

MacArthur has come and gone, leaving a ripple of approval. The Legislature has convened, causing a wave of dissent. It still can't get along with our governor.

The General in his famous style of delivery spoke softly and struck sharply at Communism and Socialism in Michigan.

In Detroit he blasted the "inroads made by collectivism" and said we need a "high level of state-manship dedicated to the common purpose of advancing a liberal and unexploited labor movement and industrial economy sufficiently free from government controls to maintain a reasonable profit potential."

"We must resist," he said, "the spendthrift policies of government which may bring us to the brink of economic chaos and are forcing upon us an irresponsible economy apparently to avoid the political impact of a return to the long range protection of frugality and reason."

"They (labor) must establish strong bulwarks against the pressure upon the free-labor movement by Communism, whose initial objective upon ascendancy to political power has ever been the worker's enslavement," the powerful speaker said.

The general's words are no longer news. But this thought is worthy of consideration—the general, despite his untimely suspension, has not been wrong yet.

Lake Michigan and her sister great lakes are slaughtering our beaches.

The rising waters of the lakes have caused millions of dollars in damage and pushed real estate values along the shore line down to nothing.

In 1946 the waters on the western shore of Lake Michigan gouged few expensive basements—but those were the expensive basements. The water receded and the entire state sat back and waited for the 20-year cycle to set in, but it didn't.

In 1952, new records were set for the total destruction. Entire tourist areas are being wiped out as if they had never existed.

The situation has reached the point where it has caught the ear of our August congress—which is doing little.

The St. Lawrence Seaway got (or has so far) short shrift, although it hasn't been shelved yet. Assistance to the owners of property has been denied by affecting them loans through the RFC.

But mostly Congress is waiting for the cycle to turn the pounding waves back to the low water levels they have maintained the last few years.

And don't think the waters haven't turned Frankenstein on the state lake Michigan, which for so many years has pulled dollars from all over the nation, has turned on the resorters who have been exploiting it.

Poetic justice, perhaps, but the tourist business in Michigan still ranks with the automobile industry and farming and Michigan can't afford to lose the revenue it brings in.

With the water level at a new high Lake Michigan and Lake Superior are hammering at the doorsteps of cottages and pulling mile upon mile of beach back into the waters.

Will the waters recede next year? They must. They can go no farther without inundating the entire peninsula. At least the entire state hopes so.

Donald C. Leonard, former state police commissioner has decided to take a whack at the gubernatorial chair.

While speculation ran rife as to what his political aspirations were, the political observers in the state were whacked back on their heels with the degree to which he aspired.

Few if any expected the successful police official to put his rights on such a difficult target. He enters the field against such seasoned campaigners as Fred M. Alger, Jr., secretary of the state; Bill Anderson, lieutenant-governor; now, and Eugene Keyes, Doctor-Dentist-lawyer who plays in politics because he has a fever.

Present hopes seem to center around the fact that he will take a passel of votes away from Detroit, where Williams and Alger were jostling for all but the Hamtramck ballot—which is already Williams!

Fluoride Treatment Scheduled

Eligible Children Should Register Now for Program

Children in this area will be given fluoride dental treatments again this summer, Mrs. P. E. Sharrard, Elementary PTA chairman of the project, has announced.

Parents who wish their children to take the treatments should register immediately by calling either of the following Chelsea telephone numbers: 6564 or 6482.

Applications should be made by Friday, May 23, but Mrs. Sharrard said that in cases where circumstances are such that the applications cannot be made then, the committee has agreed to accept a few applications later.

However, she pointed out, it is very limited to have the registrations made at this time so that arrangements may be completed and the time set for the treatments to be given. Present plans are to have the clinic at the school here early in August. Payment of the clinic fee (\$3.00 per child) must be made at the time of the registration and the payment will be refunded if it is found later that for some reason the child will not be taking the treatments. The committee should be notified in advance if the child cannot be present.

Children who should have the treatments this year are those who will be entering kindergarten in the fall and the children who are at the present time in the second, third and eighth grades.

A senior dental student from the University of Michigan who has been approved by the Michigan Department of Health, will give the treatments here.

The treatment, which includes a cleansing and four applications of the fluoride, is said to reduce the number of new cavities by approximately 40 per cent in a group of children.

Programs for this type of tooth decay prevention have been made possible through the cooperation of the Michigan State Dental Society, the Michigan State Board of Dentistry, the Michigan Department of Health and the county health departments.

The program here is sponsored by the Elementary PTA, with arrangements being in charge of the committee headed by Mrs. Sharrard. Others on the committee are Mrs. John Chaplin, Mrs. Claude Biles and Mrs. Clinton Collier.

Hearings Started on Cassidy Lake Murder Charge

Sylvester Salva and Jack Howard were examined in municipal court Ann Arbor, Monday, on murder charges in the March 31 death of Anthony G. Bedard at Cassidy Lake Technical school and were bound over to circuit court. They are to appear at 10 a. m.

The statements made by the two youths were read at the hearing. The statements did not agree on several points but both named Salva as the one who stabbed the murder victim.

Salva's story stated that Howard struck Bedard with a heavy pipe and that Bedard—alashed him with a knife as he stood up to help him. This so angered him that he stabbed Bedard, according to Salva's own statement.

Howard's statement said merely that Salva stabbed Bedard after Howard had knocked him down.

Louis E. Burke is Salva's attorney and John H. Conlin is representing Howard.

Bedard disappeared March 31 and his body weighed with a cement block—was found a month later in a septic tank on the Cassidy Lake school grounds.

It is planned to purchase several thousand more of the plants and trees for fall planting.

It was announced at the meeting that bulletins from the MUCC are to be posted with William Schantz and that membership cards will be available from him, also.

Walworth's Plane Trip to Austria Described in Letter to Parents Here

Mr. and Mrs. Kent Walworth have received a letter from their daughter-in-law who left here this month with her three daughters in a plane trip to Austria, where she is stationed with the Counter-Intelligence Corps.

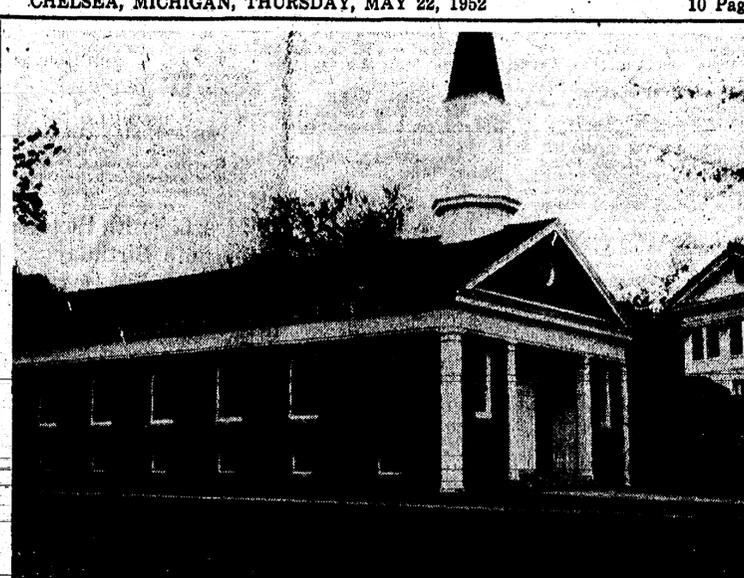

Mrs. Walworth gave an interesting account of the 3-day trip by air and bus which took her and her children from LaGuardia Field, N. Y. to their destination at Linz, Austria.

Leaving LaGuardia Field at midnight, May 6, they had breakfast at 5 a. m. in Newfoundland and then took off on the 13-hour flight across the ocean to Shannon, Ireland. They had eaten a box lunch at noon and had a hot meal when they reached Shannon.

After a two-hour stop-over they continued their flight, reaching Munich at 8 a. m. Thursday, losing six hours because of the time change.

They continued their trip from Munich by bus and spent Thursday night at the Officers' Hotel in Wels, Austria, after being met by Mr. Walworth. They reached Linz Friday and went directly to their apartment in the block-square three-story building in which the Americans and their families are quartered.

The apartment building is built around the four sides of a city block with arched entrances leading to an inner courtyard where the children play and where the residents' cars are parked.

Holme of Detroit, president of the Board of Directors, is chairman of the dedication committee. Bishop Marshall Reed of Detroit, resident bishop of the Detroit Conference, will be in charge of the dedication ceremony. The new chapel contains its own separate heating system and is connected to the Home by a closed breezeway so residents may attend services in the chapel without exposing themselves to inclement weather.

Poppy Sale Will Be Held Saturday

Members of the American Legion Auxiliary and Veterans of Foreign Wars Auxiliary have completed plans for the annual observance of Poppy Day to be held Saturday of this week, May 24.

Mrs. Elmer Mayer and Mrs. Paul Frayer are co-chairmen in charge of the project for Herbert J. McKune Unit No. 31, American Legion Auxiliary, while Mrs. Ren Hutzal and Mrs. Herbert Sanborn are heading the committee for the VFW Auxiliary, No. 4076.

The American Legion Auxiliary chairman, in urging support of the people of the community, point out that those who wear a memorial poppy on Poppy Day are paying individual tribute to those who have died for the United States in the three wars of the twentieth century.

The contributions made on Poppy Day, they say, not only shape the crepe paper flowers, but form the chief source of support for the vast rehabilitation and child welfare programs carried out by their organization.

Mrs. Hutzal speaking for the VFW Auxiliary mentioned that the poppy sale supports the National Home at Eaton Rapids where widows and children of veterans are cared for. The Home is described as the "best possible way" known at present for providing homes for these deceased veterans' dependents.

The VFW poppy is known as "Buddy Poppy." Part of the proceeds from the sale remains in the local treasury earmarked for relief work among veterans here, Mrs. Hutzal stated.

Portage Trails Council Will Hold Camporee

The "spring camporee" of the Portage Trails Boy Scouts Council, arranged by committees of the Ann Arbor Junior Chamber of Commerce, will have maps of Chelsea and the Waterloo recreation area prepared and printed. The project was approved after Mayer's report was given and the committee was empowered to have a substantial quantity of the maps printed and available for distribution at an early date.

Other business included voting to have all Chelsea stores remain open the Thursday afternoons preceding Memorial Day and July Fourth, both holidays occurring this year on Friday.

PTA Stamp Sales Total \$1,000 Plus

Mrs. Mnc Packard, of the Elementary PTA defense stamp sale committee, said that the stamp program in the elementary grades of the Chelsea schools was concluded Tuesday, May 13.

During the 16-week period the program was carried on this year a total of more than \$1,000 worth of stamps was sold.

Others on the committee were Mrs. Russell Feldkamp, Mrs. Edward Russell Hartford and Mrs. William Frelligh.

Installing Pipes

The roof is almost completed on the east wing of the new elementary school and workmen are completing as many of the walls and partitions as possible before the concrete floor is poured. The floor will be put in after the radiant heating piping is completed. The pipes are being installed at present.

Alger Motorcade To Visit Chelsea Monday Afternoon

Next Monday, May 26, Fred M. Alger, Jr., present secretary of state and a candidate for the Republican nomination for governor of Michigan, with his wife, will be at the Municipal building in Chelsea from 3:30 until 4:15 p. m.

The party will stop at the Ann Arbor club, Ann Arbor, for lunch at noon.

All the meetings are open to the public.

Stores To Be Open Thursday Before Memorial Day

Jack LaVanway, chairman of the speakers' bureau of the Jackson Junior Chamber of Commerce, in his talk at Tuesday's Chamber of Commerce meeting stressed the importance of turning out to vote in every election. The ballot is the most powerful force by which Americans can manage to keep what they have, including the American way of life, and to continue to improve the advantages they now possess in greater measure than many peoples of the world. Comments of the 40 members and guests present indicated that the address was extremely interesting. The meeting was held in St. Mary's school hall.

During the business session Carl Mayer reported for a committee in charge of the Chamber of Commerce project to have maps of Chelsea and the Waterloo recreation area prepared and printed. The project was approved after Mayer's report was given and the committee was empowered to have a substantial quantity of the maps printed and available for distribution at an early date.

Other business included voting to have all Chelsea stores remain open the Thursday afternoons preceding Memorial Day and July Fourth, both holidays occurring this year on Friday.

Methodist Home To Dedicate Chapel with Sunday Service

Construction Starts on North Main Improvement

Construction crews have begun work on the North Main street improvement program and most of the trees along the roadside have already been cut down. All the trees between the sidewalk and the road must be removed to make room for the new roadway.

A new 24-inch storm sewer to efficiently serve the east side of town will be laid under the road bed. Because the catch basins on both sides of the road will necessitate trenches across the entire road, the street will be closed to all traffic when the sewer construction begins.

Gould & Cross, of Grand Rapids, is the firm in charge of the construction job.

Memorial Day Observance Announced

Memorial Day exercises in the gymnasium at Chelsea High school have been eliminated from this year's observance of the day, according to an announcement by David Strieter, commander of Herbert J. McKune Post No. 31, American Legion. The Legion is in charge of the observance this year.

The program, as planned, will include the march to and from the cemetery and a program at the cemetery as follows:

Prayer, by Rev. W. H. Skentelbury; reading of the names of all deceased veterans of the community and the war in which they fought, by member of the Women's Relief Corps; Logan's Orators, read by Floyd Rowe; prayer by Rev. Fr. Lee Laige.

Following the rifle salute and taps the parade will form for the march back.

The parade will assemble at the Municipal building at 9:30 a. m. for the march to the cemetery. All service organizations, Boy Scouts, Girl Scouts, Relief Corps, VFW and American Legion and their Auxiliaries are invited to participate.

Strieter said transportation to and from the cemetery will be furnished for members of the Women's Relief Corps and for any other persons who do not care to walk to the cemetery.

After the program at the cemetery, the parade will return to the Municipal building and disband.

American Legion and Legion Auxiliary members will have a pot-luck dinner at the Legion Home at 1 o'clock.

Bishop M. Reed To Officiate at Special Ceremony

The new chapel at the Methodist Home is to be completed in time for its dedication at impressive ceremonies, May 25, at 3:30 in the afternoon. The rite of dedication will be performed by Bishop Marshall Reed, resident bishop of the Detroit area. A guest organist and soloist will add to the occasion, according to announcements made by Rev. M. J. Betts, superintendent of the Home.

The chapel is of colonial architecture, with a spire, and is constructed of brick, trimmed in white, to match the adjoining buildings. The interior is a combination of rose and white. The carpet and the dossier cloth behind the altar are red. The pews are white, trimmed in walnut, and are divided so that three persons may be seated in each section. Hymn book racks are under the seats. Communion fixtures are in the center of each pew section. The chancel includes a pulpit, lectern and altar, complete with cross, candlesticks and vases.

Indirect lighting is featured with the exception of two large chandeliers containing numerous lights. All lighting is controlled from the front hall and the chancel. A beautiful Baldwin electric organ installed in the chapel is the gift of the Chelsea Home Friends, the women's auxiliary of the Detroit Methodist conference. President of the auxiliary is Mrs. Paul Kepler, of Detroit.

Howard Shaw, of Detroit, in memory of his wife, made possible the beautifully appointed chancel. Memorial and other gifts included one in honor of Hiram Daley, for years a member of the Board of Trustees, and one in memory of Levi Bird, a member of the Board of Directors many years ago.

It is planned to have chimes that will ring out from the spire of the chapel in the near future.

An oil furnace provides heat for the building, and members of the Home will enter the chapel through a breezeway connected with the main building and will not be exposed to the weather.

Landscaping will provide a most attractive setting for the newly-constructed chapel.

The North-Moller company of Jackson, was the construction company and Lynn Fry, of Ann Arbor was the architect. Howard Chaplin, of Ypsilanti, was chairman of the building committee.

For a number of years past members of the Board of Trustees and Managers of the Home had anticipated the need for a worship center for members of the Home and one of the first gifts designated for a chapel came from the late Mrs. Anna Kresge. Other gifts for the purpose have come during the years. Then the Kresge Foundation added a sizeable gift which made possible the final construction of the chapel as well as the duplex home for retired ministers and their wives which will be ready soon for two couples.

There are now 134 resident members of the Home family with several more coming in soon. Rev. M. J. Betts has been superintendent of the Home the past four years.

"I REMEMBER" BY THE OLD TIMERS

From Miss Ruth Sweet, Waterloo, N.Y.: I like to think of the days of the nickel sodas when a young man was able to take six girls to an ice cream parlor and buy seven sodas for 35 cents.

From Mrs. Ada Short, Center, Texas: When my grandmother wanted us children to be quiet, she would tell us honest-to-goodness Indian stories—the trials and tribulations she encountered in a caravan from Alabama to Texas.

From Mrs. C. D. Hale, Mart, Texas: Do you remember when the daughter of the family would say, "Mother, do you think three petticoats will be enough?"

From Mary Karob, Lakeview, Ohio: I remember the peddling wagon where mother used to take her butter and eggs to the main highway to trade. The peddler used to blow a conch shell that sounded over the hills to let us know he was coming.

From Curtis W. Robertson, Kansas City, Mo.: I remember when I was a very young man living in Lathrop, Mo., I sold stereoscopes. I remember going as a boy to my great grandpa's to roll papers to light her pipe and the oil lamps.

From John B. Simpson, Cincinnati: I can remember when we had to wear one pair of leather boots all winter. We would have to go barefooted until well up into the winter, and then my father would get on a horse and go get us a pair of red top and brass-toed boots, and come riding home with them slung across the saddle.

Signal Before Making Turn, Safety Experts Say

Chief George Dus announced the beginning of the fourth week of the safety campaign against left and right turn violators who are causing accidents.

As indicative of the public interest in the "Signal When You Turn" program the Chief said he has heard that many motorists have complained that the slogan should have been "Signal Before You Turn." According to the Chief, it is important that turn signals be given far enough ahead so that they give advance warning to other motorists and pedestrians. In fact, it is often necessary to give a hand signal before turning into the correct lane prior to making the turn at the intersection.

Common courtesy, as well as safety, is involved in making a turn, according to Chief Dus. "A person who fails to signal before turning left not only produces a hazard but he may hold up the car behind unnecessarily." Another case is where a driver has to wait at a signalized intersection before making his left turn because of oncoming traffic and notices another driver behind also waiting to turn left. In this case it would be common courtesy for the first car to pull up into the intersection a little farther to give the second car room so that they could both complete their turns when a gap in traffic appeared.

In conclusion, the Chief said, "Signal When You Turn really means Signal Before You Turn. Please cooperate with the local department and the Michigan State Safety Commission."

BUY THE FOOD FREEZER THAT HAS BEEN PROVED "BEST by TEST!"

THE Amana UPRIGHT FOOD FREEZER

Best by Independent Laboratory Tests!

- Independent laboratory tests of the 9 major brands of food freezers prove conclusively that the Amana Upright freezes large quantities of food faster than all other freezers tested . . . and at the same time consumes less electricity!
- The Amana Upright maintains zero temperatures more economically than the average of all other freezers tested.

Tests conducted by Electrical Testing Laboratories Inc., New York, N. Y.

YOU FREEZE FOOD FASTER AND STORE IT WITH GREATER SAFETY IN THE **Amana UPRIGHT**

The money you save on quantity purchases is lost unless the food is immediately processed. In order to prevent deterioration, garden or farm produce similarly, will spoil unless quickly preserved. Although many freezer manufacturers recommend fast freezing about 35 pounds of food at one time — the Amana can fast-freeze as much as 75 pounds of food — and even more — at one time. No wonder everyone is demanding Amana Uprights . . . the freezer of the future!

MICHIGAN MIRROR

(Continued from page one)

Well, here we go again. The Michigan legislature, probably the most volatile outfit in the nation, is back again. Members are squabbling, squawling and bleating for more of this, less of that and none of the in-between—which is as ambiguous a statement as can be found this side of the liad. But what is more confusing than our state government these days? It's a story as old as politics and who are we to change it? Not until we have a one-party administration, that is, or until that nebulous walcyn day when non-partisan politics takes the conflict—and the interest—out of government. The legislature, grumbling in its collective beard, is back again at Lansing this week, snarling and snapping at anything which doesn't follow the party line.

The Republicans face a beautiful impasse. They look down the throat of taxation and appropriation knots they left not too long ago. After whomping up what they figured was a taxation program to fulfill the budget (some \$38,000,000) they gave up and went home, a head-chunker for reasons which are old hat by now. And the tax difficulties are complex enough to keep the estimable lawmakers in session for quite a spell. Of course, the GOP could override the vetoes on the two tax bills—Williams has stomped on, but the Republicans just don't have the two-thirds majority in the house of representatives to do it. They'll make a fast try but it's a waste of time to even consider it.

Then, if the Republicans adjourn the session Williams can call them back into special session and dictate the subject matter—and you may be sure it will encompass his well-worn corporation tax. However, if the lawmakers reason and the Republicans have a simple majority to do that—they can let their committees work on the tax situation.

Sen. George Higgins, the dynamic gentleman from Ferndale, says he has three more tax bills which could solve the fiscal problem. What are they? The used car dealer who votes Republican won't say—but he votes hint that one of them is a revised form of his original used car tax bill, the one which met such a cold eye from the governor.

Of course, there is the old discussion of the original Republican program. Williams says the GOP \$38 million plan would have yielded a small \$17 million. The reason for the transfer, which Higgins claimed would raise some \$12 million (Williams said it would add a slim \$3,440,000 to the general fund) and a liquor-handling tax the GOP figured would add around \$3 million (Williams said \$1,021,000) are dead dodos. That is, unless, of course, they can be revised to meet Williams' objections.

The governor has asked that from \$1,250,000 to \$1,500,000 be appropriated to repair the riot damage at Jackson prison. And he wants more cash to hire more prison guards. This doesn't include, of course, the expected request for money to expand the state police, which the governor says has been below the margin of safety for years. Now add up these little problems and you will find one gigantic headache for Michigan Republicans: How to keep their tax program and still raise money for the articles the people darn well will insist on. The Jackson affair has acquired too much publicity and is obviously too serious a situation to pass off.

But the present budget won't allow for it without adding more to the deficit. If Republicans don't raise the money their reputations are at stake—say nothing of their votes. If they do raise the money Williams will veto the bills. Political volley ball of the season, of course, is the Jackson riot. Two days it was biggest story in the nation, four days top in the state and it still merits page one play whenever one of the myriads of investigators opens his mouth. The Republicans say Williams sold-out—the state Democrats declare just as firmly that the nigardly GOP legislature refused to allot funds for proper maintenance. Probably both sides have points, but this coming election is going to be so covered with such screening issues the real points will never reach the sunlight. It'll take a discerning voter to penetrate the smoke and dig out the real battle lines—which, incidentally, neither side has made quite clear to capitol observers yet—except for corporation and non-corporation tax land mines.

Salary and wage costs to some 25,500 state employees and officials hit \$108,614,469 in the last 10 months. In the same period of the first Williams administration there were \$88,431,465 and 10 years ago the total was barely \$42 million. But the legislature promises that by the end of the fiscal year there will be from 800 to 1,000 fewer state employees. The agriculture department warns that Michigan may face another invasion from forest tent caterpillars this year. Last year more than 800,000 acres were stricken by the pests. Could be worse this year. Mostly the upper peninsula suffered, although some of the caterpillars appeared around Grand Rapids and Battle Creek.

Distilled Water Where does the oxygen go when water is distilled? Distillation does not cause a separation of the oxygen contained in water. When water is heated to 212 F it is converted to steam. The molecules are farther apart and more free to move than in the liquid, though each molecule of steam consists, as in water, of two hydrogen atoms attached to one of oxygen. Steam has to be heated to about 2000 F to cause even a slight dissociation into its separate elements. At temperatures as high as 5000 F only about 11 per cent is broken up into hydrogen and oxygen.

FREE AIR

White sidewalls optional at extra cost.

It gives this old familiar sign new meaning

Would you be interested in getting one gallon free with each tankful of gasoline you buy?

Then we can tell you this: It will certainly be worth your while to read this brief story of Buick's new Airpower carburetor.

Truth is—a skillful driver can just about double the bonus we mention, if he makes the most of what this year's ROADMASTER has to offer.

The reason you can get such a bonus is due to a pair of simple facts:

- (1) It's a mixture of gasoline and air that gives you power.
- (2) Buick engineers have come up with a barrel automatic carburetor that lets you use more gallons of fuel.

Most of the time, only two of these barrels are needed—and they feed such a thrifty mixture that you use less gasoline at 40 mph than you'd formerly use at 30.

But—when you want a quick burst of eager power—you can double the air supply as well as the gasoline feed—and come up with the highest horsepower that Buick's Fireball 8 Engine ever delivered.

Of course, any man who's buying a car as fine as a ROADMASTER wants a lot more than extra miles from a tankful of gas.

He wants the distinction of extra room, extra comfort, richer fabrics and all the other refinements that make a car truly fine.

He wants to ride with solid security, confident poise and lordly silence.

And, while he may not admit it, he yearns for a car that's full of fun.

All this, we promise you, and more will be yours when you take the responsive wheel of a ROADMASTER.

How about doing that—soon?

Equipment, accessories, trim and models are subject to change without notice.

JUNIORCRATS WIN AGAIN!

The Juniorcratic publicity committee for the promotion of the Juniorcratic cause in the Student Council election, planned and carried out a wild two-week campaign. It began with the distribution of campaign cards with pictures of the candidates on them, and continued with "An Open Letter To The Voters," "The Platform and Aims," painting the study hall windows, a 15-foot poster in study hall, and 20 other posters. In all, over 600 sheets of typing paper were used and 200 pictures distributed. Twelve poems advancing the Juniorcratic cause were put into the announcements, one each day. Stiff opposition was gallantly

provided to the very end but failed to do the harm intended. The election was held May 14 and resulted in victory for the Juniorcrats: president, Otto Riegger; vice-president, Dorothy Speer.

New Social Security For Self-Employed Persons Explained

When the owners or partners of trades and businesses filed their 1951 income and self-employment income reports, and paid the taxes due, they acquired four of the six "quarters of coverage" necessary for Old-Age and Survivors Insurance protection under the social security law, Raymond C. Backus, manager of the Jackson office of the Social Security Administration said today.

Backus reported that a number of claims of persons 65 or over had been filed since January 1, because the four "quarters of coverage" from 1951 self-employment added to previously earned wage credits made them insured. Some of them had substantial earnings in 1951 and have quit business. Many others have never had any coverage under Social Security before and find that the present quarter (April, May and June) will be the sixth "quarter of coverage" needed to make them insured.

Those who will be 65 before July 1, 1954, find that they need only the six quarters to be able to draw benefits at retirement. However, for the self-employed, now 65 years of age, or over, to obtain the maximum payment possible of \$80.00 a month, he must have reported self-employment income of \$3,600.00 for the years of 1951 and 1952 and defer filing his application for benefits until January, 1953," Backus said.

SIXTH GRADE

The sixth graders are studying the continent of Asia, particularly India, China and Japan. In arithmetic they are reviewing so they will be ready to go into the seventh grade. In English they are learning the different parts of a sentence and also are studying nouns, pronouns and verbs. The last issue of the "Monthly Press" is being worked on also.

SEVENTH-EIGHTH GRADES

The seventh grade put on the entertainment for the eighth grade day. The seventh grade gave the skit "Glad Story" and the eighth graders produced "Clementine." George Staffan was master of ceremonies for the evening.

Movies ...

The Sociology class saw a movie entitled "Children of the City," which was based on a town of Actland. It showed how slum areas, lack of education, little or no parental guidance and bad friends all contributed to juvenile delinquency; and also showed how three separate cases were handled.

The movie "The People of the U.S.S.R." was shown to the Civics class. This showed the various provinces, the different types of people, their characteristics and customs, their work, homes, cultural traits and education.

Grade News ...

Miss Demary's fourth grade class saw an interesting movie, "The Children of China."

Homemaking III class saw a movie on May 12 entitled "Life with Baby."

A Technicolor movie entitled "The Magic of Fluorescence" was shown to the chemistry class. It showed how fluorescent tubes are manufactured, tested and put to use.

Nation May Face Serious Shortage of Livestock Feed

The goal for corn plantings in 1952 calls for 106 acres for every 100 acres planted in 1951. According to Orin Bassett, chairman of the Washtenaw county Agricultural Mobilization Committee, this represents such a small acreage increase per farm that there should be little difficulty for Michigan farmers to meet the goal.

The intentions to plant report just issued by the U. S. Department of Agriculture indicates that Michigan farmers in their pre-planting season plans will seed 1,872,000 acres to corn. The goal for Michigan is 1,760,000 acres. This means that Michigan farmers will have to increase their March 1 estimated planting by 4 per cent if the goal is to be met.

According to Chairman Bassett, if our farmers do not plant the desired acreage, there is real danger of a very tight feed situation from 12 to 18 months. Unless yields are far above average it may mean that some livestock will have to be liquidated which would result in a very serious situation for the United States and for nations associated with the U. S. defense efforts.

Attention Ladies!

Cakes lined up—each with a number. Judges looking, breaking off pieces, tasting. The Winner? Number 4—a cake with a wonderful, glossy chocolate frosting.

This was at the Women's Club last night. Then Duke Thomas stepped up—his cake was Number 4! Seems his missus was laid up, so Duke took over—and won!

Here's Duke's prize-winning frosting recipe:

Melt 3 squares unsweetened chocolate in double boiler. Remove from heat, add 1/2 cup sifted confectioner's sugar and 2 1/2 tbs. hot water and blend. Add 3 eggs, one at a time, beating well after each. Add 4 tbs. butter, beating thoroughly after each. Fill and frost 6-inch, 2-layer cake.

From where I sit, we all have different abilities and tastes... and these differences are sometimes surprising. Duke bakes prize-winning cakes. My wife, for example, can beat most any man at checkers. Same when it comes to beverages—you may like coffee or tea while I prefer a refreshing glass of beer. But let's not have any "half-baked" ideas that people are all the same—or should be.
