Public education in Michigan is in need of funds. The state tax amendment would guarantee schools revenue for a reasonable program," states Dr. A. J. Phillips, executive secretary of the Michigan Education Association.

The Board of Directors of the M.E.A., speaking for the 31,000 members, had a unanimous opinion in favor of the proposed constitutional amendment No. 2 because it offers the only immediate source of sufficient funds to save schools from further curtailment," continued Dr. Phillips.

Providing a good program of education for the million children enrolled in Michigan for public schools is the concern of every citizen. Schools suffered during the war period, and their plight has grown worse instead of better. Good teachers are not returning from other jobs, and new candidates are not entering the service because teachers' salaries have not kept pace with increases in living costs.

The housing situation is just as critical for children in many parts of the state as it is for the parents. Classes in basements, and day sessions are cheating a large number of children out of a good education. These conditions, along with antiquated heating and ventilation systems, are endangering the health of many pupils.

It is estimated that the sales tax amendment would guarantee at least \$90,000,000 of state aid to schools (about \$90 for every child enrolled in public schools) during the next school year. That amount would go a long way toward meeting the current needs for textbooks, equipment, and more classrooms.

A very conservative estimate places the immediate need for state school aid at not less than \$145,000,000 annually. This includes \$28,240,000 for the operation of schools, which includes salaries for the 50,000 teachers and non-teaching employees, supplies, equipment, and school maintenance. This amount would pay salaries comparable to the standard in other states, \$2,500 per year for teachers in state institutions of less than college level. It would increase wages of other public school employees to levels in keeping with present costs of living, and equal to wages paid workers in other industries.

These amounts leave a balance of \$116,760,000 as a start toward school building programs. During the war period, from 1939 to 1944, the average annual expenditure for building was \$100,000,000. This is a tremendous drop from the average expenditure of \$23,400,000 during the period from 1928 to 1932.

We allow \$18,260,000 as the additional amount needed for school buildings next year, we are anticipating no more than was spent annually during the more normal period of twenty years ago.

A recent survey by the State Department of Public Instruction shows that the general fund of additional classrooms which at prevailing prices would cost at least \$2,701,000 to build.

To summarize: Estimated state school-aid needs for the current school year for salaries for all public school employees and equipment—\$86,262,405; average annual additional school building needs—\$18,260,000; total—\$104,522,405.

There is no need to fear that the amendment would prevent the state Legislature from continuing a formula of school distribution to equalize school opportunities throughout the state. The amendment does not guarantee to public schools revenue from the general fund of the state an amount equal to 4.6 per cent of the sales tax revenue of the preceding fiscal year, in addition to one-sixth of the current year tax receipts to be distributed to the Legislature shall decide.

Under the present school-aid formula, the Primary School Interest Fund (which is an allowable item from the gross all-advance for each school district) could be applied to funds that the state tax amendment would provide.

North Lake Community Developing With Business Places-Permanent Homes

A project which has for its aim a community of permanent homes and business places, as well as summer cottages, for people who will prove to be successful and genial neighbors, is being carried out at North Lake, mainly through the efforts of Douglas A. Fraser, who has conducted a real estate moved there since 1920, when he moved to this area from Detroit.

About a year ago, Mr. and Mrs. Russell Ferry, who came from Belleville about eight years ago and are now living on the old Theodore Mohrlock farm north of Chelsea, erected a building 40x50 feet on the north side of Territorial road, just west of the Fraser office, which houses the business office of the Ferry-Implement Co. They have the agency for the J. I. Case line of farm implements of all kinds, including tractors, and are prepared to service and provide parts for all of these, also. They expect to have a full line of these implements at all times when shortages due to war conditions are overcome. They also maintain wrecker service and do light garage work, and are doing electrical and plumbing in addition to tire repairing.

Another new building which is now nearing completion is a 54x32 foot, two story, full basement store being built almost directly across the road from the Ferry building, for Walter French and Mrs. Edith French, who have a store. Mr. Edick will occupy the second floor as his home and conduct a grocery and meat business on the first floor.

The Inverness Inn, east of the Fraser office building, was originally built by Mrs. K. H. Kicker of Chelsea, about eighteen years ago, and sold to Mr. and Mrs. Will Wright, who conducted a lunch room and grocery store there for three years before selling it to Mr. and Mrs. Stanley Miller, and is now being operated by Mr. Miller formerly of Toledo. A number of improvements were made to the building about three years ago, including re-siding it.

C. Nagel is remodeling the old Cannon house on the north side of Territorial road, and a little distance west of the Ferry building. He plans to conduct a restaurant there and specialize in chicken dinners. He also plans to install a barber shop in the building. The old garage is being torn down, greatly improving the appearance of the place.

Ground was broken the past week for a new residence which is to be built for Jack Erskine west of the North Lake Methodist church, on the east side of Territorial road, and just beyond this and almost directly across from the old Cannon house, Ernest E. Kessler plans to build a florist shop and a home for himself on a two-acre plot of land which he recently purchased.

In addition to the many families who spend only their summers at the lake, there are twenty-two permanent homes already established in the Park Lawn Beach Subdivision. All building is restricted and must be approved as to occupants and owners, as well as the type of building, before sale of the property is concluded.

Those maintaining permanent homes there are: J. C. Brier, Albert G. Gagan, Theo. Newsome, Robert G. Gagan, D. O. Adams, John Gilbert, O. Brotherton, W. D. Reynolds, D. G. Maynard, R. F. Birchard, Max R. Frainger, H. E. Westgate, Arthur Clark, Guy Shiek, E. W. Thompson, Mrs. W. G. Newsome, Fred Houck, J. G. Gagne, Frank Skodak, S. H. Taylor, W. W. Collins, Vincent Berry, Dudley Foster, Francis X. Crocker. Many of these residents are either business or professional men from Ann Arbor or Detroit, some having moved to Chelsea.

Together, this North Lake community seems to be well on the way to becoming a very desirable location for homes, appealing especially to people who wish to be assured that their property will never lose its value. It is available through such channels as unrestricted building or ownership; or the occupants of the homes that are already built. Permanent clauses in all deeds to property sold in the subdivision provide that the resale of any property and any later building and remodeling must meet the rigid restriction qualifications.

Looking Forward To National Book Week

The first week in October is just about the right time to be thinking of National Book Week, which as you know, is November 10-16.

Chelsea Public Library is observing Book Week by promoting a poster contest among the public school students, those of St. Mary's school, and the rural school pupils, which will publicize a "Teen Age Book Show" to be held at the Library in March. There is to be \$15-\$20 in donated prizes, two of which will go to each school. The posters are to be judged on originality and appropriateness. The contest closes Nov. 6.

Students, please leave your posters at the library before Nov. 6 so that they may be judged and on display during Book Week. The most important years of our history lie directly ahead. Our youth of today will have to meet the challenge of living and working in a new world.

To encourage in young people the habit of reading outside classroom assignments, Pocket Books, Inc., with the cooperation of the schools of the Chelsea community, is sponsoring the "Teen Age Book Show," whose slogan is "Read Today—Start Tomorrow." Your poster will help promote this show, and your teacher can tell you more about it.

One little known service of the Chelsea Public Library is the disposition of discarded books (i.e., outworn or duplicates). Recently called "Invitation to Humankind" were sent to the Pine Woods school in Mississippi. This is a negro school which wrote a plea for books saying that there was no library within a hundred miles accessible to them. It overcame this handicap their students are making the bricks with which to build their own library. Chelsea can be proud that their contribution will help others "climb higher on the ladder of progress."

Hunters Will Enjoy Many Conveniences Of Parks Division

Lansing—Besides squirrels, rabbits and some pheasants to shoot at, the southeastern Michigan state recreation areas offer the hunter the unusual convenience of a place to sit and rest and eat his lunch. More than 60 picnic sites, some with several tables, wells, fireplaces and toilets, are being maintained by the conservation department's parks division at summer camps through the early weeks of the small game season. Available this year for the first time, the picnic sites—in 13 recreation areas in eight counties—are expected to be a welcome change to hunters who previously have had to munch sandwiches sitting in automobiles.

In northern state parks water lines must be drained before freezing weather arrives and much equipment must be stored before snow falls, but hunters are welcome to pitch their camps in state parks and use other facilities still available. In larger parks like Hartwick Pines, Wilderness and Porcupine Mountains, considerable acreage is available to hunters.

Chelsea Wins First Huron League Game

Chelsea started for the Huron League championship by defeating Dundee, her first Huron League opponent, 19 to 0, in a game played at Dundee on Friday.

The game started with Dundee kicking off to Chelsea. Vogel received the ball and brought it out to our twenty-yard line. The first quarter then consisted mostly of punt plays by both teams until late in the quarter when Chelsea drove deep into Dundee's territory.

Chelsea was on Dundee's own ten-yard line and in two plays "Knick" took the ball over for a touchdown. The kick by Donald Baldwin for the extra point was successful; which put Chelsea in the lead 7 to 0. Knickerbocker kicked off and the Dundee team was tackled soon after he caught the kick. They made no ground on the succeeding plays so they punted. A short pass by Chelsea's backfield was good for about five yards and on the next play Knick ran from Dundee's 35 for the second touchdown. The extra point here, however, was unsuccessful. Chelsea kicked again and still our line held so Dundee made no ground, and punted. Chelsea fumbled on a lateral and lost ground but Miller passed on next play to Barlow and made over 40 yards. The 19 ended and Chelsea was ahead 13 to 0.

Chelsea kicked to Dundee again, but still Dundee could make no ground, and on their second down they made a fumble which Chelsea recovered. Barlow, on the next play, ran from Dundee's own 35 and made the third touchdown. Here also the kick was unsuccessful. Again Chelsea kicked to Dundee, but Dundee made no headway. When Chelsea took over, they made one first down but were unsuccessful in making another when a pass was fumbled. Dundee took over and made a series of three first downs but was unable to make a touchdown.

Dundee still had the ball and was thrown for a loss and Chelsea took over. Chelsea seemed to have had luck here because Vogel almost got a first down but stumbled and so the Bulldogs punted to Dundee. They made no gains and kicked into the end zone. Here Coach Cameron knew Dundee could not do anything so he replaced the first team with the second team. Little Robert Taylor carried the ball for all three downs but the big Dundee boys bowled him over for losses. The first team started to go in again but the referee blew his horn and the game was over. Final scores: Chelsea 19, Dundee 0.

"Bulldogs" seek their second Huron League win tomorrow night at 8:00 o'clock over Flat Rock at the local athletic field. Flat Rock, who dropped its opener to Grosse Ile, was a Saline last Friday night, winning 18-0. The Chelsea "Bulldogs" scouted the game and report that this Friday's game will be a real offensive battle which will end with a year with Flat Rock, which ended in a deadlock, 20-20.

Thieves Get \$500 In Loot At The Chelsea Implement Company

Thieves, believed by sheriff's officers of Ann Arbor to be a gang of the thieves that have been responsible for a number of thefts in Washtenaw county recently, made their largest haul sometime Friday night by breaking into the Chelsea Implement Company's building on the Manchester road near US-12, and looting the place of merchandise, tires and guns valued at about \$500.

The thieves also tried, without success to cut open a safe, using an acetylene torch which they operated but did not know how to operate properly.

Investigating officers said the thieves gained entrance through a window and then unlocked a large door from the inside and backed an automobile up to it and loaded their loot.

A check of missing property revealed that a set of tools, four new tires and wheels, four other tires, two batteries, a one-half inch and a one-quarter inch electric drill, three guns—a 300 Savage with case, a 25-20 Winchester rifle, and a 12-gauge Remington pump gun, and the contents of a cigarette machine were taken.

Sheriff's officers from Ann Arbor investigated the robbery on Saturday, and State Police from Jackson investigated on Monday. Fingerprint men from both places obtained a number of prints during their search for clues.

It was reported there was another robbery the same night at a body shop west of Jackson, which it is believed was carried out by the same gang—as the same type of tools were taken there, including electric drills.

The Chelsea Implement Co. is owned and operated by Stanley Beat and Dean Willis.

School's Part In Health Program Is Told In Pamphlet

The school's part in the community's program for controlling communicable disease is the subject of the Michigan Department of Health's new pamphlet, "Communicable Diseases and the School."

This pamphlet answers the questions, "When and how should a teacher exclude a child for illness? What is the procedure for readmitting him? Which diseases can be prevented by immunization?"

According to state regulations three steps should be followed in handling suspected cases of communicable disease in the school:

(1) The teacher shall exclude from school any child suspected of having a communicable disease. (2) The name and address of this child shall be reported to the local health officer. (3) The child's readmission to school shall be arranged with the health officer.

The bulletin lists the following signs of illness that are considered reasons for excluding a child from school: flushing or paleness of skin, rash, fever, watery eyes, vomiting, sore throat or a persistent cough. When a pupil shows any of these signs, the teacher should first get him away from the other children, if only in a corner of the room with a screen, the bulletin states. She should then see that he gets home safely and that parents and health department are notified.

Bert Childers and the Melon Patch

Bert Childers put an ad in the Clarion the other day. Here's what it said:

"Planted more melons than I can eat this year. Stop by and pick as many as you want. All free."

As you can guess, plenty of folks sent their kids over and plenty of the parents came too. Stripped Bert's melon patch in no time. And as they went away, Bert treated the kids to lemonade, and offered the grownups a glass of ice-cold sparkling beer.

Naturally it puzzled some folks... but Bert explains: "It gives me a kick to share things when I can afford to—whether it's the melons, or the lemonade, or beer. I guess I just like to indulge my whims."

From where I sit, if we had more "self-indulgent" people like Bert—who believe in share and share alike, live and let live, this tired world would be a whole lot better off!

Killing Heel Flies With Power Sprays

Cattle Grubs Can Be Eliminated Profitably

By W. J. DRYDEN The cattle grub and heel fly are different forms of the same insect. Starting in the spring, when it is in the fly form, the heel fly lays eggs in hairs of the animals. These eggs hatch into maggots which work their way through the hide and enter the muscle tissues.

Cysts are formed and the maggots then turn into grubs about an inch long. In the spring they work their way out of the holes in the hide and fall to the ground. Within a few weeks they turn into heel flies and the yearly cycle repeats itself.

While the use of a 1% rotenone dust has proven effective, many will find it advisable to treating cattle with a power spray. For this method either of the following solutions will be effective: 20 pounds rotenone sulphur with 100 gallons water or cube or derris, 10 pounds, sodium tauris sulphate, 3 ounces added to 100 gallons of water. There are many good commercial preparations on the market.

Try New Coccidiosis Chicken Treatments

The use of 1/4 to 1 pound of powdered sulfaguanidine per 100 pounds of feed for two to three days is being recommended as a cure for coccidiosis with turkeys and chickens by Missouri station. The larger dosage, 1 pound to 100 pounds of mash, is recommended for severe outbreaks and when death losses are exceptionally high. The smaller amount is used for less severe outbreaks in the flock.

## Eat Home Grown Tomatoes for Dinner On Thanksgiving

You can have tomatoes out of your own garden for Thanksgiving dinner. Jack Rose, Michigan State college extension-home gardening specialist, admits that it takes a little care and effort—but he's certain that fresh tomatoes along with turkey and dressing will be a treat well worth the effort. Here's how:

When light frosts threaten this month, cover your tomato plants. Then, before it appears that Jack Frost is going to come out in full strength, pick some green tomatoes. Carefully grade them—selecting only those which the dark green has taken on a white or pale cast. These must also be checked for disease or injury.

Place the choice green tomatoes in paper bags—six or eight to a sack. Hang the sacks in the basement. If the temperature remains at from 55 to 75 degrees, they will slowly ripen. Of course the nearer they are kept to the lowest temperature the slower they will ripen—the nearer the highest the faster they will turn. If you watch them carefully and move them about to expose them to the desired temperature, you can control the ripening.

The green tomatoes may be placed on a shelf in a cool dry place, but the paper sack methods usually prove most successful, Rose advises.

- Pot Roast of Beef Carrots and Green Beans Potato Pancakes Lettuce-Orange Salad Popovers Beverage Berries and Cream Recipe given.

Wash the squash and slice it crosswise into 1/4 inch pieces. Cook with one cup boiling water to which 1/2 teaspoon salt has been added. Cook for 15 minutes. Make a sauce of 2 tablespoons butter, the flour, milk or water, stirring while it thickens. Place half the cooked squash in a casserole, sprinkle with some of the onion, half of the cheese and half the sauce. Add the remaining squash and other ingredients in same order. Top with bread crumbs to which 2 tablespoons of butter have been added, and bake in a moderate (350-degree) oven for 30 minutes.

Peel raw beets thinly and slice them into a greased casserole. Cover with remaining ingredients and bake in a moderate (350-degree) oven for about 45 minutes. Use beets when you want to add brilliant color contrast to your meals. Look to the lowly potato for inspiration when you are having a pot roast on one of your lucky days.

Place grated or ground potatoes in a sieve and let drip until almost dry. Add remaining ingredients and mix well. Drop by spoonfuls into skillet which has been greased and cook over a low flame until brown on one side, then turn and brown the other side.

There are some very good ways of preparing green beans so as to make them palate teasers. You'll enjoy using these two ways: Green or Snap Beans (Serves 4 to 6) 1 pound green or wax beans 2 to 4 strips bacon, diced 1/2 teaspoon salt 1/2 teaspoon pepper 2 large outer lettuce leaves 1/2 teaspoon nutmeg

Wash and drain the beans. Cut into narrow strips. Fry bacon in heavy skillet until crisp and add green beans and seasonings. Place lettuce leaves over the top, tucking them in at the sides to keep in the steam. Cook over a low flame until beans are just barely done. Discard lettuce, add nutmeg and serve hot.

These beans may also be cooked with small new potatoes. Sugar and vinegar may be used for seasoning in place of nutmeg.

Looking for a good way to prepare wilted lettuce? Here it is: Wilted Lettuce (Serves 6) 1 large head of lettuce, chilled 1 tablespoon minced onion 3 slices bacon, diced 1/2 cup vinegar 1/4 teaspoon salt 1 hard-cooked egg, sliced

Separate head of lettuce and break into eating pieces. Place in a large salad bowl with onion. Fry bacon slowly until crisp, and transfer crisp bits to lettuce. Add vinegar and salt to bacon fat; bring to a boil. Pour over lettuce, toss lightly and serve garnished with egg.

RECOMMENDS BOOK Would you like to listen to a dynamic speaker—one who has spent five years in prison camp as a Hitler guest?—then Douglas Stewart, the Scotch born missionary is the one man that can bring a most outstanding message of actual facts, gathered in these years of hell.

Thousands have been moved to action by the stark realization of this financial race against death and pitiless want, and are now writing regularly to some needy person who looks with yearning eyes toward the wonderful friend, as if it were a Heavenly place.

Douglas Stewart challenges all Christian Americans, the task is tremendous, but with the outpouring of God's Spirit and the help of every interested person, much of the darkest counter-attack has been abated, as the discouraged people are assisted in finding their level again—the need is not alone want, but the loss of family ties, children

### Test Eyes

It's easy to demonstrate that you can see better with two eyes than with one. Make a mark on a piece of white paper. With both eyes open, it is not difficult to jab a pencil right on the mark. But close one eye and you will find it hard to guide the pencil to the mark, says the Better Vision Institute.

Two eyes give you what is known as binocular vision. This provides a third dimension to our seeing, helps us to judge distances and the size of objects.

Machinery is the cause of 30 per cent of all fatal farm work accidents.

Keep Box Makers Busy The food industries last year used almost 100 million pounds of paper-board in making folding paper boxes for packaging various products. This represents close to 50 per cent of the total production of folding paper boxes in the United States.

**Scouts Planning for Round-up During Next Few Months**

In order to do their part through strong scouting, to help make a strong America in peace years, Scout troops all over America are planning on participation in a Nationwide Scout Round-up during the next two months.

Each troop committee is planning a round-up of its leaders and committee men to plan the fall program and to fill leadership vacancies that they have in their troop. At the same time they will decide on certain high-lights of the fall program so that scouting will be as rich and attractive as it possibly can, that every available boy will want a part in it.

Each troop is making a list of anywhere from four to ten prospects, new boys who they're going to invite to join their troop. They expect to have these new members enrolled and newly installed as members of their patrols before the first of December.

A public round-up ceremonial will be held early in December with special recognition for new members recruited during the round-up. The date of the round-up for local troops has not yet been set.

Walter MacPeak, Scout Executive of the Washtenaw-Livingston Council, speaking of this round-up plan which is being carried on over the United States, indicated that he believes that as a result of this enthusiasm on the part of each local troop that more boys will be enrolled in Scouting at the end of this year than in any previous time in history.

**VETERANS NEWS**

From the OFFICE OF VETERANS' AFFAIRS LANSING

Amended Law Provides Survivors Benefits

The Social Security Act was amended on August 10 to provide survivors' benefits for dependents of certain World War II veterans who have died or will die within a limited period after discharge.

To qualify for benefits under the new law, the survivors of a deceased veteran must show that the veteran was in active military or naval service on or after September 16, 1940, and before the official end of the war. The veteran must have had at least 90 days of service. If his service was less than 90 days, it must have been terminated by reason of a service-connected disability or injury.

The law applies to veterans who die or have died within three years after their discharge and who were discharged within four years and one day after the termination of the war as determined by presidential proclamation or declaration of congress. The veteran must have been discharged from the service under conditions other than dishonorable.

The law does not apply to veterans who died while in service. It does not apply to veterans who were dishonorably discharged from the service. It does not apply to those who died more than three years after discharge, if survivors are receiving compensation or pension (compensation or pension does not include government life insurance) from the Veterans Administration, they are not eligible for benefits provided under this amendment to the social security act.

The law confers upon the eligible veteran a fully insured status and guarantees his credit a minimum average monthly wage of \$120. An increment year is also provided for each year or 30 days or more of service. The benefits are computed from the average monthly wage, and each increment year increases the basic benefit amount by 5 percent.

If the qualified veteran leaves a widow with young children in her care, she will be eligible to receive a monthly benefit. Each child under 18 will be eligible for a monthly benefit. The amount of the widow's benefit. As each child reaches the age of 18, his benefit will terminate. When all children have reached their 18th birthday anniversary, the widow's benefit will be suspended if she is under 65 years of age. When the widow reaches the age of 65, however, she will be eligible to file again for benefits, which will continue for the rest of her life. The widow, however, will lose all rights to benefits at any time if she remarries.

If the veteran leaves neither widow nor child under 18, his parents may be eligible for benefits if they are 65 years old or more and were dependent upon him for support at the time of his death.

After January 1, 1947, such parents may receive benefits even though the veteran is survived by a widow or child under 18, if the widow or child can never become eligible for benefits.

Mutual File Claim.

If the veteran leaves no survivors immediately eligible for monthly benefits, a lump sum may be payable to a certain specified relative or another relative or person who paid burial expenses.

In case of veterans who died before enactment of the legislation, monthly benefits may be payable from the date of the veteran's death. Claim for such benefits must be filed at the nearest social security field office within six months after August 10, 1946, the date the law was enacted. Payment of benefits is not automatic. Claims must be filed for all benefits. Lump sum death claims must be filed within two years of death, or if the veteran died before enactment of the law, within six months of enactment, or two years after death, whichever is later.

If a person dies in active military or naval service, compensation is generally payable to his survivors under Veterans Administration laws. But if after discharge he should have died without having a compensable service-connected disability, his survivors might have been without protection before the passage of the amendment. Many servicemen lost old-age and survivors insurance, status, or their potential benefits were reduced, because military service was not considered covered employment under the Social Security Act. The purpose of the amendment to the act was to close this breach in survivors' protection, until such time as the veteran might be expected to have been able to acquire or re-establish protection under the old-age and survivors insurance program.

If benefits under the old-age and survivors insurance program already were payable and computation under the veterans' amendment would increase the amount, the additional amount will be payable to survivors who filed claims within six months after passage of the amendment. Claims for increases in lump-sum payments already made will be filed within six months of passage of the amendment or within two years of the veteran's death, whichever is later.

**ST. PAUL'S MISSION CLUB**  
St. Paul's Mission club met Thursday afternoon at the home of Mrs. John Oesterle for the postponed September meeting. Mrs. Louis Eppier opened the meeting with a devotional reading from the "Prayer Calendar" and offered prayer, and the program included an article called "An Acre of Turnips for China," taken from the "New Century Leader," and another called "Count Your Blessings," both presented by Mrs. Oesterle.

**LIBRARY NEWS**  
**SCUDDA-HOO, SCUDDA-HAY**  
By George Chamberlain  
There was one book called "Black Beauty," another called "Call of the Wild," and a third, "Bambi." Now comes Scudda-hoo, Scudda-hay and outdoes them all with a pair of mules, Crowder and Moonbeam—and it is truer mule psychology than has ever been written. This book stands for Faith and Hope as well as Goo and Haw.

Mrs. Alvin Vail read from the "Messenger," a very interesting open letter from Paul and Betty Streich, young Evangelical and Reformed missionaries who are just beginning their work at a new missionary project among the Andean Indians, called "Hacienda Fiscalque," just north of Quito, Ecuador, on the equator.  
The club voted to send five dollars as a donation for World Service, and the afternoon was spent in sewing on the articles being prepared for a Christmas box which is to be sent to missionaries in the Ozark region to be distributed as gifts among the children there.  
Lunch was served by the hostess at the close of the meeting.

"Sailor" is the black sheep of the Walton family at East Brantree, Mass. Every morning he accompanies Paul Walton Jr., 13, to school, then returns home by himself. Risky with present shortage of meat. It looks like Paul is holding a bribe in his hand to lure "Samba" on.

**Girl Scout News**  
The Girl Scouts are holding their meetings this year in the Municipal Building and would like the use of a piano if anyone has one to donate for such use. We also need a cabinet to keep our supplies in and will appreciate the donation of these.  
The committee will again have a Scout book and uniform exchange for the girls. Call Mrs. Wm. Geddes, 8741.  
We need leaders for this very worthwhile work in our community and anyone interested please call Mrs. H. T. Moore, 2-2913.
