Michigan MIRROR

• Two developments have taken place in Lansing which puts Governor G. Mennen Williams in the familiar role of a state executive who seeks more power.

Correcting Hazards on Third Team Opens It was the theme of Governor Kim Sigler that the people held kim Sigler that the people held the governor responsible for results and that the governor should hold power in proportion to this responsibility. Sigler's efforts to centralize responsibility and power in the governor's office were rebuffed by the state legislature.

Kunzig was fired by two demo-cratic members of the state liquor Mr. M. W. McClure, control commission. The reason Village President, given was the civil service position | Chelsea, Michigan ger needed, and Kunzig's salary of \$10,000 a year should be saved in the interest of "economy." The Dear Sir: third-commission-member,-a-Republican, charged that Kunzig was ousted for "political reasons." of the above captioned premises.

Memories of old liquor scandals were revived and aired.

While Governor Williams mainWhile Governor Williams main-

tains he is not involved in the of 1941, as amended, we are ask-Kunzig row, it is unlikely that Kunzig would have been fired if Williams had opposed such action (30) days: by his appointees who had control. And so the controversy automatically puts the governor into the picture. Responsibility of the acts of appointees goes with the governor meeting State specification. ernor's power to appoint.

The Guild meets at the church and posters serving local markets also, a University of Michigan Brady of Pinckney, state chair man of Stewardship of the Women's Fellowship, will speak.

Yerising to the shift market mail turer, with local radio, direct mail turer, with local radio, direct mail and posters serving local markets also, a University of Michigan specialist in marketing, believes.

J. Howard Westing, associate professor of marketing, discusses ship quarantine was lifted, and left Friday by bus for the crosscountry trip home. He arrived in Ann Arbor about midnight Monday. His parents, Mr. and professor of marketing, discusses hand to meet him there. He is to report to Selfridge Field when he

means of consumer advertising for the small manufacturer in an ar-ticle published in the Michigan Business Review. The Review is a bi-monthly publication of the University's Bureau of Business Research.

"The outstanding advantage of the newspaper for the small manufacturer is that its coverage can be made to approximate closely the market for the product," Pro-fessor Westing explains. "One may argue that radio is equally local in its advertising effect, but the fact remains that most dealers think of the newspaper as the local supporting medium. This dealer attitude is particularly important to a small manufacturer because his brands can sell well against the competition of wellknown brands only if the dealer gives them active local support." Radio has made tremendous progress as an advertising medium, but it is most successful for products which are bought frequently, at fairly low price, and without a great amount of advance planning on the part of the buyer, Professor Westing points

granddaughters Gretchen and Kit Cook, of Romulus, who are spending some time with them, attended tions there were that harvest yields in the area would average less than half of what they were last than half of what they were last than half of what they were last the home of the section has suffered they were drought conditions.

In some time wath them, attended a birthday dinner at the home of the h ter of Mr. and Mrs. Donald Cook it is reported, estimates of yields of Caro, both of whom celebrated their first birthdays this week. Mr. given as follows: barley, 15 bu.; and Mrs. Donald Cook and daughoats, 21 bu.; wheat and durum, ter were also present at the din-

Legal Notices

Telephone Service
in Michigan Ends

Jonesville—The last instance of duplicate telephone service passed from the Michigan scene at midnight, Saturday, Aug. 27, for the first time in more than half a century.

At that time, properties of the Jonesville Cooperative Telephone company were consolidated with those of the Michigan Bell Telephone company in this community.

Jonesville has been the only exchange in the state where two telephone systems have been in operation.

The dual telephone nuisance sprang up all over the country upon the expiration of Alexander Graham Bell's patents in 1893.

The 525 telephone users here shed no tears at the passing of an era marked by inconvenience and double expense for some users here since 1921. The two systems were not connected except for long

WHEN YOUR GAS HEAT UNIT IS-INSTALLED CALL THE GAS COMPANY

To the many hundreds who have applied for GAS HEAT:

Since gas-again became available for house heating, hundreds of applications for this service have been accepted by us and more applications are coming in daily.

Very Important

As soon as your heating contractor completes installation of your new gas heating equipment and has lighted the pilot and put the equipment in readiness for operation, call Ann Arbor 2-3136—our Service man will come to your home, check the meter and connections, and the pilot, then you will be ready for cold weather. As there are hundreds of new gas heating customers, it is important to you that you notify us very promptly that your heating equipment is installed.

By doing this you will be entered at once on our books as a househeating customer, entitled to the low househeating rate.

MICHIGAN CONSOLIDATED GAS COMPANY

grandmother. He has been a pa- government out of 'the red;' and take the Reds out of the State **Trout Season Closes** 9 miles South of Chelsea to Rowes Corners, West to Sunday Except for Smith Road, turn right, second-place Specified Waters Saturday, Sept. 17

For the angler who still wants to fish for trout after Sept. 11, the conservation department points out there are certain lakes and streams in nearly half the counties of the state where only rainbows may be taken by hook and line through Nov. 30. Specific waters in which rainbow may be taken in twenty-three northern lower peninsula, eight upper peninsula and eight southern Michigan counties are listed in the fish law digest. The fisherman who has lost his digest pamphlet can secure another from his fishing li-

cense agent.

Waters close to heavier populated areas in southern part of the state still open to rainbow fishing are Orchard Lake, Oakland county; Lobdell lake, Genesee county; Half Moon, Big and Little Portage lakes, Washtenaw county; Muskegon and White Lakes and rivers. Muskegon county; Gull rivers, Muskegon county; Gull lake, Kalamazoo county; Swain's lake, Jackson county; Birch and Hemlock lakes, Cass county; and that part of Gull Lake, Barry county. Number per day and in possession continues at 15 (10 from designated trout lakes), but not more than 10 pounds and one

Some Dairy Owners Are Dehorning Herd for Animals' Safety

purebred dairy cattle have sub-scribed to a program of dehorning their animals. Nearly 75 Guernsey breeders in the "Thumb area" of Michigan have already adopted a plan to dehorn all heifer calves, according to Dr. Earl Weaver, of the Michigan State college dairy

animals or seen cows' production capacity lowered through damage to an udder by horns from another animal have reached the conclusion that production is more important than looks and tradition, Weaver remarked.

dent of the Thumb District Guern-sey Breeders' association, says: "The simple fact that horns should add or subtract the true value of an animal is strictly a condition of the mind. The primitive cow was in great need of her horns for protection. I hardly believe that this factor is ade-quate to encourage horned cattle

Dr. Weaver says some other breeders, even of Ayrshires, are eliminating horns from animals in their herd.
The MSC dairy head recom-mends that dehorning should be practiced with young calves to avoid a more severe operation which is necessary with adult an-

Rural Zele-news

GOOD CUSTOMERS OF YOURS—The average. Michigan family cats about \$500 worth of fruits, vegetables and dairy products a year. On this basis, Michigan Bell employees and their families consume about \$12,000,000 worth of farm products a year, much of which is produced by Michigan farmers.

HOUSEKEEPING NOTE - Can you imagine dusting the millions of tiny parts in telephone dial switching equipment? Michigan Bell does it by blowing out the dust with compressed air. In some telephone buildings a vacuum cleaner system is used to draw the dust into filters where it is collected for disposal. Good housekeeping helps to keep telephone service operating efficiently.

EVERY MINUTE COUNTS AT HARVEST TIME If your farm machinery breaks down, a quick Long Distance call will start spare parts on the way from your distributor or the factory. And when you're busy, telephoning is the easy way to keep in touch with friends and relatives who live at a distance. Service is friendly and courteous. And Long Dis-

tance calls cost surprisingly little.

TELEPHONE COMPANY
