Guidance Institute Will Be Held In Ypsi Friday

Final plans for the Youth Guidance Institute on Friday, April 13 at McKenny Hall, Ypsilanti, have been formulated. The program will start at 2:30 p.m., Eastern War Time, continuing through dinner in the cafeteria and a general session in the evening. Wallace Watt, Michigan Children's Institute, is chairman of the program.

Walter Berry, executive secretary of the Governor's Youth Guidance committee, will give the opening talk on the subject of "The State Guidance Program."

Three discussion groups will be organized for the study of specific issues. Arne Erickson, Washtenaw county children's worker, will act as chairman of the section on "How Law Enforcement Groups in Washtenaw County Serve Children and Youth." Clarence Ramsey, Superintendent of the Michigan Children's Institute, will lead the discussion, and has invited several officials to give five minute presentations of special problems in this area.

The topic of the second division is, "Interpreting the Work of the Visiting Teacher," and Ben VandenBelt, principal of Lincoln Consolidated School, Ypsilanti, will act as chairman and leader.

The third group is to be led by Clyde K. Schlicker, superintendent of schools at Milan, under the chairmanship of George Marshall, chairman of the Washtenaw County Youth Guidance Committee.

In the hour's interval between the discussion period and dinner, a showing of films will supplement phases of the earlier program.

Local communities have Guidance committees with the following chairmen: Rev. Edward Drews, Dexter; W. C. Weed, Manchester; A. C. Johnson, Chelsea; Clyde Schlicker, Milan; Wm. Jakad, Saline; Rev. Douglas Parker, Whitmore Lake; M. Brose, Willow Run; Mrs. Esther Dutton, Ypsilanti; and Mrs. Robert Grandville, Ann Arbor.

V.F.W. Installation To Be Held On April 20

The Veterans of Foreign Wars wish to extend a most cordial invitation to the institution ceremony of the new Chelsea post number 4076, and the installation of the new officers, on Friday evening, April 20, at 8:00 o'clock, in St. Mary's hall.

Membership in the Veterans of Foreign Wars provides that whenever a state of war exists with any other government or governments, men in the military or naval service of the United States shall become eligible to active membership immediately upon arrival on hostile soil or in hostile waters. Therefore it is possible for you to pledge membership in the Veterans of Foreign Wars for your soldier or sailor who has served or is serving on foreign soil or hostile waters.

We believe that there is no substitute for the comradeship that exists among overseas veterans. The VFW emblem is a mark of distinction for the soldier, sailor and marine who has served in time of war, ashore or afloat, in actual danger zone, beyond the continental limits of the United States.

We believe that a man who is good enough to shed his blood for his country is good enough to be given a square deal afterward; more than that no man is entitled to, and less than that no man shall have.

Watch these columns for further announcements and make a date with us for the 20th at 8 p.m. at St. Mary's hall—this will be a demonstration that will not soon be forgotten.

—C. S. Ritter, Commander.

With the exception of one year, when he attended the Chelsea public school, his whole life has been spent on the farm in Lima. Leroy will report for induction on Friday. On Sunday his mother entertained at a family dinner with covers for 12, including Mr. and Mrs. Clarence Bristle and son of Dexter.

George Cantrell, son of Mr. and Mrs. John Cantrell, was born February 22, 1927 in Pikesville, Ky. He has resided in Chelsea for about two and one-half years, making his home with his sister, Mrs. Roy Hanselman. He has been employed with the Chelsea Spring Company.

On Saturday evening Nathan was honored with a farewell party given by his mother, at which 48 guests were present from Clawson, Ann Arbor, Dexter and Chelsea. A buffet lunch was served and he was presented with several gifts.

LaVerne Welch, son of Mr. and Mrs. Ernest Welch, was born in December, 1907 in Chelsea. He was united in marriage to Miss Rachel West and they have three daughters. They reside at Sylvan Center and Mr. Welch is employed at the Central Fibre Products Co. He leaves for induction this week.

With Our Men In Service

Mrs. John Holzer, of the Chelsea Methodist Home, has been informed by the Navy Department that her son, Aviation Radioman 1-C James Edgar Land, was killed Feb. 21 while on duty in the Southwest Pacific, and it is believed that his ship must have been sunk by the enemy.

Notice that he was missing was received by his mother several weeks ago and last week she received the telegram confirming his death.

James, who was 21 years old, was a graduate of Grantsburg, Ind. high school and was employed by the Western Union in Grantsburg previous to his enlistment in the Navy in July, 1942. He went overseas last October and his ship was one of the first to participate in action in the South China sea. He also fought in the Philippines around the Lingayen Gulf.

Besides his mother, he is survived by a brother, Leonard Land of Jackson.

Iwo Jima (Delayed) (By Staff Sergeant Allen Sommers of 251 South 68th Street, Philadelphia, Pa., a Marine Corps Combat Correspondent)—If Tokyo Rose could see her likeness here, she might change her tone of voice when speaking of the Marines.

The Tokyo Rose of Iwo Jima is an empty 105mm. shell box, dressed in an old pair of rayon panties, a tattered brassiere made from a stock of howitzer cleaning rags, a sand bag, and two empty fibre shell containers. The containers are the legs.

Eyes for this Leatherneck likeness of the famous Jap propagandess are pieces of cardboard with sketches of eyeballs and eyebrows on them. A tattered old piece of black lace is used as a head covering.

Marine Private First Class Joseph Hale, 19, of 127 Madison St., Chelsea, Mich. built the Leathernecks' impression of Tokyo Rose.

"She's probably uglier than that," said Hale, who is a member of the 13th Regiment, Fifth Marine Division, a field artillery unit.

His parents, Mr. and Mrs. Vincent Hale, live in Chelsea.

Mr. and Mrs. Alvin Niehaus have received word from their son, Sgt. LaVerne A. Niehaus, that he is now in France.

SO. SYLVAN EXTENSION CLUB

Construction Is Started On Fed. Screw Addition

Construction of a new one-story addition to the main plant of Federal Screw Works, South Main street, has been started, with the DeKoning Construction Co. of Ann Arbor in charge of the construction work.

According to company officials the addition will provide about 10,000 square feet of space, increasing floor space in this plant by about 25 per cent. It is being built at the south side of the present plant, and the contract calls for completion in about two months.

Space in the new building will be utilized for raw material inventory, plating department, tool crib, chip and oil separators, and some manufacturing space will be available.

It is pointed out by Federal Screw officials that this addition is necessary in order to relieve congestion in their plant and facilitate the production of vital aircraft engine parts.

Godfrey Graub was born in Wurtemberg, Germany and died at his home in Freedom on April 9. When he first came to this country he located in Scioto and later in Lima. At the age of thirty he married Anna M. Widmayer, who died Jan. 1, 1906. He is survived by two sons, John and Chris, both residents of Freedom, and one sister, Mrs. B. Oker of Chelsea.

Dr. G. W. Palmer had a rather peculiar experience. He had a call in the country about four o'clock in the morning, and drove his horse to the office, where he left it and entered the building for some supplies. When he returned the rig had completely disappeared. The telephone was pressed into service, but the missing horse and buggy could not be located. About ten o'clock in the morning the horse turned into the yard of Louis Hindelang, coming from the east without a driver. Mr. Hindelang returned the horse that afternoon.

PIN CHATTER

(April 4-6)

By Rena Johnson

Some real good series were rolled this week. In fact four girls rolled 200 or more. P. Wedemeyer had a 213 her second game, and a series of 483.

M. Breitenwischer had 7 splits Wednesday night, but she made up for it Friday night when she bowled 212 her last game; her series, 518.

G. Klumpp had a nice game of 200; she didn't have an open frame that game. She had a nice series of 506.

D. Eisenman started her second game with 3 strikes, and then ran in to a couple of splits. She had a 192 game, which was alright.

V. Wheeler had a 208 game, which made Virginia very happy, and who wouldn't be with a game like that? Her series was 482—very good.

J. Hubbert missed her 500 series by only 6 pins—494 is mighty good, Jean.

L. Allshouse and D. Leach had 8 splits Wednesday night. "Keep smiling" girls, it helps sometimes—or does it?

We had 2 games postponed Friday night. Hope you can get these played off real soon. Won't be much longer, girls. It's pretty hard to set a night to bowl to please everyone. So all you can do is try and be there.

If any of you girls have any suggestions as to where you think we might have our annual banquet, don't be afraid to let us know. We've got to be thinking about it before it's too late.

P. S.—Foster's Tavern were in Grand Rapids over the week-end, but for some reason or other, no one knows how they bowled. Wonder why!

THANK YOU

I wish in this way to thank my relatives and friends for their cards, gifts, and visits, and all the acts of kindness extended to me during my stay in the hospital.

THE OLD JUDGE SAYS...

"When this war is all over, Judge, there will be some mighty interesting books written about it. Expect we'll learn a lot of things we didn't know before."

"Yes, Fred, when the record is finally written we'll realize what a gigantic operation this war really was and how important to final victory many factors really were."

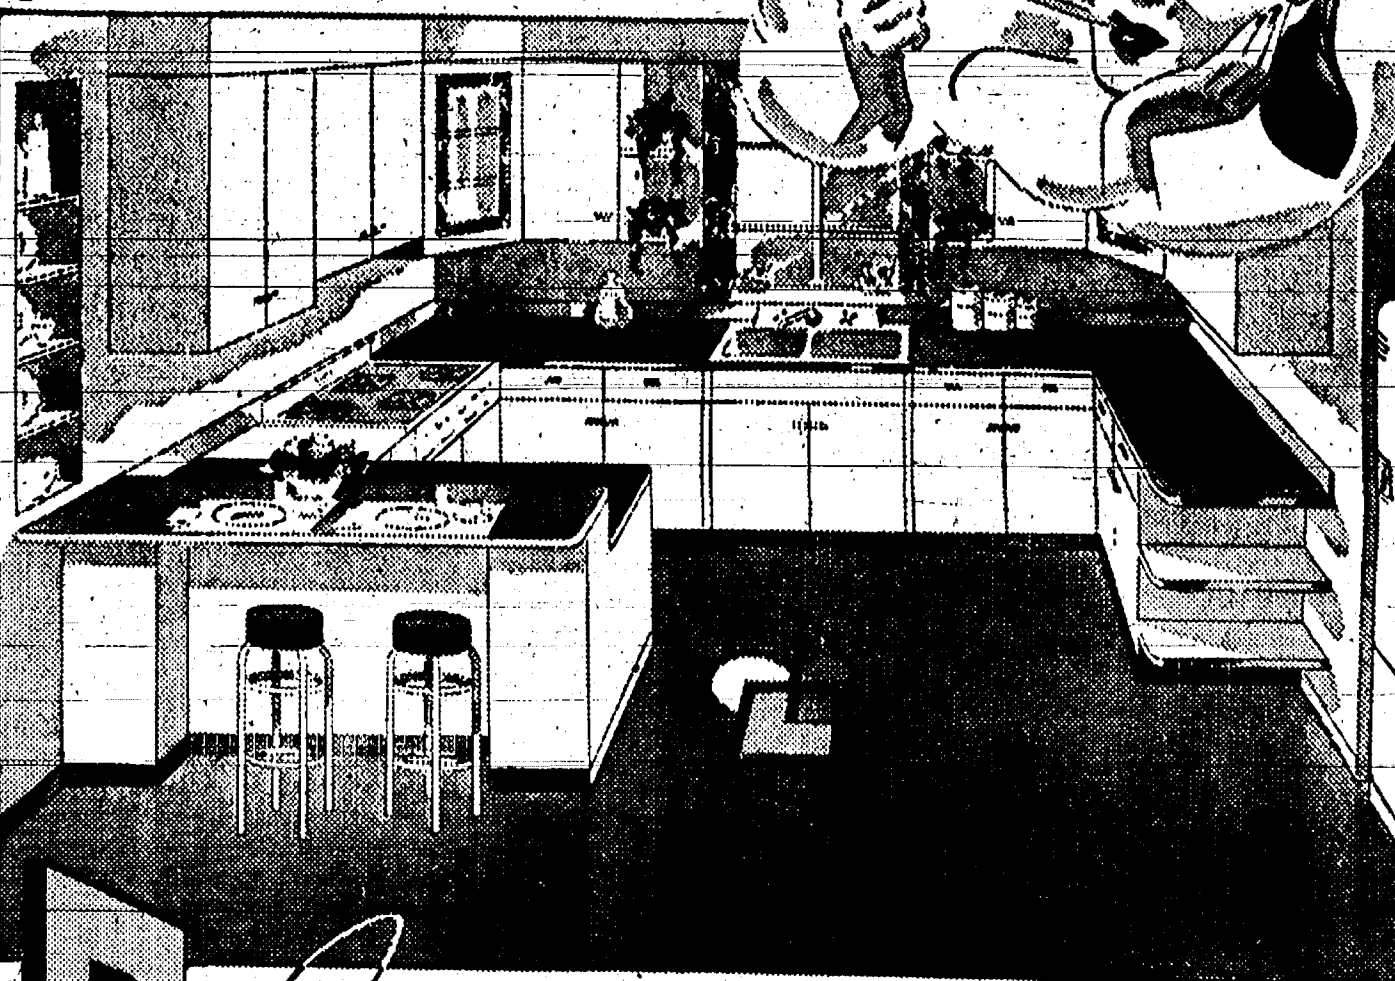

"Take, for example, just one industry. Few people realize the importance of the great work done by the beverage distillers during the war. A high government official

called it 'an almost unparalleled example of the overnight conversion of an entire industry from peace to war.' He also said not so many months ago, while speaking about synthetic rubber, 'It is fair to regard the rubber manufactured to date as being almost solely the product of the beverage distilling industry.' That's the type of thing I have in mind... the way great American industries at home cooperated to help our brave fighting men abroad."

"I see what you mean, Judge... a complete history of American teamwork."

Industrial Area

Tokyo is one of Japan's greatest industrial areas. Before a recent move to decentralize industry it had more than 40,000 factories of all sizes, but the average did not employ more than ten workers. In peacetime a third of the factories processed foodstuffs, and another third made metal products, machines and tools. There also were many textile mills, chemical and woodworking plants.

Creamed Fish

Creamed fish is more appetizing with a dash of chili powder for flavor or a little prepared mustard with the cream sauce.

Native Scurvy

South African natives develop scurvy quickly when they are transferred from their normal habitat to the living conditions of the white man in the course of expansion of industry and mining. The natives are only rarely subject to scurvy at home, it appears, although their diet is limited to maize and maize products, sour milk, and kaffir beer. It is the beer that protects them, as it is rich in vitamin C.

GOOD POTATO SEED ESSENTIAL
Toledo—The importance of quality seed in assuring a profitable return from time and money expended in potato plantings is stressed by one of the nation's largest buyers of farm produce.

"Maintenance of production from acreage devoted to this major crop during this critical year is of primary concern to all of us engaged in supplying the nation with food," said R. P. Betz, vice-president in charge of A. & P. Food Stores in this area. "The planting of quality seed is an essential step in realizing profitable returns."

Betz said that his company's warehouses had stocked certified seed in carlots in order to assure victory gardeners as well as large planters of an adequate source of supply. Delivery to stores is now underway, he added.

The food chain executive explained that his company's practice of stocking large supplies of seed potatoes in important producing areas grew out of the serious shortage that developed at planting time two years ago.

Vice-President in charge of Tomorrow!

Yes, she's a woman.

Wife. Mother. Cook. Maid of all work. Partner with her man in the going concern we Americans call home.

More than that, as keeper-of-the-household-budget, she's salt-ing away every cent the family doesn't absolutely need for up-keep in a little project she likes to call Tomorrow.

She's putting her money in WAR BONDS... the soundest finan-cial backing anyone's Tomorrow ever had.

And because she's a shrewd woman, she is determined to hold on to those War Bonds in spite of any temptation she has to cash them in.

She knows that by holding her War Bonds until they mature,

they'll be worth \$4 for every \$3 she put into them. And she'll have that money when Tomorrow comes!

Of course, the beauty of it all is that, in the meantime, she's giv-ing her country patriotic help in winning the war today!

Smart woman! America needs millions like her.

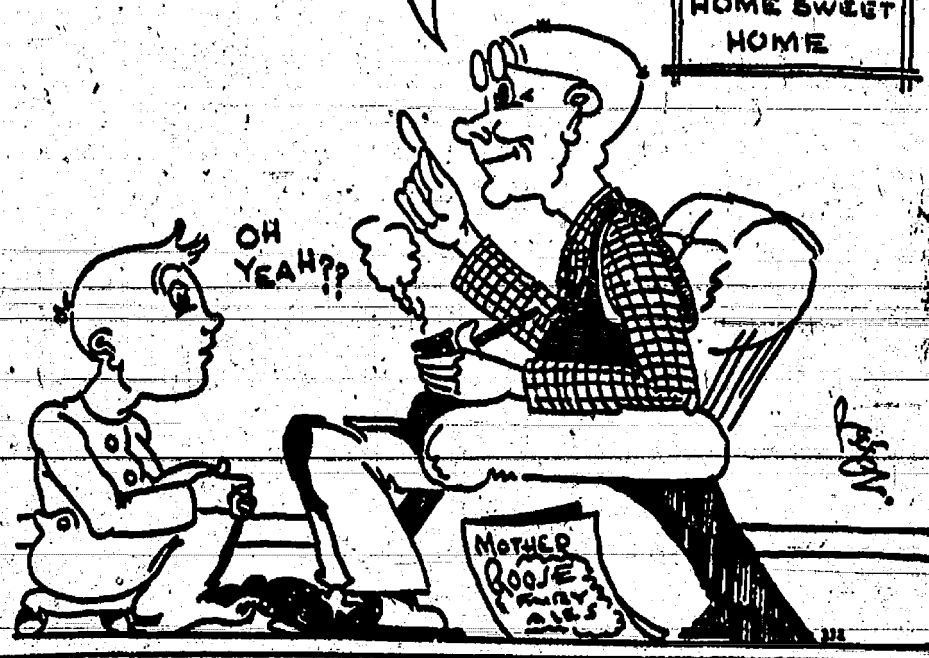

Keep Faith with our Fighters—buy War Bonds for keeps!

Vanity Fatal

The Duke de La Rochefoucault, whose celebrated Maxims are exemplifications of the thesis that "vanity is the motive of all human actions," joined the revolt of the "Fronte" in which he lost the greater part of his fortune because his wife was not granted the "tabouret"—the privilege of sitting down in presence of the king and the queen.

By Gene Alleman

Despite any rumors to the contrary, Michigan farmers aren't getting rich as a result of war-time prices.

Here's the evidence, straight from the Michigan State Farm Bureau:

A survey of the bureau membership has disclosed that the gross income of farmers in 1943 averaged \$4,005 with an average net income of only \$1,422. Nationally, the net farm income of 1942 was \$1,820. Half of the farm-operator families in 1941 received less than \$760 net cash income from all sources, including net receipts from operation of the farm, earnings from employment off the farm, rents, pensions and other income.

In fact, only in recent war-time years has the income of the American farmer approached pre-war (1910-14) parity with other workers. For years the farmer has been using up accumulated reserves; now he must replace these at inflated war-time prices—a source of further irritation to a man who has never known an eight-hour day, time-and-a-half additional compensation beyond 40 hours, or double pay for Sundays.

Because the farmer owns both the land and the tools with which he produces, he is a capitalist and hence on the other side of the fence from the industrial laborer.

The Michigan survey disclosed that the average Michigan farmer worked 13.3 hours every week-day during the summer season, and 9.8 hours on week-days during the winter. Nearly 90 per cent of all Michigan bureau farmers own their own homes; the average farm is 150 acres; the average family has lived on their own farm for 41.5 years.

Here is a population group in Michigan, outnumbered by city dwellers nearly two to one, which is working long hours, under extreme handicaps due to lack of labor and limited machinery, and still receiving only a modest earning.

We wonder how high food prices would rise in cities if the farmer adopted the same pressure techniques of organized labor and went out on a strike for increased earnings, overtime compensation after 40 hours, and other industrial benefits.

The farmer, owning his own machinery of production, doesn't do this. More and more, he is studying his problems through farm organizations and is joining farmer-directed producer cooperatives as one effective way to raise his income and his standards of living.

Is the present \$50 million fund adequate to meet postwar needs of the State of Michigan? New York state legislature adjourned last week after tagging \$80 more millions for the state's postwar building projects. Funds previously saved—totaled approximately \$150 millions, making a new total of more than \$230 millions.

The population of Michigan in 1940 was 5,256,106, of which 3,454,867 people lived in urban areas. New York state's population was 13,479,142, of which 11,165,893 were in cities. These figures are significant.

On the basis of New York's postwar fund and comparative populations, Michigan should increase its state postwar fund from \$50 to \$100 millions.

The Michigan state legislature, entering its final weeks of deliberations at Lansing, is due to make a decision soon on state aid for cities. Pending are bills to raise an additional \$2,000,000 by an increased levy on beer; \$10,000,000 more by upping the state's profit from sale of packaged liquor, and an extra \$8,000,000 by a new tax

on cigarettes. The alternative is a direct cut of the state sales tax, estimated currently at \$100,000,000 for the coming fiscal year. Mayor George Welch of Grand Rapids has effected a bi-partisan alignment in the House of Representatives, drawing lines between urban and rural legislators for a showdown.

The senate shelved a bill to lift the ceiling on the state corporation tax, now set at \$50,000, and to lower the tax from \$2.50 to \$1.75 per \$1,000 of capitalization. The measure would have reduced taxes of small corporations, but would have added \$4,500,000 to the operating cost of 18 large corporations.

Governor Kelly is continuing a "hands-off" policy in dealing with the state legislature, believing the executive office should not interfere with lawmakers' prerogatives. The result: Some legislators grumble that the "administration" is weak in its leadership and has no legislative program.

Resistance by some members of the house of representatives to a proposed constitutional amendment to bar from public office forever any governmental official or employee convicted of a felony involving his work has prompted this interpretation: "The Can-Sigger grand-jury has some 'unfinished business' ahead."

The lack of pasteurization facilities in some parts of northern Michigan is currently the center of attention from the state department of health at Lansing. Dr. William DeKleine, state

health commissioner, asserts that the state department of agriculture is trying to hamper efforts to improve milk sanitation. A DeKleine quotation: "Not only does the department of agriculture ignore recommendations of health officers but actually it is interfering with local progressive milk sanitation programs in a number of cities." Dr. Paul deKruit, consultant to the state department, says he intends to publish nationally a warning to tourists to stay away from Michigan unless the state provided better safeguards for its milk supply.

Michigan's forest products research project, sponsored by the state planning commission, has almost an unexplored field to conquer and develop. Only 30 per cent of forest resources are being utilized today. The remaining 70 per cent waste consists of sawdust, slabs, edgings, trimmings, and the limbs, tops and cull logs left in the forest. From every ton of this wasted timber, between 50 and 60 gallons of ethyl alcohol can be manufactured; a ton of waste will furnish 450 pounds of high-protein feeding; every ton of sawdust contains cellulose which could be manufactured into rayon and other fabrics. Project these possibilities into North Michigan, and you become impressed with the potentials of our forest resources.
