Farm Bureau Meets at N. H. Miles Home Friday Evening

Mr. and Mrs. N. H. Miles entertained members of the Farm Bureau for their regular January meeting held Friday evening, Jan. 14, at their home on Seio Church road.

Attendance at recent Farm Bureau meetings has been exceptionally good, according to spokesmen for the group, Friday's attendance of 40 being no exception.

The membership drive being conducted during the month of January is meeting with considerable success, several new members having been welcomed at Friday's meeting.

Herman F. Howelsen, of Saline, county organization director of the Farm Bureau was the evening's speaker. He talked about Farm Bureau problems and benefits and gave suggestions for many ideas that might be carried out so members could take advantage of more of the Farm Bureau services.

He said "it takes the combined effort of a community instead of individuals to put across plans or desires of us all."

Proceeding Mr. Howelsen's talk, a general discussion of the Blue Cross hospital program was held and after he had spoken, cards and refreshments were enjoyed.

For the next meeting, on Feb. 11, it is planned to rent a hall for a social meeting, and further announcements in regard to this will be made later.

Mr. and Mrs. Donald Barden, of South Haven, spent Tuesday of last week here at the home of Mr. and Mrs. Elba Gage. Mrs. Barden remained until Friday and was accompanied home by her brother, Carl Fletcher, of Ashtabula, Ohio.

Mr. Fletcher, who had been a guest of the Gages for five days, Mr. Fletcher spent until Monday in South Haven and returned here a few hours before leaving for his home.

SYLVAN EXTENSION GROUP

All members of the Sylvan Extension Group attended the meeting held Thursday afternoon, Jan. 13, at the home of Mrs. Emerson Lesser, for the express purpose of making cancer pads. It was decided to hold another meeting soon for the same purpose.

A short business meeting was held, with the chairman, Mrs. Harold Widmayer, in charge, and it was announced that the next regular meeting of the Group will be held at the home of Mrs. Oscar Kalmbach, on Thursday, Feb. 10.

The lesson topic for the meeting is to be "Adolescent Adjustment."

FINISHES PRODUCTION TEST

Brattleboro, Vt.—Lady Mercedes Fobes Fride, registered Holstein-Friesian cow owned by Albert E. Galt, of Saline, has completed a 338-day production test of 400 pounds of butterfat and 10,529 pounds of 3.8 per cent milk in Herd Improvement Registry.

Testing was supervised by Michigan State College of Agriculture in cooperation with the Holstein-Friesian Association of America. "Lady" was milked twice daily and was 8 years 4 months of age when she began her test period.

SOYBEANS Will Hold Own If Given Chance
Industry Making Real Demands for Big Crop

Since America's pioneer soybean processing plant began operations in 1922, soybeans have become a by-word in agriculture and industry, ranking as the nation's fourth largest cash farm crop.

Soybeans, when processed, enter largely into three fields of use—farm, home and industry.

Farmers know soybeans as a crop which can be planted late, if necessary, and which brings comparatively high return per acre. They know soybeans, also, as a superlative source of protein concentrates for use in livestock and poultry rations.

Products made from soybeans go into hundreds of food items. Soybean oil is used in production of about 80 per cent of all shortenings. More than 40 per cent of all margarines are made from soybean oil. The soybean oil produced from nearly 1,600,000 acres is used in making margarines.

One of the subsidiary uses for soybeans is the field of medicine, where soybean oil is used as a carrier in capsule packaging of vitamins.

The health-giving value of soybeans long has been recognized by the farmers of health foods. These things are secondary to the farmer. Yield and profit per acre and use of soybean oilmeal as a feed have been the farmer's first consideration. If the production of soybean is to continue to increase, all uses of soybeans must be developed and expanded.

Improving Hens—Birds that have been in production for an extended period are inclined to lose weight and slow down in production. Feeding such a ration and giving them good care to keep them in good weight and condition will make the production decrease less pronounced.

MICHIGAN MIRROR

(Continued from page one)

Among the liberal benefits proposed by Dewey—\$600 millions for public housing, disability (sickness) insurance for industrial workers; a bigger health service budget, and public power (electricity) from the St. Lawrence sea-way.

Dewey emphasizes: "We must respond to the needs and obligations for continued and increased services to the people of our state." On a basis of such need, readily and easily proved, New York state taxes are to be increased sharply.

● Governor Williams' legislative proposals call for bigger and better public benefits right down the line: Public housing, higher payments for workmen's compensation, more medical benefits for disabled workers, higher unemployment compensation, more old-age assistance, higher gasoline and weight taxes (providing "those

taxes are part of a complete highway program") and better care of the mentally ill.

The gap between Michigan's budgeted expenditures and budgeted income is \$60 millions. The legislature's big task is to decide how these additional benefits are to be financed—Who is to foot the bill?

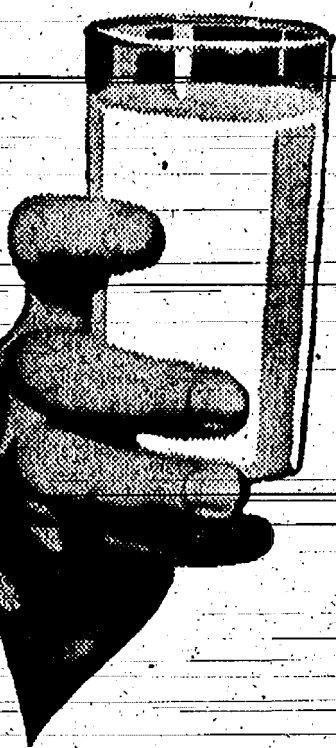

● If President Truman and Governors Dewey and Williams accurately interpret the desires of the American people, then more public benefits, more government in our personal lives and more state socialism are on the way.

To oppose this trend is to invite the label of being a "reactionary," one who is opposed to social progress.

Since public officials want to be re-elected and since public spending is obviously popular today, you arrive inescapably at this conclusion:

We're on the way to bigger and better things. Keep your pocketbook handy to help pay for them.

"Watch that light, please!" That may be the voice of any of the Senior Safety Patrol boys of Chelsea High school.

And seem to sparkle with all their might, in the heavy traffic during lunch hour.

Sometimes a small boy or girl may step out in the path of an oncoming automobile. These patrol boys are there to see that no harm comes to these children.

If accident prevention cannot be obtained, then carelessness is always waiting for.

Jay-walkers are warned on first offense and reported to the principal on second; and on third offense, George Doe, our local police officer, is notified. Not many of the pupils have been "pointed out" because of obedience to safety rules.

During the time that our Safety Patrol boys have been on duty, not one accident has occurred. If all the accidents can be prevented in this locality, our school may be a safer place for the younger pupils to play and attend.

The Safety Patrol boys deserve a great deal of credit for the safety of the children.

POETRY HONORS

"Work! Work! Work!" Yes, that was the cry of most Juniors several weeks ago. The reason is plain to see. They were asked to write a poem for English. The best ones, which were to be chosen by Mr. Chandler, would be sent to the National High School Poetry Association in California.

Last week Mr. Chandler received three certificates bearing the names of three Junior girls: Shirley Levan, Virginia Quiatt and Marlene Schneider.

These girls should be given praise for the good work they have done. Their poems have been accepted.

To show everyone just how good these poems are, they will be published, one each week.

WINTER WONDER LAND
By Shirley Levan

My window is a wonder land
After Jack Frost has shown his hand,
There are mountains all dressed
In white.

That have appeared just in the night.
The trees are also dressed in white
And seem to sparkle with all their might,
When the sun begins to shine
Upon this wonder land of mine.

A carpet of silver is the grass,
Waiting for fairy feet to pass.
The flowers with their frosty heads
Lie sleeping in their leafy beds.

Looking over my land of wonder,
I seem to think of silver plunder.
That was painted there by old
Jack Frost.

Think of all the time it cost!
**FEUDIN' FUSSIN',
AND A' FIGHTIN'**

Where: Chelsea High school.
When: Tuesday, Jan. 11, 1949.

Rev. Hiram M. Frakes, who founded the Henderson Settlement in the Cumberland mountains about 23 years ago, told many interesting things about the people, the settlement, its history, and how it was named for a notorious outlaw.

Before Rev. Frakes went into the mountain country, the people were noted for "their feudin', fussin', fightin' and moonshinin'," but he began his work by organizing a better school to replace the old log school which was attended by 13 students, having only three books. The settlement has progressed splendidly, for now it has buildings on a 300-acre campus with 300 students enrolled. The land for the settlement was donated by the people of the valley so that their children would be able to obtain a high school education.

SAFETY ASSEMBLY
Three cheers! Silent movies are

here again! Last Friday, Michigan State Police Officer Palmer presented a movie on safety. It depicted the bad habits of drivers as well as pedestrians, and pointed out the carelessness of all of us. Only one bad feature was present in the movie and that was—no sound. After the movie, he answered many questions that were asked by the student body.

Inquiring Reporter

The Inquiring Reporter is at it again. This week the question was "Do you think students who get a 'B' average in a subject, should be excused from taking the final exam in that subject?"

Of 30 students interviewed, four were not in favor of this because of the following reasons: if they are planning on attending college, final exams are good experience. They should take them to see if they really know the work.

Most of the students think they should not have to take the final exam if they have a "B" average. These are not "B" average students who say this. The Inquiring Reporter has come to the conclusion that students think "B" average students shouldn't have to take final exams.

'AC' MOVIE

Tuesday the Agriculture class was a movie about tractor engines. It told the agriculture students how the tractors work, their efficiency and the principles of combustion. It also told how they are being improved.

"Producing High Quality Milk" was another movie shown to them. It told how to keep the utensils clean and the constructing of new dairy buildings.

TEN PIN TOILERS

"Move over that way a little," "hold your wrist stiff," "now throw the ball straight down the alley." Yes, you're right, this is some of the advice or comments you might hear at GAA bowling on Wednesday.

If you're lucky you might hear, "I gotta strike." Of course these comments are fewer and farther between, but it does happen!

The girls have been bowling for six weeks, but only the last two weeks of bowling have been considered league bowling. The league consists of four five-man teams. The team names and bowlers are:

The Strikers: D. Eisemann, D. Gilson, M. Jarvis, M. Dumouchel, D. Downer; The Pin Spillers: A. Lake, M. Johnson, M. Hamer, G. Wheeler, D. Thomas; The Jokers: N. White, M. A. Gage, V. Christwell, A. Knickerbocker, L. White; The Sophomores: J. Eisemann, G. Salzgeber, D. Vickers, L. Walz, P. Harrison.

So far, "The Strikers" are in first place with four wins and no losses. High individual games bowled so far are: D. Gilson, 164, M. Jarvis, 182, M. Johnson, 174.

The girls have been doing very well and have found that bowling is not as easy as it looks!

THE FORTY-NINERS

As I stand in the doorway of my Chelsea home, I remember seeing in the distance: it's a bird, it's a plane! No, I guess it's just the stork delivering Myrna Robards, on the 22 of May, 1931.

As we follow Myrna down the years, we find that she is now 17 years old. If we were to catch her in her favorite pastimes, we would find her watching a Red Skelton movie, playing basketball, listening to "How Soon" and sewing, all the while munching on pretzels. Now if you can figure out how she manages to do all these things at the same time, you're doing fine.

Myrna has participated in Journalism, basketball, and band. Her personal opinion on the "new look" is, quote, "awful."

Activities...

STUDENT COUNCIL
The Student Council has decided that the girls are to eat their

lunches in the Home Ec. room instead of the Study Hall. Eating in the Home Ec. room will enable the girls to have a hot dish at noon.

The Student Council is planning to set a date for boys and girls to discuss their ideas to improve the school. There are many advantages to student discussion of school improvements and activities. It is hoped that these talks will bring out the student opinion and cooperation in the matter.

LATIN CLUB
The Latin club discussed its forthcoming dance of March 17,

and decided to have a play for the entertainment. The committee for entertainment is D. Howard, D. Kaimbach, J. Malott and P. Scott.

RED CROSS

Mrs. Anderson, head of the State Board of Control for Vocational Homecoming Education, Miss Gibbons and Miss Tinkham, directors of the Washtenaw county chapter of Red Cross, were visitors of the Red Cross class last Thursday. They observed the way in which the class was conducted. The classroom discussions were centered around reports given on communicable diseases.

Want the Liveliest Run for your money?

Then often, these days, that you hear value mentioned in the same breath with bigness and fine finish and automotive luxury.

But talk to owners of the Buick Roadmaster, and you'll find one of the major reasons for choosing this handsome carriage is its downright dollar value.

As a fine car should be, it's big and road-wise and steady; we'll match its level-striding riding qualities with anything else on the highway.

It's a dream to handle, with Dynaflo Drive standard on all body-types, and all normal gearshifting eliminated by a completely fluid transmission.

It's richly finished, with special custom trim available.

if you want a special added touch of smartness and luxury.

But the big thing about it is its power. More power, perhaps, than necessity demands — but enough to make you perfect master of hill and highway, of short, fast stretch and long, far-ranging journey.

So much power, indeed, that practically nowhere outside the lowest priced field will you find so much per dollar — and nothing there gives you a livelier run for your money.

Go look at the Roadmaster for 1949. Let your Buick dealer point out all it has to offer. Then — check the price tags.

You'll get your order in just as a matter of making your dollars do greatest duty.

HONORED AT MSC

Walter A. Kalmbach, Jr., of Grass Lake, has recently been elected to the Kappa chapter of the national fraternity of Alpha Zeta, Michigan State college, also to the landscape architecture honorary society, Beta Alpha Sigma. Election to the former is based on scholarship, leadership, and character, and in the latter on scholastic attainment in the field of landscape architecture.

CARD OF THANKS

Many thanks to my neighbors, friends and relatives for the many nice things they've done for me since I fell and injured my shoulder; also, the WRC, the Rebekahs and the Women's Guild of St. Paul's church for the lovely boxes of fruit, and all who remembered me with cards and gifts while I was at the hospital and since my return home.

Mrs. Ernest Fitzmaier.

I'm sure you'll like Ford's new 4-Speed Transmission

Maybe you enjoy slow farming . . . but there's no money in it. If I can show you faster farming . . . with no more work, you'll be interested, won't you?

All right, just take one feature of the Ford Tractor, the 4-speed transmission. On the road I'll give you up to 12 1/2 miles per hour. In third speed (top field working speed), I'll give you 6 miles per hour. And so on down . . . each speed, even the reverse, is faster. Saves lots of hours in a year.

Won't you let me demonstrate this Ford Tractor (and its Dearborn Implements) on your farm? I have something special in parts and service, too.

We have parts and service for all Ford Tractors.

LANSING—Michigan newspaper publishers and editors gathered here Friday and Saturday, Jan. 21-22, for the 81st Anniversary Convention of the Michigan Press Association, Inc., will discuss 1949 management adjustments to rising cost of production, now at an all-time peak in newspaper history.

"Costs of newspaper operation have already reached the danger point," declared Leslie B. Merritt, editor of the Livingston County Press at Howell, state president of the association.

"A survey recently made of small city newspapers disclosed that operating costs have soared 91 per cent between 1944 and 1948, while newspaper revenues have increased 74 per cent. If newspapers are to survive the test of 1949 in the face of higher costs, it is imperative that advertising and circulation revenues shall be increased."

Roscoe Drummond, Washington bureau chief of the Christian Science Monitor, will address publishers at the anniversary dinner on "The State of the Nation," an objective appraisal of the Truman 1949 program. Toastmaster will be Harold A. Fitzgerald, publisher, Pontiac Daily Press.

Governor G. Mennen Williams and other elective state officials will discuss state affairs at one luncheon, while Col. S. L. A. Marshall of the Detroit News and present Michigan military leaders present a panel program at another luncheon on "National Security in Michigan."

The wind-up dinner party on Saturday will feature an "All-Michigan" menu of choice foods with entertainment by Cal Timney, New York City newspaper columnist and radio-television comedian.

Daily newspaper round-table sessions will present Esther Van Wagener Tufty, Washington news paper correspondent; Harry Banz, WJW-TV general manager; and Jack I. Green and Douglas Graham, Lansing bureau chiefs for the Associated Press and United Press.

Weekly newspaper round-tables will offer Orrin Taylor of Arch-

HOME MAKING

The Home Ec. I class is doing a three-week's unit on "Home Nursing." The original program has been changed because Mrs. Parker has some equipment for use.

The Home Ec. II class is finishing the semester with a "Clothing Care" unit, and they will begin a "Foods" unit next semester.

FFA "Visiting farms can be very complicated at times," say the farm boys who took several trips to farms surrounding Chelsea. They said that special care should be given to farm equipment, animals and maintenance.

The farms visited were Kenny Proctor's, Paul Kalmbach's, Walter Bauer's, and Keith Bradbury's. The boys decided that efficient machinery is very important in running a farm.

CHORUS

Some of the Chorus members attended the concert held in Hill Auditorium in Ann Arbor, last Thursday afternoon.

The operetta, "The Gondoliers," has one on Jan. 12.

been selected as a Chorus presentation.

Grade News . . .

KINDERGARTEN

The afternoon-class is building a city, and as soon as they are finished the parents will be invited to come and see it. The class is also seeing movies and reading stories about cities.

SECOND GRADE

Miss Kompass took her class to visit The Chelsea Standard office. The students were shown how the paper is printed and folded.

They also saw how the "pie" type was melted and used again, and how the linotype works.

FIFTH GRADE

David and Mildred Patrick have left school.

The class is working on marionettes, and the students are planning on giving a play using them. The play is entitled "Cinderella."

SIXTH GRADE

Last Friday morning they had a movie about safety.

They went to see a magician Wednesday morning in the gym.

Sally Walz had a birthday Jan. 14, 1949, and Geneva O'Dell had one on Jan. 12.

We went to a concert at Hill Auditorium Jan. 13. There was a boy from South Africa who played the violin. He had been in New York, and came to Ann Arbor especially to play for this concert.

They are going to the Riemen-shelder school this Friday to sing. The whole class will not be able to attend.

The Sixth grade is starting the "March of Dimes," and hopes to collect a lot of money for the children who are sick from polio.

SEVENTH GRADE

A new boy joined grade Seven Wednesday. His name is Jerry Guinan, aged 13, from St. Mary's school.

The group is having a Junior High party Jan. 28. The committees for the program are as follows: refreshment, M. Senecal, J. Berke and L. Paxton; decoration, B. Hughes, M. Roberts, and B. Hoffield; ticket, D. Lantis, and D. Weinberg; kitchen clean-up, S. Baldwin, K. Kaany, and D. Froster; gym clean-up, L. Schisch, D. Howe, and program, G. Paul, R. Widmayer, and J. Widmayer.

SOPHOMORES

Last week the tenth grade went roller skating in Ann Arbor. Everyone had an enjoyable time.

Rural Tele-news

NIPS TROUBLE IN THE BUD—Special equipment in the telephone central office tells the approximate location of cable trouble miles away. A tone is sent out over the wire. Then a repairman out on the line moves an electrical instrument called a "Cable Bug" along the cable until he no longer hears the tone. Right at that spot he opens the cable and finds the trouble. Another example of how fast and economical methods have been developed to do difficult telephone jobs.

ASTRONOMICAL FIGURES—To serve its customers, Michigan Bell has some 6,000,000 miles of wire and 822,000 telephone poles in Michigan. The wire is equal to 25 single strands stretched from here to the moon. The poles, if "planted" 40 feet apart, would form an "orchard" of 7,548 acres. Money for poles, wire and other equipment needed to provide service comes from folks who invest a part of their savings in the telephone business and expect a fair return on their investment.

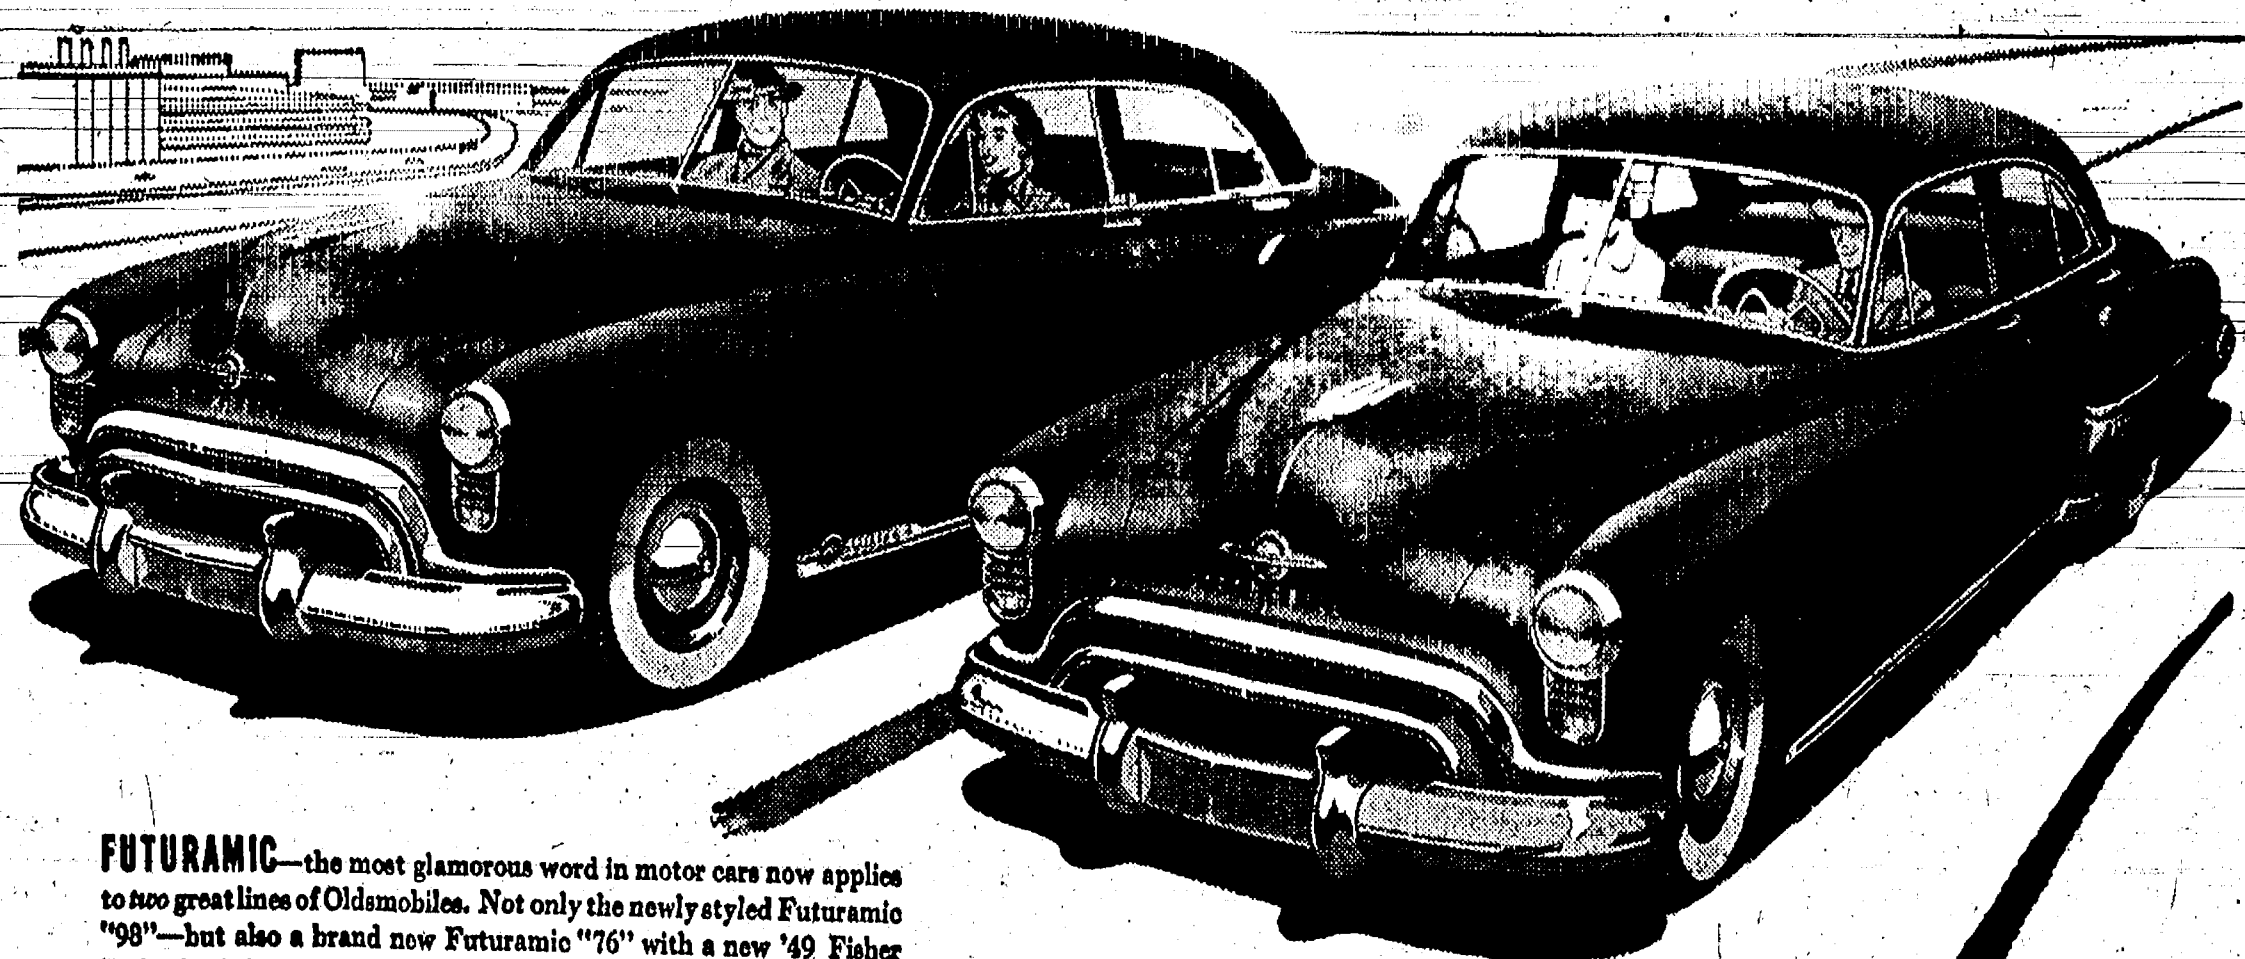

RURAL-LINE SERVICE IS WHAT YOU MAKE IT—The quality of rural-line service rests in the hands of those who use it. It can be good service if everyone shares the line . . . spaces out calls . . . surrenders the line when others have emergency calls to make . . . hangs up the receiver carefully after each call.

THE NEW FUTURAMICS

FUTURAMIC—the most glamorous word in motor cars now applies to two great lines of Oldsmobiles. Not only the newly styled Futuramic "98"—but also a brand new Futuramic "76" with a new '49 Fisher Body that's lower, wider and offers greater visibility. And this year, Oldsmobile has struck a new balance of power with two great engines for these Futuramic cars. The new "Big Six" Engine in the "76" is more powerful than ever. And the new "98" is powered by the revolutionary "Rocket" Engine. It's a high-compression, valve-in-head eight—an engineering marvel that steps up horsepower to 135, yet actually cuts down on gas costs. Words can't describe it. You've got to drive it yourself for Oldsmobile's "NEW THRILL!"

All Officers, Directors Re-Elected at Bank

The regular annual meeting of stockholders of the Chelsea State Bank was held Tuesday, Jan. 11, with all of the former directors being re-elected. The board then organized and elected officers for the coming year as follows: P. G. Schaible, re-elected president; J. L. Fletcher, re-elected vice-president; and Carl J. Mayer was again named assistant cashier.

Directors re-elected are: Dr. Andros Gulde, Arthur J. Wale, Howard S. Holmes, Dr. A. A. Palmer, G. G. Palmer, P. G. Schaible, J. Vincent Burg, and J. L. Fletcher.

Officers Named for Local Rebekah Lodge

Officers of Rebekah Lodge No. 130 for the ensuing year are as follows: N. G. Mary Ann Coltrane; V. G. Elsie Balmer; Rec. Secy., Norine Whipple; Fin. Secy., Helen Otto; Treas., Anna Stacey; R. S. to N. G., Anna McDonald; L. S. to N. G., Lulu Sweeney; Warden, Evelyn Burton; Conductor, Lottie

Alexander; I. G. Pearl Herman; O. G. Florence Walker; Chaplain, Kathleen Bernath; Musician, Inez Leaser; R. S. to V. G., Lucille Altmaier; L. S. to V. G., Edith Kealy; Degree Captain, Josephine Fowler.

Gas Rate Increase Not Effective in This Area

The State Public Service Commission's action Tuesday, granting the Michigan Consolidated Gas Co. an annual rate increase of \$7,250,000 designated as "emergency relief," does not affect Chelsea consumers, the local office of the company reported.

The Ann Arbor-Ypsilanti area of the company is not affected by the ruling. Chelsea is part of the Ann Arbor area.

The company had requested an increase of 12,920,000. Most of the increase will be carried by industrial consumers, using large amounts of gas and by space heating consumers. According to figures released by the Commission, an estimated 78 per cent of domestic consumers in the area where increases are allowed, will not be affected by the order.
