## School Electors Vote To Create A Sinking Fund

The annual meeting of the Chelsea public schools was held on Monday evening with an attendance of 102. The main items of business were the electing of three trustees to the Board of Education and the voting on the "sinking fund" proposals.

Trustees elected were: Mrs. Florence Mayer for a one-year term; E. W. Eaton and Russell McLaughlin for three-year terms. The remaining two members of the Board continuing in office are Dr. L. J. Paul and J. Vincent Burg.

Both proposals for creating a sinking fund were passed. The vote on the proposal to increase the millage from 15 to 18 mills was 77 in favor and 25 against the proposal. The vote on the proposal for creating a sinking fund of three mills for five years was 71 in favor and 24 against the proposal.

In recognition of Ed. Gentner's 23 years of unbroken service as custodian of the schools, a vote of appreciation was given him, along with a purse of \$42.10 as a gift from those present.

The official minutes of the meeting are as follows:

July 9, 1945.

The annual meeting of District No. 3 Fr. Sylvan and Lima townships was held in the public school auditorium on Monday evening, July 9, 1945 at 8 p.m.

The meeting was called to order by President Henry Schneider.

Mr. Schneider requested that the secretary read the law regarding the qualifications of an elector.

The minutes of the annual meeting of 1944 were read and approved.

John L. Fletcher made the motion that the annual financial report be accepted as printed. Motion was supported by Russell McLaughlin and carried.

A motion was then made by E. W. Eaton that the balance in the debt retirement fund and other subsequent taxes paid into this fund be transferred to the general fund. Motion supported by Wilber Hinderer and carried.

Mr. Eaton, treasurer, read the estimated income and expenditures for the school year of 1945-46.

Henry Dancer asked a question regarding the amount of State Aid. Mr. Eaton and Supt. Johnson aided Mr. Schneider in an explanation. A. (Continued on page four)

## Second Band Concert To Honor Farmers

Saturday evening, July 14, at 8:30 will be the date of the second concert of a series of six which will be given by the Chelsea high school band under the baton of Henry E. Busche.

The band will honor the farmers of the Chelsea district when they play their program this week. For their record production of foodstuffs in the face of critical labor shortage, their support in the community affairs of Chelsea, and their efforts in making this country one of the richest producers of agricultural products, the Chelsea high school band dedicates this program.

It goes without saying that the farmer has always had a struggle to make a good living. Each year he must take his chance with the weather, high cost of living, deterioration of farm machinery, and diseases in his live stock, which factors are so often overlooked by the average person, who is not acquainted with farming. And yet, in the face of all of this, he has been able to feed this country well, so well in fact that we are considered one of the healthiest and best fed peoples in the world. The band is augmented by members of the University of Michigan summer session band plus people in the community, who were members of the Chelsea high school band before their graduation.

## Bond Sales Report

The final report of bond sales for the Seventh War Loan shows that "E" bond sales, as well as "Corporation" sales exceeded their quotas. "Other" bonds reached 83 per cent of its quota.

Quota Sales  
"E" Bonds \$120,000—\$137,792.00  
Corp. Bonds \$135,000—\$135,472.00  
Other Bonds \$60,000—\$19,718.00  
The total amount of sales asked of Chelsea fell short \$22,018.00, but the committee on bond sales would like to commend those who helped to put the "E" bonds and Corporation bonds over the top. Individual sales are very important and mean a great deal in the final reports.

Thanks to the subscribers and to the "gallants" who gave of their time to accomplish our total.

—Chelsea War Bond Committee.

## Creel Census Released By Conservation Dept.

Lansing—Fishermen on Michigan waters are supplied a yardstick to measure their success this season.

The conservation department's 1944 creel census, just released, shows: Best fishing was enjoyed in the three lower tiers of counties in the lower peninsula.

Again, as in past years, bluegills were caught in greater numbers than any other fish in non-trout waters. Other important species were reported in the following order of abundance: yellow perch, crappies, pumpkinseeds, northern pike, yellow pike-perch, rock bass, largemouth bass, smelt, and smallmouth bass.

These 10 species made up 93.9 per cent of the total non-trout catch.

Non-trout fishermen made up 73.1 per cent of all anglers in the state. Of these, 85.2 per cent fished in lakes and the remaining 14.8 per cent fished in streams.

Catch per hour in trout lakes was slightly better than in the streams, but 90 per cent of trout fishermen fished in streams.

As in other years, brook trout made up the majority (82.2 per cent in 1944) of all trout taken. Rainbow trout (10.8 per cent) and brown trout (7 per cent) made up the remainder of the catch.

During 1944 conservation officers interviewed 46,100 anglers who fished 162,197 hours on various types of waters throughout the state and who took 177,262 fish at a rate of 1.16 fish per hour. The catch per hour was the same as that recorded for the previous year.

Best catch per hour (1.69 legal-size fish) was reported for southwestern Michigan counties; second best (1.55) for southeastern counties; third best (1.44) in south central counties.

The Use of Penicillin**Lansing (Special)—News that pen-  
icillin, the "wonder drug," has now  
been released for treating livestock  
as well as human diseases, brought a  
word of caution to stock producers  
today from livestock health authori-  
ties."Penicillin has very definite limita-  
tions, and there is danger that many  
livestock owners will be carried away  
by all the publicity it has received  
and endanger the recovery of sick ani-  
mals by not knowing these limita-  
tions," says an announcement released  
here today by officials of the Ameri-  
can Foundation for Animal Health.  
"Like the sulfa drugs, this new drug  
is effective against some types of dis-  
ease-producing germs, but wholly use-  
less against others. For this reason,  
a veterinarian should check any sick  
animals before penicillin is prescribed.  
The technique of penicillin administra-  
tion is also complicated—it must be  
given by hypodermic into the vein, or  
deep in the muscles, and the dosage  
must be repeated at stated intervals  
if the drug is to have the full effect  
through the blood stream."Foundation authorities pointed out  
that penicillin is of no value against  
virus diseases such as hog cholera and  
sleeping sickness, and that many of  
its other uses are still subject to  
further research. They suggested  
caution in expecting the impossible of  
it, and care to see that it is used in  
the right manner.**MICH. BELL PAYS \$1,794,853**

and the largest paid by any company

1944 was about \$15,900,000, an in-

## VETERANEWS

OFFICE OF VETERANS' AFFAIRS  
Lansing

Returning veterans often experience considerable difficulty in obtaining telephone service. The questions and answers following were compiled at the request of the Office of Veterans' Affairs by the Michigan Bell Telephone Company.

Q. Are returned service men and women entitled to business telephone service ahead of others?

A. Under WPB regulations, returning service men and women, including members of the Merchant Marine, who desire new business telephone service and who can meet certain requirements, are placed in group 8 of the classifications authorized by the WPB. That means that they are given new business telephone service next in order following applications in group 1 (installations essential to the war effort, public health, welfare or security) and in group 2 (present business customers who move from one location to another within the same or adjoining exchange).

Q. Must a returned service man or woman own his own business to obtain a telephone?

A. A returned service man or woman who desires new business telephone service is given priority on the installation of a telephone providing he or she owns a substantial interest in the new business and also principally operates or manages the business. A new business telephone cannot be installed on a priority basis in the name of a service man or woman who is employed, but does not own a substantial share of, a new business, nor for one who owns a substantial share of the business but is not actively involved in its management.

Q. Is a returned service man or woman entitled to priority installation of residence telephone service?

A. Yes, providing he had a telephone in the same or bordering exchange before entering the service and providing he reapplies for a telephone within 12 months of his discharge. He

is included in group 8 for residence service.

Q. Is the family of a man in the service entitled to priority installation of a residence telephone?

A. Yes. A wife or widow of a serviceman or of a man in the Merchant Marine receives preference in the installation of residence telephone service providing the household consists of only herself and one or more children all under 16 years of age.

Q. Is a serviceman's wife who is pregnant given preference in the installation of a telephone?

A. Yes, if she lives alone, or if the household consists of only herself and children under 16 years of age.

Q. Is the telephone company the sole judge of who gets a telephone?

A. No. The applicant can request an appeal to the WPB.

Q. Will an order "Expire" after a certain length of time?

A. No. The telephone company keeps all orders for service in a "live" file until they can be filled.

Q. There was a telephone in the house when I moved in, but the telephone company took it out. Why couldn't they have connected that for me?

A. It would have been easier, of course, but it would not have been fair to those who have been waiting longer. That telephone was used to supply service to an essential user, to a person with a higher priority or to one who had been waiting longer in the applicants group.

Q. Can an extension telephone be installed in a home?

A. No. WPB regulations forbid the installation of an extension telephone, except for certain needs such as professional requirements of physicians.

Q. Why must there be a priority system to control the installation of telephones?

A. From 1942 to 1945, practically all the telephones and telephone equipment that could be produced went to the armed forces. In addition, telephone factories had to manufacture many other types of communication equipment for our fighting men. That meant that central offices could not be expanded; additional

wires and cables could not be strung; new telephone instruments for civilian use could not be made.

New telephone installations could be made only by using rebuilt instruments and telephones that had been disconnected.

So long as telephone facilities are inadequate to meet all demands for service, it is only proper that most essential needs be met first. The WPB priority system assures that such needs ARE met first.

Q. Is the demand for telephone service still great?

A. As of June 1, 1945, there were about 120,000 persons waiting for telephone service in Michigan alone, while throughout the nation, held orders totaled nearly 2,000,000.

Q. Will telephones be available for all as soon as the war ends?

A. New telephone service cannot be made available as rapidly as most new products. Manufacturing is not the only process required to furnish additional telephone service. New wires and cables must be strung. New central offices must be built and equipped. Such activity requires much hand work and time. Accordingly, it may be two years or so after war's demands have been met before all who want telephone service can obtain it.

Q. Are the telephone companies doing all they can to fill orders?

A. Yes. Until war demands permit the manufacture and installation of enough telephones, wires and central office equipment, however, the telephone companies will be unable to meet all requests for service.

The telephone industry plans a tremendous postwar expansion program to meet millions of dollars and that will make it possible once again to furnish telephone service to all who want it, when and where they want it.

**Animo Acid**  
Arginine, an amino acid, has been found important in the production of sperm cells. A diet deficient in it resulted in a marked decline in the production of these cells, but when it was replaced in the diet, the cells were again produced. The effect of arginine on sterility is now being studied.

Beautiful State House

Settled first by Scotch-Irish from Pennsylvania and Virginia and then by New Englanders, Ohio became a state in 1803. Its beautiful state house at Columbus was completed in 1881. The limestone was transported from quarries northwest of the city by a railroad built especially for the purpose.

# "WE'LL BE DOING A LOT MORE OF THIS AFTER THE WAR"

THERE has been some rural telephone construction during these war years, but nothing compared to what we had hoped for.

Long before the war, Michigan Bell began an extensive program of rural service expansion and improvement. Then, in 1940, we adopted a rural construction plan recommended by the Michigan Rural Communications Committee, a group of agricultural leaders. It included a liberal free line-construction allowance, and small monthly payments where construction costs were necessary.

Under the rural construction program, there was a sizable increase in the number of rural telephones.

Then came war, and telephone factories went to work for the armed forces. Nearly all new wire, cable,

instruments and other equipment "have gone to war."

After final Victory, Michigan Bell expects to launch a 5-year \$120,000,000 program of expansion and improvement, a goodly portion of which will be used to resume our rural work.

Today, 2 of every 3 of our rural telephones are dial operated. We intend to increase that number. Telephone service will be made available to more rural subscribers through the use of important new devices and methods. We want to reduce the number of families per rural line. We are studying special features to make telephone service more valuable.

Thus Michigan Bell will proceed with its plan to furnish the best possible service to the largest possible number of people at the lowest possible cost.

**DEPLORE ACTS OF CONGRESS**  
The Board of Directors of the Michigan Farmers' Guild at its last meeting deplored the increasing disregard for the Tydings Amendment of the Selective Service law by the Federal authorities concerned with its administration in indiscriminately drafting farmers regardless of the essential character of their farm work and the demoralizing effect of this disregard upon agriculture and food production and suggests that Congress either find some way to punish the officials in-

volved or renew efforts to put teeth in the Tydings Amendment, or both.

## DANCE VERY SUCCESSFUL

The dance sponsored by the Athletic Board was very successful—in fact, one of the best dances ever put on in Chelsea. The music was very well liked. (We overheard someone say "It's out of this world").

There were many requests for the return of Jerry Edwards and his orchestra so they will return July 20, and the public is invited.

There weren't as many townspeople at the dance as was expected. The majority of the people were from out of town, many of them being from Ann Arbor and Dexter. We hope that more townspeople will attend the dance on July 20.

We want to thank all the chaperones at the dance.

Mr. and Mrs. William Sly of Wayne announce the birth of a son, James William, born June 30, at Dearborn hospital. Mrs. Sly was formerly Jean Barkley of Chelsea.

## Jackson Editor Tells Of Recent Trip To Europe

One of the most interesting talks ever heard in Chelsea was delivered at the Kiwanis club meeting on Monday evening by Carl M. Saunders, editor of the Jackson Citizen Patriot, who recently returned from a tour of England, France and Germany.

Mr. Saunders left Jackson in March and returned on Memorial Day. He

CARL M. SAUNDERS

went overseas on a ship carrying 10,000 troops. The submarine war in the Atlantic was still being waged and the speaker's story of the crossing was full of amusing and interesting incidents. This ship sunk at least one submarine on the trip.

Arriving in England as the guest of that government, Mr. Saunders had the privilege of visiting many places as a newspaperman which would have been denied other civilians. He witnessed the briefing for huge air fleets which were at that time attacking Germany, and saw the takeoff of these armadas. He visited the House of Commons on various occasions and was present when Prime Minister Winston Churchill officially proclaimed V-E Day.

The speaker said that England's bomb damage appeared to be great until he visited Germany and saw the large cities which had been virtually wiped off the map. He was unable to visit the horror camps in Germany but talked to many war correspondents who stated that reports of atrocities committed by the Germans had not been at all exaggerated. He stated that the older German people accepted the defeat but that the younger generation was defiant and not to be trusted.

This was guest night at Kiwanis and there were about sixty in attendance at the meeting.

## Men In Service

(Continued from page one)

part of the southern half of the island. No doubt that with a map it will be easier to see. We all go to the airports around here. Yontan and Kadena are the largest near here. That is one of the reasons we are bothered by air attacks. The Japs would like to knock the fields out but our night fighters do a very good job. Every one is making bracelets out of Jap planes (scraps) that have been shot down or were suicides. I'm working on one but I doubt if I'll ever finish it.

The knoll I sometimes mention where we rest and write letters is on top of a tomb; you've probably heard about them in the newspapers. The island is covered with them.

This island should be secured very soon now, but there is still some rough fighting going on.

A couple of days ago we were given a warning about a typhoon approaching and so everyone made their tents fast, but it never came—we weren't disappointed.

We (Co. A, 3rd Signal Bn.) are attached to the 1st Engineers Special Brigade. This outfit has been through a lot—Africa, Sicily, Normandy and now Okinawa. They were rated very high in the European theatre and I guess they are here, too.

Did I tell you about the time I was missed by flak by about a foot? The Japs were up high that night and Charlie and I hit the hole when the 30mm's started to let go. They had the lights on him and we were both curious to see if our A.A. brought him down. The big barrage was over so we came out to see if he was still there—we stood at least two minutes and then "zing—thud—we both dived back into the hole again. I guess we know now what it looks like so we'll stay in after this.

Dad told me once how when a plane is hit sometimes there just isn't anything visible left. Well I saw one like that a couple of weeks ago. The Japs were trying to get some ships in the harbor and one went into his dive preceding the suicide crash and the Navy had everything going—20's, 40's, 5-in., 50 cal., and 37mm's—they hit him at about 100 feet above the water—a

flash—and then nothing. That was at dusk and I got a pretty good look at it.

Ask your questions now so I can answer them.

I had a letter from Dave which came in six days; he is in Schofield Barracks he said. It is a nice spot there and I know he'll like it. I hope we'll meet up out here as we never had any luck in the States.

Well, notify the paper and all the magazines of my change of APO. I haven't received any yet, but think of all the reading after the war!

Love to all,  
Bob.

The Society accepted an invitation to join the St. John's Ladies Aid for a picnic at Clear Lake on Wednesday, Aug. 1. Cooperative lunch.

Plans were made to hold an ice cream social in the church basement on Thursday night, July 26.

Secretary's and treasurer's reports were read and approved. No monthly meeting will be held in August. The meeting closed with the Lord's Prayer in unison.

GUESTS OF SAGERS  
About 30 members of the Hi-Neighbor club were Sunday guests of Mr. and Mrs. Fred Sager at their summer home, Sugar Loaf Lake. Games and swimming were enjoyed after the pot-luck dinner.

Perhaps the OLDEST Prescription ever preserved is one written with a brush on both sides of a smooth piece of limestone called an "ostrakon." In ancient Egyptian characters it prescribes grinding precious stones for fumigation purposes. It does seem queer, but the preparation is even more curious than the method. Compare the "Ostrakon" with the physician's prescription of today, which is based upon the latest medical knowledge.

## Serve Garden Suppers, Picnics for Real Joy During Hot Weather

Jellied vegetable salad is garnished prettily with potato chips and cucumbers, topped with lemon and olives to make a tempting main dish for a summer supper.

Porch supper, box lunches, picnics and buffet parties are an inseparable part of summer. There can be plenty of fun in the shade of the old apple or elm tree, and the family will enjoy getting closer to the great outdoors. Sandwiches or early morning preparation will greatly simplify the work of meal preparation. Let salads and fruits rest in the cool of the refrigerator so they will be ready when time comes to eat. When chilled, they will be doubly good.

Here's an excellent meat loaf which may be served "as is" with mayonnaise or cucumber sour cream sauce or sliced for sandwiches. Make it easy for yourself by letting the family serve themselves.

## Refrigerator Meat Loaf

(Serves 6)  
 2½ cups cold pork or veal  
 ¼ cup sweet mustard pickle  
 ¼ teaspoon salt  
 ¼ teaspoon pepper  
 4 tablespoons butter or substitute

A tray for fillings for "make your own sandwiches" is bound to go over big for a porch supper. Here are suggestions which you will enjoy using:

**Mock Chicken Filling.**  
 (Enough for 12 sandwiches)  
 1 cup cooked veal or pork  
 ½ cup finely shredded cooked carrot  
 ½ cup finely chopped celery  
 2 tablespoons pickle relish  
 3 tablespoons mayonnaise  
 Salt to taste  
 Combine and mix ingredients together thoroughly. Chill before serving.

**Cole Slaw**  
 With Cottage Cream Dressing  
 (Serves 6)  
 1 teaspoon salt  
 1½ tablespoons vinegar  
 ¼ teaspoon dry mustard  
 ¼ cup milk  
 ¼ to 1 cup cottage cheese  
 3 cups shredded cabbage  
 Mix salt, vinegar and mustard. Stir slowly into milk. Add cottage cheese and pour over cabbage. Toss before serving.

Grated raw carrot, chopped green pepper or finely diced raw apple combine well with shredded cabbage to make other decorative and taste-pleasing salads. Cottage cream dressing goes well with these combinations and a variety of other fruit and vegetable salads.

## Lynn Says:

**Supper Thoughts:** When you are having cold cuts and a substantial salad as main interest for supper, have something hot in the way of a quick bread just out of the oven. Good suggestions include these that bake quickly: corn bread, whole wheat biscuits, prune muffins and orange marmalade rolls.

A freezer of homemade ice cream is a welcome treat at outdoor suppers. Try some flavored with fresh berries or apricots, and be sure to have the cookie jar handy.

Doll up your garden party supper salads with plenty of relishes such as olives, pickles, radish roses and carrot sticks. They make for nice nibbling.

Bring out the checked cloths and paper napkins, old-fashioned jugs for flowers, and picnic utensils for under-the-trees eating. They go with the atmosphere.

## Males 17 or Over Must Have USES Referral

The Presidential Order to the WMC that all males age 17 or over be required to have a Statement of Availability and referral to a job from the U. S. Employment Service has not been rescinded or changed in the Ann Arbor Area.

As of June 25 some manpower restrictions were suspended, according to C. A. Strinne, Area Director. These were (1) that "male ceilings" do not now apply. An employer may now hire as many men as the U. S. Employment Service is able to refer to him, but Priority Referral is still in effect. (2) Stabilization covering women has been suspended for the time being. Women now may change jobs at will and do not need a Statement of Availability or referral from the USES in order to be employed. This applies to less-essential as well as essential employment.

There has been some misunderstanding on the part of both male workers and employers in that the lifting of male ceilings has no reference to the free hiring of men, according to Lawrence Hamberg, manager of the local U. S. Employment Service. Employers who have inadvertently hired men without Statements of Availability and referral from the USES are urged to supply the employment service with their orders for workers. It is the employers' own responsibility to have on file a Statement of Availability for men, covered by a referral from the USES.

The Employment Service has several hundred applications for employment of workers who have filed claims for Unemployment Insurance. But not enough orders for workers are on hand to which these workers can be referred. Employers are urged to make known their worker needs to the USES so that these claimants can be referred to work. This is particularly true of women many of whom have good qualifications of training and experience to hold down responsible jobs.

"The continued voluntary cooperation of workers and employers is requested," said Mr. Hamberg, "so that we may demonstrate to the men and women in the Armed Services that we are backing them up with War Production while they are doing the really tough job of finishing off the Japs."

Halts Coal Freeze  
 Coal now is receiving anti-freeze treatment. This is not because of lack of heating qualities, although some of the slate accumulations that were sold as coal last winter would suggest the possibility. The purpose is to prevent coal, particularly the small pieces, from freezing into a solid block while being transported in the railroad gondola cars. The treatment consists of mixing about 400 pounds of rock salt with a 50-ton cargo when the coal is loaded at the mines. One operator found that by having 1,200 tons of rock salt so applied at the mines he saved \$12,000 in unloading costs.
