BOMBER SCHOOL GRADUATE

Keeler Field, Biloxi, Miss., May 29—Cpl. Veryl F. Hafey, who entered the B-24 Liberator bomber mechanics school here approximately 17 weeks ago, was graduated today from this unit of the Army Air Forces Training Command.

Cpl. Hafey, son of Mr. and Mrs. Fred Hafey, Chelsea, Mich., will go either to active line duty servicing the four-engine airplane, to aerial gunnery school or to a factory school for specialized training in maintenance of big craft.

The several scores of men graduated today after approximately 17 weeks in the school here were trained in B-24 fundamentals, structures, propellers, instruments, fuel systems, electrical and hydraulic systems, engine operation and aircraft inspection.

The last eight days of school were spent at "Fort Liberator," a field test area where the soldiers put into practice under simulated combat conditions the things they learned earlier during the intensive course.

BOY SCOUT COURT OF HONOR

The Boy Scouts of Chelsea, Dexter and Manchester will hold a Court of Honor on Monday, June 5 at the public school gym. All fathers and mothers of Scouts are asked to attend.

Awarding of honors will be preceded by a pot-luck supper at 7:00 o'clock. Arrangements for the supper are in charge of Mrs. Paul Niehaus. Mothers of the Scouts are asked to call her concerning the kind of food they are to bring.

A demonstration of some phases of Scouting will be given by each patrol.

War Dead Honored In Two Memorial Services

The Memorial spirit was fittingly expressed in Chelsea in the services and programs of Sunday and Tuesday.

Memorial Sunday was recognized by Protestant churches of the community with a union service at the Methodist church, in which all ministers had a part. Rev. Grabowski brought a stimulating message from the text found in Ps. 127:1. George Atkinson rendered the solo, "Lest We Forget," accompanied by Miss Lucille Finkbeiner on the organ.

The Memorial Day program was held at the high school auditorium and was in charge of the local American Legion Post No. 31. After singing "The Star Spangled Banner," and the invocation, Floyd D. Rowe, Commander, made a few appropriate remarks and introduced the speakers. A unique feature of the program was the historical sketches given by seven high school boys: Charles Zeeb, Frederick Weber, Jack Niehaus, Neil Beach, John Wellnitz, James Gaunt and Ray Knickerbocker. Each of the boys told briefly and to the point the outstanding facts of the seven great wars. The address of the morning was given by Rev. Everett Major on the subject "Dwindling Resources."

Rev. Lord pronounced the benediction and the band, under the direction of Marshall Richards, led the procession of Legionnaires, American Legion Auxiliary, Women's Relief Corps, Boy Scouts, Girl Scouts, Cubs and school children to the cemetery.

Here in the quiet and beauty of this sacred place the final services of the day were held with the decoration of graves, followed by a prayer by Rev. LeRoy Lord. With the customary firing of the Legion salute and the blowing of taps another Memorial Day ended.

Memorial Service In Waterloo On Sunday

The Waterloo area will observe Memorial Day on Sunday, June 4 in Waterloo village. Appropriate exercises will feature the program, which will be held at 2:30 in the United Brethren church.

Rev. Howard Sugden, pastor of the Ganson Street Baptist church in Jackson, will be the speaker of the afternoon. Milton Riethe will have charge of a fine program at the cemetery immediately following the exercises in the church.

The church program will include the following:

Song—Battle Hymn of the Republic.

Invocation—Rev. G. E. Schade.

Scripture Reading—Rev. Louis Green.

Prayer—Rev. Fred Ampler.

Flag Drill—School.

Ladies' Trio—June LeVan, Ada Ruth Stone and Leona Beman.

Roll Call in Armed Services.

Vocal Duet—Rev. and Mrs. Schade.

Address—Rev. Howard Sugden.

Benediction.

GRADUATES FROM M.S.C.

Jane Wilkinson, daughter of Mr. and Mrs. A. W. Wilkinson, who will be graduated from Michigan State College this June, left Monday for Portland, Oregon, where she will arrive today, to take a position as teacher in the Kaiser Nursery schools, the largest in the world.

These child service centers at Swan Island and Oregon Shipbuilding Corporation, are housed in buildings constructed by the United States Maritime Commission, and run 24 hours a day all year except Sundays, operating on three shifts, the same as the Kaiser Industries. Each center adjoins the shipyards so that mothers can, with ease, bring their children to the center on their way to work and call for them when their day's work is done. Children from 18 months to six years of age are taken, and all equipment, windows, baths and playground, are built to fit the size of different groups. Both yards are under the direction of Edgar Kaiser.

ADVANCED TO SEAMAN-1C

Mr. and Mrs. R. D. Gadd were in Chicago the past week-end to attend the graduation of their son, Dwight, at Navy Pier on May 26. At that time Dwight, having finished the studies in the Aviation Machinists Mate course, was advanced to Seaman-1C. In addition he was awarded a Certificate of Merit as Quartermaster Bugler. In this latter capacity he is being held over one week at Navy Pier before proceeding to Memphis for Radar training.

34 Years Ago

Thursday, June 2, 1910.

May was the coldest that has been experienced here in forty years. The last day of May the mercury registered just two above freezing, and if it had not been for the rain, there would have been a killing frost. As it was there was a slight snowfall early in the morning. There were just seven clear days, all the rest were cloudy, rain or worse, and a north wind blew most of the time.

Miss Mary G. Merkel, daughter of Mr. and Mrs. Peter Merkel of Sylvan, and Harry Taylor, youngest son of Mrs. J. C. Taylor, were united in marriage May 31 at St. Thomas church.

DISCUSS POLITICAL ACTION

A very enthusiastic meeting was held May 24 at the UAW hall, 209 S. Main St., on Political Action Week. The speaker for the evening was Sam Cubeta, Political Action director of this area. He spoke on the need of all people getting out and voting in the primaries and November election, and pointed out the laxity of people in getting out to the polls at all elections—a task that every American should fulfill, a privilege granted to every American under our democratic form of government.

This program does not tell any person how to vote. Local 437 established the Political Action Committee six weeks ago, and a series of meetings have been held.

The public is invited to attend any of these meetings to discuss problems of political concern, and to get familiar with the UAW Political Action program—a program as broad and extensive has never been undertaken by the American working man, farmer, and small business man. Our task at present is to have all union members become registered voters by the deadline before the July primaries, so get out and register.

Mr. Gibson, of the State Political Action committee will be our speaker

KNOW ALL THE TRICKS by Blackstone

WORLD-FAMOUS MAGICIAN

THE MULTIPLYING COINS

Three pennies on the table, but four when you sweep them off! Can you do this one? (See explanation below.)

WE CAN'T MULTIPLY ALTES LAGER

We could say "abracadabra" and "presto-change-o" all day long over our limited supply of malt these days and still we couldn't produce any more Altes Lager than we are making right now.

That is . . . if we want to preserve the full-bodied goodness of that famous Aged-in, Sealed-in Flavor, which has won for Altes such a loyal legion of dealers and customers.

Oh, sure . . . we could stretch our volume by the use of certain brewing tricks. But we're not going to do that. The result wouldn't be Altes at all. We'd have to put a new name on the label. And frankly, you wouldn't like what would be inside.

We determined that you shall like Altes, in war as in peace. You deserve such fair treatment. Your good will is more valuable to us than any extra business we might get from a debased beer. That's our policy . . . and we know you'll enjoy real Altes twice as much as imitation Altes twice as often!

HOW IT'S DONE—First you lay three pennies on a table edge. Both your hands are shown as empty. Then with your right hand, you sweep the three pennies off into your left. When the left hand is opened it contains four coins instead of three! The fourth coin is attached to the underside of the table by a dab of soap. While the left hand is receiving the three coins, the left fingers secure the hidden coin and take it along with the others.

It Won't Be Long Now

Warm, sunny days will soon be here, but we are asked not to relax our efforts to conserve Natural Gas, even when the furnace is finally shut off.

Because of its flexibility and economy, Natural Gas will continue to be in great demand in war plants for the duration, and it is necessary for every family to use it wisely in the home.

Avoid using an excessive amount of hot water when taking baths or washing dishes. When washing hands, do not leave the hot water running. Open and close the door of your gas refrigerator quickly. As long as your furnace is running, close off unused rooms, and turn down the thermostat when no one is to be home.

SEVENTH GRADE NEWS

By Helen Jarvie

The stamp sale this week was \$8.20, with 24 per cent of the class buying. In most of our classes we have started to review. Some are history, science, arithmetic and English.

Last Friday, we took money from the treasury and went to the show. It was "Tarzan's Jungle Mystery." On Tuesday we went on a picnic out to the athletic field. From the treasury we again took money and bought us all a bottle of pop. While there we played baseball until we got rained out. All had a grand time.

Two pupils had birthdays this month. They were Joanne O'Dell, May 19, and Max Slane, May 23. We had them play the birthday game. Joanne did not get all her facts.

Wednesday the eighth grade girls played the seventh grade girls a game of baseball. Eighth grade won by a score of 32 to 15.

PRESENTED SECURITY AWARD
Detroit—The Michigan Bell Telephone Company today holds the National Security Award, first of its kind to be presented in this state.

E. J. Condon, of Chicago, regional director of the Sixth Civilian Defense Region, presented the award at ceremonies at the company's headquarters here. It was accepted in behalf of the 14,000 employees of the company by President George M. Welch.

The award was presented in recog-

nition of the company's maintenance of superior standards of protection and security in safeguarding its property and personnel. Speakers, including Capt. Donald S. Leonard, state director of Civilian Defense, also paid tribute to the company's role in civilian defense and in the general prosecution of the war.

"Telephone employees are used to emergencies—in peace-time as well as war," Welch said. "The spirit of service in the telephone organization

is perhaps our greatest asset and our strongest protection. Today, that spirit of service is the spirit of victory."

High military and civil authorities participated in the program which was carried by wire and loudspeaker arrangements to many employees at division headquarters at Grand Rapids, Saginaw, and Menominee.

WPB Explains Ruling On Home Construction

Recent changes in War Production Board regulations regarding construction of homes has resulted in confusion, especially in farm construction, H. J. Quilhot, manager of the War Construction Section of the Detroit Regional office of the War Production Board, said. Under a new interpretation construction on a home, including a farm house, cannot exceed \$200, he said.

"Under previous interpretations a farmer was entitled to spend \$1,000 a year on new construction. He could use that \$1,000 on a home, on his barns, in fencing or any way he chose. Now, however, this regulation has been changed, and while a farmer is entitled to spend \$1,000 a year on his farm, only \$200 may be spent on his home."

"The WPB has recently defined a farm as a place used primarily for raising crops, livestock and poultry for the market. This eliminates Victory gardeners or others who do not raise market crops or stocks. It is wise for anyone planning any construction to consult the nearest WPB office to determine whether a permit is required."

Mr. Quilhot cited several recent cases in which farmers had proceeded with erection of homes, using building blocks and other non-critical materials. After construction had started they applied for permits for nails, wiring and other items, only to find that permission to build must be obtained even when non-priority materials are used.

"It should be distinctly understood," he pointed out, "that cement blocks as well as all other new material and labor requiring a cash outlay are included in the cost limitation, and no priority assistance can be given to anyone starting construction in violation of WPB regulations."

OPEN FORUM

To the Editor:
We read your article about dogs in a recent issue, and hear that another person has been bitten by a dog since that time.

The former village administration did not enforce the dog laws they had enacted, but permitted stray and abandoned dogs to attack persons almost at will, and we believe at a serious danger to the village because of damages which could be collected because of carelessness and negligence of village officials.

Recently my son, on a trip from the school house to the post office, counted nine dogs on Park street and at the post office, and two more the rest of the way home.

The fact is that most of these dogs were abandoned by men going into service, leaving the animals to get their food from garbage cans and neighbors. Some of these dogs bark days and part of the night, or until they secure food, thus preventing people from sleeping, and of course affecting efficient production of arms and ammunition needed by the owners who are in the army.

Another fact is that many of these dogs are not properly licensed.

Is there not some way by which

negligent and careless officials can be made personally responsible for injuries caused by stray and abandoned dogs, since they do not make any effort to carry out the laws they are paid to enforce?

WHY telephones are hard to get

For a long time, almost all new telephone apparatus that could be made has had to go to the Armed Services. . . . Factory space and manpower cannot be diverted to make equipment for civilians.

Despite all that, since National Defense got under way in 1940, Michigan Bell has added close to a quarter of a million telephones. That was made possible only by using up all our reserve equipment and by stretching to the limit the facilities we had.

We've crowded our switchboards and cables beyond their normal capacity. Where any residential service could be

supplied, we've usually put in party lines instead of individual lines. And we've repaired and returned to service all usable old apparatus.

Orders for telephones essential to the war are filled promptly. Other requests for new service are handled under a definite procedure, as present users give up service. But there is a long and growing waiting list.

We believe you would want us to meet war service needs ahead of comfort and convenience for civilians. And we appreciate your understanding and co-operation.

The bride was attired in white marquisette, with a fitted waist and sweetheart neckline and full skirt extending into a train. Her double veil was held with orange blossoms and she carried a white prayer book and a single orchid with white streamers.

Mrs. Francis Hannah of Lansing, cousin of the bride, was matron of honor and the bridesmaids were Miss Helen Reith of Dearborn, sister of the groom, and Miss Doris Lambard of Ann Arbor. They were gowned alike in yellow marquisette dresses with high neck lines and long sleeves, and they carried Colonial bouquets tied with blue ribbons.

For her daughter's wedding, Mrs. Hudson chose a dress of aquamarine tulle, with which she wore black and white accessories and a corsage of yellow roses. Mrs. Reith, mother of the groom, wore light blue crepe. Her accessories were white, and red roses formed her corsage.

Following the ceremony a reception for 90 guests was held in the church house, with guests attending from Detroit, Lansing, Dearborn and Chelsea. Mr. and Mrs. Reith departed by plane for a two weeks' wedding trip in Montreal.

The bride is a graduate of Chelsea high school and Cleary Business College, while the groom is a graduate of Fordson high school, Dearborn. Both have been employed at the Dexter Machine Products, Inc.

State Prepares to Pause for Prayer on "D-Day"

Lansing—Lumberjacks in the logging camps of the north woods, sailors on Great Lakes ships, factory workers, clerks and shopkeepers, and persons in their homes—all will take part in Michigan's state-wide "D-Day" minute of prayer when that day arrives, according to reports sent in to the Michigan Office of Civilian Defense.

Since announcement recently that Governor Kelly was asking for a simultaneous state-wide pause in all activities for one minute when it is definitely known the invasion is under way, there has been a steady flow of responses from every corner of the State expressing approval of the proposal and the intention to participate in the observance.

Municipal and county Defense Councils have the responsibility of arranging the observance. Notification of the moment when all activity is to cease is to be sent to each community over the state air raid warning system. Immediately preceding the 90-second pause there will be a 90-second signal period during which air raid sirens, factory whistles and church bells will be sounded. This signal will not only announce the one-minute pause, but also designate that this is the day when churches will open their doors and many will hold special services to offer prayers for those taking part in the great offensive.

"Use of the air raid warning system was decided upon as the only means to prevent premature or spontaneous observances, keep the general situation under control and within the limits of propriety, and effect a simultaneous pause to invoke the power of universal prayer for the safety of our sons and the success of our cause," said Capt. Donald S. Leonard, State Director of Civilian Defense. "It is emphatically desired to avoid any development that might have the tinge of a celebration, and to stress that this will be a day set aside for a united appeal to Providence."

"In using the signal system we are not attempting to bring first news of the invasion to the various communities. This will be done by the press and radio. Our only purpose is to accomplish the one-minute pause, and therefore about three hours will be allowed from the time the D-Day message is sent out by the state until the signal is sounded. If news of the invasion is received during the evening the observance will be held the next day to prevent confusion."

As an example of industrial cooperation, the Ford Motor Company has notified each of its operations throughout the state, including plants and logging camps, to observe the

pause. Ford locomotives will be stopped, truck drivers will stand at the side of their machines, and Ford Great Lakes ships will be notified of the one-minute pause by wireless.

HOLD FINAL MEETING

The Chelsea Study club held their final meeting of the 1943-1944 season at the home of Mrs. A. W. Wilkinson on Wednesday evening, May 24. A delicious supper was served at 6:30 o'clock to 24 members and two guests.

Following the supper a business meeting was held. At this time the identity of "Mike" the "Co-Op Checker" was revealed. "Mike" presented the dividend, in the form of a book, to Mrs. George Miller, who had more points to her credit than any other member of the club.

Mrs. Charles Meserve, on behalf of the club, presented a gift to Mrs. Miller, the retiring president. A social hour was enjoyed.

The 5th War Loan Starts June 12th

America — *This is it!*

He's doing his part... We must do our part!

For him the terrifying grand climax of the war is at hand.

The supreme military risk—bloody, costly in American lives.

Our boys know this. They don't have to read the heart-rending headlines or casualty lists to know what is expected of them.

They are in it.

But they are not flinching... not holding back.

They will see the grim venture through to the bitter, victorious end.

And if, for your boy, or some boy you know, the price of Victory is death, you can be absolutely certain that he did his part courageously... for the cause of Freedom.

For us, too, the terrifying grand climax of the war is at hand.

This supreme, desperate call for American dollars—16 billions of them—is to enable our fighting men to carry through the grim, bloody assault to a successful conclusion and Victory.

Not just American dollars—but the dollars in your pocket—in your savings account.

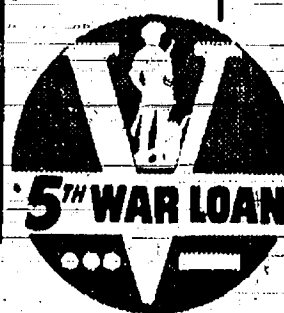

You must buy War Bonds—now! At least twice as much as you bought last time. If you are already buying Bonds on a pay-roll savings plan, buy EXTRA Bonds during this Drive.

Your Government is counting on you. Your boy—and your neighbor's boy—millions of them—are counting on you. Just as desperately as you are counting on them in this fateful hour.

► Don't let them down! Do your part—as they are doing theirs. Dig down, America—dig down deep! While there is still time. This is America's Zero Hour—Civilization's Zero Hour!

And here are 5 MORE reasons for buying EXTRA Bonds in the 5th!

1. War Bonds are the best, the safest investment in the world.
2. War Bonds return you \$4 for every \$3 in 10 years.
3. War Bonds help keep prices down.
4. War Bonds will help win the Peace by increasing purchasing power after the War.
5. War Bonds mean education for your children, security for you, funds for retirement.

State Spends \$128,794 On Washtenaw Roads

Lansing—The State Highway Department will spend \$128,794.00 during the present fiscal year ending June 30, 1944, on maintenance of state trunkline highways in Washtenaw county, an increase of \$53,341.00 over the \$75,453.00 spent for the same purpose during the 1942-43 fiscal year, highway Commissioner Charles M. Ziegler reports.

The increased expenditure of state funds in Washtenaw county this year for state trunkline maintenance is in line with Commissioner Ziegler's policy of an intensive program designed to bring the trunkline system up to satisfactory standards. Trunkline maintenance had been allowed to lag in recent years and many miles of trunklines were in poor condition a year ago. This condition and the necessity for keeping roads in good condition to protect the people's heavy investment in these roads, to reduce the wear and to speed wartime traffic prompted the Commissioner to adopt a maintenance program calling for an increase of 40 per cent in expenditures over the entire state as compared to any previous year.

Gravel placed on state trunklines in the last year doubles that of any previous year. A similar program is necessary for this year to build up these highways. Good progress is being made in this work which is resulting in a general improvement in the state highway system, Commissioner Ziegler said.

I'm Not Satisfied!

By RUTH TAYLOR

I don't like the phrase "selective service." Yes, I know what it means—in the long run, it is the selecting, without regard to class, creed or color, of the best of our youth—and letting them fight our battles for us. Stripped of all trappings, that is just what it is.

Of course, I admit it has to be. The young are better fighters than we are. They are fit for the job. But if we are going to let other people do our fighting for us, surely we can do our best for them and for ourselves in universal service.

No, I am not advocating a compulsory work-or-fight law or a draft of man and woman power. That would be just another form of selective service. Those who could serve best would be doing the work for the rest of us.

But—I'd like to see everyone accepting the war as an opportunity to serve in some capacity. If we would all do that from the housewife to the busy executive, we'd get this war over at a rate that would startle those who have counted their greatest ally the selfishness of free people.

I'm particularly strong on this subject because it was brought home to me with a bang—the other day when word came of the death in a South Pacific island of the brother of a friend of mine. That very day she had been showing me snaps of him—a gay, fine lad, proud of his job and of his friends in the service. He was a devout Jew by religion—a typical good American by citizenship, from an average small American town. He wasn't a boy—but a man who joined up in defense of a country that had given freedom to his parents and an opportunity to him and his sisters. He had left a career in which he was making good. He left the job of keeping the home together to his sisters and went out to do his duty. Life was just before him—and he gave his life.

What are we giving that compares with this? What ARE we giving up? Little things that are really of no importance. Must we consider our future and get into jobs where we'll be set when the war ends? What of the boys who will never come back? They gave up their future.

We aren't doing our part. What we do and what we give up—whether it be in the things we can't buy or in taxes, is small compared to what our soldiers are giving up. When we think of their sacrifices, are we satisfied with ourselves? I'm not. Are you?

CORN BORER WARNING

Sweet corn and field corn ravages from corn borers will be less this summer if farmers and gardeners clean up crop remnants before the borer moths emerge from their winter quarters, warns Ray Hutson of the Michigan State College entomology department.

Better results would have resulted from earlier plowing, but if the job is done immediately, borers will be fewer in number.

Michigan's corn borers, as yet, are chiefly the one-brood strain. Burying the corn borer does not kill the pest at once. Borers when disturbed and covered set out to find new shelter above ground.

If there isn't any trash available to harbor the borers they soon die. They dry up or are eaten by toads, birds or even ants, according to Hutson. A good job of plowing leaves no trash on the surface. Various methods for getting cornstalks covered have been tried, but any method that works will help control the corn borer.

Invaded Orchards

Before the ant and the mealybug were brought under control, almost all of California's thousands of acres of valuable citrus trees had been invaded by this pest.

Scatter Nest Eggs

If hens have gotten the habit of eating eggs, scatter nest eggs around on the floor. Picking at these will help a lot to stop the trouble.
