Vets' Counseling Center To Open Here On Jan. 6

The executive committee of the local Council of Veterans' Affairs—Wm. G. Kolb, chairman, Albert Johnson and Florence Mayer—have been steadily working on the organization of the Council's sub-committees and a Veterans' Counseling Center for the Village of Chelsea and vicinity.

The Veterans' Counseling Center will be opened on Saturday, January 6, 1945 at 1:00 o'clock at the Ration Board Center, North Main St., and every week thereafter. Mrs. Florence O'Hara has been named the Counselor, and sub-committees are as follows:

Re-employment and New Placement—Federal Screw, Leonard Thomas, chairman; Central Fibre: E. W. Eaton, chairman; Chelsea Spring Co.: L. Davidson, chairman; Chelsea Milling Co.: Howard Holmes, chairman; Dexter Machine Products, Inc.: Dale Claire, chairman; Farm Employment: Fred Broesamle, chairman.

Rehabilitation (Physical)—A. D. Mayer, chairman, Lloyd Heydlauff. Health (Physical-Mental)—Dr. Quirk, chairman, Dr. Paul, Dr. Gulde, Dr. Sibbald, Dr. Doyle, Dr. Steger, Dr. Brock.

Education and Vocational Education—Albert Johnson, chairman, Henry Schneider, Mrs. A. A. Palmer, J. V. Burg.

Rights and Benefits—Paul Maroney, chairman, Dr. Quirk, John Keusch, James Hendley, John O'Hara.

Organization and Finance—Carl J. Mayer, chairman, David Beach, F. W. Merkel.

Publicity—M. W. McClure, Mrs. Wilbur Hinderer.

Personnel and Social Problems—Father Laige, Mrs. Frances Alber, Mrs. Agnes Merkel, Ray Grabowski, Mrs. N. Schmidt, Mrs. Carl Mayer, Rev. Skeltonbury, Mrs. E. Eaton, Mrs. M. McClure, Rev. Major, Mrs. W. Daniels, Mrs. P. Olin.

It must be carefully noted that the organization of the local Council and its Veterans' Counseling will not supersede or take over functions or activities of the official service agencies in the community. The Council will be a coordinating, surveying, planning, promotional, informational and counseling agency.

The main function of the Counseling Center will be to provide information and counseling service to all veterans who may apply, to maintain liaison with all existing federal, state and local agencies and to refer cases to appropriate agencies.

With Our Men In Service

Sixth Army Group, France—The 397th Infantry Regiment of the 100th (Century) Division, of which Pvt. Luther M. Kusterer and Sgt. William J. Rademacher of Chelsea, Mich. are members, is one of the newest units fighting on the U. S. 7th Army front in Eastern France—but its members have the satisfaction of knowing they played an important part in the "squeeze play" so thoroughly applied to the German 11th Army.

While French troops spearheaded drives through the Saverne Pass in the north and Belfort Gap in the south, both routes leading to Strasbourg and the Rhine, the principal part of the 7th Army fought relentlessly against the thousands of Nazis caught in the middle. With the French holding the enemy in on the sides, the 397th—and other units of the 7th Army—drove piston-like against the middle.

The 397th began its push, and its baptism of fire, in the dense forests of the Vosges Mountains in the vicinity of Baccarat. The fighting conditions were as tough as any that any troops faced along the extended Sixth Army Group front—the Group consisting of the American 7th and the French 1st Armies.

In addition to a fanatic enemy who fought with the ferocity of a trapped rat, the 397th faced innumerable land mines, booby-traps, and well-prepared defense installations. The weather was cold, it rained frequently and mud was ankle-deep. The forest, covered with a heavy undergrowth, provided cover for Nazi snipers.

But stubborn slugging and skillful maneuvering enabled the 397th to push through Raon l'Etape, Senones and other key towns leading toward the Rhine and the eventual defeat of the last Germans in France.

Vincent Edward Dorer, S-1C, left on Monday for Valljo, Calif., after spending a two-weeks' leave with his parents, Mr. and Mrs. August Dorer. Seaman Dorer recently returned from service in the South Pacific, during which his ship saw action at Wake, Bougainville, Rabaul, Gilberts, Tarawa, Marshalls, Marianas, Guam, Kaibang and Leyte. On Christmas day a dinner in his honor was given at the home of his parents, with covers for 25.

Mrs. Andy Policht has received word that her husband, who is on active duty with the Navy in the Pacific, has been promoted to WT-3C.

Lighting of Athletic Field Is Project of Kiwanis Club

Called To The Colors

Among the Washtenaw county registrants who reported at the Detroit induction center on Tuesday was Richard Harold Bauer, son of Mr. and Mrs. Edwin Bauer of Lyndon township. Richard was born in October, 1926 in Grover Hill, Ohio, but nearly all of his life had been spent in this vicinity. For the past few months he had been employed with the Chelsea Milling Co.

Robert L. Barry, youngest son of Mrs. Guy Murphy, enlisted in the Navy on December 18, his 17th birthday. Robert left for Great Lakes, Ill. on December 22, to start training.

Fire Destroys Two Farm Houses In This Vicinity

The farm home of Mr. and Mrs. Floyd D. Rowe on Bush Rd., Sylvan township, with its entire contents, was completely destroyed by fire, which was discovered about 11 o'clock Monday night.

Mr. and Mrs. Rowe had just retired when they thought they heard a rat rustling among some papers. Mr. Rowe started to investigate and when he opened the cellar door he found the basement in flames. The rooms quickly filled with smoke but Mr. and Mrs. Rowe made their exit safely. The flames spread rapidly and the local fire department, which was called, could render no assistance. There was no damage to the barn or outbuildings.

The fire is believed to have been caused from an overheated furnace.

Fire of undetermined origin destroyed the farm residence of Mrs. Elsie McDaid on Deckert Rd., Sylvan township about 2 o'clock Tuesday afternoon.

The house was unoccupied and the building was all ablaze when discovered by a neighbor, Theodore Quigley, as he was driving to town. The fire department responded to the call. Neighbors removed part of the furniture, which was stored in a single room.

Final 6th War Loan Bond Sales Figures

Chelsea's total 6th War Loan purchases amounted to \$365,203.25. Purchases for the entire period of the drive were as follows:

Nov. 1-18	\$ 12,052.75
Nov. 21 to 27	8,752.00
Nov. 28 to Dec. 4	22,438.75
Dec. 5 to 11	22,775.75
Dec. 12 to 18	36,040.25
Dec. 19 to 31	22,593.75
Corporations total	240,500.00

Grand Total \$365,203.25

These purchases were divided as follows:

"G" Bonds	\$ 1,498.50
"H" Bonds	19,500.00
"E" Bonds	103,704.75
Corporations	240,500.00

Total \$365,203.25

Chelsea has therefore exceeded its total quota by \$45,203.25, which is a very excellent showing, but the fact that the excess can be attributed largely to the fact that Chelsea exceeded its "E" bond quota by \$28,704.75 makes the showing a noteworthy one. Everyone knows that "E" bonds go largely to those who save from their daily earnings, and such purchases are the very best hedge against inflation.

The thanks of the community go to all who, by their purchases and by their hard work, have made this 6th War Loan a success.

HOME FROM SO. PACIFIC

Pvt. Wald C. Horning arrived on Thursday to spend a 30-day furlough with his parents, Mr. and Mrs. Chris Horning. Pvt. Horning has spent the past three years in the South Pacific. He participated in the invasion of the Gilbert Islands and has seen much action during his period of service.

MEMORIAL SERVICE SUNDAY

Memorial services for Staff Sergeant Earl C. Hafey, who was killed in action in Germany on December 6, will be held at St. Paul's church in connection with the regular morning services next Sunday.

Robert Alber, of the Merchant Marine, is spending a furlough with his parents, Mr. and Mrs. Lewis Alber, of Sharon.

After several weeks of preliminary planning, the Chelsea Kiwanis club has announced a drive to raise funds for the installation of floodlights at the public school athletic field on Washington street. R. A. McLaughlin has been named general chairman of the drive, and working with him on the executive committee are Lt. Geo. F. Parish and H. T. Moore.

According to McLaughlin, the Kiwanis club has set its goal at \$3,000, which it expects to obtain through contributions from local industrial plants, and from net proceeds of a minstrel show which the Kiwanians are planning to stage on February 9 and 10. Included in the latter venture will be the proceeds from an advertising program which is being promoted by the club, which will represent contributions from business men and individuals who endorse the athletic field improvements. Industrialists have already expressed their desire to contribute liberally toward this project.

This campaign to modernize the athletic field was prompted by the fact that factory workers, business men and their employees, and others who are steadily employed are unable to attend high school athletic events during the day, with a lighted field all such events would be scheduled in the evening and everyone would have the opportunity of attending. It has been ascertained by the committee that in a nearby town with a population about the same as Chelsea's, installation of floodlights increased attendance at school athletic events about 500 per cent. In addition to affording a greater number of people the opportunity of enjoying these events, the increased receipts would make the school athletic association self-supporting, rather than drawing on school district funds, as is now the case.

Benefits to be derived from a lighted field are not confined to the school events, as pointed out by sponsors of the project. Lighting of the field during the summer would provide many additional hours of enjoyment for softball players and for other sports which will be provided. The village council passed a resolution at a recent meeting to furnish lighting for the field during the summer months, when the field would be operated under the supervision of the Chelsea Recreation Council and would be open to the public. It is planned to provide shuffleboard, croquet and horseshoe courts which would also be lighted so players could use them later at night. In order that the Recreation Council may be self-supporting, it is possible that a small admission fee may be charged at summer athletic events.

Manufacturers have tentatively agreed to furnish lights and other materials this coming spring so they could be installed in time for use during the summer recreation season. Lt. Parish has agreed to furnish prison labor for a major part of the installation work, which will greatly reduce expenses of the local sponsoring group.

The drive is gaining momentum this week. Manufacturers are being contacted for their contributions, and a Kiwanis committee is selling advertising in the minstrel show souvenir program. This committee consists of R. W. Wagner, chairman, John Perini, A. D. Mayer and N. E. Phelps. Rehearsals for the minstrel show, to be directed by P. F. Niehaus, will start in the near future.

The Kiwanis club, the village council, the board of education, and other backers are to be commended for their support of a project which will provide greater recreational facilities for the people in Chelsea and surrounding community. There is a real need for more recreation during these strenuous times—and it will be needed and appreciated by our boys when they return from the far-flung battlefronts. Let's all back this public-spirited project—the goal should easily be over-subscribed, and if it is there are many other improvements which could be made at the athletic field, including additional parking space adjoining the field.

ANNUAL MEETING

The annual meeting of the Chelsea Cooperative Association will be held at the Council Room, at the Sylvan town hall on January 18, 1945 at 2:00 p.m. for the purpose of electing officers for the ensuing year and such other business as may come before the meeting.

(Signed) W. H. Elsom, Secretary-Treas.

Mrs. Frank Shamp died Sunday, January 2, at Mt. Clemens. Her early life was spent in Manchester. She was the daughter of Mr. and Mrs. William Faber. Surviving are her husband, father, one brother—John—Faber of Chelsea and three step-brothers. The funeral was held from the home of her brother John on North street, conducted by Rev. H. R. Beatty. Interment in Oak Grove.

Mr. and Mrs. C. Lehman are moving to their new home on the corner of Main and Summit streets.

Mrs. O. C. Burkhardt is nursing a badly injured arm as a result of a fall at her home last Saturday.

Elba Schatz left Sunday for New York where he will be the guest of the Black & White cigarette company, which he represents in this vicinity. The Chelsea high school basketball

team went to Ann Arbor New Year's Day and played the Ann Arbor Midgets. Score 28 to 4 in favor of Ann Arbor.

Bernice and Nina Evans gave a farewell party at the home of Mrs. Fred Widmayer Monday evening in honor of Dorothy Cavanaugh, who left this morning for Los Angeles, Calif. About fourteen friends were present. Refreshments were served.

Dr. and Mrs. A. L. Brock returned the first of the week from a two week's visit with relatives in Pennsylvania.

Grandma Fish of Sylvan had the misfortune to fall one day last week and injured herself quite seriously.

Clarence Widmayer of the Great Lakes Naval Training Station, spent his holiday vacation at the home of his mother, Mrs. F. G. Widmayer.

There will be about seventeen million women qualified to vote in the coming presidential election, and with a well-known tendency of women to change their minds, it may be better imagined than described how this multitude of uncertain voters are going to keep the party managers in agonized guessing.

34 Years Ago

Thursday, January 5, 1911

Sunday, January 1, Wesley Canfield and Sarah Letts celebrated their golden wedding anniversary at their home

on the Manchester road. The celebration lasted all day, and although seven of the sixty-two guests who were present at their wedding, are still living, none of them were able to attend. Congratulations were received from California, Colorado, Detroit and Howell. There were also numerous and costly presents consisting of a string of gold beads for Mrs. Canfield, gold plate, gold spoons and gold coin as well as postal cards without number.

F. A. Glenn took a sleigh load of young people to Gregory Saturday evening.

Attorneys Turnbull and Kalmbach of Chelsea were at the Lyndon town hall on Thursday to attend a lawsuit for their respective clients, Bert Wallace vs. Alfred Wallace before Justice Aaron Snyder, over the ownership of a cow. The case was settled before coming to trial.

The Farmers and Merchants bank of Chelsea was at the Lyndon town hall on January 1 declared an annual dividend of five per cent.

The Chelsea meat markets, beginning next Sunday, will hereafter be closed on Sundays, and they have also decided to close their markets week-day evenings at 8:00 o'clock, Standard Time.

Chas. H. Young has accepted a position in the Chelsea freight office of the Michigan Central.

George Kink of Lyndon is in receipt of a letter from his parents in Horeberg, Wurttemberg, Germany, announcing that they celebrated the fiftieth anniversary of their marriage on Nov. 27, 1910. Mr. Kink has been a resident of this county for 20 years.

H. R. Schoenhals commenced filling his ice house at Cedar Lake, Wednesday. The ice is between eight and nine inches in thickness.

Theo. Widmayer has resigned as janitor of the public schools. The board has employed Wm. Wright to fill the vacancy.

Do you know which is the more deadly, accidents or disease? You don't? Well, the answer is accidents. Accidents kill more persons between the ages of 3 and 24 years than any disease.

Between the ages of 3 and 38, accidents rather than disease kill more males. Among men of all ages, only heart disease and cancer take more lives. Among females of all ages, however, accidents are not so deadly. Yet accidents still take the lives of more women than tuberculosis.

If only we could rouse the country to the seriousness of these statistics! For once aroused, Americans would join in the battle to prevent accidents. Accident prevention is every American's responsibility.

PIN CHATTER

(December 27)

D. Eisenman had high three-game series for this week. She had 490—that last split spoiled her 500 series.

We have three teams feudin'. They are the Five Crown, Varbi, Independents—they've been tied for third place for night on three weeks!

The Old Maids won their last game by three pins—that's awful close, either way.

R. Johnson had a funny set-up Wednesday night—the 5-9-10. By wishing, and a little good luck, she hit the 5 pin just right to knock the 9 and 10 down.

V. Wheeler had her time of getting splits this week. She had eight. Guess we all get 'em sometime.

The CIO and Independents both ended up with the same total for three games. The CIO had a handicap, but they're the first teams who have had the same total.

The foul boy rang the bell at the wrong time, so J. Czarnecki and A. Harris thought. It robbed Jerry of a strike, and Andy of a spare. The moral is: buy smaller shoes, or rub them with shortening.

We have four girls who have really raised their average since bowling started. They are: R. Lienhart, 33 pins; J. Floyd, 31 pins; J. May, 29 pins, and D. McClear, 28 pins.

Michigan To Get Fifty Millions for Highways

Lansing—Michigan will receive approximately \$50,000,000 in federal aid for its postwar highway construction program, the money to be available at the rate of \$16,666,666 a year for each of three years and to be matched 50-50 by the state, Charles M. Ziegler, State Highway Commissioner, reports.

The postwar highway aid bill was adopted recently by Congress and sent to the White House for the President's signature, after two years

of congressional deliberation on various road aid bills offered in both Senate and House.

The new bill makes available \$500,000,000 a year for three years to the various states; \$100,000,000 of the first year's allotment to be made available early in 1945 for use on surveys, plans, construction and right-of-way. The rest of the federal aid money would not be available until the present war emergency is declared ended by Presidential or Congressional decree. Michigan would receive \$8,250,000 of the initial \$100,000,000. The

new act provides Congress shall appropriate this money within 30 days after the postwar aid bill is approved by the President.

The annual \$500,000,000 appropriations would be divided among the states as follows: \$225,000,000 for the federal aid system highways, \$150,000,000 for secondary and feeder roads and \$125,000,000 for urban areas. In Michigan this would mean \$8,835,000 annually for roads on the federal aid system, \$1,135,000 annually for secondary and feeder roads and \$5,718,000 for urban areas.

OFFICE NEWS

School opens Wednesday, January 3. Saline plays basketball here on Friday, January 5.

ASSEMBLY

On the last day of school last year, high school students heard a very interesting talk by Lt. George Winans, who told some of his many experiences abroad, and of the two times he was shot down. Lt. Winans met Capt. John Fletcher overseas, and spent some time with him. This was a treat for both boys. The student body wishes to thank Lt. Winans for the time and effort he spent on us. His talks were enjoyed by everyone. We would like to wish him the very best of luck in all of his new undertakings.

Journalism Service Letters—Help Wanted

Since school opened, the Journalism Club has sent six regular letters and a Christmas greeting to each of the service men whose address was submitted by friends or relatives. The letters include some school news, some town news, information regarding the men and women in service, some sport news, a joke or quotation if possible. Each letter fills two closely typed pages of fourteen-inch paper.

1. Doubly guaranteed in writing to be perfect;
2. Individually registered in owner's name;
3. Insured against theft, fire and loss;
4. One uniform national price on scaled-on tag.

SEE YOUR

AUTHORIZED Loyalty JEWELERS

Fewer than 150 (of the more than 400) addresses have been submitted to the club, in spite of repeated requests. True, there are probably many men who get "all the news" from home; but more do NOT. Please submit addresses of all friends or relatives if you think they would be interested in the service letter. Further, please advise the club IMMEDIATELY of any change of address. The club would be grateful, also, for news of local service-folk. Boys on other sections of the globe are very pleased to hear of anyone from home who is within reach during a short leave, and if we can give locations, addresses, etc., it is quite possible that some of these meetings may be brought about. Please telephone or write the Journalism Club at school.

A SOPHOMORE'S POINT OF VIEW

War is finally showing its effects on people, some people, that is. It must be tough for them. Why, they're only making seven or eight dollars a day, hardly enough to live on! So they strike for a few more cents an hour. An army private makes about one dollar and sixty-five cents a day, and they don't strike. Then, too, there's the terrible situation about liquor and cigarettes. They are only on sale once a week, so a line forms, and in large cities traffic is often jammed because of these lines. Folks don't stop to realize that these things would be on sale more than once a week if people didn't all rush down to their nearest liquor or cigarette stores and form that line. Of course, one can't blame them, poor people! They're just getting theirs before the hoarders get around! Maybe the soldiers would like these things, too, but they don't get in lines and block important war traffic. This could go on for a long time, but it's got to stop! The war isn't going so well in Belgium right now, and the strikes here at home, causing the ammunition shortage, had a lot to do with it. Let's get back on the job, and buy more and more war bonds!

Farm Machinery Behind Schedule

One measure of the concentration on war needs is the fact that the War Production Board finds output of farm machinery, exclusive of wheeled tractors, repair parts and attachments, about 25 per cent behind manufacturers' schedules for the four months ended October 31. Military needs, more critical than in recent months, are creating shortages in components for farm machinery.

THEY MAN THE FLEET

One from reporting naval war in the Pacific, Joe Hirsch has sketched the men of another fleet - New York Central's "great steel fleet" of 800 daily passenger trains.

For these men, with their fellow American railroaders, are fighting history's greatest transportation battle. In three war years, they've carried 25,000,000 military passengers plus a record number of essential civilian travelers.

Day and night, through storm and fair weather, this vital movement goes on. And day by day, it yields new method new efficiencies - new ideas that will mean still finer travel for you over the peacetime Water Level Route.

What To Do In Case Of Robot Bomb Attack

In the event that robot or rocket bomb attacks are made upon the United States and some bombs should land in your community, here is what you should do, according to instructions released by the Office of Civilian Defense.

1. Air raid signals may not sound. If the air raid signals do sound, follow the rules in which you have been instructed.
2. Obey the orders of local authority, including civilian defense personnel.
3. These bombs may fall without warning. Be on the alert.
4. If a bomb is seen or heard approaching, dive behind any protection available or lie face down and protect your head and face with your arms.
5. In case of continued bombings, seek the nearest shelter. Get indoors! Avoid the hazard of flying glass.
6. In case of intermittent bombing attack, proceed cautiously but remain on the alert to take shelter if necessary.
7. Do not use the telephone unless you need help.
8. If you are near a radio, keep it tuned to a local station.
9. Curb your curiosity. Do not go to the scene of the bomb explosion. Stay where you are or go about your business.
10. Do not rely upon and do not spread rumors.
11. Be calm!

RATIONING

Housewives are urged to destroy all food ration stamps that have been declared invalid, the Office of Price Administration said today. Use of these stamps by consumers, as well as acceptance of them by retailers, is a violation of rationing regulations, OPA said.

At the same time, OPA explained that red ration tokens continue good and housewives may use them for buying meats-fats. Grocers will continue to give them to housewives as change for the red 10-point stamps.

Blue ration tokens, however, have not been good since October 1 and, therefore, cannot be used for canned fruits and vegetables. They are no longer needed as change for the 10-point blue ration stamps used for processed foods because point values for these items are set in multiples of ten.

Ration stamps which were invalidated as of 12:01 a.m. Tuesday, Dec. 26, 1944, and which are not good for consumer use are:

Red Stamps—A8 through Z8 and A5 through F5.

Blue Stamps—A8 through Z8 and A5 through F5.

Sugar Stamps 30, 31, 32, 33 and 40, along with all home canning coupons outstanding.

Stamps continuing to be good, and those soon to be made good, are:

Red Stamps Q5, R5 and S5, which became good December 8. In addition, five more red stamps, T5, U5, V5, W5 and X5—which became good on Sunday, December 31.

Blue Stamps X5, Y5, Z5, A2 and B2. In addition, five more blue stamps—C2, D2, E2, F2 and G2, which became good on Monday, January 1.

Sugar Stamp No. 34, which became good on November 16. Another sugar stamp will become good on February 1, 1945.

Expiration dates have not been set for the stamps that still remain good.

Gasoline—A-14 coupons good for four gallons.

Fuel Oil—Wid-West and South, 2 and 3 coupons good for ten gallons per unit.

Shoes—Airplane stamps 1, 2, and 3 in book three, good indefinitely.

The Hi-Light

Christmas Program

All of Chelsea's high school students and teachers enjoyed the traditional Christmas celebration in the gym the Thursday afternoon before vacation. The program was in charge of the Sophomore class with Eunice Lehman as announcer.

To get things off to a grand start, the band, led by Mr. Busche, played two selections, "Christmaside" and "Hail Hornets." Then Jack Wellnitz, Nancy Loose and Clara Miller enacted a comedy skit. Oh! What a skit! Since then everyone seems to be asking, "What's Charles Boyer got that Wellnitz hasn't got?" Frankly, nobody knows. Following that the chorus gave out with "On the Road to Mandalay," "I Hear America Singing" and "White Christmas."

There was a beautifully decorated tree on the stage surrounded by innumerable gifts which put everyone in a mood of expectancy. Just about that time, who should appear but dear old Santa Claus, or a reasonable facsimile thereof.

Everyone seems to agree that St. Nick was none other than Chelsea's own Mr. Cameron. After a short talk on conditions at the North Pole and such, Santa passed out the presents. Some of the gifts that we happened to notice were exceptionally nice.

For instance, the jackets received by Mr. Chandler and Mr. Cameron, the shirt and tie sets that Mr. Johnson and Mr. Richards got, and the "Co-log-nee" that was given Miss Beam.

After Santa left, promising that he would be back next year at this time, the band played a medley of Christmas songs and Mr. Busche led the group in singing.

There was a lot of cheering when the celebration ended. No one knows whether it was because the program was so good or whether everyone was happy now that vacation had come.

THANK YOU

I wish to extend my sincere gratitude to the many friends, relatives, and LOOF lodge for their kind remembrances while I was in the hospital, and since my return home. I want to especially thank the Central Fibre Products for all they did for me.

Truman Lehman.

WEDDINGS

Gran-Fulford

At a double ring ceremony at St. Paul's church Sunday afternoon, December 31, amid a setting of poinsettias and twin Christmas trees illuminated by banks of white tapers which lent a festive holiday background to the occasion, Anna Grau, daughter of the late John and Emma Meyer Grau, spoke her marriage vows to Ensign Gerald Fulford, USN, son of Mrs. Charles and the late Mr. Fulford. Rev. P. H. Grabowski officiated at the rites.

An organ prelude by Mrs. Carl Mayer, followed by two solos, "Because," and "I Love You Truly," were sung by Mrs. John Cesteris during the seating of the guests by the ushers, who were John Hildebrandt of Dearborn and Cameron Bills of Detroit, brother-in-law and cousin of the groom.

Just preceding the entrance of the bride party, Mrs. Charles Fulford, who wore a flowered print crepe dress and gardenia corsage, was seated at the right, and Mrs. Lorenz Wenk, sister of the bride, who wore a black crepe dress with fuchsia trim and a gardenia corsage was seated at the left in the church.

The bride party entered to the impressive tones of the Lohengrin Wedding March and during the ceremony the organ selection, "The Lord Is My Shepherd," was played very softly as a musical background.

The bride wore a wintry white wool dress with a sweetheart neckline outlined in bow knots of gold sequins with a hat to match in sequin trim. An orchid corsage contrasted very prettily to the white of her dress.

The bride was given in marriage by her eldest brother, Arthur Grau, of Manchester Road. The attendants were Mrs. John Hildebrandt of Dearborn, sister of the groom, as matron of honor, who was dressed in a purple wool dress with matching hat and wore a corsage of Talisman roses and violets; and Miss Gertrude Hindelang of Detroit as bridesmaid, who was dressed in a fuchsia colored wool dress with matching hat and wore a corsage of pink rose buds and violets. Eugene Fulford of Ypsilanti, brother of the groom, was best man.

Following the ceremony a reception for 110 guests was held in the church parlors at which Miss Dorothy Grau and Miss Irma Brueckner poured. Flowers for the reception were poin-

settias, white snapdragons and white chrysanthemums.

The newlyweds are enjoying a short honeymoon, as Ensign Fulford has been granted a furlough until January 13 at which time he will report to Miami, Florida, where he is to be stationed for the present. It is thought that Mrs. Fulford will accompany him there.

Waterloo

Mrs. Mable Woolley and Newell were recent visitors in the community. Christmas day guests at the Walter Vicary home were Mrs. Wm. Woolley and Judy and Mrs. Austin of Chelsea and her daughter, Mrs. James Wells and sons of Dearborn.

Alva Nichol is recovering from an operation he had at Jackson.

Mr. and Mrs. Stafford spent Christmas week-end with their children in Detroit.

Mr. and Mrs. Kenneth Stanfield and children were guests at the home of her parents on Sunday; then on Christmas day all were guests at the home of Mrs. Kate Walz and daughters in Jackson.

Mrs. B. J. Austin returned to Chelsea after spending from Christmas to New Year's at the home of her brother, Walter Vicary and family.

Mr. and Mrs. Kenneth Carty entertained the following last Friday evening: Mrs. Victor Winter and Mrs. S. Parker of Chelsea, Miss Odema Moeckel, Mrs. Wilbur Beeman and Mrs. Wm. Woolley.

HOSTESS TO S. A. CLUB

Mrs. F. W. Merkel was hostess to the S. A. club at a luncheon on Thursday of last week; the guests including Mrs. Clyde Thrasher and Mrs. J. J. Munro of Ann Arbor and Mrs. Wallace Whiting of Tecumseh. In the afternoon game of bridge Mrs. Hans Grossman held high score, Mrs. Thrasher, second, and Mrs. Robert Howe, low. Mrs. Lyle Haselwerdt won the traveling prize.

Texas Cattle Served

Phosphate on Big Ranch

Four million pounds of beef on the hoof were created last year because thousands of Texas cattle were served the rangeland equivalent of the soda fountain "phosphate."

About half the area of the fabulous King Ranch—which is the size of Rhode Island—and much of the coastal region of the South—has less than the necessary amount of phosphorus in the soil. If the cattle are not given phosphorus to supplement their normal ration, a substantial number get into what is known as a "creaky condition." Their value is tremendously lowered, cows often become barren, and a considerable number may even die.

Served a "phosphate" regularly, however, they stay fat and sleek even during droughts. And they produce 28 per cent more calves. At weaning time, calves average 75 pounds heavier. The King Ranch, the U. S. Department of Agriculture, and the Texas Agricultural Experiment Station developed the method of dissolving the silvery-grained chemical in rangeland drinking troughs.

In this way, four cents' worth of crystal disodium phosphate helps create two pounds of beef for the table.

Atlantic Carves Fiords

On Eire's West Coast

Eire occupies about five-sixths of Ireland, nearest of the British Isles to the United States, says the National Geographic society. Remainder of the island is included in Northern Ireland, politically a member of the United Kingdom. Population of Eire in 1941 was about 3,000,000. Of Northern Ireland about 1,280,000. Eire's administrative authority covers twenty-six counties and four boroughs. Northern Ireland comprises six counties.

Eire is such a large slice of Ireland that the natural features of Ireland are fairly representative. In size the island about matches Maine. Greatest length is 302 miles, greatest width, 174 miles.

On the north and east Ireland faces Scotland across the North Channel, fronts England across the Irish sea and St. George's channel. Oh the west the Atlantic pounds at its coast, wears away the land, carves out deep fiords, surges through a fringe of small islands as Irish as their names—Aran, Achill, Clare, Rathlin.

Interior Ireland is a plain about 500 feet above sea level. Rounded hills rise in short ranges along the coast. Few peaks top 3,000 feet.

Agricultural Country

Nature made Ireland an agricultural country, and the Irish have clung to their birthright. A handicap has been the subdivision of small holdings down to tracts providing bare subsistence with resultant overworking of the land. Crop rotation and fertilizers have helped in restoration of fertility. Increase of meadow and clover acreage, reduction of cereals and field crops marked the change of policy.

By rank in 1941 tonnage, oats stood first among Eire's grains, with wheat, barley, and rye next in line. Potatoes, the staple food, Peruvian long before it was Irish, topped all yields with a total of more than 3,600,000 tons. Turnips, coarse beets for cattle feed, sugar beets and cabbage rated in the order named. Hay was Eire's premier crop, pushed the scales beyond the 4,000,000-ton mark. Flax, basis of the linen industry, was Irish to its roots.

Aerial Prophet

In 1914, Admiral Peary told the Aero Club of America: "Airplanes will not only cross the Atlantic and fly around the world, but cruise to the North Pole across the polar basin within a very short time. The inner polar regions will quickly yield their last secrets."

"In no way can we, as a nation, stand so effectively for forcefulness, for strength and for world influence as by Command of the Air. Twenty-four hundred years ago Themistocles, Athenian statesman, soldier and creator of Athenian naval policy, asserted the principle that 'He who commands the sea, commands all.' This principle still holds good. But today it has a rival, the command of the air, without which it is beginning to be valueless. And in the near future it will be superseded entirely by the axiom 'He who commands the air, commands all.'"

Muskrat Raising

Many persons unfamiliar with the industry of raising muskrats have been deceived by statements that these valuable fur animals can be produced profitably in small pens. Although it is not impossible to raise muskrats in pens, fur experts emphasize that it is not a profitable undertaking as a fur-production measure. Reproduction under such restraint is irregular, and losses result from polluted drinking water and from fighting among the animals. In addition, more money has to be invested in equipment, feed, and labor than can be realized from the sale of pelts.

The chief requirement in muskrat farming is a suitable marsh or a water area of at least a few hundred acres in extent in which the animals are found naturally or in which they once lived.

By GENE ALLEMAN

That the Michigan "battle for war production" is entering its most urgent phase since Pearl Harbor appears to be the real news for Michigan's 52nd week of 1944.

This column started out to be a review of the home front news in 1944. We are reminded that in January, 1942, just after Pearl Harbor, we noted that "Washington now plans for a three-year war"; that "production of arms, growing as it has been, is totally inadequate to meet new needs," and that "unless the German national collapses from weak morale or a lack of needed supplies, we must wait until 1943 and possibly 1944 before there are sufficient arms and trained men to justify a full-fledged military offensive." That was approximately 36 months ago!

D-Day did not come until 1944.

In May, 1943, Lieut. General Breton H. Somervell, chief of the army services of supply, visited Michigan. He warned then that the U. S. army would not be completely equipped until late 1944, called rumors of overproduction the work of "fifth-columnists" and declared that only in the field of ammunition was there a reserve.

One year ago, December of 1943, the American home front was flush with optimism and confidence that Germany might capitulate by Christmas. Again the illusion persisted in the minds of many persons that the war would be over soon.

General Eisenhower issued a pre-New Year's statement, predicting Victory in 1944 as the reward for the heavy price to be paid from an Allied invasion. Politicians speculated upon

the possible effect of victory before the November election. Post-war programs were pushed.

In January of 1944 the state of public opinion was said to be one of "complacency" and "over-confidence." The army-navy thinking at Washington was that the public was letting down and should be jacked-up to be more tense and grim.

Late in January the WPB decided to suspend reconversion, to hold up for the present any sizeable increase in civilian production.

The army-navy decision, which prevailed, was that this was WAR . . . in fact, all-out total WAR . . . and that until the defeat of Germany was assured, there should be no trifling with the mechanism of production of war goods.

In March the domination of the military, as to the future course of war production, was noted still more. Quotas were set; orders were issued accordingly. The White House issued an order urging review of deferments; the need for replacements was publicly acknowledged.

The warm days of spring focused the public's thinking on the coming of D-Day in Europe. Still the assumption prevailed that the invasion would be successful and that a weakened Germany, impotent to meet the terrific blows, would surrender unconditionally during the Fall months as Germany capitulated in 1918.

By mid-July, following landing of Allied troops in Normandy, public opinion was speculating on the time of the 1944 victory.

The failure of the Luftwaffe to make an appearance anywhere in Europe, the conceded lack of German reserves in men and material, and German scarcity of gasoline and oil—all these influenced our thinking that 1944 was the time to begin thinking about that post-war job.

The exodus of war workers from Michigan war plants became a steady stream. All of this was disturbing to army-navy officials who debated with WPB Chairman Donald Nelson about the effect of post-war reconversion plans. Nelson's attitude: Workers would stick to high-pay war jobs as long as they can if they see evidences that the government has plans

under way for after-the-war employment.

By October the public attitude was still one of confidence. German troops were being pushed back almost daily. A Washington news letter informed clients of the imminence of Germany's defeat, adding that "informed opinion at Washington still is that it will be 4-to-6 weeks."

Looking over the events of 1944, we raise this question: Who is responsible for the public's over-confidence and over-optimism?

A few days ago George Lyons, news chief of the Office of War Information, declared at Supreme Headquarters in Paris, as reported by the Associated Press: "In my opinion the Army is making a bigger mistake than it did in the Patton case (the incident of Lt. Gen. George S. Patton's slapping a soldier in Sicily). It is following a head-in-the-sand policy. It could tell a great deal more without giving any information to the Germans."

Lyons protested vigorously against the suppression of bad news. On December 14, in a friendly note to "Michigan GI Joes," the "Michigan Mirror" writer made this comment: "You know, Joe, the newspapers still print the news as Washington gives it out. Officials at Washington possess vital war information. Much of it is censored and not disclosed to newspapers at once."

If the American public has been complacent and over-confident, Washington cannot sidestep responsibility for its persistent 1944 policy of minimizing our losses and emphasizing our gains. As we analyze this failure, which coincided with a national presidential campaign, Washington still cannot comprehend the strength of the people back home to "take it."

Do politicians still look upon us as mere children?

Must we be protected from bad news which might discourage us? Actually the reverse should prevail. With battles being fought thousands of miles from our shores and with American homes secure from enemy air raids, the civilian has extreme difficulty in trying to visualize the grim picture of modern war.

Give us the truth. We'll tighten the belt still more. We'll renew our determination to back up our boys with

war bonds, guns and shells, and food. WE CAN TAKE IT!

Power Companies Plan To Serve More Farms

Extensive expansion of electrical service to Michigan rural areas in the next three years immediately following the war is planned by the major power companies serving the state, information gathered by D. E. Wiant of the agricultural engineering department of Michigan State college, reveals.

More than 25,000 additional farms will be electrified when materials are available. This calls for the construction of an estimated 7,000 miles of lines, and an expenditure of nearly 12 million dollars.

REA borrowers in Michigan are making plans for a \$7,000,000 post-war expansion program that will bring electricity to 12,300 unserved rural consumers within three years after materials and manpower become available. Most of this expansion will be in western and northern portions of the lower peninsula and in parts of the upper peninsula. Four million dollars will be used to build distribution lines and \$3,000,000 to finance generation and transmission facilities, installation of plumbing and electrical equipment on farms and rural homes, and the improvement of existing rural electric systems. REA in past years has made loans in Michigan to 13 locally-controlled member-owned cooperatives which operate 9,000 miles of lines serving 25,000 farms and 7,000 other rural customers.

Detroit Edison company, which operates in the Thumb and southeast Michigan areas, will build an additional 600 miles of new farm service lines costing at least one million dollars. An additional 2,176 farm customers will be served. This extension of farm service will complete the electrification of all farms in approximately 12 counties in the territory. Detroit Edison, at present, has 7,456 miles of farm service in the state.

Consumers Power company, which operates in a U-shaped area bordering Lake Michigan, Lake Huron and the south central portion of the lower peninsula, expects to spend \$2,800,000 for the construction of 2,800 miles of rural extension within two years following the war. A total of 11,000 additional farms will be electrified in this area, taking care of 62 per cent of the present unserved farms. The remaining 38 per cent of unelectrified farms will be reached by lines within an additional year or more, according to company officials. At present 79,000 farms in 50 counties in lower Michigan are being served by Consumers Power.

All three companies are devoting special research and attention to improved farm electrical appliances that can be used to increase farm earnings.

Detroit Edison is designing its post-war staff of farm service advisers to help farmers in reducing work and increasing the efficiency of their farms by finding more jobs for electricity.

Slats' Diary

Friday—Are teescher was making a call at my house today and she was telling me that unless they got more money the school is a going to half to cut out 1 of are studs in school. And when she had went home ma she with study I wood drather do without. I eed I diddnt care just so they wood leave us keep on studying. Joffraggy. Ma agreed with me that Joffraggy was a emportant study becuz it tot you where every county was located at any ect. Well mebbey she is rite but it all so is a good place to hide a Pirate story if you want to read in skool time.

Saturday—Ant Emmys sister witch moved to the city last week. has a disappointment the 1st week. she went to the bank and tried to open a Charge account.

Sunday—Joe Hix got 1/2 sore at his wife today. he went to take a bath and got mad becuz there wasent no water to take a bath with and his wife told him the water in the bath had ben turned off since Thanksgiving.

Munday—Ma was dragging about how bewtiful Miss Glancy is since she has went away to Colledge and pa agreed with her and we got a cold sour Croust supper.

Tuesday—Sandy McCrary was up on the golf course all day Munday. he told pa that if he was lucky enuff to find a couple Tees he mite play golf next summer mebbey.

Wednesday—Effy Brent was looking forward to a very dull Christmas but her husband got his Leg broke a week before Christmas and she rote to Ant Emmys and sed she had found her husband a grate help for the Hallowdays.

Thursday—Ma give me the dickens becuz I went to the party last nite without taking a Bath and Washing my teeth. Well it was all her fault becuz she told me the party was a enformal one.

War's Face Reflected On Homefront.

The intensified pace of military operations everywhere is reflected in continued firm controls of civilian economy and further official steps to concentrate needed manpower and materials into war production. Thus Americans, as they celebrate Christmas day with appreciation of the fact that their fighting men have enabled them to keep lighted the Christmas spirit, are aware that they are about to open a new year of hard, incessant work with victory still to be earned.

Corn Uses

Flakes of cornstarch soaked in nitroglycerine fire our big guns. Corn is used in all foundry work in defense plants, such as casting aluminum, magnesium and other vital and critically needed metals. It is used in the making of penicillin, blood plasma and other drugs and chemicals used in the war effort. There are literally thousands of other uses, such as making soap and glue.

'Looking Ahead' To Be Farmers' Week Theme

"Looking Ahead in Agriculture" will be the theme of the 30th annual Farmers' Week at Michigan State college January 30, 31, and February 1, Dean E. L. Anthony, general chairman, has announced. "Program features, including talks, exhibits, and organization meetings, will center about this subject as farmers and homemakers in unity scan the agricultural horizon to shape up future plans of operation.

Ralph W. Tenny, short course director and Farmers' Week program head, has secured several nationally known speakers for the three-day event. Factors that may influence agriculture in the days to come as well as present day world events will be amplified.

Louis Bromfield, author and lecturer, will scan the future with his topic, "America Tomorrow," on the Tuesday afternoon program. H. R. Knickerbocker, foreign correspondent for the Chicago Sun will discuss "Europe As I See It," Tuesday night.

Noble Clark, director of the Wisconsin experiment station, will speak Wednesday afternoon on the theme, "Looking Ahead in Agriculture."

Prof. R. G. Knox, dean of agriculture at the Ontario Agricultural college, will tell guests at the Wednesday livestock banquet of the "Livestock Situation in Europe," and Gladys Perrow Wehr, traveler, journalist and lecturer, has selected "American Youth Faces the Postwar World" for her appearance at the short course banquet Wednesday noon.

A feature of the Thursday night general session will be "Singapore Joe" Fisher, traveler and lecturer, speaking on "Pacific Affairs."

Present Everywhere

Water is present everywhere, constituting about 80 per cent of all living matter. It is found in nearly everything, including stones and minerals; even coal. Most of the foods depended upon to sustain life are largely water: rich milk 87 per cent; eggs 65 per cent; cabbage 89 per cent; apples 80 per cent; potatoes 78 per cent; fish 80 per cent; beet 62 per cent; even bacon 22 per cent.

Varnishing Shells

In dipping 75-mm. shells, which carry an exterior coat of baked-on synthetic varnish, the coating must not exceed 0.0005 inch, with no fat edges or beads permitted on the lowest edges of the shells, which are suspended from a conveyor in rows of 10. An electrical "detering" device with a high-voltage field removes the surplus coating and leaves only the amount specified.

White Shoes

Do not clean white shoes on your feet, as the shoes tend to stretch. Wait until shoes are thoroughly dry before wearing them, as they may stretch and get out of shape.

RETREAT FROM THE DOLPHIN
By Darwin L. Tellhet

A Philadelphia boy is thrown into the guerilla warfare of the Chilean Revolution of 1815, when his widowed mother marries a Chilean. Fighting, intrigue, a sea battle and numerous escapes make exciting adventure.

Men In Service

With the Fifth Army, Italy—Pvt. Robert H. Dancer, son of Mr. and Mrs. Henry W. Dancer of Chelsea, is an ammunition handler, fighting in Italy with the 388th Infantry Regiment which has been credited with killing and wounding many hundreds of Germans and taking nearly 700 prisoners in four weeks of cold, bitter fighting in the Gothic Line.

They are called the "old timers," these men and officers of the 388th, part of the 85th "Custer" Division in Lieutenant General Mark W. Clark's Fifth Army.

They are veterans of bloody Solomonic Ridge and the Gustav Line, Formosa, the Gaeta Peninsula and Rome. They are now standing at the approaches to the Po Valley, a long haul from Minturno where the regiment entered the lines on last April 21.

Fort Benning, Ga.—Pvt. Andrew Jerome Modak, who resided at the home of Mrs. Anna L. Reichert, Chelsea, Michigan, has won the right to wear "Wings and Boots" of the United States Army Paratroopers. He has completed four weeks of jump training during which time he made five jumps, the last a tactical jump at night, involving a combat problem on landing.

Jumping at the Parachute School has been steadily developed to a recognized war science. American Paratroopers have been recognized throughout the world for their meritorious actions against the enemy.

In addition to producing jumpers, Parachute Specialist Training is given to qualified men in Communications, Demolition, Riggers and Parachute Maintenance, vital skills for airborne troops.

Mrs. Bertha Yoell submits the following letter she received from her nephew. Although this young man is not a Chelsea boy, Mrs. Yoell believes that mothers who have boys in the Navy will be interested in this message:

Dear Auntie:
Well, yep it's me finally. Out here we hardly get too much time to write and your mail never goes out until you hit post. At times we stay out for a long time. So if you don't hear from me don't bawl me out too bad, please. Boy, you can't beat a night out here. The moon lights the whole ship. The stars shine brightly and there is always a nice wind out.

We went on a beer party a couple of days ago. As you know, I don't drink. They gave each guy four bottles of beer. I tried to drink a bottle. Boy, you should have seen me. It was ice cold and I was thirsty. Boy, I took

two gulps and darn near choked to death. I did my best.
This Navy was supposed to change me into a very wicked guy. Instead, it has done the opposite. I hate to drink and smoke more than ever. It is very seldom I swear now. It has made me more religious. I wouldn't miss church every Sunday if they paid me. So I have no kick coming. This has done me more good than anything. Money isn't like water to me any more.

Gee, I'll bet Priscilla is really pretty now. I betcha—Davie is getting tougher and better looking every day. I sure wish I could see them.
Hey! What do you mean, if I voted? You know I'm just a youngster. I sorta celebrated my birthday rather quietly this year for some reason.
Well, Auntie, I'll sign off—write soon. Your loving nephew—Gordon.

Enumerators To Start Farm Census Monday

Lansing—John B. Strange of Grand Ledge, state area supervisor of the 1945 agricultural census and his district supervisors, have completed arrangements for holding schools of instruction for more than 800 enumerators throughout the state who are scheduled to begin taking the federal farm inventory on January 8.

Vester E. Mock of Springport and Karl R. Weller of Vermontville have been appointed supervisors of District 15, which includes the following counties: Branch, Calhoun, Eaton, Genesee, Hillsdale, Ingham, Jackson, Kalamazoo, Lenawee, Livingston, Monroe and Washtenaw. This district is the largest in the state, containing a possible 42,000 farm units. A farm unit is defined as being a tract of land operated for agricultural purposes, containing three acres or more—or a tract of land regardless of size if it has produced agricultural products in 1944 valued at \$250.00 or more.

It is estimated that an enumerator will be required for each township in this district. Enumerators will be paid on a piece-rate basis. Three-day schools are being held in the various counties for the purpose of training these people.

A new method of recording this information is being used in the 1945 census. This year the data will be recorded in books rather than by the loose leaf method. This method will require a minimum of clerical work to total each column and transfer these totals to township, county and state summaries. The 1945 Farm Census is to be based upon the 1944 crop production and the livestock inventory as of January 1, 1945.

All this information will be treated in a strictly confidential manner. No farmer need fear any information obtained by the Bureau of Census will be made available to any other person or agency.

NOTICE, LYNDON TAXPAYERS.
I will be at Chelsea State Bank only on Saturday, January 27 and Saturday, February 24 for the purpose of collecting Lyndon township taxes, due to the illness of my husband.

Lyndon Twp. Treas.

European Needs Reported
The demands on productive resources to keep the world of the United Nations going is pointed out by the urgent pleas for everything from horseshoe nails for Sicily and fishing hooks for Greece to water-pumping machinery for the Netherlands and raw cotton for the mills of France to be made into tent duck for allied forces. These pleas are being laid before the Central Relief Section for relief and rehabilitation of the combined production and resources board and WPB's combined raw materials board.

Inverted Eyes
Have you ever pulled the tip of a finger of your glove down inside? That's the way the eyes of some creatures work up and down, according to the Better Vision Institute. Eyes of such creatures are mounted on the tips of hollow tentacles, and are drawn in when the tentacles are inverted.

Many Uses
In the manufacture of explosives, rayon, hospital dressings, food wrappings, molasses, shoes, imitation leathers, glycerine, blanket substitutes and table covers, and for other uses too numerous to mention, wood pulp not only proves itself a ready and willing servant, but it also forecasts its myriad uses in the post-war world.

Tomato Roots
Tomato roots grow close to the surface; cultivation to remove weeds should be shallow, or the plants will get a set-back.

WE WANT MEN who trade with us to enjoy real foot comfort while they work. That's easy if your work shoes are Wolverine Shell Horsehoes. They're actually more casual-soft, even when brand new. They even dry out soft and pliable after soaking. But—man, they're tough!—wear 'em so long they'll save you plenty on work shoes. But, see for yourself.
