ing the lead in observing National Security Week for the period mentioned above. In our county and state there are thousands of reserve officers, all of whom have an active interest in national security.

The ROA still believes that National Security Week is its most important patriotic activity because the nation traditionally, and constitutionally, relies upon her civilians to furnish-manpower and leadership in time of national emergency. Members of the asso-ciation believe that citizens need to be reminded, at least once a year, of their duties insofar as national security is concerned, and that it is their responsibility to furnish an annual report, so to speak, which every citizen can understand.

Arrangements have been made for a program by everyone in the community, including merchants, civic leaders, church leaders, and various clubs ad societies, according to Maj. Dulgeroff.

The Association is expecting in-dorsements by state and national congressmen, as well as from many leading organizations.

More Vegetables Small gardens should be worked mostly by hand, so the rows can be closely spaced. Turnips, beets, carrots, radishes, onions, lettuce and mustard can be planted in 12-inch rows. Others should be spaced according to size and growth habit of the particular plant. Allow space for growth and for harvesting.

"We are currently faced with
the paradox of decreasing construction while population and demand for housing continue to
grow," said Governor Williams.

"Basically, this is caused by the
fact that housing costs are far
beyond the reach of those with
the greatest needs, namely, the
wage earner of moderate income
with a wife and several small
children." "We are currently faced with

Thousands of children ravaged by infantile paralysis will be treated this year as a result of the donations made by the American people during the 1949 March of Dimes January 14 to 31. One of the top salesmen in the effort this year is Linda Brown, 4, of San Antonio, poster girl for the March of Dimes. She was stricken with polio more than two years ago and now, thanks to March of Dimes funds, she walks without braces and with only a slight

Step aboard a Greyhound Super-Coach, sink back in one of the deeplycushioned, body-contoured easy chairs . . . and you'll know why Greyhound offers the most restful ride on American highways. This skillfully-designed seat (standard equipment on thousands of Greyhound buses), plus many other features of advanced engineering, make your hour's trip or a cross-continental tour an adventure in relaxation. But Super-Coach comfort doesn't mean super-prices! Greyhound travel to all 48 States, Canada, Mexico, costs far less per mile than any other type of transportation—a fraction as much as driving your own car, So call your local Greyhound agent for complete schedule information. Then try this new Greyhound service. You'll like it!

IGHTLY spur that Buick thoroughbred of yours. Feel it surge shead with a sure-footed stride, stepping out in front to set the pace-with never a murmur or complaint.

Yes, you can have quiet, lively horsepower like this, and a chassis that's free of stiffness and winter squeaks -- if you let us keep your Buick in tiptop shape.

Take lubrication, for example. For the price of a routine "grease job" elsewhere, we turn our Buicktrained men loose on a complete, tailor-made lubrication service from hood latch to trunk handle. They make a regular habit of extra care, such as dropping a spot of graphite on the carburetor heatcontrol shuft, or using a special, non-sleeve-soiling lubricating stick on your door strikers - and we could list a dozen more.

The point is, these mechanics are Buick specialists of long and patient experience—they know your Buick and its needs better than anyone else—and they take pains to keep you happy with it.

Yet you don't pay a penny more. Why not drop in this week?

Cold Wave Coming?

Let us set a date for checking over your cooling system sometime this week, Here's our prescription for

Drain radiator, engine block and car heater - flush out summer sludge. Inspect radiator core for leaks. Check hoses for deterioration or loose connections. Examine thermostat control. Adjust fan belt tension. Tighten cylinder head. Put in genuine Buick antifreeze.
