Chelsea F.F.A. Chapter Sends Cats To War

The Chelsea F.F.A. has sent its first shipment of live cats to the General Biological Supply House in Chicago. The cats are treated in the most humane manner possible. After being chloroformed, they are treated with preservatives and sent to biological laboratories all over the United States.

Students who plan to become doctors, dentists, veterinarians, nurses, or medical corps workers at their preliminary training in animal physiology through the study of cats and other animals. At present there is a great demand for cats because of the needs of colleges in connection with the Navy V-12 and Army Specialized Training programs. In their work of collecting and shipping cats, the F.F.A. boys are making a valuable contribution to the war effort.

Sponsor Bible Reading Plan
A nationwide plan for Bible reading is being sponsored by the Christian churches of America, from Thanksgiving until Christmas. Passages have been selected by a canvass of pastors and chaplains as the most helpful in times like these. Here are the selections for the first week: Thanksgiving Day, Ps. 103; Nov. 24, Jno. 14; Nov. 25, Ps. 23; Nov. 26, Ps. 1; Nov. 27, Matt. 5; Nov. 28, Rom. 8; Nov. 29, 1 Cor. 13; Nov. 30, Ps. 91.

Will Add 15,000 Square Feet of Floor Space To Provide for Post-War Production of Springs.

Expansion of Chelsea's industries in preparation for post-war business is given added impetus by announcement of the Chelsea Spring Co. that they are making preparations for the construction of a new building, and installation of new equipment, the cost of which will approximate \$200,000.

In anticipation of the expansion program this company purchased the Oosterla property adjoining their plant, and also purchased a parcel of land from the village, approximately 200x300 feet, lying to the north of their factory buildings.

According to Chelsea Spring Co. officials, construction of a building which will add 15,000 square feet of space to their plant, will be started as soon as they can obtain priorities for materials. The new unit will be an extension to the north of their present buildings. New equipment for post-war production will be added in the near future.

All facilities of the plant are now engaged in the manufacture of war materials. Their peace-time products include flat and coil springs of all kinds used in the manufacture of automobiles and farm implements. This company is recognized as one of the outstanding spring manufacturers in the United States.

About 200 people are now employed at the plant and it is estimated by company officials that post-war employment will easily reach 300 men and women.

Chelsea Spring Co. is a subsidiary of Falls Spring & Wire Co. of Detroit. The local factory was established about five years ago, and a high rate of production has been maintained in the pre-war period as well as since the war started.

Officers of the company are: Wm. A. Falls, of Detroit, president; L. H. Heuer, of Chelsea, vice-president, and general manager of the Chelsea division; Harry Swanson, of Detroit, secretary-treasurer.

Appreciation Dinner To Be Given Scout Leaders

Leaders of Scout Troops, Cub Packs and Senior Scout groups carry on their work of enriching the lives of boys every week in the year, but once each year they are invited to participate in the fellowship dinner given in their honor. The Annual Appreciation Dinner for troop leaders will be held in the newly refurbished dining room at Camp Newkirk on Tuesday evening, December 19, according to an announcement made by Daniel Ling, chairman of the committee on leadership training.

Open House Saturday At Frozen Food Plant

Lewis Bernath and L. R. Heydlauff, owners of Frigid Products, announce that they will hold open house at their frozen food locker plant, in the Wilkinson building, North Main street, on Saturday, November 25. The entire plant will be in operation by that time.

An inspection tour through this frozen food plant is very interesting. To start at the beginning of operations is to view the service entrance at the rear of the building, where animals are unloaded and carried into the plant on a conveyor; they are weighed while hanging on the track, and then taken to the chilling room to remove animal heat; moved to an adjoining ageing room for tenderizing; then to the processing room, where the meat is cut, wrapped, each package stamped with date, kind of cut such as roast, stew, etc. It is then taken to the sharp-freeze room for quick freezing, after which it is placed in individuals' lockers.

Also included in processing equipment is a meat grinder, steam lard renderer and a hydraulic lard press; an electric brine pump with which to pump a solution into hams for curing, following which they hang for three weeks before being smoked.

A total of 472 lockers have been installed in the plant, and most of them have been rented.

Chelsea's new locker plant is one of the most modern systems in the state, and it will be well worth taking a little time on Saturday to see this fine new enterprise in operation.

Football Players Do Too Much Celebrating

About 25 young men, members of the Chelsea high school football squad, were so elated when they defeated Manchester last Thursday afternoon that they went into a huddle and decided to outsmart their teachers. Consequently, they failed to show up at school on Friday, and were all smiles to think they were "putting one over" on the faculty. However, the corners of their mouths curved in a different direction on Monday when the "powers that be" ordered them to remain after school for one-half hour each afternoon for an indefinite period. Sympathy is extended to the teachers who have to face this disgruntled group each evening for the next few weeks, or until the sentence is suspended. Advice to school authorities—schedule all such events on Friday nights and the boys' enthusiasm may be worn off by Monday!

Pvt. Harvey Lixey left last week for Fort Knox, Ky. after spending a ten-day furlough with his family here. Harley Prudden, RM-1C, who is attending Monmouth College, Monmouth, Ill. spent the week-end with his parents, Mr. and Mrs. Harry Prudden.

PIN CHATTER

(November 15)

We had eight absent bowlers last week—hurry back, girls.

J. Hubbert and A. Harris were high with seven splits Wednesday night. That's hitting the head pin "once too often."

D. Ashley had a nice series. She had 509—190 was her last game. Nice going, Doris.

G. Klumpp picked the 4-6-7 split. M. Heselschwerdt picked the 3-10. That's a good way to save your pennies!

P. Resseque and J. Crocker were the only girls who didn't have any splits. Gee, that must be a swell feeling.

What happened to our girls—only sixteen were at the party. You missed a good time, and good eats.

There are only two teams tied, and that's the Old Maids and Central Fibre for eighth place.

From watching our new bowlers, I can see we're really going to have some good ones next year. Most of them have improved a lot since we started in September.

Central Fibre Girls Lose to Fibre Men
Sunday night the Central Fibre girls' team challenged the Fibre men's team to a match game. The girls got off to a swell start in the first game, with a score of 723 to the men's 688. In the second game the girls were a little behind with 774 to the men's 827. P. Wedemeyer helped the score by her 200 game. In the last game the men put the game on ice—they had 883, the girls 755. Each team had a substitute and they were both high—Wedemeyer had 478, T. Jarvis had 519. The girls said "next time things will be different." I think they weren't kidding.

THAT'S COOKIN' WITH GAS!

... when over
16 million homes

... tell the census takers
they cook with GAS

Gas is by all odds the preferred fuel for cooking, according to the latest figures released by the U. S. Bureau of Census.

This nation-wide preference will cause no surprise to CHELSEA families, who overwhelmingly consider Natural Gas as the ideal cooking fuel.

Its flexibility, its economy and its convenience give it this high popularity rating. Any hour day or night it responds instantly with the clean blue flame. It is easily controlled to give you any heat volume desired.

Other advantages of Natural Gas as the ideal fuel are that it does not have to be ordered or paid for in advance, does not have to be stored on the premises, yet is ever present as the silent, invisible servant when needed.

OFFICE NEWS

School will be closed Thursday and Friday of this week for Thanksgiving.

WHAT HAVE WE TO BE THANKFUL FOR?

Let's go back for a moment and consider what we have to be thankful for.

We can thank God that our country is still united and not under Nazi power. Thank Him that no bombs have dropped on our soil. EVERYONE has many personal things to be thankful for. Yes, even the Japanese can thank God for not having more American planes over Tokyo. Let's make this Thanksgiving not only a day for feasting, but for really thanking God. Let's make it a day of prayer, united prayer, with every one praying that soon our boys will be home again, and that we will go back to a peace-loving country, with freedom for all.

MY GUEST

I would like you to come along with me on a bird's-eye view of a study hall in good old Chelsea High. It is late in the morning and it is a dreary day outside but inside it is beaming. I mean you'll see Miss Beam (trying to keep her study hall quiet. It consists of all grades, that's why it's so noisy. Some are Seniors and they, too, are troublesome. I just looked up and what do you know—the study hall is quiet. I guess the students figure it is time to get to work. There is English to do, Latin to do, geometry, algebra, chemistry, civics, government, shorthand and typing if there is time. The floors are clean, the desks look as if it's time to go. Oh, I see why—only five minutes before the bell dings. Students are pleased because they can go home for dinner. It reminds me I'm hungry so I'll say we have enjoyed your visit and hope you'll come again.

PEP MEETING

Wednesday night at 8:00, many of

the high school students met in the gym. The band played and they paraded around town, carrying banners. When they returned to the gym, some of the boys gave short talks and also Mr. Cameron and Mr. Johnson spoke. Cheers were given and the band played the school song.

CHORUS

We are practicing for the Christmas Cantata.

Mr. Alpers has made a music file for our music folders.

BAND

The Band will give a concert December 15 in the school auditorium. Featured soloists will be Nathan Anderson, cornetist, Anthony Desiderio, clarinetist, members of the University of Michigan Band.

There are twenty-six members of the junior high school band. More are planning to join as soon as they can get instruments.

The band played for the pep meeting Wednesday night. They also led members of the student body to the field on Thursday before the game. Several numbers were played during the game.

SENIOR NEWS

The seniors had their last outdoor Senior stand last Thursday and they wish to thank everyone for their patronage.

The staff for the Annual has been chosen:

Editor—Stanley Weir.
Assistant Editor—Joyce Hoffman.
Advertisements—Duane Luick.
Boys' Sports Editor—James Carra-

Girls' Sports Editor—Ruth Paul.
Picture Editor—Ileen Loeffler.
Activities Editor—Robert Gross.
The business manager has not been chosen and the typists are yet to be named.

STUDENT COUNCIL MEETING

The meeting was called to order by the president, Duane Luick made the motion that a "suggestion box" be placed on the study hall desk. The motion was seconded by Bragdon Bar-

low. The motion carried. Douglas Vogel was appointed to make the suggestion box.

Clara Miller made, and Douglas Vogel seconded the motion that Nancy Loose be appointed chairman of the Christmas program. The motion carried.

The fact that objects are being stolen from students' lockers was discussed but it was decided to wait and act upon it at the following meeting. The meeting was closed by the president.

G.A.A. NEWS

The girls have a good start in basketball.

They put on a skit last Friday night for the party which was sponsored by the Athletic Board.

SENIORS OF '45

"I was a wee bundle found on the doorstep of the Umstead home 18 years ago. On October 5, 1926, Marjorie Marie Umstead made her first personal appearance. Marjorie has blue eyes and light brown hair. She weighs 120 pounds and is five feet two inches tall. Her favorite color is blue and seems even to be in her favorite song—"I'm Thinking Tonight of My Blue Eyes." After seeing a basketball game or going to a show (inciden-

tally "Home in Indiana" is tops with her) she is always ready to sit down to her favorite dish—southern fried chicken.

Rosemary Angela Lyons was born on April 23, 1927, and right here in Chelsea, Mich. Rosemary has brown eyes and dark brown hair. She weighs 117 pounds and stands 5 ft. 3 inches in her stocking feet. She has quite a few favorites. A few of these are the color red, steak and French fries, football and basketball, and the song "Long Ago and Far Away." The show that she ranks highest is "I Love a Soldier." Can anyone guess why?

FOOTBALL

By John Wellnitz

Chelsea 33—Manchester 0

Chelsea won the toss and chose to defend the north goal. Manchester chose to receive. After two plays from scrimmage Chelsea intercepted a pass to give Chelsea the ball on the 30. On the second play Slane, behind good blocking by Smith and Barlow, went over standing up. Giggy Carraher, with May holding, kicked the extra point. Captain Gaken kicked off to the end zone. Barlow intercepted another pass to give us the ball. On the third play, with May and Dietle leading the interference, went 30 yards for the touchdown. The pass

from center was fumbled but Carraher made a nice attempt to run the ball over but was stopped.

The second quarter produced only one touchdown as most of the regulars took a rest and let the other boys play. Knickerbocker went four yards through the middle of the line to score. Carraher's kick was blocked. Both teams had the ball but no serious threat was made by either team before the half ended.

With the regulars back in and Gaken kicking off, Manchester was unable to move the ball hardly at all. Chelsea then took over the ball and worked it to the 5-yard line. Eise-mann, our tackle, took the ball from Barlow but could not score on two plays. Slane took the ball over with very good blocking. May kicked the extra point.

In the fourth period came Captain Gaken's chance to score. Gaken put himself back from tackle to the full back slot. He carried a host of players with him as he went over the line. May again split the uprights with Carraher holding the ball. The last play of the game was Gaken intercepting a Manchester pass and making a beautiful run. Final score 33-0.

I think and the players think, congratulations should go to Coach Cameron for his fine coaching. I think

congratulations must go to the team for their fine sportsmanship and team work.

The boys playing their last game in high school are Captain Gaken, Donald Eise-mann, Roland Robards, Donald Eder and James Carraher. The two boys playing their probable last game are the Juniors who expect to leave for the armed forces before June—Charles Slane and Marion Dietle.

The rest of the team will want your support next year, so give it. Basketball starts in a few weeks, so come to see a fast-moving game.

GRADE NEWS

Kindergarten

A new boy has joined the kindergarten, making the enrollment 26 again. We are working on a farm

project and are making a wall picture of a farm.

Fourth Grade

In geography we have started a new story about the Kazaks who live on the steppes of Russia. Miss Brown read us a story about the Egyptians who lived long ago. Most of us liked it very much.

We put our celery in colored water and some beans in a wet cloth and some in a dry cloth to see how plants use water.

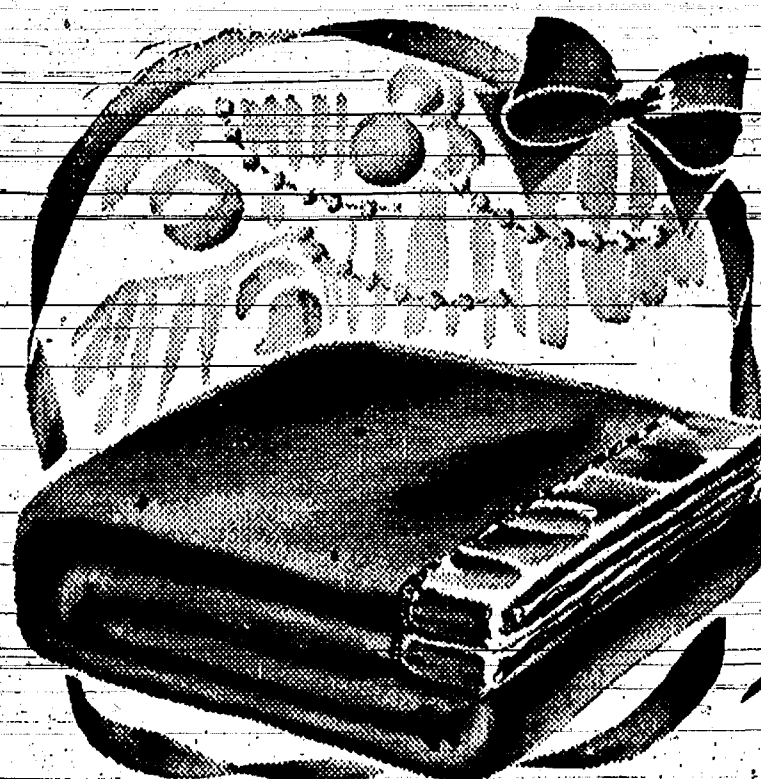

In drawing we are making a Thanksgiving landscape. Twelve people bought \$6.20 in defense stamps this week.

Fifth Grade

By Evelyn A. Woods
In history we are studying the Middle Ages. We are making a castle out of cardboard. We are tearing paper in small pieces and pasting them on walls and towers to represent stones. Some of the boys are making cardboard shields. They are pasting designs on them after they are painted white. We are having a Thanksgiving play next week. Everyone is taking part in the production entitled "The First Year at Plymouth."

We are also making weather booklets. We are putting pictures in to illustrate each story. We have to (Continued on page nine)

A Prayer of Thanksgiving

God of our fathers

...at this Thanksgiving time our hearts are filled to overflowing... our eyes, once wet with tears, are drier now... and broken hearts are surely mending because of Thy blessings unto us. A mighty fortress is our God!... And that Divine guidance which has always been our priceless heritage is showing us the way! For this we offer thanks. Thou hast stood beside our leaders... our loved ones, departed... and those who have remained at home. Thou hast given us courage and led us victoriously into battle... to build those things which Thou hast taught us to be righteous! For this we offer thanks. May we in turn bring to Thee, as proof of our devotion, the day when righteousness shall cover the earth... as the waters cover the sea.

PUSHOVER?

DON'T TELL PRIVATE JONES THE JAPS ARE EASY

THE JOB IN THE PACIFIC IS STILL TERRIFIC!

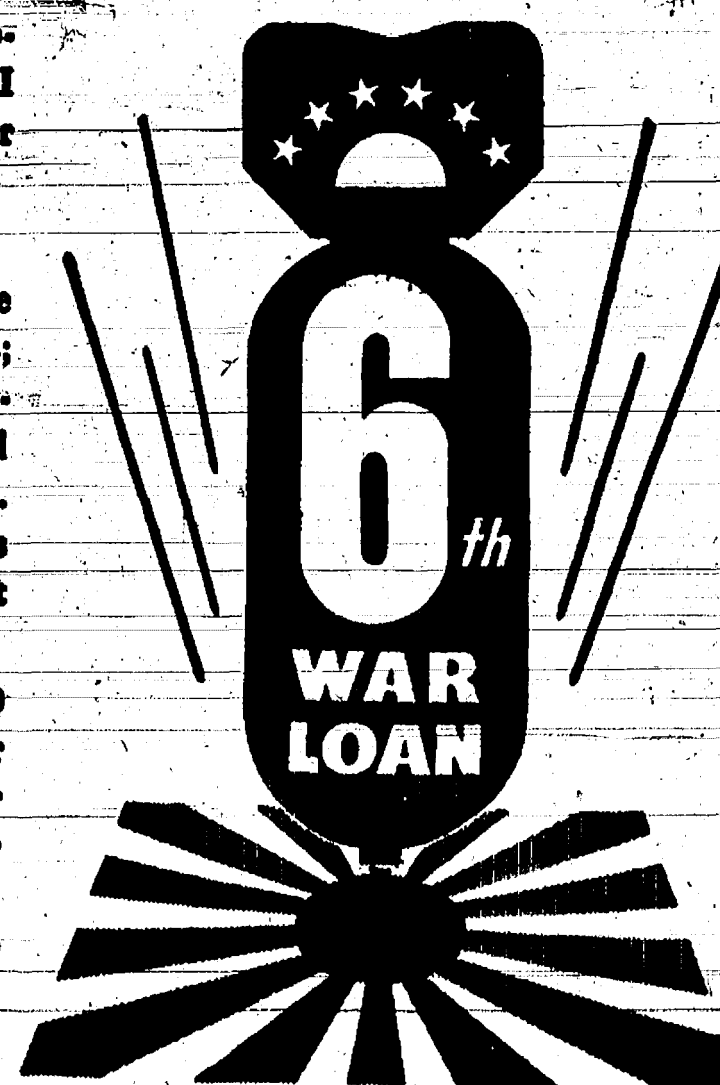

THERE ARE STILL MILLIONS OF TOUGH, BRUTAL JAPS TO LICK. EVERY JAP WE KILL MAKES MY CHANCES OF GETTING HOME BETTER, AND IT COSTS PLENTY TO KILL A JAP

IF YOU think Japan is a pushover—you're fooling yourself, mister. Millions of fanatical Japanese are prepared to die for their country. Every American soldier, marine and sailor in the Pacific knows that he has a tough fight on his hands. You can't tell them *their* war is over! Even as you read these words, American men are dying in the fight against Japan.

Look into your heart and ask yourself honestly: "Have I stopped fighting? Have I stopped buying War Bonds because I think the war is about over?" You're not a quitter; your answer is "No!"

It costs billions of dollars a month to fight Japan
The fight in the Pacific calls for a highly specialized type of equipment. B-29 bombers that cost \$600,000 in War Bonds; M-4 tanks with bulldozer blades that cost \$67,417; "alligators" that cost \$30,000; millions of gallons of gas. We need more and costlier equipment than any war has ever called for. And that's the reason for the 6th War Loan Drive. Just as long as a single Japanese aims a gun at our men—we must continue to buy War Bonds.

Once again you are asked to *buy at least one extra \$100 War Bond*. Buy more if you possibly can. Not only is it for the *final* Victory—it's for your future. Sign up for extra War Bonds on the Payroll Plan. Welcome the Victory Volunteer when he or she calls at your home. Remember—the job in the Pacific is still terrific. *We're out to get Japan in the 6th War Loan Drive!*

YOUR COUNTRY IS STILL AT WAR—ARE YOU?

is emphasized by these facts: In 1916, a peak production year before we entered the first World War, Michigan copper output was 270 million pounds. By 1943 it had declined to 23.4 million. On a basis of national production, the drop is still more significant. Keweenaw district turned out more than 75 per cent of the nation's supply in 1916; it was only 2 per cent in 1943.

When a Michigan service man becomes a patient at any government hospital in the U.S.A., a native of Michigan promptly calls to pay him a visit. It's one of the unique services of the Office of Veteran Affairs, headed by Col. Phil Pack.

Toys for Christmas will only reach about 15 per cent of pre-war volume. Quality will be better, however—if that's any consolation. Because of shortage of manpower and transportation, retailers are starting a movement to encourage Christmas gift shopping early in November—just after the election!

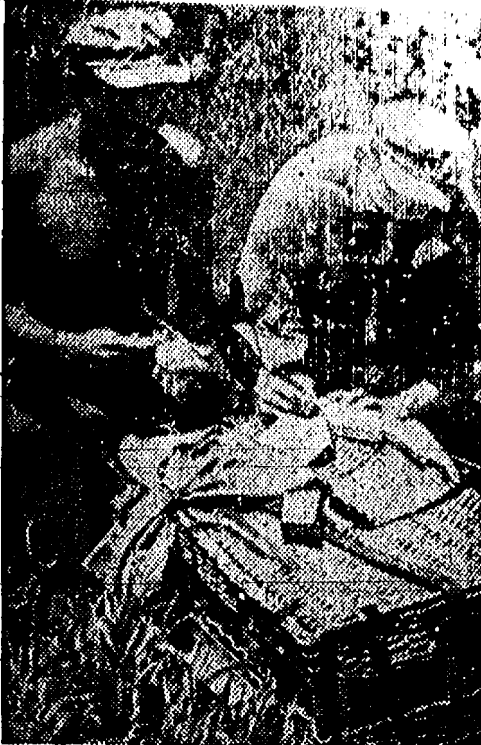

Much misunderstanding exists, it seems, about those \$2,000 loans available to returning servicemen. The law provides for loans, not gifts; the loans may be used to buy or build homes, purchase businesses, or buy farms. But Uncle Sam doesn't make the loans. He merely guarantees loans when made by banks, saving and loan companies, insurance companies and others, if the loans meet certain qualifications.

Small towns are still tops! From Domestic Commerce, monthly publication of U. S. Department of Commerce: "If high levels of employment and exchange of goods are to be maintained after the war, the small town cannot be neglected. Take the case of towns of less than 25,000 population. Together with unincorporated rural areas they embrace 60 per cent of the entire population of the country. Even towns of less than 10,000, if taken with the rural areas, total as much as 55 per cent of the whole population."

Grand jury investigations are still under way at Lansing. More indictments are expected soon.

WAR BONDS

American soldiers in the Admiralty Islands write a message and attach the container to the leg of a carrier pigeon. The pigeon "air force" does an invaluable job in communications in the difficult kind of warfare we are up against in the Pacific. Your War Bonds helped to train this "air force." Keep up your Bond purchases until G. I. Joe reaches Tokyo. — U. S. Treasury Department

Indicates that the race problem there is far from being solved. Riots in 1943 resulted in the death of 25 Negroes and nine white persons. Trouble is feared when war plant cutbacks force Negroes with little seniority out of highly paid jobs.

With nearly 2,000,000 tractors on American farms, output per worker has risen more than 50 per cent since the beginning of the century. More food, fewer farmers—what's the answer? Chemistry may be it, whereby human and animal foods will become raw materials for industry. Example: Soybean for automobile fenders!

Newsworthy quotations of persons in the news:

"The amazing thing about America is that she has armed her allies and herself in addition to providing her own people with an actual increase in civilian purchases."—Keith Murdoch, managing director, Melbourne (Australia) Herald.

"We are developing a generation of money-rich and character-poor Americans."—J. Edgar Hoover, FBI chief.

"The necessity of our fight is being approved by the whole German people but mainly by the youth."—Hitler, quoted by German radio, praising young Germans "fanatical will to sacrifice."

"You'll have to wait."—Sgt. Victor Loomis, Lansing, Mich. (Digging a foxhole when German bearing white flag approached, Sgt. Loomis bade the man stand by until job was finished. He then accompanied prisoner to a machine-gun nest where nine German privates and an officer also surrendered.)

"... Absolutely unnerved and calm over the news."—Adm. Kiyoshi Hasegawa, gov.-gen' of Formosa, commenting in unintentionally paradoxical English on 1000-plane raid.

"I certainly wouldn't advise women who don't have corsets to do too much sitting down."—Gracie Allen, commenting on threat of British women to stage sit-down strike if corset shortage isn't relieved.

"Most girls under 20 are too immature to be running loose in Washington."—Ray H. Everett, executive secretary Society Hygiene, urging that

all 'teen-age government girls be sent back home.

"Newlyweds are my best customers. Blessed if I can see why—they always look at each other and never see much of the scenery."—John Donahue, who drives old-fashioned carriage in New York's Central Park.

"You can't win wars with a warehouse. A depot can't fight. It takes men to man machines."—Herbert R. Hill, news analyst, emphasizing importance of ground forces in coming Pacific war.

"I don't know why I did it. It just seemed like a good idea at the time."—Edward J. Doregokleets, who hurled three eggs accurately at "The Voice" (Frank Sinatra) during concert in New York. Marooned in the midst of a thousand irate bobby-sox fans, four policemen were required to escort him to safety.

Bronchoscope
The bronchoscope, used by the medical profession to remove foreign particles from the lungs, is proving extremely valuable in the manufacture of airplane engines. It is used to check the interior of oil and cooling lines where it searches out invisible flaws in the drilled metal and clears the way to super engine performance in the air.

OUR PART HAS BEEN EASY...

Let's **PROVE** Our Thanksgiving!

You've had bigger profits—
NOW BUY BIGGER BONDS

This is a BIG farm year—Now Buy BIGGER Bonds!

Here are 6 big reasons for buying the most you can—\$100, \$500, \$1,000—in the big 6th War Loan. War Bonds give you:

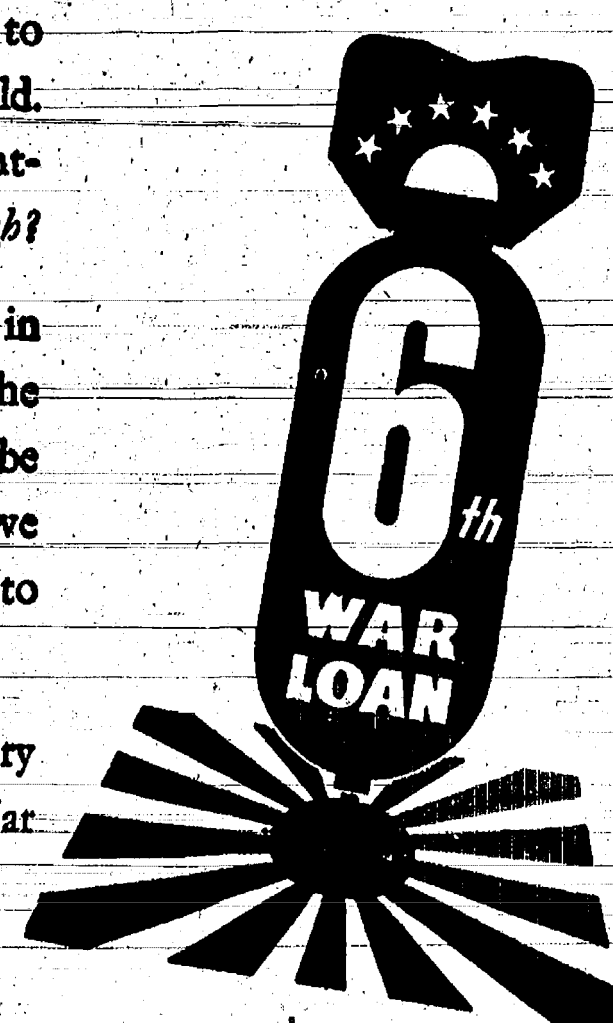

1. The best and safest investment in the world.
2. At maturity, \$4.00 for every \$3.00 you loan.
3. The convenience of cash—plus increase in value!
4. Funds to replace and restore worn-out farm equipment, soil fertility, and buildings.
5. Funds for educating your children; a nest-egg for your own security, travel, retirement.
6. The increased purchasing power vitally needed to win the Peace.

THEY still die—will YOU buy?

FARMERS have much to be thankful for this year. Before you sit down to that big turkey dinner, ask yourself if you've done the best you could. Lending money is the *easiest* part of the war effort—but it is as essential as fighting. We don't need to ask if they're fighting enough. *Are you lending enough?*

It's been a mighty good year for farmers. So far it's been an easy war in general for us in the United States. *But it isn't over yet!* Not by a long shot. The biggest part of the job is still ahead. The war against Japan will probably be history's costliest. One average Navy task force costs 2 billion dollars—and we need many of them. Even *one torpedo* costs \$12,000! And one Superfortress to bomb Tokyo, \$600,000.

Your dollars are urgently needed—now more than ever—to speed victory and insure America's future. *Prove* your Thanksgiving. Buy the biggest War Bonds you can—NOW!

Sixth Grade

In our room, some of the pupils started in junior band. At our last lesson we elected officers. They are: President, Mary Jane Jarvis; vice-president, Duane Gentner; secretary,

Evelyn Woods; treasurer, Buddy Johnson; sergeant at arms, David Crocker; assistant sergeant, Stanley Knickerbocker.

We are very glad to have Dona Osborne back in school. He was out because he was quarantined for scarlet fever.

Seventh Grade

By Marlene Schneider

We recently had a spell-down by rows to secure row champions, who were Betty Ingram, Peggy Schabie, Phyllis Platt, Marlene Schneider, Merilyn Johnson, and Virginia Christwell. Then one day we spelled down the champions, and almost had to declare a tie between Peggy Lou Schabie and Merilyn Johnson. The latter finally won.

We have nearly enough squares for an afghan, and are now starting on a search for someone who has the time, the patience and the inclination to sew it together for us.

We are planning a big stamp auction next Wednesday as our part of the sixth bond drive.

There were two afternoons last week when everyone was present; this happens only rarely. In English we made up conversations and gave them before the class.

THANK YOU

I deeply appreciate the kindness of the Odd Fellows, friends and neighbors, during my illness.

A. B. Shutes.

COLD FACTS about work shoes are that Wolverine Shell Horsehides always dry out soft, pliable and comfortable as old slippers even if you drown 'em in water, then keep them frozen in ice for weeks or months. That means never any tiring stiffness to slow you down and lower your efficiency. What's more, Wolverine's super-comfort costs you nothing. They're the only work shoes with both soles and uppers of genuine, triple-tanned Shell Horsehide—and that means they'll stand up to the toughest kind of service to give you months and miles of money-saving extra wear. Why not drop in and look 'em over? Quality Shoe Repair. -18
