Could These Be Signs of Early Spring?

Believe it or not, forsythia is in bloom under the snow at the home of Mrs. Edward Beissel on McKinley street. Ordinarily one of the first flowering shrubs of early spring, the forsythia flaunted its bright yellow blossoms for the past week until the snow came.

Mrs. Beissel also reported another out-of-season incident. Her son, Edward, who keeps bees, took a hive of them off the fence around the village water tower a week ago and put it in a hive at his home. The bees had made their own comb and had a quantity of honey stored in it.

When I Survey the Wondrous Cross

"The greatest hymn in the English language"

To attempt to single out any one hymn as "the greatest ever written" would create much controversy. Research on hymnody reveals many marked differences in opinions even of the most qualified critics. But in the final analysis, public acceptance over a long period of time seems to be the safest yardstick. This being the case, then, there are many grand hymns that could be called "greatest" but to select any one of the group would be simply a matter of personal preference.

Some years ago in England 3,500 citizens were asked to list, in order, their one hundred favorite hymns. August Toplady's "Rock of Ages" led 3,215 of the lists. Yet Alfred Lord Tennyson, who certainly knew his poetry and hymns, regarded Reginald Heber's "Holy, Holy, Holy" as the finest of them all.

Because few of the great poets have written hymns some critics are reluctant to regard hymn-

writers as poets. Yet, after listing hymns by Bryant, Whitier, Holmes and Longfellow, one critic opined that Joseph Gilmore's "My Faith Looks Up to Thee" was superior to them all ... and Gilmore did not even claim to be a poet!

Critic Samuel Johnson rather charitably and reluctantly mentioned hymn-writer Isaac Watts in his "Lives of the Poets" and apologized by saying that the little bachelor had simply done "better what no man has done well." But another noted critic, Matthew Arnold, so admired the poetry of Watts that he sang and quoted "When I Survey the Wondrous Cross" until 10 minutes before he died. And so go the opinions. In their various ways there were many "greatest" presidents and, because they have stood the test of time, there are many "greatest" hymns. The one Matthew Arnold called "the greatest in the English language" was written in 1707 and is still sung around the world.

When I survey the wondrous cross,
On which the Prince of Glory died,
My richest gain I count but loss,
And poor despise on all my pride.

Forbid it, Lord! that I should doubt,
That with the dust of Christ, my God,
All the vain things that charm me most,
I sacrifice them to His blood.

See, from His head, His Hands, His feet,
Sorrow and love flow mingled down!
Did e'er such love and sorrow meet,
Or thence compass so rich a crown!

Were the whole realm of nature mine,
That were a present for the small;
Love so amazing, so divine,
Demands my soul, my life, my all.

IN MEMORY In loving memory of our dear son and brother, Elmer Trinkle, who passed away fifteen years ago, November the first.

There is an open gate at the end of the road Through which each must go alone.

And there in the light we cannot see Our Father claimed his own.

Beyond the gate our loved one finds happiness and rest. And there in comfort in the thought That a loving God knew best.

Sadly missed by his parents.

World War II cost \$7,581 per man.
Says Rep. Gerald R. Ford, Jr.
(R-Mich.): The U. S. Department

cal organization "bogged down
with bureaucracy" and seeking to

"Talks Turkey" —Long Distance

People chuckled when they heard a home record to record the noise turkeys make. According to a buyer market chain, "Sonny" of them "My turkeys" themselves—listen to "They not only took the record!" they want the record! "Very simple," they're going to play it and speakers in their hands an announcer on record reminds the cus-

tomers that turkeys are plentiful and a good buy. From where I sit, it's not always smart to make fun of someone just because he does things a little differently. I think a glass of beer is the most refreshing beverage there is. You—or Sonny—may prefer something else. But who's to decide one's right and the other's wrong? Let's stay "on record" that everyone's entitled to his own tastes and opinion.

It has a Way with Women

SOMETIMES we think that too little attention is given to the fair sex in automobile advertising.

After all, it's the woman of the house who has to do most of the shopping, which involves getting into tight places at the curb. And it's surprising what tight spots a Buick can fit into at a turn of the wheel.

It's the woman who likes complete freedom from things that take an engineer to operate—and a complete and utter freedom from mechanical complications is exactly what makes Dynaflo Drive* such a joy.

It's the woman who has an eye for style and fine fabrics—and a nose for economy. On both counts, a Buick is tops.

But we suspect something else. We suspect that a woman gets just as great a lift as a man from commanding this great-powered and trigger-quick bundle of vitality to bow to her will.

Here's a car to win any woman's heart—by its level-gaited stride—its willing response to her hand on the wheel—its smart

style and its smart performance—its spaciousness and comfort—and its thrift.

How about taking time off, some afternoon, to boss around a Buick? It's a date that's bound to thrill you.
