

By Gene Alleman

The state capital is again sighing with relief.

The state legislature, now winding up its fifth month, is due to go home next week.

An adjournment of the legislature is always an occasion for rejoicing by legislators, state officials and legislative agents. This year's event will be more so.

The 1947 session has been distinguished by constant confusion. Although Republicans have been in complete control of both the House and Senate, leadership has been noticeably wobbly and actions have been quite unpredictable. Legislators have confounded everyone by reversing their stands on important measures. New tax programs have emerged periodically with bewildering and contradictory upsets. After confusion the 1947 session was the "worst" in 24 years, according to John C. Espley of Eagle, veteran chairman of the important house ways and means committee.

As we look back on this five-month phenomenon, we note several basic reasons why this condition has prevailed and also why legislators should not be criticized.

Constitutional ear-marking of its sources of revenue has put the state in a financial strait-jacket. Who is responsible for this dilemma? Two parties: Pressure groups which have sought special privilege or protection, and the people (you, the voter) which has supported these appeals.

The ear-marking of the gasoline tax and motor vehicle weight tax for highway use is a good example. The 15-mil limitation on real estate tax is another. The latest was the ear-marking of 76 per cent of the sales tax for return to local units of government. We are not disputing the merits of each proposal; we do point out its collective effect.

As Governor Sigler emphasized in his first budget message, state payments to local units of government have gone up \$138 millions since the sales tax was enacted. In that time the state has kept \$30 millions more for its own needs.

With very little left to spend, the legislature has had an almost impossible problem to solve. No other state in the nation is in such a jam. The legislators could either raise more money by new taxes or let the state government go into the red. It now appears at the eve of adjournment that the legislature succeeded in doing both!

Action on taxes was stalled for months while the state supreme court weighed validity of the sales tax diversion amendment. After the court ruled in favor of the constitutionality of the legislature then had the distasteful task of trying to balance the budget while the nation was undergoing the worst inflation in a half century.

It is always easier to find ways to spend money than to find ways to raise money, and Governor Sigler's program of new taxes was doubtless to be unpopular with voters. Shelled by legislators were these recommendations: soft drink tax, beer tax, taxes on a state property tax. A 3-cent cigarette tax was approved. Lost in the shuffle: a personal income tax (rejected repeatedly by the voters); a manufacturer's tax and reduction of the corporate tax ceiling. Featuring legislators' consideration of these proposals was the renewed feud between city and rural interests. Rural legislators were friendly to needs for more money for highways, while city legislators were hostile. Each group disagreed as to how the money should be spent. This is a perpetual conflict, and every state has it.

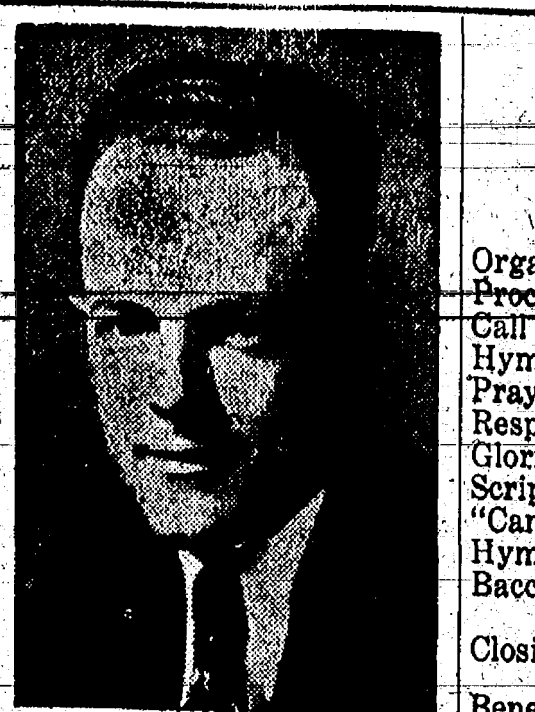

In the words of Governor Sigler, the ear-marking of public revenue by constitutional amendment has had the effect of depriving the representatives of the people (the legislature) of a true opportunity to consider and evaluate all the needs for public expenditure.

Granting that such is the case, it seems illogical to make the legislature the scapegoat for the confusion at Lansing since the first of the year. The root of the trouble, as we see it, goes right back to the "crazy" system of taxes, now being revised in a state constitution adopted shortly after the turn of the century and periodically revised since then. The sales tax diversion amendment may be re-submitted to the people in November, 1948. Approved by the Senate, the resolution is now before the House.

The prospect for a solution of the constitutional problem—this ear-marking of funds—is none too bright. If the House approves a Senate plan to create a constitutional commission, the higher administration can create a constructive step toward modernization of the state charter.

Until this is done, Michigan must continue to struggle along under the handicap of an off-patched constitution which the legislature taken away from the people. The power to spend public revenues accrues to changing needs. This confidence in the legislature. From the impression of this would seem to be the case. But we believe that the root of the conflict goes deeper than that.

As long as one agency of government collects money and another agency of government spends it, we will continue to have a confusion in tax responsibility. The sales tax has become "Lansing money," 76 per cent of which is (Continued on page eight)

## Special Election To Be Held On Monday, June 2

Voters of Chelsea are reminded that a special election will be held next Monday, June 2 for the purpose of deciding upon the proposal of the village council to sell the electric light plant buildings to Central Fibre Products Co. for the sum of \$10,000.00.

As stated previously, the council feels that in view of the fire hazard in the present location and the inadequacy of the present buildings, that a new warehouse and panel room for distributing equipment should be constructed on village property adjacent to the pumping station and filtration plant on North street.

It has been estimated by builders that construction of the proposed new building would cost less than the amount to be realized from sale of the North Main street plant buildings.

With the exception of office space needed by Central Fibre the electric light plant could continue in present quarters for a period of three years—one year with free rental and an additional two years at the nominal rental of \$25.00 per month, with the entire building to be heated by Central Fibre.

A majority of three-fifths of those voting next Monday will be required to carry the proposal. Don't forget to vote—and the council believes that it will be for the best interests of the village to vote for the sale, which will be a start in an over-all program in the improvement of Chelsea's electrical distribution system.

Mr. J. McClure, Village President.

## Advantages Of City Government Told Kiwanians

Chelsea can obtain more simple, more efficient, and more responsive local government by becoming a city, John Agnew, president of the Michigan Municipal League staff told a meeting of the Kiwanis Club at the Municipal Building Monday night. Mr. Agnew was introduced by Village President W. W. McClure.

Changing from the village to the city form, the speaker pointed out, is merely separating the municipality from the township and taking over the few necessary township functions. "Village residents are the only persons in Michigan who must live in, deal with, and support two local units of government. By becoming a city, the combine all local affairs into a single government responsible only to Chelsea residents," he said.

Mr. Agnew pointed out that as a city, Chelsea would have only one assessment or one assessment on property instead of both a village and township assessment. Similarly Chelsea residents would only have to register with the city clerk, who would conduct all elections instead of voting in village elections at one place and in other elections at another. Third, Chelsea as a city would have its own two supervisors in Ann Arbor, thus increasing the representation on the Board from the west end of the county. Fourth, becoming a city would require the adoption of a new and modern "home rule charter" tailor-made by Chelsea citizens for Chelsea instead of operating under the archaic 1895 village law. The new charter might well include provisions for the city manager and for government.

The speaker further stated that becoming a city would free Chelsea residents from paying township taxes forever, and would cause practically no additional expense. The only two new functions which the city would have to take over would be the collecting of school and county taxes and the conducting of county, state and national elections—all of which cost little or nothing.

## "NOT TO BE DISTURBED"

As the last day of school draws near we see the usual couples walking hand-in-hand through the halls. Here come some of them now. Nancy and Eddie, Marjorie and Bob, Marcelline and Jack, and last and the least but not the least, Helen and Jack. A few of the Junior girls and lasses are headed our way. Joyce and Oscar, Kathleen and Richie, Alton and Marjorie, and Mary and Bob. Riding around in their famous limousines are Doris and Don, Helen and Charlie, and Thelma and Bill. Cupid seems to be right at work with some of the "used-to-be" stage. We see Jim—returning—Joyce's smile—Mary Kay and Jim are in a corner talking with Marjorie and Eldean.

These people hardly even notice that school is drawing to a close. Don't you think that some one should interrupt these characters long enough to tell them?

## SCHOOL IS NEARLY OUT!

The exams are nearly through and Baccalaureate, Class Night, and Commencement are very near, and we find everyone tired and happy after the long school year. The long-awaited summer is finally here, and the books will not be touched for another three months. Then comes the last week of August and we find everyone busily preparing themselves for the coming year. The "1947" seniors will be missed, but there is always a new freshman class that will replace them. We hope that all of the past year's freshmen, sophomores, and juniors will come back. Goodbye! We'll be seeing you next year, we hope!

## BASEBALL

The Chelsea high baseball team is honored with seven wins and three losses in this year of 1947. Any present freshman in regard to school in reference to this matter will be held responsible next fall. They also discussed the possibilities of contests between next year's freshmen and sophomores.

## PEP MEETING

The last pep meeting of the year was held in the study hall Tuesday morning. The speakers in behalf of the seniors were Ray "Knick" Bob Stoffer and "Coach" Cameron. The seniors were requested to stand while Marcelline

When Fremont got out of school, he wants to travel in Alaska and the United States. He said that he will have to work hard to earn enough money to travel.

Your inquiring reporter spoke to Robert Shanahan and found out many interesting things about him. His birth date is September 10th, 1928, and he is one of the few freshmen in Chelsea high school. He has brown hair and blue eyes. He likes to get into a good baseball game; also a big steak with lemon pie suits him fine for a meal.

If you see a blond girl with blue eyes standing in front of her collection of big league baseball pictures, you may be looking at Shirley LeVan. She was born in the year 1928, September 10th, and her favorite food is goulash.

On March 8, seventeen years ago, Richard Kalmbach arrived in this world. Since then he has grown to be five-feet-ten inches tall. He has blue eyes and light brown hair and weighs 135 pounds. ## Fibre and Gulf Gas Win

Central Fibre and Gulf Gas broke the ice on the new season as they both came up with victories. Fibre got by Cassidy, 6 to 5. Cassidy put on a rally in the last inning but fell one short. Gulf Gas had little trouble with Manchester as they made 14 hits good for 9 runs and a 9 to 1 victory.

Spaulding and Bowser were at a 5 to 5 tie when the rains came to halt their game. All managers notice the change of schedule for next week, due to the graduation exercises at the high school. However, double headers will be played on Monday and Friday nights.

Weber's Grocery has jumped to the Ann Arbor league so that leaves only seven teams. It is hoped that one more team will enter to take their place. Munith is interested and may join to fill the missing link.

## BEACH SCHOOL NEWS

The pupils who have been on time every day this period are Richard and Phillip Bareis and Marian Moore. Phillip has been here every day this year.

We have made two nice afghans. The visitors were Kay Kohli, Harry, Shirley, Barbara and Mrs. Moomber and Blanche McVay.

We are making a picture of the zoo animals. We made May baskets, flowers and cards for Mothers' Day. The little children learned a little song for Mothers' Day.

On Friday, May 9, we went to the Field Day at Dexter. We played baseball and many other games. After we had lunch we went back and watched the baseball game.

Mr. and Mrs. John Stark, of Springfield, spent Saturday and Sunday at the Elderly home. Mr. and Mrs. Harold Davis and daughter, Nancy, of Ann Arbor, were also guests on Saturday.

## What Michigan Bell's WAGE SETTLEMENT Means . . . .

### TO TELEPHONE EMPLOYEES

Agreements signed last week with the Michigan telephone unions provide, among other things, for:

- wage increases of \$3 and \$4 a week for all present employees, depending on their length of service.
- even higher wage increases for employees in a number of Michigan towns because of reclassification of their communities to higher wage groups.
- including the effect of "fringe" items, an average increase of \$4.13 per week for employees, represented by the Plant, Traffic and Accounting unions.
- increases in beginners' rates and top rates where local conditions justify.

Telephone employees will continue to receive:

- extra payments for overtime, Sunday, holiday, evening and night duty.
- the usual merit and length-of-service wage increases.
- six holidays with pay; vacations with pay up to three weeks, depending on length of service; as well as sickness and death payments and pensions — all paid for in full by the company.
- steady work, not subject to seasonal layoffs.

Considering these other advantages, the settlement — which in itself amounts to more than 10 cents an hour — compares favorably with settlements recently made in some outside industries. These telephone wages increases have been granted even though the adjustments in outside industry will not be reflected for some time in the general wage levels of most Michigan communities.

But what is even more important is that some 19,000 Michigan Bell employees again are receiving regular pay checks.

### TO THE COMPANY

The settlement, together with wage adjustments for other employees, will add more than \$5,500,000 a year to Michigan Bell's costs of providing service.

For many months, the company's earnings for investors have been on a downward trend. In view of these new wage increases and other rising costs, rate increases must be requested of the Michigan Public Service Commission to keep the company financially sound so as to attract the new capital needed for expansion and improvement.

### TO THE PUBLIC

The settlement means that the public again has normal telephone services and Michigan Bell's million-dollar-a-week payroll again is contributing to the economic life of Michigan communities.

It will be remembered that the original union demands would have amounted to \$26,000,000 a year. The wage adjustments agreed on, which are geared to local conditions in Michigan, will cost about one-fourth that amount. This will mean telephone rates for Michigan customers considerably lower than would be necessary if the original demands had been met.

Last but not least, the settlement means that Michigan Bell can get on with the big job of providing telephones for the thousands of folks who are waiting, and making telephone service better and better for everyone.

A WORD OF THANKS — We would like to say "thanks" for your patience and cooperation during the telephone strike. We deeply regret any inconvenience which the strike may have caused you. And we sincerely hope that it will not happen again.

## Library News

The Chelsea Public Library announces a new service to library patrons. In so far as possible the library will attempt to have your letters from overseas translated. Since the war many local residents are helping to relieve the distress in Europe by their gifts and occasionally they are unable to read the messages they receive in return. Several requests have come for this service and with the willing cooperation of volunteers the library is now able to offer it.

School children will remember last year's reading program called "Quest of the Golden Apple." A few received the coveted golden apple in exchange for many happy hours spent with favorite books. This summer's reading plan will be planned and executed by Joan Schneider. It is sure to interest all young readers and is called "Junior Sweepstakes." Watch for further information on this exciting project.

**THANK YOU**  
American Legion Post 31 and Ladies' Auxiliary wish to thank residents of Chelsea and surrounding community for their contributions on Poppy Day.

**Memorial Day, 1947**

Again we come to a very special day in the year—the day of memories—the day of solemn tributes to our departed war veterans.

Memorial Day is for us—not for them. It is the day on which we, the living, reaffirm our patriotism and our devotion to American ideals, the high principles in de-

fense of which these men gave their lives.

This custom of setting aside one day in the year as Memorial Day for the defenders of our nation originated in the South more than 80 years ago, when a young Virginia girl, Cassandra Oliver Moncure, suggested Memorial Day when she decorated the graves of both northern and southern veterans in the month of May in 1866.

This service of love appealed to General John A. Logan, who commanded the Grand Army of the Republic. In the year 1868 he issued an order, designating May the thirtieth as Memorial Day.

That was the beginning of our custom to turn from worldly duties during one day in the year and pay respects to departed war veterans. It is the occasion for reverent tribute expressed by the living for the dead who gave their lives in support of high ideals. The brave men of the South, North, East and West have gone forth together to fight two World Wars during the past quarter century. They have united their loyalty, strength and courage to defeat foreign enemies seeking to destroy the American way of life.

Also on Memorial Day, we decorate the graves of our war dead with the American flag. That is a most befitting symbol of our respect for these warriors. The flag is truly theirs. They carried the Stars and Stripes into battle. They followed it through fierce fighting action on land, on sea and in the air. They hoisted it in victory, raised it over captured enemy territories. They made the red, the white and the blue emblem of this great American nation a living symbol of freedom for millions of peoples who had never before known the true meaning of freedom.

So the Stars and Stripes are very much a part of this Memorial Day because the men we honor gave their lives for our national flag and our national pride.

We can best honor the men who gave their lives for this nation by making our country the real leader for world peace—the true example of strong, vigorous peoples whose ideals and actions are stimulated by the honest desire for worldwide understanding and an action sense of justice between all men.

And so the war veterans who died did so to make these things come true. Let us pledge on this Memorial Day that we shall keep sacred their faith in us, and shall carry on their fight for freedom and peace. We shall keep strong this land they loved and we shall hold dear the price they paid for the liberties and happiness we enjoy.

These are some of our thoughts on this Memorial Day, and our message to those men who are absent—but not lost.

The Veterans of Foreign Wars of the United States have adopted the motto, from Abraham Lincoln's own words "Honor the Dead by Helping the Living." Make this your motto.

**YOUTHFUL BURGLAR CAUGHT**  
DEXTER—While making his rounds about midnight Friday night, Marshal J. A. Webster found someone in the Kroger store here.

Keeping the doors covered so the person could not escape, he was able to attract Mrs. LaRosa's attention as she drove by and asked her to call the sheriff's patrol car.

Soon, a considerable number had gathered around the store and the sheriff's car had arrived. Admission to the store seemed to be difficult but Webster was finally able to go in through the transom. Deputy sheriff Edgar Orbring also went in. Proceeding to the back of the store they found the burglar was a small negro boy who had entered the building through a back window and was able to squeeze in between the bars on the window. He was identified as Bruce James Wilson, 13, of Ypsilanti. The Dexter Leader.

"Mixing Corner Kitchen" makes short work of four big kitchen jobs! 1. Food storage—made convenient with a Servel refrigerator that has enough room for a week's groceries plus 60 packages of frozen foods.

2. Special ventilating system catches greasy cooking vapors at their source.

3. Automatic Gas Water heater supplies plenty of hot water for dishwashing.

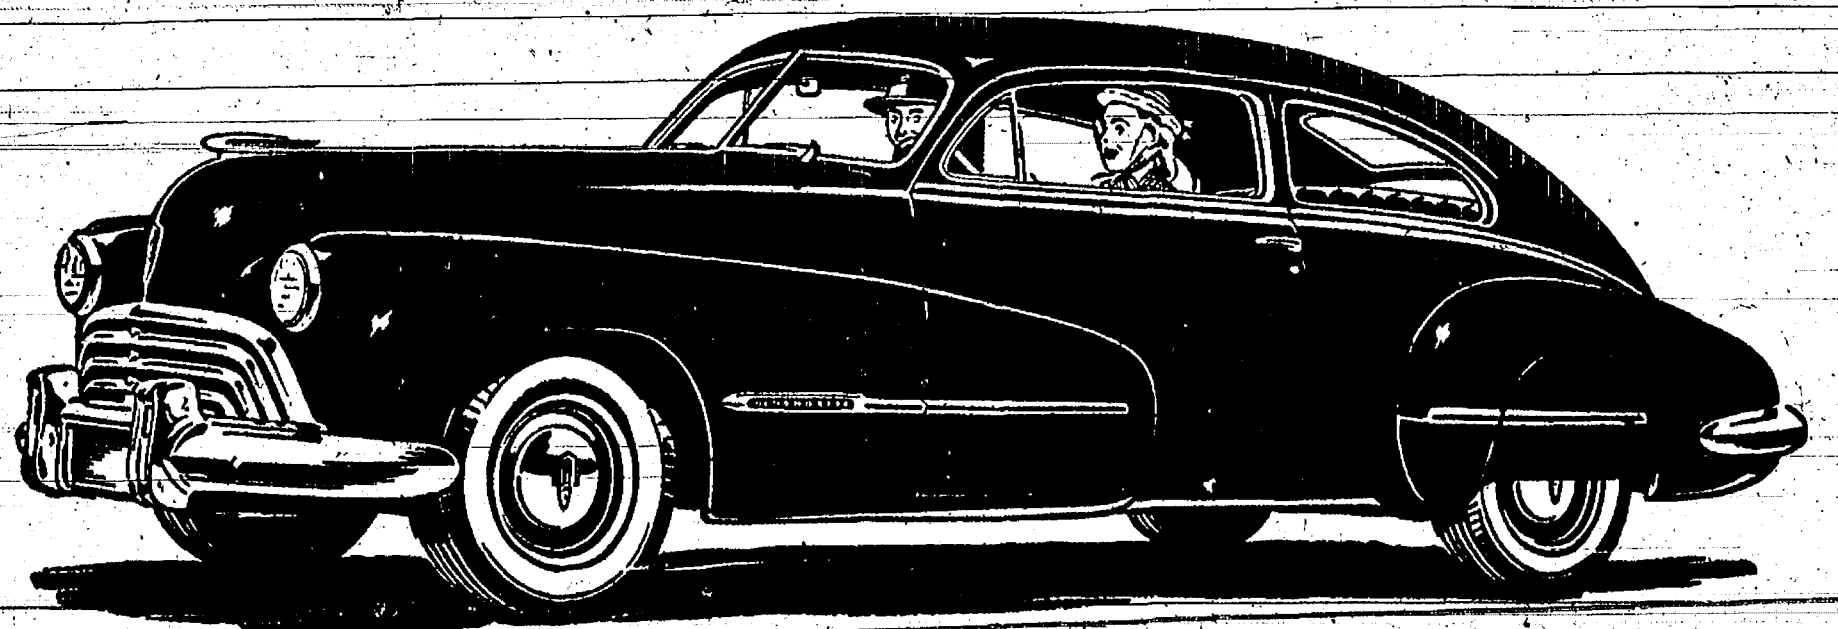

4. Gas range built to CP standards makes cooking easy. If your range is 10 or 15 years old, you are missing many convenience features found on the new automatic gas ranges.

### Want to Run a "Collective" Farm?

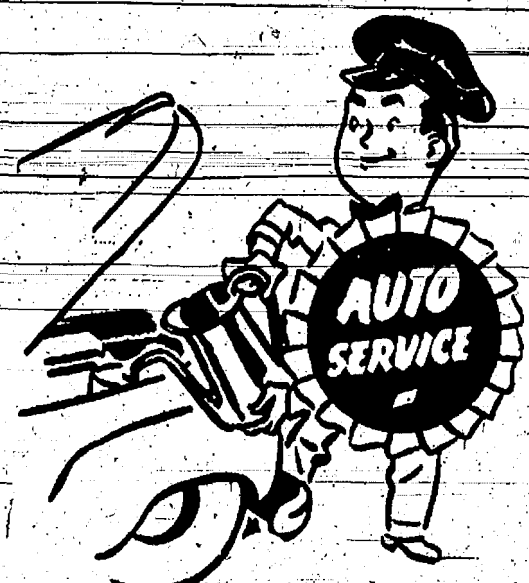

We read the other day about the "collective" farms they have in Russia. It seems the folks who run them have plenty of help, good hours... and the best equipment.

We're willing to work hard, but we like to farm the land our own way, put our own value on the crops, and relax as we like—if only with a temperate, companionable glass of beer.

From where I sit, collective farming may produce results. But the American way—freedom to work and relax as we see fit—is what makes this country a great place to live. So let's not change it!

Discussion of the report of the gas investigation committee which was given by Chairman B. B. Turnbull, occupied the greater portion of the time spent in regular session of the County Board of Health. The committee was instructed to investigate the needs of the village as to corner street lighting and report at the next regular meeting with recommendations which will probably result in installation of a number of new lights being placed.

A number of alleys about the village have been undergoing repair and being put in condition for travel. Discussion of the laying of sewer tile at time of paving South Main street completed the meeting.
