## Michigan MIRROR

By Gene Alleman

Governor Kim Sigler has a tough nut to crack. How can he successfully dissociate his personal ambitions from his new program of constitutional reform?

It's not an easy task. The problem boils down to something like this: Sigler is asking the legislature to submit amendments to Michigan voters next November. These amendments, if approved, would lengthen terms of the governor and other state officials from two to four years, would permit the governor to appoint the secretary of state and attorney general, would permit legislators to set salaries for their successors and elect state officials, and would permit the calling of a constitutional convention by a majority of the voters cast for such a convention call, not a majority of all voters who go to the polls.

These steps would make for a better and more responsible government in Michigan. But a number of legislators are yet to be convinced. They link the reforms to personal ambitions of Sigler, a desire to get greater power for himself, not for his successor.

If Sigler is re-elected in November for a second term, the four-year term amendment would go into effect on Dec. 1, 1950, instead of Jan. 1, 1951.

As Sigler sees it, the Dec. 1 inauguration date is evidence itself that he would deprive himself of one month and that this would benefit his successor, not himself. While he has not said he would retire at the end of a second term, he had plainly implied it.

Furthermore, the governor has emphasized repeatedly that he does not look upon the governorship as a stepping-stone to the United States Senate or other political public service. He would like to do something about better government, and he is not satisfied to hold the office of governor unless he strives to accomplish this.

In the governor's mind, the reform program should not be associated with Sigler's political future. But it is inevitable that some legislators will want to be convinced. Frankly, they're not altogether sure.

For one thing, the governor's amendments would strengthen the power of the governor and other elective officials, but they would do little for legislators. The right of the legislators to increase salaries would not apply to themselves but to their successors. Legislative incumbents would be exempt. State officials would not. While terms of state officials would be stretched to four years, terms of senators and representatives would remain at two years.

Speaker Victor A. Knox of the Senate said there is a feeling among many members that they would grant a four-year term to the governor, the same reasoning would apply to the legislature itself.

Original charter members of the party club present at the birthday party were Warren Daniels, who was the club's first president.

Gov. Sigler points out that since the 1908 constitution was adopted, only five governors have served more than one term. "Most of the time we have had a shift of administrations every two years. In the light of these facts, anyone wonder why a well planned program of state government has not been carried out?"

"Does anyone seriously contend that a worth-while program can be accomplished in two years? ... Governors are not in office long enough to lay out a program and see it through."

As for greater power for the governor, here is a quotation from Sigler's message to the legislature: "It is the governor to whom the people look for administrative accomplishment, and whom they blame for lack of it. The tools of administration, however, have not been provided to enable the chief executive of our state to fulfill this responsibility. There should be authority commensurate with that responsibility."

Governor Sigler asks the legislature to create a state department of administration which would take over functions of numerous state boards and agencies. The governor would appoint its director. This department would handle budgeting, purchasing and accounting. This department would give the governor, says Sigler, "a right arm" with power to get results. It is a good illustration of what Kim Sigler wants.

## Kiwanis Club Observes 24th Anniversary

### Awards Made to Local Members for Attendance Records

In observance of the twenty-fourth year of its organization the local Kiwanis club on Monday evening held a birthday party, with wives and lady friends of members being invited as special guests. A total of 95 persons attended the dinner, served in the Municipal building at 6:30 o'clock, and the program which followed.

Greetings and congratulations were extended to the Club on its birthday by representatives from the local, Joe Alexanian of Lansing, Jackson, Dexter and East Ann Arbor, who sent a delegation of 13 members out of their total membership of 33.

Proceeding the program and during the meal Harry Winsford of Lansing entertained with harp music. The principal speaker of the evening, Joe Alexanian of Lansing, Past Governor of the Michigan District, Kiwanis International, addressed the gathering on the subject, "America For Me." Mr. Alexanian, born in southern Turkey at a time when that country was suffering from internal turmoil and unrest, described his own personal sentiments and joy at finding American freedoms and opportunity to be as real upon his arrival in the United States when he was 18, as he had been told and dreamed they would be. His true life story is one which awakens a realization too often overlooked by native-born Americans who have accepted their freedoms lightly.

In recognition of outstanding attendance records at club meetings, John Hoy of Dexter, who is Lieutenant Governor of Michigan Kiwanis Division No. 6, made awards as follows:

Waldemar Grossman, William Schatz, James Nutt, Robert Foster, Douglas Lange, Kenneth Ransim, Graham Sprague, Anton Nielsen and James Daniels for 50 consecutive meetings.

Rev. W. H. Skentelbury, for 100 consecutive meetings.

James Liebeck, Parker Sharard and Carl Schwieger, 150 consecutive meetings.

Victor K. Skentelbury, Lowell Davison, Russell McLaughlin, Tom Smith and H. T. Moore, for 300 consecutive meetings.

Alfred Mayer for 400 consecutive meetings.

Paul F. Niehaus for 1200 consecutive meetings, or a perfect record for 24 years.

Rev. W. H. Skentelbury was also presented with an honorary plaque in recognition of his leadership as president for 1947.

Original charter members of the party club present at the birthday party were Warren Daniels, who was the club's first president.

Gov. Sigler points out that since the 1908 constitution was adopted, only five governors have served more than one term. "Most of the time we have had a shift of administrations every two years. In the light of these facts, anyone wonder why a well planned program of state government has not been carried out?"

"Does anyone seriously contend that a worth-while program can be accomplished in two years? ... Governors are not in office long enough to lay out a program and see it through."

As for greater power for the governor, here is a quotation from Sigler's message to the legislature: "It is the governor to whom the people look for administrative accomplishment, and whom they blame for lack of it. The tools of administration, however, have not been provided to enable the chief executive of our state to fulfill this responsibility. There should be authority commensurate with that responsibility."

## Anonymous Letter Writers Answered by Police Spokesmen

Law enforcement officers of the village and county report that they have received, at intervals, anonymous letters telling of certain houses in Chelsea, where the letters state, gambling and illegal sale of drinks is taking place, and asking why nothing is being done about putting a stop to the practice.

Something could, and would be done about it, officers state, if persons knowing or suspecting that such conditions exist would be willing to cooperate to the extent of backing up the officers in their attempt to clean up such places.

Conditions could be quickly remedied if people openly gave what information they believe to be true to the proper authorities and then, if the suspected persons were brought to trial, be willing to testify in court.

Anonymous letters, however, are not enough; something more definite needs to be done if the anonymous writers wish to see the alleged unlawful conditions remedied.

## Vets May Benefit from On-Job-Training in Agriculture Course

Due to numerous requests from veterans, plans are underway to provide the necessary arrangements whereby any World War II veteran may receive On-Job-Training in Agriculture.

The Public Law No. 346 entitles any honorably discharged veteran to learn any one of the many trades and occupations in his community and receive a subsistence allowance while learning.

The local school is to provide the facilities for instructions of the technical skills while the practical phases are carried out on the job or farm.

Each veteran should determine his needs and desires and make the proper application for this benefit. He must have employment on a farm where he may do the practical training work.

Any veteran who is eligible and interested for such benefits should contact Charles H. Osgood, Agricultural Instructor of the Saline High school immediately since the number accepted in the beginning course is limited.

## Desirability of Forming Soil Conservation District To Be Discussed at Public Hearing

### Meeting with State Officials To Be in Pittsfield Grange

Last week, definite steps were taken to further consider the organization of a Soil Conservation District in Washtenaw county. During February, the advisability of such a district was discussed by different community farm bureaus, granges and farmers clubs.

At the meeting last week, they decided to circulate petitions requesting such a district. This petition is a requirement by state law and has to be presented to the State Soil Conservation Committee for approval. Twenty-five signatures meets the legal requirement, but five hundred signatures were obtained within five days.

The State Soil Conservation Committee has designated Wednesday, April 7 as the date for a public hearing. It will be held in the Pittsfield Grange Hall, Saline, Ann Arbor-Saline Road at 8:00 p.m. At this meeting the State committee will listen to the arguments for or against the organization of such a district. From the evidence submitted and the number of names on the petitions, the State committee will then decide on the advisability of approving the organization of a district. If it is approved, the next step will be a referendum vote of the land owners. At the same time the vote is taken, three farm directors are also elected. Two are appointed by the State Soil Conservation Committee upon the recommendation of the county committee. The five directors are then charged with the responsibility of directing the work of the district.

But there are other small fry who can't go on Easter egg hunts. Their promise of a new life and hope depends on us. These children are the crippled children for whom the national voluntary organization now pleads.

The Washtenaw County Society, with headquarters at Ann Arbor is the affiliate of the Michigan Society for Crippled Children, one of the 45 member societies of the National Society for Crippled Children and Adults. Paul F. "Jerry" Niehaus is the local chairman and the Chelsea Kiwanis Club is sponsoring the sale in Chelsea.

To show their appreciation to the ladies for their help with the two dinners and the get-together meeting, held during the year, the men of the Eagles entertained their wives at a dinner entirely prepared and served by the men at the FOE Temple Saturday evening. Everyone who attended reported that it was a very enjoyable evening's entertainment and that the dinner was excellent. The dinner consisted of roast beef, potatoes, coleslaw, ice cream, cake and coffee. About seventy-five were present.  
Don Black, zone director of Jack-

son, with his wife, attended the dinner and spoke to the group on the subject of forming a Ladies' Auxiliary here, explaining the procedure necessary and giving suggestions on how to go about forming such an organization.  
Thursday (tonight) there is to be a special meeting for Eagles. John Minor of Lansing, and another state organizer will be present.

Through the open stained glass windows of the church we can hear the thrush's sprightly note . . . and we know it's Easter . . . the time of the Resurrection of Christ. When we see a plowed field ready for the seeding we know this productivity that feeds the nation . . . that employs scores of Americans in gainful labor . . . is a manifestation of Him, too . . . When we see one neighbor shake another's hand, one nation discussing "PEACE ON EARTH" with another . . . we are certain of Him . . . And when we hear the organ intone the immortal hymns sung by our children in church . . . we feel a joyous communion with Jesus . . . a faith and devotion which enables us to enjoy . . . throughout all the seasons . . . our pleasures . . . to endure the hardships, the disappointments, the uncertainties of a constantly changing complicated world.

**CARD OF THANKS**  
In memory of George W. Hart. I thank you for the flowers, the cards and gifts, dear friends; I thank you for the hours which you, collectively, did spend. Sometimes limited to minutes, perhaps half-hour straight, which helped to lift his spirits, as through weary hours he'd wait. And hope, and pray and struggle to get around again. For it was an awful tussle for a once-so-active man. I thank you for your prayers, your good wishes, and what's more. I thank you for your friendship to one who set much store. On the true worth of all good people. 'Twas more than a year But he kept on trying, hoping that good health would reappear. So to all who've shown him kindness, at any time, in any way, I send my dearest gratitude for what I can't repay.  
Dorothea C. Hart.

It's Being Done at Willow Run! Kaiser-Frazer Introduces Four New 1948 Models • The 1948 KAISER • The 1948 KAISER CUSTOM • The 1948 FRAZER • The 1948 FRAZER MANHATTAN AT NO INCREASE IN PRICE! While Other New Car Prices Are Advancing HERE'S WHY Kaiser-Frazer can make this announcement while other new car prices spiral upward. Kaiser-Frazer controls its own supply of many basic raw materials... has its own engine plant, foundry and steel mill. Materials from these sources funnel into new and modern Willow Run—the largest automobile manufacturing plant in the world under one roof. Unfinished steel goes in one end of this great plant and comes out a quality automobile, ready to be driven away. All this is accomplished in a matter of hours, and with the economy of Kaiser-Frazer straight-line production. This is an achievement of men who are injecting new methods and ideas into an old industry. In the new 1948 Kaiser, Frazer, Kaiser Custom, and Frazer Manhattan you get all the features that others have attempted to copy since Kaiser-Frazer design was introduced in 1947. So far no one has been able to more than approximate the graceful exterior body lines. No one has come near matching the roadability... the ride resulting from seats cradled between the front and rear wheels, such wide seats with both elbow and shoulder room. And none have the style features, the wide choice of colors and fabrics. You get all this plus the many refinements made possible by years-ahead engineering and design. And, of course, all 1948 Kaiser or Frazer cars have the new Goodyear 24-pound pressure Super-Cushion tires that make bumps something you see but never feel. Enjoy a ride today in America's newest new cars—the 1948 cars that have not gone up in price! We Invite You to SEE, DRIVE and COMPARE Them, Today! SPRAGUE MOTOR SALES 137 Park Street Phone 5901

School will be closed tomorrow afternoon for Good Friday services. Pictures of the Rose Bowl game were shown Tuesday, Mar. 23. There will be a district Hi-Y conference held here, March 31. Miss Gertrude Verry from Foote Memorial hospital in Jackson will discuss the nursing profession with the Junior and Senior class girls on Mar. 29.

**EDITORIAL**  
"Suddenly, it's Spring!" Along with spring, weather comes muddy lawns. During this season, it is too much to ask of students to keep off the lawns? Not only the

school lawns but the lawns of the people near school are soft. Remember, when you start to school instead of taking a short-cut across lawns start a little earlier and use the sidewalks. That's what they are there for. When you see your best pal down the street don't run across the lawns to meet him; because the owner certainly doesn't appreciate it.

There is more than one reason for staying off lawns while they are soft. You not only ruin the lawns but you also track up the school with your muddy shoes. Then there is always the pest who puts his feet on the seat to tie his shoe. Later you see Sally walking down the hall complaining about the mud on her dress. These are only some of the things which result from walking across lawns. You surely wouldn't appreciate someone walking across your own lawn, so don't take short-cuts across other people's lawns. For all those concerned remember the

**SMALL TALK**  
Why was Joan Hughes so disgusted in Speech class when Mr. Newkirk said the speech play was not going to be given until after spring vacation. Could it be that a certain boy in study-hall is going to be in the play?

Seems there's quite a rumor around school that the Sophomores girls are going to win the class tournaments. What about it, Juniors?

What was all that laughing about at Junior play practice last Wednesday night? Could it have been the appearance of Mae Slare?

Does anyone know how the Latin club roller skating party turned out last Saturday? Was it as good as the one before? Or is that possible?

Jim Miller must have had a lot of trouble on his hands when he took over fifth hour study hall last Thursday.

Downer, won't you ever learn not to blow bubbles in school? Least of all when you're visiting fifth study hall.

Has anyone noticed the new look in hair styles around school? It seems that all the kids at Knick's party were going to wear the little green hats they received on St. Patrick's Day. I wonder what happened? I didn't see anything around school, did you?

**ASSEMBLY**  
A very interesting and humorous assembly was held Tuesday morning. Mr. Butran-Shirtieff de-

monstrated and told about professional wrestling. As assistants he used David Meyers, Lyle Chriswell, Don Baldwin, Bud Freysinger and Lavern Hailey.

Mr. Shirtieff not only is a professional wrestler, he is an archer; he also has taught English for twenty years, and has played professional football.

Mr. Shirtieff demonstrated many of the tricks professional wrestlers use to fool the public and give them a good show.

His actions and manner of speaking kept the audience constantly in peals of laughter. At the end of his performance, Mr. Shirtieff gave a good moral to the students, "If at first you do not succeed, try, try again."

**LATIN CLUB**  
The Latin club is having a roller skating party Saturday, Mar. 20. The party will be in Jackson.

Pupils who have finished their next six weeks' book reports are: Eli Clark, Barbara Collins and Norma Morgan.

Basketball games, which the Junior High boys played last week, resulted in the following scores: Monday—Merkel 14, Bott 8; Winchester 10, Knickerbocker 8.

Tuesday the scores were: Winchester 14, Knickerbocker 8; Bott 17 and Merkel 14. Wednesday scores were: Merkel 9, Winchester 2; Knickerbocker 8 and Bott 4.

**JUNIOR NEWS**  
The Juniors are making arrangements for the Senior reception.

**SENIOR NEWS**  
The Seniors are working very diligently on the annual, so they may finish it before the deadline next month.

**BETTER MANNERS WEEK**  
Next week will be "better manners week" in that long series of special weeks designated by Student Council. The rules of conduct established by generations of our ancestors have but one purpose: to express consideration for the feelings and sensitivities of others.

Some people may not object to sitting on a wad of discarded gum, or having their new shoes trod upon, or ink spattered on a new

sweater, or even having their ribs rearranged a bit while crowding through doorways. On the other hand, others do object to these things as well as to being stabbed by sharp pencils, tripped, having their possessions "borrowed" without notice, and numerous other little items. Next week, let's try to avoid these mannerisms. We might like the result enough to make the change permanent.

In etiquette as in other fields, it might be well to apply the rule, "Do unto others as you would have them do unto you."

**LATIN CLUB NEWS**  
The Latin club went roller skating Saturday at the Jackson Rollerium.

Virginia Chriswell wrote for reservations. Phyllis Hoffman, Nelly Atchison and Raymond Steinbach were on the transportation committee.

Despite bruises and bumps and a crowded rink all had a good time.

**"A DATE WITH JUDY"**  
The Junior play "A Date With Judy" was very well attended. Everyone seemed to enjoy it immensely.

Congratulations to Joyce Crawford, Bob Barlow, Joan O'Dell, Mary Kay Palmer, Joyce Hughes, for their splendid performances. The rest of the cast also did exceptionally well. Much comment was made about how Bob Barlow

played his part with so much ease and confidence.

Orchids to the stage crew for their work; the scenery was very distinctive. Special congratulations should also go to Norman O'Connor for his piano selections between acts. The management of the play was very good; this could be seen when the performance started promptly. The intermissions between the acts were very short, another sign of good management.

**BIOGRAPHIES**  
If you see an auburn-haired girl wearing green which is her favorite color, you will probably be looking at Minnie Mae Platt. She is seventeen, was born April 14, 1930, in Monroe, Mich., and is a senior. Her favorite subject is English, and her favorite pastimes are basketball, dancing, and twirling a baton. Potato salad is her favorite food and "Sentimental Journey" her favorite song.

**VISITS EDISON WINTER HOME**  
Among the visitors who recently toured the Thomas A. Edison winter home in Fort Myers, Fla., was Mrs. Henry Merkel. The Edison home, with its adjoining laboratories and botanical gardens was presented to the City of Fort Myers by the inventor's widow a few months before her death last August, and opened to the public in November.

**It's a Complete New Buick Engine and We'll put it in Your Car at a Price You'll hardly Believe**

YES sir, here's a big bargain for Buick owners—a brand-new straight-from-the-production-line Fireball engine. We'll put it in any Buick from 1937 models on up.

We'll take out your old mile-weary engine, put this one in, and make your car brand-new again as far as power is concerned.

Think what this will mean to you—in comfort of driving—in new dependability—in sheer fun. Think of the extra worth of your car when it comes time to turn it in.

As to cost—it's so moderate it makes this change-over today's best power buy. Installation cost varies somewhat with car model. But we'll be glad to give you the figure down to the dollar if you'll drive around.

Don't put it off. Make up your mind to drive a 1948-powered car now. Come in and talk it over.

**SILVERLEA CROWN SIR ORMSBY PÖSCH**

**Another Prize Bull Owned by A.B.A.**

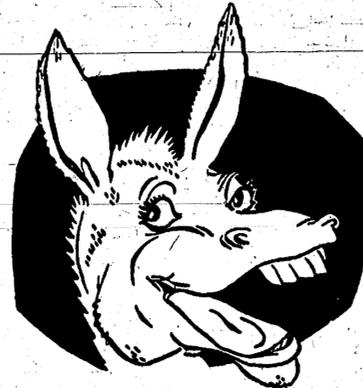

One of the many proved dairy bulls owned by Michigan dairymen is Silverlea Crown Sir Ormsby Pösch or Silver, a sire which is by a proved sire and out of a cow which has some very creditable records in the herd of Mrs. Ruth Rogers and Sons at Big Rapids, Michigan.

Silver was classified "very good" when six years old and his daughters in the herd of Lloyd Gaskill, Hastings, have made the very fine records of 13,088 pounds milk, 4 per cent test, 527 pounds fat.

The Michigan Artificial Breeders at East Lansing use Silver for artificial breeding service. Silver showed an improvement in 5 out of 11 daughters for milk production; 8 out of 11 daughters for per cent test; and the conventional 7 out of 11 for pounds fat.

Lloyd Gaskill, awarded the lifetime plaque for dairying by Michigan State college in 1947, makes the point that in this proof the most productive daughter of Silver was not included because her test averaged for the entire year over 5 per cent.

Silver is a son of the famous proved sire Crestlyn B Ormsby Pösch, which had 25 daughters with 50 records averaging 482 pounds fat with a 3.9 test and 12,278 pound milk level. Few bulls anywhere can be found with as rich milk and test inheritance as this bull carries and which promises to be one of the outstanding bulls in a long list of production inheritance bred animals owned by the Michigan Artificial Breeders Cooperative at East Lansing, Mich.

**Insects Cause Terrific Losses in Stored Grain**

Insects living in farm grain bins eat or destroy five per cent or more of our nation's stored grains and cereal products every year. The terrific loss is carried largely by farmers.

Extension specialists at Michigan State college say that when ever there is mild weather, insects are busy. This is true particularly if the grain has high moisture content or is not very clean. Its a good idea to check your bin conditions carefully. Look for webbed or caked areas and for kernels that seem to have been "chewed" or have small holes in them.

### Brome-Alfalfa Is Good Hay, Pasture

A mixture of alfalfa and smooth brome grass is considered as the best hay and pasture crop on Michigan soils. According to E. R. Churchill of the Michigan State College farm department, two to three pounds of smooth brome grass seed per acre is sufficient when seeding with alfalfa.

alfalfa yielded more than where either crop was grown alone in a pure stand. It is believed that the percentage of brome grass in an alfalfa-brome grass mixture is probably more important in Michigan than the strain of brome grass used.
