

Michigan has made the first move in the nation to develop a state defense council. Proposed to smooth over the transition from civilian to defense production, the council would attempt to organize the economic potential.

For the first time, Gov. Williams' corporation tax proposal has reached the floor of the state senate. The governor chortled as Senator George Higgins, said in a hearing, "What do you want, a corporation tax (Williams) baby, or my manufacturer's process tax?"

The process tax would put a three per cent levy on all machinery purchased which does not become a component part of the article manufactured. Manufacturers' agents screamed during the hearing. Observers have already buried the bill. But the hearing clearly was a Williams' victory—without a Democrat present!

The Vandenberg senatorial seat is still a big question mark. In Washington, D.C., the seers are asking Michigan prognosticators what is to happen—and in Michigan we look to Washington for the word.

While the draft continues to take more and more of our young people, Pontiac's Negro sage, 107-year-old Joe Cloves, says, "There wouldn't be no trouble in Korea if folks would do more praying and loving." He's one of eight Civil War Veterans still alive. He should know.

Washington has said it was a "regional office mistake" when it was revealed that bedridden war veterans were "talked to" in an attempt to get them to apply for TB hospitalization in other states. Says Guy F. Palmer, manager of the Detroit regional office, "It was not a mistake in this office. And he produced the orders—stemming from the nation's capital—telling him to move patients."

Michigan, of course, has the same TB housing problem as most other states. Although in the mill there are some 300 patients still in private homes because there are no beds in the hospitals.

A budget pinch is the reason for closing 13 Michigan veterans administration contact offices. Offices were shut down in Battle Creek, Flint, Jackson, Lansing, Muskegon Heights, Saginaw, Escanaba, Grand Rapids, Kalamazoo, St. Joseph, Marquette, Sault Ste. Marie and Traverse City.

Following another round of wage increase demands and the subsequent freezing thereof, Walter P. Reuther, president of the U.A.W. (C.I.O.), says that America must wage an "out-pace" to defeat world Communism. He also says, however, that we should build adequate military strength.

In Michigan, wage and price freezes, while expected, have left the public in a mood of "war readiness." The step was coming, it came and—what next? General feeling: It's war again; let's face it!

A permanent price administration is in the mill for the state. Philip Hart, baby-faced director of the Michigan Corporation and Securities commission, has been appointed chief.

It has been recommended that a civil defense committee be appointed in every school of the state. Department of public instruction asks that the institutions be ready—and who knows when the children should be evacuated?—one official said.

Michigan has 20,000 fewer farms than it had five years ago. Census takers found only 155,872 farms last year while they numbered 175,268 in 1945. But farms are larger nowadays.

News for trout fishermen: Conservation department fish hatcheries have released 2,204,000 trout in state inland waters in the last year. What turtles don't get, you can have.

## Bulldog Cage Squad Tied with Milan for Lead in League Race

Meeting Here Will Probably Decide Final Outcome

By DWIGHT GADD  
Chelsea High rang up their 18th straight win last Friday, 45-18, at the expense of an inept Saline squad that played control basketball and straggled defense all the way, all to no avail against the free-wheeling Bulldogs.

By winning the Bulldogs stayed tied with Milan, who made a poor prophet of yours truly by tripping U. High, 45-46, and both squads should stay undefeated until they meet here February 23. Last Friday's game was comparatively dull as Saline's slow-down game took the sting out of Chelsea's attack and completely ruined their own. Joe Colby, Saline coach, was happy just to keep Chelsea's score under their game average and cared little that it spoiled his own offense. It was the second time this year that the Bulldogs had been held to 45 points, the other being the final night at the Albion Tournament when they beat Parma, 45-50.

The Bulldogs led all the way as they led 4-0, then 9-3, and 11-5 at the quarter and 18-9 at the half. Saline would take one shot then scurry back on defense, and each time they had the ball they passed it around for 15 to 20 seconds before taking that shot. Chelsea's second half was again their own, but it was still tough. The Bulldogs posted a fifth straight win to Saline's four in the third quarter, and 14 to Saline's five in the last quarter, a win very one-sidedly and convincingly, however.

## Station Wagon Will Travel Difficult School Bus Routes

At the Chelsea Agricultural Schools Board of Education meeting Monday evening the bid of Palmer Motor Sales was accepted for the purchase of a station wagon. The board had asked for bids when it was decided to purchase the vehicle to provide transportation in certain areas in the district where it is difficult for school buses to travel.

The station wagon was ordered Tuesday morning delivery. It has been promised to be made as soon as possible.

Other business at the meeting Monday was the authorization for the purchase of additional tools and equipment for the farm shop classes.

Joe Fischer, art teacher in the Chelsea schools, appeared before the board in regard to a proposed school camping program at Cedar Lake. The camping, as planned, would be in cooperation with the Dearborn schools. The matter was discussed at some length but no action was taken at this time.

A number of visitors from the Chelsea area were present at the meeting.

## Polio Fund Total Still Increasing

Expect To Equal Last Year's Record Before Drive Ends

Mrs. Walter Mohrlock, chairman of the March of Dimes campaign, reported yesterday that contributions to date amount to approximately \$950. Three Chelsea industries had not yet turned in their contributions and the schools' contributions were not yet tabulated. Some coin boxes are still out also. Mrs. Mohrlock said she believes when the money from these three sources comes in, together with some still forthcoming from organizations and individuals, the final total for Chelsea will be almost what it was last year. The total last year was about \$1,300.

This week's contributions included \$100 from the Central Fibre company and \$72 from the plant's employees.

The coin boxes this year will account for approximately \$250 of the total as compared with \$150 from the same source last year. Mrs. Mohrlock said. She reminds people of the community that she will continue to accept contributions to be added to the campaign quota until February 15.

## Suggest Local Group Be Named To Aid in Planning

George D. Hurrell, director of the Washtenaw County Planning Commission, said yesterday that his suggestion to the people of Chelsea would be that a group of responsible citizens be named to act on a committee which would study the possibility of establishing zoning in the area adjacent to the so-called "mystery project."

Chelsea has a definite edge on the surrounding townships. Such a committee, he said, could study ways and means to prevent undesirable conditions from developing should the "mystery project" prove to be something that would draw large numbers of people to the community.

Working with the Planning Commission, the committee, expressing as it would the desires of the people here, could be influential in preventing in this end of the county conditions such as prevail in the Willow Village area on the east edge of the county.

Hurrell said he spoke for the entire Planning Commission when he made this suggestion knowing that all members would agree that such a committee would prove invaluable in pointing the way to better housing, sanitation and general living conditions in this area. The entire community would benefit from planned control of the use of land in the vicinity of the "mystery project," he said.

A committee, such as Hurrell suggests could possibly be composed of representatives of Chelsea and of Sylvan, Lima, Sharon and Lyndon townships.

The Planning Commission has been leading the way in efforts to have the Sylvan area declared a critical defense housing zone, thus assuring materials being channeled here for housing needs, and also assuring broader credit terms for home buyers.

Members of the Planning Commission have said that if the Sylvan township "mystery project" turns out to be a vast industrial enterprise, the establishment of zoning is a vital necessity and the sooner it is accomplished the better it will prove for the entire community.

After a Planning Commission committee reported its findings in regard to Kaiser-Fraser and Sylvan "mystery project" areas to the Commission two weeks ago it was decided to present the report as a recommendation to the Board of Supervisors in the hope that the Board would adopt a resolution directing the Planning Commission to take action toward having the federal government declare the two areas critical defense housing areas.

In an effort to speed up action on the matter, Earl R. Cress, chairman of the Commission, said last week he was planning to contact Senator Homer Ferguson and Representative George Meader in Washington but up until Tuesday evening of this week he had no further developments to report.

## Onion Warehouse Near Pleasant Lake Destroyed by Fire

The Chelsea Fire department was called out about 1:30 a.m. Tuesday to assist Manchester fire fighters in an attempt to save part of a stock of approximately 10,000 bushels of onions when a storage house on East road, near Pleasant Lake, was destroyed by fire. Also stored in the 45x110 foot building were from 450 to 500 bushels of potatoes. It was estimated the loss would amount to approximately \$40,000.

Manchester's fire chief, Lawrence Scheid, said it was not known when the fire started. A routine check of the building in the morning showed a 7 p.m. showed everything was all right then. When the Manchester fire department was called at about 10:30 p.m., the building was a mass of flames, Scheid said.

A 1,000-gallon gas tank and gas pump just outside the burning building was kept from exploding and other nearby buildings were saved.

The warehouse was owned by Thomas Walton.

ABRAHAM LINCOLN

... An Example for Every American

Biographers of Abraham Lincoln have shown that his greatness came not only from big things, but from the little things he did as well. On this Feb. 12, his birthday, it is proper that every American citizen follow Lincoln's example, by putting aside petty differences with his fellow citizens... and working together, that this nation may remain free!

**New in Style—New in Structure—New in Power—New in Thrift—Potent in Price Appeal—It's the 1951 BUICK SPECIAL!**

HERE is good news for folks with a shrewd eye for what their dollars will buy.

Here is a tidy traveler that defies the upward trend of costs—proudly wears a 1951 price tag like that which zoomed last year's SPECIAL into popularity so great that it put a crimp in "the low-priced three."

Take our word for it, this is every inch and ounce a Buick—Buick-featured, Buick-designed, Buick-built from the ground up—but literally the newest thing on wheels.

The sturdy and ample body is new. The high-strength frame is new. The power is new to the SPECIAL, which now has the

thrifty F-263 engine that first made its name in the SUPER, and here delivers 120 horsepower with standard transmission—128 with Dynaflo Drive.\*

It's a Buick with less weight and more power—and that spells a pair of new thrills for you. There's a performance thrill such as you've never enjoyed in the SPECIAL—plus a handsome gas-saving into the bargain.

We'll make a prediction now as to what title folks will give it, once they get it out on the road.

\*Standard on ROADMASTER, optional at extra cost on other Series.

That title in three words, will be: "Thriftiest Buick Yet!"

Better hurry around to your Buick dealer's and look this marvel over. We'll give you another prediction—which is:

Once this one's discovered, the demand will be terrific.

He has been teaching at the U. of M. speech clinic and appeared on the first U. of M. television program of the present series of Sunday afternoon broadcasts.

The speech correction program was begun here last year with Miss Ruth Baker as teacher. Because of her resignation just before school opened in September the program was dropped for the first semester.
