

Times are going to be better on Michigan farms. That is — despite the 1947 wet spring. Crops are getting along pretty well for one thing. Only one divorce has been recorded out of 600 marriages among members of the Michigan Junior Farm Bureau, according to Ruth Parsons, president. That's better by far than the nation's out-of-six record for the nation to-day.

Farmers' checks are bigger and better. Mortgage are being paid off. New equipment and buildings are being added in a program of mechanized agriculture. Farmer income, on a per capita basis, has finally exceeded the normal relationship to wage and salary income.

Our 1947 boom is riding into the second half of the year at a high level. Income payments are now at a record rate of \$177 billions a year. This rate is just about \$100 billions more than the pre-war level. Giddap, we're going to town!

More hospitals for Michigan rural areas are on the way, too. Governor Kim Sigler announces that Michigan is going to put its house to order. The state seeks to be eligible for \$10 million of federal funds available during the next five years for construction of rural hospitals in Michigan.

Uncle Sam is to pay one-third or more of such costs; local communities two-thirds. The federal law permits a higher priority to rural areas in allotment of funds. The 1946 state survey of the W. K. Kellogg Foundation proposes "one or more hospitals or medical service centers for each county." The foundation recommends establishment of 181 public health and medical centers in Michigan.

The Michigan State Medical society is sponsoring a Michigan rural health conference at Michigan State college early in September. Cooperating agencies include the State Grand and Farm Bureau.

For encouragement of character and religious education, the University of Michigan is currently sponsoring a "workshop" June 27 to July 7 under the able leadership of Dr. Edward W. Blakeman, university research consultant in religious education.

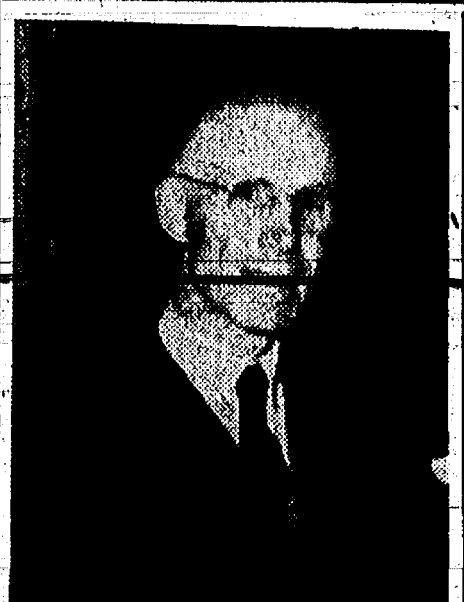

Along with other states, Michigan is now experiencing a post-war moral slump. Crime is rising rapidly. Apparently unaware of the moral law, "Thou Shall Not Kill," the Lansing county farm boy shot four children because "I always wanted to know what it would feel like to kill somebody." We could write a column on this subject — on lawless morals and our need for more religious education. Maybe we'll do it some week.

Better rural life in Michigan is the aim of a course in rural leadership at Michigan State college. July 10 to 18, a Michigan rural safety council has been formed to do something about the causes of 169 fatal accidents on Michigan farms last year. Burns and explosions accounted for one out of every three mishaps; machinery, one out of four; the rest, one out of four.

Gov. Sigler Signs Cigarette Tax Bill
Lansing.—Governor Kim Sigler signed the cigarette tax bill, a measure by which the state hopes to add \$18,000,000 to state revenues and reduce the anticipated budget deficit. The bill imposes a tax of 8c per package of 20 on all cigarettes sold in Michigan after July 1.

Although the tax is on wholesalers of cigarettes, retail stores having stocks of cigarettes on hand July 1 will not be exempt from the tax. The entire field staff of the department has been instructed to check all retailers on these returns, Mr. Nims reports.

Every wholesaler, vending machine operator, manufacturer, transportation company or any other person who acquires or imports cigarettes from unlicensed sources is required to take out a license with the state. The Michigan Department of Revenue, the state agency administering the tax, failure to take out such licenses when required is punishable by a fine of from \$50.00 to \$1,000.00 or imprisonment. Any persons who shall knowingly purchase or possess any cigarettes acquired from an unlicensed source and upon which the tax is unpaid shall also be subject to similar fines.

REV. O. W. MORROW
New Minister of Methodist Church

Reverend Orville W. Morrow, the newly appointed minister of the First Methodist church here, in company with Mrs. Morrow and their three children, arrived in Chelsea from West Des Moines, Iowa, on Wednesday afternoon, June 25, 1947.

For the past seven years Reverend Morrow served as pastor of the West Des Moines Methodist church and, through arrangements of Bishop Charles W. Brashers and Raymond J. Wason, was appointed to the pastorate of the Chelsea church on Sunday, June 15, to succeed Reverend Everett R. Major, who has served the local church since February 16, 1944.

Reverend Morrow left on Wednesday for Ottumwa, Iowa, where he was transferred following his request for a pastorate nearer to Mrs. Major's mother, who has been ill at her home in Burwell, Neb.

Although Reverend and Mrs. Morrow have come from a distance, they are in reality former Michigan residents and have a number of relatives here.

Reverend Morrow was born in Toronto, Canada, and came to the United States with his parents when he was one and a half years old. They lived for a time in Port Huron where they became citizens of this country. Then lived for 10 years at Harbor Beach, Michigan.

He grew to manhood at Birmingham, Michigan. He has a brother, George Morrow, with the Chevrolet company at Flint, and another brother, Ira of Detroit, who is a salesman on a Great Lakes Iron carrier. A sister, Mrs. Ethel Morrow, lives in St. Clair, Michigan.

Mrs. Morrow, who spent her girlhood in Adrian, also has relatives near here. A brother, Rev. Harry H. Morrow, is pastor of the First Methodist church in Pontiac; a cousin, Mrs. Leatha Drake, and Mrs. Morrow's step-mother, Mrs. Henry Lord, reside in Adrian. The Morrrows stopped at Adrian for a short visit with them enroute to Chelsea.

"Lefty" Ray Peterson to Hurl for Elks in All-Star Game, Friday

Friday, July 11, the "Elks" Club of Ann Arbor will furnish the opposition as the first All-Star game of the season get under way. "Beer Coolers" of Ypsilanti will play the opening game.

Peterson, one of the best pitchers in Ann Arbor, will toss for the Elks, which by the way, are a Class A team, high in the Twilight League standings, the fastest league in Ann Arbor.

The Chelsea teams will be strong also, as they are picked from the eight teams in the Chelsea softball league. Muntz, Dexter, Manchester, Cassidy Lake, Central, Fibre, Spaulding, Bowser and Gulf Gas all have members on the two teams.

Bill O'Dell of Spaulding will have charge of the Chelsea team in the 7:00 o'clock game while Don Alber of Gulf Gas will take the night cap. Watch for the starting line-ups in next week's paper.

MARY ELLEN LEWIS
MEA Head Will Fight Sales Tax Amendment Repeal

Miss Mary Ellen Lewis, Ann Arbor, takes office July 1 as president of the Michigan Education Association of 30,000 teachers. Miss Lewis is the first class room teacher elected to a full term for this office. She is teacher of English and history and girls' counselor at Ann Arbor High school.

Miss Lewis, who takes office July 1 as M.E.A. president, expects to marshal the 30,000 members of the association in a vigorous fight against the repeal of the sales tax amendment, and also in campaigns to modify the 15-mill property tax limitation. One of the proposed amendments would permit the millage to be increased by a majority rather than a two-thirds vote, and the other would extend the bonding period to fifteen years, instead of the present five-year limitation.

July 4th — Bell, Symbol of Liberty

"We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain inalienable Rights, that among these are Life, Liberty, and the pursuit of Happiness. That to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed. That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness."

Dexter, Munith and Manchester Win as Spaulding Drop First

By "Doc" Aiber
Come Monday and Munith and Gulf Gas threw in everything they had and came up with one of the better ball games of the year.

Dutch Polich slammed a home run in the last of the sixth to send the Gulf boys into a 2-1 lead and only three men to get, but Munith scored twice in the seventh on errors to win Gulf Gas had no one left but the rally. Spaulding presented for discussion and approval. Dates for the summer trip are August 7-15.

Manchester won their first game of the season by out scoring Fibre 9 to 5. A good ball game all the way through with plenty of good plays. Bill Petrola, Manchester catcher, played a bang up ball game, with his strong throwing arm he picked several men off base and kept the rest of the Fibre boys very close to the bag. Also Manchester's grandstand third baseman had a good night. Just ask Doug, Sam, Jack or Charlie.

Chelsea Independents Win Over Saline 6-3 in Thrilling Game Sun.

By "Bill" Schatz
Saline, June 29.—Hot, dry and thirsty, Chelsea emerged from a Turkish bath on the long end of a 6 to 3 score. Believe us, we had no cinch domesticating those Saliners. They are a hale and hardy lot.

First inning, Chelsea retired 1-2. Saline collected 3 runs in their half on 2 hits and 2 errors. Second and third innings, both sides retired in order. In the fourth, Chelsea came to life, tied up the old ball game at 3 all. At this point Saline started rushing in their reserves. They played every one but the fine job on the mound.

Chelsea filled the bases in the 6th and 7th and 8th, but no dice, just could not get that one run across (and let's forgive 'em, the heat really had 'em). By this time Saline had their third pitcher looking "Jumping" Pete, manager of our locals decided it was now, so he sent the clubmen in with orders to spoil every good pitch. After the smoke had cleared we had 3 more tallies in our half of the 8th. Only 2 more outs to go and Big Slim McClenahan, who had allowed only 4 hits during the game, decided that's all, brother, that's all. He got 2 at the plate by the strikeout route, the other an easy out. We win 6 to 3 and our record for the season remains 1,000. Slim, a fine job on the mound, remaining complete master of ceremonies, striking out 9, walking one and allowing only 5 hits. He was supported by two very fast double plays and a couple of other fielding gems.

Following were the line-ups:
Chelsea.....Saline
L. Birch.....2nd P. Hock.....2nd
A. Polich.....3rd G. Brosgov.....3rd
S. Koneske.....3rd B. Hallock.....3rd
S. Polich.....3rd R. Armbrister 3rd
McClenahan.....3rd Brasseau.....3rd
J. Miller.....3rd R. Brasseau.....3rd
H. Barth.....3rd D. Decker.....3rd
J. Miller.....3rd B. Koonce.....3rd
J. Miller.....3rd B. Koonce.....3rd

Saline used 14 players. Among them 3 pitchers who gave 7 free tickets to first, striking out 2 men. And so, boys and girls, ends the battle of the heat wave.

Saline certainly is blessed with a fine Municipal Ball Park at the rear of a beautiful mile long park, nicely landscaped with trees and shrubbery. They have a liberal supply of drinking fountains, and up-to-date lavatories on the grounds. There were many benches and fine picnic tables, also tennis courts and artificial field. Fans were really enjoying themselves in the cooling shade of fine old elm and oak trees. Just a swell little spot on a sweltering day.

Remember, folks, next Sunday, July 6, we engage Pinckney here at Chelsea. Let's all turn out.

First Day of Fishing Calls Forth Lots of Comment by Anglers

Local fishermen were out en masse bright and early Wednesday morning to try their luck, while stores which had been filled for days with people buying sinkers, hooks and lines, and other more elaborate fishing equipment, were suddenly doing no business to speak of.

Reports of catches the first day show that most anglers got their limit early and everyone that went had fairly good luck. However, those who had to wait until the second day to try their luck couldn't seem to get nibble, even. Some of the older fishermen claim it was because of the weather, but maybe even a fish can learn to stay out of sight when he knows every one is after him!

On Sunday it was reported, 30 boats were out on Joslin Lake.

Some fishermen went farther away, among them Bill Kurtz and Jim Nutt who went up to Port Austin for two days, Wednesday and Thursday, and fished in Lake Huron. They came home with their limit of perch but said bass were not in yet.

Fish stories have been going the rounds the past week and among them was the following brought in by one of our local prolific yarn spinners:

Things come and go but the fish stories go on forever. Old man Waiton really started something when he started this fish business, made a lot of modern ananias. Now right here in Chelsea we have a lot of professionals (I mean fishermen, not ananias) who never prevaricate about angling. I don't want to mention any names, mind you, but I was in a certain business place on West Middle street, the other day, where a lot of fishermen hang out and a certain George, or was it John?—no, it was George claims he got his limit of blue gills in less than five minutes the morning of opening day, June 25. (Truth?—sure, it was the truth, the whole truth and nothing but the truth.)

Then he said he hears an awful splashing over near his favorite pond, he said, so he rows over real quick, he said, and a cast lure among the lilies and lo and behold it happens! This fellow grabs the bait and makes a bee-line along the edge of deep water—George hangs on, fighting every inch of three times around the lake. (It's two miles around the lake, he claims he has to cut him loose before it happens!) This fellow grabs the bait and makes a bee-line along the edge of deep water—George hangs on, fighting every inch of three times around the lake. (It's two miles around the lake, he claims he has to cut him loose before it happens!) This fellow grabs the bait and makes a bee-line along the edge of deep water—George hangs on, fighting every inch of three times around the lake. (It's two miles around the lake, he claims he has to cut him loose before it happens!)

All the local fishermen report from fair to good catches the first day, although no extra large fish seem to have been taken. Blue gills, roach and calicos head the list with bass and perch in evidence.

But—I just can't get over that George and Cokie deal. Now, the whole thing even begins to smell fishy!

Motorists Urged to Exercise Caution and Live over Week-end

With the Fourth of July holiday falling on Friday this year, an unusually heavy volume of traffic is expected to be present on the highways.

If fair weather prevails the State Highway department estimates that traffic volume over the Fourth will be 20 to 25 per cent higher than last year, and five to 10 per cent higher than the last pre-war year of 1941.

Extra duty traffic patrols have been ordered for the state highway patrol, to extend from 3 p.m. July 3 to 3 a.m. July 7. To be careful, just remember that 10 persons were killed in auto crashes in Michigan over the holiday last year and that has the lowest number of fatalities in the last nine years.

Out-of-State Vet Advisor to Address Conference
Dr. Randall B. Hamrick, director of the Bridgeport (Conn.) Community Advisory Service Center, will address the veterans' counselors of Michigan at their fourth annual conference at Pine Lake camp, June 26, 27 and 28, the Office of Veterans' Affairs announced.

Dr. Hamrick, fourteen years a trained psychologist, has seen the Bridgeport center develop from meetings of a number of individuals and community groups discussing the problems of returning veterans to a full-scale one stop community advisory center with all state and federal services combined under one roof.

The Pine Lake conference, as it has come to be familiarly known by those in Michigan devoted to veteran assistance, will have representatives from Michigan's many veterans' counseling centers, veterans' organizations and other groups interested in serving Michigan's 600,000 veterans. As a new device in the further training of these counselors, the conference will be in the form of a participating work-shop, with those advisors able to speak from years of experience with returned servicemen of two wars, conducting group panels and discussion forums.

The Institute of Counseling, Testing and Guidance of Michigan State College has arranged to provide the services of two skilled counselor-trainers, Ray Hatch and Edgar Harden, to give a demonstration of good and bad counseling.

Staff members of the Office of Veterans' Affairs will be on hand to act as resource persons in their many fields of activity.

V.F.W. Pledge
Support to O.V.A.
The 28th Annual Encampment of the Department of Michigan Veterans of Foreign Wars held at Sault Ste. Marie, June 19-22 elected Merle E. Hopper of Charlotte, as Department Commander, Otto Beaudoin of Detroit, Senior Vice Commander and Herbert Devine of Flint, Junior Vice Commander.

Hopper pledged to assist posts in developing programs which would increase their value to the communities; to fight communism; to support a long range veterans' housing program; to work for each payment of terminal leave bonds; to secure establishment of a National Veterans Cemetery in Michigan; to work for a strong national defense program, and programs to foster true patriotism.

The Encampment at its general assembly unanimously passed a resolution pledging the full support of the Veterans of Foreign Wars to the successful operation of the State Office of Veterans' Affairs, and also went on record expressing appreciation to the Hon. Kim Sigler, Governor of Michigan, for his fair and considerate approach to the problems of veterans and their dependents, and his support of legislation beneficial to those men and women, who by their service in the armed forces of the United States, made it possible for free assembly to be maintained in our great state and nation.

The Picnic Was a "Hug" Success!

Our local Wild Life League went on a picnic Saturday, and I went along to cover it for the Clarion. Monday, folks kept stopping me, and saying: "Must have gotten out of hand, that picnic!"
"Nonsense," I says. "It was mighty pleasant and congenial. Just beer and hot dogs, cheese and cider." And then they showed me the headline-reading: "WILD-WIFE PICNIC HUG SUCCESS!"
Of course it was Elmer, my typewriter, who had made the mistake. But is my face red! It's only because folks are so temperate and well-behaved in our town, that they could afford to take the whole thing as a joke.

From where I sit, even a newspaper editor's entitled to a few mistakes. And since I reported that they served a moderate beverage like beer, I'm sure nobody thinks the picnic was the least bit wild, or anything but a huge success—and I mean huge!

Stored Hay Should Be Checked Often for Overheating

The grim fact that Michigan farmers lose an estimated \$250,000 each year from fires caused by spontaneous ignition of hay is important at this time of year, points out F. W. Roth, farm safety specialist at Michigan State college.

A few precautions can help cut the danger of hay fires. Hay should be well cured. Its moisture content should be less than 25 per cent. Loose and chopped hay should be evenly distributed in the mow.

Heating of the hay takes time and the hay should be checked continually for two months after it is put in the mow. A hay prod thermometer can be made very inexpensively and will give a good check of the temperature of the hay. The outfit consists of ten feet of one-half inch electrical conduit with an oak or ash point on one end to make driving into the hay easy.

Six one-quarter inch balloons are punched in the conduit above the point. A dairy thermometer on a string is then put into the conduit. A rubber pad at the bottom of the tube will keep the thermometer from breaking.

To use, the prod with the thermometer inside is inserted into the hay and left 3 to 5 minutes. The thermometer is then pulled up with the string and read immediately. If read at once, the temperature drop in the thermometer will not exceed 1 or 2 degrees F.

If the temperature reads 180 degrees F., check often and get as close as possible to 100 degrees F. Don't work in the mow alone if the temperature is excessively high. Adequate fire fighting facilities should be at hand if heated hay is to be removed and someone who understands the correct removal of heated hay should supervise.

Cherry Trees Need Spraying at Once

Reports indicate that cherries should be sprayed at once for the control of the cherry fruit fly. Two pounds of arsenate of lead to 100 gallons of water should be used. A second spray necessary 10 days later. Cherries if not sprayed may become infested with small fruit magots. If cherries are to be used as fresh fruit and there is danger of arsenate of lead residue, control can be obtained by the use of rotenone—three pounds of 4.5 rotenone in 100 gallons of spray.

There should be three applications of this spray at seven day intervals. Rotenone will leave no harmful residue. It is always a safe spray to use on edible fruits and vegetables. Small quantities of spray can be made by using seven teaspoons of spray material to one gallon of water.

Chinese Agriculture

The vast majority of the Chinese people live on a subsistence level, 60 per cent working farms which average four acres. The farmer's margin is so thin that unless weather, economy, politics, prices and taxes are in perfect balance, he and his family will not have enough food or clothing.

What's hot as a and pretty as a

In two short words—this one!

This big and brawny beauty with the trim, bold front and the long sweep-through fenders.

This broad-chested traveler with the big Fireball straight-eight engine and the spirit of lively action in every line and movement.

This gracious, spacious carriage that seats three in comfort both front and back—handles light as a baby's stroller—strides always level and smooth on big, soft, cushiony coil springs on each of its four wheels.

This stout and ready Buick, fresh in looks as tomorrow's daisies, rugged as a battle cruiser, and full of

zip and pepper as a string of popping firecrackers.

You're looking at America's most wanted car every time you see one.

You're looking at the forecaster of fashion, the top star on performance, the standout buy for size, room, steadiness, comfort.

So naturally it's in demand. In such steady demand, in fact, that about the most Buick's slowly mounting

production can do is move you a little faster from the bottom of our waiting list to the top.

Needless to say, we'll do all we can to speed that process. We'll take your order any time, with or without a trade-in, and get you your Buick the minute your number comes up.

But we can't do more than you'll authorize us to do—which means we're stymied till you get your order in.

ONLY BUICK HAS ALL THESE STAR FEATURES

* AIRFOIL FENDERS * BUICOIL SPRINGING

* FIREBALL POWER—from valve-in-head straight-eight engines in two sizes.

* ACCURATE CYLINDER BORING

* SILENT-AXLE BODY MOUNTINGS—scientifically placed for a firm and quiet ride.

* FULL-LENGTH TORQUE-TUBE DRIVE

* BROADRIM WHEELS

* STEPPON PARKING BRAKE

* FLITEWRIGHT PISTONS—for fast, leg action, swift response, reduced load on bearings.

* PERMI-FIRM STEERING—light but positive control with reduced need for adjustments.

* DEEPLUX STAY CUSHIONS

* CURL-AROUND BUMPERS

* NINE SMART MODELS
