## Michigan MIRROR

By Gene Alliman

● The "arsenal of democracy" for World War II is getting ready for World War III. While hoping that Russia would not precipitate another world conflagration, Michigan government and civilian leaders are taking a practical viewpoint. If war does break out, Michigan can expect a direct attack from the enemy for the first time in the commonwealth's history.

● Governor G. Mennen Williams has asked mayors of 45 cities, all over 10,000 population, to appoint civilian defense directors at once. A temporary air raid warning system will be placed into operation by Commissioner Donald Leonard, Michigan State Police.

● The governor was assured by Rep. Victor Knox, speaker of the House, that the legislature would convene promptly in the opinion of the governor, new legislation was needed to prepare Michigan for any emergency. The legislature is now technically in recess.

● At the Soo locks, the government closed the locks to visitors as a security precaution, labeled as a "10-day test."

● The state police radio network is being alerted for possible emergency use.

● In Detroit, where munitions were mass-produced during World War I at victorious volume, steps have been taken to notify the public. If Russia attempts a sneak attack by air, sirens have been silenced on police and fire equipment so that the sound of sirens, at any time, will mean that one thing was true—war.

● The fire warnings will be the whistles of 140 factories.

● Plans to evacuate industrial centers are being rushed, while first aid organization was being pushed to provide doctors, nurses and nurses' aides for bombed areas.

● All of these hurried preparations reveal the extent to which Michigan citizens have been suffering from war jitters.

● At Washington the Congress approved extension of the Draft, empowering the president to draft needed manpower for the armed forces, now 635,000 men short.

● Michigan's selective service machinery is being kept on a stand-by basis for instant call.

● This Thursday (July 6) at Lansing will bring all civilian defense coordinators for a state-wide session.

● Detroit's coordinator, Brig. Gen. Clyde E. Dougherty, gave this bit of advice, as published in the *City*:

"All I can say is be calm, don't get hysterical, get under cover, turn off the gas and lights, leave the radio on for advice, and have plenty of water available."

● Washington advice is that an outbreak of war would automatically invoke the most drastic restrictions on food, transportation, and materials. Prices would be put under ceilings; wages probably frozen.

● All of this disturbing preparation is likely, as long as the war clouds are on the horizon, to (Continued on page six)

### Three Candidates Seeking Positions on Board of Education

Polls To Be Open from 2 until 8 p.m. in High School Gym

The annual school election will be held in the High School gymnasium from 2 until 8 p.m. on Monday, July 10. There will be no annual school meeting as has previously been the custom here.

Financial reports, as printed in this issue of *The Standard*, and bulletin reports to the electors of the district will be available at the gymnasium on the day of the election.

Electors, to be qualified to vote at this election, must be citizens of the United States; must be 21 years of age, or over; residents of the state for at least six months, and residents of the school district for at least 20 days.

According to law, candidates' names must appear on the ballots in alphabetical order. This will place Sharrard's name at the top of the list, Mrs. Walker's next, and Widmayer's at the bottom.

Other names may be written in, if desired, according to school officials.

The two vacancies on the School Board are caused by expiration of the terms of Harold Widmayer, who is seeking re-election, and Mrs. Florence Mayer.

### Community Fair Committeemen Are Announced

John A. Glick, president of the Chelsea Community Fair, has announced the appointment of 1950 chairman of the various divisions as follows:

### Mrs. F. Mayer Retiring from School Board

Mrs. Florence Mayer, retiring member of the Board of Education, was treasurer of the board for four of the five consecutive years she served.

In announcing recently that she would not be a candidate for re-election she said she had deemed it a privilege to serve on the board but felt it was time "to make a change" after her five years as a school official.

Mrs. Mayer was well-qualified to serve on the board because of her interest in school affairs both as a former teacher and as the

mother of two children of school age.

Mrs. Mayer taught commercial subjects at Chelsea High school for several years before her marriage to Alfred Mayer.

### Candidates for Election as School Board Members

HAROLD WIDMAYER

Harold Widmayer, Chelsea area farmer, whose three-year term on the Chelsea Agricultural School Board expires this year, is seeking re-election to the post at next Monday's election. Having worked with present school officials in an effort to determine the plan for additional school facilities best suited to the school district, he is of the opinion that the problem would be most satisfactorily solved by building an elementary school, or preferably, two smaller elementary schools, at this time.

The two smaller schools, he said, would eliminate the purchase of an additional school bus and costly transportation of pupils within the village for whom no reimbursement would be allowed from the state.

Building elementary facilities, he said, would release seven classrooms for high school use and would adequately take care of high school enrollment for some time to come. He said his studies of the problem have led him to believe that this plan would work out to the best advantage for all people concerned.

The school building, he said, can be converted to high school use much better than it could to elementary use.

MRS. RUTH S. WALKER

Ruth S. Walker of Cavanaugh Lake, mother of two children of junior and senior high school age, is seeking election as a member of the School Board because, she said, she believed in an "all-over educational building program, but within the means of the community." Saying that the major problem confronting the School Board and the community at this time is the provision of adequate school facilities for all children in the district, she concluded by stating, "I feel sure that this can be realized if we build a functional type of building, delaying a few of the luxuries."

Mrs. Walker is a graduate of Michigan State Normal college and taught for five years in Pontiac schools. She is the wife of Lyman H. Walker.

DR. PARKER E. SHARRARD

Dr. Parker E. Sharrard, local veterinarian, is seeking election to one of the two places to be filled at Monday's school election. He agrees that the main problem confronting the Board of Education at the present time is the matter of added school facilities. He said that there definitely is a need for a new school of some type, the important question to be settled being the working out of a plan which will be satisfactory to a majority of the voters.

### All Invited To Bring Picnic Lunch To Eat at Official Opening

Pierce Memorial Park will be dedicated at a celebration tonight (Thursday) in a program sponsored by the Chelsea Chamber of Commerce. The celebration, which begins at 6 p.m. sharp, will be held on the park grounds on South Main street. Everyone in the community is invited to attend.

Picnic tables have been provided and committees are urging families to bring out picnic suppers. Local merchants are providing refrigeration facilities for the ice cream which is being donated and will be served free on the picnic grounds.

Playground equipment already in place includes two small teeter-totters for younger children, a larger one for older youngsters, three swings, and a trapeze bar.

George J. Burke, Jr., of Ann Arbor, will speak at the dedication ceremony and the Chelsea High School band will present a concert. This will be followed by a softball game for youngsters 14 years of age and under to be played on the newly-laid-out diamond at the north end of the park.

Howard Flintoft, president of the Chamber of Commerce, in announcing the dedication celebration, said that there is still much work to be done before all the improvements hoped for at the park site become a reality. This of necessity, will probably take a number of years to accomplish, he continued.

He said, however, that the Chamber of Commerce park committee members, Walter Harper, David Mohrlock, and Lloyd Heydlauff, are deserving of the gratitude of the entire community for their efforts over the past two years in pushing work at the park site and increasing the present condition of improvement which permits its use by the public this summer.

The four-acre plot comprising the park site is a part of the old Pierce farm taken up from the government in 1892 by Nathan Pierce, a grandfathers of the late Miss Alma Pierce, donor of half of the site. The Chamber of Commerce purchased the other half at a cost of \$2

Honoring Mrs. Vearl Whipple, teacher for the past eight years at Jewett-Stone school, who is moving Aug. 1 to Ithaca, pupils, parents and friends in the district gathered Sunday at the farm home of School Director George Erke for a pot-luck dinner. Also a guest at the dinner was Mrs. Whipple's husband. The Whipples decided to move to Ithaca so they could be near to Mrs. Whipple's mother who is past 80 years of age. Mrs. Whipple has accepted a position as teacher of the second grade in the Ithaca public school.

She said she regretted to leave the district and the community but felt it was her duty to be nearer her mother, who lives at Merrill, near Ithaca.

Visiting and games provided diversion during the afternoon and before departing, ice cream and cake were served by the children of the school. The cake served was a beautifully decorated birthday cake brought by Mrs. Arthur Grau in honor of her son Lloyd.

Approximately 60 men, women and children were present for the farewell dinner.

No Serious Injury  
in Two Accidents  
over Week-End

One car was completely demolished and another severely damaged in separate single-car accidents over the week-end in this vicinity. No serious injuries to occupants of the cars resulted.

About 10:15 Saturday night a car driven by Robert Sullivan, of Belleville, at a reported speed of about 45 miles an hour, failed to make the turn at the Methodist Home crossing of the New York Central tracks as it was coming into town. Crashing into the signal box the car bounded back and came to rest across the westbound railroad tracks. The car was demolished. Neither Sullivan or his passenger, Frances Merrell, also of Belleville, were hurt, with the exception of small cuts.

About 6:30 p.m. on Monday, Paul Karrenbauer of Massillon, Ohio, and his daughters, Janet, 11, and Sylvia, 15, were slightly injured when the car driven by Karrenbauer went out of control and crashed into a telephone pole.

Karrenbauer told sheriff's deputies that he believed something went wrong with the steering wheel as he attempted to turn from Cavanaugh Lake road onto Kalmbach road as he was traveling about 25 miles an hour. The right front of the car was damaged.

The 11-year-old daughter received cuts about the face and the father cuts on the knee and face. The other daughter received minor abrasions on the face. Mrs. Karrenbauer, the fourth passenger in the car, was unhurt.

## MICHIGAN MIRROR

(Continued from page one)

Michigan's big news of the week is the hurried preparation to get under cover from Russian bombing planes if and when war breaks. If war does not come, the preparations may be regarded as constructive for test training purposes. If war does come, a lot of people fear that Michigan may be caught unprepared. The big industrial centers and the Soo locks offer ideal targets, and a few bombs, placed accurately, could become miniature "Pearl Harbors" to expected to function, as it always does.

## Nearly Thousand Killed or Hurt in State Each Week

Nearly 1,000 persons are being killed or injured on Michigan highways each week, and speed is one of the principal causes, Sergeant G. H. Austin of the Jackson post of the Michigan State Police asserted today in urging motorists to cooperate in the present campaign to reduce the frequency of this most serious traffic offense.

"The slogan of the campaign, 'Speeders Lose,' has been well selected, for the records prove that speeders do lose," Sergeant Austin said. "Even when speed is not the direct cause of an accident it often contributes to its seriousness and means the difference between life and death."

"Not only was speed a factor in 500 Michigan traffic deaths last year, but it was also responsible for the serious injury of many of the 41,000 persons who were hurt in the 143,000 accidents that occurred in the state."

"Motorists should take heed of the fact that accidents are on the increase in Michigan. So are injuries and deaths. Many pleasure drives and vacation trips are ending in tragedy. The answer is that every driver, for his own sake as well as for the welfare of others, should drive carefully and alertly,"

and remember particularly that speeders lose."

Sergeant Austin also explained that where there is no specified speed limit, which is the case on most of the highway system, the state law provides that it is a violation to drive faster than conditions such as traffic, weather and time of day permit.

MARJORIE PROCTOR

## M. Proctor Receives 4-H Honors

Marjorie Proctor, daughter of Mr. and Mrs. Kenneth Proctor, and a member of the "Flying Fingers" 4-H club, led by Mrs. T. G. Riemenschneider, received two hon- ors at the 4-H Club Week activities at East Lansing last week. Appearing in the Style Revue Wednesday evening as Washenaw county winner, she was chosen as one of 30 girls who will style their dresses in the state revue contest at the State 4-H Show next fall.

The winner of that event will be eligible to attend the National 4-H Club Congress in Chicago in December. The second honor was awarded Marjorie last Friday when she was named the winner of the Danforth Foundation camp scholarship for her outstanding record of 4-H leadership in her community. The camp is held at Shelby each year, the last of July and the first of August. It is attended by a selected group of a boy and girl from each state and two from the provinces of Canada. The camp has national reputation in developing youth leadership. It is financed by the Danforth Foundation and one of the large commercial feed companies.

Eleven 4-H delegates from Washenaw county were a part of the 900 group attending 4-H Club Week at East Lansing last week. They returned to the county Friday afternoon with praises of the many interesting experiences they had during the week. This annual event at the state college is an affair attended by the outstanding 4-H members from different Michigan counties. Among the eleven delegates from the county were five from the Chelsea area. Betty Lou Bradbury, Marjorie Proctor, Linda Bradbury, Robert Breuninger and Stanley Toney. Of these, Linda Bradbury, daughter of Mr. and Mrs. J. C. Bradbury, won the Prairie Farmer award for the junior leadership project. She was one in the group of ten winners out of 30 applicants in this project. The award is a \$50 savings bond.

Chelsea area 4-H club members have been making fine records for themselves at all local, county and state affairs in recent years. Mrs. T. G. Riemenschneider's group has been especially proud of the fact that girls from the "Flying Fingers" club have won the county dress revue award the past two years. Last year's winner, Donna Lou Kalmbach, also won the state revue contest and went on to the 4-H Club Congress at Chicago. Marjorie Proctor's sister, Jayne, was a runner-up in the county revue at Ann Arbor. She is also a member of Mrs. Riemenschneider's group.

## ARTHRITIS - RHEUMATISM

Do you suffer the pains of arthritis and rheumatism? Do your shoulders, hands, knees, or feet pain you? Do you wake up mornings fatigued, actually more tired than when you went to bed? Do you feel discouraged and down-hearted, as though it were all impossible?

Well, dear friend, I have gone through all of this for twelve years, with very little relief after having carried on a program of treatment which cost nearly thirty dollars a month for several years.

During these last twelve months however, I have found blessed relief, all without the use of drugs and at a cost of about two dollars a month. I cannot express my full appreciation for the marvelous improvement I have experienced.

If you will send me your name and address, I shall be very happy to forward to you information regarding the nature of the product that has given me such wonderful relief.

## Tri-County Baseball League Round-Up

(Continued from page one)

Mason—Mason Merchants team jumped on Fowlerville's ace left-hander, Hank Green, for five runs in the first inning, but Green settled down and allowed only one other run to dent the plate while his mates were getting to Mason's starter, Norm Rector, to score a single run in the fourth, three in the fifth, and drove him to the showers in the sixth with a two-run cluster.

Fowlerville scored the winning run in the seventh as Lee Bowles was hit by one of Dick Corbin's pitches, stole second and scored as the Mason defense committed two errors. Fred Gillis led the hitters with two triples and a single.

## Police Remind Motorists of Risks in High Speeds

Chelsea police today likened the chances of a driver walking away from his car uninjured after striking a telephone pole at 60 miles an hour to the chances of an egg remaining uncracked after being hit with a badminton racket.

Their remark came in connection with the operation of the State Safety Commission's July program of traffic safety education, which has as its theme: "Speed Control."

"Roughly," they said, "the effect of hitting a solid obstruction at 60 miles an hour is equivalent to driving your car from the roof of a 10-story building. The damage to the car and occupants is the same in either case."

The State Safety Commission's program, this month, will emphasize to motorists the terrible en-

ergy and destructive power that is inherent in the speeding car. "At 60 miles an hour," police said, "the occupant of the car, if injured, is eight times more likely to die than if injured at 30 miles an hour."

One of the chief reasons that excessive speed is so often involved in traffic accidents, according to the State Safety Commission, is the greatly increased stopping distances incurred at high speeds. At 70 miles an hour, for instance, a car will hurtle along 100 feet in the time required for one short breath—one second.

The State Safety Commission's emphasis on speed this month is being sponsored in cooperation with the National Safety Council, and coordinated in Chelsea by the local police department.
