PERSONALS

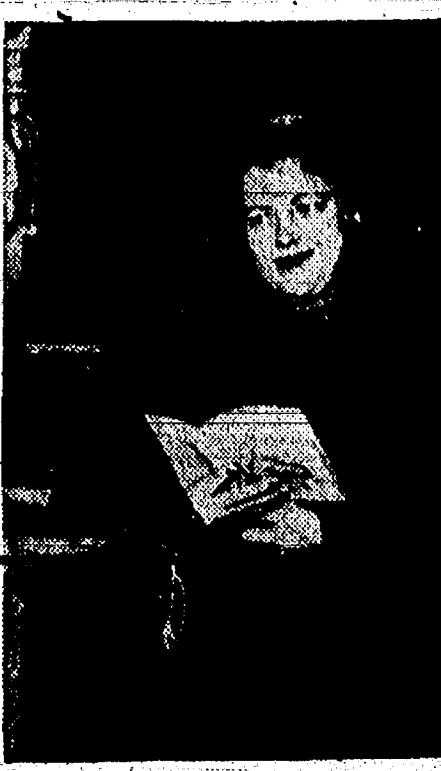

Mr. and Mrs. Donald Barden and children of South Haven spent Friday and Saturday here at the home of Mrs. Barden's mother, Mrs. Anna Storms.

Mrs. George Ligos of Alma spent the past week here with her sister, Mrs. Mike Misales. Another sister, Mrs. Gerda Venable, of Detroit, joined them for the week-end.

Mr. and Mrs. Wilbur Bollinger and daughter Diane of Dearborn, and Mr. and Mrs. Alvin Reinhardt and family were Sunday dinner guests at the home of Mr. and Mrs. Gottlieb Bollinger.

Elaine Schmidt returned Sunday afternoon to Sigma Gamma Hospital School at Mt. Clemens, after spending from Friday until Sunday at her home here. Her parents, Mr. and Mrs. Norman Schmidt, accompanied her to Mt. Clemens, returning home the same evening. Mr. and Mrs. Norman Schmidt, son Richard, and daughters, Elaine and Eleanor, attended the wedding of their niece and cousin, Betty Earl, who became the bride of Wilford East, at Emmanuel Lutheran church in Ypsilanti, on Saturday afternoon.

CLASSROOM ON THE AIR . . . A Denver teacher, Mrs. Ruth Evans, faces the microphone as the public school "classrooms of the air" get under way in Denver.

Shipper Must Know Onions
The shipper of a ship in the world-wide vegetable trade has to know his onions. Dry varieties are packed by the 50 or 100-pound sack or sometimes by the bushel. A bushel of early onions weighs 50 pounds; but a bushel of late green onions weighs 57 pounds. Bunched green onions are shipped by the 50 to 55-pound crate. Onion sets, by the bushel, weigh 28 to 32 pounds.

Plant Evolution
Knowledge of modern horticulture and development of plant strains led scientists to estimate 20,000 years as the time required to produce from wild grasses the various kinds of corn we grow today.

Spraying of Potatoes Will Increase Returns

Spraying of potatoes is a paying proposition, says Henry C. Moore, research specialist in potato production at Michigan State college. "We have proved in experimental and test plots that spraying with DDT improves the quality of the potatoes and steps up production from 60 to 100 bushels per acre," he stated.

The specialist says the time to start is when the plants are four to five inches high. Spraying every 7 to 10 days is recommended, and more frequently if the season is wet. DDT will control the flea beetle very well. The potato leaf hopper, which

to turn brown and curl, also is effectively exterminated with the new killer. The hopper causes severe damage after hatching time as it leaves the hay fields and migrates to the potato fields after hay is cut.

Contrary to the opinion of some, DDT can be used effectively with Bordeaux mixture or a fixed copper solution, Moore says. The Bordeaux mixture or fixed copper solution will control blight. DDT should be added last and the solution sprayed as heavy as 125 gallons to the acre. The tractor operator should drive slowly to get adequate coverage.

Too often, Moore has observed, farmers quit spraying too quickly.

Combat Photographer Hunts Congo Gorillas

Experience gained by Kenneth Elk of New York as a combat photographer in Europe will be utilized in a projected trip to the Belgian Congo where he will fulfill a long-cherished ambition to make color pictures of gorillas. Elk, who rose in the army from private to first lieutenant, won the bronze star and cluster and the Purple Heart.

He has invested \$12,500 in a big motion picture camera, a hand movie camera and two still cameras, a sedan car and a trailer, besides other necessary equipment.

He will be gone about 11 months. Going via North Africa, Elk intends to follow the Nile river as far as he can on his way to East Africa. When he gets to the Congo he will leave his car. Then, with two helpers he will climb the mountains to get pictures of gorillas. He has three pictures of the gorillas, which, he said, he never been photographed, except for brief flashes.

Elk said that the gorilla is an elusive animal and that the mountain species is the largest. Their lairs are in the jungles about 4,000 to 10,000 feet up the mountains, on the borders of British Uganda and the Congo.

Six Ranges in Area

Six principal ranges are located in the Lake Superior ore region. They are the Marquette range in Michigan, the Menominee and Gogebic ranges which lie across the Michigan-Wisconsin border, and the Vermilion, Mesabi and Cuyuna ranges in Minnesota. Possession of most of these important areas came to the U. S. through interesting circumstances. Under the Treaty of Paris in 1783 the northern boundary of the United States was fixed roughly. Inaccurate maps and a pencil in the hand of Benjamin Franklin played a part in locating the wilderness inside the United States. In 1842 the boundary was fixed definitely by the Webster-Ashburton treaty.

Develop Hong Kong

During the century of British rule, health protection, land reclamation projects, new roads and industrial and commercial development made Hong Kong one of the empire's leading outposts. By the 1930s, this former "plague spot" of the tropics had been turned into a world port, equipped with huge docks, warehouses, cranes and other facilities for handling its immense trade and traffic. Its population had grown toward the million mark. Its industries included shipbuilding, factory processing of such products as tin, sugar, rice, and manufacture of furniture, paper, glass, rope, textiles, cement.

To Educate Children

An intensified program of education, especially for children and youth, now is under way in Mexico, Guatemala, Honduras, Costa Rica and Nicaragua. Mexico and Guatemala are turning their attention to conquering illiteracy, for which purpose Mexico has evolved an effective primer for person-to-person teaching. Story books for children also are planned. Guatemala, Costa Rica, and Nicaragua are concentrating on enlarging their public circulating libraries, especially in the field of children's books, many of which are from the United States.

DDT Recommended

DDT, the new insecticide, is the perfect answer to the bedbug problem, says the department of agriculture in a statement recommending DDT for this purpose.

If DDT is applied properly as a 9 per cent spray or as a 10 per cent powder to mattresses, beds and chicken houses, these places will remain free of bedbugs for six months or more, according to the department.

Wettable DDT powder may be used in water as a spray, but leaves an unsightly residue.

Our Neighbors

MILAN—The drive for lights on the football and softball field in the Milan Park is well underway, but the quota has not yet been half way met. The committee in charge of the drive reports about \$8,000 of the quota of \$8,000 has been pledged to date. The committee had hoped to obtain \$8,000 in this first drive so that the initial cost of installing the lights could be guaranteed. From then on they felt that the field would be self-supporting in addition to other improvements.—The Milan Leader.

SALINE—Saline Hatchery's 10th anniversary was celebrated at the Saline high school auditorium Tuesday night, when over a hundred guests were seated at the banquet tables and were royally entertained. A chicken dinner was served Frankenthum style, as the Songbusters of Station WPAG, Ann Arbor, entertained with a repetition of their regular morning broadcast.—The Saline Observer.

BUCHANAN—The monthly executive meeting of the Buchanan Council of Churches was conducted Monday evening in the First Presbyterian church, when plans were made for the observance of Race Relations Sunday, Feb. 9. It was decided to observe the day in a general way with an exchange of pulpits and choirs.—The Berrien County Record.

NORTHVILLE—Two hundred and sixty-three birth certificates were registered in the Village Hall for the year 1946. Sixty-four of these babies were born to Northville residents, the others being born to citizens of surrounding towns. There were thirty-four boys born to local parents and thirty girls. This number does not include babies born outside Northville to persons living in town. One hundred death certificates were also registered for the year 1946.—The Northville Record.

BRIGHTON—State Police of the Brighton Post and detectives from the State Police Detective Bureau at East Lansing are searching today for thieves who ransacked the home of Joseph M. Clark, 2201 north US-23, retired Detroit business man, while the family was at church in Dearborn and left with

ticed when he was showing it, that it was covered with what appeared to him to be water blisters, so he immediately kicked it back into the lake, and was telling the natives up there what a large fish he had caught, and the condition it was in and was advised by the natives up there, that it was not water blisters but sweat on the fish—the big ones always sweat when they are hooked.—The Stockbridge Brief-Sun.

GRASS LAKE—Anthony Stebbles Post 252 of Grass Lake was awarded the Merit of Honor of the 2nd District for the greatest percentage of new members turned in by November 11, 1946, at the 2nd American Legion District Convention held in Dearborn, Michigan, January 26. The 2nd District was also awarded the Ray Kelly trophy in winning over the other districts on the membership drive in the state.—The Grass Lake News.

PIN CHATTER

January 28, 1947
According to the record there was only one split picked up this week. That was the 7-8 by Stevens. Tucci rolled a nice series, 517, which included a 218 game, beating her former high of 212. Fitzsimmons made the 400 club again with 485, not far behind were Lucht and D. Eisenman with 478 each.

At the end of 10 weeks bowling the Bowler team paid in the highest amount of money for splits and averages, while the team paying in the least was Chelsea Spring. Norma Eisenmann paid in 71 cents for splits, that being the most for an individual. G. Alpervitz paid the least, which was 22 cents. Nancy Weese paid 45 cents for "be-

low average." Reva Rogers has kept her average all the way and has never had to pay in a nickel. Nice going, Reva, keep up the good work.

Also, at the end of 10 weeks, we have the following high scores: High 8 games without handicap, Dixie Gas, 2205; high 3 games with handicap, C.I.O., 2128; high single game without handicap, Dixie Gas, 787; high single game with handicap, Cubs, 795; high individual series, Tucci, 593 and high individual single game, Tucci, 212.

DEATHS

Miss Alice C. Howe
Miss Alice C. Howe, who, on Christmas Day, celebrated her 100th birthday at the Methodist Home, where she has been a resident since May 23, 1943, died there Tuesday afternoon, January 28.

She was a daughter of Seymour and Phoebe Ann Boutell Howe and was born December 28, 1846, in Pembroke, N. Y. She came to Howell with her parents when she was a child and was educated in the Howell schools, teaching in that area for fifty years before retiring.

She was a member of the Methodist church in Howell.
Miss Howe is survived by a sister, Mrs. Ida Abrams, of St. Petersburg, Fla.; a brother, George F. Howe, of Howell; and a number of nieces and nephews.

Funeral services were held at the Home on Friday morning at 10:30 o'clock, with Rev. L. I. Lord officiating, and burial took place in the Howell cemetery.

Wallace W. Patterson
Wallace W. Patterson died Tuesday, January 28 at his home on Fraser road, where he had resided for the past 40 years.
Mr. Patterson, who was 74 years old, was born in Fenton on September 5, 1872, a son of George and Sarah Vasburg Patterson. He was married in 1893 to Hattie Steadman, who died a number of years ago.
A son, Emery, of Toledo, two grandchildren and one great-grandchild survive.

Burial was in Oak Grove cemetery following funeral services at the St. Stefan funeral home, with Rev. Everett R. Major officiating, at 2 o'clock Friday afternoon.

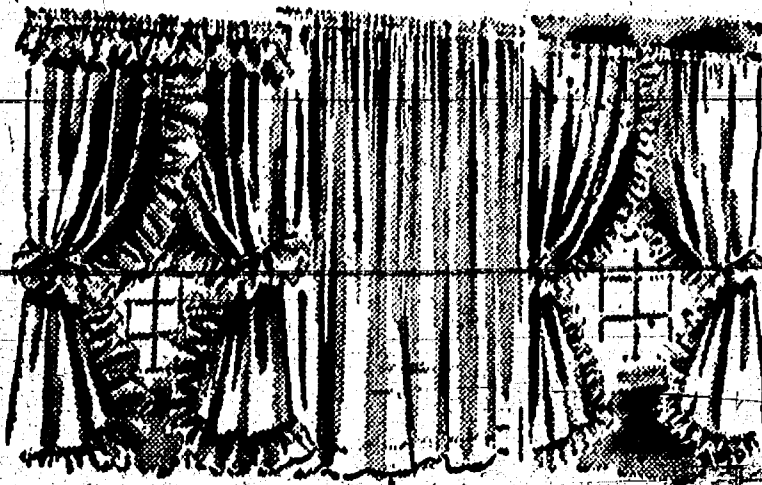

Boy Scouts of America
Celebrate Birthday
Boy Scouts of America, 1,980,000 strong, will observe the 37th anniversary of their founding during Boy Scout Week, February 7 to February 13.

Scouts of the observance is "Scouts of the World-Building for Tomorrow." Through the World Friendship fund of voluntary gifts established two years ago, Boy Scouts of America have given \$110,464.38 to help Boy Scouts overseas rebuild their organizations.

The week will be observed by Cub Scout packs, Boy Scout troops and Senior Scout units, including Sea Scouts, Air Scouts and Explorer Scout units. Features of the week will be father-and-son suppers, religious services, demonstrations in schools and other special events in each locality.

A REPORT ON

PROGRESS IN CHELSEA

There are still a number of people waiting for telephones in this area. Before we can serve everybody, we'll need more outside wire and cable to connect new customers' premises with the central office. But shortages of lead and copper have seriously slowed their manufacture.

Even after we receive the new wire and cable, there will be the painstaking job of interconnecting it with the present telephone plant... a job that must be done carefully without interrupting existing service.

We are continuing to stretch our

present equipment to the limit to install telephones for as many waiting applicants as we can. If you are waiting for a telephone, you can be sure your order will be filled in its proper turn just as soon as possible.

Meanwhile, our facilities are serving more telephones and handling more calls than ever before, which means that service for everyone may not always be as good as we want it to be. We're sorry when that condition occurs, but you can be sure that we are doing our best to get additional equipment as soon as possible.

Note the reach of the bonnet — long, deep, broad-chested — there's a lifetime of thrills in such bountiful supply of Buick Fireball straight-eight power.

Spot the solid footing of a carriage big as you deserve — the breadth of beam that

spells room aplenty — the ready-to-go poise of four coil-sprung wheels ready to level the roughest roads into boulevard smoothness.

And in particular, mark down this:

Not one smart model but nine will present this fresh front to the world this season.

Cars in three series, three wheelbases and three price ranges give you a triple-barreled chance to know Buick size, Buick beauty, Buick ability when you travel.

Choose from two versions of the garage-handly SPECIAL — four of the light-footed SUPER — three of the great-hearted ROADMASTER series.

In each you'll find a rich abundance of the things that make Buick America's most wanted automobile — engines that seem to stay forever young, the matchless buoyancy of Buick Coil springing, the spaciousness of great room, the feathery handling of controls that are always "obediently yours."

Naturally — demand is going to be great; a sweetheart like this is bound to bring the suitors flocking.

So how about coming in — right away — and getting your order on our books?

Clean Milk Comes
From Modern Barns
Well Constructed and
Clean Mangers Urged

Concrete dairy barn floors and mangers will prove a big help in producing milk of high quality as well as reducing the amount of labor required. The U. S. public health service milk code provides that no dairy barn meets the requirements for producing high grade milk without a long-lasting, non-absorbent, sanitary floor such as concrete.

Floors are made of one-inch lumber, well braced. Concrete for the floor is made with five gallons of water per sack of portland cement when sand and gravel are moist. The mix should be plastic and workable, but not too sloppy nor too stiff.

Barn floors and mangers properly designed and built help assure clean, comfortable, healthy stock—high quality milk.

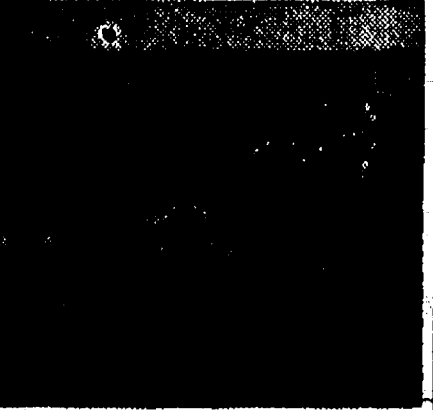

Build the manger curb first; then the litter alley and the manger. Leave holes in concrete for future stall equipment if not now available. Then build stall platforms. These will vary according to the kind of cattle. The mangers should be finished smooth with a steel trowel. The concrete should be damp cured for at least five days before using.

Know Your Breed
Guernsey
By W. J. DRYDEN

Village Wood Valiant Hero 235890, a grand champion Guernsey bull of registered performance.

The Guernsey breed originated on the small English island of Guernsey. The breed was brought to America as early as 1818.

The Guernsey is of medium size with fawn and white clearly delineated markings. Summary of 1937 advanced registered records show the average production was 10,151 pounds of milk and 498 pounds butterfat. Some 59 animals produced over 1,000 pounds butterfat and 14 have lifetime records of over 100,000 pounds of milk.

Feeding Molasses to
Salt Grass for Cows

Good stuff, the salt grass, Herford says after they've sampled it. Photo—Food Mach. Corp.

Salt grass which cattle ordinarily will not eat may be covered with a solution of one-third water and two-thirds molasses. Power spray may be used economically with a 20-foot width.

Cattle fatten on the molasses and water combined with the grass, produce bigger and tastier steaks. Other similar uses may be devised for use of power sprays to meet individual requirements.

Weed Killer Shortens
Farm Crop Maturity

Experiments in Hawaii and Puerto Rico with 2,4-D-miscible weed killer, indicate that it may control the growth of pineapples two years instead of three. It is generally believed that further experiments will prove that 2,4-D will shorten the time of maturity for many crops in America. Earlier maturing tomatoes, melons, corn, yams, potatoes and other farm crops are among those being experimented with.

Lem's Dogs vs
Thad's Chickens

Running a newspaper, you get to know a lot about human nature.

Thad Phipps was in the other day, all burned up. Wanted me to run an item on how Lem Martin's dog had raided his chickens again, and ought to be put away by law.

I told him: "Lem was in on Saturday. Said you shouldn't be allowed to keep those chickens so close to his house—and in a residential zone, at that."

Thad shuts up right pronto then. And that very evening I see him making his peace with Lem

at Andy Botkin's Garden Tavern—over a friendly glass of beer.

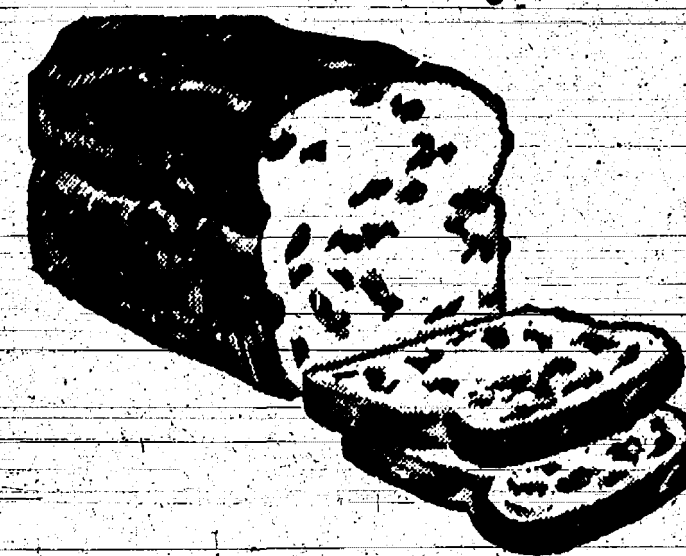

From where I sit, anyone can find something in his neighbor to complain about. (Some folks may even disagree with Thad's right to enjoy that glass of beer with Lem!)

But where would we be if everybody tried to have a law passed against everything they disagreed with? We wouldn't have many neighbors left!

Will Hold Sheep Shearing School At MSC This Month

Sheep shearing is mighty important both to the sheep and to the man who does the job.

Graydon Blank, extension specialist in animal husbandry at Michigan State college, announces that both professional and beginning sheep shearers may receive training at a sheep shearing school to be held at MSC in February. The beginning session is scheduled for February 17 and 18, and professionals will receive additional training on February 19 and 20.

Training will be offered in the identification of wool grades, grinding of knives, adjustment and repair of equipment and the control of sheep parasites. Demonstrations by E. S. Bartlett of the Sunbeam corporation and Paul Finnegan, manager of the Michigan Cooperative Wool Growers' association, will show the proper manner of handling sheep and power clippers. Removing fleeces in good condition and in the shortest possible time will be stressed.

Beginners should report to the college livestock pavilion before 10 a.m. Monday, February 17. Shearers with some experience are invited to report at the same time on Wednesday, February 19. Sleeping coats will be provided for those who desire to stay overnight.

P.N.G. CLUB MEETS

The Past Noble Grand Club met at the home of Mable Goodell on Thursday afternoon, with ten members present. The hostess served a very delicious dessert luncheon. The new Past Noble Grand, Alice Gilson, was initiated into the club. The afternoon was spent playing a very interesting game of "The Sheep" with the prize. The next meeting will be held at the home of Alice Krumm on February 6, in the evening.

Pasture Improved By Proper System

Fertilizer Addition Produces Good Stand

A pasture improvement system that has enabled farmers following it to increase their grass production 15 per cent through applications of nitrogen in the fall and 80 per cent through spring treatments, was recommended by Prof. D. R. Dodd, extension agronomist of Ohio State university. Professor Dodd measured the results in numerous tests on Ohio farms of nitrogen applications in the fall of 1944 and the spring of 1945 and his findings were based on these tests.

The nitrogen fertilizer was applied on pastures in the form of ammonium nitrate at an average rate of 123 pounds per acre in the fall and 115 pounds in the spring.

Professor Dodd reported that the effect of the plant food on the growth of the grass was more pronounced in fields where legumes made up less than 50 per cent of the stand of grass. But even with a high per cent of clover the increase was 58 per cent. In the various tests studied, 37 farmers who applied an average of 133 pounds of ammonium nitrate on meadows got an average increase of 1,700 pounds of hay per acre.

The fall applications made a difference of 1,500 pounds of hay per acre, and spring applications increased yields on an average of 1,700 pounds of hay per acre.

While the average date of fall application of Ohio was October 22, and the nitrogen was placed on the fields in spring as early as possible, Mr. Dodd said the season of applications is not as important as is the farmer's decision to apply the nitrogen one time or another, because profitable dividend is assured from either application.

HONORED ON BIRTHDAY

Mr. and Mrs. Wm. Beach, Mr. and Mrs. Reuben Lindemann and Alton Lesser entertained at the Lindemann home on Sunday in honor of their father, Gerhart Lesser, on his 70th birthday. A delicious dinner was served to the following guests: Mr. and Mrs. Gerhart Lesser, Mrs. Bertha Lesser, Mrs. Isabella Baumgarten, Mrs. John Lesser, Mr. and Mrs. Lessner and daughter, Arlene, Mrs. Alfred Gross, Mr. and Mrs. Claire Gregory, Mr. and Mrs. Edgar Gross, Mr. and Mrs. Alvin Lesser, Neil Beach, Dale and Joan Lindemann, all of Dexter, and Mr. and Mrs. Emerson Lesser and Mr. and Mrs. Reuben Lesser and Reuben, Jr., of Chelsea. A pleasant afternoon of visiting was enjoyed and the honor guest received a number of very nice gifts.

ENTERTAIN ON SATURDAY

Mr. and Mrs. Paul Klager of Ann Arbor entertained about thirty-five relatives and friends at the home of Mrs. Klager's parents, Mr. and Mrs. George Satterthwaite, Saturday evening. Out-of-town guests were Mrs. Celia Jones, Mrs. Harold Boland, Mrs. A. J. Boland and Mr. and Mrs. Lyle Boland, all of Jackson, and Mrs. Cecil Parks of Traverse City.

PLAN TRACTOR COURSE

The 4-H club leaders in this area are planning a 12-weeks course in tractor maintenance, with Clayton Ernst of Clinton, as instructor. The first meeting will be held in the high school Agriculture room on Monday, February 10, at 8:00 o'clock. The last ten meetings will be held at the Chelsea Implement Co., on the Chelsea-Manchester road.

A Run in Hosiery

By JERRY M. DARRELL
McClure Syndicate - WNU Features.

BID EVANS frowned as he watched the mob in front of the counter. He had had no idea that it would be like this when he told his sister he would buy a pair of stockings for her. Well-dressed women shoved and pushed worse than a bunch of soldiers just back from the front fought for places in the line at mail call.

Suddenly, he noticed her. Very pretty, probably not more than 23. She was dressed in that slick manish style he liked because it always made a pretty woman look twice as feminine as ratty things did. "She's a girl out of a moving picture," he told himself, "a technician at that."

He took in her gray suit, shoes and gloves, her yellow hat, smart and huge purse. All were set off by her gleaming, copper-colored hair. Sympathetically he noticed that she wore a little pin - two stars on a field of white - two of the stars were blue, the other gold. Attached to the pin were three guards - an airplane, a gun and an anchor.

Interested, he watched her maneuver to get through the crowd. She stopped elbowing and gave up. Then she considered a moment, went around the end of the mob, picked up a couple of pairs of stockings, walked to the nearby door, compared them, then rolled them up and slipped them into her roomy purse. Next she strolled to the lingerie counter.

Bid whistled softly. "A shoplifter, and cool as a cucumber. Anyone seeing her would think she had a

LYNN CHAMBERS' MENUS

Church Supper.
*Ham Loaf
with Horseradish Sauce
*Scalloped Potatoes
Green Peas
*Sunshine Salad
Bread or Rolls
Coffee and Milk
*Berry Cobbler
*Recipes given.

Usually done. Drain off most of fat. Fry onions and bacon together until golden brown, stirring frequently. Add tomatoes, salt and pepper. Place wieners on top and simmer for 45 minutes. Place a wiener and a spoonful of the sauce on each hot buttered bun and serve, allowing two for each person.

*Scalloped Potatoes.

(Serves 50)

12 1/2 pounds potatoes
2 tablespoons salt
1 teaspoon pepper
1 cup flour
1 1/2 cups butter or substitute
2 quarts milk

Wash, pare and cut potatoes in thin slices. Place a layer of potatoes in greased baking pan, sprinkle with salt, pepper, flour and dot with butter. Repeat until pans are almost full. Pour over enough hot milk to cover top and bake in a moderately slow (325-degree) oven until potatoes are tender. The time will depend upon the size and quantity in pans - about 1 1/2 to 2 hours.

If you want to prepare green beans, you will need six quarts to serve 50 people. Boil the beans, wash and cut in sections. Season with 1 cup bacon drippings, 4 1/2 tablespoons salt and 4 tablespoons paprika. If you want to serve green peas you will need 16 pounds or 1 gallon of shelled peas.

*Sunshine Salad.

(Serves 50)

5 packages lemon flavored gelatin
7 cups grated carrots
5 pounds grapefruit, cut in sections

Make gelatin according to directions. When mixture begins to thicken, add carrots and grapefruit and allow to chill until firm. Serve in squares on lettuce with mayonnaise dressing.

*Cabbage and Carrot Salad.

(Serves 50)

4 1/2 quarts finely shredded cabbage
2 pounds carrots, grated, raw
1 quart diced celery
1 quart bottled salad dressing

Blend all ingredients together with salad dressing. Since the berry season will be in full swing shortly, you might like to serve a berry-in-season cobbler with fresh cream.

*Pastry for the party will probably

be furnished by individual members. If this is not possible, make a delectable fruit cobbler and serve with cream or ice cream.

*Fruit or Berry Cobbler.

(Serves 50)

5 quarts fruit or berries
Sugar to sweeten
1/4 cup cornstarch
Biscuit dough

Heat canned fruit or berries and water or fresh fruit and water to a boiling point (1 1/2 quarts water to 2 1/2 cups fruit or berries). Sweeten to taste. Dissolve cornstarch in small amount of cold water and add to fruit or berry mixture. Cook, stirring constantly until thickened. Pour into shallow baking dish and drop biscuit dough on top. Bake in a moderately hot (425-degree) oven for 30 minutes.

Coffee.

(Makes 100 cups)

3 pounds coffee
6 1/2 gallons water

The coffee in thick cheesecloth bag, leaving plenty of room for coffee to swell. The coffee may also be mixed with a small amount of egg and cold water, if clear coffee is desired. Drop bags in boiling water and boil 3 minutes. Remove bags and keep coffee hot.

For this amount of coffee you will need 1 1/2 quarts of cream (for 2 tablespoons to each cup) and 2 pounds sugar (counting 2 teaspoons per cup).

Supper Plans Given As Aid in Planning To Serve Fifty

Social calendars get very active during the summer months because vacations and weathers offer such a grand opportunity for getting together a big party. Perhaps the Sunday school picnic is just around the corner, or perhaps the ladies aid is planning a big treat for their husbands soon.

Whatever the occasion, you'll surely want to put forth your very best cookery and serve everyone amply. This will call for some careful planning, and also, large quantities of recipes.

If the church has a kitchen fitted with large quantity cooking utensils, plan to make generous use of it. Meats and vegetables can be prepared there. Some members may wish to contribute enough individual salads and perhaps cakes and pies to make-up for the rest of the meal.

Good planning which takes into consideration every angle will make the affair a successful one. Recruit plenty of help so that no two or three women are tied to the kitchen range all the time. Everyone will have a better time, if all have some leisure.

*Ham Loaf

(Serves 50)

5 pounds lean pork, ground
5 pounds smoked ham, ground
3 1/2 quarts bread or cracker crumbs
1 1/2 teaspoons pepper
1 1/2 teaspoons salt
3 eggs
3 1/2 pints milk

Mix together all ingredients. Mold into loaves and bake 1 to 2 hours in a moderate (350-degree) oven depending on size of loaves. This makes 5 small loaves, small bread pan size, or about three large.

*Horseradish Sauce.

(Serves 50)

1 1/2 cups sour cream
1/4 cup bottled salad dressing
1/4 cup horseradish
Blend ingredients thoroughly and serve with ham loaf.

An alternate dish to serve, if ham or pork is difficult to obtain would be frankfurters prepared in a mildly spiced sauce:

*Creole Wieners.

(Serves 50)

5 pounds bacon
30 cups finely chopped onions
(7 1/2 quarts)
10 No. 2 cans tomatoes
1 1/2 teaspoons salt
1 1/2 teaspoons pepper
10 to 100 beans
Cut bacon into 1/4 inch squares and broil over low heat until par-

cooked. Add onions and tomatoes and cook 10 minutes. Add salt and pepper and beans. Serve with ham loaf.

Lynn Says:

Let's serve eggs: There's variety and appetite appeal in eggs if you'll serve them in the following ways:

Use these fillings for omelets: creamed tuna fish or seafood; minced cooked ham, cooked pork sausage or deviled ham; sautéed mushrooms, creamed peas, asparagus or other vegetables; grated cheese, creamed chicken and mushrooms, jelly, jam or marmalade; fried onions; or broiled bacon.

When you poach eggs, serve them in corned beef hash nests, spinach nests, potato nests or French toast made of stale bread. Scramble eggs with bits of sliced American cheese, fried bacon, shredded ham, or fold in some leftover vegetables.

Bake eggs with bacon, sausage or some of the cold meat cuts and serve as a main dish for supper with salad and dessert.

Fry eggs slowly and serve with quickly broiled cold cuts or waffles, pancakes or toast.

right to them. Little fool, wonder how long she thinks she can get away with it."

He followed her. When a saleslady approached, the girl smiled, shook her head no and sauntered on.

"Steady as a veteran. She's no rookie at the game. But, darn it, she's too nice for that type of thing." Impulsively he hurried after her and took her arm. "Where can we—and talk her into the store."

"What she looked up at him with large gray eyes—"on the mainline. There's a lounge for shoppers there. We can go up these stairs."

"O. K., sister. But don't think you're going to give me the slip. I'm on to you and you're not getting away. You see, I saw you lift those stockings."

"Oh, that's what's on your mind." "You're a cool one." He seated himself. "Suppose you think that because you're pretty you can get away with murder."

"No." She studied him levelly. "But tell me who you are and by what right you censor what I do."

"Think I'm a crook too? Well, I'm not. I'm a discharged soldier who was a detective before he went into the army. In the old days I'd have turned you in without a qualm."

"And why don't you now?"

"Because of that pin you're wearing, sister. A girl with a pin like that, if she has a right to it, belongs to a mighty fine bunch."

"I have a right to it." Her eyes clouded and her finger touched the pin gently. "The sailor is in the Pacific, the fireman in Germany—the flyer didn't return from a mission in Italy."

"Good guys, I bet."

"The best brothers a girl ever had." She smiled wistfully. "Evidently not the kind to approve of what you're doing. Men aren't fighting for women who go around taking what doesn't belong to them. They don't know what you're up to."

"They sure do know," she flinned impudently, "and approve."

"What do you mean—approve?" he demanded belligerently.

"Always the dick." She viewed him loftily. "I simply helped myself to the stockings because they were having a run in hosiery and were too busy to wait on me. You see, Mr. Dick, I was filling a telephone order. I happen to be in charge of the shopping service here." She rose. "However, you appear to be a nice person, so when you're in the store again drop in to see me. That's my office over there."

He watched her disappear into a glass encased cubby on the door of which was printed, "Ruth Edgemont, Shopping Service."

OFFICE NEWS

Mrs. Paul Maroney has been employed as a teacher in one of the first grade sections, replacing Mrs. Carter who has left for Tennessee to be with her husband, who is employed at the University of Tennessee.

Our basketball teams play at Lincoln Consolidated tomorrow night and at Manchester, Feb. 11. There will be a Masonic dance in the gym tomorrow night.

BUBBLE TROUBLES

Gum, that chewy substance, which most of the characters around this institution use to exercise their jaws, is turning up in the most unexpected places. It isn't chewing gum itself that bothers, it's the inconvenience resulting from where you put it when you finish chewing it. If you must chew it, it seems as if you could put it in the waste paper basket when you are through with it. Please show a little school spirit, a little pride in the appearance of our building, and keep your bubble gum to yourself!

PEP MEETING

Last Friday afternoon the juniors gave a wonderful pep meeting that started off with a tune, Dorsey Boogie, by Tommy "Baldy" Dorsey and his famous band. Then those luscious looking "Four Chicks" sang their version of "O Butter-milk Skies," entitled "O Chelsea

Bulldogs." They were accompanied by that famous pianist, Miss Shirley Kolb. Those beautiful Chelsea cheerleaders then led a cheer; our coach, Mr. Cameron, then gave a short talk on the game that was to be held that evening. Charles Popp also gave a prediction on the same topic.

Those who have attended any of the home games have seen these three boys who seem to have taken over one of the cheers. Those very same boys, in costume, did a cheer at the pep meeting. A few seconds later the pupils had the privilege of hearing Frank "Hansen" Sinatri sing one of his favorite songs, "Frankie" usually carries the girls away; this time he was carried away by the girls. Bragdon Barlow then spoke about the game, as did Jack Wellnitz, who spoke by popular demand, representing the second team. The school song was played by Marceline Hinderer and sung by the student body and the faculty.

BIOGRAPHIES

Our first interviewee this week is Loren Munro, known to his many friends as "Whitney." He was born in Chelsea, Michigan on May 28, 1929. During his 17 years of life he has grown to be a five-foot-eleven-inches big boy. He has dark blonde hair and blue eyes. Being a first team player he would be expected to claim basketball as his favorite sport. After eating any kind of dessert you would probably see him walking along the street singing "Managua, Nicaragua." Whitney has one great goal that he

Keep Them Up!

is aiming for and that is to be a success.

On September 29, 1929, Knoxville, Tennessee had a great addition. This addition was named Nancy Louise. Nancy has grown to be five feet six inches tall. She has long auburn hair and green or cat eyes. While we were talking to her she told us that her favorite colors are red, blue, and brown. Being a cheerleader her favorite sports are basketball and football. She'll go any day to see "Holiday in Mexico" with the hopes that maybe the preview will feature her favorite song, "The Girl That I Marry." Her favorite foods are anything but oysters. Her plans after graduation are to enter the University of Tennessee and study design and interior decorating.

PARTIES

The dance after the Dundee-Chelsea basketball game was enjoyed by everyone, though the crowd was small. Mr. Vic and his orchestra did a good job providing the music.

The Junior-High party, held last Saturday at the Municipal Building, was enjoyed by a large group. There was group singing, refreshments were served, and everyone danced. Chaperons were Mr. and Mrs. Elton Muebach and Mr. and Mrs. Norman Eisemann.

We hope to have a speaker from Michigan State College come to speak at an assembly.

ATHLETIC BOARD

The Athletic Board discussed a proposition from the Kiwanis Club that the remaining cost of the transformers at the athletic field be split between the School Board, the Kiwanis Club and the Athletic Board.

After considerable discussion, the Athletic Board decided to table the matter pending investigation.

THE BOX

We saw a poor young crippled girl go limping sadly by. Her feet were useless, legs were sore, and tears were in her eyes. She shook each box. In none was there a sound; And then upon the cold, cold ground She fell to weep aloud.

The crowd gathered quick and fast To see the tiny suffering lass. Then in the crowd someone did ask, "What is this small child's task?" As in reply said the little lass, "Just give your dimes and quarters To the Infantile Paralysis Fund, So I can be like others."

Gift Horse

By ETHEL MANTER

McClure Syndicate—WNU Features.

ROBERT IVERS stood in amazement before a chestnut mare which had just been backed out of a trailer at the county fair grounds.

"I can't for the life of me understand why Alex Dorney would me this beautiful Arabian," he said to Anderson, a cowboy who had gone to the Dorney Farms for her. "I've known him for twenty years, and the proud old skinkflint has never given away a horse of any kind. This animal appears to be in perfect condition—look at her fine head and good forelegs."

"You're lucky to have her for the fair," Mr. Ivers, because I had a tough time getting her off the farm. The widow is at some resort, and it seems as if there was something against she wanted to tell you before you took Namila away. I told the stable hand that it would wait."

The cowboy passed to run an appraising eye over the animal. "Dorney knew I'd have bought a young mare like this from him," Ivers spoke as it to himself. "I can't believe that he loved me enough to give her to me outright when the rest of his horses went for such fancy prices."

Anderson grinned affectionately at his boss and remarked with an air of profound wisdom, "Horsemen do crazy things. Mr. Ivers, maybe he just couldn't stand the thought of selling her. Old Dorney was mighty fond of her. He never allowed anyone else to ride or groom her. The fellow at the farm told me she was a beautiful jumper too when Dorney rode her—though once he tried her out when the boss was gone, but she wouldn't take a fence and was mighty hard to handle."

"Well, I have to go into town. I'll come back later tonight and see how she's getting along. Anderson, better get your car and trailer out of the way; quite a few of the horses are being brought in for the show. And remember, tell me how I got Namila. There's nothing like a good secret!"

The new owner thrust out a hand and patted the mare's neck. Namila flicked slightly, then turned and rubbed her velvet nose against his arm in an unexpected gesture of friendliness.

Toward ten o'clock Ivers drove out to the fair grounds. As he approached, a fire siren screamed and he pulled aside to let the big red car tear past. Now thick smoke was visible in the vicinity of the stables.

He hurriedly parked his car and ran with all possible speed toward the section where Namila would be located. Someone had opened the individual box stall doors to permit the horses to escape. The animals were coming out only to plunge back in terror at the sight of flames spreading in all directions. Ivers made his way through the smoke and found Namila standing outside of her stall, nervously turning her head from side to side.

Where was he to find a rope or halter? Quickly he tore off his belt and was about to slip it around her neck when a dozen test-crazed horses, reared by, separating them. Handicapped by the dust and darkness, Ivers lost sight of the mare. Then a flame shot up, and he caught a glimpse of her for just a moment, humped and frightened, making no attempt to go anywhere, but buffeted about by the terrified beasts.

Suddenly he found himself crying out with all his might, "Namila! Namila!" He kept repeating her name, not knowing what else to do. The sound of his own voice steadied him.

Then from out of the dreadful din came the gentle mare, ears pointed straight forward, head high, walking rapidly and surely toward him. Ivers was careful as he stepped to meet her. He must get hold of her this time. It might be his only chance. Quickly he slipped the belt about her neck and guided her beyond the wild confusion.

"What a sensible little lady," he spoke softly to her as he tied his handkerchief about a bad cut in her leg.

The fire was extinguished and the horses collected. Fortunately few lost their lives, though many were severely burned. Ivers devoted himself to tending for the injured. It was well after one o'clock in the morning when he returned to his hotel.

"There's a long distance phone call for you, Mr. Ivers," the clerk informed him. "You can take it here in the office."

"This is Mrs. Dorney," came an excited voice. "I heard about the fire on the radio. How is Namila?"

"She's fine, but how did you know she was here?"

"I telephoned the ranch this evening and learned that your man had taken her to the fair. There is something you should know immediately. No one has suspected it, as my husband had worked out a set of signals with her for jumping. He believed you were the man to handle her and keep her secret. She's always been blind."

Robert Ivers stepped slowly toward the elevator. "Blind," he muttered.

"Oh, I'm so sorry, sir," the elevator boy said as he stepped forward to assist him into the cage. "You should carry a white-tipped cane, you know."

Scout Troops Earn 562 Merit Badges

In a report issued by David P. Stuart, chairman of the advancement committee of the Washtenaw-Livingston Boy Scout Council, he revealed that during 1946 scouts enrolled in troops served by the W-LBSC qualified for 562 Merit Badges. These represented most of the 109 different Merit Badges available with interesting indications given by the number of Merit Badges earned in the various fields.

The Home Repairs or Handicraft merit badge led the list with 46 different scouts qualifying in this field. Next in popularity was the Personal Health merit badge with 41 scouts qualifying. Thirty-two different scouts earned the Public Health merit badge and 26 the Swimming merit badge. Twenty-seven qualified for the Safety merit badge and 24 for the Firemanship followed closely by First Aid which was qualified for by 20 different scouts.

The merit badge plan in scouting provides experience and opportunity for a boy to explore various possible vocations and adventures. The scout goes to a merit badge counselor—a specialist in that particular field—and goes over the standard requirements with him. The counselor makes suggestions on his preparation and when he feels that he is qualified he presents himself again to the merit badge counselor.

Altogether 200 men have assisted in the merit badge scouting program during the past year in the Washtenaw-Livingston Council.

Raw Salad

If you're planning on a raw salad or slaw, don't make it too long before serving time. The vitamin C in your foods gets away faster when peeled or cut. Prepare your salads the last minute before serving. On cooked vegetables, use as little water as possible. Add salt to the cooking water at the start, and keep the pan covered. Don't stir unless you have to and don't add soda when you cook greens. Most of all, don't overcook, watch the pot.

Fireplaces Lack Efficiency

Fireplaces have an efficiency of only 10 per cent, so their value consists primarily in the homelike or cheerful atmosphere they create.

Veterans' Organizations Study

State Legislation Affecting Vets

Governor Sigler has called for

the united efforts of the organized

veterans of Michigan in preparing

administration-sponsored legisla-

tion to coordinate all programs of

veterans operated by the state of

Michigan.

On December 30 Dr. Eugene B.

Proctor, Superintendent of Public

Instruction, at the request of the

Governor, called a meeting of the

state department, to discuss the

legislation affecting the five major

veterans' organizations in the

state, with representatives of the

Office of Veterans' Affairs and the

Michigan Veterans' Trust Fund

Board of Trustees. The meeting

discussed the various programs for

veterans and reached a conclusion

that a need was apparent for

coordination of the programs in the

interest of efficiency and economy.

The Office of Veterans' Affairs

is preparing legislation to

prepare new legislation directed

at accomplishing the above named

objectives and submit it to another

meeting of the same group on Janu-

ary 8.

The legislation was prepared and

submitted to the Governor. The

organization was fully represented.

The proposed legislation was

studied and analyzed in detail. At

the conclusion of this five-hour

meeting, a committee consisting of

one representative of each veter-

ans' organization, delegated by the

department commander, was formed

to study the certain points raised

in the proposed legislation and to

reach a mutual agreement on the

points in question, to report

back to the over-all committee at

its meeting in January. It is ex-

pected that the various groups will

be given to the proposed legisla-

tion.

Governor Sigler attended each of

the meetings and stated that the

conclusion reached by the veter-

ans' organization would be "enough

for me." This approach by the

administration to the over-all

veteran program was enthusiastically

commended by all veterans

because they said it places in their

hands the responsibility of formu-

lating state legislation for submis-

sion to the legislature. It was

termed a very realistic approach

and all agreed that it should result

in a state program which will

eliminate any duplication of effort

which may now exist, and effect a

coordination and integration of

services to veterans, resulting in a

much greater degree of efficiency

in operation and thus effect sav-

ings in administrative costs. At

the same time the veteran would

be better served by such an inte-

grated program, those in attend-

ance stated.

Mix Paint

Plenty of "elbow grease" used in thoroughly mixing the paint before using will be a help in insuring a satisfactory job. Pour off the liquid from the top of the can of paint, into another can, stir the remaining paste thoroughly, then pour back the liquid and stir again until you have a smooth, uniform mixture. Finally "box" the paint by pouring from one can into another, several times.

But, with a freshening appeal

TIES MICROCLEANED ties identify their owners as men of distinction. Who isn't sensitive to a smudge of dirt on his face? Well then, your tie is just as important, because it represents you, too.

GLOVES How often do you have a manicure? It is just as necessary to remember the care and appearance of your gloves. Minor repairs free.

SNOWSUITS MICROCLEANED snowsuits are our particular pride and we do our utmost to get them back pronto pronto. We consider Junior and little Miss our best customers and look up to snowsuits as a vital part of our business.

SWEATERS Even your dog must wear a sweater in weather like this and dogs appreciate being MICROCLEAN as much as every other member of the family.

HATS This is our pet subject for discussion. Ladies' or Men's hats and any kind, shape or style. A MICROCLEANED hat is an indication of prosperity.

Mich. Bell Installing New Type Cable

A new type of underground telephone cable is being installed in Michigan Bell Telephone Company territory in some sections of the state.

Theodore H. Dawson, head of the company's rural program, said the cable which is buried deep in the earth by a special plow, would materially aid efforts to provide telephone service to the waiting 11,000 families on the waiting list in rural areas.

"Our goal this year is the same as it was for 1946—to provide service for 20,000 new subscribers now living in rural areas," Dawson said. "Michigan Bell went 'over the top' last year by installing 4,000 more lines than it originally set its sights on for 1946."

Michigan Bell plans to put up over 9,000 miles of telephone wire this year to serve those on the waiting list and in so doing, the company continues its program of reducing the number of parties per line to eight or fewer.

During the past year, the number of parties on 2,850 rural lines was reduced to eight or fewer. Bell said that Michigan Bell now serves 107,000 rural subscribers, double the number served in 1940.

The new-type underground cable now being installed for the first time in Michigan was developed by the Bell Telephone Laboratories especially for rural construction. It is lightning proof and withstands other severe weather conditions.

The life of the cable is increased by use of two types of synthetic rubber insulation and a mesh of woven steel wires.

Registration Notice

For Village Election

MONDAY, MARCH 10, 1947

To the Qualified Electors of the Village of Chelsea, County of Washtenaw, State of Michigan:

Notice is hereby given that in conformity with the Michigan Election Law, I, the undersigned Village Clerk, will, upon any day, except Sunday and a legal holiday, the day of any regular or special election or primary election, receive for registration the name of any legal voter in said Village not already registered who may Apply Personally for such registration. Provided, however, that I can receive no names for registration during the time intervening between the Twentieth Day before any regular, special or official primary election and the day of such election.

Notice is hereby further given that I will be at my office in the Municipal Building, on

TUESDAY, FEB. 18, 1947

the twenty-first day preceding said election, as provided by Sections 2767, and 2822 Michigan Election Laws, Revision of 1941, from 8 o'clock a.m. until 8 o'clock p.m. on each said day for the purpose of reviewing the Registration and Registering such of the qualified electors in said Village as shall properly apply therefor.

In any village in which the clerk does not maintain regular daily office hours, the village council of such village may require that the clerk of such village shall be at his office or other designated place for the purpose of receiving applications for registration, on such other days as it shall designate prior to the last day for registration.

In the absence of no person but an actual resident of the Village at the time of said registration, and entitled under the Constitution, if remaining such resident, to vote at the next election, shall be entered in the registration book.

Notice—Absent Voter Must Be Registered

Although Sec. 2774, Laws Relating to Elections, Revision of 1939, provides that an absent voter may apply for registration at time of applying for ballot, and gives form of Affidavit he should make, Act 63 of P. A. 1939 stipulates that in absent voter's application for ballots he must state that he is a duly qualified and registered elector.

Opinion of the Attorney General is that Acts 66 and 68 "must be construed to repeal the inconsistent provision of Sec. 2774 permitting absentee registration at the time of making application for an absent voter's ballot."

Thus the Absent Voter's application and affidavit for registration are useful only in cases where voter may mail these in, then make application for ballots later, after registry has been completed.

The portion of application shown herewith enclosed in brackets should be crossed-out when applying for registration.

Form of Affidavit

State of Michigan County of . . . ss.

I, . . . being duly sworn depose and say that I am a citizen and duly qualified elector of the . . . precinct of the village of . . . in the county of . . . and State of Michigan; that my postoffice address is No. . . street or RFD No. . . P.O. . . that I am not now registered as an elector therein (and that I am voting by absent voter's ballot at the election or primary election to be held upon the . . . day of . . . 19 . . . the application for which ballot accompanies this application that I make this affidavit for the purpose of procuring my registration as an elector in accordance with the statute; That I make the following statements in compliance with the Michigan Election Law: Age, . . . Race, . . . Birthplace, . . . Date of naturalization, . . . I further swear or affirm that the answers given to the questions concerning my qualifications as an elector are true and correct to the best of my knowledge and belief.

Advantages Of The

GAMBLE WELDERS

1. The Gamble Welders are made to meet any and all requirements, are simple in design and construction and are built to last a lifetime.
2. Easy to learn to weld; strikes and holds an arc easily on the entire welding range.
3. More efficiency; Gamble shunt control welders are more efficient than the plug-in type welders which have as much as 20 amperes difference between each heat position. Gamble welders have the infinite number of heat settings necessary for satisfactory welding.
4. Five years written guarantee.
5. Favorable price.
6. High quality of material, workmanship and better performance.
7. Gamble Patented Dial Control, makes it easy for the beginner to pick the proper heat setting and correct rod for the work to be done.
8. Attractive appearance.
9. The amperage control is adjustable while the machine is in operation.
10. No arc blow; the obedience of the arc with the Gamble Arc Welder makes it ideal for vertical and overhead welding.
