Drake Mallards Travel Many Miles

Lowell.—That sober, almost-domeesticated appearance of drake mallards that have settled down on the local mill pond may deceive a casual observer, but some of the old boys have been around in their day.

A leg band so worn as to be illegible was removed from one of them when conservation department game men live-trapped and banded the King sanctuary ducks in February. Sent to the Fish and Wildlife service in Washington for chemical treatment and deciphering, the band now is evidence that one of the drakes ("still a band some brute" game men said) had been at least as far away, six or seven years ago, as the banding station at Des Lacs refuge, near the Canadian boundary of North Dakota.

FLOWERY SPEECH

When someone gives you flowers, do you know what they mean? Gardinias and orchids say, "to a lovely lady." Daisies never tell! Here are more of the modern meanings of flowers.

Rose—Red, I love you; white, you're heavenly; tearful, I'll never—always; pink, please believe me; yellow, try to care.

Carnation—Red, I'm carrying the torch for you; triped, wish I could be with you; white, sweet and lovely; pink, I'll never forget; yellow, you have disappointed me.

Camellia—Pink, longing for you; red, you're a fan in my heart; white, Blue, I'll be true forever; white, let's take a chance on happiness.

Gladiolus—Give me a break, I'm really sincere.

Sweetpeas—Thank you for the lovely time.

Chrysanthemums—You're a wonderful friend.

Lily—It's heavenly to be with you.

Iris—Your friendship means so much to me.

Tulip—Red, I love you; please believe me; yellow, there is sunshine in your smile; variegated, your eyes haunt me night and day.

ON ACCURATE REPORTING—AN APOLOGY

We, the editors, in behalf of the Journalism club, wish to extend our sincerest apologies to the Hi-Y club.

There was a misprint in the article that was published about the Hi-Y ball. It was written for publication as follows: "there were refreshments which everyone welcomed."

In looking over the article, we were sure we will find a period, not a question mark at the end of the sentence as it was quoted to have had in last week's paper.

Had it been known that the money taken in at the dance was to go to a Hi-Y club in Europe, of course no one would have begrudged paying 25c and 40c. In fact, additional donations might have been received. Let's make such points clearer in advertising, and there certainly wouldn't be such a discussion following.

Although it was said the person writing the article was not among the party-goers, the information

was obtained from persons who had access to a greater knowledge of the dance as well as it was based on comments and opinions heard from people who attended the party.

It is true, the refreshments were donated to the previous party, but to those who received an inaccurate report, only the coca-cola was donated. This was given free with every ticket. The other refreshments were there for everyone's benefit, one could buy them or not.

Yes, the Hi-Y is a beneficial organization in our school—it always has been and our hopes are high for it to always be the same. If the club makes another campaign to send money to desolated Hi-Y clubs, let's hope they will circulate it more widely among the student body. We're quite sure that it would be well supported by all.

The Hi-Y club has the complete support of the Journalism club and also our sincere apologies. May we in the future, working together, make the activities and student co-operation advances to even better standings.

JUNIOR HIGH PARTY

The seventh and eighth grade party which was held in the gym on Friday, May 2, started off with a hot boogie which was followed by more dancing of boogies and waltzes. Some of the records that were played were "Squeeze Me," "Heartache" and "The Anniversary Song," sung by that really swoony Al Johnson.

A few of the couples that were mingling with the crowd were Georgia Ann and Kenny, and Jackie and Buddy. By the way, Miss Seales, who were all those boys that you were teaching how to dance? Near the middle of the party the course was reversed and the girls asked the boys to dance.

After the dance, a program was held in which several of the eighth grade guests from nearby schools, were called to the stage and asked various questions. Truth and song sequences was played. After this, refreshments were served. The chaperons were Miss Fox and Miss Seales.

MILAN—On Saturday afternoon, just at dusk, two puzzled motorists swerved their cars on Hurd street to avoid hitting a small black mongrel which stood immovable in the road. One motorist stopped and returned, puzzled by the dog's behavior. There, guarded by the dog, was the unconscious body of Gary Gaynon, 7 year old son of Mr. and Mrs. Emil Gaynon. Whether the boy was the victim of a hit and run driver or ran into the side of a passing car and was thrown has not been ascertained. He was unconscious and rushed to the hospital, but suffered only minor cuts and bruises and shock.—The Milan Leader.

Farm Employees May Be Covered By Compensation Act

Spring operations on Michigan farms will mean increased hired help and a greater possibility of accidents, warns N. L. Smith, specialist in farm management at Michigan State college.

Possible claims by employees for injuries sustained while working can mean a cash outlay for the farmer-employer. If it is proven that negligence on the employer's part caused the accident, he can be required by the court to compensate the injured employee.

Recipe for FROZEN LEMON PIE

Want something different for dessert? Then try this easy refrigerator pie that is made in advance all ready to serve when dinner-time rolls around. The recipe makes eight generous servings and would be just the thing for a dessert bridge party—afternoon or evening.

For flavor, fresh lemon juice and grated lemon rind are tops. The flavor compliments so many foods and hence is excellent with fish, poultry and meats. Try this dessert with a baked ham dinner and see if it doesn't hit the spot.

FROZEN LEMON PIE (8 servings)

3 eggs	1/2 cup sugar
1/4 cup lemon juice	1 cup whipping cream
1 tablespoon grated lemon rind	1/4 cup vanilla wafer crumbs
1/4 teaspoon salt	

1. Separate yolks from whites of eggs.
2. Combine egg yolks, lemon juice, lemon rind, salt and sugar in top section of double boiler. Mix well.
3. Cook, stirring constantly, over hot water until mixture is the consistency of a custard. Cool.
4. Beat egg whites until they stand in peaks. Fold in lemon mixture.
5. Whip cream until it begins to hold its shape.
6. Fold whipped cream into egg white mixture.
7. Spread half the vanilla wafer crumbs in the bottom of a large refrigerator tray.
8. Pour lemon mixture over crumbs. Cover with remaining crumbs.
9. Put into the freezing compartment of the Sorrel Gas Refrigerator. Freeze until firm, about 4 hours. Serve in finger length slices.

PERFECT PROPORTION

In prescription compounding, proportion must be perfect. There can be no "margin for error" because even a slight deviation from any specified quantity may adversely affect the strength of the medicine. That is why we make every measurement with painstaking care... check and recheck it to assure accuracy to the pin-point of precision. To make accuracy double sure, we use pure, fresh drugs of standard strength.

MANCHESTER—Friday afternoon the District spelling bee was held in the Civic auditorium. Before an audience of about 200 people, thirty contestants spelled through a bee, which lasted for an hour and 20 minutes. Leola Schook, 13 year old daughter of Mr. and Mrs. Carl Schook, emerged the victor when she correctly spelled "reluctant" which had proved too difficult for Diane Ahrens, a sixth grade pupil at the Spaford school. Early Gardens Late Because Of Weather

Cold weather has delayed the planting of early gardens in many parts of Michigan. Jack Rose, gardening specialist at Michigan State college, lists several methods that can be used to help plant development when the garden is planted.

Rose cautions against working the soil when it is too wet. Early cultivation, when the soil is wet, can make it difficult to work all season. When a ball of earth squeezed in the hand crumbles, instead of sticking together like putty, the ground is ready to be worked.

Lack of nitrogen often affects early gardens. The bacteria in the soil that make nitrogen available to plants do not begin to function until the soil has warmed up. A high nitrogen fertilizer applied to early peas, lettuce, radishes, and spinach aids development.

For the average garden soil, Rose recommends a 4-12-4 fertilizer applied broadcast at the rate of 30 pounds per 1000 square feet. On lighter soils, a fertilizer containing more potash, such as 3-12-12 is better. Nitrogen fertilizers, ammonium nitrate, sulfate of ammonia, or nitrate of soda, help to speed up early crops of vegetables, but care should be taken in their application.

Peas have not been grown before in this year's garden soil, they should be inoculated to enable the peas to make some nitrogen. Inoculating material for peas is available at most seed dealers and hardware stores.

STOCKBRIDGE—Wm. Libey of Fitchburg was seriously injured Saturday while working in his garden. When the pile of wood back of him fell onto him, throwing him onto the saw, cutting his right wrist half way through, and cut a gash in his leg and side. He is at the Fitch hospital and getting along as well as can be expected. — The Stockbridge Brief-Sun.

Hot Caps Will Protect Early Garden Plants

Miniature individual greenhouses for plants are possible when gardeners use hot-caps, advises Jack Rose, Michigan State college specialist in gardening.

He explains that hot-caps are hat-shaped, especially treated, paper plant covers. They protect the plants from wind, cold, and the direct sun while the plants are getting started. Early plants such as tomato, pepper, and cabbage are particularly adapted to the use of hot-caps. They can also be used over hills of melons, squash and similar tender crops to hasten seed germination and protect young plants.

After the hot-caps are placed over the plants, the soil should be packed all around the edge so that wind cannot get underneath and blow the cap away. A small hole should be punched near the top on the side away from the prevailing wind to permit ventilation.

Hot-caps should not be left under the hot-caps for more than 10 days to two weeks.

Take Care of Your Garden

Photo Courtesy Perry-Morse Seed Co.

The time to kill weeds in your garden is before they begin to grow. Hoeing the surface soil in vegetable or flower garden not only destroys sprouting weed seeds; it actually prevents their germination. As soon as the seedlings break through in the garden rows so that they can easily be seen, it is time to begin stirring the soil between rows and as close to the plants as possible without disturbing them.

For the good of the vegetables and flowers and for the sake of a garden's appearance, it is important to cultivate all through the gardening season. Besides keeping ahead of the weeds, tilling the surface soil lightly forms a mulch to prevent evaporation of moisture. It is particularly essential to stir the soil around plants as soon as soil and plants are dry enough after every rain. Care should be taken, however, not to dig so deeply near the plants as to injure the roots.

Another reason for cultivating the garden all summer is that stirring the soil allows air to enter. Next to moisture, ventilation is one of the most valuable means of releasing soil.

Bumper Peach Crop Expected For 1947 Throughout Michigan

All preliminary reports indicate Michigan is on the way to another large fruit crop, especially peaches, according to Director Charles Figg of the State Department of Agriculture. If favorable weather continues during the growing season, this year's peach crop will rank with the 1946 record crop of 4,336,000 bushels and the 1945 crop of 4,400,000. Both years exceeded previous production records.

Last year's peach crop was 74 per cent above the ten year average and placed Michigan fourth among the peach growing states. Only California, Georgia and South Carolina had more peaches. According to the United States Department of Agriculture reporting service the quality of last year's crop was above average and stood up well on distant shipments.

GRASS LAKE—Mr. and Mrs. Frank Painter entertained 43 members of the Waterloo Hunt Club at a dinner meeting Tuesday evening. Harry Sparks, head of the building committee for the new club house, reported that the building was under way and that they were doing everything possible to make it ready for occupancy soon. — The Grass Lake News.

200,000 4-H Members Get Special Training In Soil Conservation

More than 200,000 4-H Club members have received special training in soil conservation during the last three years, according to the National Committee on Boys and Girls Club Work. Last year, 10 states and Puerto Rico made that activity a part of their 4-H program.

The club members' training includes, among many other soil conservation practices, strip cropping, contour farming, terracing, soil testing, establishing waterways and planting shelter belts and windbreaks. The activity is conducted under the direction of the Federal and State Extension Services.

Mark awards for top ranking 4-H soil conservation records on county, state, sectional and national levels are again offered in 1947 by Firestone. Awards include gold medals for county winners and \$50.00 U. S. Savings Bonds for the six highest rating entrants in each state. In addition, 16 selected state winners receive a sectional award which is a trip to the 4-H Club Congress in Chicago. Eight of the sectional winners are chosen for national honors, each receiving a \$200.00 college scholarship.

Sudan Grass Will Provide Pasture In Hot Summer Months

Emergency pastures, which are needed because drought in many parts of Michigan last year damaged alfalfa seedlings, occupy the thoughts of many farmers now.

C. M. Harrison, specialist in farm crops at Michigan State college, says that sudan grass will provide excellent emergency pasture in most parts of the state. It is also useful as supplemental pasture.

When weather is very hot during the summer months, sudan will thrive when other pastures are dry and non-productive. Sudan requires warm weather for best growth and should not be seeded until the ground warms up. Frost will damage the growth severely. May 15 to June 10 or after danger of frost is past, is the best planting period.

A good seed bed is necessary for sudan growth. Soil and seed bed requirements are similar to those of corn. Fields that grew legumes the previous year will produce good yields of sudan. Fertilizer needs are the same as for corn.

If moisture is plentiful, 25 to 30 pounds of seed drilled per acre is adequate. In dry regions, 15 to 20 pounds per acre is recommended for drilling. Depth of seeding depends on moisture and seed bed. One inch is the best depth where conditions are favorable.

When grazing sudan, the field should be divided in two parts and grazed alternately. Cows can graze the first field when it is 12 to 15 inches high. When they have eaten the sudan down to 6 inches, change them to the other field and allow the first field to build up again. The two fields should be alternated during the entire grazing season.

Serve Fresh Smelt For Delicious Meals

Smelt season is here again — will you have yours fried, broiled, baked, pickled, or in canapés?

Mouth-watering sauces and ways to cook smelt have been tested at Michigan State college. Recipes proved in test kitchens are now available in a new publication of the agricultural experiment station, "Fish Recipes — Smelt."

Buy smelt that is strictly fresh because these small, silvery fish lose their special flavor if the oil in their flesh evaporates. Smelt are easily cleaned and are delicious if cooked and served well.

You will find directions for cleaning smelt and other information about them in the recipe folder. Directions are given for frying, broiling, baking and pickling the smelt. Several canapés recipes also are given.

Onion gravy and tomato sauce recipes are included for serving with pan-fried smelt. Recipes for horseradish, sour cream, tartar, Spanish and Barbeque sauces are given for broiled smelt. Other sauce recipes are included for use with baked smelt.

"Fish Recipes — Smelt," Experiment Station Folder 8, can be obtained without charge from your county extension office or from the Bulletin Office, Department of Public Relations, M.S.C., East Lansing, Mich.

Hoe With Care And Avoid Work

Weeds rob cultivated plants of water, plant food, and even light and space. Getting rid of weeds is a necessary part of garden care, but the weeding should be done with judgment, according to soil specialists at Michigan State college.

Once a seedbed is correctly prepared, there is little to be gained from hoeing or cultivating too often. A light stirring of the surface soil is all that is necessary to control weeds in most garden crops.

Deep cultivation is hard work for the home gardener and the specialists warn that it can be injurious to plant roots.

Where's the Argument?

You should have heard Ed Carey and Spike Miller debating the merits of Guernseys versus Holsteins. Ed's our firechief, and Spike handles hardware — but to hear them argue you'd have thought that they'd been dairying for life.

Finally they put it up to Sam Carter, who breeds dairy cows! Sam hems and haws... and concludes there's a lot to be said for Holsteins, and about as much for Guernseys... take your pick!

Actually, Ed and Spike were like people arguing about — say, beer

STUDENT COUNCIL NEWS

The committees for the All-High party last Saturday were: refreshments, Nancy Looze, Charles Popp, and Marilyn Johnson; entertainers, James Miller and Donald Baldwin; decorations, Bob Merkel and Marjorie Shelly; clean-up, Buddy Johnson and Ronnie Eder.

ASSEMBLIES

An assembly was held in study hall to consider the disappearance of articles in school. Ray Knickerbocker gave a short talk about locking our lockers and turning in found articles to the lost and found department at the school library. The point was made that the students of Chelsea high should lock their lockers and keep them locked. Then there should be no reason for articles to disappear.

PEP MEETING

Last Tuesday the seniors sponsored the first baseball pep meeting. It began with a cheer from the cheer leaders followed by short talks given by Jim Ewald, Ray Knickerbocker, Ted McClear and Corky Dryer. Another cheer was given and then Mr. Cameron gave a talk on our baseball team this year. The pep meeting ended with a last cheer and the school song.

RED CROSS

The Chelsea Public School filled 39 gift boxes for Junior Red Cross. The ninth grade filled the most boxes, with the seventh grade coming in second place, the eighth grade in third place, in fourth place the twelfth grade, the eleven-

th grade in fifth place and the tenth grade filling the least boxes. The Chelsea Public School filled the largest amount of any school in this vicinity. The important items in the boxes were soap, toothbrush, toothpaste, ball, pencils and paper. There were also other numerous items given, such as paints, handkerchiefs, small toys, etc.

These collections were destined for children aboard, who have neither school supplies, health supplies, nor toys.

The work was done under the sponsorship of Audrey Lake, a freshman, and Miss Searles.

The twenty-second afghan was turned in, too, the twenty-third afghan will soon be ready.

EIGHTH GRADE VISITING DAY

On Friday, May 2 the future ninth graders from a number of the surrounding rural schools were invited by the future ninth graders of the Chelsea public school to attend a visiting day. The purpose of this visiting day was to help a great number of the new boys and girls from rural schools to get acquainted with the boys and girls whom they will be with in their freshman year.

The visiting day program started off with a friendly welcome from our superintendent, Mr. Johnson, to all the guests present. After Mr. Johnson's warm welcome the visitors were divided into separate groups and were taken around to visit the different classes. They visited classes in which they will or may participate during the coming year. They also visited those which they may want to take later on in their high school years.

The morning was spent visiting classes. At 11:30 a delicious dinner was served to all.

After everyone had finished eating the boys went to visit the agricultural classes, while the girls spent this time dancing in the gymnasium.

When the boys returned from visiting the agricultural class all the visitors including their hosts went for a walk out to the athletic field, where many very well planned games were played, such as ball throwing for the boys with George Alpervitz winning first prize and David Crocker third. In the girls ball throwing Rosemary Marshall, a visitor, won first prize, Ruth Eismann won second and Kay Quigley, another visitor, winning third.

In the hundred yard dash for the boys George Alpervitz took first prize, David Crocker took second and David Crocker third. The fifty yard dash for the girls brought Shirley Williams into first place, Jayne Procter into second and Joan Schneider into third.

The horse and rider race was another eventful game of the day, with Ted Slane and Donald O'Driscoll as first prize winners, bringing Stanley Knickerbocker and Albert Notten, Jr. as second prize winners, and coming in as third prize winners were Kenny Procter and Donald Pearson. Congratulations to all you people who were fortunate enough to win prizes. The prizes were ribbons of different colors with letters printed on them telling what place the person won.

After all the games were played and everyone had spent an enjoyable day they returned to school and from there were dismissed to go home. But at seven o'clock that evening they were all invited back to attend a dance put on for their benefit.

G. A. A.

The G. A. A. girls have started their spring sports. This year the sports consist of softball, tennis, golf and gymnastics.

The girls in G. A. A. are required to earn one hundred points before receiving a school letter for the year. The girls earn sixty points by attending weekly meetings, in various sports, throughout the school year. The other forty points are earned by taking part in extra G. A. A. activities.

To obtain these the girls have been organizing various hikes to Cavanaugh, Cedar and North Lakes and other places. Each hike counts ten points, however, there must be at least five members of G. A. A. going on each hike in order to collect credit. There are also other ways of obtaining these points. Miss Beam has presented each team of the varsity basketball team with a team picture. The girls really appreciated this. The girls have a wonderful record for this school year.

ESSAY CONTEST

Don Hatley, a senior, has had his essay entered into the Essay Contest sponsored by the State Bar Association of Michigan for students of senior high schools in Michigan. The subject on which the essays were written was, "The Dependence of Organized Society on Law." Don's work was picked from all the other seniors' work in the school by a committee composed of Miss DeRose, Miss Beam, Miss Fox, Miss Searles and Mr. Chandler. His essay will compete with the other essays written by seniors in Michigan. The award for the winning essays are: first prize, \$300; second prize, \$150; and third prize, \$50. The purpose of this contest is to stimulate thinking on the part of the high school students of Michigan concerning the importance of law in the American system of constitutional government.

This is the first time Don has participated in any essay contest. He has done excellent work. He deserves our congratulations, and we wish him further success.

(Ed. Note: We hope to publish this essay next week.)

CHS CHORUS RECEIVES RATING OF EXCELLENT

The Chelsea high school mixed chorus and Girls' Glee club received a rating of excellent last Tuesday when they sang for Professor David Mattern, head of the Music Education Department at the University of Michigan. Mr. Mattern

is one of the official adjudicators for the Michigan State Vocal Association, and by receiving this rating, the chorus will be able to attend the State Contest Festival to be held at Michigan State college at East Lansing on May 10.

Mr. Mattern praised the interest displayed in choral work at the school and complimented the chorus on its work. Chelsea high school has one of the largest choruses in this vicinity for the size of the school.

The choruses have been under the direction of Arthur L. Redner and Norma Wendelburg who are both graduate students at the University of Michigan and are part-time teachers at the Chelsea school.

"IN OLD VIENNA"

The gay, colorful operetta, "In Old Vienna," by Benson Wilson and Crane, will be presented in the high school auditorium on Friday evening, May 16, at 8:15. The entire production will be under the supervision of Arthur L. Redner, teacher of vocal music in the Chelsea school, assisted by thirty and student committees from the school. Mr. Morris Alpervitz will be in charge of stage scenery, Miss Esther Schell and Miss Mary Beam will be in charge of stage decorations, while the costumes will be taken care of by Miss Mary Lou Larson.

G. A. A. BOWLING NEWS

Last week was the last week of high school bowling with the Juniors coming out on top. The members of the team and their av-

erages were as follows: Donna Chapman, 100; Dorothy Laban, 114; Shirley Kolb, 123; Captain Mary Paul, 132; Rita Gross, 138.

The teams ending up in second, third and fourth places respectively were: sophomores, captain D. Gilson; freshmen, captain M. Johnson; left-over, captain H. Vail.

The bowling alleys opened at 8:45 for the girls each Wednesday and Miss Schell served as their advisor.

Wednesday they had a pot-luck supper in the Home Economics room, using split money to buy ice cream and cake.

STUDY FOR EXAMS NOW!

In a few weeks or even less for the seniors, final examinations will begin. Every year it is the same old story, everyone crams at the

last minute in an effort to review. Often this means staying up till all hours, skipping meals and getting very little sleep; the result being that one is in the worst possible condition for taking exams.

He's on edge, nervous and even a little jittery. Tell me, how can one possibly expect to do his best in these mental conditions? Naturally one can't; so why not take advice and start now? If one takes it slowly, a little at a time, he is much more apt to be better informed and in a better condition than the person who crams at the last minute.

Don't forget this either: in some cases finals may decide whether one passes or not, or what one's final grade will be. Everyone will profit by this little information. The better one's marks are the

easier it is for him to be accepted in a college or university. Consider this advice and act now, because tomorrow might be too late. Begin studying for exams now!

PARTIES

The "Spring Frolic" was held last Saturday night, May 3. The party was a great success as far as the decorations, entertainment and refreshments went. The gym was decorated in gay spring colors with a May-pole in the middle. A grand march and the winding of the May-pole was the entertainment. Cake and pop were the refreshments. There was one thing lacking—people! Where was everyone hiding! There were approximately 80 people there. Why do parties seem to lag in the spring?

KINDERGARTEN NEWS

The Kindergarten has been planning and constructing a miniature replica of the village of Chelsea. We have it nearly completed and will invite our friends to visit us, when the village is completed.

F. F. A. NEWS

Last Wednesday, April 30, the F. F. A. played Saine a baseball game and defeated them by the score of 9 to 2. Don Barth, who pitched for Chelsea, allowed two hits, walked two and struck out nine. Charles Sullivan received three hits including a home run. They are now making plans for the election of next year's officers.

Chelsea is to have a new factory, from which screw machine products will be the principal output.

Mrs. J. Dunkel and G. Lehman are at the head of the company.

Mrs. Jack A. Ward died at her home in Chelsea, April 15, aged 75 years. Mrs. Ward was born in Lima and was a resident of Chelsea and vicinity. Her sister is Mrs. Jennie Moore.

Mrs. Rebecca Leach Grant died at her home in Detroit, April 13. The deceased was a daughter of Mr. and Mrs. Thomas Leach, Sr., and spent several years of her life in this vicinity. Interment will be at Oak Grove cemetery.

A decided improvement has been made on the streets of Chelsea. On several of the streets the driveway has been narrowed and the parking can be extended. The village authorities extended the grade on South Main street to Wilkinson's corner and the Township Highway Commission will cover the road with gravel from the south village limits to the Territorial road. The work has been done by E. Bahnmiller with his traction engine and Chris Kaimbach and G. Hutzler handling the wheel scraping machine, stripping the roadways and filling the low spots. The finishing touches have been given to the roadbed by Wm. Wolff, who used the split-log drag.

President of the Village, McLaren made the following appointments: Howard Brooks, fire chief; G. A. Young, Fred Clark, Roy Dillon, and H. E. Cooper, fire marshals.

Jacob Hummel was authorized by the Common Council at their meeting Monday evening to purchase of Mrs. Lucy Stephens, at a price not to exceed \$500, a piece of land for the purpose of straightening Dewey Avenue.

A team belonging to J. L. Sibley and driven by Peter Oestle, who was delivering a load of potatoes to be shipped to Detroit, became frightened on North Main street last Saturday and ran away.

Married Sunday, April 20, in Windsor, Miss Katie Fritz and Mr. Albert Horton, both residents of this place. Mrs. Bert Castle accompanied the couple.

2700 New Teachers Needed In Michigan

Ann Arbor.—Although 769 county rural schools in Michigan closed during 1946-47, nearly 2,700 new teachers will be needed in rural schools next September, Dr. T. Luther Purdom, director of the University of Michigan Bureau of Appointments and Occupational Information, has reported.

Dr. Purdom's estimates of the need for teachers in rural schools are based on reports from school commissioners in every county of the state, included in the designation "rural school" are all schools having less than 12 grades, or 12-grade schools having not more than six teachers, Dr. Purdom has explained.

Last September, 8,979 new teachers were employed in the rural schools—teachers new to the community, though they may have taught in other places before. The Bureau's report shows. This compared with 6,186 new teachers employed in 1945-46.

Next fall, school commissioners estimate that the rural schools will need 2,682 teachers, which includes 1,752 teachers needed for one-room schools offering the first eight grades, the report indicates.

There are 4,336 rural school teachers in the state in 1946-47, out of a total of 32,442 teachers employed in all schools in Michigan. Of this number, 1,877 hold state board special certificates, which are emergency certificates issued to persons not meeting requirements for permanent teaching certificates, Dr. Purdom has revealed.

Legion Reaches Quota Of 800 For Boys' State at MSC

Eight hundred Michigan high school boys will get an intensive, 10-day course in the principles of democratic government this summer.

That fact became evident this week when the final registration for the American Legion's 10th annual Wolverine Boys' State was filed at the Legion state headquarters in Detroit. The full quota of 800 boys has now been reached, and no further applications can be accepted.

Chosen for their qualities of leadership and good citizenship, the Boys' State will assemble on June 12-21 at Michigan State college. There they will form into two political parties, organize into city and county groups, and set up a mythical "40th State" patterned after Michigan's constitutional form of government. They will elect their own officers and gain a first-hand knowledge of how democracy functions.

The 800 youths attending the 1947 Boys' State will come from all sections of Michigan and will represent every type of community and school. The majority of them, 544 to give the exact figure, will be sponsored by 260 of the 540 American Legion posts in the state. The remaining 256 will be sent by various other organizations—luncheon clubs, school and church groups, and business firms.

All expenses for the boys will be paid by the American Legion and the sponsoring groups. To date the sum of \$17,000 or \$22 for each of the 800 boys has been received to cover the cost of board and lodging during the 10-day session. Funds for other expenses will be forthcoming from the Legion treasury.

In addition to their training in government, the Boys' State will take part in various athletic events.
