## C. H. S. Football Team Guests of Kiwanis Club

By John Wellnitz

The Chelsea Kiwanis club held its annual banquet for the Chelsea football team on Monday evening at the St. Mary's hall. Also attending were the many cheer leaders.

Mr. Niehaus started the evening off with group singing, followed by a dinner of chop suey, with gingerbread and whipped cream for dessert.

A quartet from the high school: Nancy Loose, M. Eschelbach, Rosemary Hummel and Wilma Koenigster, with M. Hinderer at the piano, presented several selections.

Supt. A. C. Johnson, program chairman, then introduced Chas. Cameron, who gave the awards to the team. Major awards were given to T. Smith, captain of 1945, C. Slane, R. Breitenwischer, J. Burg, R. Daniels, J. Wellnitz, D. Barth, R. Knickerbocker, W. Waters, B. Barlow, C. Colquhoun, D. Baldwin, R. Carlson, D. Vogel, D. Slane and John Wellnitz, manager. Reserve awards were given to E. Eisele, M. Grafson, L. Haffey, T. McClear, J. Niehaus, A. Geer, R. Barlow, D. Knickerbocker, C. Knickerbocker, D. Schulze, J. Miller, F. Kaiser, J. Wenzel, R. Guenther, G. Merkel, J. Palmer, R. Stoffer, D. Liebeck, L. Chriswell, W. Van Riper, and Bob Vogel, assistant manager.

Mr. Cameron introduced our 1945 captain, Thomas Smith, who gave a report on the games this year and introduced Ray Knickerbocker, our captain for 1946. Ray accepted and promised to treat the football team to sundaes.

Mr. Johnson then introduced Clifford Keen, wrestling coach from the University of Michigan and formerly Lt. Commander in the Navy. He told how the Navy uses athletics to determine the fighting ability of the men, and that not only the boys who have talent need coaching, but the boys who do not show much talent should be given the chance. After his talk Mr. Keen showed the pictures of the Michigan-Ohio State game.

The evening ended with the boys eating sundaes on Ray!

## Home - Family Living Week December 2 to 8

Will your family be together again this year for Christmas? You are always conscious of your family at Christmas time, but the rest of the year they are forgotten. The need for family unity has been recognized by the government and they have set aside December the second to the eighth as Home and Family Living Week.

In 1620 when the Pilgrim fathers set out for the new world they brought their wives and children with them because they realized the need for whole families to carry on all the work that was required in the wilderness. Modern inventions have shortened the working hours in the home so that today we have more leisure time, but we still have a need for family unity.

The girls of the C.H.S. Home Ec. club would like to make all the people aware of the importance of the family and the possibilities of enjoying it.

This year especially, your families should enjoy Christmas since a lot of the boys will be home, but don't let it stop at Christmas! There are many things that a family can do to enjoy home life together each and every day.

One important thing to remember is to try to enjoy the friends of every member of the family.

Watch your family this year and make the most of every chance to participate in family activities.

—The Home Economics Club.

## Christmas Plant Was Named for U. S. Diplomat

### Poinsettia Brought Here From Mexico Adopted As Christmas Plant.

Poinsettias which have come to be a "must" for home Christmas decorations owe their name and popularity to an early American diplomat, botanist and scholar—Joel Roberts Poinsett.

Nearly a century and a quarter ago, Poinsett, then U. S. ambassador to Mexico, first brought cuttings of the "fire plant" to his South Carolina home. Carefully he tended the transplanted tropical beauty. Under his skillful hands the flower thrived and improved.

Soon the fame of this colorful new plant spread to other states and Robert Buist, a Philadelphia botanist, bought some cuttings from Poinsett. He named them euphorbia poinsettia.

Since that day enthusiasts not only in the United States but throughout the world have continued to improve the poinsettia, until today there are a score of varieties from giant six-foot stalks to diminutive dwarfs, double and single varieties, green poinsettias with red veins, white varieties and a gradation of reds from the traditional flaming scarlets to pale pinks.

Besides serving as ambassador to Mexico, Poinsett was a member of congress from South Carolina and served as secretary of war in President Van Buren's cabinet. He was a personal friend of Presidents Madison, Monroe, Jackson and Van Buren.

### New Amsterdam Dutch Brought Santa Claus Across With Them

The American version of Santa Claus was found chiefly in New York until a paper in that city published the poem we know as "Twas the Night Before Christmas," then it spread rapidly over the whole country and now every community has a similar legend.

It all began about 300 years ago. When the Dutch boys and girls first came to America in the early 17th century, and settled in New Amsterdam, they brought Sinter

The Dutch "Sinter Klaas" from whom our Santa Claus descends represents the bishop of Myra in Asia Minor, who was noted for his charity and goodness. In the Dutch pageants, Sinter Klaas rides on a white horse, accompanied by his servant "Black Piet."

Klaas with them, and Sinter Klaas Eve was still their most important day. After a time, the English took Amsterdam from the Dutch and named it New York.

Many years before this, the English had had a Saint Nicholas celebration. In the English celebration, the choir boys elected a boy bishop and for a week boys went around the town begging gifts, but these festivities had been stopped by royal decree. When the English took over New York, the Dutch boys and girls kept right on celebrating Sinter Klaas day in spite of the English laws. Later Norwegian and Belgian children who settled in and near New York, also celebrated the day in a similar manner. It wasn't long before English boys and girls wanted to receive gifts. Since they already were celebrating Christ's birthday on December 25, they chose that day as the one on which to exchange gifts. The English children called Sinter Klaas Santa Claus.

As more and more people of different nationalities came to America, each added its bit to the celebration of Santa Claus day. From the Norwegians came his reindeer, the Italians gave us the custom of hanging up our stockings and so on. The regal figure of Sinter Klaas slowly changed to the fat, jolly Santa Claus of today.

Reason for Eight Reindeers  
Have you ever stopped to think why St. Nicholas drives eight reindeer instead of one? You haven't? Well, let's pause for a moment and figure it out.

St. Nicholas is a mythical character, he rides in a mythical sleigh, carries a mythical bag, and drives mythical reindeer. The creators of St. Nicholas knew that one reindeer would do the job, but in order to make the character more impressive and longer remembered, they hitched a matched unit of eight to the sleigh.

Orla B. Taylor  
Orla Benedict Taylor, 80, historian, world traveler and retired attorney, died Saturday morning, December 1, at his home, 1725 Burns Ave., Detroit. A set of signatures of Napoleon and each of his marshals collected by Mr. Taylor was presented by him to the University of Michigan, and he also donated a group of rare law books which were published in 1448.

In 1933, the University conferred the honorary degree of Doctor of Laws on Mr. Taylor. He was a member of St. Paul's Episcopal church, Detroit, the Grosse Pointe Country Club and the Detroit Club.

First Vet Benefit  
The first national law for veterans' benefits was passed by the Continental congress in 1776. By this act veterans were promised half pay in case of disability sufficient to interfere with earning a livelihood. Since no federal funds were available at the time, this law acted only as a recommendation to individual states. However, a United States congressional act of 1789 took over all state-paid pensions as a national responsibility.

## Sparkle Forks

To sparkle forks, plunge them up and down in your handy jar of silver polish right at dishwashing time. Get between those tines, too! Eggs for breakfast? Rinse silver in cold water first — hot water cooks eggs on, makes washing hard. Acid or egg-y foods (salad dressings, too) will stain if dried on silver, may even etch if left for long. Remember it's easier this way.

## Near-Sighted Students

About 7 per cent of all American children entering kindergarten are near-sighted, but the defect increases rapidly from grade to grade, with surveys indicating that approximately 24 per cent of all students are near-sighted upon graduation from high school. In college visual shortcomings continue to increase, with statistics indicating that 31 per cent of the young men and women graduating from college are myopic.

## Near and Far-Sighted

A near-sighted person sees distinctly for a short distance only or only those things which are close at hand, but a far-sighted person can see things at a distance although he has difficulty seeing things close at hand. The medical term for near-sightedness is myopia while hypermetropic means far-sighted.

## First Winter's Care Is Factor In Raising Horse

Much of the success in raising a horse depends on the feed and care given during the first winter, maintains Byron Good, animal husbandry specialist at Michigan State college. He says it is easier to halter-break the colt before he is weaned and while he is small. The colt should be taken from his mother and weaned when about five months old. By that time

he should have learned to eat oats and hay. This applies to draft, light-legged colts, or even ponies.

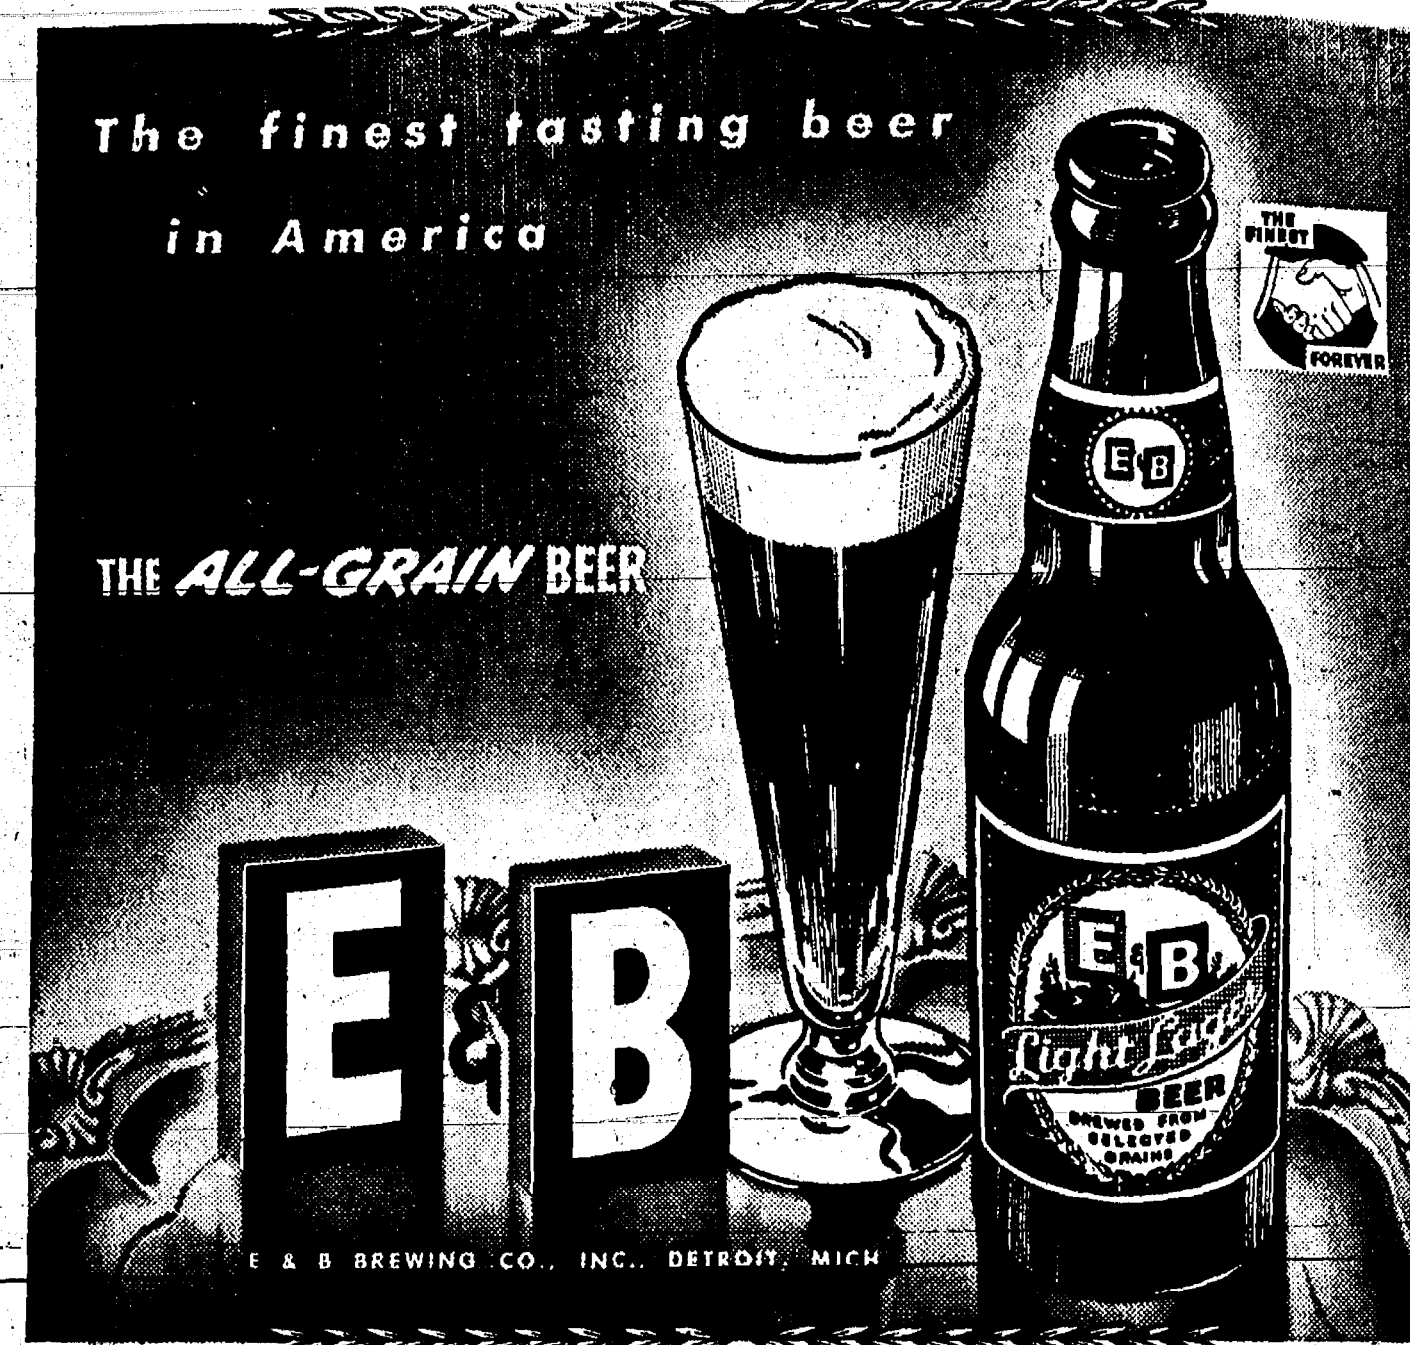

Grain as part of the feed ration is important to insure that the colt has plenty of resistance to disease and injury the first winter. Oftentimes, however, colts are grown to maturity without any grain and eventually make just as good horses, but they mature more slowly and are subject to disease and injury while growing. Long-time tests at Michigan State college, with both draft and saddle-bred colts raised with and without

grain, show that colts without grain the first winter are more liable to die of attack of influenza or colds. The feed about one pound of grain, preferably oats and corn, with legume hay. This needs to be accompanied with plenty of outdoor exercise.

If clover or alfalfa hay is not available, some old meal should be used. If the colt can't be turned on grass, then four to seven pounds of carrots daily will help keep him in good physical condition.

## War Service Appointments

In October, President Truman signed Executive Order No. 9644, which authorized the Federal Civil Service Commission to confer a competitive classified civil-service status upon certain disabled veterans employed in a civilian capacity in the Federal government.

The order set forth that the Civil Service Commission is authorized to confer a competitive classified civil-service status upon a veteran serving under a war-service indefinite appointment who establishes the presence of a service-connected disability of not less than ten per cent, subject to certain conditions.

If the veteran has completed a trial period of one year he may be given a competitive classified civil-service status upon certification to the Civil Service Commission by the head of the agency concerned, that the veteran has completed a trial period and that his services have been satisfactory.

If the veteran has not completed a trial period of one year he may be given a probational status upon certification by the head of the agency concerned that the employee was given an indefinite war-service appointment and has been serving satisfactorily during his trial period. Any person given probational status under this condition is required to complete

a one-year trial period beginning with the date he entered duty under a war-service appointment.

During the period the Civil Service Commission is operating under the War Service Regulations prescribed pursuant to Executive Order No. 9083 of February 1942, probational appointment shall be given to any disabled veteran who establishes the existence of a service-connected disability of not less than ten per cent and who is selected for appointment from a certification of eligibles issued by the commission. Any person given a probational appointment under this section of the regulations shall be required to complete satisfactorily a one-year trial period.

## SAVAGE SCHOOL NEWS

All of the grades made Thanksgiving pictures. We had a little party with popcorn and apples for refreshments. We played games. We are making Christmas pictures. They are very pretty. We are selling Christmas seals. We divided into two teams and are going to see which team sells the most seals. At present the Stars are ahead.

We sold tickets for a \$25.00 bond. The one that sold the most did the drawing to see who had the lucky ticket. Ford Atchison will receive the bond. Winona Franklin did the drawing.

The seventh and eighth grades had the first county test Nov. 27. George Young brought a poem for Thanksgiving day. There was a very nice picture on it.

We are giving a Christmas play. Some poems and songs will be read and sung. It will be Dec. 21, 1945. The Mothers' Club will be invited to it.

## Constructive Toys

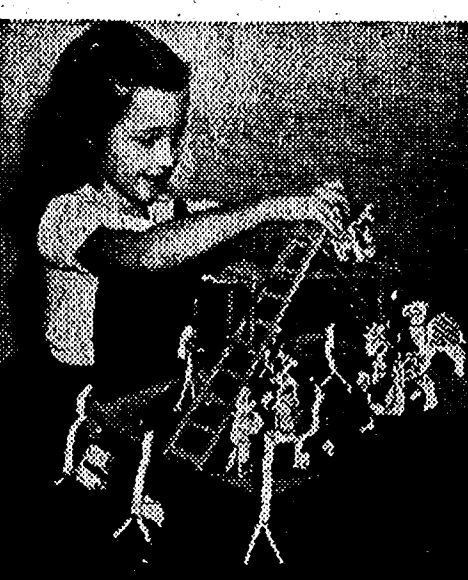

## Make Better Gifts

When you buy toys for children, give a thought to their constructive qualities. How much can they do with the gifts you are providing them? Will they soon tire of them and go back to the good old spoons and pans in the cupboard that they can do so many things with? If you buy a doll, get one that can be dressed, bathed and brushed. If a boy wants a doll, let him have it. Fathers love children.

Growing children need big toys that require lifting, tugging, running—movement of muscles. Blocks are ideal. Think of the things that can be done with them! One carpenter out of work made quite a good thing last Christmas of children's blocks.

He collected odds and ends of boards at the lumber yard, planed them off smoothly, painted them gay colors and sold them in lots of a dozen up to 100. Wagons, cars, scooters, skates, sleds, and skis are good. But the toy should suit the age of the recipient. Every boy should have a ball of some kind. Boys like trains, but wooden blocks painted to resemble cars are better than the kinds that can run only on tracks. Girls are pleased with rolling pins, doll beds, houses, trunks, small chairs and tables, and dishes. One mother writes that her son's most cherished gift last Christmas was five pounds of assorted nails given him by an understanding uncle.

For older folks, books and Christmas just seem to go together as naturally as bread and jam, or

Educational toys are popular.

ham and eggs. A home-made book may make a hit. It may consist of leaves of brightly colored cambric, ten colors in all, sewed securely through the middle to hold them together, and with pinked edges.

There's gold in the preservation of outstanding historical landmarks.

Such is the experience of nearby states such as Indiana, Wisconsin, Illinois and Ohio, all of which have purchased and are maintaining unusual historical sites and properties as a part of the state's recreational service to the public.

Michigan, the leading tourist state in the Mid-West, has lagged in this field. As we pointed out recently, historic Fort Mackinac at Mackinac Island is under state ownership and control and is perhaps the best known tourist spot of the entire state. It provided the setting for the 1945 governors' national conference last July.

Through the efforts of county boards of supervisors, local historical societies and interested citizens, many historical sites in Michigan have been suitably marked and thus memorialized with tablets and monuments. But few original properties have been preserved.

In addition to Old Fort Drummond and to the old Mormon printing house at St. James, Beaver Island, which we publicized as affording opportunities for preservation of unique historical landmarks that would appeal greatly to Michigan people and to outside tourists, there is a stretch of the old Clinton-Kalamazoo barge canal between Utica and Rochester which still survives today as a relic of a century-old pioneer period.

Part of this waterway is being utilized by the Utica Milling Company, Utica, for purpose of waterpower. It would be very simple for the State of Michigan to set aside a portion of this canal as a historical memorial. Canal land has been purchased already by the state conservation department in its development of the Southeastern Michigan recreational program.

This canal was started in 1839 as part of an ambitious state improvement program designed to provide transportation by boats from Lake St. Clair to Lake Michigan via the Clinton and Kalamazoo rivers. Michigan's boy governor, Stevens T. Mason, headed the movement. When money ran out, the canal was abandoned.

Our column research this week revealed the fact that the Indiana department of conservation is acquiring a 14-mile stretch of the old Whitewater canal between Brookville and Laurel for preservation as a historical memorial.

Formal transfer of the property, financed by the Whitewater Canal association is expected to be completed this month. Announcement was made November 1.

In Indiana the state government, through the department of conservation, is "cashing in" on public interest in early Indiana history. The state has acquired the following properties and is preserving them as recreational tourist spots: George Rogers Clark memorial, Nancy Hanks Lincoln memorial, Corydon State Capitol memorial, James F. D. Lanier memorial, old Goshen Church memorial, Pigeon Roost memorial, Tippecanoe Battlefield memorial, and the Wilbur Wright birthplace memorial.

The Whitewater canal memorial would be added to the above.

In Wisconsin the preservation of historical landmarks is conducted under auspices of the conservation department as the operating agency for maintenance.

Like Michigan, Wisconsin has an active state society for historical research and publications. But groups of this kind are not equipped to administer the needs of properties, and hence the conservation department is the preferred medium.

The Wisconsin conservation department is charged with the preservation of the following:

Nelson Dewey Memorial park at Cassville, consisting of original buildings on the farm of Wisconsin's first governor. State purchase, 1935.

Wisconsin's first capitol building at Beloit. Gift of 1924.

Cushing Memorial park at Dalafield to Civil War family prominent in Wisconsin history. Gift in 1915.

Tower Hill pioneer memorial park at Spring Green where lead shot was made. Gift in 1922.

Other potential tourist attractions which would afford a delightful Sunday automobile trip for Michigan residents and an interesting stop for visiting tourists:

Oldest covered bridge in Michigan, a relic of pioneer days.

Oldest remaining pioneer water-

powered mill. A historic mill is in the Southeastern Michigan area, having been acquired by the conservation department.

Authentic restoration of lumber camp in north Michigan woods. Tourist access by lumber railroad, a la "Tomerville," trips being financed by small fee per passenger.

Indian mound and Indian historical museum.

That historical landmarks, such as these, would enrich Michigan's tourist industry is our observation. Financed preferably by private contributions and administered by the conservation department, they would be a sound business investment.

A major handicap, according to Harry H. Whiteley of Dowagiac, a member of the state conservation commission, is an "extreme lack of funds." The state park budget was cut by the legislature from an anticipated \$3,000,000 to \$1,000,000 during the 1945 session.

With approximately 5,000 acres on its hands, the state department finds itself literally strapped for money. Mr. Whiteley points out, "After more or less marking time during the war period, we must now begin to do something that can be sensed by the public." That will require adequate state funds which, to date, according to Mr. Whiteley, have been "stymied by legislative lethargy and indifference."

If historical landmarks are to be acquired and preserved, action must be taken first by local governments, by privately-raised funds, or by memorial gifts. Later on these acquisitions could be turned over to the state for maintenance as part of the state's recreational program. Such is the outlook today as we see it.

## BEACH SCHOOL NEWS

This is the end of the second six-weeks period. Those who have not been absent are Oscar, Richard and Philip Barais, and Harlan Van Blaricum. Our new second grade pupil is Irvin Knickerbocker.

At Halloween the children enjoyed a wienie roast with a nice outdoor picnic followed by a program and some games. The Thanksgiving program consisted of poems, stories and songs.

The five pupils who haven't missed a spelling word are Alta and Rose Mary Marshall, Shirley and Barbara Macomber and Irvin Knickerbocker.

Mrs. Zeeb brings books from the Chelsea Library. Many thanks to Mrs. Walworth for selecting such interesting books. Altogether we have read one hundred books. Billie Mae Stanley and Rose Mary Marshall have earned county certificates.

Our visitors for the period were Mr. Whitman, Mrs. Reddig, Mrs. Macomber, Mrs. Tanner, Barbara Hunawell, Mr. Thayer, Rose Ann Zeeb, Mrs. Nichols and Mrs. Knickerbocker.

We joined the Junior Audubon Society, which sent us some bird pamphlets, pictures, Audubon tags, and a book on birds which we enjoyed. We made bird books from the pamphlets and are trying to find bird nests of the birds in the pictures.

## Survey Shows 'Phone Is A Necessity On Farms

The telephone is taking its place, along with other necessities, as a "must" item on farms in this state, according to a survey by the Michigan Bell Telephone Company.

Nearly 80 per cent of rural telephone users questioned in the survey regard their telephone service as a necessity and fewer than one per cent labeled it as a mere convenience. The survey was made among 1,500 rural customers of Michigan Bell, representing a cross section of 31,000 telephone users in 36 exchange areas and 24 counties.

Theodore H. Dawson, director of the company's rural program, pointed out that the survey indicated that the rural user, like the city customer, above all else wants good service. "Most of them want it even though the price for that quality of service may be slightly higher than the charge for inferior service," he said, pointing out that "two thirds of those having more than six on their rural

line said they would be willing to pay a little more for service limited to that number.

A war-created condition of as many as 9 to 12 parties on some lines was the "one big complaint" registered in the survey. "Now that the war is over," Dawson said, "we propose to do something about reducing the number."

Dawson said the survey will be helpful in carrying out the company's \$13,500,000 postwar rural construction and improvement program now under way. Despite wartime restrictions, the company has built 1,100 miles of new rural line since 1940 and has installed service for nearly 28,000 additional rural customers. Today, Michigan Bell serves 68,800 rural line telephones—twice as many as in 1930, the pre-depression peak, Dawson said.

## LOST BELONGINGS

The "lost and found" department in Mrs. Claire's office seems to grow considerably as time goes on. Where does it all come from? That is what Mrs. Claire would like to find out! There is a collection in there, including everything from fountain pens to glasses, and no one to claim the stuff. If you have lost something, chances are that someone has turned it in, and you could probably get it if you went to see Mrs. Claire. I'm sure she would appreciate getting rid of people's lost belongings which clutter up her desk drawers.

Now, there is another side to the problem. Why are so many things lost? If everyone would keep track of his own belongings, it would end a lot of trouble. When you change classes during the day, see that you pick up your pen or whatever it is, and put it somewhere where you will not drop it while walking.

While I am still on the subject of lost belongings, there is still another problem which should be brought up and that deals with things lost from lockers. Don't bring large sums of money and other valuables to school and keep them in your locker! If you "must" bring large sums of money to school, any teacher would be glad to keep it for you until school is dismissed. Also, always keep your locker locked and do not leave valuables in them overnight. These precautions would remove the temptation from those who steal and also remove much heartache due to stolen articles.

Carelessness never brought anyone good luck and I'm sure it won't you either.

## LAWNS

We, the students, should have more responsibility in the upkeep of our school lawns. We should remember that if we walk on the lawns while the ground is still soft, we will have a poor lawn next summer. Our school has always been admired for its neat, attractive and clean grounds, but lately we can't say this with rightfully-earned pride. Whose fault is it? Ours, for we are the ones who throw papers on the lawn, take shortcuts or jump the hedges. When everyone cooperates, much more is accomplished.

## VICTORY GARDEN WINNERS

Last Friday in a simple ceremony, Mr. Richards, head of the agriculture department and principal of the high school, presented victory garden checks to the lucky winners of the prize contests held last summer. Winners were Carl O'Dell and Raymond Steinbach, entered from grade 6; Nancy Brooks from grade 5; Phyllis Moody and Mary Ellen Moore, from grade 4; and Cynthia Paul, from grade 3. Please understand that each child has been promoted since he enrolled in the contest last spring.

Miss Nina Greening and Miss Margaret Grant of Detroit public schools, acted as judges, basing their decisions on size and variety of crops, percentage of participation by the child, freedom from weeds, freedom from insect pests, and care and harvesting of the crop.

The presentation was made in the presence of the eighth grade, as that class, by their sale of seeds last spring, earned the money to make the prizes possible.

Mr. Richards concluded the presentation with a plea for further participation in garden activities in the future.

## VICTORY LOAN

The quota set for this Victory Loan is \$10,000 and we have divided this up among the classes according to the number in each. The following are the quotas set for the grades: seventh, \$1355; eighth, \$1219; 9th, \$2273; 10th, \$1967; 11th, \$2171; 12th, \$1015. Since everything is on a percentage basis, each class, large or small, has an equal chance of winning.

To encourage sales we decided to set up a contest whereby the winner is the class which sells the greatest percentage of its quota.

The class with the lowest standing in the Victory Loan is responsible for a party to be given Friday, Dec. 14, the last period of the day for the winning class only. This includes furnishing the refreshments and providing records for the winners.

The rules for the contest are as follows:

1. Only bonds sold between Monday, Dec. 3 and Friday, Dec. 7 at four o'clock count.
2. All bond numbers should be turned in to class sponsors each night.
3. Your name does not have to appear on the bonds that you sell. The idea is that you're not only to buy bonds yourself but get other people

outside of school to buy them and then you get the bond numbers.

4. The amount of stamps that you buy can also be turned in at the end of the week even though it does not add up to an entire bond.

5. Brothers and sisters cannot turn in the same bond numbers.

6. There will be a bond and stamp booth in the hall before school in the morning and at noon.

## FRESHMEN BIOGRAPHY

Miss Searles, the pretty eighth grade teacher, teaches arithmetic eight and seven, science eight and seven, and mathematics in life. The study hall she has gets noisy sometimes, and she wishes they would be more quiet. Light blue, her favorite color, looks very good with her blue eyes and blond hair. She is five feet six and one-half inches tall. Steaks and peas are very high with Miss Searles because she likes them very much. Her favorite song is "Till the End of Time."

Miss Searles comes from Canandaigua, New York, but she went to the University of Michigan to school. To pass the time away Miss Searles likes to play the piano, and play ping pong.

Miss Searles says she enjoys Chelsea very much.

## PARTIES

The Junior High party, held Friday evening, was a great deal of fun for everyone. When you dance to such pieces as "Dream" and "Boogie Woogie," have ice cream, cupcakes and various drinks, and Henry and Mr. and Mrs. Orbring and Mr. Guenther to teach square dancing, you are sure to have a delightful time. Miss Fox and Miss Searles sponsored the affair.

The people responsible for planning and entertaining the Freshmen party were a bit disappointed that more Freshmen did not attend, but everyone who was there had a grand time. Decorations were very nice; there was a crepe paper Christmas tree, Christmas decorations and tree lights. Refreshments were delicious. For entertainment, there was dancing, a grand march, a skit, starring Ted McClear and Bob Barlow, and a quiz program. Miss Searles, the one to answer the fewest questions, was punished for not knowing the answers by having to wear the dunce cap the rest of the evening. Douglas Vogel won the door prize and won a box of candy. Miss Fox, Miss Beam and Miss Searles were the guests.

## Kiwanis 50—Cassidy 22

The Chelsea Kiwanis club trounced the Cassidy boys as the two teams pried the lid off the 1945-46 basketball season.  
Taking an early lead the Kiwanis had little trouble hitting the hoop through the Cassidy defense.  
Bob Streets led the Kiwanis boys with 14 points, while Griffin collected 7 for the lake boys.

Dexter 56—Midgets 46  
Taking an early and big half-time lead Dexter had too much for the last half Chelsea rally to win, 56-46.

A fast stepping, passing and an accurate team caught the Chelsea boys by surprise. Chelsea had as many or more shots as Dexter but couldn't find the range.

The Midgets were all dressed in their new uniforms of blue and white, which were given by Martin E. Miller of the Miller Funeral Home in Chelsea.

Don Wilbur paced Dexter with 19 points while Bahamiller and D. Alber had 11 and 10 respectively for Chelsea.

More people should come down to the local gym on Thursday night for some first class basketball games. "No charge to get in or no charge to get out," so come one, come all!

How would you like to take inventory of your driving faults? We dislike to find fault about ourselves, but recently an article came to my attention which listed the 12 most common driving faults. Here they are:

1. Driving too fast for conditions.
2. Poor judgment in passing or following.
3. Failure to signal.
4. Inattention.
5. Improper turning.
6. Poor use of headlights.
7. Lack of courtesy.
8. A poorly maintained vehicle.
9. Weaving in traffic.
10. Driving "below par."
11. False confidence.
12. Horn driving.

Look them over, Mr. Driver—check yourself today—these 12 can easily be eliminated in driving.

## Evolution Given Of Santa Claus

St. Nicholas and Santa Claus met at the Sunday School Christmas party and, being sort of busy right then, agreed to rendezvous at midnight under the Christmas tree.

St. Nicholas, a lean Asiatic wearing his miter and canonical robes, spoke first:  
"I lived in Asia Minor some 1600 years ago. I was Archbishop of Myra and, while living on earth, I did drop a few purses of gold down a poor man's chimney so his daughters could be supplied with dowries. European countries celebrate my liturgical Feast Day—December 6—as a day of gift-giving and for centuries I rode across Europe on my old gray mare, my pockets bulged with apples and nuts and trinkets, which I gave to good children while switching the naughty

ones with my bundle of birch rods. But what is all this Christmas business—and where did that red suit come from?"

"When the Dutch settlers came to America," replied Santa Claus, "they brought many legends about St. Nicholas—with them. These legends, with writers and cartoonists cooperating, gradually slipped into American traditions. Santa Claus started coming around at Christmas time; Washington Irving suggested the sleigh and reindeer in 1809; Thomas Nast supplied the red suit, and Dr. Clement Moore sort of tied the whole idea together when he wrote 'The Visit of St. Nicholas' in 1822."

Someone forgot to turn out the lights after the Sunday School party—and St. Nicholas was so interested in Santa's zippered boots that he forgot his bundle of birch rods.

## Santa Claus Is Bearer of Gifts In Many Lands

Mothers of America are overwhelmingly agreed that parents should teach their children to believe in Santa Claus.

At least that is the conclusion drawn from a recent opinion poll by a leading women's magazine.

One of the women polled made an answer typical of many: "Belief in Santa Claus is one of the beautiful wonders of childhood. It gives us a period in which dreams come true and anything is possible."

Christmas is like heaven on earth for the very young, the magazine points out. But as America moves from war to peace, there is an inevitable emphasis on reality and truth. No one wants to fool or be

They knew he would come.

fooled. Therefore, should even happy myths be promoted?

Should children still be taught to believe in Santa Claus? Should they enjoy all the magic of childhood while they can, including the traditional myths; or should they be told the truth in preparation for the adult world they must some day face?

Considering these questions, the opinion poll asked a group of women representing a cross-section of millions of American homes, "Do you think parents should teach their children to believe in Santa Claus?"

The response was decisively affirmative. More than 87 per cent of the women voted "yes."

"If a child thinks of Santa as a man then he will be eventual disillusionment," commented one woman. "But Santa portrayed as the spirit of giving remains a beautiful idea."

Another woman pointed out: "Santa is as real as Uncle Sam."
