All-Star Games Attract Large Crowd On Friday

By "Doc" Alber

The largest crowd ever to attend a softball game in Chelsea turned out to the local field last Friday, and they were shown two of the best ball games ever played. Both games went into extra innings, with plenty of thrills.

In the first game it took Webber's Grocery team from Dexter 10 innings to down the first Chelsea. All-Star team, 5 to 3. Dexter took a 1-0 lead in their half of the second when they scored the first run of the game on one hit, two errors and a base on balls. Chelsea came back on Miller's single, and he came home on Lixey's single. Dexter scored again in the fifth inning on two errors and a fielder's choice.

A walk to Lixey, a single by Adams and one by Lixey sent the game into extra innings, but Dexter scored three times in the 10th and Chelsea could only get one so Dexter took home a victory.

In the second game things looked bad after Blue from Ann Arbor went into a 3-0 lead going into the last half of the fourth. Houle singled and came home on Lixey's double.

With Alber taking third on an error and scoring on a passed ball. Blue picked up two more in their half of the sixth but Chelsea came back with three to tie the score. Houle walked, Karp sent him to third on a single and both scored on a terrific home run by Al Johnson into deep center field.

In the last of the ninth, after White had walked and picked off first, LeSavage walked and went all the way to third on a bunt by Paul Johnston and later came home on a passed ball to score the winning run and send the people home after a thrilling night of softball.

We want to thank all the softball players who in any way made the All-Star night a success and to the loyal fans who jammed the park, and we hope the next All-Star night on July 19 will be as successful.

P.S.: On June 28 the Softball Association is sponsoring a dance at the local high school. Drexel Lamb and his orchestra will furnish the music and tickets may be obtained from any ball player or at the door.

Electrical Storms Cause Damage In This Area

Coming as a climax to an unusually dry spring were the severe electrical and rain storms on Sunday and Monday nights.

The Sunday night storm began about 10 o'clock and reached its intensity about midnight with a deluge of rain accompanied by almost continuous flashes of lightning and some hail.

Damage reported has been mostly confined to electrical power lines, appliances and motors. Service and repair men from Chelsea and the Detroit Edison Co. have been working overtime answering calls and restoring service to normal where people were without facilities.

Many trees in Chelsea and the surrounding area were blown down or struck by lightning and some damage to buildings has also been reported. A house now under construction on the Maewood subdivision was struck Sunday evening with a minimum amount of damage and a wing of a building under construction on old US-12 was blown down during the Monday evening storm.

Firemen answered a call about 9:30 o'clock Monday night when lightning struck the grinding room of the Lohmiller feed mill, causing a burned-out meter and fuses, and a blaze which scorched the room but was nearly extinguished when firemen arrived.

Farm Forester Named By Conservation Dept.

Lansing—Appointment of Martin Stranz to be farm forester for five southeastern counties completes a former advisory organization begun three years ago, the conservation department's forestry division reports. The department cooperates with the U. S. forest service and Michigan State college in this work.

Stranz is a veteran conservation department employee who started with the Land Economic Survey in 1930. Except for two years spent managing a sawmill in Idaho he has worked since the survey's end, for the department's land division. As farm forester he will advise woodlot owners on sales of stumpage, logs, pulpwood, posts, and fuel wood, and point out how they can increase profits by preventing woodlot fires, grazing and erosion, promoting second growth. Sawmill operators will be advised where they may obtain home grown timber for high quality work.

Headquarters for Stranz's new sixth district, which includes Livingston, Washtenaw, Wayne, Lenawee and Monroe counties, will be in the county court house at Ann Arbor.

ENGAGEMENT ANNOUNCED
Mrs. John H. McMahon of Ann Arbor has announced the engagement of her daughter, Barbara Jean, to Richard Riemenachneider, son of Mr. and Mrs. Wilbur E. Riemenachneider of Chelsea. The wedding will take place this summer. Miss McMahon, who is a graduate of Ann Arbor high school and Michigan State College, was a teacher the past two years in Chelsea public schools. Her fiancé is a graduate of Chelsea high school and recently received his discharge from the Navy.

Dietle Will Witness Atom Bomb Tests

By "Doc" Alber

Marion L. Dietle, boat coxswain on U.S.S. Ajax, is now located in the Bikini Atoll, Marshall Islands, for the coming Atomic Bomb tests.

Corwin Dietle, who is the son of Marion and Mrs. Clarence Dietle of Chelsea, enlisted in the Navy Reserve on Feb. 19, 1945. After completing boot training at Great Lakes, he served at Naval Ammunition Depot at Hawthorne, Nevada. On Nov. 9, 1945 he enlisted in the Regular Navy for a period of two years, spent a 30-day leave at home, after which he went to Shoshone, Calif., then to Pearl Harbor on the U.S.S. Prairie. At Pearl Harbor he was transferred to the U.S.S. Ajax and left on April 24, 1946 for the Marshall Islands and the Bikini Atoll.

His duties as coxswain on the Ajax include running a motor boat between various ships in the harbor, taking officers and enlisted men, also transporting mail.

Before enlisting in the Navy, he attended school at Chelsea High.

Twelve Hundred Attend Open House Saturday

A crowd of more than 1200 people attended the open house held by Chelsea Implement Co. at their new building on the Chelsea-Manchester Road, on Saturday afternoon and evening.

Most of those attending were farmers and truck owners, many coming from quite a distance to inspect the new building and to see the display of international harvester tractors and farm implements. The complete I.H. personnel from the Toledo branch headquarters were present to assist in explaining the merits of the farm equipment.

Although the afternoon was devoted entirely to showing visitors about the building and displays, the management had arranged a varied program of entertainment for the evening.

When many of the afternoon visitors returned and new faces were in evidence, the Michigan Champion Bar-B-Que Shop Quartet from Jackson presented the entertainment with a number of favorite songs. A movie, "Under the Western Skies" and a comedy were presented by International Harvester, refreshments of coffee and donuts were served and the Grand Old-Time Orchestra furnished music for dancing until a late hour.

Stanley Beal and Dean Willis, co-owners of this new International Harvester agency for the Chelsea territory, as grateful for the interest shown in their new business and to all those who helped to make their open house event so successful, they especially appreciate the courtesy of the Alton Gleske Radio Service for furnishing the loud-speaker system which added so greatly to the success of the affair.

Father and Son Banquet Held At St. Paul's Hall

A Father and Son banquet was held at St. Paul's church hall on Friday evening, with the ladies of the church serving the supper at 7 o'clock, with covers for 123. Bowls and vases of summer flowers centered the tables.

With Rev. P. H. Grabowski presiding as toastmaster and Mrs. P. H. Niehaus as musical accompanist, the following program was enjoyed:

Songs: "Father," "The Tired Old Horse"—George Mayer.
Trumpet and Cornet Duets—"Onward, Christian Soldiers," "Ach Du Schöne Augustin"—John Davis and Floyd Stolte.

Brass Quartet—"Cherry Ripe"—Lawrence Dietle, Paul G. Schabale, Neil Beach, Paul Junior Niehaus.
Male Quartet—"Only Jesus," "Beauty for Ashes"—Carl J. Mayer, Paul Harbour, Howard Flintoft, Paul Niehaus.

Talks by Rev. C. Loew of Ann Arbor and Rev. Henry Lens of Detroit. Prizes of neckties were awarded John Oesterle, the father with the most sons present (four); George Oesterle, the father with the most sons present (four); and John Oesterle, the father with the most sons present (four).

Stentway, for guessing the age and weight of Rev. C. Loew.

SMALL PRIMARY VOTE

As was the case in most parts of the state, only a few voters turned out in the primary election in Sylvan township on Tuesday, with 279 votes in the township. In the hotly-contested Republican gubernatorial race, Sylvan led with 82 votes, to 79 for Lt. Gov. Vernon J. Brown, with Kelly third, 68, and Jeffries fourth, 41. In the contest for governor, Young received 86, Rae 69 and Reading 67. However, Reading won the nomination, according to Wednesday reports. Congressman Earl C. Michener easily won the nomination on the Republican ticket, and latest figures gave Kim Sigler the nomination for governor.

REV. MAJOR RETURNS
On Sunday night Bishop Wade re-appointed Rev. Everett K. Major as pastor of the Chelsea Methodist church. Rev. Major begins his third year here. Rev. E. J. Davis, formerly pastor of the Salem Grove church, Rev. Dalton Bishop, a graduate of Magill University, and Union Theological Seminary of Montreal, was appointed pastor of Dexter and North Lake. Rev. Bishop has for the last six years been associate pastor of St. Andrew's United Church of London, Ontario, Canada. Rev. McLean again returned to Grass Lake and Mt. Hope.

Olive Chapter Observes Matrons-Patrons Night

Observance of Past Matrons and Past Patrons Night on Wednesday evening of last week was an outstanding event on the calendar of Olive Chapter No. 108, Order of the Eastern Star, and was attended by approximately 100 members, and visitors from Detroit, Jackson, Manchester, Grass Lake and Dexter.

A delicious dinner was served at 6:30, with the table appointments in pastel colors, and bright spring flowers forming the centerpiece and also decorating other rooms of the hall.

Adjourning to their chapter room after the dinner, the meeting was presided over by the regular officers, with Worthy Matron Wilma Miller welcoming the guests and paying tribute to the Past Matrons and Patrons for their loyalty in service.

Four candidates were initiated into membership, with the Past Matrons and Patrons exemplifying the degree. Serving at the respective stations were:

Worthy Matron—Betty Hall.
Worthy Patron—Lionel Vickers.
Asso. Matron—Lila Ashfal.
Patron—Leon Shutes.
Conductress—Laura Noll.
Asso. Cond.—Luella Weinberg.
Secretary—Lenore Schmidt.
Treasurer—Helen Lindemann.
Chaplain—Helen Baxter.
Marshal—Emma Vickers.
Organist—Leah Smith.
Ada—Jean McLaughlin.
Ruth—May Luick.
Ester—Bertha Freeman.
Martha—Allen Steinbach.
Electa—Mary Ann Gracey.
Warden—Virginia Brock.
Sentinel—Paul Bolser.

(Jean McLaughlin assumed her regular station as Ada in the absence of a Past Matron).

A flower degree was put on after the initiatory work and the flowers were presented to the newly-received members.

The meeting was closed in form by the regular officers of the chapter.

Twelve From County To Attend 4-H Club Week

Washtenaw county will send twelve of the more than 600 4-H club youths expected to attend the annual 4-H Club Week on the Michigan State College campus at East Lansing, June 24-28. Announcement was made by L. A. Thorburn, county club agent, who added that possibly two 4-H club leaders also would help make up the local delegation.

The theme of the annual summer conference for the 4-H in a Changing World. The quota for delegates from each county is based on enrollment and the number of members completing projects.

A feature of the conference this year will be a safe dining table for representatives from each county. The Michigan State Police and the AAA will cooperate. In connection, Sgt. Wayne Fennell, Detroit Police Department ventriloquist and his Jerry McSafely will have a part on the program.

Speakers from the college will include President John Hannah, Dean K. L. Anthony of the school of agriculture, Dean H. C. Rafter of the basic college, and others. R. J. Baldwin, director of the extension service, will conduct the candlelight service.

Panel discussion groups, style reviews, reports on the national 4-H club camp and other features will be included. Visitors will be housed in the college dormitories.

Girl Scouts Spending Week At Cedar Lake

Thirty-eight Chelsea Girl Scouts reported to Cedar Lake Camp Sunday afternoon for a week's outing. Sponsors of the camp are the members of the Chelsea Study Club. Councillors are Miss Helen Niska, Ann Arbor; Patricia Veltz of Dearborn, Miss Ruby Maurer of Ann Arbor, and Misses Clara Miller, Rosemary Hummel, Marcelline Hinderer, Marjorie Ferguson, Eunice Schweinfurth, Jane Downer, Mabel Fox, Mrs. Arlene Howe and Mrs. Rye Rogers of Chelsea, and Mrs. Delda Gee of Cavanaugh Lake. Cook is Mrs. Josephine Fowler.

Cook-outs are planned for parts of the group for Tuesday, Wednesday and Friday. A water carnival will be held Friday morning, and stunt night Friday evening.

Games, swimming, outdoor activities feature the program. The water-front directors, Misses Pietz and Maurer, are both first class life-savers; instruction is also given in campcraft, dramatics, and first-aid.

WILL GRADUATE AS NURSE

Patricia Richards, daughter of Mr. and Mrs. Marshall Richards, will graduate from the University of Michigan School of Nursing on June 22. She graduated from Chelsea high school with the class of 1942, and attended Albion College for one year. At the present time, she is doing the required six months of interne work at the Hines Veterans' Hospital in Chicago.

ANNOUNCE ENGAGEMENT
Mr. and Mrs. Walter L. Stripe of Kenosha, Wis. have announced the engagement of their daughter, Erminie Ann, to David E. Eaton of Chelsea. Their wedding will take place June 29.

Dumouchel, and sister, Mrs. J. J.
Shields of Muskegon, and Mrs. Du-
mouchel's brothers, Mr. and Mrs.
Chris Snyder, Mr. and Mrs. L. J.
Snyder of Jackson, P. F. Snyder of
Muncie, Ind., and Pauline Snyder of
Jackson, Mr. and Mrs. Harold Artz
and family and Mrs. Walter Cassidy
of Bunker Hill, all of whom attended
the social at St. Mary's school, in
which Margaret Mary took part.

Music to Chinese
It is said that Chinese farmers
like wheelbarrows that squeak.

DEATHS

Mrs. William Atkinson, 80 years
old, died Friday night, June 14 at her
home, 383 Madison St., after an ex-
tended illness.

Formerly Sarah Jane Pattern, she
was born Aug. 16, 1865 in Lincoln-
shire, England. She came to this
country in 1883 and on Oct. 14, 1884
she was united in marriage to Mr. At-
kinson. Their entire married life has
been spent in Chelsea.

Mrs. Atkinson was a member of the
First Methodist church and of the
Central Circle of the church. She al-
so was a member of R. P. Carpenter
Post 210, Women's Relief Corps, of
which she had been a junior president
for many years.

Surviving her husband, two
daughters, Mrs. Max Friedrich of De-
troit and Mrs. Haze Bennett of South
Lewiston.

Funeral services were held at 2:00
o'clock Monday afternoon at the Miller
funeral home, with Rev. Everett R.
Major officiating. Burial was in Oak
Grave cemetery.

North Francisco

Mr. and Mrs. Herbert Harvey were
in Jackson on Wednesday.

Rev. Henry Lenz of Detroit and
Rev. Vander Hart were callers at the
Miller home Saturday afternoon, and
Mrs. Richard Carroll of Detroit was
an evening caller.

Robert Rentschler spent last week
with his grandparents, Mr. and Mrs.
L. Loveland.

Shirley Ann Millman returned
home from U. of M. hospital on Fri-
day.

Mr. and Mrs. Fred Prince of Wan-
hula, Fla. spent Wednesday night
with Mr. and Mrs. Herbert Harvey.
Their daughter and husband, Mr. and
Mrs. Skeet Whitfield of the same
place, and Mr. and Mrs. Fred Men-
ner of Grass Lake spent the evening
there.

Vander Hart called at the
Millman home Saturday afternoon.
Mr. and Mrs. Harley Loveland and
family spent Sunday evening at the
Loveland home.

Mr. and Mrs. J. M. Reid of Dear-
born spent Sunday afternoon with
Mr. and Mrs. Eric Notten.

Mr. and Mrs. Keith Harvey and
family of Jackson and Mr. and Mrs.
Herbert Harvey spent Sunday with
Mr. and Mrs. Lyle Harvey of Royal
Oak.

Mr. and Mrs. Eric Notten spent
Saturday in Jackson. Mr. and Mrs.
Carol Ann Harvey spent part of
last week with her grandparents, Mr.
and Mrs. H. Harvey.

Mr. and Mrs. Irving Kalmbach called
at the Miller home Tuesday eve-
ning.

Mr. and Mrs. H. Harvey were in
Jackson on Wednesday.

Mr. and Mrs. James Richards, Mrs.
Velma Davis, Doris and Duane, Donna
Stephen and Russel Smith called on
Mr. and Mrs. Henry Weber of Whit-
more Lake on Sunday. Sunday eve-

ning callers at the Richards home
were Mr. and Mrs. Penskar and sons
of Detroit, Mr. and Mrs. Earl Behan
of Ann Arbor and Mr. and Mrs. Irwin
Klump.

Mr. and Mrs. LeRoy Loveland were
Sunday dinner guests of Mr. and Mrs.
Ed. Myers of Grass Lake.

Mr. and Mrs. Glenn Rentschler
spent Tuesday evening at the Love-
land home.

July 31—Saline at Grass Lake;
Chelsea at Manchester.

August 6—Chelsea at Stockbridge.
Aug. 7—Dexter at Saline; Grass
Lake at Manchester.

Baseball News

By "Bill" Schatz

Sunday was hot enough, but Man-
chester made it a lot warmer for the
local boys, defeating them 4 to 3. The
game at times was loosely played,
with Manchester taking advantage of
the openings to come through with the
deciding tally.

We have all heard of Rose Bowl,
Orange Bowl and Cotton Bowl games,
but this was the original Dust Bowl
game. The boys have been doing
some work on the diamond to improve
the play, and the wind took up the
job, raising so much dust that at
times seeing the play was difficult.

Discounting the few errors, the
game was interesting, both teams get-
ting 7 hits and few free tickets to
first were issued by either team. Dick
Hoehner stopped a pitch by the Man-
chester hurler to become a base run-
ner.

The wind made judging flies diffi-
cult and it also spoiled the pitching
effectiveness of the toilers on the
mound.

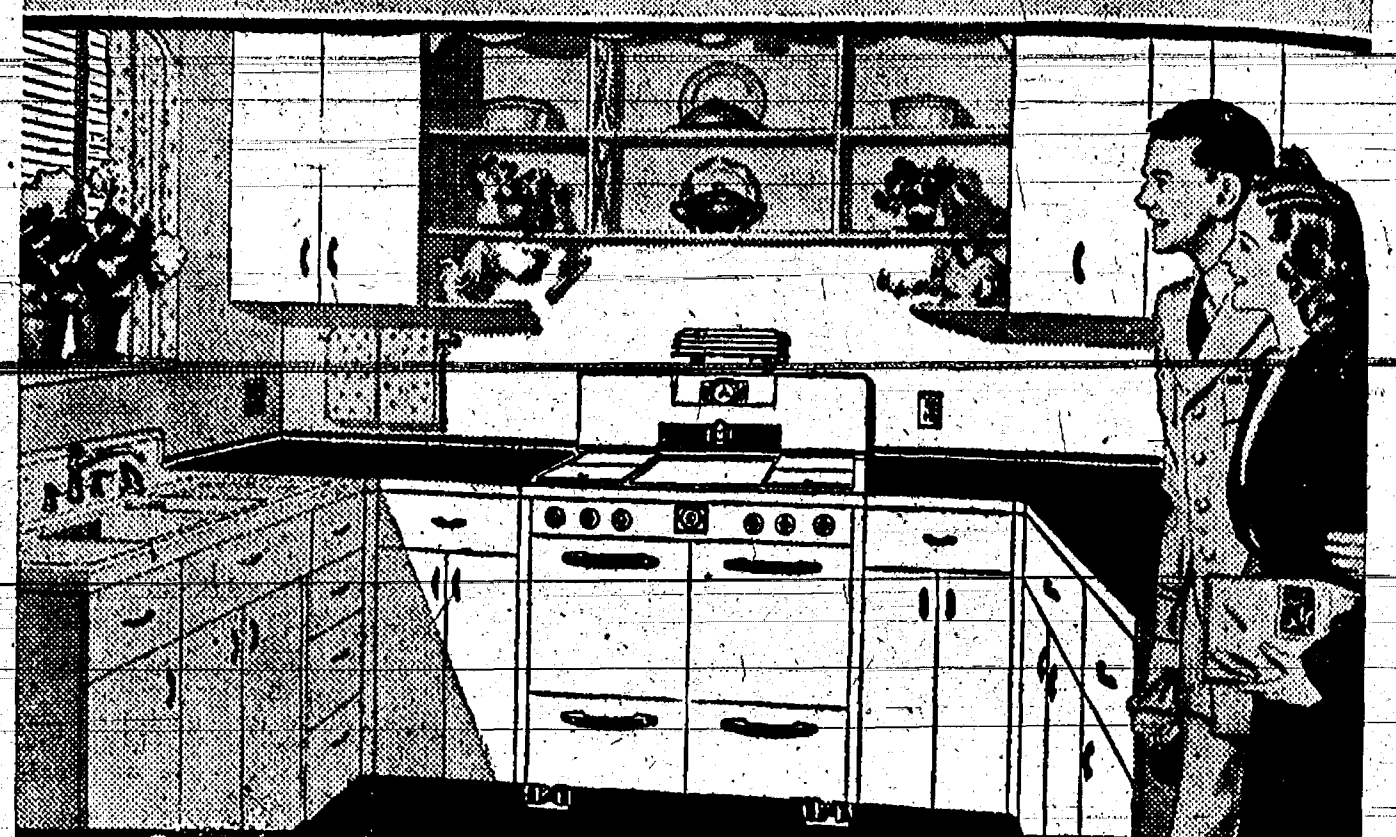

The Independents figure on tight-
ening up their play considerably before
the next game, which will be at
Pinckney.

A nice crowd braved the Bar-B-Q
weather on Sunday, and many local
sun-tanners improved their color.

Pickling Salt

Cooking salt is better for making
pickles than is table salt because no
starch has been added; starch makes
the pickling liquid cloudy.

New Freedom For You!

IN A NEW FREEDOM KITCHEN WITH A BEAUTIFUL NEW
Magic Chef THE GAS RANGE WITH THE
LIFETIME BURNER GUARANTEE

Shining, immaculate, modern as tele-
vision, a gorgeous new Magic Chef can

quick stops every time!

SAVE TROUBLE WITH A

SAFETY CHECK

- ✓BRAKES—Do they need
adjustment—fluid added?
- ✓HORN—Is it in good
condition—sure to give a signal
when you need it?
- ✓TIRES—Are they safe? Cuts
or excessive wear may cause
a blow-out accident.
- ✓LIGHTS—Do any bulbs
need replacing? Are your
headlights properly focused?
- ✓STEERING—Is there too
much "play" in the wheel?
Do your steering controls
operate easily?
- ✓WIPERS—Do they operate
positively and satisfactorily?

WEDDINGS

Beissel-Scott

The marriage of Julianne Frances Beissel, daughter of Mrs. Edward Beissel, and the late Mr. Beissel, to Joseph Scott, son of the late Mr. and Mrs. Bartley Scott of Boone, Iowa, took place at 9 o'clock Monday morning at St. Mary's church, with Rev. Fr. Lee Laige celebrating the nuptial mass.

The wedding music was played by Mrs. Fred R. Stevens of Ann Arbor, aunt of the bride, and solos, "On This Day O Beautiful Mother," "Pansy Angelina" and Schubert's "Ave Maria" were rendered by Frederick Martell. Given in marriage by her brother, Richard Beissel of Ann Arbor, the bride was escorted in a pink chiffon gown, with full skirt, shirred bodice and sweetheart neckline. Her two-tiered fingertip veil of pink illusion was fastened with orange blossoms and she wore a mother-of-pearl heart, a gift from the groom. She carried a bridal prayer book, topped with pink roses. Mrs. Richard Beissel, as matron of honor, wore bluish-pink chiffon, a slightly darker shade than the bride's, and her veil was shoulder length. She carried a colonial bouquet of spring flowers.

Edward Beissel, brother of the bride, served as best man, while the guests were seated by another brother, Gerald Beissel, of Concord. The bride's two nieces, Judith Ann Beissel and Helen Marie Staudacher, were flower girls, and carried pink rosebuds.

Following the ceremony, a wading breakfast was served at the home of the bride's mother, 542 McKinley St. The bride is a graduate of Chelsea high school, Class of 1936.

After serving in the United States Army for four and one-half years, ten months of which were spent overseas, the groom received his honorable discharge in December.

Mr. and Mrs. Scott will make their home in Chelsea on their return from a wedding trip to Boone, Iowa.

Myers-French

At a ceremony solemnized on Sunday evening at the home of Mr. and Mrs. John Myers, 412 Wilkinson St., their daughter, Melva J., spoke her marriage vows to Leonard J. French, son of Mr. and Mrs. Harry French of Dexter. Rev. Wm. H. Skenebury read the marriage service at 7 o'clock in the presence of about 75 relatives and friends.

For her wedding, Miss Myers chose a dress of white crepe and a veil of fingertip length, held in place by seed pearls. White carnations and blue bachelor buttons were tied with white ribbon for her bridal bouquet.

The attendants were Mr. and Mrs. Clifford Myers, the former a brother of the bride. Mrs. Myers wore pink crepe and a corsage of pink carnations and white rosebuds.

Following the reception, the couple left for a short wedding trip.

Mrs. French graduated from Chelsea high school in 1945. Her husband spent three years in the service, receiving his discharge in April.

They will make their home with the groom's parents in Dexter.

Weeds and Soil
Weeds are an indication of the fertility of the soil. A good crop in the garden now indicates a good soil. Make use of weeds and grass during fall clean-up by turning them into compost.

PIANO PUPILS GIVE PROGRAM

The piano pupils of Gwen Schultz invited guests to their last class program of the spring term. Solos, a trio, and duets were presented at the home of Judy Davisson, 845 Madison street, on Wednesday, June 12.

Three mothers, Mrs. Geddes, Mrs. Weinberg and Mrs. Steinbach, appeared in ensemble numbers with their children.

Students who participated were Nancy Atkinson, Ellen Jane Geddes, Doris Kay and Jana Lou Weinberg, Marjorie and Jayne Proctor, Sue Bar-

low, Constance Ann Steinbach, Rowena Lentz, Alice Ann Wenk, Nancy Brooks, Judy Davisson, Donna Hinderer and Joanne Miller.

S. L. S. COOKS

We opened our meeting with the flag pledge. The meeting was held at the home of Elizabeth and Dorothy Zahn on June 10. Elizabeth Zahn volunteered to put the news in the paper after each meeting. We voted upon the motion when we were going to have our meetings on Wednesday or Friday nights. Friday night won the

votes. The next meeting will be held June 25 at the home of Leona Hatt. Eighteen members were at the meeting. The meeting was closed by saying the club pledge.

After the business part of the meeting the baking girls mixed up some bread dough. Refreshments were served, which were root beer and cookies.

Elizabeth Zahn, Reporter.

Fattening Steers
As steers get older, they fatten more readily on pasture.

War Alcohol
Direct military and lend-lease requirements of alcohol from 1942 to 1944 totaled 258 million dollars. Smokeless powder and chemical warfare materials were high on the list as important consumers. The small portion remaining of war alcohol after these many purposes were served went for use as anti-freeze, since many previously available chemicals for this purpose were being diverted into direct war uses.

WEDDINGS

Burg-Ortbring

St. Mary's church was the scene of a very pretty wedding Tuesday morning when Patricia Ann Burg, daughter of Mr. and Mrs. J. Vincent Burg, became the bride of Henry E. Ortbring, son of Mr. and Mrs. H. J. Ortbring. Rev. Fr. Lee Laige performed the wedding ceremony which was followed by the Nuptial Mass.

The bride, on the arm of her father, with her attendants, proceeded to the altar to the strains of Lohengrin's Wedding March which was rendered by Mrs. George Clark. The bride was met at the foot of the altar by the groom and was given in marriage by her father.

The bride was lovely in a princess gown of white satin made with full gored skirt with long train and long sleeves extending in points over the wrist. A Juliette cap of seed pearls and princess lace held her veil which was bordered with lace and fell in a long train. She carried an armful of white roses, baby mums and lilies.

Mrs. Roland Spaulding, sister of the bride, as matron of honor, wore a floor length gown of yellow taffeta with shoulder length veil falling from a flowered tiara matching her gown. The bridesmaids, Rosemary and Therese Lyons, cousins of the bride, wore floor length gowns of pink and blue chiffon and net with shoulder length veils falling from flowered tiaras matching their gowns. The bride's train carried colonial bouquets of mixed flowers.

Donald Doll acted as best man, and the guests were seated by Edgar Ortbring, brother of the groom, and Jerome V. Burg, brother of the bride.

Members of the Junior choir sang the Mass and Thomas J. Lyons sang Rosewig's "Ave Marie" at the Offertory.

Mrs. Burg chose an aqua sheer crepe gown for her daughter's wedding, with matching hat in pink and blue, and wore a corsage of pastel pink carnations.

Mrs. Ortbring, mother of the groom, wore an aqua silk gown and her corsage was white carnations.

The wedding breakfast was served at Black's Country Club in Wyandala to the immediate families and wedding party. The table was centered with a three-tiered wedding cake surrounded by a border of spring flowers and foliage and white tapered in crystal holders.

Following the breakfast a reception was held at the home of the bride's parents on Garfield St. for 200 guests.

Mr. and Mrs. Ortbring left immediately after the reception for a motor trip through northern Michigan. For traveling the bride chose a black gabardine suit with white accessories and wore a corsage of white roses.

The bride attended St. Mary's Parochial school and was a graduate of the Class of 1944, Chelsea high school. The groom was also a 1944 graduate and holds a position with the local post office.

Mrs. Eva Cummings was a Detroit visitor over the week-end.

PERSONALS

Mrs. John V. Copen and son left on Saturday for a ten days' visit in New York City.

Dr. and Mrs. A. L. Steger and Mr. and Mrs. Edwin Kusch were Detroit visitors on Sunday.

Mr. and Mrs. Jacob Lehman spent Sunday at the home of Mrs. Nettie Maute, Grass Lake.

Miss Ruth Ann Schenk is home from Hillsdale college where she spent the past year.

Mrs. Howard Flintoft spent the week-end with Miss Ruth Bandon at her home in Kalamazoo.

Mr. and Mrs. Stanley Elseman and children of Riga were guests of Miss Levene Spicer on Monday.

Mr. and Mrs. David Brown of Dearborn were Sunday visitors at the home of Mr. and Mrs. Guy Newark.

Mrs. Howard Parley and daughter of Chassel are spending several days with relatives in Chelsea and vicinity.

Mr. and Mrs. Harry Dancer of Jackson were guests of his parents, Mr. and Mrs. H. W. Dancer, on Sunday.

Mrs. Leon Chapman and children, Donna Lee and Larry, spent the week-end in Detroit, visiting Mrs. Louise Winslow.

D. H. Wurster, daughter Nina Belle and Miss Nina Crowell left Monday for a week's vacation in the upper peninsula.

Mrs. Margaret Hindelang and daughter Bertilla of Mishawaka, Ind. visited Mr. and Mrs. Sylvester Weber on Monday.

Mr. and Mrs. John Henderson and son of Ann Arbor were guests of Mr. and Mrs. Elwin Hulce on Saturday and Sunday.

Rev. Leo Brandeberry has received his honorable discharge from the Army and arrived here on Saturday from Denver, Colo.

Mrs. John Lowery of Jackson and Mrs. Myrtle Hartford of Belleville were over Sunday guests of Mrs. Mary Huston.

Wilbur Hatt attended an extension executive committee meeting held at the court house in Ann Arbor on Friday afternoon.

Mrs. Harriet Wedemeyer of Saratoga Springs, N. Y. arrived Sunday for several weeks' visit at the home of Mrs. Ann Osterle.

Mr. and Mrs. Herman Dancer attended a family dinner on Father's day at the home of Mr. and Mrs. Milford McKeith, Coldwater.

Mr. and Mrs. Robert Lantis and children were Sunday guests of her parents, Mr. and Mrs. Claude Pitts, at their home near Jackson.

Mr. and Mrs. Fred Glenn spent Sunday with their son-in-law and daughter, Mr. and Mrs. Frank Nisbet, at their home in Dearborn.

Mr. and Mrs. Russell Barry of Detroit spent the past week with his parents, Mr. and Mrs. George Murphy, and his sister Mrs. Dorothy Kolander.

Mrs. Nellie Whitmer entertained at a birthday dinner on Sunday, celebrating the anniversaries of her grandson, Roland W. Spaulding, and Miss Virginia Spaulding of Ypsilanti.

Mr. and Mrs. V. Walker of Clinton, Mr. and Mrs. Fred Fielder and son Clarence of Manchester were Saturday afternoon callers at the home of Mr. and Mrs. Leonard Eder.

Mr. and Mrs. R. W. Wagner were called to Dearborn Friday night by the death of her father, Alan S. Armstrong. Funeral services were held on Tuesday with Rev. W. H. Skentelbury officiating.

Lt. Eugene Czaplak, now stationed at Selfridge Field, flew a P-47 over Chelsea and also the home of his parents, Mr. and Mrs. Joe Czaplak, last Thursday afternoon, "buzzing" greetings as he went.

Sgt. John Ladd, wife and baby, of Ann Arbor were dinner guests Friday night of Mr. and Mrs. S. W. Schenk.

Sgt. Ladd has just returned from overseas with honorable discharge from the Army. Mrs. Ladd is a daughter of Mr. and Mrs. Schenk.

Miss Gertrude Eppler entertained the following guests from Friday to Sunday at a house party at the Eppler summer home, Blind Lake: Misses Evelyn Kenason, Charlotte Skene, Maribeth Kitt, Jane Ghomraker, Ted Andrews and Margaret Zaig, fellow teachers from Bowling Green, Ohio, and Misses Alfreda Overman and Augusta Harris of Ypsilanti.

Mr. and Mrs. Eugene H. McKernan entertained the following guests at a family dinner on Father's day: Mr. and Mrs. Jacob Bauer and children of Clinton; Mr. and Mrs. John C. McKernan and family of Rosedale Gardens, Mich. and Mrs. Edwin Braun and family and Mr. and Mrs. Francis LaFevre of Ann Arbor; Miss McKernan of Highland Park; Mrs. Grace Sullivan of Detroit and Mrs. Mame O'Brien of Chicago.

With Our Men In Service

First Sergeant "Rolly" Spaulding returned to his home here on Friday, after receiving his honorable discharge at Fort Sheridan, Ill.

He entered the Army on April 19, 1944 and after a short training period at Camp Maxey, Texas was sent overseas.

He served as motor sergeant and maintenance supervisor of a 46-truck convoy which hauled supplies out of depots in France and Belgium up to the front, and did emergency evacuation work.

Shortly after the end of the war he was assigned to the 16th Station Hospital, where he served as First Sergeant until his termination of service.

Notten Road

Dr. and Mrs. L. J. Paul and children of Chelsea were dinner guests of Mr. and Mrs. Herbert Rank on Sunday.

Robert Phillips of Mason spent the last week with his grandfather, Ray Gohn, at the Dorr Whitaker home.

Mrs. Geo. Heydlauff, Fred Heydlauff, Herman Heydlauff and Ricka Kalmbach attended the funeral of Mrs. M. Curtis at Grass Lake.

Rev. Henry W. Lenz of Detroit visited Mr. and Mrs. Henry Allmendinger and Mrs. P. H. Riemenschneider on Saturday.

Mrs. B. C. Whitaker entertained her children and grandchildren, Mr. and Mrs. Kenneth Rowe and son Kenneth, Mr. and Mrs. Burleigh Rowe, Mr. and Mrs. Joe Lenz, Miss Betsy Rowe of Waukegan, Ill., and Mrs. Henry Glazier and daughter Henrietta of Cavanaugh Lake, and Miss Nancy Glazier of Detroit, at dinner on Sunday.

Mr. and Mrs. Oscar Kalmbach, Ricka Kalmbach, Mrs. Chas. Riemenschneider, Fred and Carl Heydlauff called on Fred W. Notten on Tuesday.

Mrs. P. H. Riemenschneider was a dinner guest of Mr. and Mrs. Albert Schweinfurth on Sunday.

Miss Bertha Markel has sold her residence property on West Summit street to Mr. and Mrs. Tom Young.

H. R. Schoenhals of Lakeland, Fla. arrived Sunday night to spend the summer at the home of his daughter, Mrs. Wm. Geddes.

Mr. and Mrs. Frederick Wagner recently purchased the house known as the Dewey residence, corner of Congdon and West Summit streets.

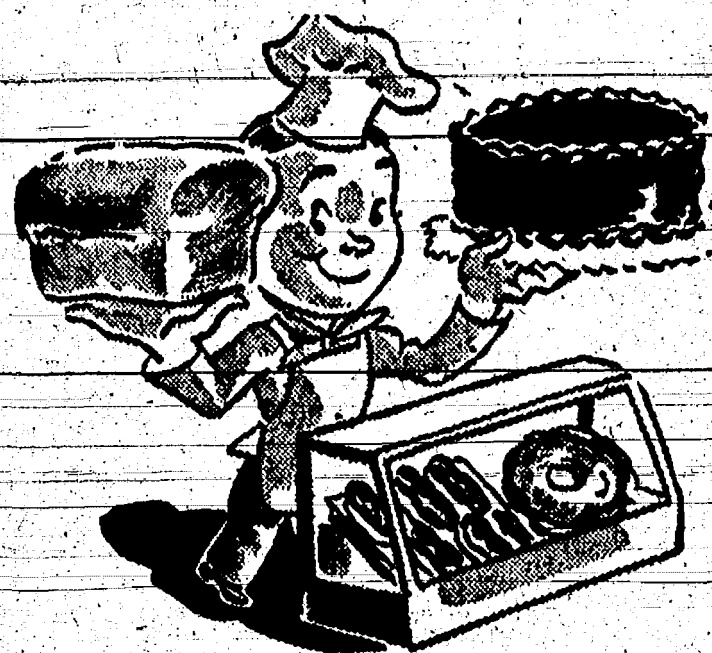

Armament Advance

By July, 1944, G.I. Joes were using scarcely a single weapon that was the same as those in use when Pearl Harbor was attacked.

First Recreation Dance Was Successful Event

By Club '15 Reporter
The first of the Summer Recreation Dances was held in the C.H.S. gym last Friday and it was a great success. It is hoped that even a better crowd will turn out for the party this Friday night.

Committees have been appointed for the dances to be held on June 21, July 5, 12, 19. They are as follows: Committee for getting chaperones: Nancy Loose, chairman; Pat Mohrlock, Junior Niehaus.

Music—Ray and Clare Knickerbocker.
Pop—Bob Daniels, chairman; Clara Miller, Burg, B. Luick, F. Boyer, Doug Vogel.
Tickets—Rita Gross, chairman; Ruth Fox, Wilma Koengeter, Paul Schable, M. Hinderer, L. Lindauer, M. Ferguson.

Entertainment—J. Lentz, chairman; E. Lehman, J. Williams, P. Schiller.
With the complete cooperation of these committees the dances are sure to be a sensation.

On June 28 the Softball League is sponsoring a dance at C.H.S. gym and Drexel-Lamb's orchestra will furnish the music. Later in the summer, Club '15 will have one or two dances with an orchestra.

Notice to all Club '15 members: If you have not paid your second semester dues (which will carry through this summer), pay by this Friday to Wilma Koengeter. If you do not pay by then you are out of the club and will not be able to join until school starts. We will not accept any excuses for not paying up.

News of Interest

It took the dance last Friday night a while to get under way but by 9:30 there was quite a crowd. Two spotlights burned from Burg's furnished the lighting set-up. Thanks to Mr. Burg for letting us use them.

The pop stand was located in its usual corner. What did I see when I first bought a bottle of coke? I saw Bob and Tom at a good-hot poker game. I don't think we lost too much money on our pop!

Mr. and Mrs. Alperitz were our life savers and chaperoned the dance. (Thanks a lot, Mr. and Mrs. Alperitz—but where was George all this time?)—Don Baldwin and Lyle Christwell were doing their best to find a couple of football sweaters. (Any success boys?) I also noticed the two Hales—Dorothy Manville and Ken were trying to work up a sweat but with little success. Burg and El had a hard time of it at the dance too. (They were womanless). Say, did any of you girls find a man from Camp Lakewood? (They seemed to be rather nice young boys).—Doc Alber arrived just in time to get the last bottle of coke, also to get in the last word about the ball game. (Some game, eh Doc?)

Next week we'll see if we can find any more news of interest about our dances.

Waterloo

Mr. and Mrs. W. Vicary visited relatives at New Baltimore last week Wednesday and Thursday.

The Father and Son program at Cleaver hall was attended by 28 persons. A fine program was given. Gifts were for the oldest father, the youngest father and son, and the father with the most sons. The chairman, Kenneth Carty, is thankful to all for fine cooperation, beautiful flowers and attendance regardless of the hot night.

The public is cordially invited to hear our U. B. Bishop, Fred Dennis, at the church in the Village on Thursday evening, June 27, at 8 o'clock.

The following persons were entertained in the home of Rev. and Mrs. G. A. Ward this last week: Mr. and Mrs. Wm. A. Ward and son Larry, Mr. and Mrs. Charles St. John, Mr. and Mrs. C. O. Bemis and sons, Jason and Robert, all of Hillsdale; Mr. Ward's sister, Mrs. Adelle Potter of Bryan, Ohio, and sister-in-law, Mrs. Caroline Ward of Toledo, Ohio.

Step-Stool Handy

The equipment of every kitchen should include a step-stool so it will be unnecessary to use chairs or boxes for reaching high places. In choosing a step-stool, the housewife should make certain that each step, including the top one, is wide enough to stand upon and that all the steps are roughened or covered with a non-skid material to prevent falls.

Protein Fibers

Wool and silk are natural protein fibers possessing strength, warmth, elasticity, and the ability to absorb and hold dyes.

Mrs. John Fischer is spending some time with relatives, Mr. and Mrs. Frank Ruhl, of Elyria, Ohio.

Rev. and Mrs. Arthur Thomas and son Richie Gene of Dexter, and Verne Moffat were Sunday visitors of Mr. and Mrs. Perry Stanley.

Rev. and Mrs. Major and family were Sunday dinner guests of Mr. and Mrs. Ezra Heininger.

Mr. and Mrs. Perry Stanley and family attended a Pentecostal young people's meeting at Concord on Monday.

Bible study will be held at the Sterling farm on Saturday night instead of Friday.

County Will Maintain State Trunkline Roads

Washtenaw County Road Commission on July 1 will assume the maintenance of state trunkline highways in the county, under contract with the State Highway Department, according to Highway Commissioner Charles M. Ziegler.

Washtenaw will be the 62nd county in the state maintaining trunklines under contract with the Highway Department and is the 30th to sign such a contract during the term of office of Commissioner Ziegler, who became Commissioner on April 20, 1943.

Commissioner Ziegler explained the Highway Department still will maintain supervision of the trunkline maintenance in Washtenaw county and will require the road commission to maintain a high standard of work. The State will make available to the county such road equipment as it may need to carry out the additional work involved in the contract. The county has indicated it will hire such additional employees as may be needed from the state maintenance organization which will be discontinued on July 1.

Disposition of the state maintenance garage in the county has not been determined.

Commissioner Ziegler said Department engineers have investigated the equipment and personnel of the Washtenaw commission and are satisfied it will be able to handle the maintenance work on the 126 miles of state trunklines and do a good public service job for both state and county. The commission now maintains 1,350 miles of county roads.

The Commissioner also declared the move will result in saving of manpower, equipment and money by eliminating dual organizations in the county and turn all road maintenance over to one organization, as proven in the other contract counties in the last three years.

Either county or state may cancel the contract on 90 days notice.

LANSING 1, MICH.

Specialist Says To Work Now For Better Garden

Jack Rose, Michigan State college extension specialist in home gardening, recommends—weed, water, and wage war on the bugs in your garden now.

Don't just sit back and relax now that most of the garden is planted. Of course, there are still many vegetables to be planted all through summer. But look after that garden you already have planted.

Many gardeners, of course, won't have a water supply available. For those that do, soak the garden thoroughly once a week during dry spells. One good soaking is better than frequent light sprinklings.

Weed and thin. Rose says they go right together. Both are means of eliminating competition for desirable plants. Most weeding can be done with the hoe. Don't chop. Sharpen the hoe and slide it along about one-half inch under the soil. Slice off the weeds. Carrots, beets, onions, and parsnips may require hand weeding. While doing this, also thin carrots and beets to stand about two inches apart in the row. Parsnips and onions should be spaced three inches apart. Swiss chard, to make the best plants, should be thinned to leave plants eight to ten inches apart.

Battle the bugs. Watch for flea beetles on most crops—little shiny black fellows that eat buckshot holes in cabbage, radish, beet leaves particularly. DDT knocks them out, but the specialist cautions it must not be used on edible parts of plants. Watch for cabbage worms and control them with rotenone. Thorough and frequent dusting is the answer to controlling squash bugs. Dusting will control Mexican bean beetle, too. Keep

Better Rural Telephone Service

for More People

Is on the Way

MICHIGAN BELL's big 5-year program of extending and improving rural telephone service is gaining momentum daily.

In recent months we have added over 2,000 miles of wire in rural areas . . . installed telephones for many waiting applicants . . . and reduced the number of parties per line on more than 1,000 overcrowded lines . . . and, wherever we could, we have replaced crank-

type telephones with more modern equipment.

Our further liberalized rural construction plan* will enable additional thousands of rural folks to get telephone service without payment of any line construction charge.

Altogether, this big program will cost \$13,500,000. Our purpose is to assure better rural telephone service at the lowest possible cost to more Michigan people than ever.

If you live within 1/4 mile of a Michigan Bell telephone line and don't have a telephone, we will extend the line to your place without construction charge. The plan also provides: No line construction charge for two or more applicants if the new line extension to serve them averages no more than 1/4 mile per applicant. . . . Monthly payments of 45 cents (spread over 5 years) for each 1/10 mile in excess of the 1/4 mile allowance, with total cost prorated among those served by the new line.

OUR POST-WAR PROGRAM MEANS JOBS FOR THOUSANDS

PAGE SEVEN

straining room for the storage

(c) **Straining.** If the milk is strained, it shall be strained through a proved single service strainer pad. Unused strainer pads shall be stored so as to be protected from contamination.

Compliance. A metal strainer provided with a single service filter shall be used. The use of a covered strainer is required when straining not done in the milk house.

(d) **Delivery.** Milk and/or cream shall be delivered in a

shall be delivered to the milk plant or receiving station within 18 hours after milking.

Compliance. The evening milk shall be stored in a satisfactory cooling tank over night, and delivered to the receiving plant the next morning along with the cooled morning milk. This shall not be construed to be twice-a-day delivery.

SECTION 17. Sampling — Bacteriological Standards.

(a) Sampling. Samples of milk and milk products shall be taken at intervals of not more than 24 hours.

(b) **Bacteriological Standards.** Milk when delivered to a pasteurizing plant or receiving station, shall have a bacterial plate count of not more than 500,000 per milliliter, or a direct count

Compliance. Milk, when delivered to a pasteurizing plant or receiving station shall have a bacterial plate count of not more than 300,000 per milliliter or a direct microscopic count of not more than 300,000 per milliliter if clumps are counted, or a direct microscopic count of not more than 1,000,000 per milliliter if individual organisms are counted, or a methylene blue reduction time of not less than four hours.

scope count of not more than 100,000 per milliliter if individual organisms are counted or a methylene blue reduction time of not less than 4 hours. When a producer's milk supply has a bacterial count of over 100,000 per milliliter, or a methylene blue reduction time of less than 4 hours, three additional tests shall be made at not more than two day intervals, and if the average of these tests is not in compliance, the dairy farm shall be excluded until such time as proper conditions are found to prevail on the farm.

SECTION 18. Communicable Diseases.

(a) Notification of Disease. Notice shall be sent to the enforcing officer immediately by any producer of milk or milk products upon whose farm any contagious, infectious, or communicable human disease occurs or exists.

(b) Procedure. When a Communicable Disease is Suspected. When suspicion arises as to the possibility of transmission of infection from any person handling milk or milk products,

enforcing officer is authorized to require any or all of the following measures: (1) The immediate exclusion of that person from milk handling; (2) the immediate exclusion of the milk supply from distribution and use; (3) adequate medical and bacteriological examination of the person, of his associates, or of his or her body discharges.

ety enclosed bodies. Such milk
guling vehicles shall be approved by
e-enforcing officer and shall not be
ed to haul bulk fertilizer, garbage,
any other offensive material.

Compliance. The body of the ve-
cle or truck in which the milk is
ransported shall be tight and essen-
ially free from cracks, that would
admit dust and dirt. A person going
inside of the closed part of the ve-
cle should not be able to see any
appreciable daylight through doors or
other openings. Small volumes of milk

placed by individuals may be placed in tight boxes which will afford equal protection. Closed trunks of passenger vehicles are likewise acceptable.

SECTION 20. Farm Permits.

Farm Permits. No milk or milk product, intended to be sold for direct consumption, shall be received at any milk plant from any producing farm unless such farm has first complied with the provision of this ordinance and has obtained a permit from the enforcing officer. The enforcing officer may refuse to issue a permit or

Compliance. Some type of an individual permit card shall be issued to each producer. This must be kept on file at the point where the milk is to be received from the farm. The issuance or revocation of the permit shall constitute approval or rejection of the farm involved. The permit shall be valid only at the stated receiving point and must be validated

new permit issued for changes in piping points. The name of each producer shall be legibly marked on each container used for the delivery of milk or milk products from the farm.

SECTION 21. Milk Plant Construction and Facilities.

(a) Milk Plant. A milk plant, as defined herein, shall be provided with: (1) a room or rooms for receiving and weighing, (2) a room for processing, bottling, and bottling, and (3) a room for the storing of milk and milk products.

No washing, except that of equipment used in the processing room, shall be permitted in the processing room. Doors shall be provided and kept closed when not in use. The processing room shall be so located as to prevent any contamination of the milk or of the cleaned equipment.

Compliance. A separate receiving room shall be provided to handle the milk directly from producers. This room may be dispensed with when the milk is received in tank shipments.

ich eliminate the handling of cans.
e wash room where the bottles are
ndled and washed must be a sepa-
e room with tight partitions sepa-
ing it from the processing room. A
arate room for the processing,
(Continued on page eight)

(Continued from page seven)

cooling, and bottling of the milk shall be provided. Openings may be permitted in the partitions to facilitate the movement of bottles and cases and cans. The doors opening into the processing room shall be of the self-closing type. The boiler shall not be located in the receiving room, wash room, or processing room.

(b) Floors. Floors, including platform and stairs, of all rooms in which milk or milk products are handled shall be constructed of concrete or other impervious material, shall be smooth, graded to drain, and in good repair. Floors shall be equipped with adequately trapped drains discharging into proper sanitary drains.

Compliance. The floors are smooth and graded to proper drains and are kept in good repair. This item shall be deemed to be complied with. Smooth, finished cement terrazzo, tile and other impervious materials are satisfactory. New floors shall be provided with at least four-inch covered base.

(c) Walls and Ceilings. Walls and ceiling of the milk plant shall be of material that is impervious and smooth, or treated to provide an impervious smooth surface. In newly constructed plants joints between walls and floors shall be of minimum height of four inches and window sills shall have a downward slope the angle of which shall not be less than 45 degrees as measured from the horizontal and beginning at the base of the sash.

Compliance. The cement plaster or other water resisting material, such as treated lumber, waterproofed wallboard, that have been erected so as to provide a smooth, cleanable surface, shall be deemed to be satisfactory.

(d) Light and Ventilation. All rooms shall be well lighted, heated, and ventilated to prevent condensation on walls and ceilings.

Compliance. Sufficient natural or artificial light shall be provided in all parts of the plant so that employees can see to do their work efficiently.

Ventilation and circulating tempered air of sufficient capacity shall be provided to prevent condensation on walls and ceilings.

(e) Fly Control. Openings to the outside shall be effectively screened, and/or such other means shall be employed as are necessary to eliminate flies.

Compliance. This item is being complied with when the fly population is not extensive or satisfactory means are constantly employed to control flies that may enter during the operating periods. Complete screening, fans placed to blow outwardly on frequently used openings, and proper use of sprays are recommended.

(f) Cleanliness. Milk plants, including surroundings, shall be kept clean and free from objectionable odors.

Compliance. When the immediate surroundings are free from debris, including unused equipment, and all possible hollows where water may accumulate have been eliminated, and where the sprays of milk and milk products have been kept at a minimum, and where proper means, such as the use of chlorine or lime or other disinfecting agents, have been employed when needed, and the premises are free from any objectionable odors, this item shall be deemed to be complied with.

(g) Equipment Installation. All major equipment installed in milk plants constructed or remodeled following the adoption of this ordinance shall be placed at least two feet from any wall and at least two feet from any other piece of equipment.

Compliance. In all new installations or in plants making major changes, no major piece of equipment shall be pasteurizing vats, storage vats, washers, coolers, bottlers, etc., shall be placed closer than two feet from any walls, not closer than two feet to any other major piece of equipment. This distance is to be measured from the furthest extension of the piece of equipment. In other words, the entire piece of equipment including motors, or other outside appendages, shall comply with the distances stated.

(h) Toilets. Milk plants shall be provided with toilet facilities. Toilet rooms shall have impervious floors and smooth, solid walls in all new constructions. The base of the wall shall be an integral part of the floor and impervious to a height of not less than four inches. Toilets shall be maintained in a clean condition so that the waste is inaccessible to flies, and does not pollute the ground surface or contaminate any water supply.

Compliance. A properly installed flush toilet shall be provided in a separate room equipped with tight, self-closing door. The room shall be ventilated and all openings properly screened. An impervious floor with a four-inch cove base joining the wall is required in all new constructions. The toilet room shall not open directly into any milk processing room.

(i) Handwashing. Handwashing facilities of an approved type shall be provided and located in or proximate to toilet rooms and in or proximate to processing rooms. Hands shall not be washed in vats used for cleaning equipment.

Compliance. Handwashing facilities, including soap, hot and cold running water, and individual towels, provided in or near the toilet room, and in or near the processing room will be satisfactory. The wash bowls shall be maintained in a clean condition and shall be used for no other purpose than handwashing. All dryers for hands are acceptable in lieu of individual towels. Handwashing signs shall be posted in the wash room.

SECTION 22. Water Supply. Water, used in a milk plant shall be from a supply that is properly

constructed, adequate and of a safe and sanitary quality.

Compliance. 1. This item shall be deemed to have been satisfied if water used in a milk plant is from a source constructed in accordance with the requirements as stated under "Compliance" in Section 14 of this Ordinance, as contained herein and provided further that:

2. All rooms of the plant in which milk or milk products are handled or containers are washed shall be provided with an adequate number of water outlets.

3. The water supply shall be ample in quantity to insure proper cleaning of the plant and its equipment. This item is considered sufficient when full flow is obtained from all outlets that are normally used at one time.

SECTION 23. Milk and Milk Products.

(a) Cooling. All milk and milk products shall be cooled immediately after pasteurization to 50 degrees F. or lower, and maintained at that temperature until pasteurized, unless pasteurized within two hours after receipt. All milk and milk products shall be stored and maintained at a temperature of 50 degrees F. or lower until delivered.

Compliance. All milk and milk products received for pasteurization and not to be pasteurized within two hours after receipt at the plant or receiving station shall be cooled immediately upon receipt to a temperature of 50 degrees F. or below and maintained thereat until pasteurized. Storage holding tanks shall be sufficiently insulated to prevent any appreciable change of temperature over a period of 24 hours. Tanks equipped with automatic refrigeration.

(b) Recontamination. Pasteurized milk or pasteurized milk products shall not be permitted to come in contact with any equipment with which unpasteurized milk or unpasteurized milk products have been in contact.

Compliance. Pasteurized milk or milk products shall not be permitted to come in contact with hands or equipment or containers with which unpasteurized milk or unpasteurized milk products have been in contact.

(c) Material Storage. Bottle caps or other material shall be stored in a clean, dry place. After bactericidal treatment and during equipment shall be handled and maintained in such a manner as to prevent contamination of the containers, equipment or the milk.

Compliance. 1. All caps shall be purchased in tubes. Parchment paper and single-service containers shall be purchased in cartons. The caps, parchment paper, and single-service containers shall be stored in suitable cabinets, or in a clean, dry room. At the beginning of each run the first cap or the first parchment paper shall be discarded as it has been exposed to contamination.

2. All bottles, cans, sanitary piping, and valves shall be stored in clean crates or racks in a clean place, protected from flies, dust, and splash. Storage racks shall preferably be constructed of metal, protected against rust. Floors shall not be washed where crates or clean bottles are stacked. The bottom case of clean bottles shall be at least four inches above the floor.

3. Employees of the pasteurization plant shall use every reasonable precaution to prevent the milk contact surfaces of containers from becoming contaminated by contact with their persons or clothing between the time they are given bactericidal treatment and the time they are again in use or while in use.

4. Such quality tests as are required by the enforcing officer shall be made of each producer's milk at least once every four months.

Compliance. In order to yield sufficient results composite milk samples of each producer shall be collected in clean bottles, vials, or tubes, either from the weighing station or from the producers' cans. The samples shall be immediately placed in cans whereby a temperature of 50 degrees F. or less can be maintained until they are tested.

5. Composite samples shall be collected from each producer's milk in a clean, handled dipper or milk thief is practical to use. The dipper shall be cleaned and sterilized prior to sampling at each receiving station or plant. The cans of milk shall be well stirred before sampling. The stirrer and sampler shall be kept in a bactericidal container between samplings. The producer and distributor shall be notified of the laboratory results so that the necessary correction shall be obtained. (Bacteriological standards are covered under Dairy Farm Standards, Section 17.)

(d) Bottling, Bottling or packaging of milk or milk products shall be done at the place of pasteurization immediately after pasteurization and by approved mechanical equipment.

Compliance. 1. All milk and milk products shall be bottled at the plant where they are pasteurized. A mechanical bottle filler of which the capper is an integral part shall be used.

2. The bottler shall be of a design that does not require frequent adjustment during operation. The supply lines and bowls shall be provided with covers which are constructed so as to prevent contamination reaching the inside of the bottle tank or bowl. The float shall be adjustable without removing the cover.

3. Any filler pipe entering the top of the bottle shall be as close to the top of the bottle as possible with an apron or other device to prevent water of condensation or drip from entering the bowl.

4. Automatically operated bottler and conveyors shall be provided

with an overhead shelf from the bottle washer to bottler so as to protect the bottles from contamination.

(e) Capping. Containers for fluid milk of a capacity less than three gallons shall be capped by approved mechanical equipment.

Compliance. 1. All bottlers shall be equipped with a mechanical mechanism for capping.

2. Bottles imperfectly capped shall be emptied into cans or other containers and the dumped milk or milk products repasteurized before bottling.

3. Within one year after the effective date of this ordinance the cap or covering of the bottles shall cover the pouring lip or at least its largest diameter. Any hooding of capped bottles shall be by mechanical means directly from the bottler.

(f) Overflow Milk. Milk or milk products which have overflowed, drained or leaked from equipment shall not be sold for human consumption.

SECTION 24. Examination of Milk and Milk Products.

Compliance. Samples of milk and milk products shall be available to the enforcing officer for examination. All proprietors of stores, cafes, restaurants, soda fountains, and other similar places shall furnish the enforcing officer upon his request, with the names of all distributors from whom milk and milk products are obtained. Examination by the enforcing officer may include bacteriological, chemical, and physical determinations as he may deem necessary and such examination shall be made in accordance with the methods and standards established by the American Public Health Association and the Association of Official Agricultural Chemists.

Compliance. Samples of milk and milk products shall be available without charge to the enforcing officer for laboratory examination. In order to expedite results and to represent the condition of the milk and milk products, samples should be collected from the delivery vehicle. All proprietors of stores, cafes, soda fountains, restaurants, and similar places shall furnish upon his request, samples of milk and milk products, and the names of persons from whom milk and milk products are obtained. Samples of milk and milk products, when collected, shall immediately be placed in an insulated container where a temperature of 50 degrees F. or less is maintained until they are examined.

(b) Vitamin-Fortified Milk. Analysis of vitamin-fortified milk shall be made when required by the enforcing officer, by a method and in a laboratory approved by the enforcing officer, the cost of which shall be borne by the distributor thereof.

Compliance. D shall only be added to milk in amount and manner as approved by the Committee on Foods of the American Medical Association and/or the enforcing officer. Bioassays shall be made in conformity with the latest methods of the American Public Health Association. Samples for analysis shall be available when required by the enforcing officer. The cost of analysis shall be borne by the distributor.

(c) Bacterial Counts. The standard plate count of milk and milk products, buttermilk, cultured buttermilk, and soured cream, shall not exceed 1,000,000 per milliliter after pasteurization.

Compliance. Samples of pasteurized milk and milk products, excepting buttermilk and soured cream, shall be collected from each distributor or retail establishment as deemed necessary by the enforcing officer. The logarithmic average bacterial count of four samples of any one product shall not exceed 50,000 per milliliter. Bacterial counts shall be made in conformity with the latest standard methods of the American Public Health Association.

2. All bottles, cans, sanitary piping, and valves shall be stored in clean crates or racks in a clean place, protected from flies, dust, and splash. Storage racks shall preferably be constructed of metal, protected against rust. Floors shall not be washed where crates or clean bottles are stacked. The bottom case of clean bottles shall be at least four inches above the floor.

3. Employees of the pasteurization plant shall use every reasonable precaution to prevent the milk contact surfaces of containers from becoming contaminated by contact with their persons or clothing between the time they are given bactericidal treatment and the time they are again in use or while in use.

4. Such quality tests as are required by the enforcing officer shall be made of each producer's milk at least once every four months.

Compliance. In order to yield sufficient results composite milk samples of each producer shall be collected in clean bottles, vials, or tubes, either from the weighing station or from the producers' cans. The samples shall be immediately placed in cans whereby a temperature of 50 degrees F. or less can be maintained until they are tested.

5. Composite samples shall be collected from each producer's milk in a clean, handled dipper or milk thief is practical to use. The dipper shall be cleaned and sterilized prior to sampling at each receiving station or plant. The cans of milk shall be well stirred before sampling. The stirrer and sampler shall be kept in a bactericidal container between samplings. The producer and distributor shall be notified of the laboratory results so that the necessary correction shall be obtained. (Bacteriological standards are covered under Dairy Farm Standards, Section 17.)

(d) Bottling, Bottling or packaging of milk or milk products shall be done at the place of pasteurization immediately after pasteurization and by approved mechanical equipment.

Compliance. 1. All milk and milk products shall be bottled at the plant where they are pasteurized. A mechanical bottle filler of which the capper is an integral part shall be used.

2. The bottler shall be of a design that does not require frequent adjustment during operation. The supply lines and bowls shall be provided with covers which are constructed so as to prevent contamination reaching the inside of the bottle tank or bowl. The float shall be adjustable without removing the cover.

3. Any filler pipe entering the top of the bottle shall be as close to the top of the bottle as possible with an apron or other device to prevent water of condensation or drip from entering the bowl.

4. Automatically operated bottler and conveyors shall be provided

with an overhead shelf from the bottle washer to bottler so as to protect the bottles from contamination.

(e) Capping. Containers for fluid milk of a capacity less than three gallons shall be capped by approved mechanical equipment.

Compliance. 1. All bottlers shall be equipped with a mechanical mechanism for capping.

2. Bottles imperfectly capped shall be emptied into cans or other containers and the dumped milk or milk products repasteurized before bottling.

3. Within one year after the effective date of this ordinance the cap or covering of the bottles shall cover the pouring lip or at least its largest diameter. Any hooding of capped bottles shall be by mechanical means directly from the bottler.

(f) Overflow Milk. Milk or milk products which have overflowed, drained or leaked from equipment shall not be sold for human consumption.

SECTION 24. Examination of Milk and Milk Products.

Compliance. Samples of milk and milk products shall be available to the enforcing officer for examination. All proprietors of stores, cafes, restaurants, soda fountains, and other similar places shall furnish the enforcing officer upon his request, with the names of all distributors from whom milk and milk products are obtained. Examination by the enforcing officer may include bacteriological, chemical, and physical determinations as he may deem necessary and such examination shall be made in accordance with the methods and standards established by the American Public Health Association and the Association of Official Agricultural Chemists.

Compliance. Samples of milk and milk products shall be available without charge to the enforcing officer for laboratory examination. In order to expedite results and to represent the condition of the milk and milk products, samples should be collected from the delivery vehicle. All proprietors of stores, cafes, soda fountains, restaurants, and similar places shall furnish upon his request, samples of milk and milk products, and the names of persons from whom milk and milk products are obtained. Samples of milk and milk products, when collected, shall immediately be placed in an insulated container where a temperature of 50 degrees F. or less is maintained until they are examined.

(b) Vitamin-Fortified Milk. Analysis of vitamin-fortified milk shall be made when required by the enforcing officer, by a method and in a laboratory approved by the enforcing officer, the cost of which shall be borne by the distributor thereof.

Compliance. D shall only be added to milk in amount and manner as approved by the Committee on Foods of the American Medical Association and/or the enforcing officer. Bioassays shall be made in conformity with the latest methods of the American Public Health Association. Samples for analysis shall be available when required by the enforcing officer. The cost of analysis shall be borne by the distributor.

(c) Bacterial Counts. The standard plate count of milk and milk products, buttermilk, cultured buttermilk, and soured cream, shall not exceed 1,000,000 per milliliter after pasteurization.

Compliance. Samples of pasteurized milk and milk products, excepting buttermilk and soured cream, shall be collected from each distributor or retail establishment as deemed necessary by the enforcing officer. The logarithmic average bacterial count of four samples of any one product shall not exceed 50,000 per milliliter. Bacterial counts shall be made in conformity with the latest standard methods of the American Public Health Association.

2. All bottles, cans, sanitary piping, and valves shall be stored in clean crates or racks in a clean place, protected from flies, dust, and splash. Storage racks shall preferably be constructed of metal, protected against rust. Floors shall not be washed where crates or clean bottles are stacked. The bottom case of clean bottles shall be at least four inches above the floor.

3. Employees of the pasteurization plant shall use every reasonable precaution to prevent the milk contact surfaces of containers from becoming contaminated by contact with their persons or clothing between the time they are given bactericidal treatment and the time they are again in use or while in use.

4. Such quality tests as are required by the enforcing officer shall be made of each producer's milk at least once every four months.

Compliance. In order to yield sufficient results composite milk samples of each producer shall be collected in clean bottles, vials, or tubes, either from the weighing station or from the producers' cans. The samples shall be immediately placed in cans whereby a temperature of 50 degrees F. or less can be maintained until they are tested.

5. Composite samples shall be collected from each producer's milk in a clean, handled dipper or milk thief is practical to use. The dipper shall be cleaned and sterilized prior to sampling at each receiving station or plant. The cans of milk shall be well stirred before sampling. The stirrer and sampler shall be kept in a bactericidal container between samplings. The producer and distributor shall be notified of the laboratory results so that the necessary correction shall be obtained. (Bacteriological standards are covered under Dairy Farm Standards, Section 17.)

(d) Bottling, Bottling or packaging of milk or milk products shall be done at the place of pasteurization immediately after pasteurization and by approved mechanical equipment.

Compliance. 1. All milk and milk products shall be bottled at the plant where they are pasteurized. A mechanical bottle filler of which the capper is an integral part shall be used.

2. The bottler shall be of a design that does not require frequent adjustment during operation. The supply lines and bowls shall be provided with covers which are constructed so as to prevent contamination reaching the inside of the bottle tank or bowl. The float shall be adjustable without removing the cover.

3. Any filler pipe entering the top of the bottle shall be as close to the top of the bottle as possible with an apron or other device to prevent water of condensation or drip from entering the bowl.

4. Automatically operated bottler and conveyors shall be provided

with an overhead shelf from the bottle washer to bottler so as to protect the bottles from contamination.

(e) Capping. Containers for fluid milk of a capacity less than three gallons shall be capped by approved mechanical equipment.

Compliance. 1. All bottlers shall be equipped with a mechanical mechanism for capping.

2. Bottles imperfectly capped shall be emptied into cans or other containers and the dumped milk or milk products repasteurized before bottling.

3. Within one year after the effective date of this ordinance the cap or covering of the bottles shall cover the pouring lip or at least its largest diameter. Any hooding of capped bottles shall be by mechanical means directly from the bottler.

(f) Overflow Milk. Milk or milk products which have overflowed, drained or leaked from equipment shall not be sold for human consumption.

SECTION 24. Examination of Milk and Milk Products.

Compliance. Samples of milk and milk products shall be available to the enforcing officer for examination. All proprietors of stores, cafes, restaurants, soda fountains, and other similar places shall furnish the enforcing officer upon his request, with the names of all distributors from whom milk and milk products are obtained. Examination by the enforcing officer may include bacteriological, chemical, and physical determinations as he may deem necessary and such examination shall be made in accordance with the methods and standards established by the American Public Health Association and the Association of Official Agricultural Chemists.

Compliance. Samples of milk and milk products shall be available without charge to the enforcing officer for laboratory examination. In order to expedite results and to represent the condition of the milk and milk products, samples should be collected from the delivery vehicle. All proprietors of stores, cafes, soda fountains, restaurants, and similar places shall furnish upon his request, samples of milk and milk products, and the names of persons from whom milk and milk products are obtained. Samples of milk and milk products, when collected, shall immediately be placed in an insulated container where a temperature of 50 degrees F. or less is maintained until they are examined.

(b) Vitamin-Fortified Milk. Analysis of vitamin-fortified milk shall be made when required by the enforcing officer, by a method and in a laboratory approved by the enforcing officer, the cost of which shall be borne by the distributor thereof.

Compliance. D shall only be added to milk in amount and manner as approved by the Committee on Foods of the American Medical Association and/or the enforcing officer. Bioassays shall be made in conformity with the latest methods of the American Public Health Association. Samples for analysis shall be available when required by the enforcing officer. The cost of analysis shall be borne by the distributor.

(c) Bacterial Counts. The standard plate count of milk and milk products, buttermilk, cultured buttermilk, and soured cream, shall not exceed 1,000,000 per milliliter after pasteurization.

Compliance. Samples of pasteurized milk and milk products, excepting buttermilk and soured cream, shall be collected from each distributor or retail establishment as deemed necessary by the enforcing officer. The logarithmic average bacterial count of four samples of any one product shall not exceed 50,000 per milliliter. Bacterial counts shall be made in conformity with the latest standard methods of the American Public Health Association.

2. All bottles, cans, sanitary piping, and valves shall be stored in clean crates or racks in a clean place, protected from flies, dust, and splash. Storage racks shall preferably be constructed of metal, protected against rust. Floors shall not be washed where crates or clean bottles are stacked. The bottom case of clean bottles shall be at least four inches above the floor.

3. Employees of the pasteurization plant shall use every reasonable precaution to prevent the milk contact surfaces of containers from becoming contaminated by contact with their persons or clothing between the time they are given bactericidal treatment and the time they are again in use or while in use.

4. Such quality tests as are required by the enforcing officer shall be made of each producer's milk at least once every four months.

Compliance. In order to yield sufficient results composite milk samples of each producer shall be collected in clean bottles, vials, or tubes, either from the weighing station or from the producers' cans. The samples shall be immediately placed in cans whereby a temperature of 50 degrees F. or less can be maintained until they are tested.

5. Composite samples shall be collected from each producer's milk in a clean, handled dipper or milk thief is practical to use. The dipper shall be cleaned and sterilized prior to sampling at each receiving station or plant. The cans of milk shall be well stirred before sampling. The stirrer and sampler shall be kept in a bactericidal container between samplings. The producer and distributor shall be notified of the laboratory results so that the necessary correction shall be obtained. (Bacteriological standards are covered under Dairy Farm Standards, Section 17.)

(d) Bottling, Bottling or packaging of milk or milk products shall be done at the place of pasteurization immediately after pasteurization and by approved mechanical equipment.

Compliance. 1. All milk and milk products shall be bottled at the plant where they are pasteurized. A mechanical bottle filler of which the capper is an integral part shall be used.

2. The bottler shall be of a design that does not require frequent adjustment during operation. The supply lines and bowls shall be provided with covers which are constructed so as to prevent contamination reaching the inside of the bottle tank or bowl. The float shall be adjustable without removing the cover.

3. Any filler pipe entering the top of the bottle shall be as close to the top of the bottle as possible with an apron or other device to prevent water of condensation or drip from entering the bowl.

4. Automatically operated bottler and conveyors shall be provided

with an overhead shelf from the bottle washer to bottler so as to protect the bottles from contamination.

(e) Capping. Containers for fluid milk of a capacity less than three gallons shall be capped by approved mechanical equipment.

Compliance. 1. All bottlers shall be equipped with a mechanical mechanism for capping.

2. Bottles imperfectly capped shall be emptied into cans or other containers and the dumped milk or milk products repasteurized before bottling.

3. Within one year after the effective date of this ordinance the cap or covering of the bottles shall cover the pouring lip or at least its largest diameter. Any hooding of capped bottles shall be by mechanical means directly from the bottler.

(f) Overflow Milk. Milk or milk products which have overflowed, drained or leaked from equipment shall not be sold for human consumption.

SECTION 24. Examination of Milk and Milk Products.

Compliance. Samples of milk and milk products shall be available to the enforcing officer for examination. All proprietors of stores, cafes, restaurants, soda fountains, and other similar places shall furnish the enforcing officer upon his request, with the names of all distributors from whom milk and milk products are obtained. Examination by the enforcing officer may include bacteriological, chemical, and physical determinations as he may deem necessary and such examination shall be made in accordance with the methods and standards established by the American Public Health Association and the Association of Official Agricultural Chemists.

Compliance. Samples of milk and milk products shall be available without charge to the enforcing officer for laboratory examination. In order to expedite results and to represent the condition of the milk and milk products, samples should be collected from the delivery vehicle. All proprietors of stores, cafes, soda fountains, restaurants, and similar places shall furnish upon his request, samples of milk and milk products, and the names of persons from whom milk and milk products are obtained. Samples of milk and milk products, when collected, shall immediately be placed in an insulated container where a temperature of 50 degrees F. or less is maintained until they are examined.

(b) Vitamin-Fortified Milk. Analysis of vitamin-fortified milk shall be made when required by the enforcing officer, by a method and in a laboratory approved by the enforcing officer, the cost of which shall be borne by the distributor thereof.

Compliance. D shall only be added to milk in amount and manner as approved by the Committee on Foods of the American Medical Association and/or the enforcing officer. Bioassays shall be made in conformity with the latest methods of the American Public Health Association. Samples for analysis shall be available when required by the enforcing officer. The cost of analysis shall be borne by the distributor.

(c) Bacterial Counts. The standard plate count of milk and milk products, buttermilk, cultured buttermilk, and soured cream, shall not exceed 1,000,000 per milliliter after pasteurization.

Compliance. Samples of pasteurized milk and milk products, excepting buttermilk and soured cream, shall be collected from each distributor or retail establishment as deemed necessary by the enforcing officer. The logarithmic average bacterial count of four samples of any one product shall not exceed 50,000 per milliliter. Bacterial counts shall be made in conformity with the latest standard methods of the American Public Health Association.

2. All bottles, cans, sanitary piping, and valves shall be stored in clean crates or racks in a clean place, protected from flies, dust, and splash. Storage racks shall preferably be constructed of metal, protected against rust. Floors shall not be washed where crates or clean bottles are stacked. The bottom case of clean bottles shall be at least four inches above the floor.

3. Employees of the pasteurization plant shall use every reasonable precaution to prevent the milk contact surfaces of containers from becoming contaminated by contact with their persons or clothing between the time they are given bactericidal treatment and the time they are again in use or while in use.

4. Such quality tests as are required by the enforcing officer shall be made of each producer's milk at least once every four months.

Compliance. In order to yield sufficient results composite milk samples of each producer shall be collected in clean bottles, vials, or tubes, either from the weighing station or from the producers' cans. The samples shall be immediately placed in cans whereby a temperature of 50 degrees F. or less can be maintained until they are tested.

5. Composite samples shall be collected from each producer's milk in a clean, handled dipper or milk thief is practical to use. The dipper shall be cleaned and sterilized prior to sampling at each receiving station or plant. The cans of milk shall be well stirred before sampling. The stirrer and sampler shall be kept in a bactericidal container between samplings. The producer and distributor shall be notified of the laboratory results so that the necessary correction shall be obtained. (Bacteriological standards are covered under Dairy Farm Standards, Section 17.)

(d) Bottling, Bottling or packaging of milk or milk products shall be done at the place of pasteurization immediately after pasteurization and by approved mechanical equipment.

Compliance. 1. All milk and milk products shall be bottled at the plant where they are pasteurized. A mechanical bottle filler of which the capper is an integral part shall be used.

2. The bottler shall be of a design that does not require frequent adjustment during operation. The supply lines and bowls shall be provided with covers which are constructed so as to prevent contamination reaching the inside of the bottle tank or bowl. The float shall be adjustable without removing the cover.

3. Any filler pipe entering the top of the bottle shall be as close to the top of the bottle as possible with an apron or other device to prevent water of condensation or drip from entering the bowl.

4. Automatically operated bottler and conveyors shall be provided

with an overhead shelf from the bottle washer to bottler so as to protect the bottles from contamination.

(e) Capping. Containers for fluid milk of a capacity less than three gallons shall be capped by approved mechanical equipment.

Compliance. 1. All bottlers shall be equipped with a mechanical mechanism for capping.

2. Bottles imperfectly capped shall be emptied into cans or other containers and the dumped milk or milk products repasteurized before bottling.

3. Within one year after the effective date of this ordinance the cap or covering of the bottles shall cover the pouring lip or at least its largest diameter. Any hooding of capped bottles shall be by mechanical means directly from the bottler.

(f) Overflow Milk. Milk or milk products which have overflowed, drained or leaked from equipment shall not be sold for human consumption.

SECTION 24. Examination of Milk and Milk Products.

Compliance. Samples of milk and milk products shall be available to the enforcing officer for examination. All proprietors of stores, cafes, restaurants, soda fountains, and other similar places shall furnish the enforcing officer upon his request, with the names of all distributors from whom milk and milk products are obtained. Examination by the enforcing officer may include bacteriological, chemical, and physical determinations as he may deem necessary and such examination shall be made in accordance with the methods and standards established by the American Public Health Association and the Association of Official Agricultural Chemists.

Compliance. Samples of milk and milk products shall be available without charge to the enforcing officer for laboratory examination. In order to expedite results and to represent the condition of the milk and milk products, samples should be collected from the delivery vehicle. All proprietors of stores, cafes, soda fountains, restaurants, and similar places shall furnish upon his request, samples of milk and milk products, and the names of persons from whom milk and milk products are obtained. Samples of milk and milk products, when collected, shall immediately be placed in an insulated container where a temperature of 50 degrees F. or less is maintained until they are examined.

(b) Vitamin-Fortified Milk. Analysis of vitamin-fortified milk shall be made when required by the enforcing officer, by a method and in a laboratory approved by the enforcing officer, the cost of which shall be borne by the distributor thereof.

Compliance. D shall only be added to milk in amount and manner as approved by the Committee on Foods of the American Medical Association and/or the enforcing officer. Bioassays shall be made in conformity with the latest methods of the American Public Health Association. Samples for analysis shall be available when required by the enforcing officer. The cost of analysis shall be borne by the distributor.

(c) Bacterial Counts. The standard plate count of milk and milk products, buttermilk, cultured buttermilk, and soured cream, shall not exceed 1,000,000 per milliliter after pasteurization.

**Suggestions Given On
Dishes To Extend Meat**

If you are one of those fortunate
enough to have any meat to extend
Miss Wilma D. Brewer, of the foods
and nutrition department in the school
college, offers some suggestions on
meat extenders.

Such dishes are not new, but right
now they are very important. The
old New England boiled dinner, baked
fish, or baked beans with frank-
furters have long been standbys. Add
the crole dishes of the South such as
shrimp crole with tomatoes and rice.
Then there is Italian spaghetti with
hamburg, chop suey, Shepherd's pie—
all are meat extenders.

Cereals are an important meat-
extender. Miss Brewer contends. Spag-
hetti, rice, or oatmeal can be com-
bined with meat in a casserole or loaf.
Oatmeal makes an excellent extender
in a meat loaf.

Escalloped potatoes with ham has
always been a favorite. With ham all
but extinct, sliced frankfurters with
escalloped potatoes make a tasty com-
bination. Miss Brewer reveals.

If you want to hide that spiced
luncheon meat, cube it and mix it
with canned tomatoes, chopped onion
and green peppers. Use this for a
filling between two generous layers of
cooked spaghetti in a casserole.

Stews, of course, are still among
the most popular meat-extender dishes.
Today, interesting and attractive
meals provide a challenge to the
homemaker, and Miss Brewer believes
the challenge can be met by combin-
ing ingenuity with "know-how."

Destroy Forest Land
Each year 200,000 forest fires lay
waste 30,000,000 acres of valuable
forest land.

ORDER FOR PUBLICATION
Final Administration Account
No. 35081
State of Michigan, the Probate Court
for the County of Washtenaw.

At a session of said Court, held at
the Probate Office in the City of Ann
Arbor, in said County, on the 10th day
of June, A. D. 1946.

Present, Hon. Jay G. Pray, Judge
of Probate.

In the Matter of the Estate of Anna
Crawford, deceased.

James M. Teahen, Jr., Executor,
having filed in said Court his final ad-
ministration account, and his petition
praying for the allowance thereof and
for the assignment and distribution of
the residue of said estate.

It is Ordered, That the 16th day of
July, A. D. 1946, at ten o'clock in the
forenoon, at said Probate Office, be
and is hereby appointed for examina-
tion and allowing said account and
hearing said petition.

It is Further Ordered, That public
notice thereof be given by publication
of a copy of this order, for three suc-
cessive weeks previous to said day of
hearing, in the Chelsea Standard, a
newspaper printed and circulated in
said County.

Jay G. Pray, Judge of Probate.
June 20-July 4
Nora O. Borgert, Register of Probate.

Record Salt Production

The United States produced 10-
717,171 tons of salt in 1944—a re-
cord. That's more than 240 pounds
of salt for every person in the coun-
try. Actually, though, only 602,215
tons, or a little more than 9 pounds
per person, was used for table or
behold purposes. That was 62,000
tons less than in 1943. Industry and
agriculture took the remaining 10-
115,000 tons for a wide variety of
uses.

STATE OF MICHIGAN
In the Circuit Court for the County
of Washtenaw, In Chancery.
(File No. 3-640)
Joseph Kooperman, Plaintiff,
vs.
Elizabeth Kooperman, Defendant.

Order of Publication
At a session of said Court, held in
the Court House in the City of Ann
Arbor, Washtenaw County, Michigan,
on the 17th day of May, A. D. 1946.

Present: Hon. James R. Break-
ey, Jr., Circuit Judge.

In this cause, it appearing by af-
favit on file that the defendant here-
in, Elizabeth Kooperman, is not a
resident of the State of Michigan but
is a resident of the City of Brooklyn
in the State of New York.

On motion of George A. Weiss, one
of the attorneys for plaintiff, it is
Ordered that the appearance of the
defendant, Elizabeth Kooperman, be
entered in the cause on or before the
15th day of June, 1946, and that the
cause be set for trial on the 15th day
of June, 1946, at ten o'clock in the
forenoon, at the Court House in the
City of Ann Arbor, in said County.

It is further Ordered that said
plaintiff cause this order to be pub-
lished in the Chelsea Standard, a
newspaper printed, published and cir-
culated in said County, and that such
publication be published within (40)
days from the date of this order, and
that such publication be continued
therein once in each week for three
weeks in succession; or that said
plaintiff cause a copy of this order to
be personally served upon said de-
fendant, Elizabeth Kooperman, at
least twenty (20) days before the
time above prescribed for her appear-
ance.

James R. Breakey, Jr.,
Circuit Judge.

Delores M. Green, Plaintiff,
vs.
Irvin Harris Green, Defendant.

Suit pending in the above entitled
Court on the 12th day of April, 1946.
In this cause it appearing from af-
favit on file, that the defendant, Irvin
Harris Green, left Ypsilanti, Michigan,
on or about October 23, 1945, and
plaintiff has not heard from him
since, and it cannot be ascer-
tained in what State or County the
said Defendant resides.

On motion of Hugh E. Wilson, At-
torney for the Plaintiff, it is ordered
that the said Defendant, Irvin Harris
Green, cause his appearance to be en-
tered in this cause within three
months from the date of this order
and that in default thereof said Bill
of Complaint will be taken as con-
fessed.

Dated April 12, 1946.

Mack, Frederick R. Rosser, Freder-
ick Rosser, Albert S. Rosser, Albert
G. Rosser, Elizabeth L. Blythman,
Elizabeth M. Blythman, and their un-
known heirs, legatees, devisees and
assigns.

Order of Publication
At a session of said Court, held at
the Court House, in the City of Ann
Arbor, in said County, on the 15th day
of May, A. D. 1946.

Present: Honorable James R. Break-
ey, Jr., Circuit Judge.

In this cause it appearing by a Bill
of Complaint duly verified, presented
and filed to the satisfaction of the
Court, that the above named Defend-
ants and their unknown successors,
heirs, devisees, legatees and assigns,
are necessary and proper parties to
the above entitled cause, and are in-
terested in the subject matter there-
of, and whose names appear in the
office of the Registrar of Deeds for the
County of Washtenaw, as having, at
some time, claim a right, title, in-
terest or estate in the subject matter
of said cause or some portion of it,
or as having a lien or charge thereon
without having conveyed or released
the same, and who might at any time
under the provisions of law affect of
certain instruments of record claim
or attempt to claim, or be entitled to
claim benefits thereunder; and it fur-
ther appearing to the satisfaction of
the Court that the above named par-
ties are dead or their whereabouts un-
known to the said Plaintiff, and that
after diligent search and inquiry, they
have been unable to ascertain the
same, or where any of them or any of
the successors, heirs, devisees, lega-
tees, or assigns, reside, or whether any
interest as they may or might have
therein has been disposed of by Will
or otherwise, and that such Defend-
ants cannot be personally served with
process, therefore, on Motion of John
B. Mellott, one of the Attorneys for
the Plaintiff,

It is Ordered, that the appearance
of the said Defendants and each and

all of them be entered in this cause
within three months from the date of
this order; that in case of their ap-
pearance, they cause their appear-
ance to the Bill of Complaint to be
filed and a copy thereof served upon
the Attorneys for the Plaintiffs with-
in fifteen days after service upon them,
or their Attorney, of a copy of said
Bill; and that in default thereof, said
Bill be taken as confessed, by each of
said Defendants, and it is further
Ordered that the said Plaintiff cause
a copy of this Order to be published
in the Chelsea Standard, a newspaper
printed, published, and circulated in
said County of Washtenaw, and that
such publication be continued there-
in once in each week for six consecutive
weeks, or that the Plaintiff cause a
copy of this Order to be personally
served upon the said Defendants, and
upon each of them at least twenty
days before the time prescribed for
their appearance.

James R. Breakey, Jr.,
Circuit Judge.

To the Said Defendants:
Take Notice, that the above cause
involves the title to the following de-
scribed premises situated and being
in the City of Ann Arbor, County of
Washtenaw, and State of Michigan:
Commencing at a point on the west
line of Fifth Street, 55 feet and 6
inches north of the southeast corner
of block 5 south, range 5 east, run-
ning thence westerly parallel with the
north line of Madison Street, to a
point on the west line of lot number
sixteen in said block, 65 feet and 6
inches north of the north line of Ma-
dison Street; thence north on the west
line of lots sixteen and fourteen in
said block, 62 feet and 4 inches; thence
east parallel with the north line of
said lot fourteen, to the west line of
Fifth Street; thence south on said
west line of Fifth Street to the place
of beginning, being a part of lots
fourteen, fifteen and sixteen, in block
5 south, range 5 east, according to
the recorded plat of M. and C. Mor-
gan's Addition to the City of Ann Ar-
bor, Washtenaw County, Michigan.

of May, A. D. 1946.

Present: Honorable James R. Break-
ey, Jr.

On reading and filing the Bill of
Complaint in said cause and the Af-
favit of Robert L. French attached
thereto, from which it satisfactorily
appears to the Court that the defend-
ants above named, or their unknown
heirs, devisees, legatees and assigns,
are proper and necessary parties de-
fendant in the above entitled cause;

and
It is further appearing that after di-
ligent search and inquiry it cannot be
ascertained, and it is not known
whether or not said defendants are
living or dead, or where any of them
may reside if living, and if dead,
whether they have persons repre-
sentative of heirs living or where they
or some of them may reside, and fur-
ther that the present whereabouts of
said defendants are unknown, and
that the names of the persons who are
included therein without being named,
but who are embraced therein, under
the title of unknown heirs, devisees,

legatees and assigns, cannot be ascer-
tained after diligent search and in-
quiry;

On motion of Robert L. French, At-
torney for plaintiff, it is ordered that
said defendants and their unknown
heirs, devisees, legatees and assigns,
cause their appearance to be entered
in this cause within three months
from the date of this order, and in
default thereof that said Bill of Com-
plaint be taken as confessed by the
said defendants, their unknown heirs,
devisees, legatees and assigns.

It is further ordered that this order
be published or served according to
law.

James R. Breakey, Jr.,
Circuit Judge.

Fire Safety
The National Fire Protection as-
sociation estimates that fire losses
in farm homes would be cut in half
if all homes had sound, efficient
heating equipment, properly in-
stalled, with adequate safeguards,
properly constructed chimneys and
flues; adequately protected and
properly installed electric wiring;
fire-resistant roofs, not flammable
wood shingles; lightning rods, prop-
erly grounded; non-combustible in-
terior finish materials and adequate
water supply and chemical fire ex-
tinguishers.

LIBRARY NEWS

CHILDREN

Come into the Library and get your name on the tree that is growing there and find out what you must do to go in quest of the Golden Apple. It's going to be fun, so start early.

24 Years Ago

Thursday, June 1, 1922
Ransom Armstrong is having a four-car garage built near his new store building at Cavanaugh Lake.

Now that the automobile is here to stay, exit the old apple barrel. In the future apples will be packed in cartons. The motorist cannot carry a barrel of apples with him, but wants a box of 8, 12, or 24 apples to take along with him.

Miss Emma Lewick has accepted a position as clerk in Freeman's store. Ed. Bissell has received a number of Italian queen bees that he purchased from apiculturists in Georgia.

C. H. Penn has been appointed a lieutenant in the motor transport section of the 86th reserve division of the U. S. Army. The appointment requires two weeks training each year in some one of the army training camps.

Mr. and Mrs. Roy French purchased E. A. Fisch's interest in the Crescent hotel.

C. H. Collins was thrown from his motorcycle at the intersection of South Main and Pierce streets, about two o'clock Sunday afternoon, when he struck some loose stones in the road. He was badly bruised and barely escaped being run over by a passing car, and he was unable to return to his work at the track for a week.

Thursday, June 8, 1922
Mrs. Jos. Mayer (Caroline Wacker) was born in Freedom, May 20, 1862, and died at her home on South Main street on June 7, after an illness of over one year's duration.

Mrs. Mayer is survived by her husband, five sons, Otto and Elmer, Sharon, Carl J., Edgar and Alfred at home and two daughters, Mrs. Elmer

Lehman of Lima and Anna at home. Interment in Oak Grove cemetery, Chelsea.

She was united in marriage with Joseph Mayer in May, 1887, and for twenty-five years they lived on their farm on the Chelsea-Manchester road.

Mrs. Martha Eschbach of Freedom and William H. Buhmiller of Chelsea were married Saturday, June 8, at Zion Church personage, Rogers Corcoran, with Rev. E. Thime officiating. Paul G. Schauble has sold his residence on Jefferson street to Henry Heininger of Lima.

Mr. Jones, who recently purchased the Chelsea garage on South Main street, is having a house built on the property. Gov. Groesbeck has issued a proclamation setting June 14 aside as Flag Day.

Miss Ruth Bacon and Verne Fordyce were married in Ann Arbor, May 27, with Rev. A. W. Stalker officiating.

Miss Helen Vogel will be graduating from Vassar college on June 13. Mr. and Mrs. Ed. Vogel and daughter, Margaret will attend the exercises.

34 Years Ago
Thursday, May 30, 1912

Henry Lehman, Chas. Riemen-schneider and R. M. Hoppe are having silos erected on their farm.

Dr. and Mrs. H. H. Avery and Mr. and Mrs. A. E. Winans left Tuesday for Indianapolis to attend the automobile races on Decoration Day. The party went in Avery's automobile.

Martin Wackenhut has sold four acres of land on the south side of the D. J. & C. electric line, near Wilkinson street to James Wade.

W. J. Rademacher cut one of his fingers on a piece of tin so badly that it required five stitches to close the wound.

John Geo. Holzapfel, aged 43 years, died at his home in Lima, Sunday evening, May 26.

Mrs. Chas. West has a turkey that has already laid 43 eggs this season.

Thursday, June 6, 1912

The graduation class this year consists of 25 members as follows: Paul J. Belser, Geo. Belser, Carl Chandler, Ella Davis, Russell Emmett, Clarence Everett, Grace Fletcher, Agnes Gorman, Clayton Heselschwerdt, Olga Hoffman, Mabel Hummel, Paul Kuhl, Jean McQuhan, Paul Niehaus, Florence Noah, Phyllis Raftery, Doris Reeves, Alma Riemen-schneider, Esther

NATIONAL FARM SAFETY WEEK—July 21-27... Big things are under way behind the barn as construction of a new doll bed gets under way. With all those rusty nails, it's a question of who will be in bed first—the girl or the doll. Open wells, horse troughs, windmills with ladders standing at the base, ladders left against other buildings, vicious animals not properly restrained, machinery with dangerous parts left unprotected, cluttered barnyards, all take their toll of America's children each year.

Schenk, Eileen Shanahan, Una Stiegelmayer, Jennie Walker, Ethel Whipple, Hazel Whipple and Inez Young.

Albert Schweinfurth, pupil of District No. 2 Sylvan, received 100 per cent in arithmetic in the county eighth grade examination held May 17 and 18.

Mr. and Mrs. Tom Hughes are making arrangements to leave for a two month's visit at Mr. Hughes' former home in Wales.

Under the date of May 24, 1912, George Edenhall of the White Star Line made a sworn statement before a notary public in New York City to the effect that John Lingane of Sylvan, a second-class passenger on the S. S. Titanic, was lost at sea with the ship.

The first home-grown strawberries of the season are on the market.

Under the procedure set up by VA, refunds will be handled through the VA regional office having jurisdiction over the area in which each veteran lives. VA will pay the refunds to the educational institution after it has reimbursed him. The procedure follows:

1. The veteran must obtain a certified statement from the school he attended, giving the period he was enrolled, the course of studies he pursued, and the money he paid for tuition, books and supplies. The statement must indicate that the institution has reimbursed him for the money he spent.

2. The veteran must submit this certified statement to the VA regional office of his area. If he was on terminal leave at the time, he must include a photostatic copy of the service order placing him on terminal leave. If he was hospitalized, he must include a statement by the proper official of the station, post or hospital in which he was receiving treatment, including information as to the date of his discharge or, if he still is hospitalized, of the probable discharge date or whether he was on terminal leave or whether he was hospitalized. He must include an official VA application for education or training in event he has not already filed one.

3. The institution must submit to the same regional office a public voucher covering the amount refunded to the veteran.

VA explained it can make refunds only if the institution in which the veteran was enrolled had been approved by the appropriate state agency. The money refunded must not exceed the amount which VA would have authorized for education or training under instruction in effect during the period for which the veteran is seeking reimbursement.

Since the GI Bill was amended by Public Law 268, a serviceman otherwise eligible for benefits may apply for training and enter a school as he is on terminal leave or while he is hospitalized pending discharge. The school then can bill VA for his expenses along with those of other veterans students. However, he can not receive subsistence allowances while on terminal leave or hospitalized, VA said.

BUDDIES MEET HERE
Mr. and Mrs. Wesley Schafer of Columbus, Ohio visited Geo. Winans at his home here over the week-end. Mr. Schafer and George were pilot and co-pilot of the plane that crashed into the refinery at Stettin, Germany on May 28, 1944, and managed to repel fighters attacking their damaged plane, and finally to return to home base in England by the back route. They narrowly escaped death when, on June 20, 1944, they were again sent out to bomb the same target, this time managing to land in Sweden.

CARD OF THANKS
We wish in this way to express our sincere thanks and appreciation to our friends and neighbors, the Federal Screw Works, members of the C.I.O., Miss Brown and the pupils of the fourth grade, Rev. Major and Martin E. Miller for their many acts of kindness and expressions of sympathy during our recent bereavement.

Mrs. Homer Smith and daughter, Frank Smith, and Mr. and Mrs. Douglas Smith.

Burn to Death
Once every 60 minutes someone burns to death.

CHURCH CIRCLES

CONGREGATIONAL CHURCH

Rev. W. H. Skentelbury, Pastor
The annual Children's Day program will be given next Sunday morning at 10 o'clock. This will be the only service of the kind. Little ones will be baptized at this service.

The Central Circle of the Methodist church will hold an afternoon meeting at the home of Mrs. Ezra Heininger, 2071 Lima Center Road, on Thursday, June 27 at 2 o'clock. Please bring your penny bags.

Plymouth chapter of the Congregational church will meet with Mrs. Veal Whipple on Friday at 2 o'clock.

The American Legion Auxiliary will hold its annual Dues Supper and regular June meeting on Tuesday, June 25 in the high school at 6:30 p.m. Every member please bring a guest eligible for membership.

Mothers of children taking part in the Children's Day program to be given at the Congregational church at 10:00 Sunday morning, June 23 are asked to have their children attend the final rehearsal at the church Friday morning at 9:00 o'clock. This rehearsal is being held in connection with the conclusion of the Vacation Bible School. There will also be a picnic lunch at 1:30 o'clock, and each child is asked to bring only his or her own sandwiches. All other refreshments will be furnished.

Not a Grain of Truth

Once again making the rounds is the old story about grains being moved from ancient tombs and planted, and producing crops. The removed from agriculture says grain practically carbonized from age and exposure.

ENTERTAIN AT DINNER
Mr. and Mrs. Jos. Caspla entertained at a graduation dinner in honor of their son Stanley's graduation from Grass Lake high school with the class of 1946. Covers were laid for 65 guests at tables decorated with white roses and blue iris in blue and white bowls, and blue and white tapers in crystal holders, those being the colors. Stanley has enlisted in the Army and will be leaving soon.
