BUCHANAN—The large building formerly known as the Colvin hotel, and the grounds around it, have been purchased by the Board of Jewish Education of Chicago and the Chicago branch of B'nai B'rith, Jewish youth organization, for a summer school and recreation camp for Chicago-Jewish youth. The property was bought from the Boys' Brotherhood Republic which bought it from the Colvin estate several years ago, and held a boys' camp there for several years.—The Berrien County Record.

## Camp Fire Girls Are 'Going Places'

More than 300,000 Camp Fire Girls throughout the country will observe the 35th anniversary of the incorporation of their organization during the week of March 18 to 23. Founded in 1912, the Camp Fire organization provides a leisure-time program for girls 7 to 18 years of age, regardless of race, color or creed.

Annually the national organization has proposed an anniversary project in which each girl can participate.

'GOING PLACES'... Like 300,000 other Camp Fire Girls throughout the country, these two Herkese clubbers will give a literal translation to 'Going Places'—general theme of the organization's 35th anniversary observance the week of March 18 to 23.

This year's birthday project has as its theme, "Going Places." This suggests a desire on the part of all members to cross new frontiers—to reach a new understanding of human relations—to go forward in every way.

Supplementing the work of the home, the church and the school, Camp Fire's new program emphasizes the urge to go places spiritually as well as physically. The girls will, of course, make trips by train, boat and plane, to places far and near. They also will go places along the path to good manners, better nutrition, safety practices and science.

**SHAMROCK-FROLIC**  
This Saturday night the top floor of the Municipal Building will be the scene of one of the biggest dances of the year. The walls will be decorated with shamrocks and streamers. Around the side of the dance floor will be card tables with refreshments.

The 173-page report presents information for Michigan, by counties, of the number of farms, acreage use of the farm land, value of farm property, acres and production of crops harvested, numbers of livestock, and the amount and value of livestock products.

Other items included in the report are the value of farm products by source of income, number of farms by tenure, sizes of farms, and farm classified by the total value of farm products.

The report reveals there were about 175,000 farms in Michigan on January 1, 1945. Of this number about 100,000 harvested 30 or more acres of crops. Hill believes it would be reasonable to assume that these 100,000 farms include most, if not all of the commercial farms in Michigan.

This publication, containing the latest reports from the Bureau of the Census, is entitled, "United States Census of Agriculture 1945, Statistics by Counties for Michigan." A copy of this report may be obtained for \$1.25 from the Superintendent of Documents, Washington 25, D. C.

**Prepare For Chicks Before They Arrive**  
Farmers who have placed orders for baby chicks should be preparing now for their arrival, says H. C. Zindel, extension poultryman at Michigan State college.

The success of a farmer's hatchery depends on how they care for them during the first ten days. It is then that the chicks learn to eat and find the source of heat in the brooder house. If conditions are not suitable, they often die or do not grow at the proper rate.

When the chicks arrive, the house should be clean and warm. The floor should be covered with dry litter. If you start the brooder stove about 48 hours in advance, the house should be warm enough. With a coal or oil brooder, the temperature should be adjusted so there is a temperature of about 95 degrees about two inches above the floor at the house edge. A little higher temperature is recommended for an electric brooder. The chicks can be taught not to get too far from the heat by placing a guard of boards or wire about 18 inches from the brooder house.

As soon as the chicks arrive, they should be fed. A good starting mash is best for them. Feed them four or five times a day, feeding only what they will eat in one half hour. After the first three or four days, the mash can be placed before them at all times. The chicks should have water or milk from the time they arrive.

**NORTHVILLE**—A petition is being passed about the township seat for the submission to the voters of the township, of the question "shall the sale of alcoholic liquors by the glass in addition to beer and wines be allowed in the township of Northville?" If the sufficient 400 names are secured on the petition the question will be voted upon in the April election. The petition is instigated by a Northville resident seeking to build a restaurant on Seven Mile Road.—The Northville Record.

**Woodpecker Tell Heavy**  
A power company reports that damage by woodpeckers makes necessary the replacement of at least 100 of its poles each year.

### MacPeck Resigns As Executive Of Boy Scout Council

Walter MacPeck has announced his resignation as Scout Executive of the Washtenaw-Livingston Boy Scout Council to be effective May 1, or as soon as his successor is installed, thus terminating his service which began here January 1, 1935. He has not announced his future plans.

Mr. MacPeck's professional service in Scouting began with the Chicago Council in 1925 following a five year period as a volunteer leader in that Council and a staff member in its summer camps. He later became the Scout Executive of the Northshore Area Council with headquarters in Highland Park, Illinois, followed by service as Educational Director of the Milwaukee, Wisconsin and Washington, D. C. Councils, before coming here in 1935.

Mr. MacPeck was chairman of the National Scouting Study Commission for the National Conference of Executives in 1935 and has written widely for "Scouting Magazine" and other publications.

During his years in Ann Arbor he has taken part in many civic and community projects. He is a Rotarian and chairman of the committee of the Religious Education Committee and church school superintendent of the First Presbyterian church. He served as chairman of the Recreation Division of the Ann Arbor Council of Social Agencies and as president of the vice-president of the Ann Arbor Council of churches.

During his service in Washtenaw and Livingston counties Scouting membership has more than doubled. The entire Cub Scouting program has been developed, and many other significant gains have been made in the services of the Scout Council.

### Area Of Farms In Michigan Changes Little In 50 Years

There has been no important change in the amount of land in farms in Michigan in the past fifty years. The recently released U. S. Census of Agriculture for Michigan shows that about 50 per cent of Michigan's land area is in farms.

E. B. Hill, head of the department of farm management at Michigan State college, says that this is of particular significance to those in the state who think there may be opportunities for developing brand new farms from unimproved areas.

The 173-page report presents information for Michigan, by counties, of the number of farms, acreage use of the farm land, value of farm property, acres and production of crops harvested, numbers of livestock, and the amount and value of livestock products.

**WAR II VETS PICKET IN OHIO** ... Approximately 1,000 veterans of World War II marched on the Ohio capital, Columbus, to apply maximum pressure on authorities for a speedy solution of veteran problems. Arriving by bus, train and "dumb," they attended meetings of the legislature. A committee called on Gov. Thomas J. Herbert, veteran of World War I. The group marched with placards displaying their problems and wants, as shown above.

### VETERANS' HOUSING RIGHTS ARE STILL ENFORCED

The compliance and enforcement program, designed to assure that veterans may buy or rent living quarters at no more than legal ceilings, will be continued for the more than 700,000 housing units started under the Veterans' Emergency Housing Program, according to the Office of Public Administration and the Housing Expediter.

The new housing regulations do not affect dwelling units started under authorizations approved before December 24, 1946. Owners of these units are still bound by the maximum sales prices and rentals set by the Federal Housing Administration. Veterans rate first priority to buy or sell and veterans also are bound by the regulations.

If a veteran resells, he must offer the dwelling to other veterans at a price no higher than the established ceiling price.

Buildings must continue to post placards showing that the property is being reserved for veterans, and owners are still required to file with their GSA Area Rent Office two copies of the sales contract. These requirements affect only dwellings that were built under HH priorities.

### Home Remodeling Bulletin Available

"Remodeling Rural Michigan Homes" is the title of a new bulletin issued by the agricultural experiment station at Michigan State college.

The bulletin emphasizes the advantages remodeling offers. Many times while structurally sound, lack of comforts, conveniences, and labor saving devices found in modern dwellings. Careful planning and remodeling is usually more economical than replacing with new buildings.

All phases of remodeling are considered in the bulletin. Floor plans, photographs of actual remodeling jobs, and suggested room sizes, show how remodeling will help to bring older homes up to date.

Although the plans and information presented apply specifically to rural houses and rural living, they are equally important for the city dweller who is attempting to "make over" an old house.

The bulletin No. C-205, can be obtained from county agricultural agents or by writing to the Bulletin office, Department of Public Relations, Michigan State college, East Lansing, Michigan.

**FRANKFORT**—With the heavy fall of snow blanketing the community again this week, merchants and city residents are thankful that the city managed to get the snow removed in time. If the snow now piled up along the street were added to that already removed it is probable that the banks would be nearly six feet in height.—Bennie County Patriot.

**MILAN**—Allen K. Parrish, Birmingham, Michigan, son of Mr. and Mrs. I. W. Parrish, of Milan, was one of the survivors of the tragic train wreck which occurred at Altona, Pa. recently. He is en route to Philadelphia on business and traveling by train instead of by plane as is his custom, because of his wife's insistence due to the recent plane wrecks.—The Milan Leader.

**FRANKFORT**—Alton Stubbs and his brother, while spearing in Betsie Bay last Friday, brought home the bacon when they sank their spear into a 2 1/2 lb. musky. They were fishing in shallow water off from the property owned by the Frankfort Lumber & Fuel Co. and had not been there but a few minutes before the big one came by. To the best of our knowledge this is the largest fish to come out of Betsie Bay this winter.—Bennie County Patriot.

### Farm Prices Should Not Be Reduced, Says Dairy Official

There is little justification for the idea which seems to prevail that farmers should lead the procession for lower food prices according to Lewis W. Morley, chairman of the Information Services Committee of the Michigan Allied Dairy Association. He points out that nothing could be more adverse to the country's economy than to reduce farm income and thereby curtail the buying power of farmers who are the greatest purchasers of the products of industry.

"Dairying in the United States is a key industry and its prosperity is vital to our entire economy," says Morley. "Dairymen in Michigan milk is the greatest single factor in farm income and last year the value of milk produced in the state amounted to about \$160,000,000. A major percentage of the amount went back into farm machinery, equipment and labor. All industry is dependent upon the purchasing ability of agriculture. A decline in farm income means a general slowing up of all industry and food prices are, in the final analysis, the determining factor in the prosperity of all branches of agriculture."

"During the war, milk was not rationed as were most other food products. Milk production, as well as consumption, increased materially during that period. But the increase in the retail price of milk was far below the average rise in other food items. Compared with the prevailing prices during the period from 1935 to 1939, retail milk prices increased 66.2 per cent whereas meat was up 90.7 per cent; eggs 114 per cent and the average of all food items 80 per cent. Milk remains the lowest priced food the consumer can buy."

### Easter Seal Sale Starts Today And Continues To April 6

The 14th Annual Easter Seal Sale in Michigan will be held from March 6 to April 6. It was officially announced last week by Emmet J. St. John, president of the Michigan Society for Crippled Children and Disabled Adults, Inc.

As in the past, the 1947 Easter seal sale will be conducted under the direction of the Michigan Society in cooperation with the National Society and with its affiliated local chapters and committees.

Organized 26 years ago, and incorporated under the laws of Michigan, the Michigan Society has since that time promoted a continuous program leading to physical care, special education, vocational training, and social and economic adjustment for all types of physically handicapped persons in Michigan regardless of the cause of crippling.

Trading the history of the Michigan Society, Mr. St. John states: "The Society has grown from a small group of 26 children to a large organization that gave birth and impetus to our Society has not diminished—and the challenge before us today and for the future should stir us all to renewed and increased effort. For us the greater challenge is to provide them with the very best of our society and to help them to live their lives to the fullest."

A great task—and a greater challenge—and we pledge ourselves to meet it.

The many friends throughout Michigan who have so ably supported the cause in the past are urged this year to give their full measure of help through their generous purchase of Easter seals.

**Long Week**  
A week in the Chinese calendar is thirty days long. According to the Encyclopedia Britannica, the days are distributed in cycles of sixty in the same manner as ours are distributed into seven-day cycles. And each day of the Chinese 60-day cycle has a particular name.

### Officers Elected By Rod and Gun Club At Tuesday Meeting

On Tuesday night of this week the Chelsea Rod & Gun Club held its annual election meeting and the following officers were named for the coming year:

President—Roland Spaulding  
1st Vice Pres.—A. D. Mayer  
2nd Vice Pres.—Fred Karp  
Secretary—Lyle Haselswerdt  
Treasurer—Norbert Merkel  
Board of Directors—James Park (retiring president), Olie Johnson, Julius Stricker, Otto Lueck.

Chairman of the State Conservation Department, was present and gave an interesting talk which was followed by general discussion.

Local sportsmen will be interested to know that a feeding program has been carried on throughout the winter and is now being carried on by a Club committee headed by Martin Miller and the wholehearted cooperation of the Junior Conservation Club of Chelsea. Mr. Miller reports that he and the boys have seen a number of pheasants and lots of signs of their feeding stations that indicate quite a few birds and rabbits have wintered through.

Another topic of interest and a warning reminder to many is the gun law now in force. When you carry a rifle or shotgun into a field today, you must have your current hunting license, your number on your back and a gun permit issued by your State Conservation Department. These permits may be obtained from Merkel Bros. Hardware at no cost to you and are valid as long as you take out your yearly hunting license. And don't forget that it is illegal to carry a rifle or shotgun in your car unless it is unloaded and either broken down or enclosed in a case or both. Let's play ball with our Conservation Department—they're doing a swell job for us.

## Reach up - and touch a Star

White sidewall tires, as illustrated, will be supplied at extra cost as soon as available.

**Y**OU'VE got the sun in the morning and the moon at night - just like everybody else.

You've got little roads to explore, and pleasant places to go, and nice friends to enjoy life with, just as others do.

But there's one thing you can have that not everyone else can - if you do something about it.

It's in the extra lift you find in traveling in car-styling as fresh as tomorrow's morning glories, enduring as the classic lines of a Grecian vase.

It's in roaming the quiet little roads - or the busy big ones - with plenty of eager horsepower under your bonnet, all ready to Fireball you along or drift you serenely through calm and quiet moments.

It's in the feel of a car that's really big enough. Roomy enough for three-a-seat - husky and solid enough to be

ever steady in its stride - stout enough to take the most rugged going.

It's in such plus-values as soft coil springs on all four wheels - bodies studiously mounted to be quiet and firm and true - a wheel light yet firm under your hand - an engine with the touch of perpetual youth in the fineness of its cylinder-wall finish.

In a word, it's in a Buick - style star and standout performer of this and many a season to come.

In a car bought not alone out of need or expediency - but plainly and frankly out of desire.

for something a bit better than the ordinary.

We say not everyone can have such. That is simply because there's never enough of a most wanted thing to go round - and this is America's most wanted car.

To get it, you can't hang back. You have to get in ahead of the one who hesitates.

The moral plainly is: Order yours right now!

"Whose new automatic Gas Range is this... anyway?"

Well, rub my eyes... just look at Mr. Big Show Off... demonstrating to company what a super duper chef HE is... and getting away with it too. Loves that new automatic gas range as

much as his wife.

Leave it to those new automatic gas ranges to get men into the kitchen with aprons on. Everybody calls it fun to broil and bake and whip up something mighty tasty when they can work on a range as intelligent and obliging as the new gas automatics. Come and see them in the stores or at the Gas Company... and learn what new thrills there can be to cooking.

Helen must have done pretty well, selling tickets.

Before putting our crystal ball away we'll take one more look into the future. Alas, makes me heart sad to see that poor old Ted McClear still trying to capture the lassie with the dark blonde hair.

## RADIO PROGRAM

On Tuesday, March 4, the Student Council of Chelsea High School presented a program over station WPAG in Ann Arbor. This was the fourth in a series of six programs put on by the public schools at 1:45 on Tuesdays.

The topic discussed on the broadcast was extracurricular activities in the high school. Those students who told about the various activities are:

Don Baldwin—Announcer.  
Ray Knickerbocker—Activity Period.  
Marcelline Hinderer—Student Council.  
Dick Schultz—F.F.A.

Following this game Dexter defeated Saginaw and on Saturday, Michigan Center knocked off Dexter 27-26.

CLASS NEWS  
Sophomores—The Sophomore party has been postponed indefinitely. All orders for class rings have been taken, and the class is now waiting for delivery of rings around the first part of the Junior year.

Junior—The play cast of the Junior play was invited to the home of Mr. and Mrs. Tewes for a potluck supper. Afterwards they attended the comic opera "Marriage of Figaro." The class is selling a variety of cards as a money-raising project.

SENIOR NEWS  
A plaque was awarded to the Senior class by the Curtis Publishing Company for the largest per capita sale of magazines in the United States.

THIRD GRADE  
Donald Bask entered the third grade from a school near Grand Rapids.

We are getting our work ready for Parents' Night.

Wilma Jean Hotchkiss has been absent from school.

FIFTH GRADE  
Last Thursday and Friday, Cynthia Paul was absent from school because of having her tonsils removed. We missed her very much. Our attendance for the past two weeks has been the best so far this year.

The winner for our room's Demonstration Team was Beverly Jean Smith, who spelled down the entire room. The one who missed the final word was Duane Satterthwaite.

SEVENTH GRADE  
Grade Seven had perfect attendance.

THEY'RE THE

On March 3 an assembly for grades seven through twelve was given under the supervision of Mr. Johnson. The assembly consisted largely of an explanation of the meeting of school electors on the question of school district reorganization. The students were asked to invite their parents to that meeting which was held on the evening of March 3.

Assembly manners were discussed at this assembly. Mr. Johnson presented the three students who had received all A's during the last marking period. These pupils were: Peggy Schable, Merilyn Johnson and Donna Kalmbach. Compliments were paid to the undefeated girls' basketball team.

The winners of the F.F.A. contests between Saline F.F.A. Chapter and the Chelsea F.F.A. were presented. They were: R. Schneider, G. Merkel, C. Sullivan, and R. Merkel, who all did a fine job in the contests.

HI-Y  
The Club is planning to sponsor a big spring All-Hi dance. It was decided not to have an orchestra because of the expense.

BAND NEWS  
The band has five new members practicing to qualify themselves for joining. They are: Woodwind: Deloris Ann Walker, Audrey Knickerbocker; brass: Wilma Jean Vaughan, Ted Slane; percussion: Bobby Joseph.

The skating party has been postponed and no future date has been set.

The chorus practiced with the band again last week, on their combined number that they will present tomorrow night.

As yet the band has not decided whether to go to the contests. Members have the music and are practicing on it, so that if they decide to go they will be ready. The date of the spring concert has not been set as yet.

SENIOR BIOGRAPHIES  
Introducing Seniors of the Day:  
On August 10, 1929 in Ohley, West Virginia, Maxine Ingram made her appearance in this world. She was born on a farm. Maxine has grown to be 5 feet 11 inches, weighs 120 pounds, has beautiful brown hair with grayish green eyes (some tomato, eh, boys?).

Chop suey and hot cross buns are her favorite foods; other favorites include movie, "The Jolson Story," color, green; song, "California, Here I Come," especially sung by Al Jolson; sport, basketball; and pet peeve, arguing with her sister (which one, Maxine?). Maxine's ambition is to become a famous film stylist.

Next interviewee was Helen Hankard. She is seventeen years

## LOSE TO MICHIGAN CENTER

On Thursday, March 6, Chelsea journeyed over to Michigan Center to play Michigan Center in the first game of the District Tournament.

The lineup for Chelsea was: Miller and Eisele at guard; Daniels at center; Vogel and "acting captain" Munro at forward. Chelsea started with a bang and jumped into a first quarter lead of 7-5. This lead was enlarged by a fine display of offensive playing. The score stood 15-9 in favor of the local lads at the half.

The Michigan Center lads came to life in the third quarter and collected 14 points to the locals' five. The last half saw mostly defensive play on the part of both teams, with Center scoring 5 and Chelsea scoring 6 points. The final score stood 23-14 in favor of the boys from Michigan Center.

Although Chelsea ended up on the short end, everyone must agree that the team really showed that they had the stuff. Sparked by the outstanding offensive playing of Eisele, who topped the scorers of both teams with 10 points, the lads never gave up hope. Chelsea made 6 free throws and missed 5. Center made 12 and missed 10.

Following this game Dexter defeated Saginaw and on Saturday, Michigan Center knocked off Dexter 27-26.

old, has brown hair and eyes, and is 5 feet 2 inches tall, weighs 115 pounds. Some of her favorites are: movie, "Till the End of Time"; food, scalloped potatoes and ham or chop suey; sport, basketball; and her pet peeve is "too many sisters." (That sounds like a dig to someone). Helen's ambition is to become a piano teacher.

One of our less talkative seniors is Duane Quatt. Duane didn't seem to want to say much, but he gave out with the following information: Duane was born Oct. 2, 1929 and today is 5 feet 11 inches tall. He has wavy brown hair, and since the color of his eyes is rather hard to tell, we settled for hazel. Duane's three favorites are golf for sport, blue for color, and chicken for food. He says he has no ambition, but is planning on going to college after graduation.

The next senior, Charles Popp, Jr., willingly told us a little about himself. Charley was born Nov. 27, 1927. For a general picture, he is 5 feet 11 inches tall, weighs 150 pounds and his hair is brown and eyes green. Charley's list of favorites includes blue for color, stuffed cabbage for food, the movie "Jolson Story," the song "Anniversary Song," the sport baseball, and cards for a pastime. His ambition is to someday play professional baseball.

**Hungry American**  
The average carnivorous American consumes 25 sheep, 150 head of cattle, 225 lambs and 300 pigs during his lifetime, or enough to stock a good-sized farm.

**Hyphs Field**  
Three-fourths of the 1945 corn crop came from only two-thirds of the acreage planted to corn. The reason: This acreage was in hybrid seed.

**Potato Contains Vitamin C**  
The potato contains vitamin C, a nutrient that is none too easy to find in the food family in general. It also offers iron and other minerals along with some of the B vitamins.

## MICHIGAN MIRROR

(Continued from page one)  
What the Michigan legislature will do is yet to be decided.  
With the \$50,000,000 trust fund intact and a \$270,000,000 bonus well on the way, Michigan will have done well with its veterans. On a national basis the record is equally good, if not better.

Last fall in the four-year colleges alone over the nation there were more than 700,000 veterans as full-time students. The Veterans Administration recently reported that 2,258,387 veterans were attending schools or taking job training up to Nov. 30.

Unemployment benefits of \$20 a week for 52 weeks are available to ease the readjustment of veterans. Veterans have the advantage also of retaining life insurance to the amount of \$10,000 at a lower rate

of premium than is available to the public. They have medical care, hospitalization and pension rights. The \$270,000,000 bonus in Michigan and the \$400,000,000 bonus in New York are all part of the big picture — expressions of gratitude from the Nation.
