# 49 PONTIAC

A Product of General Motors

## Here's Where the Best Begins!

You are face to face with something very special among automobiles when you become acquainted with a 1949 Pontiac—for here is where the best begins.

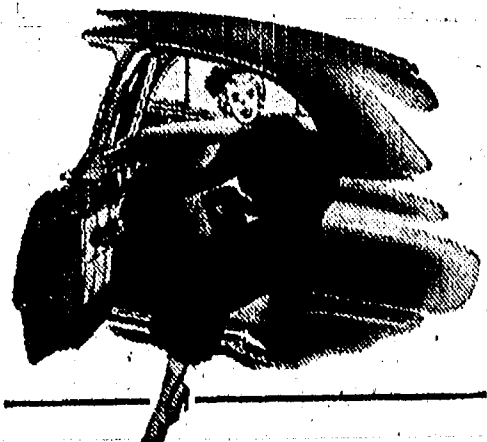

You can sense this, of course, simply by looking at Pontiac. Its Silver Streak styling has a sparkling personality all its own—it's far the most beautiful thing on wheels.

Your first impression is strengthened as soon as you step into the car. For everything about Pontiac is in the fine car spirit—its smoothly tailored upholstery, its smartly styled hardware, its wonderfully generous size.

Then get behind the trim, stylish steering wheel and you'll know beyond all doubt that here is automotive quality at its best! You will know why Pontiac's engines—straight eight or six—are called "the sweetest engines on the road."

These impressions of Pontiac become firm convictions as the miles roll by. For here is a car built to deliver economical, reliable performance for 100,000 miles—or more.

Drop in for a visit—and see for yourself where the best begins.

THERE'S MORE COMFORT IN A PONTIAC!

Everything you touch—everything you do—feels as much more in a Pontiac. The doors, for example, are wide for easy, graceful entry or exit. Pontiac's seats are wide and comfortable.

## \$10,000 Protection for \$10.00

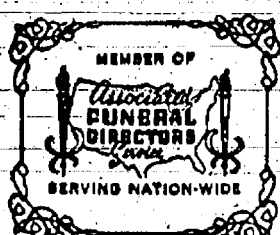

A roller skate forgotten on a stairway... a bicycle draped across the sidewalk... a back yard tussle between your boys and neighbors... a golf drive that got away... a pet dog with a taste for postmen's calves... any one of these could result in a costly injury; end up as a court judgment devastating to your family's financial security. The Family Legal Liability Policy gives you protection for the above.

The bridegroom formerly resided in Brooklyn and is a son of A. R. Hood, of Greenville, S. C. Mrs. Margaret Hood, of Seattle, Wash. He served in the U. S. Navy for 21 months during World War II.

### Address Given by FOE Editor Entered in Congressional Record

Chelsea's Aerie of the F.O.E. has been informed that an address given by Robert W. Hansen, editor of the national Eagle magazine, at the F.O.E. state convention in Detroit, in August, has been printed in the U.S. Congressional Record.

Hansen is a past grand worthy president of the Fraternal Order of Eagles and represented the Eagles on the round-the-world tour of Town Hall and America's Town Meeting of the Air during which visits were made to London, Dublin, Paris, Berlin, Vienna, Rome, Athens, Ankara, and Tel Aviv.

Others in the group completed the tour but Hansen turned back at Tel Aviv to enable him to return to this country in time to give his report at the Eagles' convention.

The report included interesting descriptions of the group's visits to the various countries of Europe and the Near East land, in conclusion, reads as follows:

"Realizing that world affairs are our affairs, we shall have to spend more time in working for people-to-people understanding of our common problems. In a democracy, it is the people who decide on foreign policies. If they do not know or understand or care, world peace rests on a shaky foundation."

"If you think, with all of the destruction of the war and the centuries-old problems of low living standards, the trying difficulties of living with Kremlin ruled governments, that candy bars to the 'babies' and packets of food to folks in a distant city mean little, we'd like to transport you to Rome."

"We are sitting in the office of the 'Rome Daily American'—an interesting newspaper founded by four GIs, across the table from young Paul Weisbrecker, news editor of the 'English language daily.' 'How do you account for the defeat of the Communies in Italy?' we asked Paul."

"Most important was the influence of the church," said Paul, "but second were the letters and packets of food from Uncle Giuseppe in St. Louis. The packages of food and clothing and letters from Italian-Americans, pleading with relatives and friends to stand firm against Communism, meant a whole lot to us."

"The Communists sent no letters. The Communists sent no letters. And when the Communist speakers said: 'America does not care. The big businessmen and imperialists in America do not care about the peasant and workers in Italy,' the little people of Italy said, 'But the people in America do care. They send us food and clothing. They do care about the ordinary people in Italy. They are our friends.'"

"And they turned out, those little people in Italy, to repudiate the greatest challenge to the western way of life, that post-war Europe has seen."

"So the things that may seem little are not so little. They point the way in which groups like the Fraternal Order of Eagles can make a contribution—taking just a little time and effort and interest—to link the cities of the Old World with the cities of the New World more closely together."

### DORCAS CHAPTER

Hostesses for the Oct. 13 meeting of Dorcas Chapter of the Congregational church were Mrs. Jean Conlan and Mrs. Mary Beal. Seventeen members were present for the evening's gathering which took place at the church.

Mrs. Jean Gage was in charge of the opening devotion which were followed by a Bible quiz with Mrs. R. W. Wagner as leader. The entertainment feature was a Halloween novelty presentation. Refreshments served by Mrs. Conlan and Mrs. Beal concluded the meeting.

Rodent Poison

Risks in using compound 1080, a

rodent poison, on range areas over

which sheep and cattle may be

herded are pointed up in a report

in the American Journal of Veter-

inary Research. Experiments at

the Colorado experiment station

showed that sheep, and probably

cattle, can become fatally sick by

consuming small amounts of 1080.

poisoned bait intended for prairie

dogs and ground squirrels. Feed

containing the compound was un-

palatable to sheep, but in spite of

that, they ate enough of it to be

seriously affected.

THIS BUICK SPECIAL 3-PASSENGER COUPE (Model 46) does double duty as a business car and a spacious carrier for the small family.

**R**UN your eyes over this fresh new beauty. Take in its style-setting non-locking bumper-guard grille, the graceful down-sweep of its fender lines, so unmistakably Buick; and we think you'll agree—

It looks like a lot of money—but the fact is, it's a lot for your money.

Take in those bigger interiors, the sofa-soft seats, the easy control and the high visibility you get from the more-than-generous glass area all around—and you'll beam at the news that this one's priced for really modest budgets, right down near the "lowest-priced three."

Beyond that—put this gorgeous new Buick SPECIAL through its paces.

Sample its valve-in-head straight-eight power—the lively, ever-thrilling kind that comes from a high-compression, high-pressure Fireball engine.

You'll find a ride that's pillow-soft smooth, level and steady. You get ample wheelbase—in shorter bumper-to-bumper length for easy parking, garaging, maneuvering.

You'll find a car that handles light as lace—made even more of a breeze by Dynaflo Drive, available at

**HOLE DIGGER, MODERN STYLE**—A Michigan Bell pole-hole digging truck. On the rear is a huge corker-crow-like drill. Where soil conditions permit, it bores down into the ground and digs a clean, deep hole in a few minutes. Then a derrick on the truck hoists the pole and lowers it into a hole. This is one of many modern, time-saving devices Michigan Bell is using to help speed more telephone service to rural areas.

**FAMILY AFFAIRS**—Throughout Michigan Bell there are many instances of two or more kindred employed by the company. In Detroit, for example, a mother and her three daughters work at a Long Distance switchboard. In Pontiac there are more than 100 employees included in mother-daughter, brother-sister, father-son, aunt-niece, sister-brother-cousin, and in-law combinations. In some cases, working for the telephone company has become almost a family tradition.
