

**Bulldogs Win Game from Flat Rock****Victory Boosts Local Cagers' Standing to Second in League**

By DWIGHT GADD  
Chelsea High school climbed into second place in the Huron league last Friday, as they thrashed Flat Rock on the "Rams" own hardwood, 46-37.

The victory wasn't too impressive for the team didn't appear as sharp as usual. After that all-out fight against Milan two weeks ago, this let-down was only quite natural.

After a very slow first quarter, at the end of which Chelsea led 5-2, both teams found the range. The "Bulldogs" netted 18 and the "Rams" 13, to give Chelsea a 23-15 lead at halftime, and they were never seriously threatened after that time. By the end of the third quarter the score stood 35-23, and at the final whistle 46-37.

Dave Crocker had his best scoring night of the season, as he split the meshes for 17 points, but he was forced to share high honors for the game with Ron Oestrike, "Ram" center, who had the same total. Stan Knickerbocker added 11 more to the Chelsea attack, in his best effort of the season also.

Tomorrow night, Feb. 4, Chelsea will be host to the Roosevelt High "Roughriders" with the first game starting at 7:00 o'clock. Let's have a larger crowd than followed the team to Flat Rock. There were two spectators, two cheerleaders, one bus driver, a scorekeeper, the coaches and team members, and a good support for a winning team. See you at game time!

**Fire Damages Lesser Home****Heavy Ice Coating Shorts Electric Line**

High tension wires, heavily coated with ice, causing them to fall on the electric wires leading to the Reuben Lesser home on Manchester road, caused a fire which resulted in extensive damage to their newly-remodeled kitchen. The fire, itself beginning on the roof over the kitchen, was kept from spreading to other parts of the house by the heavy insulation over the kitchen ceiling and under the roof, according to opinions of firefighters.

Electric wiring throughout the house was severely damaged. The fire was discovered by the Lessers when they returned home between 11:30 and 12 o'clock after spending the evening with friends. They were told later that it was probably fortunate that they were not at home at the time the wires fell, as the heavy charge of electricity entering the house could have caused instant death to anyone who might have happened to touch any of the electric appliances on the water faucet in the morning before the current went off because of the short in the wires.

The fire was confined to the roof and attic, the damage to the kitchen resulting from water used to fight the fire above.

The Chelsea Fire department responded to the alarm, arriving on the scene in record time, according to Mr. and Mrs. Lesser.

**Finkbeiner Lumber Co. Sold to Local Men**

The Finkbeiner Lumber Company business was sold this week to two local men, Martin Steinbach and Lee Weiss, it was announced by Charles Finkbeiner.

The business was established in the spring of 1947 under the name of Finkbeiner and Smith, and is located just off Old US-12 near South Main. Since opening the business several buildings have been added on the grounds.

Before establishing the lumber firm in Chelsea, Mr. Finkbeiner managed a cooperative business in Dexter for 15 years.

Mr. Steinbach has been employed by the Chelsea Lumber, Grain and Coal Company for the past 15 years, and Mr. Weiss, co-owner, has been employed with the local branch of Standard Oil Company.

Mr. Steinbach and Mr. Weiss plan to assume proprietorship on Feb. 14.

**Polio Drive To Continue Two Weeks More**

The "March of Dimes" fund is still far below the \$550 collected here for the purpose in 1948, according to the Chelsea chairman of the drive, Mrs. Walter Mohrlock, who reported Tuesday that, to date, only a little more than \$300 has been received from all sources. Of this amount, the largest contribution is the one from the Chelsea Public school, the first six grades having placed in more than a hundred dollars.

The "Mile of Dimes" board, sponsored this year by the F.O.E. Ladies' Auxiliary, netted the fund about \$86. The smaller than usual amount contributed this year may be attributed to the severe weather and icy condition of the streets on Friday and Saturday, the two days when the board was in place in front of the Chelsea State Bank.

Contributions in coin boxes in the business places are also reported to be lagging far below last year's level, and the boxes are to be left in their places for a week or two longer in hopes that the contributions will increase.

Mrs. Mohrlock stated that contributions from organizations will be accepted up to and including Feb. 15.

**Mrs. Jacob Haarer Dies at Her Home on Scio Church Road**

Mrs. Haarer was a member of St. John's church, Rogers Corners, and of the Ladies' Aid Society of that church.

She is survived by seven daughters, Mrs. Russell Briggs, of Roscommon; Mrs. Herman Ennis, of Alma; Mrs. Albert Koch, of Lima; Mrs. William Wiedmann, of Ann Arbor; Mrs. John May, of Freedom township; Mrs. Fred Bollinger, of Lima; and Mrs. George Koch, of Lima township; two sons, William Haarer, of Lansing, and Fred Haarer, of Lima township; 26 grandchildren and 32 great-grandchildren.

**School Officials Ask Children Not Return Before 12:20 at Noon**

Public school officials are requesting parents of children who eat their lunches at home to cooperate in seeing that these children do not return to the school grounds before the first bell rings at 12:20 p.m.

It is pointed out that there is a large number of rural students who must eat their lunches at school, and who after eating, use the limited playground area for various activities because they have no other place to go.

Because of the playground area being much too small to accommodate both those who must return on the grounds and those who might return early, and the dangers which arise from such congestion, parents are being asked to help out.

**Schools Receive Share of Sales Tax Refund**

The Chelsea Rural Agricultural Schools share of the fourth quarter payment of the 1948 sales tax diversion state total of \$8,209,687 is to be \$4,711, it is reported.

**Mrs. E. Wackenhut Dies Monday Eve. Following Illness**

Mrs. Elizabeth Wackenhut died Monday evening at St. Joseph's Mercy hospital, Ann Arbor, where she had been since Jan. 14, when she became ill with pneumonia.

Mrs. Wackenhut was 91 years old Jan. 6, having been born in Ann Arbor in 1858. She was the oldest child of Frederick and Katherine Rohrer Girbach, and she was eight years old, came with her parents to live in Chelsea. The family lived for a time in what was known as the old McKune house on North Main street, which stood on the site where the Chelsea Electric Light and Water plant was later built.

She was married in Chelsea, Sept. 4, 1879, to Michael Wackenhut, and they made their home on a farm on Decker road where they lived until 1903 when they moved to Jackson. Mrs. Wackenhut returned to Chelsea to live in 1919 following the death of her husband in 1918.

Mrs. Wackenhut was the oldest member of St. Paul's church and was very active in the work of the church until advancing years caused her to gradually give it up. However, she was an active member of the Mission club of the church up until the time of her last illness. Mrs. Wackenhut founded the Mission club in 1935 and was its president for several years.

She was an honor member of the Women's Guild of the church, which is a merger of the former Women's Auxiliary and Ladies' Aid Society. Mrs. Wackenhut had been a member of the latter society since shortly after it was organized in 1887, and had served as its president for several years.

Survivors of Mrs. Wackenhut are her daughter, Mrs. Ola Hilsinger, who lived here with her; two sisters, Mrs. Conrad Lehman, and Miss Pauline Girbach, and a number of nieces and nephews. A daughter, Laura Myrta, died in infancy.

Funeral services are to be held this afternoon (Thursday) at 2 o'clock, at the residence, 415 Garfield street, and at 2:30 at St. Paul's church, Rev. P. H. Grabowski is to officiate and burial will take place in Oak Grove cemetery.

**Hearing on Michigan Bell Telephone Rate Case Is Temporarily Adjourned**

Lansing — The Michigan Bell Telephone company rate case is in adjournment pending the clarification of a legal point by the State Supreme Court.

At issue is the question as to the legality of the Michigan Public Service commission proceeding with the case while the 1945 rate reduction order is still in litigation.

Motions by the city of Detroit and the attorney general to dismiss proceedings until the 1945 case, now before the Ingham Circuit Court on appeal, is settled, were denied by the Commission. The Commission requested immediate appeals from its decision, however, on the part of Detroit and the state in order "to clarify this matter once and for all time."

Chairman Stuart B. White pointed out that the Supreme Court twice had rejected Detroit's contention that hearings could not proceed while litigation was pending, but had not accompanied its rulings with any comment. The Commission itself rejected Detroit's claim last year.

Increases requested by the company range from 50 cents to \$1 a month for residence service and from \$1 to \$1.50 for business service, together with increases in long distance rates. Increases would average 2.7 cents a day for residence users.

Michigan Bell has cited its expenses have gone up 287 per cent since 1939 while revenues are up only 180 per cent. The proposed increase, together with those authorized by the Commission last October, would raise the company's revenues 25 per cent. The October increase was the first to the company in 22 years, according to Michigan Bell spokesmen.

**Chicken Equipped with Two Wish Bones**

Mr. and Mrs. Fred Gentner and their son-in-law and daughter, Mr. and Mrs. Norman Klingler enjoyed a chicken dinner together recently at the home of the former. When serving the dinner Mrs. Gentner's daughter discovered that the rooster they had cooked for the meal had two wish bones, one somewhat larger than the other.

**Auto License Plate Sale Lagging Far Behind Last Year**

It was announced today by A. D. Mayer, local manager of the Secretary of State's license bureau, that he has sold only half as many auto license plates as at this time last year. He is urging motorists to call at his office to get their 1949 plates now and not to wait until the Feb. 28 deadline.

The lagging in sale of plates is not only local, Mr. Mayer said, Secretary of State Fred M. Alger, Jr., having informed him that but 270,657 people have obtained the new plate since they were put on sale in December. In 1948, the department issued 2,259,074 plates, which means that 1,989,617 motor car owners must still visit their branch office of the Secretary of State before March 1.

The Secretary of State also reminded all car owners that the law will not permit the use of 1948 license plates after midnight of Feb. 28.

**Mrs. Wesley Smith Dies Last Saturday After 2-Day Illness**

Mrs. Wesley C. Smith, the former Hazel L. Speer, died suddenly at her home, 318 Railroad street, Saturday afternoon after a two-day illness.

Before her marriage to Mr. Smith on Aug. 9, 1922, in Jackson, she had been a teacher for several years in the Chelsea High school where she taught mechanical drawing, art and music. She came here in the Methodist church for many years until a few years ago.

Until the time of Mr. Smith's death, June 22, 1947, she held a clerical position as his assistant at his work as Chelsea station agent for the New York Central railroad. She was also express agent here.

Mrs. Smith was a member of the Chelsea Methodist church, the W.C.S. and Central Circle of the church; Chelsea Temple No. 117, Pythian Sisters, and R. P. Carpenter Post No. 210, W.R.C.

Mrs. Smith was the youngest and last surviving member of a family of five children born to James and Ada Cunningham Speer. James was born in Chelsea, Oct. 29, 1887, and had always made her home here.

Survivors are a step-daughter, Mrs. Georgia Honsinger, of Jackson; Rodney Davis, of Royal Oak; Mrs. Russell Bischoff, of Grand Rapids; two nephews, James, of Aurora, Ill.; two nephews, James, of Speer, of Royal Oak, and Wheeler Speer, of Grand Rapids; an aunt, Mrs. Ida Webster, of Chelsea; and 11 great-nieces and great-nephews.

Funeral services were held at 2 o'clock Tuesday afternoon at the Miller Funeral Home, with Rev. O. W. Morrow officiating. Interment took place at Oak Grove cemetery.

**PTA Holds Successful Box Social Monday**

An enjoyable box social, sponsored by the High School PTA, was attended by Junior and senior high school pupils and their parents, teachers and friends at the High School gymnasium Monday evening, Jan. 31.

Much of the success of the party may be accredited to Mr. and Mrs. Henry Orthing and Fred Gentner who furnished the music for dancing. Mrs. Donovan, Sweeney, who kept the group lively with square dances, and Irvin Kaimbach, who in his own individual manner entertained the boxes. Needless to say, the many attractively decorated boxes filled with delicious food, added greatly to the spirit of the party.

**Community Park 'Clean-Up Bee' Planned for Saturday To Clear Area Before Spring****Mrs. Karl Riegger Home from Recent Visit to Germany**

Mrs. Karl Riegger and her two children, Betty and Otto, returned early Thursday morning of last week from an eight-weeks' trip to Mrs. Riegger's former home in Reiprechts, Wurttemberg, in Germany, which is near Stuttgart. They were guests at the home of her parents, Mr. and Mrs. John Seitz, and visited other relatives and friends, including Mr. Riegger's mother and his five brothers.

This was Mrs. Riegger's first visit to her old home since coming to the United States 14 years ago. Her parents had never seen the children, both of whom were born here.

The daughter, Betty, celebrated her 14th birthday while in Germany on Jan. 12, and the son, Otto, celebrated his 13th birthday there soon after arriving, on Dec. 11.

When asked if she was happy to be back in the United States again, Mrs. Riegger said she certainly was because her home now is here, but she was also very happy to have had the opportunity to visit Germany and is already planning to go there for another visit in 1950, with her husband, if nothing intervenes to prevent the trip.

Asked how the children liked Germany, Mrs. Riegger said that Betty, especially enjoyed her visit so much that she was sorry to have to leave so soon to return home.

A brother, Ellsworth, died last October.

Funeral services were held Friday afternoon at the Miller Funeral Home in Stockbridge.

Mr. Moore, who was a resident of Chelsea for about 35 years before moving to Gregory to make his home with a cousin, died Wednesday at the Odd Fellows and Rebekahs Home in Jackson where he had been living since last Oct. 28.

Mr. Moore, a son of John and Frances Gilliam Moore, was born June 3, 1868.

In 1906, at Howell, he was married to Anna Drudge, of Mayville. Mrs. Moore died here in 1941, after being an invalid for many years.

Mr. Moore was a member of Chelsea IOOF Lodge No. 101. He is survived by the cousin, Mrs. Charles Galbraith, of Gregory, and two nephews, Delbert Moore, of Pewaukee, Wis., Hubert Moore, of Merton, Wis., and Francis Moore, also of Wisconsin, and two brothers-in-law, Dr. George Drudge, of Detroit, and Earl Drudge, of Mayville.

**Visiting Committee of Park Experts Advise Action Now So Other Work May Begin****Local Lad Boxing in Jackson Golden Gloves Tournament**

Cameron Colquhoun, a former Chelsea High school athlete, will be boxing for the light-heavyweight championship Thursday night (tonight), in the Jackson Golden Gloves regional tournament.

In the semi-final matches Colquhoun disposed of Bob Weston, Albion college student who had won the Detroit championship at Albion.

Lyte Chriswell, another Chelsea entry, in the middleweight class, lost a close decision to "Red" Hogan in the quarter-final matches. L. C. Harris, 147 pounds, a recent comer to Chelsea, also was eliminated after winning his first start.

The tournament has been running for five consecutive weeks now. Winners of this week's finals will compete in the state finals at Grand Rapids later in the month.

After tramping over the grounds and studying the site, the experts discussed plans for drainage and smoothing out some of the rougher spots. Paramount need right now, in their opinion, is to complete the job of removing brush and undergrowth as soon as possible. When this is finished, elevations may be measured and a map drawn up, with the aid of surveyors, from which more accurate planning and work on grading, drainage, seeding and landscaping may be done.

In view of these recommendations the local committee has announced that "clean-up week" will be held this Saturday afternoon, Feb. 5, and again next Thursday afternoon, Feb. 10, beginning at 1 o'clock for the purpose of hacking away brush, and general cleaning up.

While a great deal of work was done on the area last fall before cold, wet weather temporarily called a halt to the job, much still remains to be done before development may proceed in the early spring.

Members of the local committee include Walter Harper, chairman, Wm. Schatz, Lowell Davison, D. Mohrlock, K. C. Runciman, and George Setz.

The Saturday afternoon period is being held to give factory workers a chance to do their bit toward a community project which already shows promise of greatly improving the entrance to our village, as well as providing a needed park and playground for the enjoyment of all. Many who work until late in the day have expressed their desire to help out last fall but were unable to do so on Thursday afternoons. Here is the opportunity.

Remember to bring along your axes, shovels, brush hooks, and light trucks or tractors.

**CAVANAUGH LAKE GRANGE**  
Thirty members and friends of Cavanaugh Lake Grange met for a bounteous pot-luck dinner at the Albert Schweinfurth home Tuesday, Feb. 1.  
During the business meeting the charter was draped and a memorial service was conducted by the chaplain for the late Fred Notten, who was a charter member of the chapter.  
The program was carried out as follows: reading, "Worrier about Population Demonstrates Posterity Begins at Home," by Mrs. Max Hoppe; reading, "When Bertha Kate Was Young," by T. G. Riemenschneider; song by the assembly, "Follow the Green," talk on soil conservation and what is being done about it in Washtenaw county, by the chairman of the Washtenaw county soil conservation district, Dr. Steiner, of Saline; two films, entitled "Ireland," and "World Trade," shown by H. S. Osler, county agricultural agent.

**Schmeling's Earnings**  
Max Schmeling of Germany gathered in more American dollars, due to his prowess, than any other foreigner, and only four Americans—Louis Dempsey, Tunney and Sullivan—exceeded his total. Additionally, Schmeling made money through his fights in Europe, his exhibitions there, and his showing of American-made films of his battles. Schmeling rode to fame by knocking out Johnny Riski, the "Rubber Man," in 1929.

## British-Built Fort Lernout Lasted for 56 Years on Present City of Detroit Site

Fort Lernout, star-shaped symbol of the Detroit river, had an old history of British and American occupation before it became a part of the Motor City.

Hurriedly put together by the British during the Revolutionary War because of fear of American attack, the fort stood at the site of the present Federal building where a plaque now commemorates it, according to Dr. F. Clever Bald, assistant director of the Michigan Historical Collections at the University of Michigan.

In its 56-year history, the fort's high parapets twice enclosed the city, red-coated British forces and twice was the armed camp of frontier-minded American soldiers.

In that time it also had three official names.

The fort was up the hill behind Antoine de la Mothe Cadillac's original Fort Ponchartrain du Detroit, built in 1701, which then enclosed the tiny stockaded town.

Fort Ponchartrain had been taken over by the British at the end of the French and Indian War. But as the Revolutionary War raged, they felt the stockade would not be strong enough to stop the Americans, should they come up the Great Lakes. So they built Fort Lernout.

The typical European earthwork fort had cannon mounted on the ramparts. The ramparts were 26 feet thick at the bottom. An embankment and a ditch surrounded the fort.

However, this imposing structure never had to repel an enemy force. When the sharpshooting Americans took over in 1796 they did so as a result of Jay's Treaty. They renamed it Fort Detroit.

When the War of 1812 came along, Fort Detroit hummed with activity again as the British, through control of the Great Lakes, compelled the Americans to surrender Detroit.

The British held it until Sept. 1813, when Commodore Perry's cleverly won victory at Put-In-Bay tipped the scales of war in United States' favor. The British, having lost control of the Great Lakes, hurriedly evacuated the fort and fled across the river into Canada.

The King's men, under command of Gen. Henry Proctor, were caught and beaten by the Americans near Chatham, Ontario. Gen. Proctor fled the battle as Gen. William Harrison's men cut his troops to bits.

An interesting figure in the victory was hardly 65-year-old Isaac Shelby, Kentucky governor, who led his force of rifle-toting horsemen from his home state to the support of Gen. Harrison. In honor of this valiant old gentleman, Fort Detroit was renamed Fort Shelby.

When peace returned to Michigan, the City of Detroit grew so rapidly that it had almost engulfed the fort when the government ordered Fort Shelby abandoned in 1828. After the ramparts had been torn down and the ground leveled, the fort's area was turned over to the city and it swiftly became part of the downtown financial district.

Curricular Angling

Angling is now included as a regular part of the curriculum in some of our leading colleges and universities. Angling has become a billion-dollar business in the United States with 40 cents out of every sports dollar being spent in this agreeable pursuit. At the University of Michigan, angling is a fundamental of angling and in all branches of the sports the course requires eight weeks to complete, and emphasis is placed on practical value.

The student not only learns about methods of fishing, but how tackle is made, how fishing camps are operated, and how to become a successful fishing guide. It is the only class in which it is not necessary to assign home work. The students are simply told to go out and fish, and it is a command that is enthusiastically received and carried out.

Edited by the Journalism Club of the Chelsea Public School

CO-EDITORS

Roosevelt High School basketball teams of Ypsilanti, play here tomorrow night. The band will play during intermission periods, and an All-High party will follow the game.

The School District Planning committee will meet in the study hall at 8:00 p.m. Feb. 10. Wilfred Clapp from the Department of Public Instruction will address the group.

## REMEMBER THE GIRLS!

What are those yellow-looking, moth-eaten, out-dated "things" the basketball girls wear? Without a doubt, this description fits the girls' basketball uniforms. This fact is not surprising, however, since the uniforms are nine years old—at least—and the cheerleaders have no uniforms at all! Each cheerleader is in charge of getting her own uniform. Don't the basketball and cheerleading girls of Chelsea High deserve something better than this?

Here are some of the students' opinions on the matter:

IN BEAUTIFUL CHELSEA

"Have the Athletic Board buy them, even though they are in debt. If it's fair for the boys to get new uniforms and put the Board in debt, it's fair for the girls to do the same." (This was the opinion of most of the students.)

"Have the girls sponsor dances and bake sales to earn money to buy their own uniforms?"

"The G.A.A. and Athletic Board should work together in setting up a fund for this purpose."

"Girls on the teams should buy their own uniforms by setting up a system of counterfeiting money, or win the state basketball title and charge money to see the game." (This, of course, would be a last resort.)

"Have the girls charge admission to see their games. Hold these games in the evening so more people would be able to attend."

Other comments were to have the girls make their uniforms, or have the School Board buy them. These are some of the opinions, but at any rate, the basketball and cheerleading girls do need uniforms.

## AN HOUR A WEEK

"An hour a week"—that's all it takes to help Chelsea have another wonderful civic chorus. Before Christmas, Chelsea had a wonderful chorus and proved it when Handel's "Messiah" was produced. The "Messiah" was very beautiful and comments were made that the Chorus should continue and give more concerts. The Chorus is continuing, but very few people come.

Chelsea residents are always telling what a wonderful little town they have, and the full cooperation of all in helping to make a civic chorus could boost that pride, as well as to make other people from out-of-town be proud of Chelsea's achievement.

Now everybody can't sing well, but anyone who can carry the smallest tune will be of assistance. A civic chorus is made up of the

## Notice To All Humanity...

whole town, not just a very few. Other small towns have reached this goal and Chelsea can, too, if everybody helps. All that is required is one hour a week, from 7:30 to 8:30 every Wednesday. Now, that isn't much, and the results are wonderful.

Let's give up some other pleasure on Wednesday night and give "An Hour A Week" to help make a proud civic chorus for Chelsea.

## WHAT KIND OF RADIO PROGRAM DO YOU ENJOY?

Have you ever asked yourself what kind of radio program you enjoy best? Perhaps you have chosen them to fit the mood you are in. For instance, maybe you're a high school student just relaxing after a trying day of exams. Suddenly you find that you have forgotten to do the second part of problem No. 4, or you have interpreted a question the wrong way. What would you rather do than sit down and sink your teeth in a blood-curdling mystery?

Again you may be the girl sitting at home worrying about a date for the big dance—when what happens but that new boy in the fifth row of your English class

calls and asks you for that date! No doubt, then, you feel like dreaming over the music of "Swing and Sway with Sammy Kaye."

Or you may be planning a career as a radio comedian, and you enjoy the antics of Arthur Godfrey.

Well, no matter what mood you are in, you can usually find a program to keep you company!

## FISH OR FOWL?

Rising young sculptors? Well, not quite, but the art students must be given credit for their diligence. For the past two weeks they have been working industriously on soap carvings. The results were of various natures—being everything from owls to elephants. Perhaps these may not be called ingenious works of art, but there were many clever ideas, and it provided a great deal of enjoyment for both "carvers" and observers. They are on display in the trophy case beside the main entrance.

## MARCH OF DIMES

The importance of the March of Dimes was explained to the High school members last Wednesday afternoon by Mary Palmer. She pointed out the large expenses which have to be met for every polio victim. The fact that the money received from the March of Dimes pays for research work, the care of polio victims, and facilities, such as crutches and wheelchairs, was stated. An urgent plea for the students to give generously was made. At the end of Mary's speech the importance of the March of Dimes was realized by the entire student body.

Totals collected through last Friday in the campaign are as follows:

Kindergarten, \$21.00; 1st grade, \$18.00; 2nd grade, \$11.00; 3rd grade, \$7.14; 4th grade, \$8.60; 5th grade, \$15.02; 6th grade, \$9.50; 7th grade, \$25.28; 8th grade, \$13.77; 9th grade, \$19.09; 10th grade, \$19.80; 11th grade, \$14.41; 12th grade, \$12.73. Total \$196.26.

**THE VACUUM CLEANER**  
WE PICK UP ALL THE DIRT

A puzzling thought—how do Bob B. and Stanley K. distinguish their respective twin?

(A note to the lovelorn) Dear Marty: Your case is not lost. Competition may be moving shortly. A few weeks back the student body had trouble distinguishing the reason why Donna K. received

her halo in the pep meeting. Could it be that she is the only senior able to get an "A" from Mr. Chandler?

Bob Merkel seems to be an inspiring artist these days. His famous portraits seem to be the fascination of all who gaze upon them, with the exception of Marlene H. maybe.

To Mr. Cameron and Mr. Magiera: How does it seem to be gazing on a new set of faces second hour? To you, Mr. Cameron, no doubt, a relief, but to you, Mr. Magiera, well, you have our sincerest sympathy.

Have all you lovey-dovey little souls sent your valentines to your "one and only?" If not, you had better get on the ball! Sure wish those things would work on teachers!

Cheer up lassies and laddies, just think, only 125 more days before school will be over!

## THE FORTY-NINERS

It seems the stork liked the nice warm weather on Aug. 20, 1929, for on that day he circled the roofs in Chelsea, and, dropping a bundle of joy down the chimney at the home of Mr. and Mrs. Charles P. Slane. David John was the name finally bestowed upon that young, young man.

"Dave," as he is now known, has no favorite food—he likes it all! He goes for all sports, but keeps baseball in first place. "Showboat" is Dave's movie list, as does "Beyond the Sea" on his record. For recreation, it's dancing with the smooth and mellow playing of a good orchestra in the background (mmm! sounds nice!). It seems this boy with dark brown hair and sharp brown eyes has no pet peeves! Ah, well—he will!

Throughout High school Dave has been active in baseball, football, basketball, Hi-Y, Athletic

Board, and Chorus. He was president of Chorus last year and is vice-president this year.

Dave thinks parents should not choose their children's friends, and that students should earn their own spending money, because they will begin to depend on their parents for everything, including their start in life.

And there you have another breath-taking adventure into the life of one more '49er.

"Ah me," said a sleepy-eyed old stork as he winged his way across the sky, "that surely was a close one, but that little girl just had to be delivered today." The members of the Wellhauff family were very much pleased with his decision, for that night of Oct. 17, 1931, has a special meaning for them. At that time they acquired a new member and the town of Chelsea, a new resident. This little arrival was blessed with the name of Helen Mae, and also with brown eyes and hair.

Since then she has grown a little bit taller, but still five foot one isn't what the world exactly all tall. Now that Helen is a senior (Continued on page eight)

- The only time that it makes sense to put food in a freezer, is when foods are in season - - and that means a year's supply.
- But it does not make sense to store a year's supply of food, if after several months some of it does not taste good.

Eight years ago we started to build 15 experimental freezers (no two alike), to attempt to radically improve the keeping quality of foods, basing our designs on laws governing chemical reactions in foods.

One freezer in use 7 years, within 5 miles of Chelsea,\* has definitely established our basic principles.

Strawberries, Raspberries, Sweet and Sour Cherries, Sliced Peaches, Sliced Apples—ALL WITHOUT SUGAR—show a keeping quality, a flavor and freshness absolutely unmatched by any other freezer.

# POWER PLANT

**that uses its Head!**

THIS is the husky thrill-producer you find filling the bonnet of any 1949 Buick.

Look it over and you'll observe, among other things, that it is a valve-in-head straight-eight.

In simple language, this means that years ago Buick engineers lifted the valves from the side of the cylinder and put them on top—with some immediate advantages.

Such an engine "breathes" better. Gets a full, even charge on every intake—exhausts spent gases more easily—enjoys extra power, life and ginger.

And in such engines, compression ratios are relatively easy to establish. To step them up, the head is merely brought closer to the piston—no extra problems are presented getting fuel in and exhaust out.

Thus Buick power can—and has—kept pace with progress in fuels. Compression ratios suit gasolines actually available—and there's no

waiting for tomorrow's gasolines to get full performance.

There are other things to notice about this engine.

It's a Fireball power plant—uses a special and exclusive type of piston that gets more good out of each fuel charge.

And it speaks with soft, new quiet. Self-setting valve lifters automatically keep valves properly seated, ending tappet noises for good.

With gasolines getting better, the swing to valve-in-head design will undoubtedly grow stronger. But that is what Buick has had all along—a power plant that uses its head to give extra lift and thrill.

That's enough reason to see your Buick dealer now, with or without a car-to-trade, to get your order in.

## THE HI-LIGHT

(Continued from page seven)

In High school, she could be found most anytime at a soda bar drinking a lime phosphate and munching on a hamburger. Of course she would be listening to "The Old Lamp Lighter" even if it were her last nicker. "The Jolson Story" is Helen's favorite movie, and working at the local theatre she sees most of them. So all in all, with tastes like these, one can see that Helen's ideas are very similar to the thoughts and favorites of the rest of the "gals" in high school.

## SENIOR PEP MEETING

A heavenly vision was seen in Chelsea not long ago. Old St. Peter was there and so was the heavenly staircase. A few chosen seniors of '49 were placed in Heaven for various reasons. The Senior sponsors, of course, were kept out of Heaven. After they reminisced about the good old days some roaring cheers were given. One of

those marvelous speeches was given by Mr. Cameron, and speeches were given by the girls' coach, Miss DeRose, and boys' coach, Mr. Magiera. The vision came to an end as the angels lead in singing the familiar school song of their day.

## MOVIES

An assembly was called for all Agriculture boys last Wednesday from 12:30 to 2:30. The name? Oh! yes, the name. It was "Reasons for the Seasons." It stated the different types of machinery used on the soil and land during the course of a year. The Agriculture boys also saw a movie on tractors. This movie showed the developing of the world with the aid of machinery. Both movies were enjoyed by the Ag. boys.

The Home Ec. II girls were also treated to a movie. What was it about? The name was "Guide to Good Eating." Draw your own conclusions. The real question is, "Who was it by?" An appropriate answer would be "Walt Disney."

## IT'S ICE FISHING TIME!

Off to a slow start this winter because of weather conditions, ice fishing now is luring its thousands of devotees to Michigan's lakes. They can fish legally for just about everything except trout and black bass. Bluegills and sunfish can be taken through February 28. Above, L. H. Griswold of Munith catches bluegills on Houghton lake.

Comic characters portrayed the different vegetables as real live characters. It was enjoyed by all.

## "THE RAPTURE OF AUTUMN"

By Marlene Schneider

When autumn is near, and leaves turn brown, I delight in watching them drop to the ground.

The colors are many with beauty supreme: They fall to the earth, forming a stream.

The breezes all whisper as if to say: That summer is going; it is leaving today.

The spring is gone; it seemed so nice, And now comes fall with cold and ice.

When fall is near, and roofs grow white, The cold dark air flows through the night.

The chill of fall will come and go; The winter's dread we soon will know.

The birds have left; they're gone for a while, And for their journey we bless each mile.

Somehow I wish I could restore The spring, the leaves and birds once more.

This poem will be published in the "Anthology of High School Poetry."

## HOW TO MAKE MONEY ACT LIKE A BABY

It amazes a man—the way babies do it!

Grow, that is. You start out bragging about each new ounce and pound your newborn gains—and then that ever-growingness strikes home another way. You discover the mite is eating more—outgrowing clothes—costing more.

Wouldn't you like to be just as sure your money would grow, too?

You can be if you buy U. S. Savings Bonds regularly. The important thing is to start now so that every \$3.00 you put in will grow to \$4.00 in ten short years.

There isn't a surer, safer way to provide for the future needs of a growing family. Every dollar is backed by the U. S. Government.

partment, in some waste near the elevator shaft. Stock was valued at about \$45,000 and the loss was covered with insurance of about \$25,000. The building was owned by Wm. F. The Belser Hardware Co. suffered a heavy loss. Their stock of hardware and furniture was damaged by smoke and water which was estimated at about \$1,500. The loss by this fire was probably the largest one that has ever occurred here, estimated at nearly \$55,000, with insurance that will cover about two-thirds of the losses. Fortunately there was little wind and the fire department was able to confine the blaze to the Schenk building.

Automatic saving is sure saving—U. S. Savings Bonds Chelsea State Bank

Member FDIC—\$5,000 Maximum Insurance for Each Depositor.

This is an official U. S. Treasury advertisement—prepared under auspices of Treasury Department and Advertising Council.

This is a diesel... a modern locomotive that means better service to you.  
Leaders of two unions think it's a feather-bed... a make work grab that means less service to you.

Leaders of unions representing railroad engineers and firemen seek to force railroads to add extra, needless men on diesel locomotives. This is sheer waste—a "make-work" program which would mean fewer improvements and higher costs—for YOU!

Railroads use modern diesel locomotives because they are one of the means of giving faster, better service to you.

Two men compose the crew of a diesel. They occupy a clean, comfortable cab at the front. The engineer handles the throttle. The fireman sits and watches the track ahead. With no coal to shovel, he has practically nothing else to do.

No Benefit To You

Now the leaders of the Brotherhood of Locomotive Engineers and the Brotherhood of Railroad Firemen and Enginemen want to use the diesel locomotive as a means of forcing a feather-bedding scheme on the railroads. The extra men they propose to add to the diesel crews are not needed. There is no work for them.

The union leaders are fighting among themselves about which union should furnish these extra, needless men. The Brotherhood of Locomotive Engineers have even threatened a strike. You may not be interested in this dispute of these two unions, but you would be vitally concerned if these groups succeed in putting through this feather-bedding scheme, because it would mean a slowing-up of the improvement program of the railroads—of which the diesel is the outstanding symbol.

Diesel crews are among the highest paid

railroad employees—real aristocrats of labor! Their pay is high by any standard. Granting of these demands, therefore, would mean that the railroads would be paying out millions in unearned wages to those in the very highest pay brackets.

We'd Like To Spend This Money On You

You know how much the diesel has meant to you in increased speed, comfort and convenience. The railroads have many more of them on order for even greater improvement in service to you. But needless drains of money, such as this present demand of the unions for the railroads to spend money on better service to you.

Proud as the railroads are of the diesel, it is only a small part of their improvement program. Since the War, literally billions of dollars have been spent on improvement of

tracks and stations, on new passenger and freight cars, as well as on diesel locomotives, and on the many other less conspicuous details of railroading that contribute to improved service.

Feather-Bedding Means Less Service To You

But brazen feather-bedding schemes like the one now proposed would, if successful, divert large sums of money from our present improvement programs. Even worse, they make improvements like the diesel worthless, by making the cost of their operation prohibitive. These demands are against YOUR interests—as well as those of the railroads. They are schemes to "make work." Neither you nor the railroads should be forced to pay such a penalty for progress.

That's why the railroads are resisting these "make work" demands to the last ditch—and why they are telling you about them.

**Detroit Stock Show****To Be Held on State****Fairgrounds in Future**

When Michigan boys and girls bring their fattened, prize live stock to the annual Michigan 4-H Club Stock Show this year they will tend and exhibit their animals in high new style in the cattle and sheep buildings of the State Fairgrounds.

In this 20th annual show they will be accorded the honors they have proved they deserve through the championship quality of the thoroughbred lambs and steers they have taken to Detroit for 19 annual exhibits.

Decision to hold the show in the State Fair buildings was reached by members of the board of directors of the Detroit Junior Livestock Society, Inc., the show's sponsors, after they were informed the state was offering its use. At the annual meeting the board members outlined first plans to expand the show, add to its attractions for the young stock raisers, and generally produce fitting fanfare for champions auctioning at ever increasing record prices.

"The young people have proved themselves top stock folks by exhibiting under all sorts of adverse conditions at the stockyards," Charles B. Scott, newly-elected president of the society, said.

South Lyon—For the first time in about ten years, South Lyon has passenger train service. Grass Lake—George Berette, superintendent of Grass Lake schools, was killed Thursday at 5:55 p.m., in a head-on collision with another car on US-12. Berette was pronounced dead on the scene of the accident by Dr. Steele of St. Joseph's Mercy hospital, who happened to be passing.—The Grass Lake News.

**NEW VILLAGE POLICE CAR**

Dexter—This week Dexter's first police car will be cruising the streets here. For the first time in the history of the village Dexter will own the car that is used for police work here. Eventually it is expected that the police car will be equipped with two-way radio tuned to the Washtenaw county sheriff radio. This has been considered before, but the drawback was that the police car was not owned by the village and thus was not eligible for the radio equipment. Dexter's new marshal, John W. Palmer, will be starting on his job as the village's new peace officer with the new police car to use.—The Dexter Leader.

dential and state tickets on the belief that this separation would prevent Democratic state leaders from riding to election on the coat-tails of FDR. What happened last November? The dual ballot plan backfired. Voters favored Gov. Thomas E. Dewey for president, but switched over by hundreds of thousands to mark a cross in front of the name of Democrat G. Mennen Williams for governor.

The present reaction against the secret primary is also one aftermath of the defeat of Kim Sigler last November. People who voted against Sigler by voting "for Williams" are now inclined to condemn "glamour"—the handsome face on the billboard, the oratorical voice on the radio, the happy

personality on the platform. Would a pre-primary convention serve as a check against these? You're going to hear more in 1949 of Dr. Hale Brake's crusade for party responsibility.
