Among the 4-H clubs and members from Washtenaw county eligible to enter exhibits at the State 4-H Show in East Lansing this week are a large number from this vicinity.

Mrs. T. G. Riemeischnelder's Dutch-Cook club is exhibiting Outdoor Meals III. Kathleen and Janet Widmeyer and Jean Schweinfurth were to go to Lansing with the exhibit.

Mary Lou Sexton, in Food Preparation I, with the Dutch Cooks club, will enter muffins; Connie Steinbach, of Mrs. Darwin Downer's Good Luck Cooks, will exhibit cookies in the second-year class; Ruth Beupple, of the Wide Awake club led by Mrs. Alfred Kuhl, frosted cup cakes, a fourth-year project; Wanda Eschbach, also in Food Preparation, and Leona Hatt, in Mrs. Harley Hatt's club, angel food cake, in Baking IV.

Eligible to enter dairy cows are Lloyd Grant, Harvey Koselka and Donald Brocker.

Sheep entries are listed by Dean Fox, William Stoffer, Edwin Cox, Robert Heller, Doris Hatt's, Shirley Barth, Stanley Toney, Marlene Kuhl, Charles Trinkle, Robert Breuninger, William Nixon and Ronald Kuhl, and wool exhibits by Kenneth, Doris and Arlene Hatt, Lewis Hatt and Barbara Kuhl.

Horse entries listed are those of Robert Weiss, Nancy Van Riper and Edson Whitaker.

The Lima-Livestock club is to give a demonstration of a model business meeting.

Joan Lindemann has a garden exhibit entered and Phyllis Breuninger an exhibit of Family Living.

Mrs. Harley Hatt is spending the week in Lansing as a counselor.

It was pleased.

Consumers Power Company has asked permission to add 10,000 new gas space heating customers. Request arrived one day before federal restrictions froze space heating. Consumers vice-president, Mr. W. Arthur, said the timing was purely coincidental. "We filed the petition when we thought we were ready to add customers," he said.

Charles Figy, director of the state department of agriculture, was a bit crushed when he was criticized for NOT spending state money. The Michigan Association of County Drain Commissioners condemned him for sending only two (not four) men to a recent meeting. Says Figy: "Governor has asked us to cut down on all unnecessary travel." He saved the state \$200.

The Michigan State Fair has an estimated 15,000 exhibits, some 3,000 more than last year—a trend reflected in most county fairs this year.

Labor Day no longer marks the end of Michigan's tourist season. Recent surveys show some 70 per cent of the resorts in Western Michigan will remain open through September and some even in October.

**School District
Split, Joined to
Chelsea, Dexter**

Julius W. Haab, Washtenaw county superintendent of schools, announced this week that former School District No. 7, Dexter, has been divided between the Chelsea Agricultural Schools district and the Dexter school district.

The district, formerly known as the Johnson district, had been inactive for some time and children living in the area had attended schools in Chelsea and Dexter on a tuition basis the past year.

Individual descriptions of all property in the district are in the process of preparation and announcement of the school district to which each has been assigned will be announced as soon as the listings are completed.

For the present, the division has been described as follows: Children on Riker road, Island Lake road and Stoffer road will attend school in Chelsea; children on Madden road to be assigned to Dexter. About a dozen children are affected, approximately two-thirds of them being added to the Chelsea district.

Action on the decision to divide the district between Chelsea and Dexter was taken at last week's meeting of the Washtenaw county Board of Education, Supt. Haab said.

**Betty Blacklaw
Dies on Airplane
Returning to Home**

Betty Blacklaw, of Berkeley, California, who had spent the summer here with her father, Edward Blacklaw and family, died suddenly Sunday while aboard an airliner on which she was returning to California. The airliner made an emergency landing at the San Bernardino Army air base and doctors were waiting there to administer treatment to a vain attempt to save her life. Death was attributed to a heart condition with which she had been afflicted since early childhood.

While in Michigan this summer she had spent two weeks with her maternal grandparents, Mr. and Mrs. Pat A'Horn, of Bad Axe. She was born at Highland Park September 4, 1936, and lived in Chelsea about five years before going to California in 1944 with her mother, the former Elizabeth Smith. She was a sophomore at St. Joseph's Academy in Berkeley.

Funeral services and burial were to take place in California. Survivors are her mother, Mrs. Elizabeth Smith Blacklaw, of Berkeley; her father, Edward Blacklaw; two half-sisters, Vickie Lynn and Cynthia Lee Blacklaw; her grandparents, Mr. and Mrs. Pat A'Horn, of Bad Axe; and Mr. and Mrs. Edward Blacklaw, Sr., of Ferndale; and a number of aunts and uncles.

**Boy Scouts Return Saturday from
Camping Trip to Upper Peninsula**

Chelsea Boy Scouts returned to Chelsea about 6 o'clock Saturday evening from their six-day trip to northern Michigan and Wisconsin. The boys had a grand time and were going to start immediately on plans for another trip next year. The only mishap which occurred was when Douglas Collier stubbed his toe and fell into a bonfire sustaining burns on his hand. First aid was given immediately and by the time the boys arrived home the hand was healed up. The accident occurred Wednesday.

Camping equipment for the trip was purchased with the proceeds of the Boy Scouts paper drive. Each of the 16 boys who took the trip paid \$10 for the week's expenses and brought along some spending money used during the trip averaged between \$2 and \$3 per boy, according to scoutmaster Mac Packard.

Dr. E. J. Suttor and Mac Packard and each drove a car and Alex Suttor drove Homer Nixon's truck. The Chelsea Milling company provided a camp stove for the trip and Lloyd Heydlauff contributed the bottled gas needed to operate it. Ole Johnson loaned the outfit a car refrigerator. The car Mac Packard drove belongs to John Weber.

The hardest jobs on the entire trip, Packard said, was getting the dishes washed and re-loading the boys when it was time to move on. A log of the trip would read as follows:

**Schools in Top
Condition, Ready
for Opening Day**

Extensive maintenance work has been done in the Chelsea Agricultural Schools system this summer under the supervision of Russell Altstaetter, chief custodian.

Rooms 21, 11 and 12 and the Shop—room were painted. Also painted were parts of the basement, the restrooms, the stage walls and the hall in the gymnasium. Desks in Room 15 and tables in the Home Ec. room were varnished and small tables and chairs in the grade room were repainted.

Savage school was painted on the outside. Other outdoor painting includes the bleachers and hurdles at the athletic field, and all fire escapes and playground equipment. Lines on the gym floor were also renewed with coats of paint. All floors throughout the system were cleaned, sanded and waxed and drapes were cleaned and flame-proofed.

A conversion oil burner was installed at the Sylvan Center school to provide automatic heating of the building.

Many minor repairs have been made and a general clean-up has been completed.

Two of the school buses were painted at the Reo company plant in Lansing. The buses were painted in the new chrome yellow and black which is now the standard color required by law for school buses throughout the country.

All rural schools have been inspected by a sanitary engineer of the Washtenaw county Health Department and school officials are in receipt of a letter from the Health Department stating that all recommendations have been complied with regarding restroom facilities and water supply. The schools will be re-inspected after school opens.

**Watch Out for
Kids as School
Opens Again**

"How safe is my child?" Parents of children who are to begin school for the first time this month and this question their biggest worry, Chief George Doe said today.

"It is with the beginning of school," he said, "that the child most often breaks away from his parents' round-the-clock supervision for the first time and is exposed to the dangers of the street."

That parents are justified in their fears is borne out by National Safety Council figures, quoted by Doe, which show that throughout the country more than 1,400 children 5 through 14 years old were killed by motor vehicles as pedestrians and bicycle riders in 1950.

Since September, and the beginning of school, is a crucial month to the safety of youngsters, it has been selected for the State Safety Commission's month-long program of traffic safety education concerned with protecting children. The State Safety Commission's September slogan "Watch Out For Kids" is directed at the motorist, upon whose shoulders most of the responsibility for child safety rests.

Other phases of the program, however, will emphasize the child's responsibility in traffic, the parents' necessity for wise safety education at home, and ways in which schools can increase their contribution to the students' safety. The police department has been assured of full cooperation of Superintendent Johnson and other school officials.

"Safety," Chief Doe said, "is not a subject that can arbitrarily begin with the child's first day in school and end on the completion of his formal education. The child's education along these lines should begin as soon as he can comprehend simple instructions and should continue the rest of his life."

The State Safety Commission's emphasis on child safety this month is part of a nation-wide program being conducted in cooperation with the National Safety Council's Operation Safety plan and coordinated locally by the Chelsea police department.

**45 Grid Hopetuls
Report for First
Football Practice**

Forty-five boys came out for football practice at the athletic field for the first day's work-out Monday. School officials estimate that by the time school starts, approximately 60 boys will be on hand for the practice sessions. It is pointed out that all boys enrolling at Chelsea High school for the first time are welcome to practice now, as well as those who have attended high school classes here previously.

Through Saturday and next week until school starts, the boys are hard at work, practicing from 9:30 until 11:30 a.m. and from 1:30 until 3:30 p.m. When school re-opens the squad will go back to one practice session a day.

**School Bus
Schedules
Are Given**

Bus schedules as arranged for the beginning of the school year next week have been announced by School Superintendent Albert C. Johnson. He said that it is planned to bring all school children to the Chelsea school first and then take second and third grade pupils by bus to the four rural schools where they are to attend classes this year. Exceptions are to be made in cases where children live close to the rural schools.

Johnson said it might be necessary later to make some adjustments of the schedule. The routes are continually being studied, he said, for the safest and best way possible to connect the district and to constantly improve transportation.

The Chelsea Agricultural Schools district now has six buses and a station wagon in operation. A new, 54-passenger International bus was added this year.

**Pupils Return
to School as
Vacation Ends****All Students Asked
To Report to Local
School on First Day**

High school text books and lockers were being distributed and assigned yesterday and today at the school and high school pupils new to the system were being registered in the office at Chelsea High school principal.

Superintendent Albert C. Johnson said yesterday that everything is in readiness for the opening of school next week, Thursday.

With the exception of the kindergarten, all classes will report at the Chelsea Agricultural school at 8:30 a.m. Sept. 6. Kindergarten pupils are to be brought to school by their parents, those who must come by bus are to be at the kindergarten room at 9 a.m., and those who live within walking distance are to report at 1 o'clock in the afternoon. Parents of kindergarten pupils are being requested to come for their children Friday, Supt. Johnson said, as bus schedules for the kindergartners will not yet be completed. In instances where it is impossible for parents to come after kindergartners on Friday, they will be transported home by bus, but it will greatly help school officials and the teachers if parents can arrange transportation home for their children this one day. After the schedules are arranged the kindergartners will be taken home each noon.

Supt. Johnson emphasized that all children in the entire district are to report at Chelsea Thursday morning. Those who are to be assigned to attend classes in rural schools will be transported from here after they have first been brought together at the school.

Pupils in the various grades are to report to rooms as follows: kindergartners, in the kindergarten room; first grade, in the first grade rooms on the first floor; 2nd and 3rd grades, in the gymnasium where distribution of pupils will be made, the second graders being transported to Sylvan Center and Savage schools, and third graders to Riemeischnelder and Pumpkin College (children in grades 2 and 3 should bring their lunch whether they live in town or in rural areas); fourth graders will go to the former third grade room; fifth graders to the former fourth grade room; and sixth graders to the former fifth grade room.

Pupils in grades 7 through 12 will report at 8:30 a.m., in the study hall.

St. Mary's school schedule coincides with the public school schedule and will also open at 8:30 a.m., Thursday.

**Recreation Council
Reports Show
Successful Season**

The final meeting of the Chelsea Recreation Council for the present season was held Tuesday evening at the Chelsea Drug store. Charles Lancaster, chairman of the Council, presided at the meeting.

Reports given at the meeting show that approximately \$1,500 was accumulated for the budget through the generous contributions of organizations of the community, the villages, and individuals.

An out-of-town contribution of \$50 was received within the last few days from T. P. Flynn, head of the contracting firm doing the street repair work here.

Mr. and Mrs. Robert Harvey, who were in charge of the summer recreation program, reported on the various activities. Their reports included the fact that the Chelsea Junior Baseball team won the Southern Michigan Junior Baseball League championship again this year. Mr. Harvey suggested that the team be entered next year in the Ann Arbor Junior Baseball League. The latter league includes boys up to the age of 17, while the Southern Michigan age limit is 15.

The report the Harveys gave stated that from 65 to 130 youngsters attended the daily swimming program. Only six days were missed because of cold or rainy weather.

Reports of the playground activities listed daily attendance at from 40 to 120.

Red Cross swimming certificates were earned as follows: Life Savers, 8; swimmers, 10; beginners and intermediates, approximately 25 each. The presentations are to be made as soon as the certificates are received.

just can't keep POP out of the kitchen

Even the Man of the House who used to loathe the kitchen has fallen in love with Mom's new automatic Gas range.

Mom says that putting up with Pop's messing around the kitchen is a small enough price to pay for finally getting rid of her old stove.

Everybody loves the new automatic gas range. Mom spends a lot less time in the kitchen now—her range has precision temperature controls that hold the heat exactly where she wants it and frees her from boiling worries.

The 1951 automatic gas range has them all beat for cooking efficiency. No slow warming up, no slow cooling off. Full, intense heat instantly on ALL burners. And you're not limited to 3 or 5 or 7 cooking speeds. You get a thousand heats at the twist of your wrist.

NOW is the time to replace your hot old stove with a handsome streamlined AUTOMATIC gas range—cook COOL this summer.

Marilyn Klumpp, William Sturgill Wed in Grass Lake

Marilyn Ann Klumpp, daughter of Mr. and Mrs. Raymond Klumpp of Grass Lake, and William C. Sturgill, son of Mr. and Mrs. William C. Sturgill, of Bellaire, Ohio, were married Saturday afternoon at 2 o'clock, in the Grass Lake Methodist church, with Rev. Bertram McNally officiating. Can- delabras and baskets of white gladioli decorated the altar for the ceremony.

Carrying a white Bible topped with an arrangement of white roses and satin ribbon streamers, the bride wore a gown of Alencon lace and satin. The high neckline was finished with a small satin collar. The long sleeves ended in a pointed outline over the hands and the full skirt, trimmed with vertical bands of lace, extended into a lace-edged train. A satin cloche trimmed with pearls and orange blossoms held her fingertip length veil of French illusion.

Mrs. John Dewey, of Grass Lake, a cousin of the bride, was matron of honor. Her full-skirted gown of shrimp-colored taffeta featured a cape and a square neckline on the fitted bodice. She wore a headpiece of matching braided taffeta and carried white gladioli. Connie Hagler was the flower girl and Roger Butterfield was the ring bearer.

Ushers were Karl Sturgill and John Dewey, while G. E. Harold Hepler assisted the bridegroom as best man.

Science invades the silo
to aid dairy farmers

Michigan weather, especially in the upper peninsula, hinders the making of good quality field-cured hay. Tests conducted by Michigan State College's Agricultural Experiment Station measured the range of feeding values possible in hays put up at different periods during the hay-making season, using three curing methods: early hay crop silage, mid-season barn-dried hay and late field-cured hay. Michigan farmers who find it difficult to cure hay in the field will be interested to learn that more milk was produced on hay crop silage than on either field-cured or barn-dried hay. Further information on curing and storing forage is available by calling, writing or visiting your County Agricultural Agent.

From the arrangement of her "tools" to the filing of your stub, every step of this seemingly simple transaction is planned with efficiency and courtesy in mind. You never tried a fine car
like This One

YOU'VE a right to set your sights higher when you buy a fine car.

You can rightly expect more room—more comfort—more performance—and a lordly smoothness in the way it carries you.

So we present these facts:

You'll find, in a ROADMASTER, more usable room than you'll find in any other six-passenger car in America.

You'll find the extra comfort of double-depth Foamtex cushions in ROADMASTER only.

You'll find that the ROADMASTER has a high-compression, valve-in-head power plant that is also exclusively Buick's—a mighty Fireball Engine

endowed with more performance than most owners will ever need.

And you'll find that a ROADMASTER rolls with unsurpassed levelness and poise, thanks to coil springs on all four wheels—which is still another feature found on no other car in the fine-car field.

But the thrill that is yours, when you get this willing beauty out on the open road, is something that can't be summed up in any listing of features, one by one.

It's a "feel" which, we honestly believe, no other car can approach.

It's the sure way this dazzling

performer holds the road—the way it responds to your slightest wish—the quick answer you get when you nudge the throttle—the extra security you feel in the velvet grip of the brakes—the complete freedom from tension you find in Dynaflo Drive—the sense of mastery that makes every mile a joy.

And, confidentially, there's one more important way in which ROADMASTER stands alone, and that is in the modest cost of its pounds and performance.

Better come in soon and check for yourself what a great car and a great buy this one really is.

Equipment, accessories, trim and models are subject to change without notice.

Fall plowing gives the WD and its new 3-bottom plow a chance to show what they can do. Let us prove to you that the WD will do the work of a much heavier tractor and that the new square-bull plow is built to take it.

Two Allis-Chalmers features:

1. **HYDRAULIC TRACTION BOOSTER** automatically puts extra weight on the WD rear wheels as the drawbar load increases. Takes off the extra weight as soon as you pass the tough spot.
2. **THE PLOW IS FREE-SWINGING.** It follows contours and is free to dodge rocks. Short-coupled hitch gives quick penetration at the ends and mounts the plow bottoms close to the rear wheels for uniform depth control.

Let us prove it in your own fields.

MICHIGAN MIRROR

(Continued from page one)
● Vitorio, Red-hunting Joseph R. McCarthy will come before a Michigan crowd Sept. 14 when he speaks at the Branch county 4-H Club fair in Coldwater. His speech will highlight "Republican Day," an event of no mean importance in Southern Michigan.

● A huge display of military might at the National Air Races gave a Russian army officer a belly ache. After a quick inspection, Major Leonid Pivnev said: "I have a stomach ache. I think it's appendicitis. I'm going back to Washington right away."

● The Michigan State Federation of Women's clubs plans a campaign to establish a Girls' Town similar to Nebraska's Boys' Town. The state's 30,000 federated clubwomen will be asked to raise \$100,000. Land in the western part of the Upper Peninsula is being considered.

● A Detroit official urges prospective home owners not to be stampeded into buying by "wild talk" about "drastic shortages" of essential metals and its effect on future home building.

● There are 40,000 Federal employees in Michigan. Divided by 83, it works out to nearly 500 Federal employees per county. What on earth can they find to do?

● Polio the crippler is with us again—or yet, according to health department officials, this looks like an "average year," as no epidemics have been reported. They said 416 cases have been reported in the state thus far. There were 300 cases in the same period last year; 687 in 1949. The 1950 total was 2,029 cases.

● Unemployment insurance receipts hit a new high in Michigan in 1950. Insured workers in the state earned \$6,077,697,743 during the year. Insurance benefits paid out in the entire nation last year was only \$1,400,000,000.

FORDOMATIC

THE FORDOMATIC FORD
GIVES YOU AN ENTIRELY NEW KIND OF DRIVING!

OUTGOES THEM ALL!

Practically drives itself! Fordomatic thinks for you. It smoothly and automatically provides a countless number of drive ratios through which engine power is fed to the rear wheels.
You're boss every second. Step down on the accelerator and you get an extra spurt of power for hill climbing and passing. Going downhill you can shift to low at any speed for extra engine braking.
Easier rocking! It's even easier to "rock" out of sand, snow or mud with Fordomatic than with conventional drive. Just move the selector back and forth between low and reverse.
It's a gas-saving powerhouse! Fordomatic's automatic intermediate gear provides smooth, fast, economical "getaway" without wasteful engine racing. Uses no more gas than the savingful conventional Ford.

Combines best features of previous drives! Fordomatic gives you two automatic drives in one—a torque converter for smoothness—and automatic gears for get-up-and-go.

THE CENTRAL IDEA New York Central's Own "Fire Fighters"

1. QUICK-CHANGE artists are plentiful on New York Central. The shop mechanic may shift his overalls to a fireman's rubber coat. This section crew may change their motor rail car for a fire engine. All members of one of the world's largest volunteer fire departments.

2. FIRE TRAINS, manned by these Central volunteers, have everything from fire axes to gas masks—even carry their own water in tank cars. Smaller units have fire-fighting jeeps. The smallest units consist of just a specially trained man with a chemical extinguisher.

3. ON ALARM, these volunteers race to the rescue—not only of railroad property—but of any property in their reach. You'll find them beside the Forestry Service battling brush fires... or with local fire departments helping to put out some blazing plant along the line.

4. SO YOU SEE, these New York Central fire fighters are actually an extra volunteer department to protect you. It's just one more way in which your Railroad forms a living part of every community along its 11,000 miles. And that is always THE CENTRAL IDEA!

Poultry Growers Urged To Watch for Cannibalism

Washtenaw County poultry raisers were warned today to watch for cannibalism in their flocks when the young pullets are beginning to lay. Cannibalism often becomes a serious problem about this time of year. It's easier to stop any cannibalistic traits before they develop too strongly.

lets notice the blood and begin picking at the bird. Other possible causes of cannibalism, which brings severe losses in some flocks, are crowded conditions, extreme heat, laying nests too close to the feeding troughs or excessive nervousness of the flock. Cannibalism is strictly a habit after it starts. It sometimes develops to a point where a large percentage of the flock is killed. The most successful method of controlling the habit is debarking. This job can be done anytime during the chicken's life. This practice amounts to taking off about half of the upper beak with a hot knife. Debarking will not lower production nor lower the amount of feed eaten if feed is provided in feeders.

It may carry over from habits developed in the brooder house. Or, if it shows up for the first time when the pullets begin to lay, cannibalism may be the result of some pullets laying oversized eggs and having a "blow-out" or prolapse of the oviduct. Other pul-
