State political policies and campaign material is being molded behind the scenes by both Democratic and Republican State Central Committees. But little has been said for the press.

At a Democratic party conference at Mackinac Island "wholehearted support" was pledged to President Truman for re-election who has not yet declared himself in the race—the biggest outward political display in recent weeks.

At that same conference Vice-President Barkley waxed eloquent. Said the Veep: "Acheson has been hounded by men unworthy to lace his shoes... Truman will win again... No one has worked as hard as Harry Truman to prevent World War III... If the United Nations fails all hope for peace is gone... Every garbage can in the nation will be overturned to find something to use against the administration... World War II might have been prevented if the League of Nations had been stronger... And through Democratic efforts in the last 16 years the nation has been made economically strong enough to withstand defense spending."

The Veep has expressed his willingness, at 74, to run again.

Arthur Summerfield, Republican national committeeman from Michigan, was very angry at the Democratic conference. Gov. Williams had referred to him as a representative of "special interest." Summerfield called the Mackinac Island conference a "hoorah for Truman-Moody-Williams affair" and added the Democrats "don't care about the minks, stinks and pinks in Washington which have turned our national government into a farce."

Did you know—Michigan with 423 per cent of the nation's population paid 8.24 per cent of total U. S. tax payments? Combined efforts of Michigan, California, Illinois, New York, Ohio and Pennsylvania constitute one-half the nation's tax income?

An iron and steel shortage has been predicted "before many months" by Arthur J. Fushman, chairman of the Detroit Scrap Mobilization Committee.

At the end of the fiscal year (June 30, 1951) Michigan was \$41,000,000 in the red. June 30, 1950, the deficit was \$23,311,231. The last fiscal year was the fourth in which expenditures from the general fund exceeded revenues. In 1948 there was a surplus of \$33,000,000 in the general fund. Operating expenses for 1950-51 were about \$475,000,000 compared to \$443,200,000 the previous year. Most of the increase was in payments benefiting local units of government, Controller Robert F. Steadman said.

The Conservation Department wants red pine and white spruce cones to replenish state nursery seeds. District foresters will pay \$5 a bushel for red pine and \$8 a bushel for spruce. Cones must be ripe.

Adulteration of sausage and hamburger in Michigan is increasing alarmingly, according to the State Department of Agriculture. Twelve packers have been taken to court; 13 cases pending yet. Packers are inserting too much fat, milk, cereals and vegetable flour—a result of meat shortages and climbing prices.

A large—and pertinent—piece of Michigan's megalithic highway will be in operation by the time deer hunting season opens. The S. S. Vancatonland will begin operating at the Straits. The combination ferry and ice breaker will be 400 feet long and will carry 150 cars. Cost, \$4,600,000.

The Michigan Education association has complained that "irresponsible" attacks are being made on the school system by various national "front groups" with assorted selfish motives. MEA says they are trying to discredit the schools, reduce financial support and curtail programs. No names or groups were mentioned.

Mr. and Mrs. Robert Beckefort, formerly of Holland, moved to Chelsea last Saturday.

Mr. Beckefort is a second-year student in the Graduate School of Business Administration at the University of Michigan, and Mrs. Beckefort, the former Miss Shirley Hedell, who was first grade teacher last year in the Chelsea school, will resume her duties in that position again this year.

## Happy Youth Rejoicing as School Opens

School bells rang today for Chelsea youngsters as St. Mary's school and the Chelsea Agricultural Schools both began their fall classes this morning.

All children reported at 8:30 a.m. with the exception of the kindergartners, who reported on a schedule calling for rural children to come in at 9 a.m., with their parents, and those within walking distance of the school.

Speakers at the institute will include Dr. Otto Engleke, director of the Washtenaw county Health Department who will talk on the topic "County Health." He will also speak of the ideal attitude and role of the teacher in the civil defense program.

All rural schools in the Chelsea area opened Tuesday for the fall term. Mr. Haab said. Pupils in the Red School district, where the school is closed, are being transported to Manchester.

## Junior Baseballers Wind Up Highly Successful Season

The Chelsea Recreation Council sponsored two junior baseball teams this summer, with boys in the 12-15 year age bracket again playing in the Southern Michigan Junior Baseball league, and for the second straight year, winning the league championship.

The Junior Leagueurs won the crown by taking a two out of three play-off with Grass Lake, the only team to have beaten them this year. The boys began the season by beating Dexter, 4-1; then they took Stockbridge, 17-0. With these two easy wins behind them, they ran into strong Grass Lake team and came out on the short end of a 4-4 count.

Then after taking Stockbridge 12-6 and Dexter in a game which saw Chelsea score 15 runs in the first inning and then led Dexter a pitcher and catcher and still win by a 16-1 count, Chelsea met Grass Lake in the game which was to mean life or death, and won by a tight pitching battle, 2-0.

This victory forced the best two of three play-off which Chelsea won in two thrilling games, 3-0 and 7-3.

Players on this team were R. Bareis, B. Clark, D. Murphy, N. Buehler, B. DeFaut, R. Owings, J. Huff, E. Hankard, G. Weir, D. Mohar, and E. Hoffman. Chelsea had three very good pitchers in R. Hoffman, P. Bareis and B. White. The Pre-Teen team which was entered in the Ann Arbor Pre-Teen league, came in third with a record of six wins and four defeats. They played extremely well throughout the season and showed up well against teams picked from Ann Arbor's large population. The team members were J. Baxter, O. Richardson, H. Weinberg, R. Guest, Mike Murphy, Matt Murphy, G. Owens, G. Staffan, T. Schulze, G. Mayor and B. Weber.

Mrs. Clara Hutzel and Mrs. Ron Hutzel returned home Saturday from New York where they had attended the National YFW En-campment as delegates of the local YFW Auxiliary. They made the trip there and back by airplane.

All rural schools in the Chelsea area opened Tuesday for the fall term. Mr. Haab said. Pupils in the Red School district, where the school is closed, are being transported to Manchester.

## Three Generations in Haist Family Win at State Fair

Doris and Arlene Haist, their father, Erwin Haist, and their grandfather, George Haist, all exhibited sheep at the Michigan State Fair in Detroit this week-end and all were getting top honors in various divisions. Arlene's latest reports yesterday the girls had received two champion awards and at least two reserve champion awards in the junior show and their father and grandfather had been tied for the banner award on their Blacktop Delaine Merino sheep.

Arlene, 17, judging the Haist sheep, was unusually keen on all sheep, more animals being exhibited this year than ever before and all fine quality stock.

Doris exhibited Corriedales while others of her family featured the Blacktop Delaine Merinos. The girls' brother, Kenneth, helped them with the care of their sheep at the fair and also helped show them.

## Plans Told for Community Fair Events

### Livestock Entries Should Be Prepared Now for Showing

Preparations for the 1951 Chelsea Community Fair are in full swing, according to officials in charge of the various exhibits. In the livestock division there are certain rules and regulations which must be complied with before animals may be exhibited and prospective exhibitors are being reminded, for instance, that all hogs must be vaccinated, and that all dairy cattle over a year old must be given a blood test.

Those who plan to exhibit hogs at the fair may contact LeRoy Heller who will make arrangements with a veterinarian to vaccinate all the hogs in one day. There will be a small fee for this service. The arrangements for this vaccination before Sept. 15.

Gordon Van Riper is in charge of making arrangements for taking blood tests on dairy cattle. He should be notified in all cases where the services of a veterinarian are desired for the blood test at a nominal price.

The point to remember, according to fair officials, is that all dairy animals must have a blood test or must have been vaccinated within the last year or they cannot be shown at the fair. If dairy cattle have been vaccinated within the last year, and papers substantiating this are submitted to fair officials, another blood test will not be required. A blood test will not be required at this time either for dairy cattle shown by 4-H club members at recent shows, providing the blood tests required for those events were given within 90 days before the fair dates of Oct. 3, 4, 5 and 6. Proof of the blood tests, in the form of signed certificates, must be shown.

Everett G. Van Riper, in charge of the horse pulling events, said he would like to have all local team entries in as soon as possible so arrangements may be completed. A separate prize is to be awarded this year for local teams. Lightweight teams will be featured Friday afternoon, Oct. 5, while heavyweight teams will perform Saturday afternoon, Oct. 6.

Season tickets are now available from any member of the Library Board or from any of the librarians.

## Three Local Scouts Return from Trip to N. Mexico Ranch

Eagle Scouts Richard and Douglas Schneider and Life Scout Alfred Kickerbocker, who attended the Philmont Scout Ranch, Cimarron, N. Mex. for 13 days, returned home Wednesday, Aug. 29.

With 17 other scouts and two advisors, they left Aug. 13 and were joined by seven scouts and their advisor from Illinois at Kansas City, Kan. The party made the 3,000-mile round trip by train.

The scouts were on Northbound Expedition NH-14H. They spent the first day on horseback. They then took a 90-mile burro-back pack trip across the 130,000-acre ranch in 11 days. They crossed several mountain ranges and stayed at eight lesser camps. The nights were spent in tents. Cooking was done by the boys with the exception of six meals. The sleeping and cooking gear was carried by the burros, while scouts carried their personal belongings.

The scouts visited gold mines, caves, Indian graves and writings, the Santa Fe Trail, and many other points of historical interest, including the home of Kit Carson. The ranch has many wild animals and the local boys saw black bear, antelope, buffalo, wild horses, deer and beaver.

The Chelsea boys earned all four merits given at the ranch: Good Citizenship, Conservation, Horsemanship, and Naturalist; also, the only Philmont award, the Nature award.

Enroute to the ranch the scouts passed through the flood area. One of the local scouts described the flood as "terrible."

The Chelsea scouts said everyone had a grand time. It was decided to hold a reunion party some time in October. A grand reunion of the Michigan-Illinois boys who took the trip is being planned for next summer in Chicago.

## PALMER SCHOOL OPENS

Palmer school at Clear Lake, which had been closed for the past five years, opened Tuesday, Sept. 4, with 11 pupils. Mrs. Ruth Zeeb is the teacher.

The school was entirely renovated this summer at a minimum of expense by volunteer workers recruited from among residents of the district.

## Report from Washington

By Congressman George Meader

Washington, D. C.—What happens when the traditional American success formula of building upon hard work and conservative practices encounters today's bureaucratic regulation is particularly well illustrated in an instance involving a small Michigan industrial plant.

Two brothers five years ago began this industrial corporation in a small way. They limited their salaries to modest amounts and put their profits back into the company for expansion and improvement.

In those five years this company has increased its employment to 24 times the original roster; it has acquired a new plant eight times the size of the original one; its assets have quadrupled; its gross sales are more than six times greater.

The brothers depleted their personal savings accounts in starting the business. They say their salaries are out of proportion to company earnings and to their complete responsibility as owners-operators.

This spring, with the company on a stable, profitable basis, the brothers decided to increase their salaries to a point commensurate with their multiple duties. Promptly they discovered that they are barred from doing so under the wage-salary freeze.

They felt that they could obtain the rewards for their initiative, enterprise and industry by presenting the problem to the Salary Stabilization Board for fair consideration on the merits of the question, but they were not familiar with the procedure required.

In June, I was requested to advise them. Inquiry to the Salary Stabilization Board brought the information that they needed only to request of the board a ruling authorizing a specific increase in their salaries, basing the request upon a factual statement detailing the equities of the situation. A spokesman for the board expressed the opinion that on the basis of the situation as it was outlined to him there should be no difficulty in obtaining a prompt and favorable decision.

The brothers promptly supplied the Salary Stabilization Board with a history of their operations, their duties and responsibilities and their salaries. On July 31, however, I learned that no response had been received from the Salary Stabilization Board on the application.

From July 31 to Aug. 4, my staff sought an explanation from the board. Finally, the information was supplied that the spokesman who had answered the original inquiry had been too optimistic and was no longer in that division. The second spokesman explained that nothing could be done about the application because the Salary Stabilization Board still was acting under wage stabilization regulations and had no regulations which would provide the necessary yardstick by which to judge salary adjustments for owner-executives.

He added that there may be a provision later on for the processing of such applications, but could not indicate when it may be, and asserted that the Salary Stabilization organization must first acquire additional staff to analyze and pass on such cases.

I then sought to learn from Joseph D. Cooper, executive director of the Salary Stabilization Board, when the necessary regulation for the judging of this type of salary adjustments may be established. Despite daily attempts, it was not until Aug. 16 that my staff was able to make contact by telephone with Mr. Cooper. His explanation was that the board is concentrating first upon regulations which will affect persons considered to be most in need of salary adjustments, that some interim criteria had been established, but that none had been set up to cover owner-executives "because we consider they probably are already pretty well taken care of."

Because the Salary Stabilization officials appeared to be viewing my inquiry primarily as involving only the specific case of the two brothers, a letter was dispatched to Mr. Cooper on Aug. 20, explaining that my major concern involved the lack of a standard by which any case of this nature could be judged.

Under date of Aug. 30, Mr. Cooper replied as follows:

"The problem which this petition poses is one of many on which the Salary Stabilization Board is endeavoring to formulate a policy at the earliest possible moment. I cannot give you a definite date at this time as to when the formulation of this policy will permit us to rule (on this case); but you may be assured that the matter is receiving our earnest consideration and that our ruling will be forthcoming as soon as the necessary policy has been formulated."

Salaries have been frozen by executive order since Jan. 26, 1951. Seven months later, the only answer available to at least one class of individuals caught in this freeze is that it still is not possible to say when a policy may be available for consideration of any inequities.

It seems hardly credible that the excuse could be a lack of government personnel for the establishment and execution of policy. The Aug. 30 report of the Joint Committee on Reduction of Non-essential Federal Expenditures shows that the civilian payroll in the Executive branch of the government for the fiscal year ended June 30, 1951, was \$7,119,078,000, an increase of 17 per cent over the preceding fiscal year. It further shows an increase in total civilian government employment of 17,198 during July, bringing the total to 2,500,889 and indicating a 1952 payroll which will approach or exceed 10 billion dollars. This report further cites the Economic Stabilization Agency, of which Salary Stabilization is a part, as one of those in which the principal employment increases have occurred.

**The Gentleness of Christ.**  
IT IS NOT EASY to be gentle. Certainly few could approach the heroic gentleness of Christ. Nevertheless, the closer we aspire to get to Him, the more we must seek to emulate His spirit of understanding, compassion and forgiveness. To be truly gentle, we must never consciously offend or humiliate another, even the most sinful.

There are some who are gentle through mere politeness or aversion to strife. Others just do not care to exert themselves and would rather give way than assert their own or another's rights. These types of gentleness, however, do not command much respect.

On the other hand, to meet someone who is never cruel or mean, never exacting or domineering, is to encounter a person truly fit to be admired and imitated. Such people are unselfish to a high degree. They know the humility of self-control. They know the need for self-mortification in modeling oneself after Christ.

It is easy to recognize gentle souls. They never pass harsh judgments. They are always lenient in their attitude toward others. They never hold grudges. They expect neither honors nor favors, but are content with little. Above all, they possess patience, which has been called the truest fortitude.

In a world of strife and greed, gentleness would seem to have no place. But long ago a famous Roman philosopher wrote: "Gentleness and affability conquer at the last." It is significant that the Holy Spirit came in the form of a dove.

## Our Neighbors

Dexter—The \$395,000,000 bond issue of the Dexter Agricultural Schools district was sold Wednesday evening. The highest bidder was a syndicate known as First of Michigan, Inc., Detroit, composed of Braun, Bosworth & Co., of Detroit, and Watling, Lerchen & Co., of Ann Arbor. A premium of \$252.80 was paid on the bonds and an interest rate of 2.02601 per cent was offered and accepted. The board feels that this is a much better offer than would have been possible six weeks ago.—Dexter Leader.

Standish—Dreaded black leg has hit Arenac county dairy herds. Two cases, the only known so far, were reported almost at the same time by Dr. Connor D. Smith of Standish, and Dr. R. V. Humerickhouse of Lansing.

Dr. Smith was called to a case in Mehta Tuesday afternoon and Dr. Humerickhouse to one in Laundrie Settlement on Monday night. A cow died a few days ago on the same Laundrie farm, presumably from black leg although the farmer thought at the time it had been shot. Animals contract the disease by eating contaminated material from the ground.—Arenac County Independent.

Northville—At a special meeting of the Village Council Friday evening, negotiations were consummated for the purchase of the Blackburn property on East Main street. The land was acquired for the purpose of making an alley way and parking lot. The lot which is 66 feet wide, will be divided with the Village taking 56 feet and the First Presbyterian church taking 10 feet to insure their interests. Total cost of the property was \$16,000. The Blackburns expect to move their home to a lot on Orchard Drive opposite Grandview avenue.—Northville Record.

Rochester—In one of the most accelerated construction programs in the Midwest, Packard Motor Car Company nears completion

with the first stage of its expansion project adjacent to its proving grounds just southeast of Rochester at the corner of Mound and 23-Mile roads. A spokesman said that more than 1,200,000 square feet of building space will have been erected by early next year.—Rochester Clarion.

Frankfort—The retired clergyman from Benzle county was too fast for the city slicker. So Charles Anderson, 62, of 4138 Second, Detroit, is locked up and facing charges of obtaining money under false pretenses. The Rev. V. F. Cook, 74, had spent the week-end in Detroit and was waiting at the Greyhound bus station to return to Bendon. A friendly stranger struck up a conversation which ended with a little wager that Cook didn't have \$65 in his

purse. When the clergyman got his purse back after proving his point, it did contain four bills, but they were one's instead of the three 20's and a five that had been there before. Shouted Mr. Cook: "Help, police. I've been robbed." Two policemen responded immediately and grabbed Anderson.—Benzle County Patriot.

Manchester—The barn on the farm of Willard Mann, of E. G. Mann and Sons feed mill, located about one-fourth mile north of Manchester limits on the Manchester-Chelsea road, burned to the ground Saturday afternoon with a

total loss estimated at over \$15,000. The fire, discovered by Mrs. Mann and the children at 2:15, had gained considerable headway when the Manchester Fire Department arrived. In spite of their quick response, the barn, a 32 by 50 feet hip-roofed structure, burned in less than an hour. Inside the barn were 1,000 bales of hay, 350 bales of straw, two tractor plows, a drag, cultivator, cement mixer, in addition to smaller tools, fencing and new lumber, all of which were destroyed. No animals were in the barn at the time of the fire.—Manchester Enterprise.

Shouted Mr. Cook: "Help, police. I've been robbed." Two policemen responded immediately and grabbed Anderson.—Benzle County Patriot.

## It Wasn't So Very Long Ago

Items taken from files of The Standard of years past.

### 1 Years Ago ...

Thursday, Aug. 7, 1947—Mr. and Mrs. Fred A. Glenn returned home Friday from a 6500-mile automobile trip to California and other points in the west. Fire which began in a strawstack during threshing operations on the Claude Burkhardt farm on Territorial road, North Lake, Friday afternoon, destroyed the 36x100-foot barn.

### 14 Years Ago ...

Thursday, Aug. 5, 1937—Chelsea's new federal building at Main and South streets will be occupied by the post office and open for business next Monday morning. In addition to the regular force, Joseph D. Wright will be fireman and caretaker and Ed K. Miller will be chairman and mail messenger at the new office. The new building was erected at a cost of \$77,200 (including the site, construction, architects' plans and equipment). L. J. Kalmbach, second vice-president in charge of the reinsurance department of the Lincoln National Life Insurance company, was elected yesterday to the board of directors of the company.

### 24 Years Ago ...

Thursday, Aug. 11, 1927—After Aug. 14 the present speed limit of 35 miles an hour for motor vehicles will go into the discard. In its place will be the new restrictions requiring only that the driver shall operate his car safely. The American Light and Traction Co., of New York has purchased the controlling interest in the Washtenaw Gas Co., according to an announcement last Thursday by Charles R. Henderson, manager

of the Ann Arbor organization. The Ann Arbor company has been in business since 1859.

### 34 Years Ago ...

Thursday, Aug. 9, 1917—The two large barns and granary on the farm of Geo. T. English, south of town, were struck by lightning about 1 o'clock Sunday afternoon and burned to the ground. Mr. English was unable to get any response from the telephone and Mrs. English used the automobile to spread the call for help.

**TRAIL BLAZER**  
with plenty on the ball

How long since you lifted the hood of a car, and took a good look at what's beneath?

We like to have folks do that with a Buick.

You'll find that broad bonnet isn't put there for show. It's packed with horsepower—high, wide and handsome—more horsepower than normal drivers will ever use in full. And—if you're up to date on modern features—you'll find that this bonnet is packed with these too.

Do you know, for example, that every new engine introduced or previewed in recent years is built on the valve-in-head principle?

Score one for Buick. No Buick engine has ever been built in any other way.

Do you know what it takes to make full use of high compression? A valve-in-head engine!

Score two: Buick has been stepping up compression ratios for years.

But Buick has blazed one trail which other engines still haven't followed—don't ask us why.

Every Buick has a Fireball Engine which, as we've said before, is like having a string of comets by the tail. Fact is, in every flame-packed cylinder there is a comet—rolled into a swirling ball by a special turbo-top piston—touched off by a flashing spark every 5 inches you travel in a Buick.

That's why we're proud to show folks that Buicks have a Fireball Engine—and prouder still to have them take one of these thrilling performers out on the road.

Want to try it? Come in and see us soon.

The secret of Fireball Power is in the use of dome-and-dip design of the piston shown above.

Here's the piston inside the cylinder. As it moves down, the fuel charge rushes in—sets up a swirl when it hits the piston top.

The piston moves up—compresses the swirling fuel into the comet shape shown here. "Compression ratios" are simply a measure of how much the fuel is compressed.

The ball of fuel is compressed around the spark plug—lets loose its pent-up charge when the spark is fired—delivering a higher percentage of power from each charge of fuel.

**WEEDS AND GRASS** can be prevented from growing in between bricks in walks if you pour crank case oil over them two or three times a season.

A lovely finish for unpainted furniture consists of sanding the wood first, then applying a coat of shellac and sanding. Repeat sanding and apply a second coat of shellac. Sand again and apply a softy finished varnish.

Before driving a nail into plaster, hold the nail in hot water for a few minutes before pounding it into the wall.

When hanging pictures and mirrors, place two strips of cellophane

across in a cross on the wall before driving the nail in. It goes in smoothly and does not destroy the plaster.

If you have bricks around the fireplace, brighten them by scrubbing with hot soapsuds. Then coat with hot oil applied with a paint brush.

Glit picture frames can be cleaned by rubbing very gently with a weak solution of ammonia and water. Repeat, if necessary. Dry by patting with a very soft cloth.

If you nail a few pieces of rubber to the bottom of a step-stool or a ladder, this will prevent it from slipping.

New houses and rooms which are subject to dampness can be helped to dry quickly if you place some blocks of camphor in the corners.

When you paint ceilings and woodwork which is overhead, prevent the paint from dripping by cutting a rubber ball in half, making a hole in it and pushing on the handle of the paint brush, as close to the bristles as possible. This will catch any excess paint.

Mr. and Mrs. John A. Palmer of Winona, Minn., left Tuesday morning after a visit with the Elmer Lindemanns and other relatives here.

The R. G. Youngs of Detroit, who had visited here also, returned home Saturday. The Palmers and Lindemanns accompanied them to their Detroit home and spent the week-end there. Guests for a few days this week at the Lindemann home were Mr. and Mrs. Elmer Hammond and daughter, Alice, of Oxford, Miss. The Hammonds also visited other relatives and friends in this vicinity while they were here.
