapman, Kathleen Eschbach and Ralph Erke.

ARCHIE SEES RED (ROBINS)

Although robins are a common sight throughout most of the winter, they are not often sighted on February 28, but Archie Wilkinson reports that he saw some near his home on that date. This week—the first time in at least four years!

Pygmies
Pygmies, those persons who have small stature as a racial characteristic, generally are divided into groups—African or Negritos and Asiatic or Negritos. The African group is found chiefly in a region on the continent of Africa extending about 200 miles either side of the equator. A Negro group exists also in Dutch New Guinea. The Negritos are found chiefly in the Malay peninsula and in the Philippine and Andaman Islands.

Parents' Night will be held on Friday night, March 31.
District Basketball Tournament for this area will be held at Napoleon on March 2, 3 and 4.
The Junior play will be Saturday night, March 25.

SENIOR NEWS

The Senior class is looking forward to their trip which will last four days. It will start on May 31 and will end June 3. The trip is the same one as taken the previous year. The class leaves from Detroit and proceeds up to Lake Superior. They view the locks and Mackinac Island. Because the trip takes the Seniors away from three days of school, they will have no Skip Day this year.
The Seniors have charge of an All-Hi party on April 28.

STUDENT COUNCIL

The meeting was called to order by the president. The secretary's report was read and accepted.
Leroy May reported that the Dexter high school students had accepted our invitation to Shamrock Shindig, March 17.

The motion was made, seconded, and carried to have certain standing committees throughout the school year. Each committee will consist of boys and girls chosen from the student body by the chairman, who is appointed from the Student Council by the officers. This is to go into the Constitution but will not go wholly into effect until next year. One committee, however, is to be formed this year—the Ground and Building Committee. The chairman has not yet been appointed.

The assembly schedule is as follows:

Feb. 29—Ninth grade spell-down.
March 7—Boys' Physical Ed. assembly.
March 14—Girls' Physical Ed. assembly.
March 20—A movie.
March 28—Class skits.
April 18—A movie.
April 25—Speech class play.

HOME-MAKING CLUB

The Home-Making girls are making quilts for the Junior Red Cross. They are making it their aim to have two dozen of them ready to send by next week.

HOME-MAKING

Home-making I girls are going to start working on cotton dresses this week.

Home-making II girls are now studying about meat.

Home-making III girls are spending most of their time on the hot lunch because they are also working on food.

CLASS OF '44

On Sept. 21, 1926 in Ann Arbor, Michigan a baby girl was born who in later life (now) was to measure 5 ft. 7½ in. and weigh 7½ lbs. (only she knows). She has brown eyes and hair; to favor the color of red; also to show a preference in sports which is horseback riding; have the ambition to become a beauty operator; have "No Love No Nothing" as her favorite song; have "So Proudly We Hail," a great movie of this time among her favorites; and now in later life is known as Mildred Isabelle Schaible.

In 1926, on Sept. 18 in Chelsea, Michigan a baby boy was born. Lit-

GOVERNOR CITES 4-H CLUB WORK

Michigan's governor, Harry F. Kelly, issues a proclamation dedicating March 4 to 12 as Michigan 4-H Club Mobilization Week. He paid high tribute to the 55,000 boys and girls in 4,750 clubs in the state for their efforts in 1943 in producing essential food valued at \$2,000,000. At left is Elaine Somers, 17, of Elsie, and at right Max Ballinger, 21, of St. Johns. Michigan State College students selected as topnotch representatives of the state's club youth.

He did his parents know at that time that in the year 1944 he would stand 5 ft. 10 in. and weigh 135 lbs.; have both brown eyes and hair; prefer the color red; and hamburgers to most food; like baseball and football over other sports; think that "There Are Such Things" is his favorite song; have the ambition to become a mortician, fancy for undertaker. Now in this, the year 1944 we find that same boy, only now he is 17 years older, known to his classmates as Donald Kenneth Schanz.

PEP MEETING

Friday morning the student body was entertained by a very short pep meeting. It was in charge of the basketball girls. The mistress of ceremonies was June Vail. Those who gave short pep talks were: Miss McDonald, Eleanor Harper, Helen Loeffler, and last but not least, Mr. Cameron. The group gave a few cheers and the meeting was closed with the school song.

HI-Y NEWS

The Hi-Y constitution was put into effect. Due to illness Mr. Tollman was unable to attend the meeting last Wednesday, February 23, after school. Plans are being made by the Hi-Y club for Parents' Night. Plans are also being made for a supper to be held in the future.

BAND NEWS

Applications for band awards have been given out and must be in by March first. The awards are given, based on outside practice, attendance, and progress in work.

SHOP NEWS

SEVENTH GRADE NEWS

(Mary Jane Jarvis)
Our stamp sale last week was \$8.70, with 90 per cent of our enrollment purchasing.

Great progress is being made on our second Afghan. We wish to thank Mrs. Lantz for sewing it together for us. We also wish to thank Mrs. Loeffler and her daughter Ellen for contributing so many squares for our third Afghan.

In arithmetic, we are making graphs and are drawing to scale. The thirteen colonies have brought interest to some of our students. In history class is making a series of maps. In science we are making notebooks of interesting scientific clippings from newspapers. English has brought a theme every week. Our last book report was due on the last day of February; our next is due on April 18.

A few of our pupils cleaned out the radiators in the main corridor. To their great joy they found twenty-five cents, which they put into the wool fund.

Two of our lucky pupils have been neither absent nor tardy since September. They are Helen Jarvie and Ellen Jane Geddes. Our grade could stand fewer of those tardy marks that are in the record book. How about it, seventh graders.

Correction: Last week, Helen Jarvie was runner-up in one of our spell-downs. Apologies to you, Helen! This week, winners were Joyce Crawford and Delores Eisenman.

JERUSALEM SCHOOL NEWS

The 4th term of school for Jerusalem school closed Feb. 25. The following were neither absent nor tardy: Shirley, Raymond, Harold, Wilfred and Harold Moore; Carl Koch and Ralph Trinkle.

Joan Koengeter is leaving our school. She will attend Mack school in Ann Arbor.

We bought \$1,400 worth of defense stamps this term.

We took our Standard Achievement tests. In all cases we improved but some of us are still not up to standard. The 7th and 8th graders took their 2nd county test Feb. 15.

We have had something in our sand box about Washington and Lincoln. The teacher read some new books of Washington, Lincoln and Edison to the lower grades.

We have started our illustrated song book by finding pictures to illustrate the songs we have sung and pasted them in a booklet and wrote parts of the song under it.

We have all made Washington and Lincoln pictures and drawn other free-hand pictures. Some of us have made some address books. The 5th and 6th grades made some English posters.

During this term we had a Valentine party. We each had our own box for children to put Valentines in. Mr. Thayer visited our school and while there showed pictures of Indians, Congo Region, and Air Force. We enjoyed this very much.

Red Cross Asks \$200,000,000 To Cover Wartime Needs

WASHINGTON, D. C.—Confronted with responsibilities of unprecedented proportions, as the war enters its most crucial stage, and with a staggering task ahead in the post-war period, the American Red Cross opens its 1944 War Fund appeal March 1, contending that the American people will respond to the "limit of their ability."

President Roosevelt, president of the American Red Cross, Norman H. Davis, chairman and active head of the vast organization, and Leon Fraser, national War Fund chairman, join in urging the people of this country to help the Red Cross reach its national objective of \$200,000,000 because of the vital part it must play within the next twelve months.

Chairman Davis, in opening the campaign, will stress the fact that, with the decisive stage of the war at hand, the Red Cross must assume a greater burden than ever before, and at the same time must provide aid to servicemen being returned in ever-increasing numbers.

Red Cross operations over the entire world during 1943 have dwarfed its activities during the first two years of war.

An even greater burden will be placed on Red Cross services in 1944. Thousands of American men and women are now in Red Cross service with U. S. troops at home bases and overseas. Field directors, hospital, club and recreation workers are with American armed forces in virtually every command, Mr. Davis asserted.

Both in Europe and in the Far East, Red Cross workers have either gone with invasion forces into new combat areas, or have followed within a very limited time.

On the home front, the Red Cross has broadened its service tremendously. Field directors are traveling

every sizable military establishment and camp throughout the country, and recreation and social service workers are located in Army and Naval hospitals.

One of the most important and necessary war-time Red Cross functions has been the collection of human blood for plasma. Thirty-five blood donor stations are now operating.

The dramatic story of the Red Cross Blood Donor Service, through which thousands of soldiers and sailors have been saved from death, began in February, 1941, when the Surgeon General of the Army and Navy asked the Red Cross to procure 15,000 pints of blood. Last year more than 3,700,000 pints of blood were collected for the Army and Navy. This year the goal is more than 5,000,000 pints.

With major battles of the war yet to come, the Army has asked the Red Cross to supply many millions of surgical dressings. American men wounded in battle will depend entirely on the vast Red Cross surgical dressing production program.

Numerous other Red Cross home operations, such as Prisoners of War packaging centers, where more than a million parcels for war prisoners are prepared each month for shipment overseas, are supported by citizen participation to the Red Cross War Fund.

So extensive is Red Cross service during this war that every American citizen can contribute something to at least one of its functions. To continue this gigantic work, all Americans must assume their share of the responsibility of carrying on this far-reaching service.

The \$200,000,000 quota will enable Red Cross to alleviate suffering and pain at home and abroad, and to carry on its vast military welfare service.

Red Cross Asks \$200,000,000 To Cover Wartime Needs

WASHINGTON, D. C.—Confronted with responsibilities of unprecedented proportions, as the war enters its most crucial stage, and with a staggering task ahead in the post-war period, the American Red Cross opens its 1944 War Fund appeal March 1, contending that the American people will respond to the "limit of their ability."

President Roosevelt, president of the American Red Cross, Norman H. Davis, chairman and active head of the vast organization, and Leon Fraser, national War Fund chairman, join in urging the people of this country to help the Red Cross reach its national objective of \$200,000,000 because of the vital part it must play within the next twelve months.

Chairman Davis, in opening the campaign, will stress the fact that, with the decisive stage of the war at hand, the Red Cross must assume a greater burden than ever before, and at the same time must provide aid to servicemen being returned in ever-increasing numbers.

Red Cross operations over the entire world during 1943 have dwarfed its activities during the first two years of war.

An even greater burden will be placed on Red Cross services in 1944. Thousands of American men and women are now in Red Cross service with U. S. troops at home bases and overseas. Field directors, hospital, club and recreation workers are with American armed forces in virtually every command, Mr. Davis asserted.

Radio Technicians Are Needed By U. S. Navy

In urgent need of Radio Technicians the Navy is offering eight months of valuable training in ultra high-frequency electronics to men, 17 through 50 years old, who can qualify.

Men with at least one year of high school algebra and an interest in radio can qualify for this training by passing the Eddy Radio Technician test. They can take this test at any Navy Recruiting Station.

Ineligible for the program are men of draft age who are deferred because of essential war work.

The Eddy test covers broad phases of mathematics, electricity, physics, shop work and radio, but no extensive background in any of these subjects is necessary to pass. Most important is a knowledge of algebra and aptitude for scientific subjects.

Men passing the Eddy test can choose to be sworn into the Naval Reserve as Seamen, First Class, with the assurance that they will receive Radio Technician training, immediately after indoctrination.

Such men first get three months' training in a pre-radio school, studying mathematics, fundamental electricity, radio, slide rule and shop practice. Graduated from this school with the petty officer ratings of Radio Technicians, Third Class, they then go to a secondary school for five months advanced training in radio electronics.

Graduates from the secondary school are rated Radio Technicians, Second Class. Their opportunities for subsequent rapid advancement are excellent. Men graduating high from the secondary school have opportunities to work toward Naval commissions.

The training which these Radio Technicians get fits them for good post-war jobs in such fields as television, industrial electronics, broadcast radio, aircraft radio and many other scientific fields.

Information about the program may be obtained at any lower Michigan Navy Recruiting and Induction Station. The nearest Station is located in the new post office building at Jackson.

Meats, Fat, Brown stamps Y and Z in Book Three are good through March 20. Red 10-point stamps A8, B8, and C8 in Book Four are good through May 20. Waste kitchen fats are redeemed at two ration points plus four cents a pound.

Processed Foods—Green stamps K, L, and M are good through March 20. Blue 10-point stamps A8, B8, C8, D, and E8 in Book Four are good through May 20.

Sugar—Stamp 30 in Book Four is good indefinitely for five pounds. Stamp 40 in Book Four is good for five pounds of canned sugar through February 28, next year.

Easter Seal Campaign Endorsed By Governor

I am happy to endorse the Eleventh Annual Easter Seal Sale of the Michigan Society for Crippled Children and Disabled Adults which will open March 8 and continue until Easter Day. In giving my personal approval to the splendid program of this organization which pioneered the cause and over a long period of time has done so much for Michigan's physically disabled, I want also to congratulate the men and women who have given their time and effort to the furtherance of this work.

The relationship between efforts in behalf of disabled adults and the task of rehabilitating veterans is immediately apparent. The accomplishment of this task will be greatly facilitated by the foundation of experience which the Michigan Society has laid. To this end the Michigan Society for Crippled Children and Disabled Adults is already actively lending its support to a state-wide program which I initiated. The Society is represented on the Michigan State Clearing House Committee and many of its local directors and co-workers have been designated to serve on local committees.

The Easter Seal Sale this year has particular significance for us all; it is a reminder of obligations none of us wants to forget. As the war progresses volunteer agencies will be called upon for greater service to meet social and economic needs on the home front. It is not only a fine thing for the physically disabled but for all of us. It is a movement which pays dividends of the kind that should have the support of everyone. All citizens of Michigan can be proud that such a humanitarian program is being carried on so ably within our state.

As Governor of Michigan, I share that pride and urge a full measure of support for the sale of Easter Seals to finance the work which urgently needs to be done. It is hoped that the urgency of the times will prompt the public to generous support this year.

(Signed)

Harry F. Kelly, Governor.

Gardening Urge Defies Cold Weather and Snow

When snowstorms cover the ground, is it too early to start gardening?

One simple "No," with multiple reasons why gardening on paper and in one's mind is right in the season comes from the Michigan Victory Garden Chief, Paul R. Krone of the Office of Civilian Defense.

It's true that the average last killing frost in spring in southern Michigan comes about May 15, or in more northern counties as late as June 1. But there are things to do before that date.

Some wise gardeners followed practices suggested by Michigan State College. They cleaned up trash and laid plowed or spaded the garden area. That should leave the garden soil mellowed up for a better garden in 1944, with fewer weeds and fewer insect pests.

Vegetable seeds apparently will be plentiful, but if gardeners want certain specific varieties, then orders and purchases are timely right now, Mr. Krone suggests. The garden site should be selected as early as possible. Kinds of vegetables the family prefers should be picked out of seed catalogs.

A garden plan on paper should be drawn to scale. From the estimated amounts of various vegetable crops desired for the table and for freezing, canning and storage, the garden should be laid out on paper. Any urge to prepare seed flats for tomato, pepper or cabbage transplants should be timed with the calendar. Remembering that the safe planting date for tender plants comes about June 1, a timely start with most seed flats should be made approximately eight weeks ahead. That would be about April 1, unless the gardener plans to purchase reliable Michigan-grown plants.

Are We Afraid To Do Justice?

By RUTH TAYLOR

Are we afraid to do justice? When I saw that caption in one of the religious publications that come to my desk, its implication—its application to our present problems—struck me like a blow.

Are we afraid to do justice? This is the answer we must give to those pseudo realists who have forgotten to remember the idealism which carved for them, out of an untouched continent, those realities to which they cling. This is the challenge we must fling at those isolationists who ignore the spirit that created from the resources of the earth a nation self-sufficient enough to dream it could stand alone.

Are we afraid to do justice? Must we fear fair treatment for all men? Must we draw a barrier of class or creed or color and say—at this point—we must modify our ideal of equality of opportunity and of justice before the law? Must we deny freedom of speech or worship to those who do not think as we do?

Must we keep some people in the shackles of ignorance for fear that learning would lift them to our level? Are we afraid to give to all men the rights we claim for ourselves?

Are we afraid to do justice? The world is too small for anything but brotherhood. But to establish brotherhood, there must be justice toward all men. Whoever fears justice for others will practise injustice upon others.

Are we afraid to do justice? The one way to make sure that there will not be another war is to mete out justice toward all men everywhere—a justice based upon equality before the law and before God. Not a maudlin Lady Bountiful charity toward the unfortunate, but a fair administration of the law of brotherhood—without senseless distinctions of race, color, or theory. To quote again from a religious paper: "God has made this earth rich enough for everybody's need, but not rich enough for anybody's greed."

Are we afraid to do justice?

STATE OF MICHIGAN

In the Circuit Court for the County of Washtenaw, In Chancery.
Alfred D. Mayer and Florence A. Mayer, Plaintiffs, vs.

Fances L. Saylor, Frank L. Saylor, Lucy D. S. Parker, Lucy A. Huber, Edwin R. Parker, Franklin C. Parker, John M. Parker, or their respective unknown heirs, devisees, legatees, and assigns, Defendants.

Order for Publication
At a session of said Court, held at the Court House in the City of Ann Arbor, in said County, on the 28th day of February, A. D. 1944.
Present: Hon. George W. Sample, Circuit Judge.

It appearing to the Court from the allegations contained in the Bill of Complaint filed in this cause and from the affidavit annexed thereto that the above named defendants and their unknown heirs, devisees, legatees and assigns, are necessary and proper parties to said cause; and that the said plaintiffs do not know and have been unable, after diligent search and inquiry, to ascertain the places of residence of the persons named as defendants herein and their unknown heirs, devisees, legatees and assigns, or any of them, and cannot ascertain in what state, or country the said defendants or their unknown heirs, devisees, legatees and assigns reside except Lucy A. Huber, and John M. Parker;

Therefore, on motion of James C. Hendley, attorney for the plaintiffs, it is ordered that the defendants and each and every one of them do cause their appearance to be entered in this cause within three months from the date of this order, and in case of their appearance that they cause their answer to the plaintiffs' Bill of Complaint to be filed and a copy thereof to be served on the attorney for the plaintiffs within fifteen days after service on them of a copy of the Bill of Complaint and notice of this order; and that in default thereof said Bill of Complaint be taken as confessed by each and all of said defendants, and also that within forty days of this order by the plaintiffs cause a copy of this order to be published in the Chelsea Standard, a newspaper printed, published and circulated in said County of Washtenaw, and that said publication be continued once each week for six weeks in succession, or that the plaintiffs cause a copy of this order to be personally served on the said defendants and each of them at least twenty days before the time prescribed for their appearance, or cause this order to be otherwise served as provided by law.

Geo. W. Sample, Circuit Judge.
Countersigned:
Luella M. Smith, Clerk.

By Irene A. Seitz, Deputy Clerk.
